A private security guard, who refused to identify himself or his firm, guards this road into the Nellis Air Force Base Range in Nevada where the top-secret Area 51 is located. According to John Lear, Jr., Area 51 contains a joint alien-C.I.A. underground base. This photo appeared in the Las Vegas Review-Journal on Sunday, October 11, 1987.

THE GRAND DECEPTION:

How the gray EBE's tricked MJ-12 into an agreement

A STATEMENT RELEASED BY JOHN LEAR, JR. ON DECEMBER 29, 1987

LEAR'S BACKGROUND

John Lear, a captain for a major U.S. airline, has flown over 160 types of aircraft in over 50 different countries. He holds 17 world speed records in the Lear Jet and is the only pilot ever to hold every airline certificate issued by the Federal Aviation Administration. Mr. Lear has flown missions worldwide for the C.I.A. and other government agencies. A former Nevada State Senator candidate, he is the son of William P. Lear, designer of the Lear Jet executive airplane, the 8 track stereo, and founder of Lear Siegler Corporation. Lear became interested in the subject of UFOs in November, 1986 after talking with U.S. Air Force personnel who had witnessed a UFO landing at Bentwaters AFB near London, England, and three small aliens walking up to the Wing Commander.

The first truth stated here got Giordano Bruno burned at the stake in A.O.1600 for daring to propose that it was real. The second truth has gotten far more people killed trying to state it publicly than will ever be known.

But the truth must be told. The fact that the Earth revolves around the sun was successfully suppressed by the church for over 200 years. It eventually caused a major upheaval in the church, government, and thought--A realignment of social and traditional values. That was in the 1800's.

Now, about 400 years after the first truth was pronounced, we must again

face the shocking facts: The "horrible truth" the government has been hiding from us over 40 years. Unfortunately, the "horrible truth" is far more horrible than the government ever imagined.

In its effort to protect democracy, our government sold us to the aliens. And here is how it happened. But before I begin, I'd like to offer a word in the defense of those who bargained us away. They had the best of intentions.

Germany may have recovered a flying saucer as early as 1939. General James H. Doolittle went to Sweden in 1945 to inspect a flying saucer that had crashed there on Spitzbergen Island.

The "horrible truth" was known by only a very few persons: They were indeed ugly little creatures, shaped like praying mantises and who were more advanced than us by perhaps a billion years. Of the original group that were the first to learn the "horrible truth", several committed suicide, the most prominent of which was General James V. Forrestal who jumped to his death from a 16th storey hospital window. General Forrestal's medical records are sealed to this day.

President Truman quickly put a lid on the secret and turned the screws so tight that the general public still thinks that flying saucers are a joke. Have I ever got a surprise for them.

MJ-12's continuity

In 1947, President Truman established a group of 12 of the top military and scientific personnel of their time. They were known as MJ-12. Although the group exists today, none of the original members are still alive. The last one to die was Gordon Gray, former Secretary of the Army, in 1984. As each member passed away, the group itself appointed a new member to fill the position. There is some speculation that the group known as MJ-12 expanded to at least several more members.

There were several more saucer crashes in the late 1940's, one in Roswell, New Mexico, one in Aztec, New Mexico, and one near Laredo, Texas, about 30 miles inside the Mexican border.

Consider, if you will, the position of the United States Government at that time. They proudly thought of themselves as the most powerful nation on Earth, having recently produced the atomic bomb, an achievement so stupendous, it would take Russia four years to catch up, and only with the help of traitors to Democracy. They had built a jet aircraft that had exceeded the speed of sound in flight. They had built jet bombers with intercontinental range that could

carry weapons of enormous destruction. The post-war era, and the future seemed bright.

Now imagine what it was like for those same leaders, all of whom had witnessed the panic of Orson Welles' radio broadcast, "The War of the Worlds", in 1938. Thousands of Americans panicked at a realistically presented invasion of Earth by beings from another planet. Imagine their horror as they actually viewed the dead bodies of these frightening looking creatures with enormous eyes, reptilian skin and claw-like fingers. Imagine their shock as they attempted to determine how these strange "saucers" were powered and could discover no part even remotely similar to components they were familiar with: no cylinders or pistons, no vacuum tubes or turbines or hydraulic actuators. It is only when you fully understand the overwhelming helplessness the government was faced with in the late 40's that you can comprehend their perceived need for a total, thorough and sweeping cover-up, to include the use of "deadly force".

The cover-up was so successful that as late as 1985 a senior scientist with the Jet Propulsion Laboratory in Pasadena, California, Dr. Al Hibbs, would look at a videotape of an enormous flying saucer and state for the record, "I'm not going to assign anything to that (UFO) phenomena without a lot more data". Dr. Hibbs was looking at the naked emperor and saying, "He certainly looks naked, but that doesn't prove he's naked."

Washington 'flap'

In July of 1952, a panicked government watched helplessly as a squadron of "flying saucers" flew over Washington, D.C., and buzzed the White House, the Capitol Building, and the Pentagon. It took all the imagination and intimidation the government could muster to force that incident out of the memory of the public.

Thousands of sightings occurred during the Korean War and several more saucers were retrieved by the Air Force. Some were stored at Wright-

Patterson Air Force Base; some were stored at Air Force bases near the location of the crash sites.

One saucer was so enormous and the logistic problems in transportation so enormous that it was buried at the crash site and remains there today. The stories are legendary on transporting crashed saucers over long distances, moving only at night, purchasing complete farms, slashing through forests, blocking major highways, sometimes driving two and three lo-boys in tandem with an extraterrestrial load a hundred feet in diameter.

meeting at Holloman AFB

On April 30, 1964, the first communication between these aliens and the U.S. Government took place at Holloman Air Force Base in New Mexico. Three saucers landed at a prearranged area and a meeting was held between the aliens and intelligence officers of the U.S. Government.

During the period of 1969-1971, MJ-12, representing the U.S. Government, made a deal with these creatures, called EBE's (Extraterrestrial Biological Entities, named by Detley Bronk, original MJ-12 member and 6th President of Johns Hopkins University). The "deal" was that, in exchange for "technology", that they would provide to us, we agreed to "ignore" the abductions that were going on and suppress information on the cattle mutilations. The EBE's assured MJ-12 that the abductions (usually lasting about two hours) were merely the ongoing monitoring of developing civilizations.

the reasons for abductions

In fact, the purposes for the abductions turned out to be:

(1) The insertion of a 3 mm spherical device through the nasal cavity of the abductee into the brain. The device is used for the biological monitoring, tracking and control of the abductee.

(2) Implementation of posthypnotic suggestion to carry out a specific activity during a specific time period, the actuation of which will occur within the next two to five years.

(3) Termination of some people so that they could function as living sources for biological material and substances.

(4) Termination of individuals who represent a threat to the continuation of their activity.

(5) Effect genetic engineering experiments.

(6) Impregnation of human females and early termination of pregnancies to secure the crossbreed infant.

abductees listed

The U.S. Government was not initially aware of the far-reaching consequences of their "deal". They were led to believe that the abductions were essentially benign and, since they figured the abductions would probably go on anyway whether they agreed or not, they merely insisted that a current list of abductees be submitted, on a periodic basis, to MJ-12 and the National Security Council. Does this sound incredible? **Read on, because I have news for you.**

The EBE's have a genetic disorder in that their digestive system is atrophied and not functional. Some speculate that they were involved in some type of accident or nuclear war, or possibly on the back side of an evolutionary genetic curve. In order to sustain themselves, they use an enzyme or hormonal secretion obtained from the tissue that they extract from humans and animals. (Note: Cows and humans are genetically similar. In the event of a national disaster, cow blood can be used by humans.)

The secretions obtained are then mixed with hydrogen peroxide and applied on the skin by spreading or dipping parts of their bodies in the solution. The body absorbs the solution, then excretes the waste back through the skin. The cattle mutilations that were prevalent throughout the period from 1973 to 1983 and publicly noted **through newspaper and magazine stories** and included a documentary produced by Linda Howe for the Denver CBS affiliate KMGH-TV, were for the collection of these tissues by the alien. The mutilations included genitals taken, rectums cored out to the colon, eyes, tongue, and throat all surgically removed with extreme precision. In some cases,

CONTINUED FROM PAGE 4

the incisions were made by cutting between the cells, a process we are not yet capable of performing in the field. In many of the mutilations there was no blood found at all in the carcass, yet there was no vascular collapse of the internal organs.

Major surgery on Sergeant

This has been also noted in the human mutilations, one of the first of which was Sergeant Jonathan P. Louette at the White Sands Missile Test Range in 1956. He was found three days after an Air Force Major had witnessed his abduction by a "disk shaped" object at 0300 while on a search for missile debris downrange. His genitals had been removed, rectum cored out in a surgically precise "plug" up to the colon, eyes removed and all blood removed with, again, no vascular collapse. From some of the evidence it is apparent that this surgery is accomplished, in most cases, while the victim, animal or human, is still alive.

The various parts of the body are taken to various underground laboratories, one of which is known to be near the small New Mexico town of Dulce. This jointly occupied (C.I.A.-alien) facility has been described as enormous, with huge tiled walls that "go on forever". Witnesses have reported huge vats filled with amber liquid with parts of human bodies being stirred inside.

underground base built

After the initial agreement, Groom Lake, one of this nation's most secret test centers, was closed for a period of about a year, sometime between about 1972 and 1974, and a huge underground facility was constructed for and with the help of the EBE's. The "bargained for" technology was set in place, but could only be operated by the EBE's themselves. Needless to say, the advanced technology could not be used against the EBE's themselves, even if needed.

During the period between 1979 and 1983, it became increasingly obvious to MJ-12 that things were not going as planned. It became known that many more people (in the thousands) were being abducted than were listed on the official abduction lists. In addition, it became obvious that some, not all, but some of the nation's missing children had been used

for secretions and other parts required by the aliens.

the Dulce massacre

In 1979, there was an altercation of sorts at the Dulce laboratory. A special armed forces unit was called in to try and free a number of our people trapped in the facility, who had become aware of what was really going on. According to one source, 66 of the soldiers were killed and our people were not freed.

error, "E.T." and terror

By 1984, MJ-12 must have been in stark terror at the mistake they had made in dealing with the EBE's. They had subtly promoted "Close Encounters of the Third Kind" and "E.T." to get the public used to "odd-looking" aliens that were compassionate, benevolent, and very much our "space brothers". MJ-12 "sold" the EBE's to the public, and were now faced with the fact that quite the opposite was true. In addition a plan was formulated in 1968 to make the public aware of the existence of aliens on Earth over the next 20 years to be culminated with several documentaries to be released during the 1985-1987 period of time. These documentaries would explain the history and intentions of the EBE's. The discovery of the "Grand Deception" put the entire plans, hopes and dreams of MJ-12 into utter confusion and panic.

Meeting at the "Country Club", a remote lodge with private golf course, comfortable sleeping and working quarters, and its own private airstrip built by and exclusively for the members of MJ-12, there was a factional fight of what to do now. Part of MJ-12 wanted to confess the whole scheme and shambles it had become to the public, beg their forgiveness and ask for their support.

The other part (and majority) of MJ-12 argued that there was no way they could do that, that the situation was untenable and there was no use in exciting the public with the "horrible truth" and that the best plan was to continue the development of a weapon that could be used against the EBEs under the guise of SDI, the Strategic Defense Initiative, which had nothing whatsoever to do with a defense for inbound Russian nuclear missiles.

As these words are being written, Dr. Edward Teller, "father" of the H-bomb, is personally in the test tunnels of the Nevada Test Site, driving his workers and associates in the words of one, "like a man possessed". And well he should, for Dr. Teller is a member of MJ-12 along with Dr. Kissinger, Admiral Bobby Inman, and possibly Admiral Poindexter, to name a few of the current members of MJ-12.

Before the "Grand Deception" was discovered and according to a meticulous plan of metered release of information to the public, several documentaries and videotapes were made. William Moore, a Burbank, California-based UFO researcher who wrote "The Roswell Incident", a book published in 1980 that detailed the crash, recovery and subsequent cover-up of a UFO with four alien bodies, has a videotape of two newsmen interviewing a military officer associated with MJ-12.

This military officer answers questions relating to the history of MJ-12 and the cover-up. the recovery of a number of flying saucers and the existence of a live alien (one of three living aliens captured and designated, or named EBE-1, EBE-2 and EBE-3, being held in a facility designated as YY-II at Los Alamos, New Mexico. The only other facility of this type, which is electromagnetically secure, is at Edwards Air Force Base in Mojave, California). The officer names those previously mentioned, plus a few others: Harold Brown, Richard Helms, General Vernon Walters, JPL's Dr. Lew Allen and Dr. Theodore von Karman, to name a few of the current and past members of MJ-12.

Christ on film?

The officer also relates the fact that the EBE's claim to have created Christ. The EBE's have a type of recording device that has recorded all of Earth's history and can display it in the form of a hologram. This hologram can be filmed but, because of the way holograms work, does not come out very clear on movie film or videotape. The crucifixion of Christ on the Mount of Olives has allegedly been put on film to show the public. The EBE's claim to have created Christ, in view of the "Grand Deception", could be an effort to disrupt traditional values for undetermined reasons.

Another videotape allegedly in existence is an interview with an EBE. Since EBE's communicate telepathically, an Air Force Colonel serves as an interpreter. Just before the recent stock market correction in October of 1987, several newsmen, including Bill Moore, had been invited to Washington, D.C. to personally film the EBE in a similar type interview, and distribute the film to the public. Apparently, because of the correction in the market, it was felt the timing was not propitious. In any case, it certainly seems like an odd method to inform the public of extraterrestrials, but it would be in keeping with the actions of a panicked organization who, at this point in time, doesn't know which way to turn.

two Project Aquariuses

Moore is also in possession of more Aquarius documents, a few pages of which leaked out several years ago and detailed the supersecret NSA project which had been denied by them until just recently. In a letter to Senator John Glenn, NSA's Director of Policy, Julia B. Wetzel, wrote, "Apparently there is or was an Air Force project with that name (Aquarius) which dealt with UFO's. Coincidentally, there is also an NSA project by that name." NSA's project Aquarius deals specifically with the "communications with the aliens" (the EBE's). Within the Aquarius program was project "Snowbird", a project to test fly a recovered alien aircraft at Groom Lake, Nevada. This project continues today at the location. In the words of an individual who works at Groom Lake, "Our people are much better at taking things apart than they are at putting them back together."

Moore, who claims he has a contact with MJ-12, feels that they have been stringing him along, slipping him documents and providing him leads, promising to go public with some of the information on extraterrestrials by the end of 1987.

Certain of Moore's statements lead one to believe that Moore himself is a government agent working for MJ-12, not to be strung along, but string along ever hopeful UFOlogists that the truth is just around the corner.

Consider:

(1) Moore states emphatically that he

CONTINUED FROM PAGE 6

is not a government agent, although when Lee Graham (a Southern California-based UFOlogist) was investigated by DIS (Defense Investigative Service) for possession of classified documents received from Moore, Moore himself was not.

- (2) Moore states emphatically that the cattle mutilations of 1973-1983 were a hoax by Linda Howe (producer of "A Strange Harvest") to create publicity for herself. He cites the book "Mute Evidence" as the bottom line of the hoax. "Mute Evidence" was a government sponsored book to explain the mutilations in conventional terms.
- (3) Moore states that the U.S.A.F. Academy physics book, "Introductory Space Science", vol.II, chapter 13, entitled "Unidentified Flying Objects", which describes four of the most commonly seen aliens (one of which is the EBE) was written by Lt. Col. Edward R. Therkelson and Major Donald B. Carpenter, Air Force personnel who did not know what they were talking about and were merely citing "crackpot" references. He, Moore, states that the book was withdrawn to excise the chapter.

If the government felt they were being forced to acknowledge the existence of aliens on Earth because of the overwhelming evidence such as the October and November sightings in Wytheville, Virginia, and recently released books such as "Night Siege" (Hynek, J. Allen; Imbrogno, Phillip J.; Pratt, Bob, Ballantine Books, Random House, New York), and taking into consideration the "Grand Deception" and obviously hostile intentions of the EBE's, it might be expedient for MJ-12 to admit the EBE's but conceal the information on the mutilations and abductions. If MJ-12 and Moore were in some kind of agreement then it would be beneficial to Moore to toe the party line. For example, MJ-12 would say..."here are some more genuine documents...but remember...no talking about the mutilations or abductions". This would be beneficial to Moore as it would supply the evidence to support his theory that E.T.'s exist but deny the truths about the E.T.'s. However, if Moore was indeed working for MJ-12, he would follow the party line anyway...admitting the E.T.'s but pooching the mutilations and abductions. If working

alone, Moore might not even be aware of the "grand deception".

the Doty interview

Time will tell. It is possible that Moore will go ahead and release the video interview with the military officer around the first of the year, as he has promised. From MJ-12's point of view, the public would be exposed to the information without really having to believe it because Moore is essentially not as credible a source as, say, the President of the United States. After a few months of digestion and discussion, a more credible source could emerge with a statement that "Yes, in fact, the interview was essentially factual". This scenario would cushion somewhat the blow to the public. If, however, Moore does not release the tape by, say, February 1 of 1988, but comes instead with a story similar to: 'MJ-12 has informed me that they are definitely planning a release of all information by October of '88. I have seen the plan and have seen the guarantee that this will happen, so I have decided to withhold the release of my videotape at this time as it may cause some problems with MJ-12's plans.' This would, in effect, buy more time for MJ-12 and time is what they desperately need. ED. NOTE: The military officer is Richard C. Doty, also known as "Falcon".

Now you ask, "Why haven't I heard about any of this?" Who do you think you would hear it from? Dan Rather? Tom Brokaw? Sam Donaldson? Wrong. These people just read the news. They don't find it. They have ladies who call and interview witnesses and verify statements on stories coming over the wire (either AP or UPI). It's not likely Dan Rather would go down to Wytheville, Virginia, and dig into why there were 4,000 reported sightings in October and November of 1987. Better that Tom Brokaw or someone else should risk their credibility on this type of story. Tom Brokaw? Tom wants Sam Donaldson to risk his credibility. No one, but no one is going to risk their neck on such outlandish ideas, regardless of how many people report sightings of 900 foot objects running them off the road. In the case of the Wytheville sightings, dozens

CONTINUED FROM PAGE 7

of vans with NASA lettered on the side failed to interest newsmen. And those that asked questions were informed that NASA was doing a weather survey.

Well then, you ask, what about our scientists? What about Carl Sagan? Isaac Asimov? Arthur C. Clarke? Wouldn't they have known? If Carl Sagan knows then he is committing a great fraud through the solicitation of memberships in the Planetary Society, "to search for extraterrestrial intelligence". Another charade into which the U.S. Government dumps millions of dollars every year is the radiotelescope in Arecibo, Puerto Rico, operated by Cornell University with-guess who?-Carl Sagan. Cornell is ostensibly searching for signals from outer space, a sign maybe, that somebody is out there. It is hard to believe that relatively intelligent astronomers like Sagan could be so ignorant.

What about Isaac Asimov? Surely the most prolific science fiction writer of all time would have guessed by now that there must be an enormous cover-up? Maybe, but if he knows, he's not saying. Perhaps he's afraid that Foundation and Empire will turn out to be inaccurate.

What about Arthur C. Clarke? Surely the most technically accurate of science fiction writers with very close ties to NASA would have at least a hint of what's really going on. Again, if so, he isn't talking. In a recent science fiction survey, Clarke estimates that contact with extraterrestrial intelligent life would not occur before the 21st Century.

more questions about EBEs

If the government won't tell us the truth and the major networks won't even give it serious consideration, then what is the big picture, anyway? Are the EBE's, having done a hundred thousand or more abductions (possibly millions worldwide) and built an untold number of secret underground bases (Groom Lake, Nevada; Sunspot, Datil, Roswell and Pine Town, New Mexico, just to name a few) getting ready to return to wherever they came from? Or, from the obvious preparations, are we to assume that they are getting ready for a big move? Or is the more sinister and most probable situation that the invasion is essentially complete and it is all over but the screaming?

A well planned invasion of Earth for its resources and benefits would not begin with mass landings of ray-gun equipped aliens. A properly planned and

executed invasion by a civilization thousands and probably hundreds of thousands of years in advance of us would most likely be complete before even a handful of people, say 12, realized what was happening. No muss, no fuss.

The best advice I can give you is this: Next time you see a flying saucer and are awed by its obvious display of technology and gorgeous lights of pure color--RUN LIKE HELL!

EDITORIAL COMMENT: In paragraph 6 on page 3, sentence 3, one person who was present at an MJ-12-Aquarius meeting at Wright-Patterson AFB in the late 1940' or early 1950's, and is still alive, aged 79 as of 1989, is Eric Arthur Walker, Ph.D former President of Pennsylvania State University. He still has his original notes from those meetings. He has agreed and then changed his mind about releasing these notes to MUFON. We will have more to say about him in our next issue.

-Page 3, paragraph 4, sentence 1, the eye and the skin colour looked like praying mantises, not the body structure.

-Page 4, paragraph 3- this meeting was alluded to in the motion picture "Close Encounters of the Third Kind", with the locale transferred to Devil's Mountain in Wyoming. This motion picture was MJ-12's way of presenting the facts to the public in a fictionalized form. Later public revelations by the U.S. Government could then make mention of the movie. One story has it that a few of movie producer Stephen Spielberg's associates during the making of this film and the movie "E.T." worked for the National Security Agency, which is connected to MJ-12 and Project Aquarius.

Since hydrogen is found in water, perhaps the numerous reports of underwater UFOs and underwater UFO bases in various books and articles have some relevance here. The EBE's could be distilling hydrogen from the water in order to make hydrogen peroxide so they can ingest nourishment. Such bases would be essential for the EBE's to operate on this planet.

Same paragraph-if they get nutrition through their skin, this would be in direct contrast to the statement made in the U.S. TV documentary, "UFO Cover-up? Live!" which appeared on American television on October 14, 1988. On that show, it was stated that the aliens prefer vegetables and especially like ice cream. If they cannot taste the vegetables and ice cream as these might be liquefied and absorbed through the skin, then how could they express a preference for these foods? At least, humans can say they like certain food through their taste buds. How could aliens taste food? It has also been stated that there is just a slit where the mouth would be and that the mouths do not open. That, too, contradicts the information given on the TV show.

-Page 5, column 1, paragraph 1-Precision surgery of this type could be done using advanced laser scalpels.

-Page 5, column 1, paragraph 3-this sounds a bit like the aliens in the TV series "V" which was on U.S. and Canadian television networks a few years ago. Was this series an attempt by MJ-12 to warn us that it had found out the real intent of the aliens and wished it hadn't made the agreement with them? The use of the media is very effective in getting points across in a subtle way, i.e. using fact, disguised as fiction. Only recently, in late 1988, was there another such hint, with the new series based on "The War of the Worlds", which shows the aliens reviving after the humans thought they had destroyed them.

-Page 5, column 2, paragraph 5-Why is the U.S. continuing to develop the SDI while glasnost and perestroika and disarmament are going on in the Soviet Union? Is what Lear saying here correct?

-Page 6, column 1, paragraph 3-if the EBE's captured by the U.S. are held in Los Alamos and at Edwards AFB, why would the newsmen and Bill Moore have to go to Washington, D.C. to film the EBE-see Page 6, column 2, paragraph 1?

-Page 6, column 2, paragraph 1- Lear is referring here to the interview with an EBE as if this is not the proper way to tell the public of the

existence of EBE's. One wonders what the proper way is.

-Page 6, column 2, paragraph 4 and page 7, column 1, paragraphs 1, 2 and 3- added information from various source may add to Lear's suspicions about Moore, but so far all we have is some speculation.

-Page 7, column 2, paragraph 2-Moore has released the videotape of the military officer, who is Richard C. Doty, although, according to Bob Girard, a ufologist and owner of Arcturus Book Service in Stone Mountain, Georgia, the interview is rather stilted as the two newsmen "fed" Doty questions.

J: "We're thinking about doing something in a very short time."

LF: "Within a month or two?"

J: "Yes."

LF: "Are there two Richard Doty's?"

J: "Not that I know of. There is the Richard C. Doty who is the Sergeant but, apparently, somebody else was answering for Doty at the club that he worked in in Albuquerque. Either it was Doty himself saying "You've got the wrong Doty, or it was somebody else they put in there with Doty's name."

LF: "Do you think that Bill Cooper is really legit?" **ED. NOTE**: Bill Cooper is a ufologist and U.S. Military veteran heavily involved with research on the alien-C.I.A. connection theory.

J: "Absolutely. I have his service records on my desk. I know about service records and they look authentic to me. And I've talked to Tony Pelham who did talk to Swann (**ED. Note**: we are uncertain about the spelling of these latter two men) and also Tony Pelham who is a newspaper guy here in Las Vegas and he's independently verified some of Cooper's background statements."

LF: "Has Cooper had any flak lately?"

J: "Yes. He's had two guys move into the apartment directly over him. The other family was moved out. There's no furniture or anything. He doesn't know what the purpose was and he was told in a bar the

other day that that there was somebody strange there. He asked what's its purpose was. The guy said "I just wanted to let you know that some people are for you and some people against you. You better watch your step."

LF: "Have you talked to Dr. Paul Bennewitz personally?"

J: "Yes. I spent two or three days with Bennewitz in August of 1987."

LF: "What do you think of him in terms of his scientific credentials and credibility as a researcher?"

J: "I've always backed his stuff. Unfortunately, when I met him, I didn't know much about this UFO stuff and the stuff he was telling me which I have to tell you has all turned out to be 100% true. I just couldn't even fathom what he was telling me. It just sounded so far out that it was just unbelievable."

HT: "Do you know anything about the ratio between the aliens and the military in that base at Dulce?"

J: "Do you mean before the massacre?"

HT: "Before the massacre, yes. Was it evenly split?"

J: "I really don't know. Right now there's

supposedly three separate underground facilities. One occupied by the U.S., one occupied by the aliens, and one jointly occupied. How it works, I don't know, but there's a lot of activity going on there."

LF: "Do you know about Dr. Eric Arthur Walker, the former President of Pennsylvania State University? Is he in possession of the notes from the original MJ-12 meetings?"

JL: "I don't know anything except that William Steinman sent me a copy of the secret code letter and I've given it to several people to try and decode. We have not done a very good job on it."

HT: "Are you still trying to get anything through the Freedom of Information Act?"

JL: "No. About four weeks ago I got everything that I will ever need to know. It was quite an experience."

HT: "What is that?"

JL: "That's all I can tell you."

HT: "Did you get that through the FOIA?"

JL: "No. I can't tell what I got but it is all I ever need to know about what's going on. I got the total bottom line."

HT: "What are you planning to do with that? Is there any chance of sharing that?"

JL: "Maybe, but it was in the form of a briefing."

LF: "Is any of that possible in Las Vegas at the MUFON Symposium?"

JL: "No. I can't talk about it any more."

LF: "If you were to present it publicly somehow, how would you do it? In what form? Would it be print-- a book or a video?"

JL: "No, because of the nature of who gave me the briefing, it would make it impossible."

HT: "Why was it given to you?"

JL: "That would give away why and possibly who gave it."

JL: "I wish I could share this."

HT: "Is there any possibility that you will be able to?"

JL: "Maybe. Some things can happen here in a month or so that you'll see my name on. It won't be what we've been discussing. I can tell you this. My hypothesis that I wrote is, except for a few dates which were a couple of months in error, were exactly right. Everything in there was correct."

JL: "What's your opinion of the Billy Meier case?"

HT: "I'm still open on it. It sounds rather interesting. I'd originally written it off as a hoax, but I've come 180 degrees since then."

JL: "I'm the same as you. There is a lot of validity to it."

LF: "Does what you've recently heard fill in gaps for you, based on what you've said previously?"

JL: "All I can say is that it blew my mind."

HT: "Do you consider it very credible?"

JL: "Absolutely."

LF: "How do you think the public would take this? And, if you presented it to them, how would you possibly do it?"

JL: "I don't know how the public would take it. Everybody says to me: 'What you need is proof, John.' All I can tell them is that I think that if the President and his Joint Chiefs of Staff with an alien on each arm gave the truth about flying saucers, half the public still wouldn't believe it."

LF: "Do you think Bill Moore is programmed by the aliens?"

JL: "I don't know. I know he's been bad-mouthing me lately. I just don't understand why he's so upset."

HT: "Speaking about the public, do you think there's a program underway? Or do you think that it's too far gone to start an education program?"

J: "There's a program under way. The first stuff on-TV other than that movie last year (ED. NOTE: UFO Cover-Up? Live!) was the Minolta camera ad during the Olympics. With the grays. That was made by the government. There's supposed to be a lot of TV stuff coming out in the next 90 days. They're going to slant it that they're on our friends and we should not get upset. They're going to march us just exactly like the Holocaust."

HT: "Even though they've discovered differently?"

J: "Yes."

HT: "Do you think we're being sold out?"

J: "They don't want any panic right to the very end."

HT: "So it's complete collusion?"

J: "Yes. Either forced or willing. I don't know."

LF: "Do you think the end is in the next year or so?"

J: "No. Two to five years is what my sources tell me."

HT: "Have you talked to Edward Teller?"

J: "No, but I know guys that have."

HT: "Has he made any remarks outside of the fact that he's driving the guys like crazy for the SDI thing?"

J: "No. The only remark came from the close friend in Dallas when she said "Tell me what you know about UFOs?" He said, I cannot discuss it. It's the most highly classified subject in the U.S. today, but watch the Middle East." That comment was made some time ago and I've been watching and I still don't understand the comment."

HT: "Do you know about Dreamland--area 51?"

J: "Yes. That's where my sources are. Let me tell you something about technology.

Think of all the most advanced technology that you can possibly imagine, that Russia or the U.S. has, and that's five percent of what we've got."

saucer buried in 1988

HT: "Have there been any other UFO accidents that they covered up with the Stealth- National Security curtain?"

J: "You mean UFO accidents?"

HT: "Yes."

J: "I don't know whether they were accidents. About six months ago, a friend of mine saw a saucer being buried in Dreamland. They just took out a bulldozer and bulldozed some dirt and buried the damn thing. But I don't know where that one came from. And there was a report of one that crashed up there, but it was some time period different from the one that they just buried."

LF: "Why do you think they buried it?"

J: "I don't know whether they didn't have room for it or what."

LETTER TO THE EDITOR

Dear Sirs:

I have just read with interest your Bulletin Jan-Feb., 1989.

I was particularly interested in "One Man's Opinion", page 11, by Nick Edwards. What a marvellous suggestion. If only others would think more in terms of getting as much information in a central unit- we might come up with more answers! We are all, in our individual groups working on the same project- that is- to try and find out more behind the UFO scene and a Central Unit would be most helpful.

I would be most interested to see what sort of response is received concerning a Central UFO Organisation. We, for one, feel it is what is now needed for our group. Yours faithfully,
 Frances Copeland, Secretary, Contact International(UK), Oxford, England
