The sighting mentioned in the form above is one of hundreds on file with the Canadian Government's National Research Council in Ottawa, Ontario. None have been fully investigated by any government department, including the Royal Canadian Mounted Police to whom the report was made in this instance. These simple forms are merely filed. See pages 3, 4 and 5 for the remainder of the NRC file on this case.

## UFO SERVICE

Enlarged listing of 162 sources of worldwide UFO information, Send \$5 cheque or money to Investigator/lecturer George D. Fawcett, 602 Battleground Road, Lincolnton, North Carolina 28092, U.S.A. If from overseas, write first for extra cost for postage /handling

## Have you seen a UFO? Have you had contact with an alien intelligence?

The National UFO Museum is engaged in a research project to get to the truth of the UFO phenomenon. Any information you have on the subject is vital to unravelling this mystery.

If you have had a sighting or contact, please send us a description and include as much of the following information as you can recall:

1. Time, Date and Location.
2. Describe the Incident.
3. Can you Draw what you saw?
4. Were there any Photos, Physical evidence, or other Witnesses?
5. Include any other relevant evidence and information.

Please send to: National UFO Museum, P.O. Box 20593, Sun Valley, NV 89433 U.S.A..

# BRAZILIAN AIR FORCE CAPTAIN, AMONG FOUR PILOTS IN MID-AIR ENCOUNTER

by Pedro Cid, of *Diario Ilustrado*, Rio De Janeiro

*Captain Lemos Ferreira*

Three or four UFOs were involved in a mid-air encounter with four Brazilian Air Force planes on September 4, 1957.

The encounter occurred over the Caribbean island of Granada at 8.21 p.m., according to the witnesses. There were magnetic effects, making this a CE2.

Captain Lemos Ferreira was leading a squadron of F-84G airplanes along with three other pilots, Manuel C.N. Marcelino, Alberto A.P. Covas, and Salvador A. Oliveira. They were on a training flight at 25,000 feet when the Captain noticed the presence of a round light source with unusual features. All the pilots were surprised by such

brightness, and the fact that its central part changed colour from green to red.

As they kept flying, they observed the object changing its shape from circular to oval. At the same time, it lost brightness and became an object of larger dimension. Then, another circle appeared to drop two luminous circles of red light. Suddenly, all the objects, the oval one followed by four circles of light, started flying toward the airplanes and at an incredible speed they passed behind and under them, confusing the pilots.

The Meteorological Observatory of Coimbra registered an extraordinary magnetic field fluctuation at that time..

This article appeared in the November 16, 1957 issue of the newspaper. The reporter was allowed to interview the pilots by two Generals, Costa Macedo and Venancio Deslandes.

**CANADA'S INTERNATIONAL  
IMMUNIZATION PROGRAM**

**HELPING  
CHILDREN  
BEAT THE ODDS**

Canada is an important partner in the global effort to help children in the developing world beat the odds against six deadly, but preventable, diseases. Today, 80 per cent of children under the age of one are protected against measles, polio, tuberculosis, tetanus, whooping cough and diphtheria - compared to only five per cent 20 years ago.

This translates into more than three million young lives saved each year. Despite these encouraging statistics, nearly two million children a year still die for lack of immunization. The odds can be beaten with your help.

For more information on how you can help support this program, please contact:

## HUNGARIAN GETS UNUSUAL CHRISTMAS GIFT

by *Tarcali Gabor, HUFON*

The observation of unidentified objects and unknown phenomena increased in Bekes County in Hungary in the last six months of 1992.

Mainly, Bekes, a little town, and the nearer places have become the scene of these kinds of sightings. A series of unexplainable events happened in the house of Mr. Jozsef Petras, a basket-maker in Bekes on December 4, 1991. Since then, we were informed about another surprising event which occurred on December 26, 1991. The witness or the victim, was Mr. Istvan Balogh, 21, who was on Christmas holiday from active duty in Oroshaza as a border guard.

The story really started earlier, on December 13, 1991, when a voice from an unknown source awakened him. He sat up in his bed, looked around and sought the speaker, but did not find anything. He was already inclined to think that he had a day dream, but the voice, with a mechanical tone, said three times 'You will meet us'. He was very surprised. He did not understand who was talking to him. He was just sure he heard these words, or rather he thought he heard this message. Probably, the message was given to him telepathically, this being the usual form of communication in similar events.

Then the message was repeated for the next 11 nights at the same time and the same form. Balogh did not speak about what had happened. He thought nobody would believe him and he did not want to make himself seem ridiculous. His nights were terrible and he could scarcely sleep.

The promised meeting was on December 26, 1991. Istvan was going to the cinema with his friends and he got home at 15 minutes after midnight. He entered the gate. When he reached the terrace of the house, he suddenly caught sight of an unknown object over the courtyard at a height of a few meters. The object was bright, yet gray and disk-shaped. Its diameter was about four meters. Its height was about 2.5 meters. At that moment, Balogh lost control over his will. He felt as though something was forcing him to go under the UFO.

When he did so, a ray of light with a diameter of 50-60 centimeters descended from the UFO. He entered the ray and immediately he was inside the UFO. This unknown vehicle probably consisted of only one compartment or room. There was a window with a diameter of about 1.5 meters. He looked out of this window and he saw his courtyard.

The floor was bright; the walls were gray and smooth. Two beings were in the room. Their shape was normal, human-like. They were 120-140 centimeters in height. Their heads and eyes were large. They had only three fingers on longish hands. Their dress was black and skin-tight; the uncovered skin was green. One being was working on the controls, but the other dealt with Istvan. This being talked to him in Hungarian (Again, it might have been through telepathy), but Istvan felt it was in a normal speaking voice. The stranger told Istvan that he had been watched for three years and he would be taken away. The being said their trip was 15 million light years long, but the time of this trip was very short due to a dimension change.

Later, the being emitted a green light onto Istvan's forehead. Since then he has not remembered clearly. He has only some fragmentary memory about travel over the Moon and its craters, from which light filtered through. Then he saw pyramids in a view from above. He does not know whether these were terrestrial or extraterrestrial, but he remembers their positions.

He later found himself two meters from where he had first encountered the UFO. He was on his knees leaning over the ground as do Moslems when they pray. He had a terrible headache. He trembled and felt dizzy. His face was distorted and he could not stand up. It was 2 a.m. He went back into his house and told his parents what had happened. The parents did not see anything. They had slept calmly, but they noticed their son was in a terrible condition. They did not doubt the truth of his words. Istvan had to go back to the barracks but he could not walk. A physician was called and he was taken by ambulance. He reported to his superiors what had happened. Naturally, he was not believed. He insisted on his story, so he was sent for a medical examination to the nearest hospital in Gyula, and then to the Central Hospital of the Ministry of the Interior in Budapest, specifically to the mental ward. They thought that if somebody tells this kind of story, this man must be drunk or a sensation-seeker or insane. Unfortunately, this is the usual opinion. In this case, they thought he was insane. But the final result of his medical differed from their expectations. Istvan was declared sane. He was discharged from active service. The official reason given was unreliability, so he was unfit for further military service.

Recently, we noticed that several persons who have had close encounters had a little piece of platinum in their body or bones. For example, note the following: an old man was taken away by a UFO. He had a small rod of platinum in his left thigh. After the close encounter, several marks consisting of three dots were found in his thigh above the metal. These marks looked like his skin had been pressed by fingers. It is very interesting because Istvan's arm had also been broken earlier and he also had a platinum implant. During the encounter, this rod had already been removed, but it is possible that certain traces of the platinum remained in his body.

Summarizing the main characteristics of these cases, it is possible that metal implants may play a role. It is also probable that strange beings are also interested in materials implanted in the human body and maybe in medical technology too. I think this is not surprising. Their activities have shown this strong interest. People, plants, animals, technology, factories, warfare, aerospace technology, - these fields stand out as the center of their interests.

#### LETTER TO THE EDITOR ;

October 30, 1995

Dear Editor,

I have just purchased the book UFO Experiences in Canada, and I have something to tell you that might be of interest. I have always known that we are not alone, and since I recently saw a program on TV "Alien Autopsy", I am absolutely sure. I have also watched the movie based on the Roswell incident. My experience is not quite as spectacular as those, but to this day my friend and I believe both saw a UFO.

It was the summer of 1965, and my friend invited me to his place for supper. After supper, we went up to his room to read some books and play some games. His room faced the road and on the other side of the road there was a big pasture and the rest was thick woods as far as the eye could see. That particular evening he had a telescope setup on a stand in front of his window for the purpose of looking at birds in the trees across the road. This evening, though, we noticed something strange in the night sky parallel to the tree tops. It was like a star had moved out of position in the sky and fell to the trees, and just stopped. At first, we actually thought it was a falling star and were waiting for it to fade. It did not fade at all.

It came to an abrupt stop right above the tree line. His telescope was only a toy one and we could not get it in any closer. What we saw was a round white dot with an orange-red ring in the middle of it. It stayed there above the trees for a good three to four minutes. Then, as suddenly as it appeared it shot straight up and out of sight, all the rest of that evening we kept looking to see if we could see it again, but it was gone.

Yours truly,  
E.P. Tapley  
Pembroke, Ontario

## Notes from the Hangar

The National UFO Museum's quarterly journal of UFOlogy, *Notes from the Hangar*, is now available to the general public. With a lively letter column, cutting edge articles, probing book reviews, in-dept interviews and fascinating Close Encounter Reports this is a must read. 64 pages, digest size. While subscriptions are only available to members of the museum's Friends of the Museum Association, individual copies may be obtained by sending \$4.95 (postage paid in the U.S., add \$1.00 for Canada, \$2.00 for over-seas Air Mail) to:

## Canada's 'X-Files' reveal UFO sightings

Police, military and scientists across the country have received 186 official reports

### Canadian Press

Dean was driving west late one Alberta night when he spotted strange lights in the sky.

The bright lights — forming a green, red and yellow triangle — dimmed as they passed over the stretch of road just east of High Prairie.

They regained their luminous glow before darting off at a rapid clip — too fast for a normal aircraft.

Dean is among dozens of Canadians who reported seeing an unidentified flying object last year.

His description of the eerie encounter is one of 186 official UFO reports filed with the police, military and federal scientists.

Call them Canada's X-Files — something like the popular TV tales of two FBI agents who investigate paranormal phenomena.

The sighting reports, tucked away in cardboard boxes at the National Archives in Ottawa, would make fine fodder for the spooky series.

The reports, kept in folders labelled non-meteoritic sightings, include neatly typed police files, handwritten letters, drawings and interview transcripts about celestial oddities across the country. The files were released with most names deleted.

A veteran North Vancouver stargazer reported seeing a dark, arrow-head-shaped object — three times the size of a jumbo jet — with orange-yellow lights at the tips.

"There was absolutely no sound and the speed was incredible. This was certainly no aircraft or weather balloon," the witness said in a letter to the federal Herzberg Institute of Astrophysics. "I found the experience a little disturbing, to say the least."

A Langley, B.C., woman told police two star-like objects came down from the sky and followed her car one spring evening.

She became scared, pulled over and turned her lights off in time to see the "stars" take off with three airplanes in pursuit.

RCMP in Gimli, Man., received a report from two people who saw "a large donut-shaped object" flying toward Lake Winnipeg. The white object, about 100 metres in diameter, had as many as 12 pulsating lights running evenly around its rim.

A father and son were walking around Taharti Lake near Quesnel, B.C., one summer day when they saw a clear, oval-shaped object about the size of a car. It hovered above the water for three minutes, then sped off.

They returned to their cabin and told three companions of the sighting. Oddly, all five later realized they had "lost" a day.

Two who left the site on July 22 discovered it was really the 23rd.

The others left on the 23rd, only to hear on the car radio that it was the 24th.

"We were somewhat surprised," the son told an RCMP constable. "When we stopped for gas, we confirmed that it was actually a day later."

A Nova Scotia woman was driving to Halifax one autumn night when she and her passenger saw a dark, diamond-shaped craft featuring a detailed pattern of white lights.

It hovered noiselessly overhead for a couple of minutes before speeding off to the west.

Some sightings took place high above the Earth.

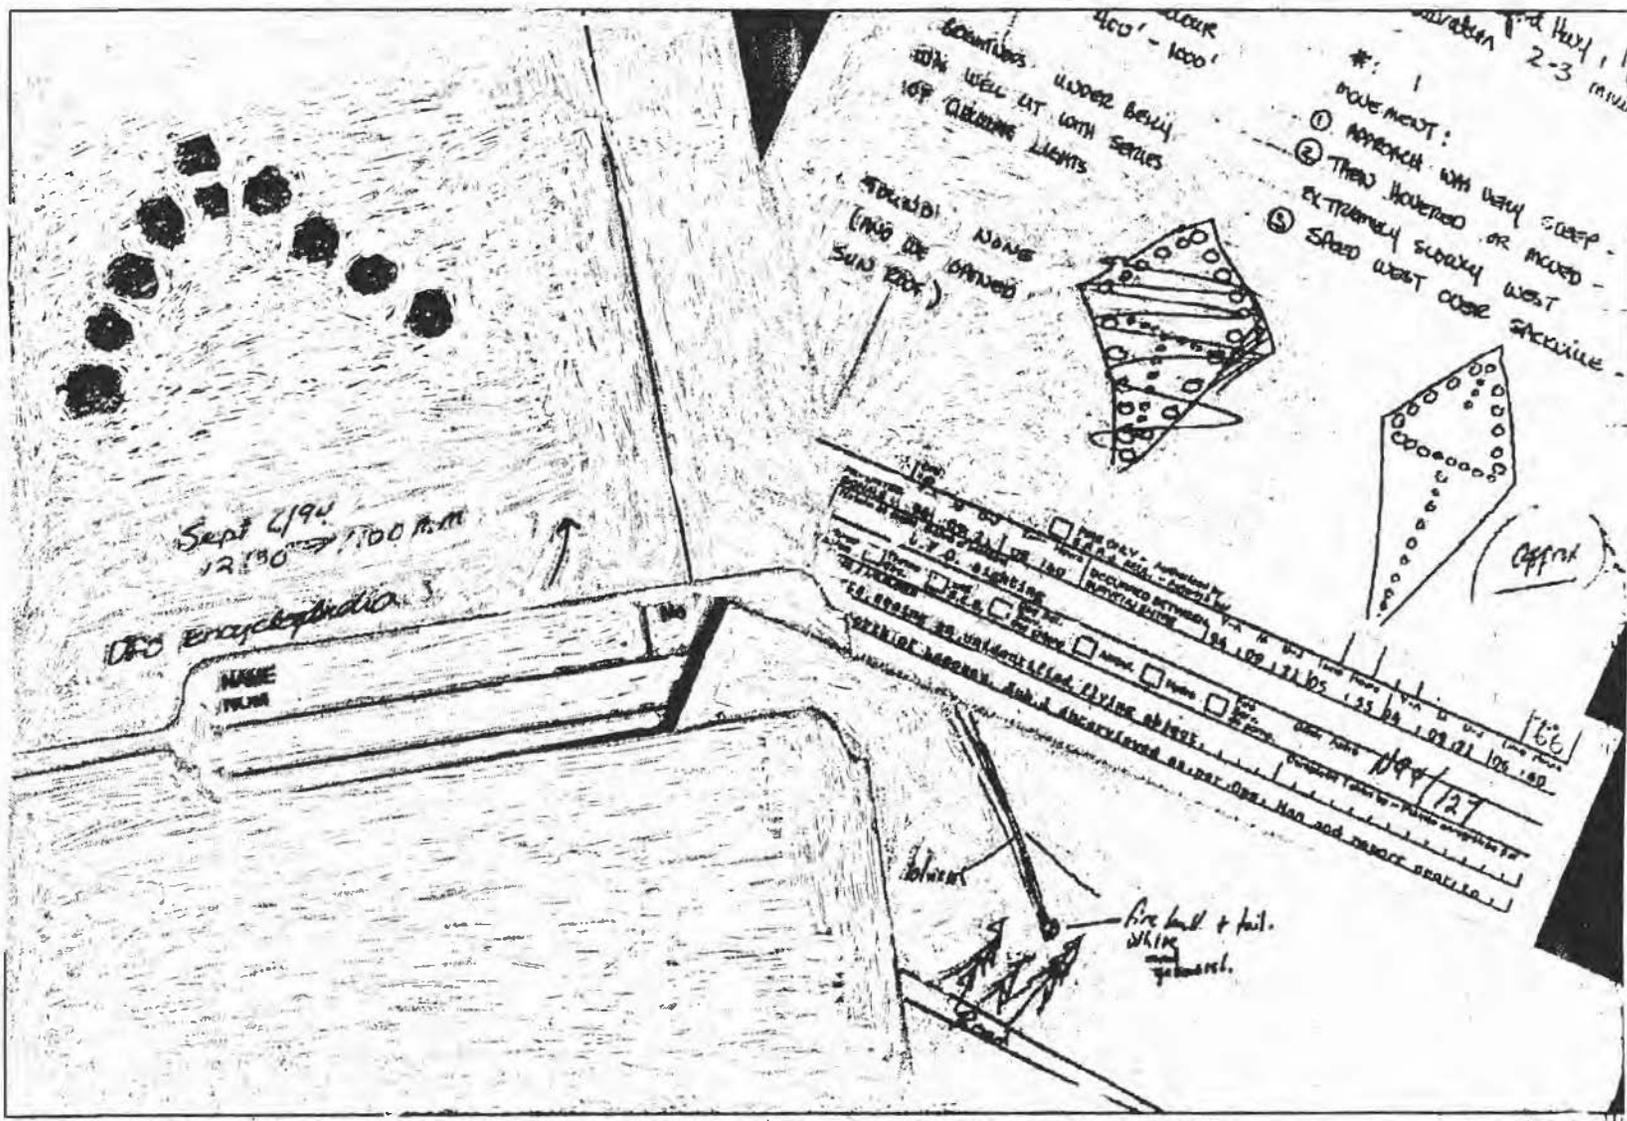

The pilot of a Boeing 767 travelling from Vancouver to London reported seeing an object fly parallel to his plane. It was so bright at one point that it lit up the cockpit.

Some UFOs seem more easily explained than others.

Two observers told an RCMP officer in Lynn Lake, Man., of a green fireball falling slowly from the sky.

In his report, the constable noted meteorites and the northern lights had been seen in the area recently.

That's not all. While taking the witness statements, he detected the unmistakable odour of marijuana.

Some of the official reports of UFOs studied by Canadians include hand-drawn reproductions of spacecraft and maps. (Canadian Press)
