Have you seen a UFO? Have you had contact with an alien intelligence?

The National UFO Museum is engaged in a research project to get to the truth of the UFO phenomenon. Any information you have on the subject is vital to unraveling this mystery.

If you have had a sighting or contact, please send us a description and include as much of the following information as you can recall:

1. Time, Date and Location.
2. Describe the incident.
3. Can you Draw what you saw?
4. Were there any Photos, Physical evidence, or other Witnesses?
5. Include any other relevant evidence and information.

OCEAN CIRCULATION TO CHANGE WORLD CLIMATE DRASTICALLY IS MESSAGE GIVEN TO STRIEBER BY MYSTERIOUS STRANGER DURING TORONTO VISIT

A mysterious man visited author-abductee Whitley Strieber during his June 6, 1998 book promotional tour of Toronto.

It was 3 a.m. Strieber was in his hotel room on the night of June 6. He had just finished promoting his new book, *Confirmation*. There was a knock at his door. He thought he had fallen asleep and left a room service waiter at the door. He opened the door to a 4½ foot tall elderly man in a black, almost military-type suit, who rushed in. They talked for a half-hour.

He had met a similar man on a path in New York City's Central Park in 1971. Since then, he says he has "known that there was an incredible secret group in this world who know the true path of the human soul."

The man said he was from Toronto, but does not pay income taxes. That, in itself, is odd. He told Strieber "there is a higher world, and we can sometimes get the right to enter it. Your world is irretrievably lost. The ones to whom you pay your taxes will be dragged in the streets before this suffering is ended. You will see the signs (of the suffering) in fire. Your planet's life has turned in its path. There will be a great extinction here. There is going to be a series of events that take place."

Strieber is to help a hidden pathway to resurface. It is very detailed and has been known since around the year 1000 A.D., but has never been used. It's a new way of living. The old man taught it to him and he memorized it.

The odd man has a angular face, was slim, had sparse gray hair, pure white eyelashes and kindly look. He told Strieber that the earth's inhabitants has passed the point of no return and that the environment would fall apart around us.

A global catastrophe is coming. The oceans' circulation will change and trigger an extreme change in climate. This started in the mid-1980's and cannot be stopped now.

A new species is living among us, says Strieber. Mankind has changed. Those who say there's no such thing as global warming or that the environment is all right are lying and will be "in an extraordinarily unpleasant place pretty soon. (ED NOTE: Is this Hell or a badly polluted Earth he's talking about?) Many of the influential and powerful people in the world are going to end up despised by a thousand future generations. There is going to be a path found through the chaos. The people on that path will have children who will survive. Mankind will go on, but just barely.

The man gave Strieber a special thick, Jello-like liquid in a glass. He drank it after arguing about it a lot. It tasted vile, like citrate of magnesia and was pale. It was only a small amount -- just at the bottom of the glass. He told the author that it would restore his memory. "It contained the pattern of my future," he said.

"He reminded me that I had taken this drink when I was nine years old in Houston. This second drink would tell me everything from June 6 until my death. He told me when and how I am to die, but he also said, "if you value your sanity, you will never utter this." I have gained the peace of a dying man. My last book will be based on this encounter. It will be about the hidden meaning of mankind. Oh, what a meaning we have," he added.

(Continued on page 5)

(Continued from page 4)

The "visitors" or aliens will not intervene in the future earth changes. Strieber said he is in a "spiritual whirlwind" after this, "the best, the most incredible, the most stupendous encounter of my life. It was truly a marvel."

He is writing the book now about the encounter. Maybe he will die just after the book is published. He already has a title for it. The writing style, he says, will "have to be simple and clear, although what it will discuss will not be easy to understand. It's urgently necessary that the book be gotten out fast. I was given a very specific time, not nearly as much time as I thought I would need. I have to do this now."

All of this comes from notes he made on a pad of yellow paper he had in his hotel room and from an interview with him by CNI News Editor Micheal Lindemann on August 16, 1998.

The secret society sounds like the theme of Jacques Vallee's book, *Messengers of Deception*, but not out of evil intent on the society's part as Vallee had postulated. Strieber says he feels like a conduit for the information to reach the people. Normally, a book can be written in a year, on average. Does this mean he's only got a year to live?

Remember the October, 1998, breaking off of a 10 by 15 kilometre iceberg from the South Pole icepack? Is it the first of a series of events showing a shift in ocean currents? Is a warm current being generated by Earth's internal heat melting the southern Pole's ice cap? This would, if accelerated, flood all the cities on the coastlines of the world and drown millions of people if it occurred suddenly.

Or has HAARP, the U.S. Department of Defence, University of Alaska and an oil company's experiments with beam weapons pointed at the ionosphere and bouncing off it

caused, and will cause, environmental disasters being blamed on El Niño? By the time we find the answer, it will be too late.

P.S. Is it a coincidence or not that on Dec. 7 a snowstorm hit Arizona. On this same day, according to a prediction by Richard Hoagland, a very large hostile alien craft was due to land in Arizona. The storm would have obscured vision and kept people away from the designated landing spot at Turret Mountain, 30 miles west of Payson, just east of Route 17. The U.S. Government is currently digging tunnels in the area, according to a U.S. intelligence source in June, 1998.

CUFORN MEMBER CLAIMS HE HAS BEEN ABDUCTED 25 TIMES SINCE AGE 5

CUFORN member Mr. T.D. told your Editor in August that he had been abducted by "neutral" aliens 25 times since age 5.

T.D. says he was taken at age 5 in England, in Ontario at 11, in Etobicoke, Ontario at age 13, twice between the ages 13 and 19, and once in 1995. He did not give details of the other incidents and has not had regressive hypnosis.

He says one time his damaged knee was "fixed up a bit by the grays." He saw a tall gray. Inside the UFO there was a table shaped "like a Jello mould underneath." The grays used a "wand" inside his knee. The gray had "cold hands."

He also said he had a sighting 25 miles south of Kirkland Lake, in northern Ontario.

He said he knows of an 80-year-old woman who was abducted near Mimico Creek in Mississauga, Ontario. T.D. mentioned that he knows of an entire family in Bracebridge, Ontario who were abducted. When asked more about the 80-year-old woman's case, he said the UFO had a green light beam in which she was elevated into the UFO.

Night of the UFOs

More YEP readers say they saw lights

BY RICHARD ALLAN

NEW video evidence and a wealth of eye witness accounts have raised fresh questions about UFOs spotted over West Yorkshire

The *Yorkshire Evening Post* has been inundated with calls since it published the story of security guard George Hickinson who filmed two unexplained bright lights in the Leeds sky.

UFO watcher Mark Birdsalì believes the mysterious lights which appeared on Monday, February 2 are the strongest evidence of UFOs in the city for 15 years.

Mark believes this month's sightings rival July 21, 1984, when dozens of eye-witnesses reported seeing a huge white sphere hanging over Leeds.

His views are based on 22 seconds of film shot this month by Leeds resident Ken Field.

Hovering

Video stills from the tape clearly show two very bright lights hovering in the sky.

Ken of Walkers Green, Lower Wortley, said: "My wife Pauline was outside and called me to look at the lights. I got my camcorder and focused on the object."

"All I can tell you is that definitely wasn't an aircraft. I have never seen an aircraft with lights brighter than a star."

Mark said: "We have played the tape 20 to 30 times and there are two giant white strobe lights flashing in unison."

"Whatever this thing is it's very very low in the sky - maybe 1,500 to 2,000ft."

Mark, who runs an Otley-based UFO magazine, has written to the Ministry of Defence asking whether military planes were active over Leeds that night.

● IS THERE SOMETHING OUT THERE? From left, Edna Lally, Margaret Rolls, Alan Adamson and Margaret Adamson who all saw an object in the night sky over Leeds

JAMES HARSH

He said: "It's doubtful that something military would fly over the city that low using a normal Leeds flight path."

"The video footage will enable us to determine what we're dealing with but it's the biggest event in Leeds in the 1990s."

UFO expert and author Timothy Good, due to give a lecture at Leeds University on the evening of February 23, has been called in by Mark to look at the Leeds UFO evidence.

Martin Best, who works for British Telecom, saw the strange lights as he walked home that evening.

"I was walking home when I saw these lights in the sky. They were in my view and heading towards me from the south west."

"As they passed overhead I could see there was no shape to the object."

"When it came towards me it took the colouring of the sky and I could see through it, as if it was opaque."

"There was no noise except a very dull whine," said Martin, who lives in Red Hall View, Whinmoor.

"I have never seen anything like it before. It was very, very strange and it made me a bit uneasy and apprehensive."

Pensioner and RAF veteran Denis Vevers says he was amazed by what he saw from the doorstep of his home in

Manston Grove, east Leeds.

"What I saw mesmerised me. I just couldn't understand it."

The former air-gunner, a self-confessed sceptic, says the lights he saw that night remained stationary "at first before moving away slowly."

"I'm a sceptic and I'm still sceptical, but the lights were there and it wasn't an aeroplane."

In Meanwood, Margaret Rolls and her friends watched the same bright lights in the sky above them.

Margaret, who viewed the mysterious object through binoculars, has never seen anything like it before and is convinced the lights did not belong to a military aircraft.

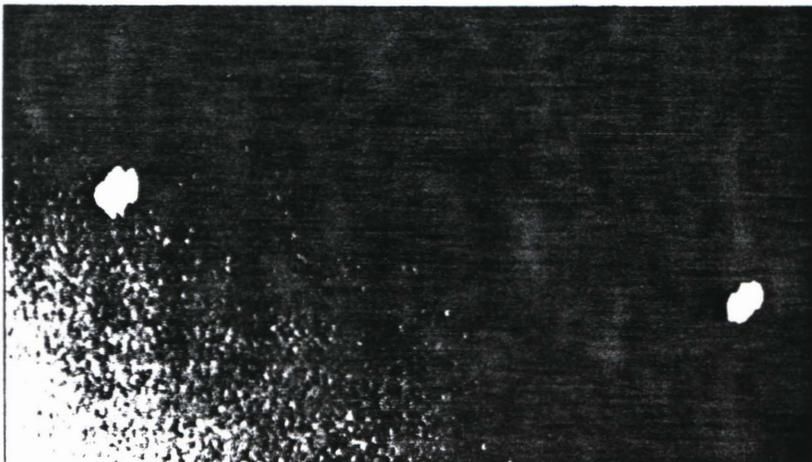

Carolyn Clark, who works at the Parcellforce National Enquiry Centre at Bridge House in Leeds, saw the lights as she left work.

Orange

"These lights were like rectangles with rounded corners and were orange. They made no sound as far as I could detect and were perfectly still. I didn't stay long enough to see them move away, but I had the feeling they weren't your usual mode of air transport."

● Anyone who wishes to see Timothy Good at Leeds University on Monday night should telephone 0800 088 7281 for details.

George's video mystery

EIGHTEEN years in the British Army had not prepared George Hickinson for what he saw in the skies over Leeds.

But father-of-five Mr Hickinson, now a security guard, had the forethought to train a security camera on the two strange bright lights he saw and record them. Now he fears he has a mystery on his hands worthy of the *X Files*.

Mr Hickinson, 42, of Kippax, Leeds, is a former tank warrant officer with the Royal Dragoon Guards and describes himself as a man with his feet firmly on the ground. But he said: "There were two objects in the sky which I can't explain and no one else who I have shown the videotape to can explain."

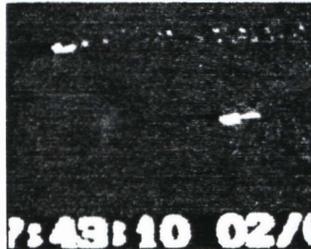

"The lights were stationary for a few minutes so I decided to turn a security camera on them."

Mr Hickinson's colleague, Ken Hague, 52, was standing outside watching the bright lights while Mr Hickinson was recording events.

Mr Hague said today: "There was not a sound as they started to move off. They climbed into the night sky and just shot away. Up until then, if anybody

● UFO MYSTERY: George Hickinson and, inset, his video image

had talked about UFOs, I would have called them idiots, but I don't know now."

The incident happened on Monday February 2. The video

started recording at 5.35pm and the two lights remained static for about five minutes before moving off.

West Yorkshire Police said they had no calls to report of strange goings-on in the sky. Yorkshire ufologist Nigel Mortimer said one possible explanation was that if a plane was travelling towards the security camera it would look as if it was stationary for a few minutes. One of the two lights could have been a reflection, he added.

NEWS FROM PAUL STONEHILL--REPORTED CRASH -RETRIEVAL IN RUSSIA IN EITHER 1991 OR 1992

There has been a report that a UFO looking like the drawing above hit the ground near Prem, Russia in either 1991 or 1992. The craft was 620 meters by 120 meters in length and width.

The centre was ripped open. It was one of seven UFOs seen in a formation. People on the ground said their watches stopped 600 meters from the craft, making it a CE2. The Russian army sealed off the area and recovered the UFO.

Thoughts on Dr. Michael Wolf.

- Very sincere and Truthful.
- Extremely Kind.
- Sporadically he had sparked up casual conversation that made talking to him very easy and comfortable.
- Extremely easy to talk too.
- I feel he sensed my nervousness while we talked and went out of his way to make me feel at ease, by talking slowly and clearly. This helped me jot as many notes as I could about what he was saying.
- A very pleasant man to talk to .
- Very, very modest man. Does not conceit about anything. Does not consider himself a hero by any standards. Only takes credit for what he has achieved.
- Still mourns/grieves the loss of his family. It made me a little sad when I heard how much he missed them.
- Wolf loves children and thinks they are the future.
- Dr. Wolf is a very strong willed man. He is determined to get through his illness.
- Talking with Dr. Wolf had made a huge positive impact on me.

Dr. Wolf told me, recent DNA testing had showed that he was getting better from his illness. He kind of chuckled and said that the more and more he tests his DNA, (which always shows improvement) the worse he feels personally. "I'm more alive when I don't know the state of my illness." – Wolf.

It is upsetting to know that he is inevitably dying of his illness. It really hit home when he said, "You have a right to know, because I don't know how much longer I have." –

Jet in UFO mystery

PASSENGER jet pilots may have to call in Mulder and Scully from TV hit The X-Files after air investigators failed to clear up a close encounter of the unknown kind.

Air investigators said they were stumped after failing to identify an object seen by two pilots over Hertfordshire.

But despite concluding the object "was not an aeroplane", the report did not speculate on what the object could have been.

Both pilots of the Stansted bound BAe 146 reported seeing a red, blue and white striped object. The object appeared to be avoiding large clouds.

Irish pilots in UFO mystery

TWO pilots on an Irish jet saw a red, white and blue UFO - 8,000ft above Hertfordshire.

The Aer Lingus crew said the mystery craft missed their BAe 146 jet by only 200 yards.

Air traffic controllers said no other craft showed on their radar.

Investigators said the Dublin to Stansted flight was the only plane in the area at the time.

They said the sighting "was an unknown object - NOT an aeroplane."

9/30/98

Dear Mr. Fenwick:

You may or may not be interested in what I have enclosed within this package. On September 4th 1998, I had quite a lengthy conversation with a Dr. Michael Wolf. He is the author of the book "Catchers of Heaven", former Area 51 employee and contractor to the CIA and other military sub-ordinates. I'm sure that you may already be familiar with him and what he has to say. If you don't however, I have enclosed a majority of my notes which were taken during the conversation.

Our conversation lasted approximately an hour and a half to two hours, on the topics of Area 51, Aids, Abductions, ET gene markers, hybrids and Engineered Alien Technology (both recovered and gifted). The impression I got was of sincerity and honesty towards the topics at hand. As far as I was concerned, Dr. Wolf was for real. Anyone who has a chance to talk to him will be amazed at his modest and humble approach to the Government's involvement with extraterrestrial matters.

Dr. Wolf decided to reveal to the world what he has learned about the visiting extraterrestrial cultures because, as he said, "we have a right to know". He is also motivated by the need to feel that he is making a contribution to humanity for his wife, son and unborn child who were assassinated in a terrorist car-sabotage "accident" directed to kill him as well. All the royalties from his book go straight to the Daniel Wolf Memorial Foundation. In essence, Dr. Michael Wolf does not make any money from his book. To this day, Dr. Wolf still mourns the death of his family some years ago. When I had inadvertently mention the subject of his lost family while speaking to him on the phone, sadness and sorrow filled his voice. Without a doubt in my mind, Dr. Michael Wolf is a truthful, honest man who feels that "we have a right to know about the governments involvement with extraterrestrials and UFO's". I would recommend his book to anyone, for I have personally read it and think it's excellent.

To the best of my knowledge, I thoroughly believe this man was, and is, telling the truth as he knows it. The one thing that saddens me is that he's slowly dying of an incurable spinal degenerative disease. I feel there is much more to learn from this man, for it would be a waste to see him "pass on" before everyone can hear what he has to say. No one can understand how kind, loving, modest and dedicated Dr. Michael Wolf is, until they have actually talked to him personally.

To Harry Tokarz
From Kerry Knight
Topic: Dr. Michael Wolf

Here are the notes from my conversation with Dr. Wolf on September 4th, 1998. There is one major difference between this copy of my notes and the others I had faxed you. Just after our conversation on October 16th 1998, I decided to gather everything that I had on Dr. Wolf. What I found was an extra scrap piece of paper [that I initially thought was lost]. This little piece of paper held some extra notes I jotted down as I was getting off the phone with Dr. Wolf [he was giving me a little more detail with earlier mentioned material]. I have included these notes at the very end of *this copy* of the Wolf conversation. *Sorry for any inconvenience, it's just that I will feel a lot better knowing that you have the complete set of notes and story. To be honest, I was really happy this paper was found because it had a nice philosophical quote Wolf said to me. "Life is its own answer." I know that there is not a lot of extra information, but I just want to help you out as best I can. Both you and Larry Fenwick have been so kind and courteous, the least I could do was add this little set of notes from the September conversation.*

You had also mentioned on the phone about publishing these notes in the latest edition of the CUFORN Bulletin. I *do not* have a problem with my name being used, or the city I am from. I would like to stress that I think Dr. Wolf is a very sincere, truthful, modest and kind man that should be listened to with an open mind. I would also like to stress that Dr. Wolf does not receive one cent from his book entitled *The Catchers of Heaven*. All the royalties go to his late son's memorial foundation. (The Daniel Wolf Memorial Foundation for Children Inc.

- **If you publish my notes in the next Bulletin, it would be greatly appreciated if you also put some of my thoughts on Dr. Wolf in as well.**

Thank You.

-Thoughts on Dr. Michael Wolf: [See Next Page]

Conversation with: Dr. Wolf
 On September 4th, 1998
 time 12:50 PM

I've noticed while going through it all again, some, if not all, of this information can be found in various articles written by Richard Boylan. More details can be found there if needed.

A little bit of Background: The three point notes with * are not directly from Wolf but are of a casual conversation .

- Wolf does not take a single penny from his book.
- Book had been reviewed by the CIA, Naval Intelligence Agency.
- Book had to be published as fiction to keep plausible deniability.
- Gov't very involved with Extraterrestrials.
- Wolf suggested to MJSSG that government should release some of the info on ET's.
- Wolf is a 56 – year old.
- * Bosses at National Security Council told him that they wanted him, as Gov't scientist with Above Top Secret clearance, to control leakage.
- Major amounts of secret info.
- Especially human/ET contacts and ET/Government contacts.
- * They told him not to disclose certain aspects nor details of Ultra classified projects.
- Can hardly prove he exists.
- Bosses at NSC took away all records of his university degrees, birth records,

Has degrees in theoretical physics, physics, and neurology at MIT.

- * 1972 – 1977 ; worked in covert gov't research into extraterrestrial technology.
- States that ET's have not broken any treaties made with U.S. gov't.
- "Zeta-treaties"
- Some ET's are held captive.
- U.S. government breaking treaties.
- Worked at S-4 labs, Foreign Tech. Div., Dulce, Indian Springs AFB, Area 51, Wright-Patterson AFB

Indian Springs:

- Uses gravimetric devices that warp time & space through a wormhole.
 - Need two lines of sight to see facility.
- [On opposite side of S-4 facility].

Area 51:

- Still holds ET craft; they have not moved anything.

- It would take huge cargo planes to be moved.
- Ships cannot be disassembled.
- But are reverse engineering **the crafts.**
- Government received plenty of crafts
- Many crashed or received from ET's themselves.
- Many underground levels and labs at Area 51.

- The "Cabal" hates ET's; rogue gov't group.
[Cabal is a rogue government assembly]
- Authorized to use Star Wars tech. to shoot down UFO's.
- President [Bill Clinton?] (my note in bracket) on need-to-know basis.
- Some generals authorize intense and extensive disinformation campaigns [The UFO cover-up]
- To discourage civilians **from acquiring even "limited understanding of ET's",**
- Wolf.
- Feel impotent "in face of overwhelming superiority" – Wolf.
- Bob Lazar and Corso's disclosures are true.
- Human hybrids exist and are present on earth.
- Government trying to create the perfect soldier.

- Kennedy assassinated because he wanted to disclose UFO info.
- Crop Circles were made by ET's but badly copied by Star Wars.
- "Cabal" controls well-known UFO investigators.
- Ufologist in Canada gets paid to take pot-shots at various UFO investigators.
["Up to their ass in the Cabal"]
- NATO assessment is real.

AIDS:

- AIDS is a man-made virus.
- Government has learned that viruses are crystalline in nature.
- Correct frequency can destroy them.
- AIDS produced in lab. **by**

[WHO (World Health Organization) – **while doing Cancer research. He also mentioned something about a Stricker Memorandum]**

Combination to create AIDS as specified by Dr. Wolf:

bovine cow retrovirus & Visna virus [?]

Combine in Human hemoglobin. (Blood) to create AIDS.

- Led to hepatitis vaccines.
- Used for money in cancer research
- AIDS injected into select populations through small pox and hepatitis vaccines. **It is directed at homosexuals, blacks, and Hispanics. [undesirable people, as far as the government is concerned].**
- [Population control/ Genocide?]

- Reagan Knew

Aurora:

[More detailed in Richard Boylan's Nexus article]

- Runs on liquid methane and Anti-gravity
- Carries electromagnetic pulse weapons systems on board.
- Knocks out tracking radar.
- Prototype of ET anti-gravity.
- ET's move by transcending time and space.

IF made public it could devastate stockholders.

[IN GENERAL]

- Aliens are not malevolent.
- Dr. Jacob's "The Threat" is not correct. [Wolf implied a bias].
- Uses first-time abductees.
- Abductees very frightened; think it's bad.
- Nothing sinister about it.
- Everything in the universe is connected.
- Universe is not in decay.
- Government not telling - fear of panic and religious decay.
- Present date for the total dissemination 2003-2012.
- Free energy exists.
- Power of thought **is equivalent to energy.**
- Time/Anti - time [I'm not too sure why he had mentioned it, I cannot recall]
- Government able to take space and fold it.
- Universe is filled with life.

[It was Dr. Wolf who had worked on particle beam devices to cure cancer by killing only the cancerous cells in the body; not the normal cells. Later, according to Dr. Wolf, this technology was exploited to be used in Star Wars technology.

"I am really sorry for that! I must apologize to everyone...I should have anticipated that it could be used for a weapon. I am truly sorry!" - Wolf.
[Wolf hates to see his research go to military purposes, says that is not what they are intended to be for.]

Wolf is now sick from over exposure to toxic chemicals that he had worked with while at Area 51.]

- ET's very intelligent.
- Want us to stop killing each other.

- Einstein was influenced by ET's and had been in contact with them.
- Same with Nicola Tesla.

[He did not say a whole lot on Roswell but only stated that two UFO's had collided in mid-air during an intense electrical storm. I guess it was that same storm that had occurred the same night.]

- Various ET cultures.
- Zeta, Pleiades etc.
- Has had many ET contacts **himself** since he was a child.
- Many UFO groups in U.S. and Canada are monitored extensively. [Did not say by who].
- Entire genome project has been mapped out secretly by government scientists.
- They found ET gene markers in some human genetic samples. - [found these ET gene markers in his own body.]
- Others do not have these.
- Government research projects led to development of human/ET hybrids **by** attempting to replicate ET genetics.
- Says human beings are beginning to change, evolve and are looking for spiritual roots. **There is** more to God than one can get at a church.
- Modern tech. Has derived from crashed & received ET crafts. (EG) laser, fiber optics, LED's

[I also recall hearing Dr. Wolf stating that he was once the presidential consultant to Clinton. But states that Bill does not know a lot, though. I also recall Dr. Wolf saying that Clinton has a very low classification level. Something like Top Secret, nothing more. I am not too sure, though. I can't remember].

There are

- core truths in Islam, Judaism, Christianity and Native American Spirituality.
- Wolf is a Buddhist [As I recall]
- Government wants better relations with ET's
- Military wants to shoot them down.

His - wife, son, Unborn child had died in a car bomb that was intended to kill him as well.

- [This was done because he was saying too much or disclosing what he shouldn't **have** been saying.]
- "You have a right to know." – Wolf.

[I had brought up the assassination of his family up first. Dr. Wolf still mourns the death of his family, and still feels a sense of loss and grief. This was apparent in his tone of voice.]

- Need to stop raping the earth.
- We are killing ourselves.
- If ET tech came out suddenly, it would hurt stockholders.
- Corporations do not want to lose money or power.

- Government can take energy from the ionosphere. [HAARP].
- Also said that government scientists have found that some UFO's are living and that they can divide and re-form by merely thinking about doing it.
- Wolf is speaking about the future.
- We need to repair the damage to our planet

- The ET's that are visiting earth are good and helping mankind.
- ET spacecraft can be grown; have a consciousness of their own. They can divide and merge. – Like the UFO's over New Mexico.
- Indian Springs is 1 mile from Area 51 and S-4.

He says that the government is between a rock and a hard place.

- [damned if they do and damned if they don't]

- Government can produce tremendous amounts of energy called "Free energy".
- They tap into the ionosphere and get free energy – They can beam it to anywhere for unlimited power.
- The government created its own wormhole in 1935 using electromagnetic and gravimetric energy.

- There are regions within Area 51 where streams of energy (plasma physics) circle ET craft. Two helicopters over Nellis AFB had crashed due to these streams. [I really did not understand what Dr. Wolf was saying when he mentioned this to me].
- [Dr. Wolf had mentioned his son, who once told his friend that asked him what life was all about that "life is its own answer."]

The Angelholm Landing- The Untold Story
Interview with Peter Robbins - Co-author of LEFT AT EAST GATE

The Angelholm Landing - The Untold Story

In mid 1997, I wrote an article for SIGHTINGS (UK) and FROM BEYOND (US & Canada) about a Swedish UFO incident that allegedly took place in 1946. I first heard about the case from a contact in Sweden, and since then I've been intrigued enough to do further research, and finally was able to speak directly with the experiencer. This is a very unusual and interesting case, and not only does it precede the well known 1947 incidents, but appears to involve some of the world's biggest pharmaceutical companies. If it's genuine, then researchers may think twice about dismissing the claims of Colonel (Ret) Philip J Corso and Dr Michael Wolf, for instance.

The experiencer, **Gösta Carlsson**, will celebrate his 80th birthday this year. He still resides in Angelholm, Southern Sweden. As a young lad, he had a fascination with bees, and their work with pollen (the family were known locally for their interest in bee hives) and he had been given his first hive when still only a child. He was 27 years old when he claims he encountered an alien craft and its occupants. At the time he worked for the railways, and as a part-time gamekeeper.

The story begins on the evening of 18 May 1946. Gösta was walking through a wooded area when he noticed a bright light coming from a glade in the distance. Thinking that some boys had started a fire, he rushed to the scene, and to his amazement, discovered a large disc with eleven human-like occupants. According to Gösta's observation, the beings were definitely humanoid in appearance, and were extremely attractive. They had brown skin, dark brown hair, beautiful white teeth, and were all the same height, that appeared to be shorter than the average human height. They wore white tight fitting suits which made them all look very similar, and I understand that some of them were wearing a kind of helmet with a visor. Gösta can't remember much about their eyes, except that they were definitely not of oriental type. He made a strong point of saying that the beings were in much better condition than we are, and insists that they were of extraterrestrial origin - describing them as clones. The latter was confirmed to him by an American scientist.

On trying to get a closer look, Gösta moved toward the craft but was stopped in his tracks by a crew member, who literally 'froze' him to the spot by raising up his hand. It seems that through some kind of telepathy the beings were able to communicate to Gösta that there were originally thirteen crew, but two had died in a rare collision with a beam from their mother ship, and they had landed on earth to repair their ship and dispose of (bury) their dead. However, having been disturbed by an intruder, they decided to abandon the burial and returned the bodies to the craft.

Following the incident, Gösta took off and scrambled up to an old fort that was beside the waters edge. There he saw the craft take off. It's described as having red and yellow lights or flames coming from its underside. As it shot away at tremendous speed, it suddenly disappeared out of sight. Later, he returned to the landing site and found two objects on the ground, a ring and a piece of quartz crystal.

But that wasn't the end of it. Gösta claims the ET's have continued their communication with him, and on these occasions they keep him awake at nights. His last contact was two years

ago, and he laments just how difficult it is for him to explain the communications. "It's as if they get into my brain, I feel as if I'm hypnotized." He agrees it's not easy for sceptics to accept his story, as he himself was a sceptic for twenty years after the incident. "But it's all true, it did happen in 1948, and I am still being contacted." Says Gösta, as he tries eagerly to make me understand his situation. I believe he has kept a diary of his contact data with the ET's.

"The craft was powered by quartz crystals, and a power field that surrounds it when in flight. The power field was still around the craft at the landing site." States Gösta. I asked him if the piece of quartz crystal he had recovered could have been one of those used to power the craft. He said it most probably was because they were making repairs at the time. So this may well have been a damaged rod. My contact, who has had several discussions with Gösta, told me there were twelve quartz rods that powered the ship.

During the many communications, and likely due to his interest in pollen research, Gösta informed me that the ET's told him about precious pollens which could be found here on Earth. They taught him how to design a machine that could extract these pollens, that could then be used as medication for many human ailments, as well as serving as an elixir of life. With their help, and the expertise of a local engineer, he later invented a machine that was capable of extracting these precious pollens. Once he had made the machine and tested it, Gösta approached his friend, the president of a company called *Pharmacia Allergon AB*. The company later became a well known international pharmaceutical company, and recently merged with the American based company of *Upjohn*. Pharmacia Allergon AB was still a young company at the time, but they took an interest in Gösta and his pollen extractor, and decided to work with him. "It's only recently that the products have been released to the public. It's taken years of research to get them on the market, and I've had this information since 1948." He explains. .

Pharmacia Allergon AB have indeed manufactured a product based on Gösta's discovery. It's available in Sweden under the name of POLBAX. I must thank UFO researcher *Harry Tokarz*, director of CUFORN(Canadian UFO Research) who, after reading my original article, contacted me with regards to the wonder drug. Harry is very interested in natural health products, and he and his team managed to trace POLBAX and discovered that it was now available in the United States. It's distributed by a California company called *Horizon Quest*, who specialize in natural pollen products. The American name for POLBAX is PROZYME. It is also available as a animal medication, and has had difficulties with the FDA due to their report that it was misbranded for failure to bear adequate directions for use. Gösta explains that since Pharmacia Allergon AB merged with the US based company of Upjohn, the pollen products are available in the US, but there are strict regulations to adhere to, and there have been problems with distribution.

Harry Tokarz and I both agree that the products may well be diluted - because if used in their full strength they could possibly cure every known illness - which of course would put the big pharmaceutical companies out of business in no time. I asked Gösta to comment on this, because I know of three people who have tried PROZYME, and two who have taken a course of POLBAX, but all have agreed there seems to be very little change in their health. However, as much as I agree with Harry, that Gösta's original remedy may have been reduced in strength before hitting the mass market, in my opinion, they haven't given it much time. I rave about a Swiss product called Pharmaton, and I've been taking it for more than twenty years now, and originally had to purchase it abroad because as usual, it wasn't available in the UK until much later. My point is, that I have introduced Pharmaton to hundreds of people over the years, mostly because they comment on how good I look for my age, needless to say, most of them take a one month course and quit when a miracle doesn't happen. I think it's worth being patient, and giving it at least six months before make your mind up time. Anyway, Gösta was reluctant to answer my question, but maybe he didn't understand what I was trying to query. He did point out that Pharmacia had spent years on research, and like all companies, had taken a very long time to market the product.

From researching the medical journals we have discovered that Gösta's incredible remedies are *antioxidants, created in a tablet form of SOD (Superoxide Dismutase)*. Medical

research points to the conclusion that antioxidants can prevent or delay the onset of many health problems, including cancer and heart disease by fighting off "free radicals" which is caused by pollution, microwaves and stress. One distributor's promotion for their pollen based products includes a quote from a book titled "*Freedom From Disease*" by Hari Sharma, M.D., a free radical researcher

"In just the last decade, researchers around the world have defined a new, dual paradigm of human health. The first part of this paradigm concerns free radicals, destructive molecular sharks that tear up the cells in our bodies and cause both aging and disease. The second part concerns uniquely effective control of free radicals through a prevention-oriented, consciousness based system of natural health care. Most researchers studying free radicals estimate that these deadly molecules help to cause 80%-90% of the degenerative diseases that afflict the human race. We once thought that cholesterol was a major cause of heart disease, but new research indicates that the real culprits are free radicals. We have long known that arthritis comes from constant inflammation, but free radicals cause such inflammation. It is clear that cancer is caused by gene mutation, but free radicals cause most gene mutation. Where we thought there were many causes, there is often only one. And to the extent there is a single cause, there can also be a single cure. By controlling free radicals, we should be able to keep ourselves well.

Numerous researchers worldwide have studied the claims of Gösta Carlsson's POLBAX/PROZYME and results are positive. It has been demonstrated that it is indeed a medical breakthrough. Unfortunately, these documents are copyright, and therefore cannot be used in part, in this article.

Apparently, the US distributors know of Gösta Carlsson, but know nothing about his UFO/alien connection. Horizon Quest state that 'Gösta Carlsson developed special equipment to directly collect pollen from plants and flowers eliminating the contaminants associated with bee pollen products. These inventions produced a new standard for pollen products, insuring purity and quality control.'

Another US company is also supplying a product called **AIM ReAssure** (for men's health) that is extracted from rye grass pollen. The company proudly offer a history lesson which leads right back to Gösta Carlsson. Their promotional data states that Gösta has devoted his life to the study of pollen. As a boy he was interested in bees and from this interest he recognized that pollen found in different plants was of different qualities. However, no mention of his alien friends. Some may think that Gösta could have used this story as a marketing tool - except he hasn't really gone public with the alien/pollen connection.

At my request, *Professor Per Christer Oden* sent me the *Grano* medical research paper on his and Gösta Carlsson's research. Prof Oden has worked closely on pollen research with Carlsson, and writes: He is the discoverer of the beneficial properties of pollen, and although turning 80 this year, is a very interesting personality, and is still very active. Indeed, I was surprised to find Gösta such a pleasant personality, and thoroughly enjoyed our conversation. I would never had thought I was talking to an 80 year old man. Obviously he must be taking his own medicine. He has just completed work on his latest and last product called Taxel, and it promises to be the first medicine that works on cell building. He has already developed four other products, and admitted to me that he is not an academic, although he has been interested in pollen research most of his life. Gösta has worked closely with scientists for many years, but is obstinate that the information is directly from his ET contacts.

So if Gösta is telling the truth, then why has the source of his wonder remedy not been made public? Well, I'm sure we can all work that one out! How would it look for a major pharmaceutical company to announce to the world that they are working with extraterrestrial information? Whether they believe it or not, they have certainly taken Gösta Carlsson, a non academic, seriously enough to spend millions of dollars on research, and that is a recorded **FACT!** It reminds me of *Col Phillip Corso's* recent claims - in his publication "*The Day After Roswell*", that alien technology was secretly stewarded to giant American industry. Incidentally, through my Swedish source I heard that Gösta had been approached by US

secret service agents, and had been sworn to secrecy not to discuss the ET source until the year 2,000. I decided to question him about this, but he was not keen to discuss it. However, he did divulge that he was working with American co-operation, and with American scientists who were helping him with his research. One colleague (a scientist) had confirmed that they knew of these visitors, and that they were from a star called *Sirius B* which was several light years away. The scientist explained that the ET's were able to reproduce themselves as clones. Again, this reminds me of Dr Michael Wolf, a US government scientist, who in the 1960s allegedly worked alongside ET's using alien technology, and was able to clone a robot type human. Gösta was also told that they were afraid to discuss the extraterrestrial situation publicly for fear that it would cause many problems, especially with religion. It could cause serious problems if it were to be revealed that there were others in the universe more advanced than us, and that their beliefs did not fit in with any known religion, i.e. God and Jesus Christ, explained the scientist. I asked Gösta if his colleagues had confirmed whether there were aliens amongst us - working with us. He said. "Yes, it's true."

Gösta's UFO and ET encounter (apart from the pollen story) was released in a Swedish publication several years ago. It was a lengthy journalistic investigation co-authored by Gösta, and Swedish UFO investigator *Clas Svanin*, titled "*Mötet i gläntan*". The only known English translation of the encounter, was a full length article titled "*The Angelholm Landing Report*" published in *Flying Saucer Review* in 1972. Records show that Sweden had a wave of UFO sightings in 1946, so it's not unreasonable to suppose that something may have landed somewhere. However, some Swedish UFO researchers are not convinced about the case, insisting there are still many unanswered questions. That may be true, but it appears that none of these investigators have taken the trouble to research further, and if they had done so, they may have discovered that all these years Gösta has been quietly working with American scientists to produce a "super drug", and that there is a possibility that this was created by using alien information.

Visitors to the landing site can expect to see a cement replica of the landed UFO. Gösta had this placed there so the incident wouldn't be forgotten. He also had the landing marks cemented. These look like crop circles. Close by is a metal sign with "UFO GRAVE" written on it, this is supposed to mark the spot where the ET's were about to bury their dead. Gösta assures me that he was not seeking publicity when he resurrected the site, which was several years ago now, but it was something he felt he had to do. Besides, his ET friends have told him that they hope to revisit between the year 2000 - 2002, and he hopes they will remember to return to the same location. "At least it's done some good for Angelholm, because the site now receives about 10,000 tourists every summer, when for two months there is a guided tour." Remarks Gösta. My source tells me that he's is a local celebrity, but prefers to live a quiet and peaceful life, and shies away from public and media attention. He doesn't answer his phone unless you know the code!

Whatever conclusions you come to on reading this unusual story - keep in mind the evidence that Gösta Carlsson, by no means an academic, or publicity seeker, has been quietly working alongside scientists for almost 50 years, and that without a doubt he has been taken seriously in the world of pharmaceutical research. At no time during our conversation did he give himself any credit for the remedies he has been instrumental in creating. Instead, as afore mentioned, he persistently gave the credit go to his ET friends, the humanoid from the star *Sirius B*. One wonders how many of the scientists working on the remedies- are actually aware that the source of these medical breakthroughs may indeed be our

extraterrestrial brothers and sisters - who in their advancement, may well have managed to clone themselves..

My own conclusions are that because of the medical reports, there can be no doubt that Gösta Carlsson has been heavily involved in working with science and medical research. Medical records prove that Pharmacia Allergon AB, a 50 year old company, has spent \$200 million in the research and development of Gösta's pollen extracts. To add to this, dozens of prominent researchers worldwide have studied the pollen extract and through tests on animals and humans, have found it to be beneficial in the fight against various major diseases. It's also interesting to note that US Olympic athletes, collegiate track teams, professional footballers, tennis players, world champion boxers and surfers - are also using these products. And I have it on good authority that the Swedish National soccer team are using POLBAX. Not bad for a simple country boy with no scientific background!

With regard to the UFO/ET claims, I am sure that Gösta experienced an encounter. But unfortunately the debris he found at the site has been tested, and it appears that there is inconclusive evidence to prove that it's extraterrestrial. However, my Swedish source told me that if you touched the crystal it would give you a rash. While I'm aware that telepathic contact is not always a case for credibility, I know of other (in my opinion) credible experiencers who have related similar stories. More recently, an insider, Dan Sherman, has authored a book describing his communication with extraterrestrials - and this was apparently achieved by using some form of mental communication. After all, do we really expect that ET's would talk the same languages as we Earthlings?

Gösta Carlsson is in his twilight years now, and hardly needs the hassle of proving his experience. He's been there and done it, and although some years back, he was urged to co-author a book with a Swedish ufologist, his story has since been distorted and often discredited, mostly due to the fact that it's been more than 50 years since the incident took place. I know he's considering doing a book in English - in time for the new millennium, and maybe this time he will include a detailed account of what alleges to be the real source of a new scientific breakthrough! If all else falls - let's hope that he'll be remembered by future generations as being the pioneer of one of the world's most incredible medical discoveries. Long live Gösta Carlsson!

Brief Interview with Peter Robbins in London (UK)
 An account of the Bentwaters-Woodbridge UFO Incident

On three successive nights in late December 1980, England's rural Suffolk was the setting for what is now known as the most significant military UFO incident in the history of the UK. **Larry Warren** and **Peter Robbins** are the authors of **LEFT AT EAST GATE**, which is a comprehensive account of the incident which involved Larry Warren.

In December 1980, Warren, was a US Air Force Security Police specialist, was stationed at RAF Bentwaters, a NATO base in the United Kingdom. On the night of 28th December he and others were to witness a (landed) UFO. The following day the witnesses were debriefed, ordered to sign statements contradicting what they had seen and warned to tell no one about the incident, and told if they did "Bullets are cheap."

Larry Warren received an honorable discharge from the USAF, and has since been involved in Public Relations and Broadcasting. Peter Robbins holds a B.F.A from New York's School of Visual Arts and is a researcher of Ufology for more than 20 years. Both live in New York City.

Georgina Bruni : Peter, It's a pleasure to see you back in London. How's it going?

Peter Robbins: *Georgina, I came to the UK to do a QUEST conference for GRAHAM BIRDSALL, who had called me to say that CHARLES HALT had just cancelled. Halt had decided not to discuss his connections because he's writing a book about his involvement in the Rendlesham Forest Incident, and I expect his publishers have suggested that he hold back on public engagements until publication. As far as I can gather, Halt's book is finished - so you may see it on sale in late Spring. I suppose I have him to thank for my trip to England and for being here today with you guys. After the conference I went down to Suffolk to meet with friends and colleagues, and on Friday I returned to London to do a BUFORA lecture with NICK POPE.*

Georgina Bruni: Didn't you and LARRY WARREN have a sighting near the original Rendlesham incidents.

Peter Robbins: *Yes, it's detailed in our book LEFT AT EAST GATE. It happened on February 18th 1988. It was a real turning point for me. Imagine yourself, a researcher working on the case, not expecting anything like this! You visit the location with one of the key witnesses of the incident, and you experience multiple sightings of UFOs. All you have at this point is your objectivity and your dedication to writing a non fiction book. You are not part of the story - then all of a sudden - you are! What do you do? Do you tell the world or keep it to yourself? This happened on the first night of my first visit, and I have returned to Suffolk nine times since then. I really feel terribly pulled to the area of the sightings and have revisited it a total of 56 times. I don't think of it as deadly mystical - I think it's almost pragmatic until you are able to break the code and solve the crime. So I guess that means I'll be visiting the place for the rest of my life. Reconstructing the 1988 incident for the reader, I spent more than a year listening and re-listening to the tapes we made of our sighting. There's a technicality called Voice Stress Analysis (VSA) which measures stress on the human voice. I don't know which agencies employ this in the UK, but they are employed by the US Justice Department, FBI etc. If our tapes were run through this procedure, the stress in our voices would be judged as absolutely authentic.*

Georgina Bruni: Since the publication of the book, I believe you and Larry have found some new witnesses.

Peter Robbins: *Just to mention: as a by product of working on the publication, I have developed some good friendships in the area (Suffolk) some of them are like family now. Yes. Since the book came out last Spring, probably about 10 of the original witnesses have come forward and made statements to Larry. Incidentally, I have received statements and accounts from other current and former Air Force personnel who were relieved to discuss the incidents described in our book. In ten years of research, not a single witness confidence was broken, except for Halt. During our interview with him, he asked us to turn the tape off three times. Earlier, Halt had told Larry. "I think you sincerely believe what you are saying and you might be right, and I can't say you're lying, but I find flaws here and there that I have to have resolved for myself." Later, when speaking informally to a group of British ufologists, Halt was asked about Larry Warren, and he told the group that Larry had not been there and that his account was untrue. If anything was not true, it was the colonel's answer. In my opinion, he broke a confidence when he answered that question.*

Georgina Bruni: Can you tell the readers what Halt said off the record then?

Peter Robbins: *The full interview is in LEFT AT EAST GATE. With the tape switched off he told us three things. One of those was - that light beams had penetrated the hardened bunkers of Bentwaters' weapons security area.*

There is a small section in the book about the Rendlesham Forest Incident, which is a very interesting and detailed account of the events that took place there in 1980. It is a very good read and I highly recommend it to anyone who is interested in the subject.

Dear Larry

Re: My book - The Alien Files

In response to your letter to me of April 14, 1998. I apologise for taking such a long time to reply. I have been away for two months, and I'm only just catching up with my surface mail. Almost all of my written communications are now by email, which I collect every day wherever I am in the world - even though my ISP (Internet Service Provider) is resident in Northern Colorado. Mail to the UK address which I publish in the book is not forwarded on to me. My physical UK address is as shown above.

I am very sorry to have provided an incorrect web address for CUFORN. Your letter unfortunately arrived just a few weeks too late for me to make any changes to the paperback version, and just after I had taken off on my travels. Amendments to this version were finalised with the publisher in March 1998.

I had intended to expand the entry for CUFORN in the paperback version, and wrote to Joe Daniels by email in November 1997 asking for his permission. I enclose a printout of our email exchange. Time caught up with me and I wasn't able in the end to find neat brief summaries that I could drop into the book for the different UFO research organizations. My intentions were to substantially expand this section of the book so that it could be used as an instant reference for readers who want to know more about research organizations in their area. Unfortunately, as with many writers I imagine, the book is a trade-off between intention, pragmatic possibility and publisher.

Please feel free to write again to my London address above, or electronically when you become email-enabled.

Keep up the good work, Larry - and I'll do better next time.

Regards

Dear Sir/Madam,

I am currently researching for a book I plan to start writing early next year. I would be very grateful for any information you may have on Unidentified Flying Objects since 1945 to help me in writing my book.

I require literature from people who claim to have been abducted by UFO's. Also any official secret reports uncovered by UFO investigators or released by official or unofficial sources regarding crashed UFO's, alien capture or sightings.

I have been fascinated in UFO's ever since a brief encounter when I was seven years old, from this encounter, it has made me think there must be something out there other just ourselves and it has led me to write a book.

I would be very grateful if you could help me in my quest, I am prepared to pay for any costs that may arise in obtaining this information.

If you cannot help me I would appreciate any contact names and addresses you could pass on to me.

~~Thank you once again for your help.~~

Yours Faithfully
