

THE QUARTERLY REPORT OF THE UFO RESEARCHERS OF FINLAND: 2/74

During April-June 1974 The Ufo Researchers of Finland received reports about a total of 31 Finnish cases, which were possibly or obviously related to ufo phenomena. Among them, 20 cases are so-called old cases, of which number 11, however, took place in January-March this year. Therefore, the number of reports coming from the second reporting period( 2/74) is, incidentally again, only 11 ( 8+2+1 ). Only three cases from May and June were reported. The second reporting period of the year has proved a silent period, as regards ufo activity, and the cases which came to be known were quite inconspicuous light phenomena. Remarkable ufo phenomena may be related to the older cases, but unfortunately the information available is very insufficient in most cases.

From Finnish news media in April-June, the researchers have found a total of 24 news pieces and articles which dealt with or were related to ufos. In this respect, too, the reporting period showed stagnation. 11 news items and articles were found from daily papers, while weeklies and other periodicals carried a total of 13 items.

The number of ufo cases and press items will certainly increase afterwards for April-June 1974, but the over-all view is clear already at present: the ufo activity during the second reporting period has been at low ebb.

REPORT PERIOD 1.4.1974 - 30.6.1974.

CASE LIST:

April

1. 5.4. Puumala, 8.30 p.m., 1. A central-ball, with a number of flashing little balls on each side, moving slowly many times downwards and then very fast upwards. Observation time 15 minutes.
2. 6.4. Lahti, 7.30 p.m., 2. A bright light-ball, with a tail, flied from the East to the West. It dissapeared very quikly out of sight.
3. 8.4. Oulu, 2.00 p.m., 1. A red and yellow, crescent moon-shaped, object moving in northeast sky in the same direction as the wind and with same speed.
4. 12.4. Kinnula, 11.30 p.m., many. A red "star", moving in the sky, of which was heard a very clear three-part piping which was heard again with short intervals.
5. 14.4. Vantaa, 3.45 p.m., 5. Two elliptical objects flying steady from The South to the North. Observation time 4 minutes.
6. 16.4. Kotka, 9.05 p.m., many. A silent "star", with a differen kind of light phenomena, growing fast to a comparatively large. Observation time a minute.
7. 29.4. Parikkala, 9.00 p.m., 1. At the sky in the South a light phenomena, which was of the size of the full Moon. After two large round it plunged to the middle of the sky and disappeared out of sight.

May

8. Begining of May, Munsala, 2. A silent light, with three head-lights, followed a car at night-time. No report.
9. 7.5. North-Finland between Ivalo - Kokkola, 10.30 p.m., many. A very bright light, with a tail, flying on the East sky. A number of different kind of observations of this phenomena.

June

10. 30.6. Between Forssa - Urjala, 2. A red-glowing, "funnel-shaped", object followed a car about 30 kilometers. Then the object increased speed and, at the very moment, it's colour turned green. And just before that dissapeared, the green colour turned violet.

#### UFOS IN FINNISH COMMUNICATION EQUIPMENTS

##### a) Newspapers

date	name of papers	Titel of articles
April		
3.4.	Iltaset	Uri Geller's Life and Mystery (part 6)
10.4.	Iltaset	Uri Geller's Life and Mystery (part 7)
14.4.	Keskipohjanmaa	Strange light phenomena above Kinnula.
18.4.	Eteenpäin	Strange light phenomena in Metsola.
23.4.	Etelä-Suomi	Light phenomena (causier).
May		
1.5.	Etelä-Suomi	Once, at least.
4.5.	Hufvdstadsbladet	
31.5.	Etelä-Suomi	Uforesearchers reported.
31.5.	Kaleva	Ufos in the Finnish Air Space.
June		
6.6.	Karjalainen	Ufos are active - dozens of cases are reported.
30.6.	Vaasa	Red, blue and white balls in the Finnish sky.

b) Weekly-journals

date	name of papers	title of articles
April		
N.o: 4	Nyky aika	Time of Flying Saucers is not over.
N.o: 7	Koti-Posti	Ufos - representatives of Space Life.
May		
N.o: 5	Ratto	Here glows the strange light of Paasivesi.
N.o: 5	Nyky aika	Ufos and the world of spirits
N.o: 5	Punalippu	Possibilities of a life in space.
N.o:10	Koti-Posti	Now I dare tell You what I saw.
N.o:20	Seura	Helge Lindroos' claim: this is an ufo.
N.o:22	Viikkosanomat	Some one are searching communication with us - radiosignals from outer space.
June		
N.o: 6	Nyky aika	The top of ufo phenomena.
N.o: 6	Uusi Nainen	Doomsday menace ?
N.o:23	Viikkosanomat	Will we turn to gas-beings ?
N.o:24	Viikkosanomat	1 000 year to the first visit.
N.o:25-26	Jaana	Healer Helge Lindroos is a contact-person.

UFO MEETINGS IN FINLAND

Interplanetisti - Interplanetisterna Society 9.5.

Ufo-club of Jyväskylä 17.4., 7.5.

Ufo-club of Kotka 7.4., 5.5.

Ufo-78-club in Lahti 11.4.

Interplanetarian Society of Nurmijärvi 12.5.

Ufo Society of Tampere 22.4., 24.5.

Ufo Society of Turku 25.4., 30.5.

Specially to the following person:

Bowen, Charles

Buckle, Eileen

Edwards, P.M.H.

Fouéré, René

Hynek, Allen J.

Lorenzen, Coral and Jim

Michel, Aimé

This report is connected, in some degree, with the work that The Ufo Researchers of Finland are making, and Finnish ufo research on the whole, known in other countries. This report you could use freely, source mentioned. You will get further information, of The Ufo Researchers of Finland, by writing to us.
