

Evidences by Ada Botnarro (May 2002)

This is what Ada reports: - at 21 May 2002 I was operated in the English Hospital at Nazareth. A night later, I woke up in my bed at the hospital, where I was connected to infusion.

The room was dark. It was between 02:00 to 03:00, next to my bed I saw a blue light, like an opening window, and something like a key. It disappeared and later I saw a hand coming out of the window. It had 3 very long fingers, with something looked like a ball at their top. They were soil color, with very thin veins with darker shade.

Suddenly I felt a stroke, like an energy that is difficult for me to explain (this phenomena is familiar to me from my birthplace in Russia). Then the blue-lighted window disappeared. I couldn't sleep at all that night.

After the operation, I was tranferred to the surgical department, there I had a dream.

In my dream I saw stairs and a corridor with a strong light at its end. I saw there, aliens 1.2 meters high with long big hads. There were 20 or 30 of them, I felt they are very happy to see me .They had blue colored eyes.They didn't allow me to go down the stairs.

I want to emphasize that there is such a thing- "Man in Black". Three times I saw vehicles with MIBs, the car window were sealed, and made from a metal-like material.

I saw 3 man with a very thin woman with a big had.

The man look Scandinavian (Nordic), high,sportive. One of them was about 35 years of age, and the 2 others seem to be younger then 25, they spoke to me, but I don't remember what they said.

Gehha junction 31 May 2002

This report arrived thanks to our center member Ada Reshef

The witness from Kfar-Saba (a city northen Tel-Aviv) named Margalit, who owns a furniture shop, reports: - we drove from Kfar-Saba to Kiriyat-Ono. At Gehha junction was crowded and full with vehicles.

At 19:50 I looked to the sky above and I saw 2 black triangular objects above the junction . I never saw such a sight. They hovered not very high, and were without any lights and their color was black-gray.

I had a lot of free time to watch them, I saw a man in a car nex to me, also looking at the UFO's in my right side, I saw a family who were pointing upwards, laughing and talking.

I wonder very much, that nothing about this incident was published in the media.

The azure light circle September 2002

It happened in the first week of September at Hanni Rosen's home in Menahamia. Hanni reports for several years about presence in her home and extraordinary events, including body marks.

She tells: "approximately at 05:20 I woke up without any reason, but without panic and with a good feeling. I asked myself why?. The window was closed, because of the air-condition. In less then 1 meter from me, on the wall, where some decorations hang, I saw a spot of bright and beautiful light. It was a circle, 90 centimeters at diameter. At the beginning, it's color was bright, and then it changed into bright azure. It was totally quiet. My 2 dogs were calm, also my son didn't woke up.

The light didn't come from outside, not from the window, because the wall wasn't in front it . It was on the west wall, and the highway is at south direction.

I rubbed my eyes. I felt happiness and excitement, the azure light was very beautiful.

It seems to move out of the wall then turning slowly and fusing back with the wall. The light covered the decorations on the wall, then the shape of it changed and became a violin-symmetrical-shape.

It's shape changed slowly, as giving me the opportunity to digest the sight. I often closed my eyes and opened them. I felt it won't be taking a long time, but I didn't want to miss anything of the sight.

The "violin" shape lasted for 2 minutes, and all the show lasted for about 10 minutes. Then the light disappeared slowly and gently.

All the time I had an excellent internal feeling. I returned to bed very happy.

In the morning I felt very tired, but everything I did that day, was done with happiness.

What is odd in this story, is the quiteness and that the dogs didn't bark."

Ma'alot (North Iarel next to the Lebanese border) 17 September 2002

Shim'on Rosenberg, (our center member) reported:

At 21:30, "directly over his head" he saw a lighted long shape white-orange object, flying from west to east. The object was seen for approximately 5 seconds.

Ma'alot (North Isrel next to the Lebanese border) 21 September 2002

Shim'on Rosenberg (our center member) reports:

At 19:20, above him in the sky, a star-shape object appeared, it's light started to be stronger and then weaken. Afterwards, it flew to the north-west direction, and the light became smaller, and it's color changed to red until it disappeared.

Petah-Tikva (a city east of Tel-Aviv) 23 September 2002

Miri Shooster, noticed an unordinary group of lights at 21:30 south-east direction from her home window, at Shprintzak street. The lights were at a height not more then the cities buildings.

She, taped on video what she saw. And this is what we see in her tape: in the beginning we see 3 white circle lights. Afterwards, suddenly in the sky appeared 5 more. The lights were located at the same sector in the sky.

It seems to be that they had like "smoking-trails" in their both sides (up and down). The trails in the upper side turn right and left, and the trail in the bottom turn straight down.

Then 3 lights went out and only 5 left. In a zoom photo we see that the bottom of one of the lights is straight and dark. The "smoke like trail" weren't seen. Suddenly, more 2 lights appeared without trails. One of them disappeared and the "trails" were visible again.

As the video continues, 6 more lights remain and then only 2, in the zoom we see something round with a round bottom. It reminds a video we show at our last center meeting. The lights seem to be pulsing, when shown in zoom. They are more like egg-shape then circular.

Afterwards, we see that one of the lights becomes longer and separates into 2 lights with the same sizes,surrounded with something like a vapor of light.

One of the 2 lights, who was higher then the second one, becomes dimmer, turned into a spot and disappeared. After half a minute also the second light disappeared in tha same way. The video lasts 11 minutes, and it will be presented in the next meeting of our center.

To this interesting phenomena we asked Or Ronen (alien contctee) to contact with the alien "high council", and was confirmed that massive activity was on June and July in this year (2002). The reason was a " correct planet location " with the goal to "develope control on the planet earth"

The activity will be reduced in July and August, and again it will be intensified at the beginning of October.

Is this light show connected with the renewal ?

Netanya (north of Tel-Aviv) 25 September 2002

Neri Pinkwasser reports that when she went to her friend at 18:48, sunset time she saw over the sea, next to a golden and purple cloud, a small object, far away, dark and unlighted, flying to the north and suddenly disappearing.

When she looked around, she saw in the south, (probably the same object) flying consistently to both directions.

At 19:00 she noticed 2 military airplaines flying to the direction of the sea.

Ma'alot (north Israel next to the Lebanese border) 3-4 October 2002

Shim'on Rosenberg (our center member) reports:

"Between Wednesday and Friday morning, between 03:30-04:10 I woke up, went out of my bedroom, drunk something, make a walk around in the house and returned to sleep.

It seems to be I fall a sleep immediately. For a short period of time I had some dreams, which I don't remember. Despite my sleep, I heard metallic nises, like someone is dragging a crate or a wagon with steel wheels in front of my bedroom window, where there is an asphalt road. It was a very unpleasant noise.

I tried to wake up, but it was unsuccessfully. A few times I strogly tried to open my eyes, I ttaught maybe are burglars around the house.

At last I was able to wake up. I went stright to the window, lifted the shutter - there wasn't anything there. My wife asked "why are you openning the window, it's already chilly"?. I went out of the room, but this time with my licensed pistol - everything was quiet. Even our 4 years old "German shepherd" dog didn't react at all. After few minutes I retuned to sleep.

On the next morning, Friday, I noticed an unusual mark on inner side of my arm, next to my elbow. The mark was constructed out of 4 little red whounds, as seen in the photographs. 3 of them created a triangular, and in the middle of this triangular was stabbing wound, as it was made by a needle. 2 of the dots are a little bigger and longer in shape, and it seems like the skin was peeld. The size of the triangular was 1.5 X 1.5 cenimeters, with a centered little stab wound.

After 3 days, the wounds seemed to be a little inflamed (I didn't use any medication, because I wanted to see how long the wounds will remain.)

In Friday an Saturday tha location was sensitive, but it didn't hurt.

Never before I had such a wound, and I newer saw such a wound on myself.

An UFO near Ben-Gurion intl. airport

" Yediot Achronot " newspaper reported on 27 of December 2002, that 2 weeks before a big object flew in enormus speed passing a 737 airplane, belonging to a Slovakian company.

The plane was preparing to landing when the pilots saw something big crossing their way in a good visibility.

The 2 pilots, reported as experienced, said it was claimed: " it moved not as an airplane", and that it's flying speed and disappearance were extraordinarily. The pilot said " I never saw something like this".

A quiet investigation was performed by the Israeli Air-Force. They reported: "we don't have an answer", and "There were no explanations to what the pilot saw."
