NOVEMBER 1977

It is with dismay that I now find myself as your new National Chairman S.A. I have just returned to this scene of ignorance and bickering after the publication of my book, "Beyond the Light Barrier", in West Germany where it has been hailed as an epoch making book... an example to mankind... and the creation of the Flying Saucer. A leading German scientist (astronomer), Dr. Jurgen Blunck, proof-read my book before publication and sent me a questionnaire which I was able to answer to their satisfaction. The review of the book in the German newspaper is very thrilling. Rockets are now obsolete.

It seems that I am now left to pick up the pieces of an obsolete Contact S.A. The ideal of the Flying Saucers's and a New Humanity is busily being shot down in flames by the very people who should be sponsoring this ideal. But if the Christians could not create a new humanity in 2000 years... how can we hope to achieve it within 30 odd years ? With the unenlightened, interllectual darkness, attitude of mind prevailing in the average mentality... this seems to be wellnigh impossible.

As far as I am concerned, I'm sick and tired of having to put Flying Saucers across to the ignerant public. Its like having to describe Television to early Victorians. I shall continue to do so though, for the sake of the Flying Saucers and our ideal because I work with real scientists and highly advanced people, which gives me great pleasure to continue and to know that I am not wasting my time. I'm not at all interested in the opinions of amateur scientists or astronomers and fuzzy-duzzy out-of-date mathematicians. The secret of the Flying Saucer lies in space-time geometrics and harmonic math.

The reality of the Flying Saucer is beyond doubt. The evidence is held by the authorities of each major white regime on this planet and will not be revealed to the ordinary public. This curtain of secrecy exists, as General Peterson told me more than twenty years ago, when he was Military Air Attache in Preteroria.

And I know why this curtain of secrecy exists in the political climate of the world today...

Real scientists of course, not just the amateurs and guessers who populate the scene/

scene here, have stated; "The UFO material thus collected, indicates that UFO's are real entities that cannot be identified with any known natural phenomena."

Bluntly rejecting the usual debunking explanation, Professor Felix Zigel, top-ranking Member of the Soviet UFO Commission and professor at the Moscow Aviation Institute, who also lectures on Astronomy at the Moscow Planetarium, continued; "That Flying Saucers originate in other worlds, that they are flying craft from planets other than Earth, merits the most serious examination."

"They were no figments of imagination. Too many intelligent, competent observers have reported UFO's. My conclusion is that this is a reconnaissance by an advanced civilization and the military secrecy surrounding them should be lifted." Stated Colonel Howard Strand of the United States Air National Guard, who had three encounters himself, with Flying Saucers.

"The UFO's are interplanetary devices systematically observing the Earth, either manned or remote-controlled or both. This information has been officially withheld." Said Colonel Joseph Bryan, USAF, Ret., Special Assistant to the Secretary of the Air Force during early UFO operations and later assigned to the Staff of General Lauris Norstad.

It is unwise for amateur civilian investigators to pit their wits against the vast Military machine. The Military have all the highly trained observers who know what to look for. UFO's can be just anything up there in the sky, unless one is qualified enough to tell the difference. And of course, this is a one way exercise... everything goes in, but nothing comes out !

My allegiance is to my country, South Africa, and I am very happy that I can now honour my commitment to the Air Force in handing over to them the documents containing the Flying Saucer propulsion systems, as promised by letter, with answer from the Air Chief of Staff way back in 1967. The background to these negotiations will be understood when you read my book. A leading Commercial giant in this country had attempted to 'buy me out', before the Government stepped in.

The U.S.S.R. Academy of Sciences has published a book entitled, "Populated Outer Space", edited by the Academy's Vice President, Boris Konstantinov, including

contributions by such eminent United States scientists as the late Dr. James McDonald, Dr. J. Allen Hynek, Jacques Vallee and Professor Frank Salisbury. I recommend this book to you, also I recommend Major Donald E. Keyhoe's new book entitled, "Aliens from Space... the Real story of Unidentified Flying Objects". He even gives a whole chapter on how to encourage and attract contact with our friends from space...

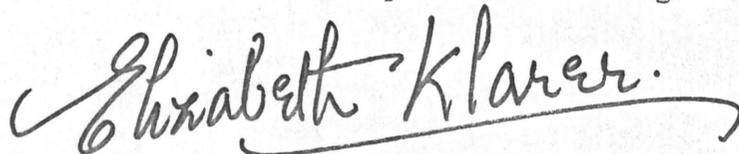

Those who attack "Contactees" please take note. At least they led the way... and were sincere in their belief. Nobody is qualified to investigate yet, in such a highly scientific field of advanced physics.

I was further dismayed to read the concluding paragraph of the Durban Contact Branch News and I quote: "I am extremely sceptical of people who claim to be in contact with extraterrestrials and the onus is on them to prove the validity of their claims. Gerrie did not reply to my letter. Shortly before we went in to the T.V. Studio, he told me it was a hoax. This, of course, makes it very difficult to believe anything he says."

How unfortunate it is that someone who admits to a hoax should be allowed to represent the 'Believers' in an SABC Television Programme on Flying Saucers.

It is the principle of the whole thing that counts... and what is the rest of the world going to think of our backwardness now ?

Elizabeth Klarer A.T.C.L. Dipl.Met. Cambridge.

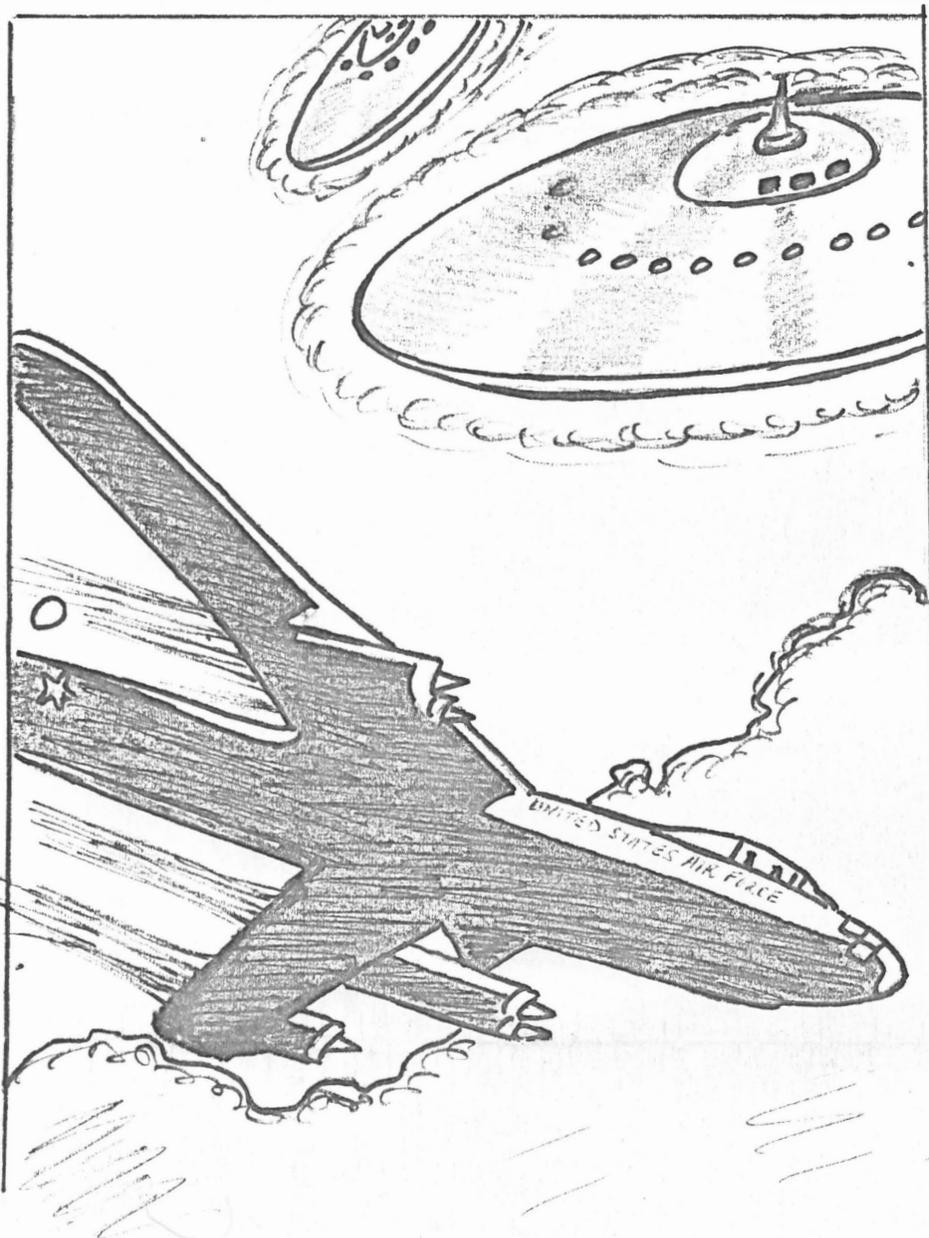

National Chairman Contact International S.A.

Dear Mrs Klarer,

RE: TV PROGRAMME "CHANGING SKY"

It is with regret that I realise that no letter of acknowledgment was sent to you, to thank you for the time you so generously granted me during my research for the above programme.

As you must realise, it was decided to play the programme on a low-key basis, as we felt that at this stage it would be too early to reveal to the South African public, your very much "classified" information regarding flying saucers.

May I say that the two afternoons that I spent with you were two of the most enlightening and interesting that I have spent for a long time.

I do hope you will accept my most sincere apologies, for not having written to you before.

Yours sincerely,

ROBYN SIMON
