WORLD UFO NEWS SCENE

INFORMATION IN COSMOLOGY
NEWSLINK IS FROM RELIABLE
SOURCES.

INTRODUCTION

Cosmology is the science of the Universe as a whole; a treatise on the structure and parts of the system of creation. The title COSMOLOGY NEWSLINK, was formulated from the need to fit together inter-related subjects which may or may not have bearings on each other and perhaps leading to the answers or conclusions of some of them - if not all of earth's mysteries in which case this magazine has accomplished its function. Most of our title was suggested by Mr. Patrick Dincen, of Co. Kerry Ireland, We added the LINK.

Copyright. Where an article or photo cannot be traced to the original source the editor offers apologies should any rights be inadvertently infringed. Reproduction of material from this magazine may be used provided CNK and the address is mentioned.

W A N T E D YOUR HELP

IF YOU THINK YOU COULD WRITE
FOR CNK, PLEASE LET US KNOW, WE
REQUIRE CORRESPONDENTS EVERY-
WHERE, (Contact the Editor).

CNK is now published as a non-scheduled magazine, letters will be
the same basis: Address- 37, The Close, Dunmow, Essex, England.

EDITORIAL

BY THE EDITOR -
EDWARD HARRIS

When this issue went to press there was a Major Earthquake in Europe, something rare indeed. We shall be probing this issue about earthquakes in another issue.

This issue of CNK has taken a sustained effort on my part, to bring together the hollow earth story which this magazine now thinks highly likely to really exist. The snag is that anyone who puts forward a hypothesis that is in conflict with what is TAUGHT (without facts) in universities etc., is a very suitable target for ridicule. I don't want that happening to CNK, since we aim to get to the facts.

COST

This issue has, also cost me a lot of private money to produce, and therefore I can no longer afford to just give CNK away, willy-nilly, to free sample requests. However, I do get printed spoils - CNKs that have not come up to expectations; these can be given away FREELY, but only to give the enquirer a ROUGH idea what to expect if they wish to subscribe. This journal is still produced as a hobby, and to spread the news.

PREDICTION

There is a predicted UFO wave for 1977 according

to Dr. Lobsang Rampa, as told to me by Mike Milton. So far, this is proving to be the case. No less than 4 cases have been in news since late 1976.

In this respect we wish to thank the following for their assistance in these cases:

SOUTHERN TELEVISION, BBC RADIO, MR. RICHARD LEWHELIN AND THE BOYS OF THE COUNTY PRIMARY SCHOOL, BROADHAVEN, HAVERFORDWENT-DYFED, AND THOSE CONCERNED.

LIFE ON MARS

I have just learnt from BBC television's show SWAP SHOP in which astronomer Patrick Moore appeared on 26 February, that so far NO LIFE has yet been proved on that planet. But the search is continuing.

NEW MAN FOR CNK

FINALLY, we welcome to CNK, as advisor, maybe, co-editor Mr. D. Prockter who no longer runs UFO NEWS. It has been David's second run at it. His experience in the UFO field and astronomy will greatly enrich CNK in its quest for the answers to the unknown.

EDWARD HARRIS. EDITOR.

READER'S LETTERS

Dear Editor Harris,

I am interested in learning more about your publication which is not held by our University library, as I am considering sending you an monograph that relates semiotics to your field. Could you please dispatch a sample copy to me
Sincerely, Edward S. Small, assistant Professor-radio-TV-Film. University of Missouri-Columbia, U.S.A.

A LETTER FROM THE UFO CENTRE IN THE USA:

"Before I explain the reason for writing to you allow me to introduce myself.

I am a scientific consultant for the Center for UFO Studies, Evanston, Illinois, USA and also for the Aerial Phenomena Research Organisation, Tucson Arizona, in the area of vision, perception, optics and related areas. For the past several years I have been actively interested in the UFO sightings made and reported by pilots of commercial, private, research, and military aircraft.

"It is in regard to this study project that I am writing you for assistance. There are already over 3,000 cases of this type in my files and some of it is potentially important for understanding the basic nature of the UFO phenomenon.

"Would you insert this information in your publication. Yours very sincerely, Richard F. Haines Ph.D. Research consultant."

EDITOR'S REPLY: Glad to be of help Mr. Haines with such a cause as you have picked. Whether it will bring the solution nearer is anybody's guess! CNK readers who may like to help with any data may write to: Dr. R.F. Haines, 325 Langton Avenue, Los Altos, California, 94022, U.S.A.

TO START THE BALL ROLLING HERE, here is my contribution:

In 1965, while living and working in London, in the LeaBridge Road, Leyton, area, I had to call into a pub to buy something. I noticed an airline pilot by his uniform. He was passing through that area. I did not drink, but had to, in this case. Well I got talking to him, and gradually edged my conversation around to UFOs. Eventually he told me a story about the time when he was about to take off and just before opening up the throttle the control tower radioed that he must not fly the regular route

and must avoid it, by a few miles, because 'something was there unidentified' -- -EDITOR

Dear Mr. Harris,

Thank you for your letter dated 17th January, 1977 and also the magazine Cosmology Newslink.

I hope you don't mind me answering your letter for Mike but he is very busy at the moment, to write to you himself.

We all had a very nice Christmas, thank you very much for asking, we hope you had the same.

We are very pleased to see you have got your duplicator fixed, it looks real good. Please can you still advertise the Interplanetary News for us. Best wishes to you from all at the I.S.T.R.A. Yours sincerely, Tina Woolgar (Mrs)
Honourary Secretary for Mike Parry, Honorary President.

* Thanks Tina, as you can also see, I have now got another typewriter also, to go with the repairs. This machine has an immense carriage on it-2ft 4" long no less. Now I can get stencils in longways. That means better magazines (I hope).
Ed.

Dear Ted,

Did I ever tell you of the time I met Martin Landau of SPACE 1999. He said that he was making a thorough study of Red Indians along with many other actors like Marlon Brando, etc., who realise there are links between these people and space people, and that they had the correct way of living, and not like our ways. Some tribes may have come from the Centre of the earth. I have an old Indian painting to prove it. I may write more on this for CNK some other time. Sincerely
Mike Milton.

CNK has received a request for information on CNK from the Holland based XEROX company. They are compiling a dictionary of publications. We hope that we shall be listed in the near future. CNK is or was, in the American Business Directory but under a different title. Anyone in America reading this must now note that the offer of a FREE SAMPLE has expired. Thank you.

! EDITOR

LETTER FROM THE EARL OF CLANCARTY (Brinsley Le Pour Trench) 5
March 1977.

Dear Mr. Harris,

It was nice to hear from you again. Although I regularly go to the House Of Lords, I am still very much interested in the UFO scene, and I am working on a follow-up book to "Secret of the Ages". As far as I am concerned I have no objection at all to you quoting in your magazine from "Secret of the Ages", but the copyright is held by Souvenir Press, and the book is now in paperback with Panther. Their address is: 43, Great Russell Street, London WC1B 3PA.

As you will see from the above, Souvenir recently changed their address.

I was interested to learn of the expedition going to Antarctica apparently from Bishop's Stortford. I have just learnt of another one going to explore the hollow earth strating from from Australia. No, I did not see my mention in WEEKEND Magazine. What did they say? Kindest regards, Earl of Clancarty.

*Editors reply: Thanks for your letter. In answer to the question above, it appeared in the February 23-Mar 1 issue of WEEKEND under the Headline: THE NIGHT PRESIDENT CARTER SAW A FLYING SAUCER, and the part about you was: QUOTE: THE HOUSE OF LORDS HAS A FERVENT UFO SUPPORTER IN LORD CLANCARTY. Until recently he was president of Contact International which reports on UFO activity, and has written seven books on the subject. He said: "I'm quite satisfied they're around. I've seen them." UNQUOTE. The expedition was only advertised in B/S. I discovered. -Ed. *****

FROM THE ESSEX DOWSER CLUB:

Dear Mr. Harris, I had started a small experiment with a pyramid after reading THE SECRET POWER OF THE PYRAMIDS by Bill Schul and Ed Pettit. I had previously read about pyramids in SUPERNATURE etc., but merely made a mental note of the fact at the time, being heavily engaged in pursuing my dowsing experiments. I have made a small pyramid and dowsed the forces generated. There is a strong negative reaction both above and below it and the flat sides seem to be drawing in power from the immediate environment. I have found that I have been unable to renew worn out razor blades and am currently experimenting to see if it is possible to extend the life of blades by putting them in the

Pyramid before they wear out. For the past five weeks (since experimenting started) I have been watering a cutting from a geranium which still seems to be alive and flourishing, though I cannot be sure if it has taken root. The original plant however seems to be dying. I've got them both in the same pot (editor's note: This is no ordinary water Mr. Dineen speaks of, but water charged with pyramid energy).

Do you ever see FORTLEAN TIMLS? The latest issue No.18 has given the address of Rob Forrest, 68 Chesham Road, Bury, Lancs., as a central clearing house for queries and info.re., individual pyramid experiments and experiences. The plan is to make up a 'postal folio' to be circulated to all those contributing. Yours sincerely, Frank Dineen, Editor, Essex Dowser, 4 Brentwood Road, Ingrave, Essex, CM13 3QH.

CNK Welcomes Martin Dawson of the York Astronomical Society of 1, Lorne Street, South Bank, The Mount, York., for his interest in CNK. Maybe we can swop some astronomical information sometime. -Editor.

Dear Ed. Did you watch Nationwide on the 3rd Feb., there was an article on UFOs. I got some of it on tape. The Y.A.S. has a feature in the local newspaper done for us once a month. I'll try to send you some. I enclose subscription for next copies of CNK. Cheers, Martin dawson, York Astronomical Society.

OUR THANKS to Bob Blomville for the mass of UFO data he has been sending us. Always needed. Thanks Bob. -Editor.

FROM FORESIGHT: Dear Edward, Thank you for your recent letter and latest CNK. We are pleased to hear that you have overcome your difficulties. Equipment and supplies can be quite a headache these days. We wish Mike Milton, who wrote OUR MYSTERY WORLD (CNK 13) success in his researches. We have more than a passing interest in the human aura and have conducted many experiments ourselves and in the subjects of colour as related to sound and vice-versa.

We are aware of Prof. Laithwaites experiments with anti-gravity and wrote to him some time ago. He was very vague in his reply but did admit that he was engaged in this kind of research and seemed to intimate that it was of an electro-magnetic nature. We wish you success in your telepathy exper--

iments. We have done a similar thing and are now able to pick up each others thoughts quite easily. We wish you every success this New Year and hope that CNK will stabilise itself. Until we hear from you again, we are, Yours Sincerely and fraternally, JOHN & MRS. J. BarElam, FORESIGHT MAGAZINE, (1977)

Hello Ed. (Letter from UFO CONTACT IN DENMARK)... Thank you for your letter and attached magazine. As you know my decision to stop publishing UFO CONTACT is definite. Instead, there will be some newsletters throughout the year. You may see my comments in the last issue. I shall mention your magazine in the next issue of the scandinavian edition of UFO KONTAKT and ask interested to contact you. Our magazine is read by approximately 6.000 people each time. Otherwise things work fine—we get more and more subscribers and our magazine now holds 40 pages which we have found is the largest it can have. Larger is resulting in need of time to read it which is a pity. Most libraries now subscribe to the magazine and whatever we publish is requested by libraries so that thousands of people are informed throughout the year. We also have many lectures—I would say about 100 a year where we reach about 10.000- 15.000 people. In April I am going to Mexico to a scientific congress where scientists from east and west will meet. Well, please give greetings to our friends in your area. Sincerely yours H. C. Petersen (Major) UFO CONTACT, Denmark.

The next letter leads us up to our UFO sightings page:

Dear Mr. Harris, please forgive my tardiness in replying to your letter, (Editor's note: in connection with the SOUTHERN area UFO case—silver 'skinned' being), of 14th December. It is not BBC policy to supply transcripts of our programmes but we suggest you write to the freelance reporter who did the report and interview on this UFO story. He is Ian Whiteley and you can write to him c/o BBC Radio Solent, South Western House, Canute Road, Southampton SO9 4PJ. Yours Sincerely Jacqueline Ellis. Senior Production Secretary Newsbeat.

*OUR REPLY: Thanks Mrs Ellis. I did in fact write at once to Mr. Ian Whiteley, and I have had nothing in reply—dead silence in fact. However, SOUTHERN TELEVISION have proved to be the MOST co-operative network, answering mail almost withing 48 hours. It is the full story we hope to present from them. So please BBC do go back to sleep!

UFO SIGHTINGS

COMPILED BY THE EDITOR WITH ASSISTANCE

England has had a mini-flap of UFOs since the autumn of last year. There has been the report of a silver-skinned (or suited) alien with a white beard, which we are still investigating. Then there was the cat-like creature seen by 11-year olds (see page 14). Then a fleet of unidentified objects in the Anglia region and another elsewhere which we have no details of. But to go into depth, now we turn to two of the most important ones this year and last. First and the story goes thus:

From Radio Solent came the report that two persons, in their car were pulled off the road by an unidentified flying object, and it landed in a field nearby. A silver suited 'or skinned' being got out, wearing a white beard. (We feel this was two separate cases actually), however, he approached the car, looked into it. The woman occupant was believed to have fainted. This story was rushed to me by CNK reader and good friend Mr. A. Roberts of Dunmow, who was just by chance listening in to the programme.

I at once contacted the BBC, with the results you can see on the letter page.

Sometime later, Mr. Roberts excited

ly came with another report from a phone call with his mother. She had telephoned right from as far as Hampshire.

The reason for Mrs. Grace Roberts call, was twofold. Firstly, she had heard from her mother, who lives in Alton, Hampshire, who rang up (from the area where all this occurred), had been woken up by a very bright light over the entire house late in the night, or the early hours. She seemed to be in need of reassurance, and rang Grace about it. Secondly and, whether the light has any connection, Mrs. G. Roberts related about the SOUTHERN TV show called: WATCH THIS SPACE. "I was watching a TV show here," she said, "and they had a man and a woman on the programme, who said they were taken aboard a UFO WITH their car. They had an artist there making sketches of the UFO's interior. The woman said, they were pulled off the road while driving their car in Hampshire, by this object. It landed. A man with silver skin got out. When questioned, she said it was silver SKIN, she was sure of it, not a garment. The being also had PINK eyes.

R
B

The mind boggles at such a report. CNK wrote to Southern TV . for details, their reply was:

Dear Mr. Harris, The programme you mention was called WATCH THIS SPACE and the "alien encounter" case was of Joyce Bowles and Ted Pratt, both of whom live in Southern Television's area.

Briefly, they claim two encounters: One in which they came across some kind of spaceship beside the road and were approached by a humanoid in a silver suit who examined the car then disappeared; another in which they were beamed aboard a spaceship and had a certain amount of conversation with the same humanoid.

BUFORA have full details of the case. But if you prefer to hear the full story from those involved, I would be happy to forward a letter to Joyce Bowles or Ted Pratt-although as you appreciate, I cannot disclose their addresses without their permission.

Excuse my not writing at greater length, but it would take several pages to tell the story in full. Yours Sincerely, Bob Franklin. Director "SOUTHERN REPORT".

WAS MIKE PARRY YEARS AHEAD OF HIS TIME ?

MIKE PARRY, president of the Interplanetary Space Travel Research Association, in 1965 designed a model flying saucer, which only yesterday, I noticed the same theory by Leonard G. Cramp in his book PLECS FOR A JIGSAW. However this book was published in 1966. Mike who took over ISTRA from myself on that date decided to do what the name, ISTRA implied, to experiment with Interplanetary Travel, which he does not seem to be doing now. However, based on firm aerodynamic design, Mike drew up plans for the machine, and I built it with a small diesel engine and unluckily the whole machine was left behind in some garage and locked by the owner. Nevertheless, the point here is that Mike is a pretty clever fellow, to come up with an idea, in 1965 one year AHEAD of a noted scientist! I aim to try again Mike, if you read this, and see if YOU WERE RIGHT! Edward Harris -Editor. FOOTNOTE: Why not try again Mike???

SAUCER? It may interest the readers to know, that in 1965 the editor and his wife Rita and a friend David Andrews, who then also saw a UFO (three speeding lights) in Leyton, E.10.

EARTHQUAKE IN EUROPE

BY THE EDITOR- Edward Harris CNK International

I am trying to think of adjectives to describe the horror and carnage to describe the terrible waste of human life in the European Earthquake that occurred on Friday 4th March, but can not find suitable ones. This earthquake was predicted in issue 13 of CNK, from information by UFO CONTACT of Denmark, taken from a book called THE JUPITER EFFECT, where there will be a line up of planets in 1982, causing earthquakes of unbelievable magnitude. NOBODY anywhere will be safe from them, high winds, tidal waves. It seems they are coming into effect now as the transition starts to occur. DON'T THINK ENGLAND WILL GET AWAY WITH IT, BECAUSE WE WON'T!!! Everything on earth must be effected. Studying of fault lines around the world shows I am virtually sure, that one runs nearly to the Irish Sea too- So expect parts of England, London, Scotland, The midlands to get trouble. Even vibrations from 'down under' have shaken the areas mentioned, in the past. I HOPE I AM WRONG, but anything as big as a whole Solar system coming into alignment MUST do some stress with gravitational forces. SUN SPOTS will now probably occur more frequently, bringing chaos to electromagnetic communication. ie. Radio, T. V. Etc. What has annoyed us, is those who predict disasters, MAYBE RIGHT, they may say "WE TOLD YOU SO".-So what! Now tell us WHAT TO DO ABOUT IT! It's easier to speak than to act. In earthquake situations the first thing to do is to GET OUT OF BUILDINGS AS FAST AS POSSIBLE-that's logical, *get away from the SEA-go inland, if possible, or IF sea conditions are not heavy swelling and land is unstable to do the opposite. Only those caught up in earthquakes frequently would know WHAT TO DO! (We do not). However the recent quake has believed to have killed several thousand people in Rumania.

PREDICTIONS

It seems astrologers predicted something like this earlier. So while the world scoffed at astrology (including CNK & Patrick Moore -on TVs SWOP SHOP two weeks ago) it happened! Astrologers world wide predicted it. In this case their studying of planetary alignment was accurate. John Gribbin, astrophysicist, said, in the Daily Mirror (Thursday Mar. 10) "There is little doubt that the different alignments of the 9 planets in our solar system DOES have an effect on Earth. The planets exert varying forces on the Sun through their individual gravitational pulls. When you get an unusual alignment, as we are experiencing now, it can cause all sorts of solar upsets." (ie Earthquakes also-he said)

MARS

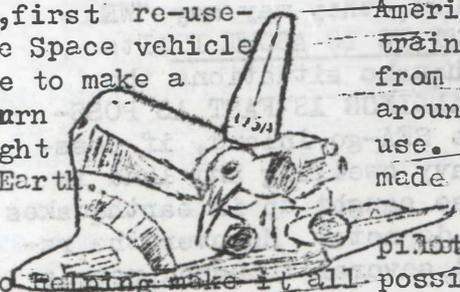

IS THERE LIFE REALLY THERE??? CNK Investigates the Possibility. Credit: BBC 2 and The United States Information Service.

Our request for a MARS photo. turned up the one we publish on the front cover. Thanks to the US Information Service. As if in reiteration of our HOLLOW EARTH series, and the idea that ALL planets have a warm interior comes this announcement from scientists in a TV discussion, that life could probably exist near the poles of Mars, as the probes have discovered that it is WARMER AT the poles of Mars? This we will look at next time:

The cover photo the first photograph ever taken on the surface of the planet. It was obtained by Viking 1 just minutes after the spacecraft landed. The centre of the image is about 1.4 meters (5ft) from Viking lander camera 2. We see both rocks and finely granulated material, sand or dust. Many of the foreground rocks are flat with angular facets. Several larger rocks exhibit irregular surfaces with pits and the large rock at top left shows intersecting linear cracks. The large rock in the centre is about 10 centimeters (4 inches) across and shows three rough facets. (MORE ABOUT MARS SOON—we hope).

SPACE SHUTTLE NEARLY HERE

Yes, first re-use-able Space vehicle able to make a return flight to Earth

American astronauts are already training to pilot the Shuttle back from space. It was announced in CNK around 1972. And now its almost in use. Already test flights have been made on the back of a Boeing 707 to see how stable it was and other pilot errors etc. A British firm is

also helping make it all possible. The firm John Piper of Surrey have been contracted to build a model of the air base for use in a simulator being used to train Shuttle pilots in landing techniques at NASA's Space centre in Houston, Texas. CNK believes the runway for touch down of the space Shuttle may have to be around 5 miles long or more, as the craft comes hurtling out of space at near to escape velocity itself. One thing is for sure, it will put an end to the constant building and re-building of expensive 'throw away' Apollo-Saturn space rockets. The Shuttle can be used many many times. There are also plans for scientists from many countries to take part, including England. ARE YOU GOING?-

The Editor

RON MARKWICK ILL

Left to right: Roy Lake, David Rrockter, Ron Markwick, and a member of the Essex UFO Study Group. (Photo by M.Jay).

CNK CORRESPONDENT

Ron Markwick, Technical adviser, lecturer and member of the Essex UFO Study Group, has been reported by one of CNKs correspondents to be seriously ill in hospital, for a few weeks. CNK has no further information, except from Barry King, a member of the group, who told me by phone that: "Ron was in hospital for a couple of weeks, I can't remember the name of the disease he had, but I believe, he will be on his feet again soon, and will be as right as rain within the next few weeks." CNK says Thanks Barry for the information. TO RON we say, DO GET WELL SOON RON, and may you never get it again, whatever it was. Ron I believe is also the public relations man, and any group without their spokesman is in trouble. The Essex UFO Study group has been in the news lately in the local presses of Harlow Gazette, and Chelmsford, when UFOs were sighted there recently. A new branch has now been set up there. Since this was announced Ron is now well on the way to recovery.

THE THING!

by the kids who saw it

DAILY MIRROR, Friday, February 11, 1977 PAGE 11

By IAN CAMERON

IT came from outer space. At least, it looked un-earthly. And it certainly proved a big draw.

Fourteen keen-eyed children, who say they saw an unidentified flying object, have produced sketches of The Thing.

It landed, they claim, in a field 200 yards from where they were playing.

The children, aged ten and eleven, told their headmaster, Mr. Richard Llewelin, at a school in Broad Haven, near Penbroke. He asked them to draw exactly what they had seen.

Scared

One of the children, ten-year-old Michael Webb, said: "I watched it for between three and five minutes. It had a flashing red light and I'm sure it was a space ship. I believe in them anyway."

He added: "We were all scared stiff and ran away."

But not before another ten-year-old boy, Philip Rees, had gained a vivid impression of The Thing. "It stuck in my mind for when the head asked us to draw it," said Philip.

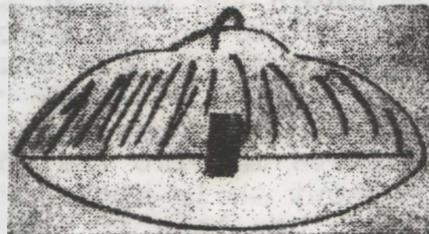

The headmaster said: "Each of them went away and did their drawings separately. There was no question of them putting their heads together."

"Having talked to each of them individually and seen their drawings — and allowing for any embellishment — I do not disbelieve that they saw something they had never seen before."

ON THE SPOT: Some of the children who saw The Thing.

"I do not believe primary school children are capable of a sustained, sophisticated hoax. The thread which appears to run through their stories is that the object was a silvery-yellow, cigar-shaped with a dome and possibly a light on top."

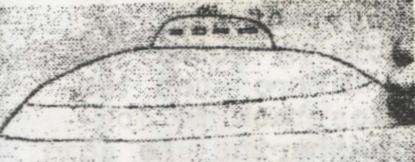

It looked like this . . .

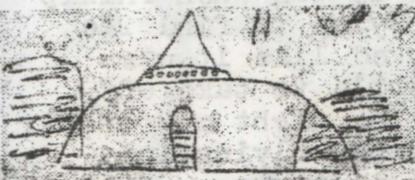

CREDIT: THE
DAILY MIRROR
BRITAIN'S BIGGEST
DAILY SALE 14

... No, more like this

... with a light on top.

... There was a point to it

... and a figure with big ears.

FOLLOW-UP BY THE EDITOR, MIKE MILTON.

After this story hit the headlines all over England I wrote to the Headmaster Llewelin for more information. Back very soon afterwards, came the boys very detailed report and Mr.Llewelin writes:

"Dear Mr. Harris, Thank you for your letter The children have already filled in U.F.O spotters forms supplied by the South Wales U.F.O.co-ordinator-Mr.

Rhysall Fugh of Roch Haverfordwent Dyfed

The incident occurred at mid-day on Feb 4th last, 12.45pm. There was apparently a second incident at 3.30pm in the same day-same spot. There were in all fifteen children involved.

Allowing for variation-and indeed embellishments of children of this age, I am convinced that they did indeed see something which they do not normally see. Whether they interpreted correctly what they saw or not is not for me to say, I do not think that children of primary school age are capable of a sophisticated and sustained hoax of this nature."

As you say, I am indeed pressed for time-due to the terrific publicity these incidents have received locally, and indeed Nationally on press, radio, & Television--I find myself answering many letters, phone calls etc.

I think the best help I can be to you is to send you one or two unaided & unadulterated reports of the children some of whom claim to have seen figures. The children are in the 10-11 age group.

I trust these will be of some use to you-and if you have copies of the magazine

for them- I'm sure they'd be pleased to have some.
Yours truly (in some haste)
R. LLEWHELLIN (Headmaster)

.....
This case was publicised on a TV programme shortly afterwards. We asked the Daily Mirror to help out on reproduction of their story, but received no answer. I feel it should not be restricted from the public just because we receive no reply. But we herewith ACKNOWLEDGE with thanks this splendid Daily Newspaper of ours for bringing this to public attention, which is sadly lacking in some cases -Editor. (Mr. Llewhelein's school's drawing were a bit big for CNK, therefore I have had to redraw. But the details are the same.

Researcher Mike Milton has helped in with the recreation of a composite picture of the entire scene, to see just what the boys DID really see! Mike believes that each boy, was looking at a different part of the craft, and therefore have drawn only what they thought they saw-in fact DID see, but each to his own section of gaze. The boys are: Andrew Evans who sends his account with sketch:
"The unidentified object saw by children was about one foot long and about 10 cm in width." (editor's note: 16

Andrew seems to be measuring in both old and new metric measurements, and it would appear so, at the distance object was observed).

"It was a sort of silvery - yellow object. My mother had saw it once before when taking my aunties back to Joh-stes from feathering she said it was shaped like a cigar, When I saw it was when Philip Rees was trying to find the UFO it looked like it was having trouble to take off it was in the night my mother saw the UFO flying and when I saw it it was getting near to the evening."

ANDREW EVANS. (Andrew's sketch)
(To be continued)

CNKs COMPOSITE: *Andrew Evans*
(Below)

DAVID WARD'S CREATURE SKETCH

IS THE EARTH HOLLOW?

COMPILED AND ARRANGED BY
THE EDITOR.

NOBODY HAS DISCOVERED THE NORTH POLE? THIS may shock you to know this. IT DID US. ALSO, Children at school are STILL being taught, in some schools, that the earth has a MOLTEN core. But now there comes strong evidence to prove that they may all be terribly wrong! The North and South poles have not been discovered, because they are simply not there TO discover. Why do we say this? Every arctic and antarctic explorer has 'got lost! They have all reported strange sights and temperature changes. Open water is found the further north they go. One film star recently went to the North 'pole' and even got a suntan. "The sun never sets" she remarked. The reason for this is that it is believed that there is another, smaller sun, suspended as a nucleus in the dead centre of the Earth. The temperatures are humid but warm. The sun never sets because of this reason. One Arctic explorer when nearing the pole and observing, what he thought was the real sun, thought he was OFF COURSE. He thought he had passed the pole. In reality, he was going inside the planet.

Amazing satellite photographs have shown without doubt an entrance at the north pole. They were taken in 1968 by a NASA polar orbiting satellite. This photograph will be seen in issue 15. Another amazing fact is that the Aurora Borealis or Northern Lights, often seen at the poles, is now thought to be the inner sun shining through clouds, when clouds are not obscuring it. When THIS page was typed out, and not the next page, we had had an answer from Astronomer Patrick Moore who stated, after our challenge to him over the Aurora:

"Aurorae are caused by particles from the solar wind entering the upper air. You can look this up in any elementary book." BUT Mr. MOORE books can be wrong if they are written by people who think they know. It is those who read these books who want to QUESTION THEM. According to one Author particles from the sun in the 1920s could not be measured on any instrument. However have you stopped to consider why it is that the Aurora effect only occurs in fantastic displays AT THE POLES ALONE, and nowhere else on earth??? The Hollow Earth Society, started out to investigate this theory recently. In the WEEKEND Magazine: PTO. LAST MINUTE NEWS FLASH! TELEGRAM RECEIVED ON 25th March 1977 Film Studio in USA requests CNK for UFO information for a MAJOR MOVIE Film. We have helped with back issues. Hope they help!

The WEEKEND, almost in reiteration of my studies into the HOLLOW Earth theory, carried an article in its February 16-22 issue: IS THERE LIFE AT THE CENTRE OF THE EARTH? and went on to say: A GROUP OF AMERICANS PLAN TO EXPLORE 3,000 MILES BENEATH OUR FEET. Subtitled: ARE THERE MONSTERS AT THE CENTRE OF THE EARTH? Although this magazine article takes up nearly a page on this, the basics were: "A group of Americans believe the earth is a vast hollow ball and that miles beneath our feet is another world with its own plants, animals, insects and perhaps people. They think it is possible to reach the interior through giant holes in the North and South Poles. The fact that these holes have so far eluded discovery doesn't discourage the members of the Hollow Earth Society, who are planning an expedition to the underworld. Buddhists believe in an underground paradise called Agharta ruled by the King of the World from his capital Shamballa. The pharoes of Egypt were said to be in touch with an underworld through secret tunnels whose entrances were in the pyramids. And Hitler was a believer in the Hollow earth idea. He ordered scientist to test the theory, using submarines below the icecap at the South Pole." Graham Payne of the WEEKEND has sure done his homework on this big article, he goes on: "But the centre of the Earth is more than 3,000 miles deep. Our deepest mines have merely scratch the surface and no-one really knows what could lie beneath." CNK researcher Mike Milton believe's the recent earthquake may have been caused by the inner earth people as a warning that our way of life is shattering their world. ie. H-Bomb explosions, communism and pollution. CNK is not political however, and the communist aspect cannot be discussed in full, since there is good and bad in all systems.

It is a popular belief that there are both tiny beings and giants there. Some think that this is where the UFOs originate, or at least some of them. Writer T. Fitch in his book OUR PARADISE LOST believes it so. He says when these beings think we are exploding nuclear bombs, then they fly their saucers out of the poles, that is why they are seen after nuclear explosions.

In the book SECRET OF THE AGES (SOUVENIR PRESS) by Brinsley Trench (now Lord Clancarty of the House of Lords), there are astonishing satellite photographs taken by a NASA polar orbiting satellite. It CLEARLY shows a very large opening at the North Pole. (pages 98 etc).

Further proof that this situation is for real, and has always existed can be found in the book TWILIGHT (page 20) by Lobsang Rampa. Recommended, and available from most bookshops. Evidence and drawings of a hollow earth on the next page shows ancient maps.

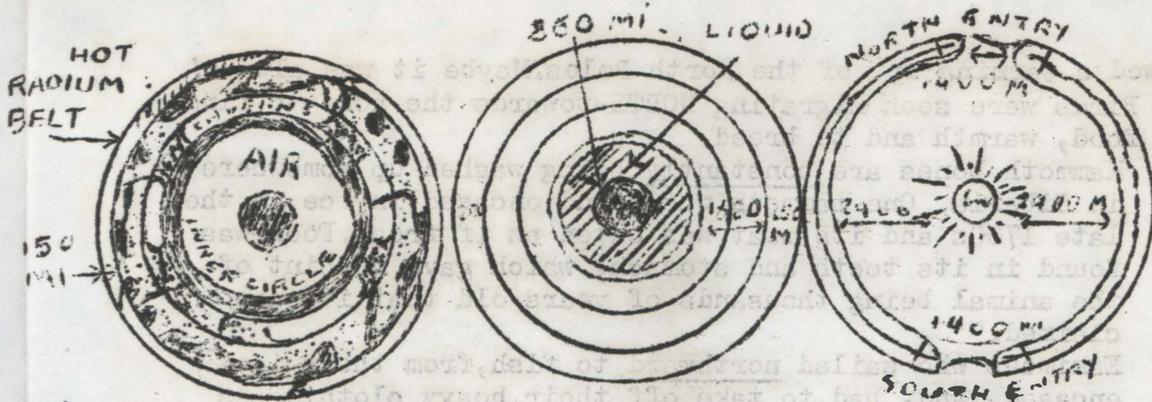

Fig.1. Ancient teachings claim taht a great "Cavern World" exists.

Fig.2. 1958 findings by the I.G.Ys scientists

Fig.3. Marshall Gardners theory for hollow earth.

This evidence for a hollow Earth from various writers of repute who have their reputations to protect is so hard to disbelieve that CNK will now take the stand for a hollow earth after seeing all this data. Scientists today have REJECTED the molten earth core theory AT LEAST in favour of a hot solid one. What ^{more} could fit this description THAN a central SUN.

Finding of proof by Artic explorers, AND in CNKs studies of it, in the following list: *some details of it were from Marshall B.Gardners book:

1. Most geographers of maps now know, at least there is a definite POLAR BASIN. Most modern maps show a depression there.
2. Most modern maps now DO NOT have the latitude and longitude lines converging 'right at the TOP' of the world, north & south, but leave wide circles instead.
3. Aeroplanes have not seen the opening at the poles because they just do NOT fly over those regions as their instruments would give false readings, so they avoid the poles by wide margins.
4. On MODERN maps, ALL the famous Artic and Antartic explorers names are NOT put DEAD IN THE CENTRE OF WHERE THE POLE SHOULD BE IF THEY EVER REACHED IT. (take a look for yourself) We did. Old maps DO show errors, but the READER'S DIGEST GREAT WORLD ATLAS SHOWS OTHERWISE.
5. The ESSA 7 satellite photographs SHOWS the holes.
6. The Aurora Borealis has NOT been scientifically PROVED in our case. We have asked Patrick Moore as a kind of challenge- and we must be right, as no reply has been sent. WHY? 7. Animals and insects, Mammoths, birds, warmth FRESH WATER all at the poles- IT ALL FITS: 8. 9. 10 above. The Russians claimed their tests

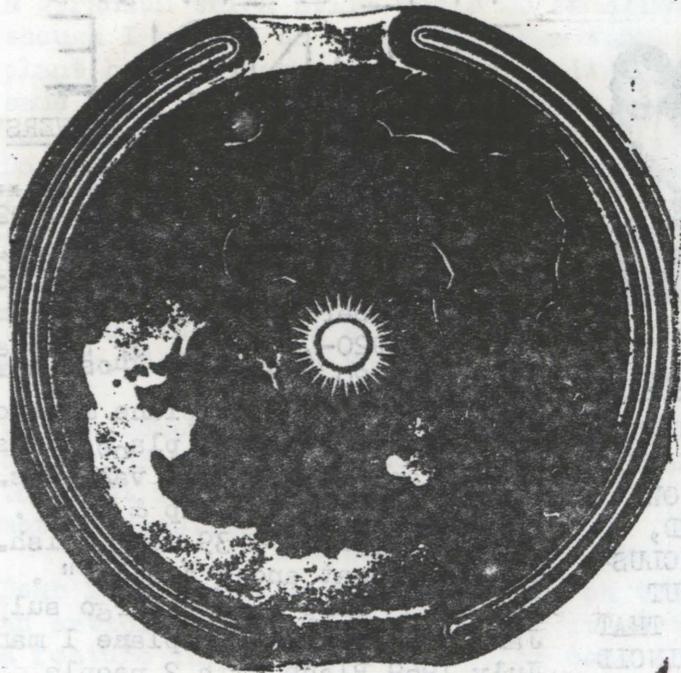

NEWSFLASH! (from Lobsang Rampa): NEW BOOK OUT SOON "I Believe" In April 1977

showed a warming up of the North Poles. Maybe it was always!

11. Birds were seen migrating NORTH-towards the pole to find food, warmth and to breed.
12. Mammoth bones are constantly being washed up somewhere in Siberia. One mammoth was found encased in ice in the late 1700s and its meat was eaten as if fresh. Food was found in its teeth and stomach, which gave no hint of the animal being thousands of years old that it was claimed.
13. Eskimoes who sailed northward to fish, from their ice encased land, had to take off their heavy clothing as they approached the more northern latitudes. But they had to put them on again, on their return journey home which was further south from the 'pole.' WHY?
And so it goes on and on. The evidence is stifling. IF THERE WAS NO opening at the north pole-what then IS the explanation for the HEAT?

Astronauts, according to Lobsang Rampa, in one of his many books, points out, have 'better things to do' than look for whacking great holes at the poles. They, he says, 'are on other projects of less importance, like keeping an eye on the Russians, Chinese, and other people', so he thinks. Of course the poles are the worst of places to take photos. Satellite pictures reveal cloud formation in a swirling action caused by the earth's rotation. There's also much FOG too. We say FOG because fog was experienced in the early explorations. Fog can be caused by WARM AIR mixing with the cold!

All planets contain a small central sun, says Marshall B. Gardner. Mars is a typical example. The white areas on the 'poles' of Mars has been observed and photographed as EXTENDING RIGHT OFF THE SURFACE OF THE PLANET. Only white light can do this. Bright spots have always been seen observed in the poles of Mars. Astronomers, whether in by gone days, to today have put forward many ludicrous explanations, when in the light of our theory, do not hold water. They are always at a loss to explain why. They prefer to stick to what they THINK they know, what their instruments try to tell them, and what they have been led to believe. They may be all proved to be in gross error. Remember scientists biggest blunder? They once declared the moon to be DUST! (all dust at times). On the next page we give two latitudes where things begin to happen. There are several others. We have run out of space now.

QUESTIONS:

Did the American Indians have a knowledge of a hollow earth? The I.G.Y of 1957, what did it REALLY uncover? Did Richard Shaver really find stones bearing evidence?

Drawing left:

Showing the earth bisected centrally through the polar openings, giving a clear view of the central sun and interior continents and oceans. (Reproduced from photograph of a working model) Made by Marshall B. Gardner 1912. Patented 1914

-
- 83 degrees 10 minutes.....Greenland or Grinnel Land.
83 degrees 3 minutes.....Cape Benet, Cape Sabine, Bache Island.

These are only some of the many examples to be found in these books of Arctic exploration. In another issue, we hope to be able to look in depth at the central sun, and the causes of the Aurora Borealis. To conclude this article however for this issue, we would like to mention some strange encounters by seamen who lost their way, as usual, in those latitudes, and have encountered the inner earth people. Some are giants of a friendly nature, who fly "aircraft" so strange which pick up 'fuel' from the atmosphere. They do not seem to have disasters, like we do, which destroys our civilisations every 500 years or so, and so their technology does NOT get wiped out to start up again, and they become highly advanced. (My theory). MORE ABOUT THIS AND A U.S. AIRMAN, Admiral Byrd, who 'went inside, SOON.

Angela Kirk with her father on a visit to the Editor in August 1976

THE BERMUDA TRIANGLE AFFAIR. Will it be solved

THE BERMUDA TRIANGLE

ARE THESE SOME OF THE ANSWERS?

By Angela Kirk

SOME DISAPPEARANCES SINCE 1502:

4th July 1502.17 ships, vanished.
23rd August 1730. Ship badly wrecked.
14th November 1909 sail boat, 1 man.
1st Oct. 1920- (VANISHED or became ghost ships)
14th Nov 1920- (VANISHED or became ghost ships)
June 1931 Moonshine plane & pilot.
Feb., 27 1935, crashed plane vanishes.
1948 plane & 31 people vanishes.
June 1950 plane & ship & crew .
1953 Feb., plane & 39 men vanish.
Dec 1957. Boat and 4 people " .
Feb 1963 Ship & crew cargo sulp.
Jan, 1967, Plane 4 men & plane 1 man.
July 1969. Plane with 2 people.
July 1971. Plane with 4 people.
AUG 1971. 4 small boys in old boat.
May 1973. Plane & two men.
July 1973. Boat with 45 people.
Oct 1976. Boat & 37 crew with Iron.
AND SO IT GOES ON AD INFINITUM. WHY?

go through to another world. I think they get sucked down to the bottom of the sea, and through the sea bed somewhere or deep down in the sea somewhere by a magnetic force of gravity. I think the ships etc., get into a deep down whirlpool which cannot be seen from the surface of the ocean. This sucks them right onto the sea bed itself and churns them all to fragments as it grinds into the sea bed.

FOREWORD by The Editor

IT IS ABSOLUTELY ASTONISHING THAT ANGELA KIRK OF BURY ST. EDMUNDS HAS, ON HER VERY OWN RESEARCH AND LOGICAL MIND, COME TO THE SAME CONCLUSIONS AS SOME WRITERS, ABOUT THE STRANGE GOINGS ON IT THAT AREA. THIS WAS SHEER CO-INCIDENTAL, FOR AT THE TIME, SHE HAD NOT READ A WORD ABOUT IT!!!!!!

SOME ANSWERS TO THE BERMUDA TRIANGLE. By Angela Kirk.

I have done as much research into my theory as is possible into the Bermuda Triangle. But I have not really worked out one that I'm convinced with.

I do not believe there is some kind of phenomenon. I don't think these stories were made up. What I think we have found here, is some kind of parallel line with the equator; or the centre revolving of the earth.

I believe what is actually happening is that they don't

So they don't actually vanish at all! Maybe they are still there, buried under tons of silt, that lies on the sea bed, and kick up by this swirling action, or more like quicksand action. Now this is what I think is happening. I think Miami beach is tidal where the film JAWS was made. The tide comes in on the beach. I think when the tide comes in on Florida's beach that means it's going out somewhere else. Therefore the velocity of the travelling water mass, drags with it all that the sea contains. I think this could cause things on the ocean to be covered, after being sucked down by gigantic whirlpools. My ideas stretch to encompass my theory that the Earth's gravity which pulls us onto the outside of the earth; there must be 'another' gravity in the centre of the earth, pulling even stronger. That's my hypothesis. I've not studied it scientifically. I'm taking a logical guess! (from the film I saw: INSIDE THE BERMUDA TRIANGLE Starring Fred McMurry).

When I heard a week later, after writing the above, about the Hollow Earth Theory, then I thought it could be possible the things that were getting sucked down into the triangle and getting thrown out on the opposite side of the world through volcanoes, because you mentioned that bit about molten lava or the central sun, I thought maybe this could be right?! Therefore getting a map of the world, I tried to prove this theory of mine to be in fact-fact! I spent all morning with a neighbour of mine, Mrs. Terry Majors and her maps. We knew what we were looking for due to the film, that the area was 15 miles, approximately, out to sea from Miami Key. I asked Mrs. Majors to check the distance this was from the equator. We found it was quite close to this area. In fact it runs all the way through from Miami to Columbia and Venizuela. Pouring over the land layout etc., we have dug this up:

During the month of July in Florida, the Bermuda Triangle area the rainfall in July is 200 millimeters and the nearest land to Miami is a place called Tampa. The temperature on the earth's surface at that point of the gulf stream is 68°f. (20°c) and wind pressure in July there is 1015 mb (milibars?). There is a torrid zone too. Florida, where Miami key is, is 600ft above sea level and where the Bermuda Triangle is, the depth is reported to be 24,000 ft. For all we know it could be deeper than that.

That's quite deep enough to lose a ship in, don't you think? This information is as geographically correct as far as my studies take me.

It took me and Terry an hour to check all this information out. One thing we noticed was right round the world on a parallel line with the equator, the whole of the rock strata is volcanic, as you'll see if you study the equatorial areas.

Apart from that all sea currents indicate whirlpool action all across the equator line. We don't understand wind formation, but it does indicate also strong whirlwinds, continuously in and around or above that area. All this indicates to us a humid, swampy, kind of atmosphere. The other hypothesis about the Hollow earth with a central sun, which the editor spoke of; well Ed's idea was that maybe ships are sucked down by whirlpool action originating IN THE CENTRE of the earth, perhaps through a fault line. It was visualised that they may end up in the central sea, trapped by forces etc. But even Ed. could be right, although PERHAPS it could be unscientific.

My follow up theory on that is that instead of them being trapped inside a hollow earth, they went right through it. Ed. also said there are openings at the North & South poles and it may be possible they came out of one of these. I think there's a possibility there is another opening opposite the Bermuda Triangle area where they could get expelled through like India, or Japan and into the Devil's sea of Japan. Could it be that disappeared things could get sucked down and into the volcano systems of the earth, and incinerated. Therefore, that 'dimensional door' that they speak of in the film, does not exist! The 'door' is in fact right through the equator line in the centre of the earth.

They have obviously got to explore under the sea, and to 24,000 feet. Well that would explain the missing ships.

DISAPPEARING AIRCRAFT

Mr. Grant, my father, thinks aircraft that go through the Bermuds Triangle when the sun is burning down a parallel line with the equator, hit unusual 'hot spots'.

We found, from the map, it is 68°f. before they get anywhere near it. So the closer to the equator you get, the hotter it gets. So when they get into the BT they are sitting on a direct parallel line between the heat of

GRAVITY & ANTI-GRAVITY

the sun shining down and the equator matter in the middle of the earth drawing in.

Therefore being in the middle of two gravitational or heat forces, i.e., attraction of the sun's gravity and the Earth's AT THAT particular point.

My father believes that having got exactly in the middle position of earth's gravity at its maximum and the sun's maximum output and gravity attracted at that point, that the natural concentration of this energy acts like a laser beam—well Dad thinks planes flying underneath that ray, just disintegrate. Now, he too could be right!

That would explain their disappearances. So between us three, although only pet theories, because the Bermuda Triangle is yet unsolved, so it has to be THEORIES whether we like it or not in this magazine, could well help to explain what is happening to transport in that area.

Angela Kirk, February 1977.

CONCLUSION TO THE BERMUDA TRIANGLE—By The Editor.

Most of what has been written about this saga is true, from whichever source you read it. The latest films on it, are a mixture of truth and added science fantasy—good guessing, too, so take the latest film on BBC television with a pinch of salt.

However, disappearances in the REAL world still goes on. The latest ship to disappear took place on October 1976. Angie Kirk has given a list of disappearances since 1502 however and they list vanishing craft up till the above date. These occurrences DO NOT happen all the time. Airplane pilots have flown many times over it, without mishap. But it's still like playing Russian Roulette in that area. You never know who will get it next. But according to Lobsang Rampa in his book CHAPTERS OF LIFE (page 61) he explains the triangle thus: "The explanation is that there is a split in time" through which sometimes people go from one world to another. If you have two large footballs rotating close together, and each has a split in it, and you can see that if they come together into close proximity an unhappy little flea could just jump into the split of the other football. Perhaps there is a similar state of affairs between this world and the opposite world." In THE DEVIL'S TRIANGLE R. Winer (page 205) is mentioned a parapsychological consultant, N.B. Dykshoorn of Miami. He says "...but I visualise a scientific reason. When I get this, I see planes and ships being pulled down from as far as 10,000ft. In the near future an airliner with 80-90 will be lost?"

GRAVITY & ANTI-GRAVITY

BY THE EDITOR, EDWARD HARRIS

This may be the last article I can write on Gravity and anti-gravity, since I have run out of data. The only other aspect of this revolves around the electromagnetic spectrum consisting of; Electro-static, electro-gravic variations.

Mans oldest wish is to find out and break gravity's monopoly, something which I read the U.S. government are aiming to do. One way to do this was pointed out by Mr. A Roberts who said that, if enough power was available to "waste" and a sustained force given over a long period, the vehicle would indeed leave the Earth, but slowly. Such a 'fuel' is a long way off.

HOW TO BUILD A FLYING SAUCER

The instructions now outlined are still experimental, but ARE being researched today. It is well outside the realms of the tinkerer. ONE method so far concerns the application of LASERS, Lasers of vast energy output. It was recently discovered that that one could lift up and suspend a small glass

PHOTON POWER NO LESS!
Anti-gravity could be effected thus, with the following equipment:

1. LASER BEAM powered by 30,000 Watts probably with FIBRE OPTICS.
2. Electrostatic generator.
3. Pulsating device for movement from inertia.
4. 10ft. or more Gyroscopes revolving in opposite directions; stabilisation
5. Plasma created by Lasers on deuterium pellet. This raises temperature to 100 million degrees, for nuclear fusion.
6. Through magnetic fields perhaps directed ABOVE craft creating a mass; with Cathode rays also then craft attracted to this. Add swing control to guide point centre.
7. Internal gyro guidance (used like retro-rockets).

Of course all this is hypothetical, yet based on research notes from various periodicals and technical works. The ordinary tinkerer/experimentor will be at the steam engine stage-like a car without the plug. None of the above could possibly be constructed by the amateur-THAT IS OBVIOUS!
