Issue 19

£2.00

This issue is dedicated to a comprehensive listing of formations discovered during 1999. This was a bumper year for crop formations and the shapes became ever more complex and elaborate.

Hoaxers and sceptics are unfortunately still trying to muddy the waters by spreading rumours and media disinformation, but I remain as convinced as ever that a genuine and mysterious phenomenon remains.

After all, other than ego and notoriety, what drives the hoaxers to continuing their deceit and disinformation year after year if it isn't fear that we might eventually find some answers they can't handle.

To coin the phrase used by Jack Nicholson in the film "A Few Good Men", "Some people can't handle the truth".

Indeed, it's this very phrase that seems to play on the hoaxers minds, for one comment they occasionally fire at the believers is that people are holding onto belief systems for fear of having their theories and concepts shattered.

However, by still believing this, the hoaxers are deluding themselves - hoaxers hoaxing hoaxers - now there's an interesting concept!

For, looking back over the years of crop circle research, most crop circle researchers I've met and chatted with have undergone an enormous growth cycle. Initial theories have been

expanded upon and new areas of research delved into. Indeed, many people involved in crop circle research five or more years ago are now investigating things almost completely non-circles related - but none the less, discovered via their involvement in, arguably, the biggest mystery of modern times.

However, the hoaxers seem to still harbour their immature ideas and egos, foolishly believing that believers are mad for researching 'false science' or dismissing scientific evidence as fanciful wishes of new-age delusionists.

They still play their little games in the fields and they still hang around the fringe of crop circle research, hoping to catch that glimmer of notoriety and resentment. A weird kind of ego that thrives on other people's scorn.

However, at the end of the day, researchers are laughing, for not only have they expanded their minds and spiritualities by new science, concepts and inspiration, but they've also met new friends, shared laughs and tears with like-minded people but also progressed along the path of enlightenment.

Sadly, sceptics seem to still occupy the same 'closed-box' world view as they did ten years ago - now That is sad!

The information provided here is as accurate as possible, but due to the vast amount of data collected each year, it is impossible for me to verify every single formation, although I endeavour to make the final database as accurate as possible. Please inform me if you spot any mistakes or have any additional information.

2.	?	23rd Jul	Hagersville 2, New Credit Reserve, Ontario Two large circles joined by thin, angular lines. <i>More information on these two formations is available here</i>	Wheat
				
3.	?	10th Aug	Montebello, Quebec Some strange symbol writing reported to be the width of a football field.	Grass
				

4.	?	21st Aug	90km south of Dease Lake, British Columbia Single circle approx 100' dia., in wild grass.	Grass
5.	?	23rd Aug	Edmonton, Alberta A celtic cross formation with the large, central circle approx 60' dia. Satellite circles are approx 20' dia. The centre circle is connected to each of the outer circles by paths approx 10' wide.	Wheat
6.	?	27th Aug	Christopher Cross, Prince Edward Island Two circles approx 18' and 12' in dia. Described as "perfectly circular with untouched centres".	Wheat
7.	?	27th Aug	Ardmore, Alberta Six circles in a hay field, all the same size - approx 4' dia. Each circle is a "fat ring" with a standing 1' wide centre.	Wheat
8.	?	2nd Sep	Conquest, Saskatchewan Two circles, each with a cross type appendage extruding from it.	Wheat
9.	?	4th Sep	Acadia Valley, Alberta Three circles in a straight line in a durum wheat field.	Wheat
0.	?	4th Sep	Neilburg, Saskatchewan A formation of 10 circles, comprising three 'arms' of circles coming out from a central, larger, circle.	Wheat
1.	?	14th Sep	Midale, Saskatchewan A circle with a ring around it, two smaller outlying circles and a 'medicine wheel' type design.	Wheat
2.	?	18th Sep	Midale 2, Saskatchewan Three circles in a straight line.	Wheat

12.	?	18th Sep	Midale 2, Saskatchewan Three circles in a straight line.	Wheat
13.	?	19th Sep	Weyburn, Saskatchewan Six circles discovered (northwest of the two Midale formations) in a seemingly haphazard pattern in the field.	Wheat
14.	14th Sep	24th Sep	Midale 3, Saskatchewan Reported by reporter Sherri Tessier. A formation of two 'circles' just east of Midale, not far from the three-in-a-row formation (Midale #2) and possibly also in a field owned by the same farmer, Bob Ashe (awaiting confirmation). First spotted on September 14 by a local pilot. One circle is a large single ring, approximately 80' - 90' diameter, the other is a smaller circle with two surrounding rings, about 50 feet diameter (initial estimates).	Wheat
15.	20th Sep	24th Sep	Midale 4, Saskatchewan Reported by reporter Sherri Tessier and Nancy Talbott of BLT. Two new small circles in the same field as the first Midale formation from September 6. Both are about 8 feet in diameter, in wheat. Sampling for BLT is being done tomorrow. First seen September 20, and reportedly not there as late as September 18.	Wheat
16.	?	28th Sep	Edmonton 2, Alberta A large 80-85' circle with six smaller satellite circles, four forming a celtic cross type design.	Barley
17.	?th Sep	26th Sep	Midale 5, Saskatchewan Consists of a large 50-60' circle, with a circle of standing wheat inside it about 3 feet across. The small standing circle is off centre, near the edge of the large flattened circle in the south-west position.	Wheat
18.	?	13th Oct	Midale 6, Saskatchewan Located about two miles south-east of Midale. Three circles close together in a straight line, spaced about twenty feet apart. Largest (eastern) circle is approximately 60 feet diameter, the second about 40 feet and the third about 20 feet. Description of floor lay inside the smallest circle is of a swirled lay which ends in a straight 'radial' type lay out to the edge of the circle. The other two circles have normal swirled lay patterns.	Duram Wheat

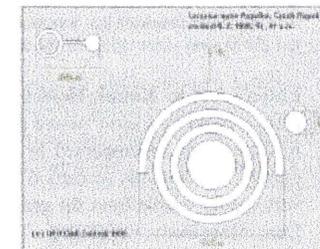

19. ? 28th Oct **Viscount, Saskatchewan** Duram Wheat
Initially found at the end of September while combining, two circles in wheat. One is about 30 feet diameter, the other about 20-25 feet. Both flattened right down to the ground, in neat, smooth lay patterns. Circles are spaced a just few feet apart. The circles and entire field have been combined, but as in other cases, the circles themselves are still there, being flattened hard to the ground and therefore not cut.

31.	?	12th Jun	Stanton St. Bernard A circular design incorporating a number of angular segments.	 	Wiltshire	Wheat	?						
32.	?	12th Jun	East Field, Alton Barnes A very elaborate (1020') pictogram incorporating many aspects of 'classic' crop circle designs from previous years. Although a lot of white powder resembling chalk was found on the stems, it's none the less an impressive design.	 	Wiltshire	Barley	?						

33. ? 12th Jun **East Field 2, Alton Barnes**
 An interesting pictogram, seemingly constructed very differently to formation 28 and resembling a South American Sun Serpent.

34. ? 12th Jun **Figheledean, nr Netheravon**
 Another circular design with smaller circles within, forming a segmented pattern.

35. ? 14th Jun **Kiddlington, nr Oxford**
 A circle with two rings around it and two grape shot circles. Main formation is approx 120' dia.

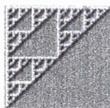

36. ? 14th Jun **Toot Balden 3**
 A formation comprised of two crescents approx 100' dia. and in the same field as formation 14.

37. 12th Jun 14th Jun **Chisledon**
 A formation between Barbury Castle and Chisledon consisting of a flattened circle surrounded by two rings approx 200' dia.

38. ? 14th Jun **Newton St Loe 2**
 A second formation in Newton St. Loe.

39. ? 18th Jun **M1, nr Chesterfield**
 A large circle with two smaller circles at the 10 and 2 o'clock positions. On the lower half are two 'horns' at the 4 and 8 o'clock positions. These are also mirrored in the upper half, at the 10 and 2 o'clock positions. In the center is a triangle with rounded edges with three circles within.

40. ? 16th Jun **Chilbolton**
 An elaborate formation comprised of 138 individual circles in a triangular shape, based upon the Sierpinski Sieve.

100.	?	25th Jul	Brixworth A circle with three thin rings and some smaller, outer circles.		Northampton	Wheat ?
101.	?	23rd Jul	Weymouth A dumbbell formation with a ring around one circle and a small 'arrow' shape leading from the other circle. Approx 120'x80' but the farmer does not want visitors.		Dorset	Wheat ?
102.	?	27th Jul	Borstal, nr Rochester A number of interlocking semi-circles, possibly resembling a 'dna' type design.		Kent	Wheat ?
103.	?	28th Jul	Beckhampton 2 A complex 'flattened knot' type design. Initially looks impressive!		Wiltshire	Wheat ?
						
104.	?	28th Jul	Avebury A complex optical illusion type design, formed from small circles with hexagonal outlines overlapping them. This formation is a commissioned hoax! However, I don't believe it was 'The Mail'. Investigations are still underway.		Wiltshire	Wheat ?
						
105.	?	29th Jul	Avebury Avenue A small six petalled 'flower' type design		Wiltshire	Wheat ?

106.	?	29th Jul	Moreton Paddox, nr Stratford-upon-Avon A single circle		Warwickshire	Wheat ?
107.	?	29th Jul	Stanton Prior, nr Bristol A single circle with a ring around it.		Warwickshire	Wheat ?
108.	?	29th Jul	Stantonbury Hill, nr Bristol Two formations in the same field; one a circle with a thin crescent of standing crop in it and the other a nine fold design, similar to the Stockbridge formation of 1998.		Warwickshire	Wheat ?
109.						
110.	?	29th Jul	Oakley 1, nr Bedford A rough looking dumbbell with a small 't-bar' off the joining path.		Bedfordshire	Wheat ?
111.	?	29th Jul	Oakley 2, nr Bedford A very rough looking circle with a ring around it, with various untidy lines.		Bedfordshire	Wheat ?
112.	?	29th Jul	Hail Weston, nr St.Neots A simple circle.		Cambridgeshire	Wheat ?
113.	?	29th Jul	Sibson Airfield, nr Stbington A thin ring with three lines from the centre forming an equilateral design, similar to a steering wheel. Formation is cut off as it overlaps the edge of the field.		Cambridgeshire	Wheat ?
114.	?	29th Jul	Great Staughton 2, nr St.Neots A single ring.		Cambridgeshire	Wheat ?
115.	?	31st Jul	Roundway Hill, nr Devizes An impressive nine fold 'snowflake' formation. This formation was precisely predicted in advance and major research is currently underway. This could prove to be the most significant formation of the season		Wiltshire	Wheat ?
116.	?	31st Jul	Wroughton, nr Swindon A very rough looking circle with a ring around it and a couple of paths		Wiltshire	Wheat ?
117.	?	1st Aug	Milk Hill A small circle with a ring around it, allegedly hoaxed by Doug Bower		Wiltshire	Wheat ?
118.	?	1st Aug	Chilcomb Down, nr Cheesefoot Head A complex sequence of overlapping circles and rings.		Hampshire	Wheat ?
119.	?	1st Aug	Patching, nr Durrington Three rings with a six petalled design formation.		West Sussex	Wheat ?
120.	?	1st Aug	Poynings, nr Henfield A 180' dumbbell style pictogram.		West Sussex	Wheat ?

121. ? 3rd Aug **Henwood 2, nr East Meon**
An elaborate geometric design based upon circles within a triangle within a hexagon within a circle.

122. ? 3rd Aug **Unknown (between Henwood and Thruxton)**
Five rather rough, small circles with a path joining them in a straight line.
123. ? 3rd Aug **Southwick Hill, nr Shoreham**
A sequence of letters spelling SVT, SVT & NER.
124. ? 3rd Aug **Chilson, nr Chalbury**
A circle consisting of four quadrants, with two standing and two flattened.
125. ? 4th Aug **Fast Kennett Longbarrow**
A complex 'tiled square' design.

126. ? 4th Aug **Worsborough Common, nr Barnesley**
A circle with a ring around it, with a large outer ring; its inner circumference forming a pentagon shape.
127. ? 5th Aug **Barbury Castle 3**
A long curved formation with a spiral at one end and a series of rings at the other.

128. ? 6th Aug **Bishop Cannings**
A very impressive 'basket woven' series of radial circles. Harvested by the farmer as soon as he discovered it!
129. ? 6th Aug **Whitstable, nr Canterbury**
A dumbbell formation.
130. ? 6th Aug **Plumbton, nr Lewes**
A line of three circles.
131. ? 10th Aug **Dunsden Green, nr Playhatch**
A ring with an inner circle and crescent. Approx 100m dia. and about a mile further down the road from the first Play Hatch formation.

132. ? 12th Aug **Chiseldon 2**
A 500' dia. sequence of four overlapping rings. Virtually invisible from the road.

133. ? 12th Aug **Preston, nr Weymouth**
A circle with a ring around it and a small 'mushroom' shaped appendage off to one side.
Dorset Wheat ?
134. ? 15th Aug **Faringdon, nr Swindon**
An elaborate 'tree-like' formation consisting of crescents and ring.
Oxfordshire Barley ?
135. ? 16th Aug **Stanton St. Bernard 4**
A maze formation, slightly resembling a knot. In the same field as formation 131 (below).
Wiltshire Wheat ?
136. ? 16th Aug **Stanton St. Bernard 4**
A thin spiral path with a small circle at each end. In the same field as formation 130 (above).
Wiltshire Wheat ?
137. ? 16th Aug **Playhatch 2, nr Reading**
A large circle and crescent with a surrounding ring.
Oxfordshire Wheat ?
138. ? 16th Aug **Shildon, nr Bishop Auckland**
A 40' dumbbell formation.
Durham Wheat ?
139. ? 17th Aug **Scotch Corner**
A ring with a line across the diameter extending to one side which then forks into two diagonal paths.
North Yorks Wheat ?
140. ? 19th Aug **Lenham, nr Maidstone**
A dumbbell formation with six smaller satellite circles.
Kent Wheat ?
141. ? 22nd Aug **Bishop Cannings 3**
A number of squiggles and rough looking shapes in the same field as the 'basket' formation that the farmer destroyed.

142. ? 22nd Aug **Honey Street 2**
Two small circles and two grasshopper circles. The two larger ones are joined by a curved path.
Wiltshire Wheat ?
143. ? 22nd Aug **Mill Hill, nr Shoreham**
A ringed circle and a nearby triangle shape.
West Sussex Barley ?
144. ? 22nd Aug **Bishop Cannings 4**
A 'pointed egg' shaped circle with two oval areas of standing crop - resembling a 'classic grey' alien face.

145.	?	23rd Aug	Avebury Trusloe 3 Quite an aesthetic formation, essentially a large circle with a number of 'flaming' path elements winding off from it. Nicknamed 'The Flaming Trinity' by Peter Sorensen.	Wiltshire	Wheat	?
146.	?	23rd Aug	Allington 3, nr Devizes Quite an elaborate arrangement of interlocking circles and crescents. Unfortunately, the farmer destroyed this formation as soon as he discovered it.	Wiltshire	Wheat	?
147.	?	23rd Aug	Upavon An odd shape consisting of a stretched hexagon shape of standing crop surrounded by an additional six triangular segments with a 'wavy' outer edge.	Wiltshire	Wheat	?
148.	?	23rd Aug	Berwick Bassett A rather rough looking formation just south of Hackpen Hill.	Wiltshire	Wheat	?
149.	?	1st Sep	Avebury Manor An elaborate eight fold 'fractal' formation. A nearby 'pi' symbol somewhat gives the game away.... 	Wiltshire	Wheat	?
150.	?	9th Sep	North of Heathrow Four small perfect circles with progressively smaller concentric rings inside each circle. The edges of each of the circles touched each other, two above and two below. <i>The diagram is guessed at from the description above!</i> 	Berkshire	Wheat	?
151.	?	9th Sep	North of Heathrow 2 A second formation in the neighbouring field to formation 150. Described as "In the second field, what at first looked like a drawing of a bird or object turned out to be the overlapping of the curved lines of parts of what would have been two giant circles had they been laid out in their entirety. The smaller circles may have been in a green field, but the larger ones were in a wheat or maize field."	Berkshire	Wheat	?
152.	?	Aug	11th Oct Bishops Canning A ring with a 15' standing centre. Overall diameter approx 50'.	Wiltshire	Maize	?

IRCUP would like to thank everyone who has given us permission to reproduce their photographs, especially Lucy Pringle, to whom we owe a big thank you for supplying all the wonderful photographs of UK formations. Full colour versions are available on her web page at <http://home.clara.net/lucypringle/> or you can order originals from Lucy Pringle, 5 Town Lane, Sheet, nr Petersfield, Hampshire.

Ref.	Date created	Date found	Location/Description	Crop type
1.	?	18th Jun	Brentwood, Tennessee (TN) One large solid circle, one smaller solid circle and one small ring. A long line coming from the largest circle crosses the center of the other long line in the middle of the hollow circle. The smaller solid circle is on one end of the other long line and the short line forms a 't' on the opposite end.	Wheat
2.	?	11th Jul	Hamel, Minnesota (MN) A circle approx 35' dia. with a ring around it and 5 outer circles, positions spiralling out from the centre.	Wheat
3.	4th?	29th Jul	Walla Walla, Washington State A pictogram containing two circles with rings around and a third with two rings. Three smaller circles surround one of the single ringed circles. <i>More info available</i>	Wheat
4.	?	29th Jul	Minnesota No details as yet!	?
5.	?	29th Jul	Missouri Small circle found on a farm. No details as yet!	?
6.	?	1st Jul	Rexburg, Idaho (ID) A circle 15 ft in diameter was spotted on a farmers field. It has a band of bright green grass 2 1/2 ft wide. But in the center all the ground is brown as if high heat had dried everything out. It is absolutely impossible to recreate this design. Also I had noticed no Ants or insects would go within the circle. No one could have made this as it is in the middle of nowhere.	Grass
7.	?	4th Sep	Montana A report approx 5 miles from Whitefish, similar in design to one that appeared in roughly the same location last year. More details as soon as I get them.	?
8.	?	Sep	Burlington, Washington State A ring approx 100 yards in dia. with a center circle with a pathway joining the outer ring. <i>More information available on request</i> 	?

It is with sadness that I report the death of one of the Crop Circle world's foremost researchers, the dowsing Richard Andrews.

Richard had battled against the growth of a brain tumour for several years, but died on the 6th August 1999 following a heart attack.

He was a gallant fighter to the end, always continuing his crop circle research and dowsing, often visiting the fields and appearing much fitter than many of those younger than himself.

I was lucky enough to have met him on numerous occasions and shared many an interesting conversation with him. His death

will be a loss to not only the crop circle community, but also the dowsing community, in which he was a well known character - being a member of The British Society of Dowsers.

He was born in 1933 into a farming community. He grew up to be a farmer himself and was someone who had a love of the countryside and a wide-ranging knowledge of the world around him. Indeed, he had such a meticulous eye for detail and respect for his work he made an excellent teacher, lecturer and researcher.

He was a person you could look up to. Not only did he have an enquiring mind but he also respected the ideas and theories of others. He served as an area manager for Seed Breeders at Chester and was a cereal crop inspector for N.I.A.B. Since 1985 he gave his insight and experience to the furthering of crop circle research and was known the world over for his expertise on dowsing. He was also a founding member of The Centre for Crop Circle Studies (CCCS).

The crop circle world has lost a great researcher and many people within it have lost a great friend. May he rest in peace and his memory live on.

Paul Vigay, 1999

I.R.C.U.P. UFO DATABASE

The Independent Research Centre for Unexplained Phenomena now offer a complete catalogue of UFO, Crop Circle, Mars Face, Ancient Technology, Government Cover-ups and associated subjects database. This currently consists of over 1500 documents.

A complete, up-to-date index of all documents is now available for only £5.00.

Individual documents can then be ordered for varying prices (depending upon the length, at 25p per A4 page + postage)

" Special Offer to Clubs and Shops "
Enigma is now available with a quantity discount for shops wishing to stock it, clubs who wish to pass savings onto their members, or raise funds for their local group.
