-----  
1995 - A YEAR TO REMEMBER

As this year closes and we inch our way towards the 21st century, we can take a little time to reflect on the events of 1995. It was a year full of incidents, some mysterious and intriguing and some questionable in the extreme.

In January we received the sad news that one of the World's foremost landing/retrieval investigators, Leonard H. Stringfield had died. Len' Stringfield was an American who had served in WW2 and was the author of numerous works, including "Situation Red" and a number of meticulous reports on crash retrieval cases. He was a likeable person who we had exchanged information with over the years.

It was on the 6th of January that a Boeing 737 was 'buzzed' by a UFO over the Pennines, while en-route to Manchester Airport. The culprit was reported by the aircrew to be a Flying Triangle that had flown almost head-on towards the aircraft and then passed close by. It could well have been one of the many FT's that were saturating the Derbyshire countryside at night during the period Dec 94/May 95.

One particular sighting on the 21st of January, took place over the Derwent Housing Estate, Derby. The report and sketch of this incident was reproduced world-wide. During the Dec/May period we received reports of 53 incidents and the FT's haven't finished yet! (see this issue).

Not all of the UFO events of the past year can be blamed on the extra-terrestrials! We had the unusual case of a night flying aircraft carrying out a thermal imaging exercise over Nottingham for several hours on the night of 20th March.

This low flying and almost silent, night flying programme caused some alarm among the local residents of Ilkeston where the aircraft turned at the end of each flight path.

This night exercise resulted in the Nottingham council reporting that a high % of buildings in the city were wasting energy by losing excess heat....or so we have since been told!

One of the most unusual coincidences of the year must have been the visit by Darren Collins of the Southern Paranormal Investigation, based near Portsmouth. Darren had told us of his interest in 'Flying Triangles' and actually accompanied several PRA members to interview an FT' witness. Then just a few nights later on the 2nd May, Darren had a close encounter of his own with an FT' on a lonely Derbyshire country road.

This year also saw the loss of another World famous UFO figure, when Lord Clancarty (also previously known as Brinsley Le Poer Trench) died on the 22nd May. Always a controversial figure, Lord Clancarty was responsible for the House of Lords setting up a UFO study committee.

June and July saw us once again in the throes of the "Crop Circle" season, with an even more varied selection of circles appearing once again in the southern part of England. The national news media appear to have decided that they are all fakes and barely worth a mention, especially if Lady Di' happened to sneeze on the same day! However the local Hampshire and Wiltshire papers took more interest in events, especially as it seemed highly likely that any hoaxers caught by the farmers were likely to suffer grievous bodily damage.

Our international interests continued throughout the year, with stories coming in from several countries including Belgium, Sweden, Guatemala and Japan. The Japanese J.S.P.S. group are particularly interested in the British Crop Circles and have already contacted the PRA with a view to visiting England next June on a guided tour. Busty Taylor's excellent aerial photographs no doubt had a bearing on their decision.

It must be admitted that all other events in 1995 were overshadowed by the appearance of the Roswell Autopsy film, discovered by Ray Santilli. The showing of this film at the Sheffield Conference and to the public at large on national TV has caused a tremendous amount of controversy. Is it a fake or is it genuine? The debate still continues to this day and now other "autopsy films/photographs" are appearing from dubious sources.

Although there was great speculation (especially by world government agencies) that the likely existence of "aliens" would upset the global civilised structure (including the Church), it proved to be less than a 'seven day wonder'. It appears to be a fact of life that humanity will not change its views drastically in one generation. It is the new generation that accepts the great changes that are likely to take place. For instance youngsters brought up on "Dr. Who" and "Star Trek" do not find it unusual to be told that aliens do exist and have been visiting our planet for years...."so what's new?"

Yes, all in all a fascinating year!

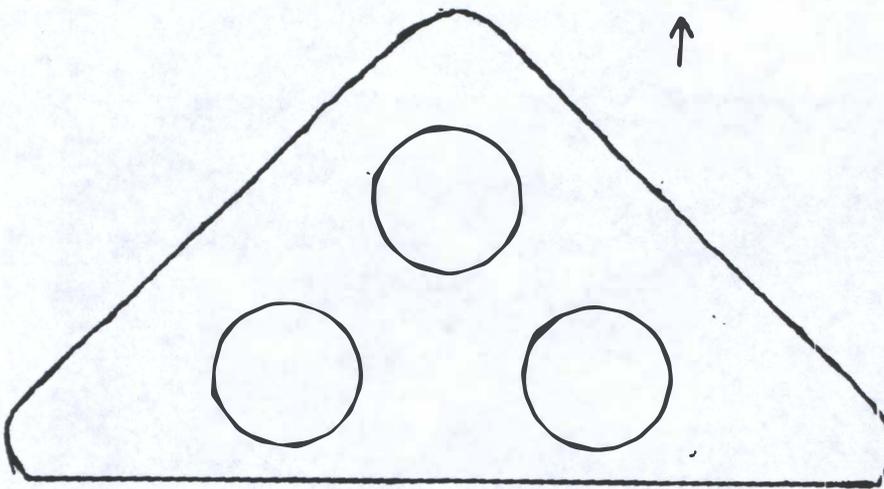

## ANOTHER "FLYING TRIANGLE" OVER DERBYSHIRE

On the night of the 4th of November 95, at 8.08pm Mr Keith Rowland was outside in the garden preparing a firework display with his youngsters. He was in an area down near the canal at the bottom of the Nottingham Road in Ilkeston, when his attention was attracted to a large triangular object flying silently overhead. It was eerie and he described as being like a "Ghost Ship".

The FT had three large lights situated just inside each corner (see sketch). "It seemed that all the lights were about the same size" he said. "It was so silent and big and so fast, it just seemed to come and go." "It was like looking at a low flying jet, but there was no noise." "I'm not sure about the colour of the lights, but I think they were red." "It was not a plane."

The FT appeared from the NE and was heading in a SW direction as it flew out of sight. Keith estimated that he watched the object for about ten seconds. Because of the dark sky it was difficult to make out the exact shape of the object, but it was "very big".

Weather conditions at the time of the sighting were: Dry and cold, with a few stars visible.

IT WAS NOT A PLANE

IT SEEMED TO ME THAT ALL THE LIGHTS WERE ABOUT THE SAME SIZE. I NEVER SEEN ANY LIGHT FLASHING. IT HAD THREE LIGHTS ON IT SEEMED LIKE A GHOST SHIP IT WAS SO SILENT SO BIG AND SO FAST.

A LOCAL "FT" REPORT via IRELAND!

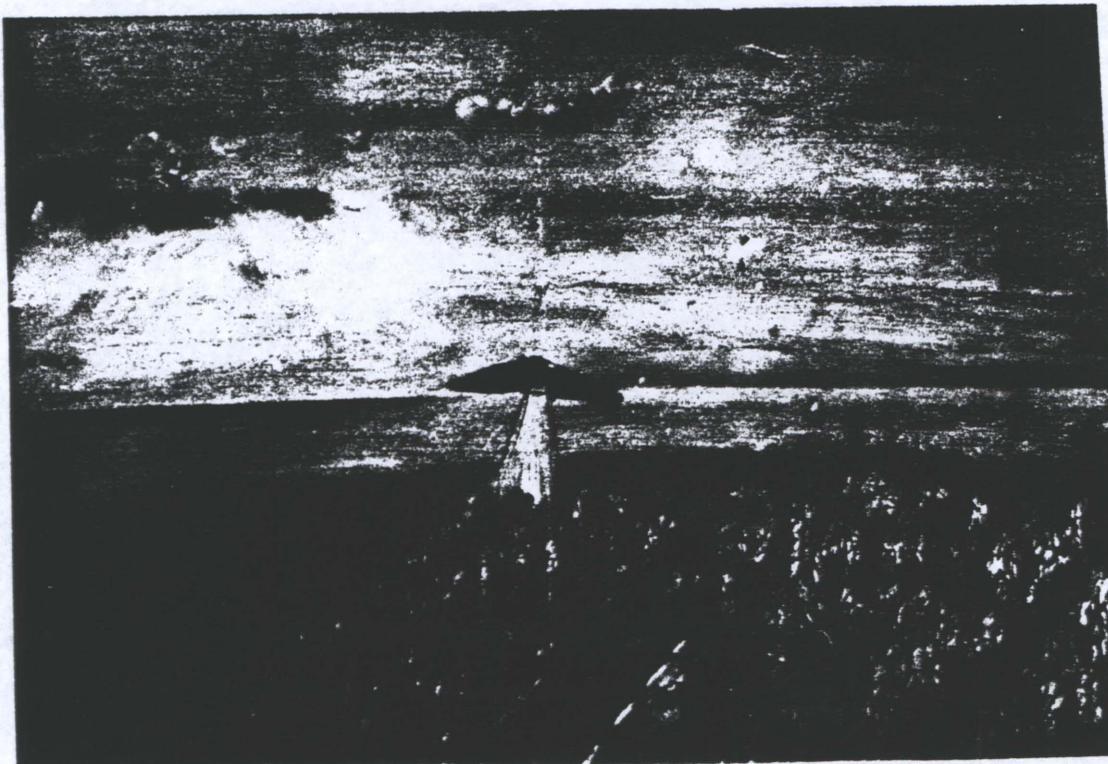

Thanks to our colleagues in IUFOPRA (Irish UFO & Paranormal Research Association) based in Dublin we have received the following report.

On the 8th December 1994 at 1045pm, a witness who lives in Snirebrook reported seeing a Triangular shaped UFO. It appeared from an Easterly direction and disappeared heading West.

Judging from the diagram which accompanied the report, the FT was travelling broadside first and had an unusual coloured light configuration. A red light has often been reported close and to the left of the "nose" of a Triangle, but they have not usually been reported in the centre/rear position shown in this sketch.

Checking through the PRA files, we can confirm that an FT was sighted by amateur astronomer Andy Emmerson on the night of the 8th December 1994. The coloured drawing made by Andy was shown in the last issue of the OVNI. Just to remind our readers, a small copy is reproduced below. In this instance the FT which was observed at 2250, was seen to be shining a beam of light on the ground below.

The FT was described as being a Triangle shape with two bright white lights being visible. In the drawing, a red light is shown close to the "nose". According to Andy', the FT had apparently reverted to flying "point forward".

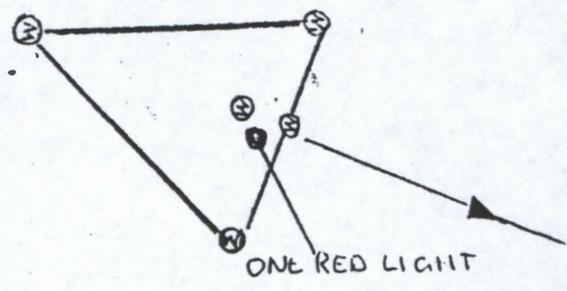

Drawing of an "FT" by witness Andy Emmerson 8/12/94

**TENERIFE NEWS** DECEMBER 1st to DECEMBER 14th, 1995

Dear Sir,

A couple of years ago I was introduced at a dinner party to someone who used to fly with the Red Arrows. He told me a rather remarkable story of strange happenings experienced by pilots of Harrier jets while executing certain manoeuvres. Pilots talked of being put into another dimension, switched to recognisable places sometimes thousands of miles distant in just seconds, switching from flying in murky weather conditions to brilliantly clear skies in a flash and remaining there for a few seconds before the weather turned bad again, seeing UFOs in large numbers for the first time. . . . Many of the pilots have had the experience while executing a certain manoeuvre, which is the following: during workouts in flying combat techniques, it was decided that vertical thrust should be tried out to assist the Harrier in making a tighter turn. The first time it was done, the aircraft was doing about 320 miles per hour [500 km/h] in level flight, then its thrust was brought round for a hard left turn, and it was said afterwards by ground observers that the Harrier seemed to stop and then blast its way into a u-turn. This manoeuvre was stepped up during the Harrier programme, and when the Americans started theirs, their pilots reported having the same strange experiences.

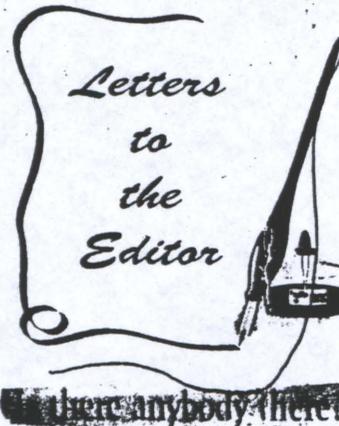

Ground control radar reported that sometimes during the manoeuvre it would lose its trace of the plane at the same time as losing radio contact with the pilot. The flight box recorder, however, always seemed to function properly.

The sinister aspect of all this is that there seems to be a cover-up operation going on on both sides of the Atlantic. Information about the numbers of Harriers that have crashed while carrying out the u-turn manoeuvre has been systematically suppressed.

When I spoke to an aviation expert about this strange phenomenon he said he had heard reports of these things happening to pilots, but not on Harriers. He said the stories go back to the First World War when flying conditions were extremely uncomfortable: pilots were unprotected from the cold and suffered from oxygen starvation, and hallucinated frequently. But nowadays pilots fly in a much more comfortable environment with heated G-suits, which prevent the flow of blood away from the head, and bags of oxygen – and things still happen to them that they don't like to talk about, and they see things in the sky that just should not be there.

Yours faithfully,  
D. Brabazon

London

Sir,

I have visited Tenerife five times in all, the island has everything for me, obviously the weather, succulent steaks, also the beautiful trees and landscape. I have had some memorable moments but none quite as unforgettable as the most recent.

I arrived in the early hours of Saturday November 11 with my three friends and, like many who arrive early, we sat on the balcony for a while, to wind down. It was about 4 am when Rachel spotted the first of many shooting stars. By the time the rest of us had followed her extended finger it had gone. Then Karen saw one, then Trevor, but they only witnessed it in the split second that it existed. I was feeling rather left out at this point as I had not seen a shooting star for 27 years! Anyway, the next Friday night-Saturday morning was particularly hot and sticky, and because of this we were unable to sleep. At about 4 am the four of us went for a walk to try to get some air and buy some cold water from a local drinks machine. When we got back we decided to sit on our rather large balcony and solve the mysteries of the universe. We attempted to

pinpoint the 'Plough', the only constellation of stars any of us knew about. Then Karen spotted another shooting star, then so did Trevor and I; we counted six in swift succession. Then Rachel saw something moving amongst the vast array of stars. It was not a shooting star, as they only last a split second, and it certainly was not an aircraft. It was far too high and travelling too fast. This was different, something we all watched together in disbelief, then it was gone. We discussed it in great detail for hours and we are still talking about it!

We all agree, we know what we saw and we know what it was - a 'U.F.O.', - as in 'Unidentified Flying Object'. Maybe it was the cause of so many shooting stars that night, who knows?

You may be interested to know what we saw, well, it was so far away that it looked like a star, but exceptionally bright. It seemed to come from nowhere, travelled in a straight line and disappeared to nowhere. We think that it was about 6 am, we watched it for about ten seconds and we are all absolutely and unquestionably without the shadow of a doubt, convinced that it was a U.F.O. We decided that it was too great an experience to keep to ourselves, it is just a pity that we won't be believed.

And so, as friends we are bonded together now for ever, these four loonies from the North of England who claim that they saw a U.F.O. November 18, 1995 will be a date we will never forget and future holidays in Tenerife will have a new dimension! Maybe my 'Mr. Right' will eventually appear from out of space?

Donna Liley,

Tenerife has been the site of intense UFO activity over the years. A number of UFO photo's have been taken around the Island

# The Evening Sky

December 1995

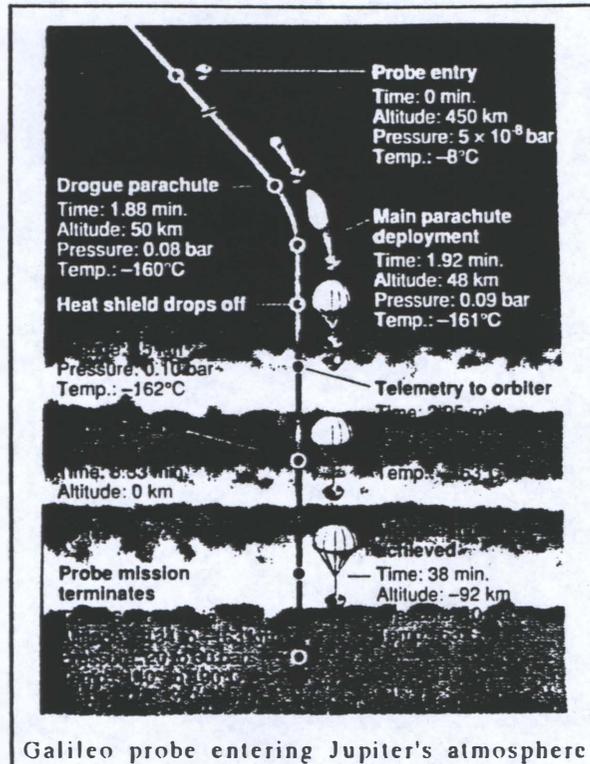

Galaxies are huge structures and throughout December you can glimpse two galaxies if you pick a truly dark environment from which to observe. The Earth resides about 30,000 light years from the centre of our galaxy, called the Milky Way. From Earth the Milky Way appears as a magnificent band of stars, broad and irregular in shape, straddling the galactic equator: a great circle around the sky that is the nucleus of our galaxy. The Milky Way contains some 400 thousand million stars and is 100,000 light years across.

From your dark observation point you can also see the Great Galaxy in Andromeda. Look directly overhead and you should see a large faint glow of light (binoculars will reveal much more). This is Andromeda. Andromeda is the most distant object you will ever see, at 2.2 million light years. Andromeda is 3 times the size of our Milky Way galaxy and is heading towards us.

The Milky Way belongs to a local group of 19 galaxies. Local groups of galaxies make up larger galactic groups. Many large groups form galactic-clusters until we arrive at galaxian super-clusters, each super-cluster containing more galaxies than stars in the Milky Way! The large scale structure of the universe is awesome and impossible to imagine.

Venus and Saturn are the planets visible this month. Venus is detectable in the soft south-western evening twilight producing a pleasant apparition against the setting Sun.

Saturn is high in the south as night darkens. Saturn being alone in that part

Galileo probe entering Jupiter's atmosphere

of the sky is quite easy to spot. A warm, steady, yellow radiance from a cold, icy and distant world some 1000 million miles away.

After travelling 2 billion miles the Galileo orbiter-probe spacecraft reaches Jupiter. On December 7th the space-probe will be the first Earthly object to enter the planet's atmosphere. After withstanding 300 times Earth's gravity and stellar temperatures as it decelerates from 100,000 miles an hour to parachute-opening velocity, the probe will transmit data for 75 minutes to the orbiter spacecraft as it swings into Jovian orbit.

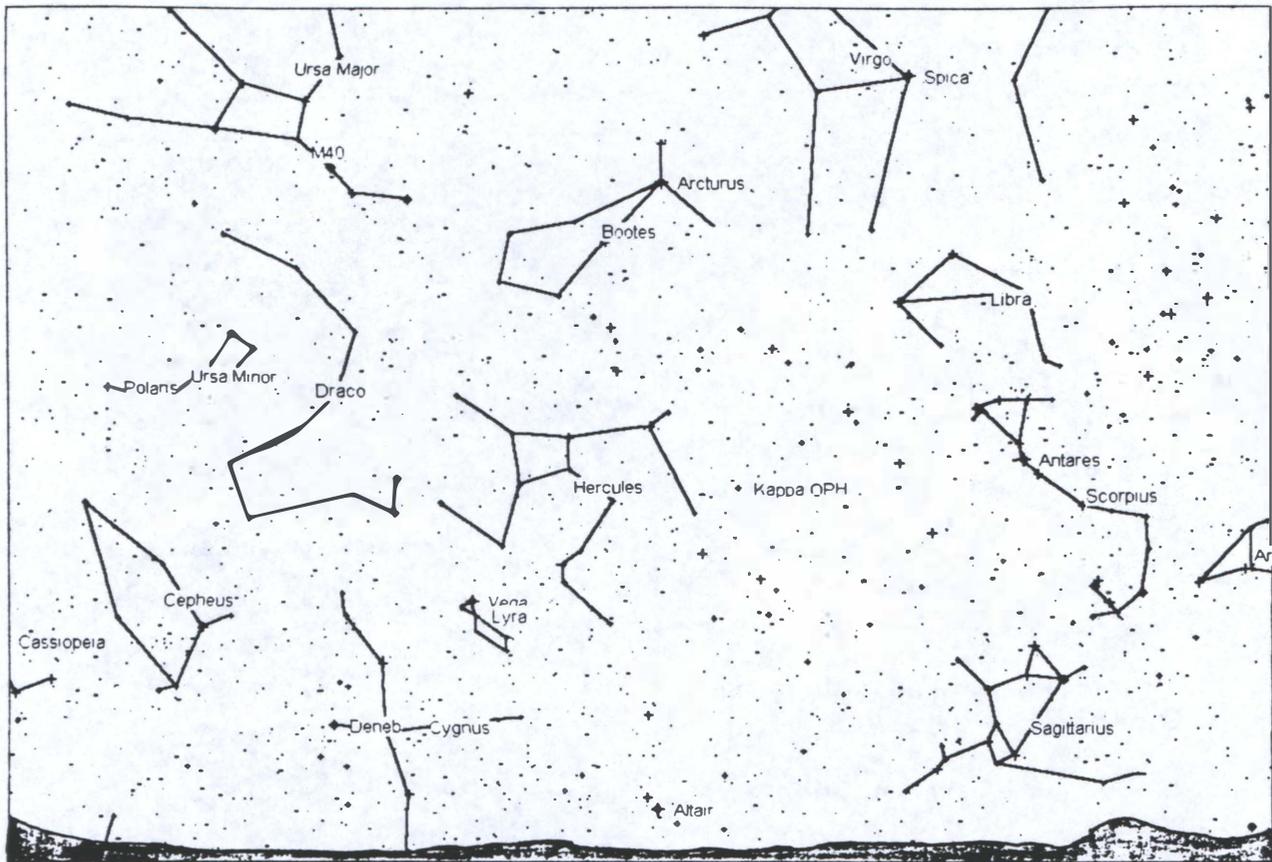

The orbiter will travel 11 times around Jupiter in 2 years making 15 close flybys of its Galilean Moons.

The winter solstice occurs on December 22nd when the Sun reaches the farthest point south in the heavens: to begin its six-month return journey northward.

*Enjoy Your Evening Sky!*

Barry Parkinson

'The Evening Sky' - P.O. Box 4002 - Milton Keynes - MK13 7ER - U.K.

Pre-dawn Bethlehem: 6am December 25th 1995

## No guiding star in 1995

There is no guiding star suspended in the skies over Bethlehem this year. However, there is a guiding light that shines within each one of us and if we make the effort to look for it at this special time we will recognise it.

The universe is an infinitely good, beautiful, nourishing place to be. There is no need for poverty, friction or disharmony. There are shadows. Some shadows are very dark, but you cannot cause a shadow to disappear by fighting it, or stamping on it, or rallying against it. In order to cause a shadow to disappear you must shine a light on it. This time of the year is a good time to find the guiding light that shines for you and to radiate that light for the benefit of all, including yourself. The Earth is a great little planet!

Ask, and it shall be given you;  
 seek, and ye shall find;  
 knock, and it shall be opened unto you.

For everyone that asketh, receiveth:  
 and he that seeketh, findeth;  
 and to him that knocketh it shall be opened.

Matthew 7:7,8

*Have a Merry Christmas and a Happy New Year  
 Barry Parkinson  
 (and may the force be with you!)*

## A MESSAGE FROM SPACE IN 1977?

One of the past mysteries that has defied an explanation was the mysterious broadcast that was made on the 26th November 1977 at 5.12pm. The "voice from outer space" broke into a scheduled news bulletin being read by Ivor Mills on what was "Southern TV". The phantom voice broadcast a message that over-rode the TV signal and continued for 5½ minutes.

Those that heard the broadcast (it covered Southern England) were impressed by the message, which incidentally was never reported in full by the news media.

Within a short time, the authorities claimed that the broadcast had been a hoax. The TV authorities assumed that it was a sick joke, but they commented "we can't imagine how it was done." "It appears that someone broadcast their signal over ours. The equipment used would need to be fairly sophisticated and expensive."

It seems strange that engineers monitoring the broadcast were unaware that the TV signal had been over-ridden. The media claimed that a student had driven near a TV mast and hooked onto the broadcast, but there were in fact two transmission masts in operation at the time, were both taken over? In spite of the media attention, no student was ever traced (surely student's aren't shy!).

Later, a story emerged that an ITV engineer had arranged the broadcast and he had now been sacked, but the sacked engineer was never named and as far as is known, was never traced.

What of the message itself? According to 'Viewpoint Aquarius Magazine' (January 1978), they were able to listen to the full recorded broadcast at the LBC studio in London and they claim that this is what the voice said:-

"This is the voice of Gramaha the representative of the Asta Galactic Command speaking to you. For many years now you have seen us as lights in the skies. We speak to you now in peace and wisdom as we have done to your brothers and sisters all over this, your planet Earth."

"We come to warn you of the destiny of your race and your worlds so that you may communicate to your fellow beings the course you must take to avoid the disasters that threaten your worlds and the beings on the worlds around you. This is in order that you may share in the 'great awakening' as the planet passed into the new age of Aquarius."

"The new age can be a great time of peace and evolution for your race, but only if your rulers are made aware of the evil forces that can overshadow their judgements."

"Be still now and listen, for your chance may not come again. For many years your scientists, governments and generals have not heeded our warnings; they have continued to experiment with the evil forces of what you call nuclear energy. Atom bombs can destroy the Earth and the beings of your sister worlds, in a moment! The wastes from your atomic power systems will poison your planet for many thousands of your years to come. We, who have followed the path of evolution for far longer than you, have long since realised this - atomic energy is always directed against life. It has no peaceful application."

"Its use and research into its use must be ceased at once, or you all risk destruction. All weapons of evil must be removed. The time of conflict is now past and the race of which you are a part, may proceed to the highest planes of evolution - if you show yourselves worthy to do this. You have but a short time to learn to live together in peace and goodwill. Small groups all over the planet are learning this and exist to pass on the light of the dawning New Age to you all. You are free to accept or reject their teachings, but only those who learn to live in peace will pass to the higher realms of spiritual evolution."

"Hear now the voice of Gramaha, the representative of the Asta Galactic Command speaking to you. Be aware also that there are many false prophets and guides operating on your world. They will suck your energy from you, the energy that you call money and will put it in evil ends, giving you worthless dross in return. Your inner divine self will protect you from this. You must learn to be sensitive to the 'voice within' that can tell you what is truth and what is confusion, chaos and untruth. Learn to listen to the voice of truth which is within you and you will lead yourselves on to the path of evolution."

"This is our message to you our dear friends. We have watched you growing for many years as you too have watched our lights in your skies. You know now that we are here and that there are more beings on and around your Earth than your scientists admit. We are deeply concerned about you and your path towards the light and we will do all we can to help you. Have no fears, seek only to know yourselves and live in harmony with the ways of your planet Earth. We of the Asta Galactic Command thank you for your attention. We are now leaving the planes of your existence. May you be blessed by the supreme love and truth of the Cosmos."

Editors Comment: Well was it just a student hoax or not? The message could be as relevant today as it was in 1977. Remember this was before the disaster at Chernobyl and haven't we just heard that Britain will not build any more Atomic Power Stations.....A HAPPY XMAS TO YOU ALL!

## TALE ENDERS

COMPUTER BUFFS' take note that Mr Ian Read of 137 Proctor Rd., Sprowston, Norwich, NR6 7PH. Tel: 01603-419374. Is setting up a UFO disk collection and is interested in exchanging disks with other UFO investigators.

WATCH OUT for the next series of "X Files". One programme purports to show part of a 'real' alien autopsy film. Plus a film "The Ultimate X File" which covers the retrieval of aliens from a crashed UFO. Also to be released soon on video "Keep Watching The Skies" which is claimed to show yet more alien autopsy film and is primarily about the nasty little "Greys".

TRIANGLES IN THE USA (Data from UFOIN)  
08-6-95 Monroe City: Triangle, no sound, 15 minute sighting.  
11-6-95 Tacoma: 3 Triangles, no sound, 2 min. sighting, into cld.  
29-6-95 Cincinnati: Triangle, no sound, 5 min sighting, Lts. underneath

NORTH LANCS. UFO INVESTIGATION GROUP PRESENTS "Planetary Connections Conference" Feb 18th 96. Speakers: Jenny Randles, John Holman, Mike Oram & Hein Van Beusekom (Crop Circles). Tickets £10. Ring 01524-423760. (Tickets Limited).

ORANGE BALL PURSUED BY 2 R.A.F. TORNADOES near Sutton in Ashfield on 18th October at 8.30pm, heading West. Did anyone else see this? If so please contact the Editor.

BONNEYBRIDGE, SCOTLAND: THE UFO CAPITAL OF BRITAIN, according to 'The Sun' Tuesday Nov. 21st. The paper gave a whole page to close encounter stories from local witnesses. The UFO's included Catherine Wheel, Cigar shaped & Circular shaped craft.

BRITAIN TO DEVELOP NEW SECRET STEALTH AIRCRAFT stated the Sunday Times 12th November. According to the paper, the new top secret stealth aircraft will come into service in 2013. The country's first "invisible" aircraft is more than 20 years behind the American stealth bomber. It is known as the "Halo" project (High Agility Low Observable). Ed: Could Britain really afford the gigantic cost of such a project?

PRA BOOKLET "CROP CIRCLES: THE FINAL SOLUTION" has just been updated and reprinted. It covers our theory on H/F radiation being responsible for "natural crop Circles" over the past 100 years plus. Technical info & pictures included. Quoted by one American scientist as "the best thing to come out of England this summer" (1991). £2 + 50p p&p. Apply to Omar Fowler (Address on front page).

THERE WILL BE NO MEETING DURING THE MONTH OF DECEMBER

\*\*\*\*\*

HAVE A GOOD XMAS AND A HAPPY NEW YEAR!

\*\*\*\*\*

Items may be quoted from this publication with acknowledgement.
