**NEW 'FLYING TRIANGLE' ACTIVITY FRIGHTENS MANY WITNESSES.**

We were hardly expecting an announcement, but the long predicted return of the Flying Triangles (*"We will see them in increasing numbers"- Bob Dean*), caught us on the hop.

We at first received reports of what may have been a laser light show over Derby, during the night of Saturday 27 April. Your editor subsequently appealed for any witnesses in a recent issue of the Derby Telegraph. As a result of this, over 30 witnesses rang up during the first evening of the newspaper appeal. In approximate numbers, 25% were confused with the sighting of the planet **Venus**, another 25% saw the light show over the city of Derby, but 50% of the witnesses described seeing huge glowing **Flying Triangles** over several previous nights!

The most alarming and best documented incident took place along the A50 road near Burton-on-Trent in the early hours of 1 May, this was followed by similar events along the same stretch of road on 2 & 3 May. (The incident is described fully in this newsletter).

Other sightings, mainly by a number of elderly ladies who happened to peep out of their curtains in the early hours, confirmed that FT's were here again in force! We also received a number of other reports from around the country, including several from the newly formed UFO group in Sheffield. An interesting point made by many of the witnesses was that the FT's were either glowing green or had a number of green lights visible around or at various points on the FT craft.

On Friday evening the 17th May, your editor travelled to Colchester and gave a talk on Crop Circles and the latest Flying Triangle incidents to the Essex UFO group, run by Ron West. Following the talk, Ron reviewed the latest reports in the Essex area and yes, you've guessed it, there was an abundance of FT reports. There was one unusual feature mentioned and that was, the FT's interest in lonely motorcyclists travelling along country roads at night. According to one motorcyclist in Essex, he was followed by a huge Flying Triangle and it came so low that if he had a long broomstick handy, he could have touched it!

In a later discussion, Ron stated that UFO's of all types (including FT's) had been seen over local nuclear power stations. During 1995, over 100 observations had been made over the Sizewell (Suffolk) nuclear power station and more than 30 over the Bradwell power station at Bradwell near Colchester.

Are we to believe that the aliens are very concerned over our use of Atomic Energy? If they have designs on our planet, then the last thing they would want is for the Earth to be contaminated with radioactive material, with possibly a half-life of 5,000 years! Maybe they don't want to wait that long before they decide to land here and settle?

## POSTAL DRIVERS SHOCKING JOURNEY

In the early hours of Wednesday 1 May 96, postal driver Mr T.J. was travelling on his nightly route which runs between Derby, Burton-on-Trent and Swadlincote. It was a journey that the driver had travelled frequently over the previous three years. They were routine journeys delivering parcels between the various postal depots, normally without incident and 'Tom' had no reason to believe that this night was going to be any different.

Tom takes up the story:-

I was driving a Post Office mail van along the A50 Swadlincote to Burton-on-Trent road. It was approximately 1.50am as I approached the Stanhope Arms Hotel. It was just after passing the Chesterfield Arms, that I noticed a bright light in the sky ahead of me and slightly to my right. It appeared to be descending and coming in my direction. It was a dark night, but clear. As I passed the Burton golf course, the houses to my right obscured my view of it. For some unknown reason, I stopped at the Bretby lane junction, (I could see up Bretby lane).

The object passed across Bretby lane, over the houses and it appeared to be low. To me, it appeared just above the houses. It was very large, very bright and had lots of bright lights, I noticed a green light at the rear. I thought, it looked like the USA Space Shuttle in shape and size, as I have seen it on TV after it has landed.

I could see some windows, square, but rounded in the corners. It crossed over Bretby lane and to me at least, it seemed to be going very slow, almost in slow motion! It then disappeared behind the houses. It made no noise, it was SILENT. I may be wrong, but to me it appeared to be approx. 200 yards away from me when it crossed over Bretby lane.(see map)

Tom's comments on the UFO Sighting Account Form are given below.

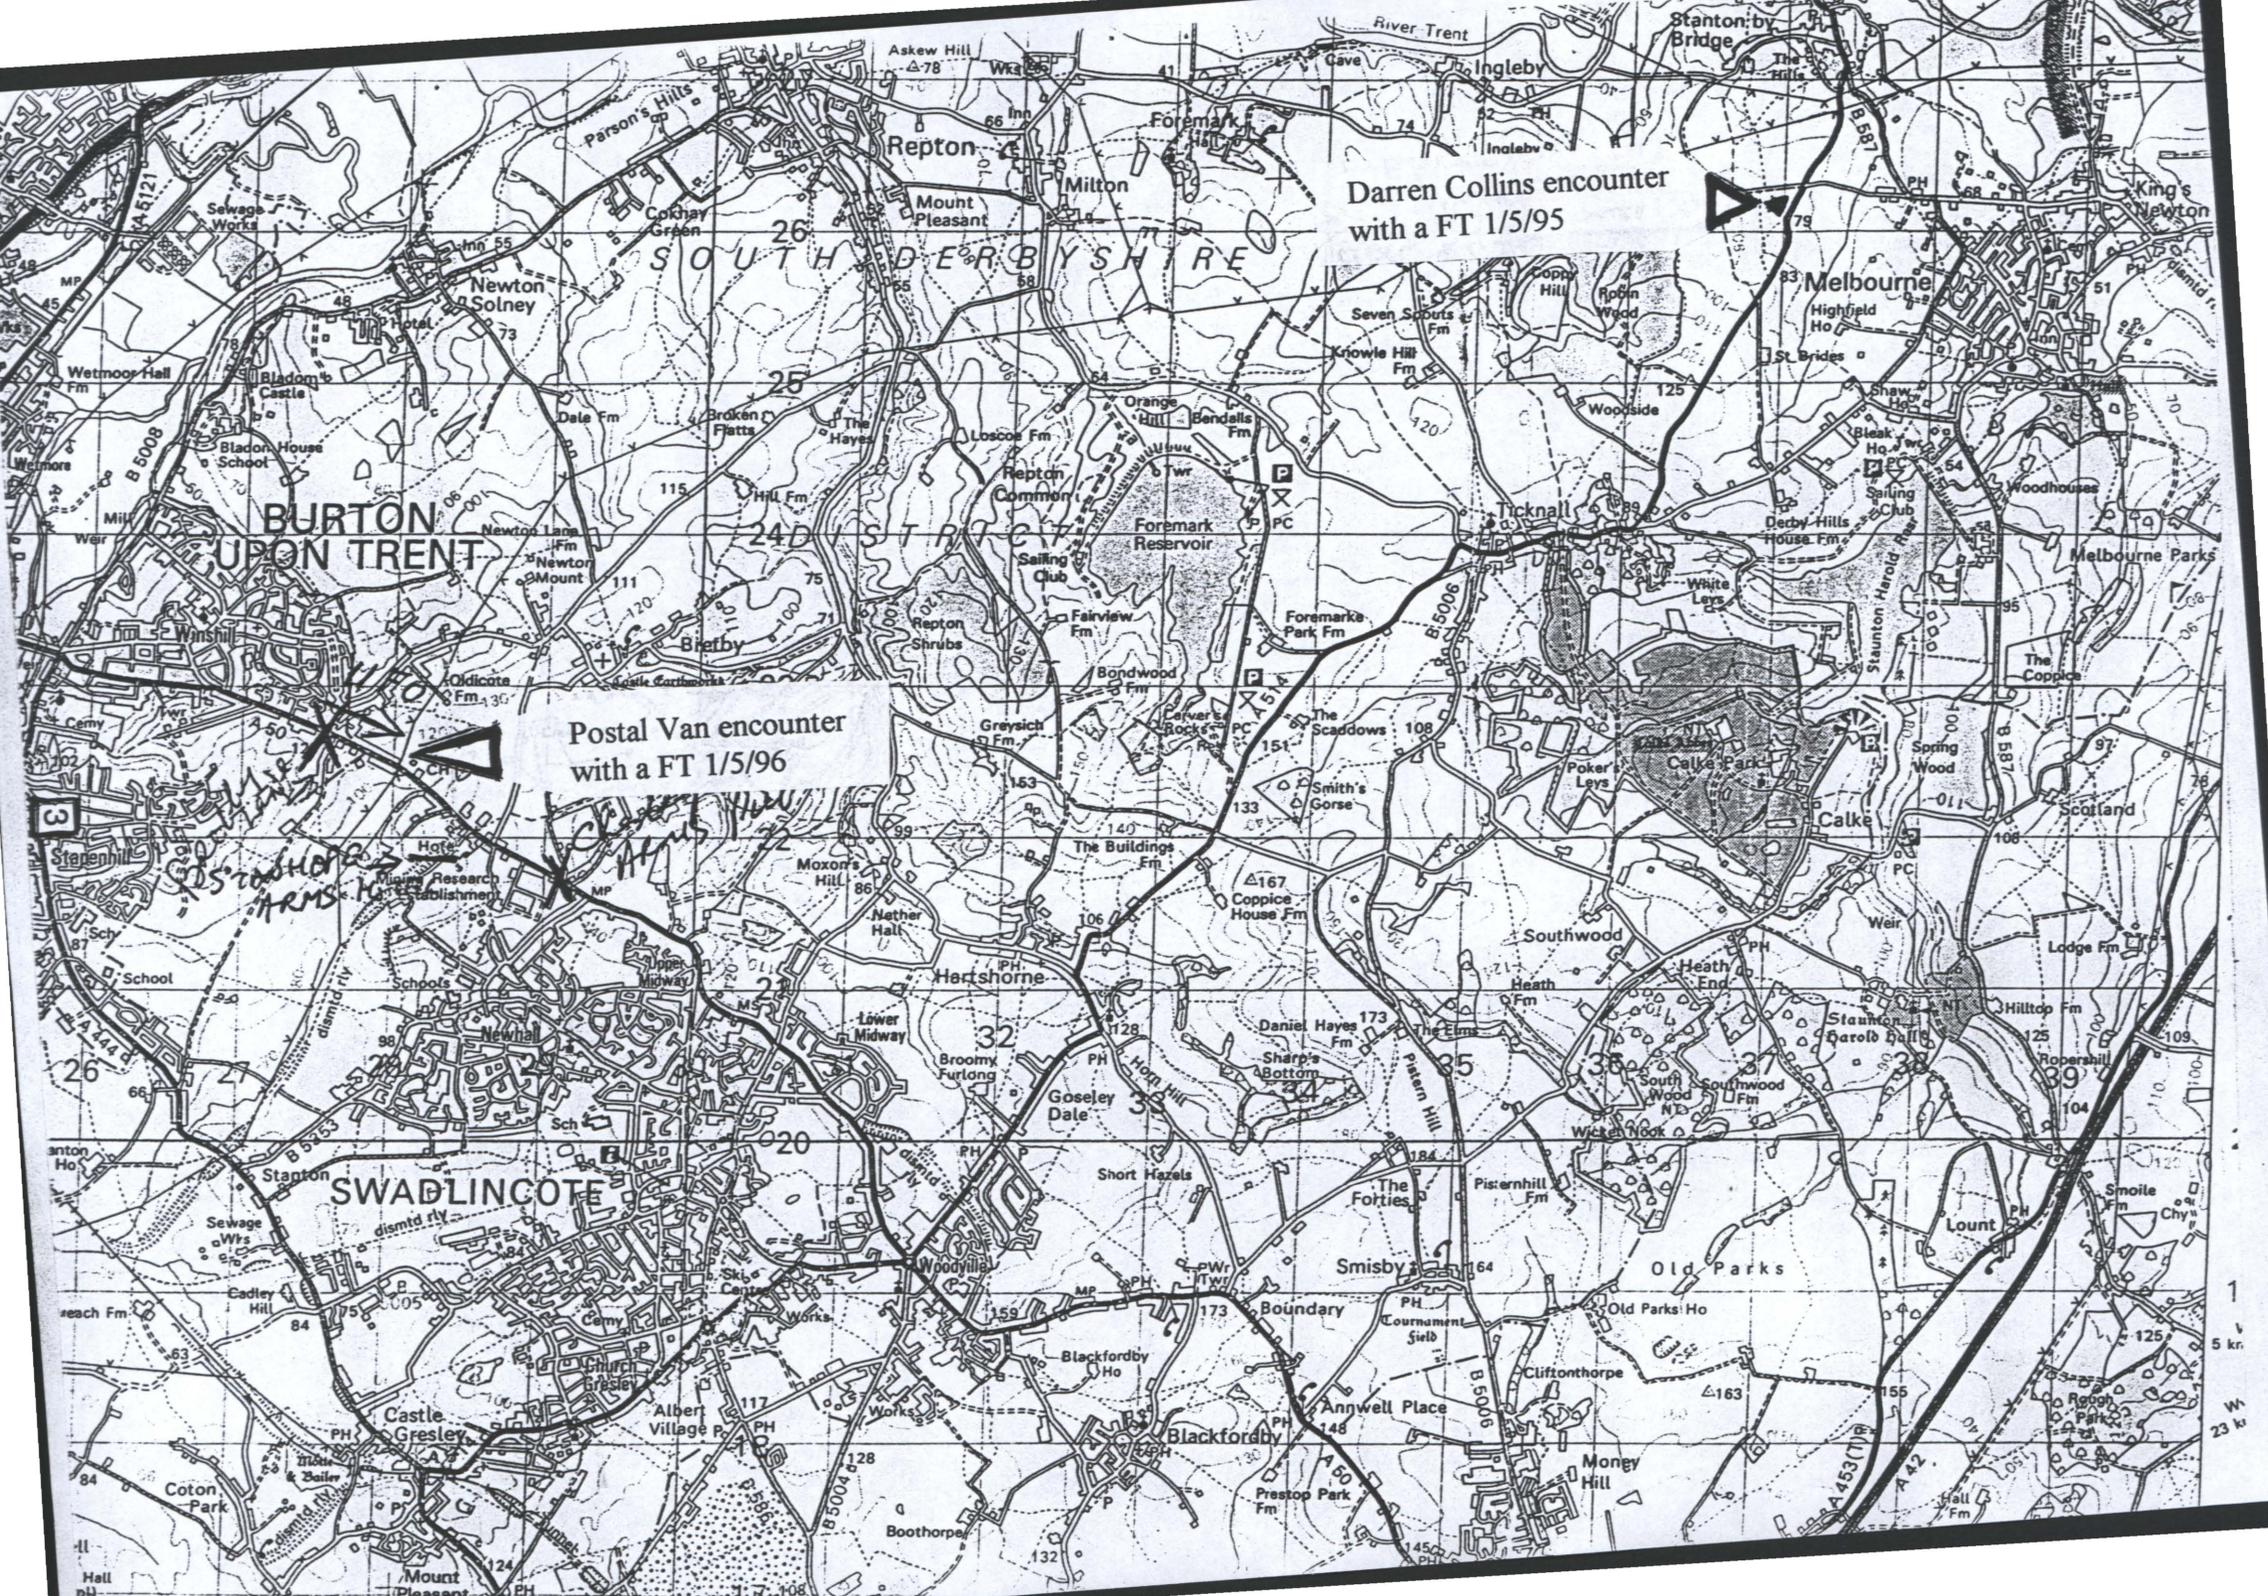

I could see on the illuminated watch on the dashboard that I was ten minutes late. I knew this by knowing my normal time at this spot (Bretby lane). The sighting overall was some ten minutes, although the sighting at Bretby Lane lasted only 10 to 20 seconds.

*At this point we will pause in and reveal further details of the incident in order to clarify what happened on the subsequent nights of the 2nd (Thursday) and 3rd May (Friday).*

**Tom travelled on this journey in the early hours of 1 May. On the 2 May, this trip was undertaken by a relief driver (who later arrived at the sorting office in a state of shock). On 3 May, Tom returned to his normal route, Derby, Swadlincote, Burton-on-Trent and had a further frightening experience.**

We now continue with Tom's report....The colour of the object was greyish, with lots of very bright lights and a green light at the rear (the same as a traffic light green colour). It travelled very slowly. During the first sighting, it appeared the size of a ten pence piece, but on the second sighting (3 May), it was the size of a U.S. Space Shuttle! The object appeared in the WNW and flew off in the direction of ESE. In answer to the reason why he thought it was unusual, Tom replied: "Firstly the bright light in the sky, descending towards me to my right and secondly when I had stopped, the sheer size of it with all its lights and how slow and silently it was when it crossed Bretby lane." "It could not have landed on Derby football ground, it was too big!"

*Tom has also disclosed that he has since suffered a certain amount of trepidation and anxiety about the two incidents.....our investigation continues.*

## A SNAPSHOT VIEW OF CURRENT EVENTS

*The unprecedented UFO activity at present has meant that our organisation is working full out to keep up with events. The following list will give you some idea of the frequency and location of present UFO activity. Details have been abbreviated in order to cover all sightings listed this year to the present time.*

JANUARY 96: Nil reports

### FEBRUARY

26 Southport: 2.45am A Hovering Flying Triangle with a central green light, making a penetrating 'booming' sound. Moved off W to E at high speed. (NLUFOS)

### MARCH

7 Derby: 0945 2 silver discs heading N.E. at approx. 300mph at a height of approx. 4,000ft.

28 Chellaston, Derby: 0145 Bright light reported. Also a 'spinning top'.

29 *Weather details: 2230 Venus very bright in NW and the comet visible.*

### APRIL

1 Chaddesden, Derby: 2100 A bright star-like light moved across the sky with a stop-go motion.

1 Sutton-in-Ashfield: 2130 Two red pulsating lights seen slowly heading NW.

2 (night of the 1st) 0054 Shelton Lock, Derby: A huge round brilliant white light seen at low altitude and in the direction of the Rolls-Royce works. It made a humming noise.

3 Night of the moon eclipse

4 0100 Solent, Hampshire, woman on the Isle of Wight saw a FT. Later two amateur astronomers reported seeing a FT to the local Portsmouth Police. An orange star approached and changed into a Flying Triangle (FT).

5 PM Derby: Bright ball with 'green jets' seen by a woman witness.(awaiting detailed report)

21 2330 Breadsall, Derby: FT seen by witness.

23 2330 Breadsall, Derby: 2 FT's seen, surrounded by green lights.

25 0700 Alvaston, Derby: UFO shape seen over London Road.

1600 Ockbrook, Derby. Lights in the sky seen near Aston.

26 PM Spondon, Derby: FT shape seen by witness (awaiting details).

27 2215 Spondon, Derby: Bright light seen moving fast across sky.

27 2220 Derby, numerous witnesses reported two white lights moving behind clouds and later joined by a third light.

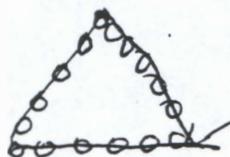

29 PM Spondon, Derby. Pulsating light reported by witness. (Awaiting details)

MAY

- 1 0150 Brethby, Burton-on-Trent, A Postal driver had encounter with glowing FT.
  - 2 Approx.0130 A50 Burton-on-Trent/Swadlincote: Postal driver had encounter with UFO (awaiting details)
  - 3 0120 Burton-on-Trent: Postal driver had encounter with FT
  - 3 2330 Aston-on-Trent: Driver saw a fast blue light moving across sky.
  - 4 0230 Burton-on-Trent: witness saw two white round lights.
  - 4 2315 Aston-on-Trent: witness saw a pulsating blue light.
  - 8 0400 Burton-on-Trent: 'Unearthly rumbling noise overhead' heard by witness.
  - 8 2400 Burton-on-Trent: Rotating red lights with a green centre light observed .
  - 9 0300 Burton-on-Trent: Bright silver disc seen near a water tower in town.
  - 18 2330 Uttoxeter: Two UFO discs seen flying across town.
  - 18 2340 Uttoxeter: Motorist & passenger saw a bright flashing light near ground level ("like lightning"). Awaiting details.
- 

I usually like to look at the sky before going to bed. I first noticed the object on Sunday 21.4.96 at 11.30 pm it was stationary for at least 30 mins. I nipped to the toilet, when I came back it had disappeared it disturbed me for a while. The following Tuesday <sup>23/4/96</sup> the same object appeared in the same place at the same time, after being stationary for 30 mins another object appeared going in the opposite direction it suddenly turned towards the direction of the first one I thought they were going to collide it stopped for a few seconds, turned round and slowly carried on, out of site above the rooftops. At great speed the first object followed the second and they both disappeared.

I have seen the same shaped object in the same place at about the same time once before sometime last year.

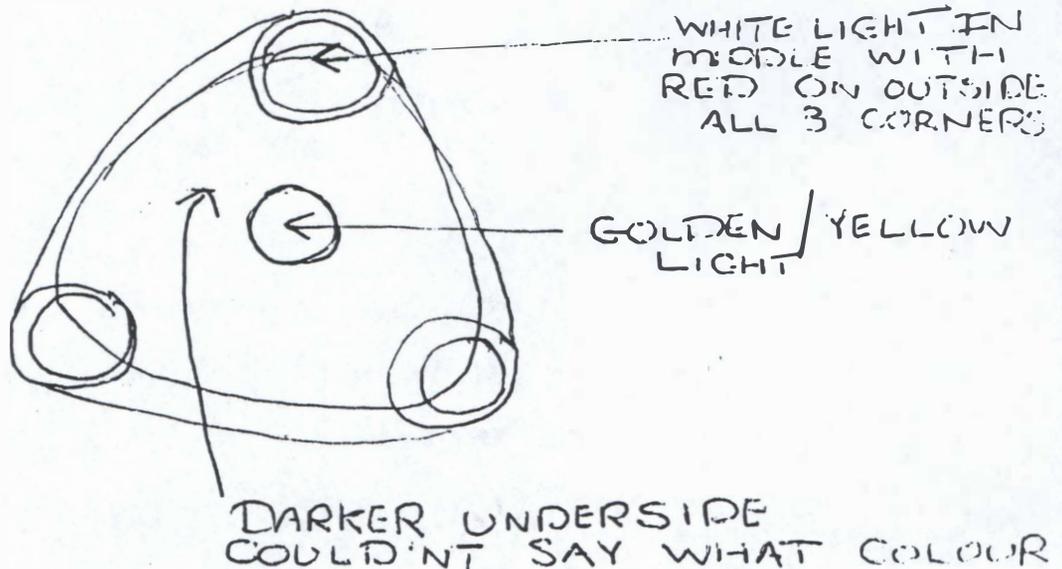

GREEN LIGHTS looked about as big as MARBLES.

**BREADSALL, DERBY.**

I'D BEEN SITTING IN MY BED ROOM ALL NIGHT WATCHING T.V. AND LISTENING TO MUSIC. I'D HAD MY CURTAINS DRAWN SINCE 6.00 P.M. NUNS ON THE RUN (FILM) HAD JUST FINISHED. APPROX 23.30 ON MOVIES GOLD, WENT TO MAKE TEA & TOAST. CAME BACK THROUGH AND SAT ON END OF BED. FINISHED TOAST. DRANK HALF MY MUG OF TEA. THEN ALL OF A SUDDEN I GOT A STRONG URGE TO GET UP. TURN OFF THE LIGHT AND OPEN MY CURTAINS. I LOOKED IN THE SKY UP TO THE RIGHT AND THERE IT WAS. I WAS THAT AMAZED I JUST STARED AT IT. THE THING OR UFO WAS CURVED TRIANGULAR SHAPED WITH 3 BRIGHT WHITE LIGHTS WITH BRIGHT RED RINGS AROUND THEM ON ALL 3 CORNERS WITH A GOLDEN/YELLOW LIGHT IN THE CENTRE OF THE OBJECT. FROM WHERE I WAS I MUST THE MORE I'VE THOUGHT ABOUT WHAT I'VE SEEN ESTIMATE THE OBJECT TO BE BETWEEN 150-200 FT LONG FROM TWO CORNERS TO ONE POINT OF IT. THE KIND OF MANOEVERS THE OBJECT MADE AMAZED ME. AND I DON'T THINK ANY PLANE COULD DO THE SAME. EVER SINCE THIS NIGHT AND ON THIS NIGHT I'VE HAD THIS STRONG FEELING THE TURNS AND MANOEVERS OF THIS OBJECT WERE TRYING TO MAKE THE PATTERN OF TWO HEXAGONALS JOINED. WHAT ALSO AMAZED ME IS HOW THIS THING JUST VANISHED AS I HAD MY EYES FIXED ON IT ALL THE TIME THAT IT WAS THERE.

Make a drawing

SORRY I'm NOT VERY GOOD AT DRAWING!

Lothian Unexplained Phenomena Research

**SHELTON LOCK, DERBY.**

One of the current incidents under investigation. The humming noise and barking dog are of particular interest. The UFO was also noted to be hovering near power lines in the direction of the Rolls-Royce aero-engine works.

Date of Observation : 2 / 4 / 96

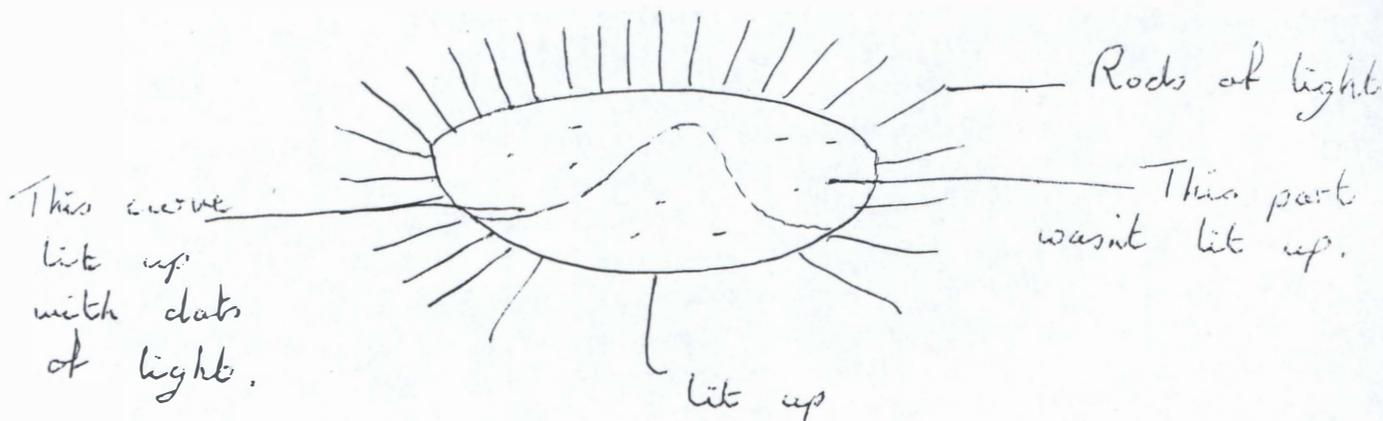

Time of Observation: 00 58 am/PM

ALL INFORMATION GIVEN WILL BE TREATED AS CONFIDENTIAL

Section (A)

Please write an account of your sighting, make a drawing of what you saw and then answer the questions in section B overleaf. Write in BLOCK CAPITALS using a ball point pen.

I was in bed a felt like some fresh air so I went to the window opened it & stood just looking out. When I noticed a bright light at first I thought it was the street lights. But the object was moving to my left in a straight line, it got bigger. I opened the window wider to get a better view & that is when I heard the humming sound & the dog was barking. The sky was black & the moon very bright it was a very still night. It was huge & had rods of lights  $\frac{3}{4}$  of the way round it. Inside the shape there was a pattern & dots of light.

# MOTHER EARTH

## The Truth

By Reg Presley

*In the Summer Nineteen Ninety, when the heat was quite intense.  
I draw to your attention, a chain of strange events.  
Things have happened to me, and to some of my best friends,  
A phenomenon is happening, and the mystery never ends.*

*I remember reading somewhere, of a circle in the corn,  
It appeared due west of where I live, and just before the dawn  
A compelling feeling told me, that I really had to go,  
So I left home fairly quickly, and drove 40 miles or so.*

*As I reached the Vale of Pewsey, and The White Horse on the hill  
The sight I saw beneath me, gave my bones a sudden chill.  
There stretched out below me, 60 metres down the field,  
A pictogram of many shapes, what secrets would it yield ?*

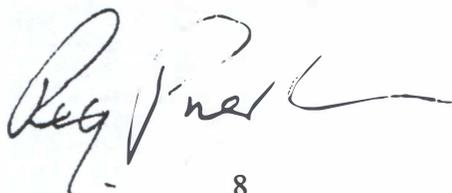

*Since then I've seen so many, and walked in quite a few,  
and I've the strangest feeling, that the patterns hold the clue.  
I've heard so many answers, from folks who think they know,  
but the truth to this enigma, unfolds very, very slow.*

*You must draw on all conclusions, and don't laugh at anyone,  
cause the answer is in all of us, who live beneath the Sun.  
Our Mother has a problem, and a problem we have made,  
and She tries to tell us slowly, in the corn She gently lays.*

*Younger brothers do not listen, and the time is getting short,  
so Mother has to frighten us, but as a last resort,  
she'll conjure up the evil winds, that will move the Seven Seas,  
And move the molten mountains, and bring countries to their knees.*

*Then we shall see a vision, like the World has never seen,  
Something will come with light and sound, to end our nightmare dream.  
From that day on the world will change, in every way we know,  
and those that come will help us all, to make the whole World grow.*

*So little men of power, who never got things right,  
and are probably laughing at this now, will get the biggest fright.  
Your money will mean nothing, and powers not the key,  
the answer simply balance, and perfect harmony.*

# The Evening Sky

*May 1996*

A lone bright 'star' dominates the evening sky during and after twilight dusk. Venus, shining just above the horns of Taurus the Bull in the western sky, is magnificent and will be visible throughout the month reaching its brightest on May 4th.

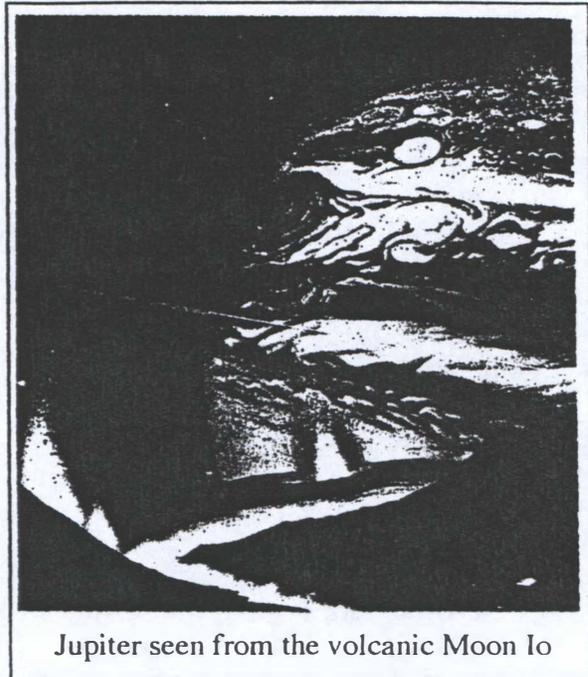

Venus was named by the Romans who saw her as the voluptuous goddess of love. By the Greeks she was called Aphrodite. To the Babylonians she was Ishtar. The Sumerians named Venus Inanna, the queen of the heavens and mistress of fertility and renewal.

Modern western science with its high-tech computerised view of the world considers the movements of planets as simply those of machines. In doing so, formal science education continues to isolate itself from the general public.

We are mind, body and spirit and when we look at Venus we do not see an object governed by Newton's Laws of Motion. We see what our ancestors, the Babylonians saw, a wonderful, spiritually uplifting light shining on and on across the universe.

The full Moon occurs on May 2nd and you may notice that all the little animals will be excited. Nature lovers, take advantage and stroll out in the glory of a spring evening listening to the sounds of nature all around and gaze at the brilliance of the full Moon.

The media have made a lot of fuss about comet Hyakutake. Unfortunately, not many people have observed this comet because it is very difficult to locate and

Jupiter seen from the volcanic Moon Io

unless you know exactly where and what to look for, you will not see Hyakutake. A pair of binoculars would be of great help. The photographs you see of Hyakutake are all taken with the aid of telescopes!

'Abandon hope, all ye who enter here!'. This was the inscription Dante put over the gates of hell and this inscription would also be the most appropriate warning to spaceships approaching a black hole. Black holes are a one way exit from our universe. Their mass is millions or billions times greater than that of our star the Sun, and yet, all cramped into a tiny space.

The gravitational force of a black hole is so great that nothing, not even light can escape. However, even black holes are a source of mystery and beauty. Their interiors are removed from our universe and once inside, space and time magically intertwine.

*Enjoy Your Evening Sky!*

Barry Parkinson

'The Evening Sky' - P.O. Box 4002 - Milton Keynes - MK13 7ER - U.K.

# Relativity and Quantum Mechanics

Over the past months I have received dozens of questions regarding the circumstances surrounding the origin of the universe and how it is possible the universe could have originated from nothingness. Relativity and Quantum Theory are quite difficult to grasp, and the answer to the 'Big Bag' question lies within those theories. If you do not quite understand the paragraphs below don't worry - just get a feel for the energies and scales involved in 'The Standard Model'

State of the art physics is embodied in a theory called the Standard Model, in which all matter and forces are accounted for by astonishingly few types of particles. Six quarks and six leptons make up all possible forms of matter. In practice just two of the quarks (Up and Down) and one lepton (Electron) account for everything in the world except for a few whiffs of exotic stuff produced only in high energy physics.

These 12 particles (and their corresponding particles of antimatter) are acted upon by 'messenger particles' that carry all of the known forces.

Quantum mechanics states that you need a certain length of time to measure a particle's energy or mass to a given degree of accuracy. If the time is very brief the uncertainty becomes larger than the particle's entire mass and you cannot say whether the particle is there at all.

The lighter the particle, the longer is its uncertainty time. In the case of an electron/positron pair the uncertainty time scale is about 20 million, million, million millionths of a second. On time scales shorter than this, virtual electrons and positrons can and do pop in and out of apparent nothingness.

The theory of general relativity, which shows the force of gravity to be a curvature of space-time, needs to be integrated with quantum mechanics which shows forces to be virtual particle exchanges. The gravity messenger particle is called the Graviton. In essence, Gravitons define the structure of space-time itself.

The reconciliation of quantum mechanics and general relativity is leading to dramatic new notions of the nature of

space and time.

Super-string theory says that the fundamental objects of nature are one-dimensional lines rather than points, the elementary particles we measure, being only oscillations of these strings. Super-string theory, however, only works if space-time has 10 different dimensions - 'orbifold space'.

Space-time foam is a sea of quantum worm holes appearing and disappearing in 'Planck time'. Space-time foam is implicated in spawning infant universes which can create Big Bang universes. Big Bang and what came before can spring from a previously existing space-time, break away completely while still microscopic and inflate with matter to become new universes, completely disconnected from their space-time origin.

The amount of latent energy in space-time fluctuations is staggering: one cubic centimetre amounts to 10 billion, billion times the mass of all the galaxies in the universe. It is unnerving to think that between your eyes and this page new universes are being spawned out and away from your quiet space-time every instant.

Space-time is a kind of layered cake, the topmost layer containing quarks and electrons (ordinary matter). The next, a layer of virtual particles carrying the electromagnetic weak and strong forces. Deeper still, the 'Higgs field' which gives quarks their mass. Finally, the lowest stratum of all, the gravitational field. There is more of this field wherever mass is present in layers above it, but there is nowhere where it is entirely absent. Now, if you have managed to read to the end of this paragraph go and make yourself a nice cup of tea. You deserve it!

Barry Parkinson

'The Evening Sky' - PO Box 4002 - Milton Keynes - MK13 7ER - U.K.

# MASS SIGHTINGS OVER SHEFFIELD!

*Courtesy of the SHEFFIELD UFO RESEARCH ASSOCIATION*

10th April 1996 - The beginning of the Sheffield UFO Wave?

8:54pm

City Centre.

Martin Jeffrey and Debbie Martin.

"Before the incident I had such a bad headache and decided to relax in a dark room. This also has a good view of the night's sky. Debbie also came with me to check if I was alright." said Martin.

8:56pm

MJ and DM

"While talking to Debbie I noticed an amber light travelling right to left. When seen through my 10x50 binoculars the light looked like a cluster of three or four lights. As the lights were nearly out of view I said 'Come back! Come back!'"

Debbie says "Suddenly the craft started turning in the sky, moving closer to the flat! As the craft turned I knew this was no airplane, the ufo turned without banking almost like a car turning!"

Martin continues "The craft began to fly straight again then it showed the bottom of it (See Diagram). I looked through the binoculars again and it was easily distinguishable that it was triangular, with three lights at each appendage. A burst of red came from the front - engulfing the craft. As it did this it shot off out of sight"

9:09pm

MJ and DM

"We were still looking for the triangle, when out of nowhere, we saw the triangle again, flying left to right. The total sighting lasted about five seconds. I telephoned Andy Cooper to ask him if he could see anything from his home, over looking the city centre."

9:15

Andy Cooper and five witnesses.

Firth Park, Sheffield.

"I stood outside with five other people and in the distance we saw a strange white light. At first I thought it was a star but it was moving in the direction of Manchester Airport. It maintained a constant speed and no sound was heard. We had been watching the light for two minutes when it emitted a "white flash" from the rear of it. (The others also agree and say it was like a beam). After a further two minutes it disappeared out of my visionary range so I and another went inside"

Darren Linacre remained outside with three witnesses.

"After Andy and Dean went in, we watched the light go behind a cloud and it jumped to another point in the sky. (All witnesses noticed this.) After thirty seconds the light promptly stopped and shot straight up into the sky and vanished."

"I don't believe the light was an airplane so I thought it must be a satellite but when it shot straight up into the sky..."

Christopher Smith.

9:33

MJ and DM.

City Centre.

"The triangle returned again, travelling faster than the planes we had seen earlier. Looking through the binoculars you could see three amber lights." D. Martin.

9:45pm

Karen Tyler (002)

Heeley, Sheffield.

"When I stood outside of my house, I noticed a strange white light progressing left to right. As it passed under Venus it looked like it was going behind it, but then it disappeared."

These are just a few sightings highlighted for Area S1. I have many reports for that night but they do have to be investigated. The UFO activity in Sheffield has trebled in recent weeks, cigar shapes in Firth Park, Flying Saucers over Hillsborough and the disturbing "Sky Flashes" sighted in every part of Sheffield and South Yorkshire. Also keep an eye out for strange looking jets with four wings!!!

## TALE ENDERS

**EMUFORA**, our colleagues in Nottingham, have secured the services of NICK POPE (*M.O.D.*) together with MATHEW WILLIAMS (Editor of *Truthseekers Review*) to speak at their meeting at the Bulwell T.A. centre, Hucknall Lane, Bulwell, Nottingham, 2pm-6pm on Saturday 17th August. Tickets £4.50 or £5.50 at the door, available from Tony James, 8 Roosa Close, Hempshill Vale, Bulwell, Notts. NG6 7BL or Tel: 0115-9275623.

**ROBERT MORNING SKY**, Hopi Apache, native American, presents *Evidence of Alien Presence* at the Andover Cricklade Theatre, together with **Colin Andrews** and **Busty Taylor** on June 22 from 3pm-11.00pm. Tickets £10.00 tel: 01264-365698

**TIMOTHY GOOD** gave a talk to a packed conference centre at Solihull on 11 May. The venue arranged by Quest International, included a question and answer session in which your editor participated. Tim spent a busy time signing copies of his new book **Beyond Top Secret**. He was impressed with the new PRA booklet *The Flying Triangle Mystery* saying that "it was an excellent work". Demand for *The FT Mystery* book has been great and copies have sold out within minutes at every conference. Timothy Good has kindly given some editorial tips which will be included before the book goes into its first 1,000 print run shortly. Available: Omar Fowler, 94 The Circle, Sinfen, Derby. DE24 9HR. £3.50 incl. U.K. Postage.

**FROM GROOM LAKE TO GULF BREEZE** is the title of a unique video made by Tony and Carole James (EMUFORA). A personal journey through the USA to Area 51 and Gulf Breeze. It includes a revealing interview with Ed Walters plus many other UFO researchers. A good buy at £11.95. Apply to EMUFORA (*see above*).

**PRA INTERNATIONAL?** We already send copies of the OVNI to Germany, Belgium, France, Sweden, and Australia. Our latest enquiry has come from Seoul, **KOREA!**

**BURNLEY, LANCS.** Is the latest location for a new UFO group. We have been requested to help them with material and information and we will be pleased to assist them.

**MYSTERY AT SOUTHPORT!** According to the Southport Visiter newspaper, a Flying Triangle startled car drivers as it flew around a field near Meols Cop Road at 6pm on 1 March. "This thing was unreal. It was sort of triangle shaped with a white light in each corner and a *square green light in the middle*" said one witness. Other car drivers and passengers watched in amazement as at first, it remained motionless for five minutes and then started going around the field for a minute or two. Then it stopped and *the lights gathered together* and without warning it flew off.

### THE NEXT MEETING 28 May at 8pm

Will be held at the **British Legion, Allenton**. Take the A5111 ring road, turn off at the *Spider Bridge Allenton*, take the Chellaston road. The club is approx 1/4 mile on the left. Car Parking, Non-members welcome. Admission £1.00

*Revelations about the present Flying Triangle cases, including video interviews.*

**A video showing alien implants being removed from abductees! (Not for the squeamish).**

Plus all the latest UFO news.

*Reports published in the OVNI may be reproduced by other agencies, with due acknowledgement to the Phenomenon Research Association.*
