DISTURBING PROPHECIES?

With the year 2,000 AD rapidly approaching, we are hearing of an increasing number of prophecies warning us of great Earth changes in the coming years.

There is great speculation, that the comet Hale-Bopp, the biggest comet in living memory, is bringing with it a 'companion' in its wake. The 'companion' is supposed to be similar to a Saturn-like shape, which some people claim appears to be under intelligent control.

Several prophecies of disaster have been made in the past and a few extracts are given below:

Mother Shipton (16th Century).

Of what shall be in future time,
For in those wondrous far off days
The women shall adopt a craze,
To dress like men and trousers wear,
And cut off their locks of hair,
They'll ride astride with brazen brow,
As witches do on broomsticks now,
Then love shall die and marriage cease,
And nations wane as babe decrease.
The wives shall fondle cats and dogs,
In nineteen hundred and twenty-six,
Build houses light of straw and sticks,
For then shall mighty wars be planned,
And fire and sword shall sweep the land.
*For those who live the century through,
In fear and trembling this will do.
Flee to the mountains and the dens,
To bog and forest and wild fens -
For storms will rage and oceans roar,
When Gabriel stands on sea and shore,
And as he blows his wondrous horn,
Old worlds shall die and new be borne.*

Edgar Cayce (1934).

'The sun will darken and the Earth shall be broken up in diverse places, and then shall be proclaimed that *His* Star has appeared. We will understand fully by 1998.'

What could be one of the most disturbing reports has arrived only recently. Apparently a family living in Wiltshire, who are believed to be 'contactees', claim that they have been warned of a World catastrophe happening this year! They considered the warning to be so genuine that they have cashed in their Life Insurance Policies!

Mary Barrett (one of the latter family) writes: **TIME IS RUNNING OUT**

I am just an ordinary person who is just trying to tell the truth to the people who are prepared to listen. Our planet is going through many physical changes. This happens every 26,000 years and with the new millennium brings a new age (the golden age). Before we reach the new age there will be chaos and turmoil as the Earth gets rid of the bad that has made the planet what it is today. She (the Earth) is basically rebelling against the many years of ill-treatment and disrespect. Man must change his ways and start to take care of and nurture her. We are at present in a very evil age. Just look at what is happening around our planet: wars, famine, drastic weather changes. These are all significant to what future events hold. People must change their ways. They must once again live in peace with each other and with our space brothers and sisters. This is our only salvation.

Editor's Notes.

We understand that Hale-Bopp will be passing closest to the Earth in early April. Any effects on the Earth will depend on how close and how large the comet is and also the density and position of the 'companion'? We will endeavour to publish more data in the OVNI next month.

Could the passing of a huge heavenly body cause a shifting of the Earth's poles and a subsequent disaster? We know that there was a 'shift of the poles' several thousand years ago. This was discovered in recent years when old Aboriginal firestones were unearthed in Australia and found to have a different polarity to the present day.

However, there are a number of questions to be asked about the prophecies of doom.

Do the Chinese, (who have a different calendar system) also forecast calamities at the end of this century?

Our own calendar, supposedly based on the Birth of Christ, cannot be an accurate measure of time. The exact date of the Birth of Christ is not known. I believe that in it's present form our calendar is certainly running three years late. The date of the death of King Herod is known and that was three years before the supposed Birth of Christ. King Herod knew of the birth of Jesus and intended to find him, therefore Jesus was born during Herod's reign and that shows that our calendar could be at least three years out. If this information is correct, then that would make the end of the century this year!

The Mother Shipton prophecies are claimed to have been written in the 16th century, but the convenient rhymes would not have been possible, as the English of that period differed greatly to present-day English language. There was no such word as 'trousers' ('like men and trousers wear').

The family who have cashed their Life Insurance, are apparently in touch with the 'Greys' , who are known fibbers! (*we're not going to harm you, this nine inch needle won't hurt a bit!*).

Just in case.....The PRA regret that they cannot refund the membership fee from May - October 1997 under the clause 'An Act Of God'.

HALO OR NOT?

By Simon Lewis (North Lancashire UFO Investigation Group)

The picture below, was taken at Livington Pike, Lancashire. Is it a secret aircraft in the shape of the 'Halo' or is it the Eurofighter undergoing trials? Interestingly the photograph does show a delta shape, but one that has a conventional look to it. It also sports the greyish colour of your typical modern aircraft.

(Photo: Sunday Mirror)

The hill shown in the photograph give us more clues, as does the tower shown on the left. It gives us some idea of scale and indicates that the object was of a typical fighter size (Eurofighter). The fact that no noise was reported can be accounted for by the action of the surrounding hills in deadening the sound. This fact has been noted previously on many occasions during aircraft exercises in the area.

The picture could also be showing the underside of an aircraft, slightly angled as it swoops up and away, again out of sight. The picture could also show a distortion of the aircraft shape. Remember that the photographer had photographed the view from a distance and was not aware of the aircraft at the time. The prime purpose of the photographer was to take the scenic view, not a moving aircraft.

We have now gained information from a number of sources which confirm that the Eurofighter aircraft was airborne at that time and flying in that area on the day in question. The Eurofighter has been seen on many occasions flying in the Lancashire and Cumbria region, escorted by Tornado aircraft.

Compare the photograph of the Eurofighter, taken by myself.

Eyewitness reports often vary in their description of the Eurofighter. It is a well known fact that different light conditions can change the silhouette of an aircraft and often cause a mis-identification. The witnesses often give a variety of descriptions and do not reveal the Eurofighter in that form at all.

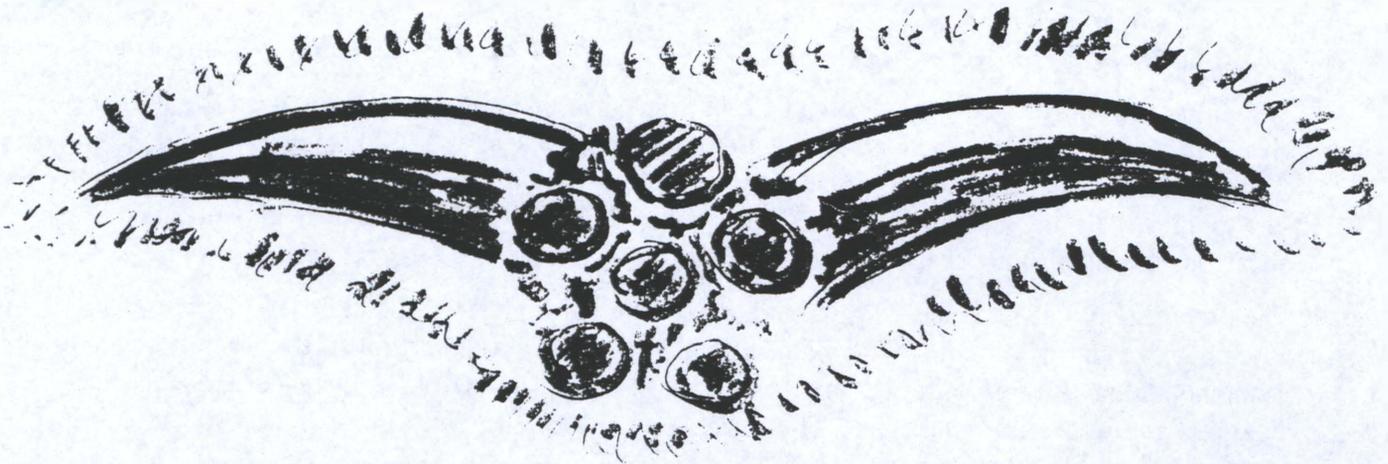

BIRMINGHAM UFO SOCIETY REPORT: MID-SEPT. 96.

By Robert Bamford

Details below, have been taken from the sighting report form. Two witnesses were involved, a welder from Halesowen and his wife. Although the witnesses do not remember the exact day, they can recollect the exact time of the incident. It occurred at 8pm.

"My wife noticed two lights in the sky. One was definitely a helicopter following a red light." "When viewed through 4x binoculars, it looked like a group of red lights arranged in a circle with two curved wings." "The helicopter followed the object for twelve minutes until it disappeared in the distance." "The helicopter went away and came back after five minutes and shone a searchlight around on the ground, it left two minutes later."

The incident occurred in the area of Blackheath/Rowley Regis/Quinton. BUFOS No. S.181.

BUFOS FLYING TRIANGLE REPORTS 1996

- 22 January over M6 7 June 2347hrs.
- 26 September Near Worcester 0200hrs.

- 15th October Kidderminster 0200hrs.
- 20 November Worcester ?
- 21 November Stafford 2347hrs.

MORE ON THE WELSH SIGHTING 21/11/96 (Case 96/50)

In last month's OVNI, we made brief mention of a FT report by Mrs June James, a teacher who lives at Penparc near Cardigan. We have now received further details of the incident and June's report is given below:

Thursday 21st November 1996

I was watching the television at approximately 8.45pm, when I heard a very low rumbling noise. It sounded like thunder to begin with, but it increased into a very loud noise, similar to a Vulcan Bomber noise. The sound felt as if it was penetrating my chest. I asked my husband if he could hear it and he told me that he could. I went out of the house to investigate.

At first I couldn't see anything, but I stayed out there because the noise was so intense. I looked at the sky to the right of me, but I couldn't see anything, so I changed my position and looked over to the left. Then, looking between two bungalows, I saw a huge triangular object travelling slowly, just above rooftop height.

It was clearly a triangular shape with curved tips. There were red and blue lights on the tips and there was a silvery light surrounding the shape. The shape of the triangle was clear against the night sky (it appeared Grey, not matt Grey). Another object was following it with a single white flash. I thought at first it was a jet', but I'm not too sure.

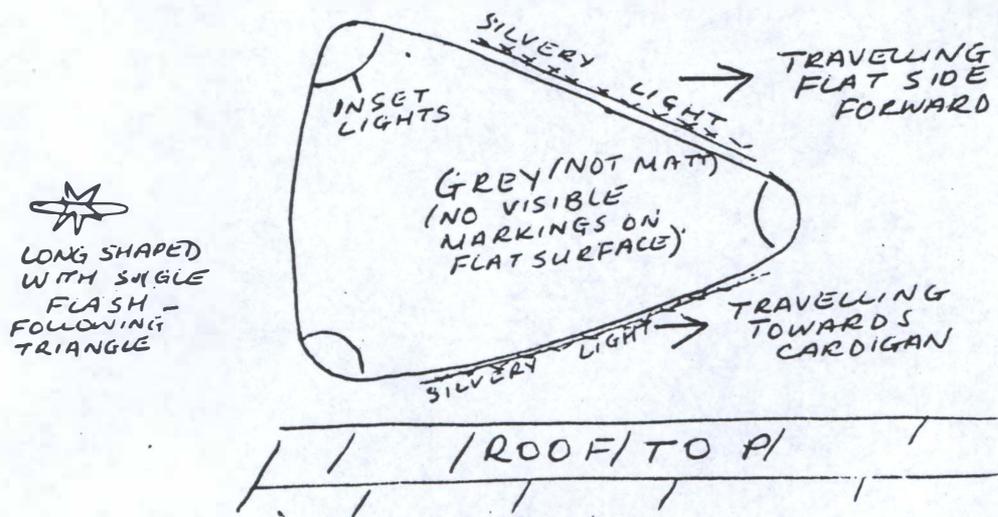

The triangle continued to travel at the same speed, with the other object following it, until it was out of sight. Then I went indoors and told my husband what I had seen. I know that I have definitely seen it.

I had heard this sound before about two years ago. It was about 3 o'clock in the morning. I felt that something was going to land on the bungalows. I was too frightened to go out and look.

From June's letter of 21st January 1997.

Tonight was active again! At 6.30pm I heard the same noise as when I heard the FT on Nov. 21st 1996. I went out to look and saw two red flashing balls of light flying through the sky. My husband also saw this. WHAT IS GOING ON?

P.S. The 'Flying Triangle Mystery' book was excellent. (Published by the PRA at £3.50)

INCIDENT AT MICKLEOVER, DERBYSHIRE 25th OCTOBER 1996

(Investigator: A.Hitchcock)

On Thursday the 24th October, Mrs G.Jones retired to bed. "At about 11.30pm. I looked out of my bedroom door through the patio, I saw that it was a fine, clear night."

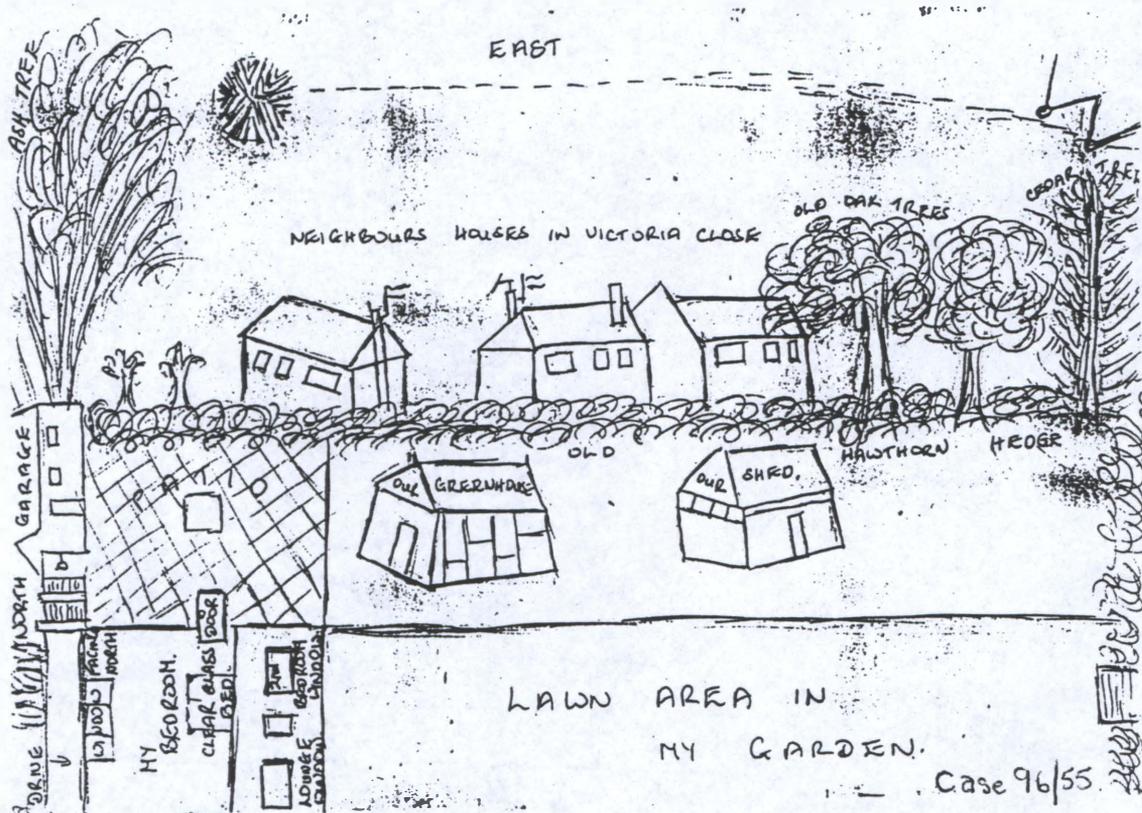

"On such nights, I like to look at the stars twinkling away and often see the flashing lights of aircraft on their flight paths, to and from the East Midlands Airport. About an hour later at 12.30 (0030hrs.), I suddenly saw a brilliant ball of light emerging from behind the top of the giant Ash tree at the bottom of my neighbours garden."

"I leapt out of bed and grabbed my glasses (I don't possess binoculars), and watched this object travel silently about 30ft. high above the rooftops of three neighbouring houses, which adjoin my very long garden."

"Suddenly it banked sharply to the right and disappeared from my sight, but not before I had observed its **huge triangular shape** which were outlined by several small lights. I have never seen anything like it before, all I can say is WOW!"

"I wish that I had been out in the open to see this object, but by the time I had my glasses on and opened the door onto the patio, it was nearly at the end of the garden."

Asked to comment on the unusual aspects of the object, Mrs Jones stated "The size (*Mrs Jones drew a 4" dia disc...as viewed from her position*), and sheer brilliance of light, then the dark triangular shape that I saw before it disappeared." "I felt tremendously elated, but I did not go outside as it was a cold night." "This strange object made no sound at all." "I didn't go to sleep until about one and a half hours later."

AN UNUSUAL LINCOLNSHIRE EVENT: 10 AUGUST 1996

A family were on holiday at Trusthorpe on the Lincolnshire coast and as it was a fine night, the small group decided to go for a stroll along the coast.

Mrs P relates what happened at about midnight: "When we reached the beach, we all stopped and looked into the sky, we had to crane our heads right back to see, but what we witnessed was amazing. We found ourselves watching a meteorite storm. We watched it for about an hour and a half. It seemed that we could see a whole galaxy of stars, planets and meteorites. We must have counted over 20 shooting stars."

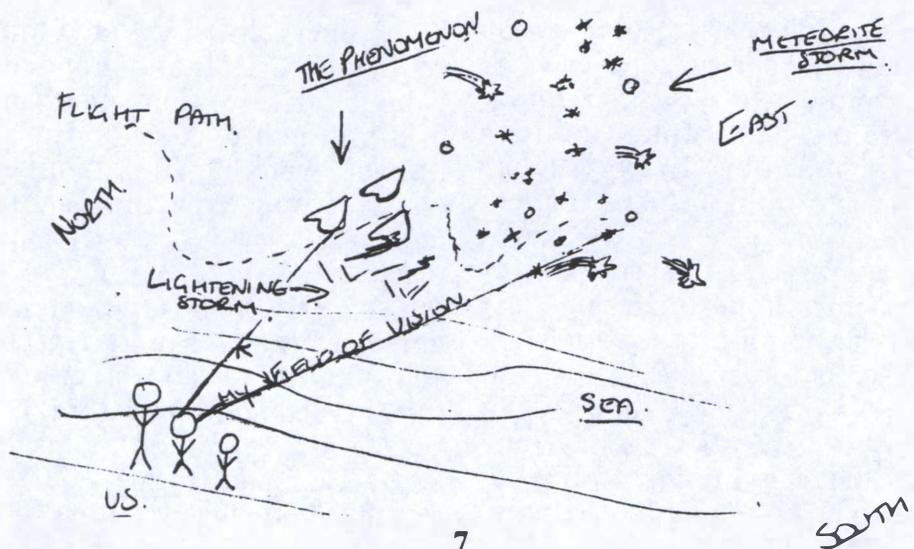

"Then we witnessed a thunderstorm out at sea, we watched the sky light up, very low down below this cluster of stars, the sea was reflecting the lightning. It must have been some way out, as where we stood was cool, clear and dry. We noticed that there was no moon that night and it was very dark. We were alone in our spot, my husband, myself, my son and the dog, in that order, but other people must have been watching, as later I saw some people coming towards us and could only just make them out in the blackness."

"We had understood what we had seen so far....."

"My husband saw the phenomenon first, as it appeared in the NE He described the objects as 'coming close to' and he described the perspective as 'tree top height.' "I watched the objects as they withdrew and soared higher. The flight path seemed to snake into the horizon, re-emerging and finally disappearing in the galaxy of stars." "It was as though there were three separate entities, each one a triangle, but they were in moving unison, forming three points of a triangle."

"Each separate triangle was translucent with a hazy, but very bright light radiating almost from behind the objects, towards us." "In terms of size, it is hard to say, whatever we had seen, I did not feel that this phenomenon were alien space craft."

"Since then, it could be construed that I have had a psychic experience, I've also had a dream, which although I know it to be only a dream, parts of it compare to what I've heard of people's so called 'abduction' stories." I've also been driven to spiritual enlightenment, however, I am a psychotherapist and this is more likely a part of my own growth process. But many things have formed a series of coincidences since the sighting. I believe that a time of enlightenment is on the horizon and what I saw might just be a sign!" "Make of it what you will."

The Evening Sky

February 1997

Why is the sky at night dark? This may seem a strange question but the answer to it was only discovered this century!

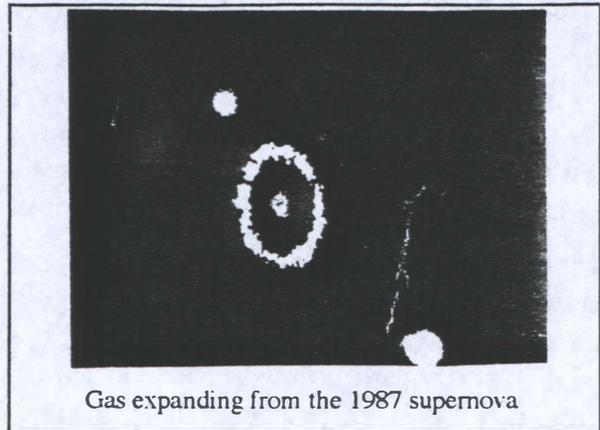

There are an infinite number of stars in the sky and we should really see stars crammed into every niche of the night sky. Indeed, there are so many stars that the evening sky ought to be a sheet of light as bright as the surface of the Sun, and yet the sky is dark.

This puzzle is known as Olber's Paradox. The evening sky is dark due to the universe expanding. It is not dazzling bright because the universe has something else to do with its energy - namely, expand. Remote stars and galaxies shift their light to the red end of the visible spectrum and so the sky appears dark.

The further away a galaxy is from Earth the greater is the speed of its recession and the greater is its red shift. The most distant galaxies known as quasars are receding from Earth at almost the speed of light.

The star constellation of Orion dominates the evening sky in February and can be seen in the southeastern sky in mid-evening. Orion's belt contains three bright stars all in a row. Betelgeuse, a red supergiant is a million times bigger than our Sun and is at the top left hand corner of Orion. Rigel, a blue supergiant is millions of times hotter than our Sun and shines at the bottom right corner of the Orion constellation.

In the best selling book 'The Orion Mystery', the Giza pyramids of Egypt were claimed to be configured to Orion's

Gas expanding from the 1987 supernova

belt. However, if one compares Orion with the images of the pyramids in the book you will notice something wrong. The pictures are oriented with north at the bottom. To make the pyramids match the sky you have to turn Egypt upside down. In fact all the maps of Egypt are published upside down.

The Brightest star in the sky, Sirius lies close to the southern horizon and rises just after Orion. Sirius is so bright because it is close to the Earth, at only 8.5 light years distance or 51 trillion miles. Travelling there non-stop on Concorde would take you 4.8 million years!

It is ten years (February 1987) since a star in the nearby galaxy (LMC) turned into a supernova. The star (Sanduleak, a blue supergiant) exploded and became so bright that it outshone the whole galaxy. Heavy elements manufactured in a billionth of a second in the stellar furnace, were blown out into the galaxy which is still expanding and enriching the universe with heavy atoms today.

All of the heavier elements in the universe are made in that instant when a star explodes and its core implodes forming a neutron star or black hole. Stars produce carbon atoms which you and I are made from. You see, we are star dust and we are golden!

Enjoy Your Evening Sky!

Skywatch Diary

by Carole Baker

Have you noticed the number of television shows that have been on recently concerning UFOs and abductions. I started to make a list the other day of things that we have recorded from the television recently and I was amazed. The good thing is, these shows have not all been the "tabloid" kind. There have been a couple of talk shows like "Leeza" who had experiencers on recently and "Charles Grodin" who is supposed to have Whitley Strieber in the next few days talking about his new book "The Secret School" which was just recently published. On the Discovery Channel recently shows with titles such as "UFOs:Down to Earth", and the series on that channel "What If" have been aired. The Learning Channel ran a show on Crop Circles and A & E had a really good show on in their Ancient Mysteries Series, narrated by Leonard Nimoy called "UFOs:The First Encounter" which chronicled evidence from ancient civilizations and texts of UFO contact in the distant past. This was a particularly well produced and interesting program. Also A & E has a new series "The Unexplained" - these shows have had titles like "UFOs:Reason to Believe" and "UFOs vs. The Government". All very interesting. Then of course, there are a whole slew of regular TV series such as X-Files, Dark Skies, Psi Factor:Chronicles of the Paranormal, Sightings, Star Trek, etc. etc. Of course, Hollywood has been churning out its share of UFO related movies including "The Arrival", "First Contact", "Independence Day", "Mars Attacks" etc. etc. Remember when it was a real event when something UFO related appeared on the TV or in the movies. Now it is a case of "Oh, there's another UFO show on Thursday, let's tape it!" I wonder what, or perhaps more appropriately who has engendered this plethora of shows and movies, and to what end?

I have it on good authority that there will be more vendor space than expected available at the 5th Anniversary Project Awareness Gulf Breeze UFO Conference to be held at the Beachside Resort on Pensacola Beach on March 21st, 22nd and 23rd. So, if you wanted a table and could not get one, now is the time to call. This Conference seems to be growing of its own accord and looks like there will be record numbers of attendees and vendors and of course a fantastic line-up of speakers. If you have not made a reservation, please contact Project Awareness at (904) 438-8888 so that they can get the information out to you.

Another quiet week of skywatching at Shoreline Park. I was expecting a couple of calls on the hotline this week, since myself and several friends witnessed a blimp flying north from the Bay over Pensacola on Saturday, January 18th at approximately 6:30 p.m. At first glance you can easily see how an untrained eye would think "saucer" and "flashing lights". It is only on closer, more careful observation that you can see the gondola and pick out the distinctive noise of the engine. I guess skywatchers in Pensacola have become well versed though, since no calls were received!

If you have a sighting or unusual experience to report or you would wish to contact the Experiencer Support Group, please call the Pensacola/Gulf Breeze MUFON Hotline at 438-3261. Keep Looking Up!

EMUFORA

East Midlands U.F.O. Research Association NG6 7BL

Mr Tony James EMUFORA
8 Roosa Close
Hempshill Vale
Nottingham

Since EMUFORA printed its last and final magazine, Omar has asked if I would write a regular page for Ovni. I hope to bring you all the latest news, sightings and gossip in these pages from Nottingham, the East Midlands and from around the world; maybe beyond, who knows.

The two main reasons for our magazine to cease was because it was hell of a job to keep writing, printing, copying and putting it all together with very little help. Carole and I have a very busy year ahead of us with other commitments, and now with some decent UFO magazines on the shop shelves, we decided one magazine wouldn't go amiss. Also, we have restructured our group and got rid of the wasters. There are three types of UFOlogists, No 1. The people who support the groups by attending public meetings, they are always welcome. No 2. The people who join a group as an active investigator and once in does nothing - the time wasters. and No 3. The people who are in the groups to find out what they can and actually help at meetings and go on investigations and work as an active member of the group. We at EMUFORA have now got rid of the No 2's and have halved our staff, see what I mean? Don't forget, your local UFO group needs your support.

In November 1996, we received a UFO report from some one who lives in Lincolnshire. I spoke to the chap who reported the sighting and got the basic story and then sent him a questionnaire. After several requests we never got it back and I believe the family refused to cooperate.

The sighting was in the countryside on the outskirts of Nottinghamshire as the family of four headed into Nottingham to visit relatives. The driver noticed a low and unusual light configuration ahead of them and decided to pull over to get a better look. As the craft approached them, the parents got out of the car for a better look. The object was large and triangular and came to a halt above their car. There were lights in each corner along with several others along the base of the craft and a slight deep humming sound could be heard. The craft hovered at about 200 feet above them for what seemed like about 6 minutes, during this time no other vehicle passed them on this main road into Nottinghamshire. The craft then moved off slowly and away out of sight. Almost instantly a car approached and passed by.

There didn't seem to be any time loss as the family arrived at their destination at their estimated time which included the unscheduled stop.

Other details are unavailable due to non-cooperation from the witnesses. More triangular reports to follow in my next page along with other fascinating sightings from Area 51 in Nevada and from Nottingham. Until then.....May all your encounters be close.

THE WAVE OF "WING" REPORTS: MORE ON THE "BOOMERANG": "AS LARGE AS TWO FOOTBALL FIELDS"

R. Perry Collins

1986

FLYING SAUCER REVIEW

FSR reader Bob Collins of Bridgeport, Connecticut, is, as he says, a man who "grew up in the Air Force and now works as an aerospace engineer". What he has to tell us will be seen to corroborate fully all that we learned from the two articles on the great "Boomerang" craft, by Messrs Imbrogno, Lesnick and Clark, which we published in FSR Volume 30, No. 3, last February. EDITOR

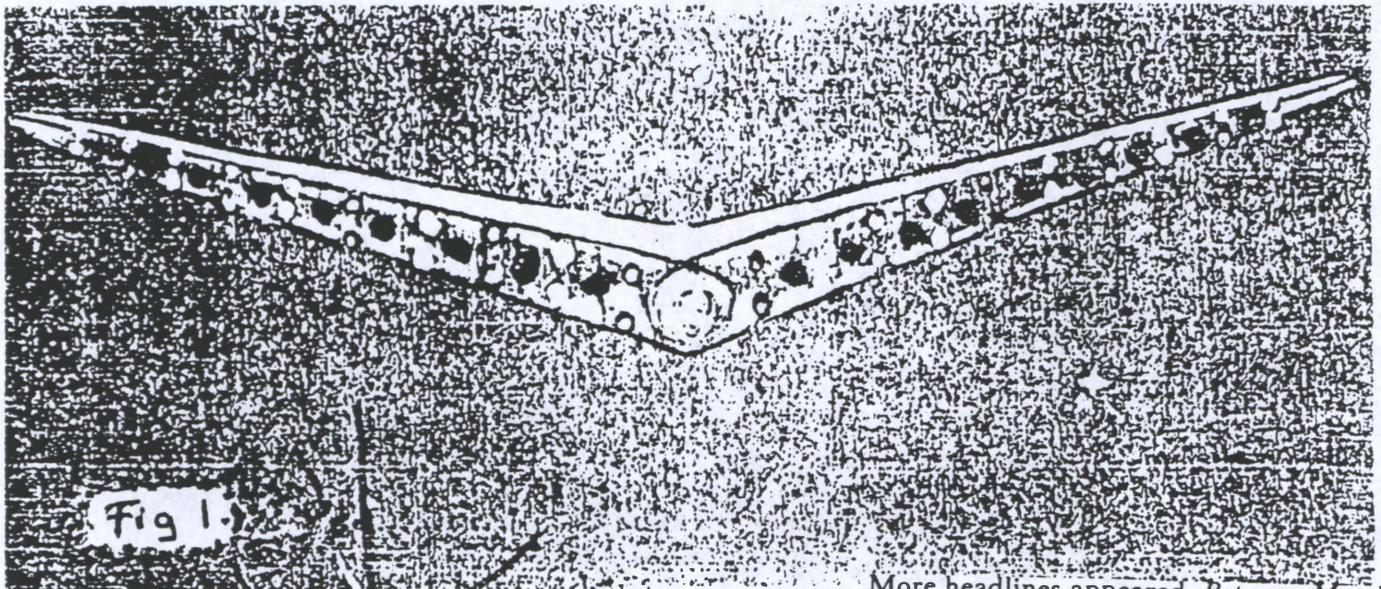

FROM March of 1983 to the present (Nov. '85) a UFO wave of unprecedented duration and consistency has enveloped significant areas of the eastern United States. It has been centered over New York and Connecticut and involves a UFO repeatedly reported as "larger than a football field", and by one witness as "about two football fields". This UFO has flown low over populated areas numerous times for more than two years. It has shown variable lighting but most often is reported as a huge "wing" or "boomerang"-shaped array of lights, switched on and off, seemingly to attract attention. There has also been related activity, such as flights of aircraft in various formations, displaying non-regulation lights and reports of federal agency interest. This activity has not been mentioned to any great degree by the national media. Local newspapers and independent radio and television broadcasts have presented a great deal of information, but in a scattered fashion. This article will present a summation of the wave and of investigations into its nature.

First reports

The wave had its beginnings in March of 1983. On March 17th, residents of Kent, N.Y. and motorists on the nearby I-84 highway reported a large UFO hovering and moving slowly over the area. From that date to the present, there have been reports of a huge, dark, metallic object, displaying glowing lights and flying very low over populated regions. The lights have most often been described as forming a large open "V" or "boomerang". In some cases the lights have changed position, rapidly forming such configurations as a "horseshoe", "cross", straight line, and a large circle. Often the configuration changes happened while the object hovered, finally coming back to the "V" shape before the object accelerated rapidly away.

The press headlines

One week after the 17th, on March 24th, the UFO was seen again. Citizens and police officers of Yorktown,

The "Boomerang" craft.

Mt. Kisco, and Carmel, New York State, reported a very large "V"-shaped object with multi-colored lights moving low over their towns. "Hundreds Claim To Have Seen UFO" read the headlines of the *Port Chester Daily Item* on the next day. The object was seen again the following night (the 25th) and the night after that. In early April the object began being seen over Danbury, Connecticut, less than thirty miles from the New York towns.

More headlines appeared. Between March of 1983 and November of 1985 more than eighty articles reporting this UFO appeared in local newspapers in the two States of New York and Connecticut. The most recent, dated October 18th, 1985, appeared in the *Bridgeport Post* and the *Danbury News Times* in Connecticut. These two articles described a huge, low-flying object seen by an estimated 2,000 witnesses. The object displayed "V"-shaped lights which changed color from white to red to green and back to white. The "wing" shape changed from a "V" to a straight line (as the object hovered) and back to a "V" (as the object rapidly accelerated away).

TALE ENDERS

MUFON, MICHIGAN have reported an interesting case that occurred at 1158pm on the 21st May 96, at Charleston, Illinois. Four witnesses at a Youth Camp saw a big white light in the sky approaching the camp. This was followed by a **Flying Triangle** showing two red lights on its side. As the FT passed over the site, the campers were illuminated by a spotlight.
Source: Ken Potts.

FUN FAIR FRIGHT. On the night of 26th October 96, at 9.20pm, Mr C.Fleetwood and his son were walking home after visiting a local funfair at Ripley, Derbys., when they both noticed a cluster of lights in a roughly **triangular shape**, travelling towards the East at high speed. Mr Fleetwood, who has been interested in Astronomy for over 20 years, commented that the lights appeared to be above the cloud level, at 4,000ft. He also noted the complete silence as the lights passed over and the lack of any 'strobe' lights. (Case 96/65).

ANOTHER FT ALIEN REPORT has emerged from Versailles, Minnesota, where multiple witnesses reported that at 2300hrs on 7th September 95, they saw a huge **Triangular 'ship'** surrounded by four disc shaped 'ships', with up to 50 bizarre creatures underneath!
Source: Microsoft Internet Explorer/ Paul Whitehead.

LUFON (Lancs.) Graham Thompson has told us that on the 29th January 96 at 0550 he was up early, watching a video. His attention was attracted by an object in the sky with four brilliant bright lights, with an orangey-red colour pulsing from right to left on each side. He believes that it could have been an FT craft.

AN ANSWER TO THE BRITISH AIRWAYS 'NEAR MISS' ON 5/1/95 has been promised by Eric Morris, Director of the British UFO Studies Centre, in their next issue of the **INTELLIGENCE** magazine, due out in March. "We can prove exactly what this sighting was and we have no fear in publishing our findings at all" states Eric. (*Should be interesting!*).

MYSTERIOUS ILKLEY MOOR TOUR :Sat.22nd March. Ancient & UFO landing sites, etc.Cost £18.-Connect UFO Investigations,5 Stocks Hill,Menston,Ilkley.W.Yorks.LS29 6ND.

"THEY LIED, THEY LIED" shouted schoolgirl (17) Rohan Hilton, after she was abducted by Greys in Chesapeake Bay, Delaware, "They promised they were going to leave me alone and they didn't." *Source: UFO Newsclipping Service, Plumerville, Arkansas.*

THE FIFE LANDING CASE (OVNI Jan.) One of the primary witnesses is not happy about the Quest Magn. story and the other witness will not discuss it. The witnesses claimed to have seen tall and small figures and 'faces' in balls of light, associated with the landed FT, but what actually happened? *David Coleman (SUPR) is pursuing the story and will keep us in touch.*

STOP PRESS: FT over Long Eaton,Notts. on the evening of 4th February. Details follow.

NEXT MEETING

Will take place at the British Legion, Allenton, Derby. at 7.30pm-10pm on **Thurs. 27th Feb.**

"Contact".Video Presentation

An investigation into the Billy Meier UFO photographs and film footage by Wendell Stevens.

Plus a review of 'Flying Triangle' video footage from recent years.

Non-Members welcome. £1.00 admittance

Reports published in the OVNI may be reproduced by other agencies, with due acknowledgement to the Phenomenon Research Association.
