ASTONISHING VIDEO OF A UFO FLYING OVER PRESIDENT BARACK OBAMA'S HISTORIC INAUGURATION HAS APPEARED ON THE INTERNET.

The video, titled 'Filmed by CNN News – UFO at Inauguration of President Barack Hussein Obama' was last night causing a sensation on YouTube.

The video shows a dark object flying past the Washington Monument as nearly two million people gathered to witness America's first black president be sworn into office.

The footage also shows the dispersing crowds at the Capitol after President Obama had made his historic speech. It started a huge discussion with some bloggers suggesting it could be a bird or a UFO.

The photo above is just one frame taken from a short video sequence showing a fast moving unidentified object flying at high speed across Washington from right to left. The film shown originally on CNN news was apparently later mysteriously withdrawn from the public view. However by that time, the film sequence had been copied by an enterprising individual and later appeared on you-tube.

The feature also appeared as a series of single-shot photographs, inviting viewers to give their comments. These ranged from a bird flying across the heads of the crowd to a UFO passing overhead.

Editors Comment: While we do not know what the object was, why should a UFO pass overhead at that particular time or was it en-route to another part of the globe and was not concerned about the human activity taking place beneath?

I have one other theory and this concerns the rumours of top-secret U.S. Military craft having been developed, that are capable of unimaginable speed and have the ability of flying into space by means of anti-gravity drives.

What could be a more inviting scenario than to whip one of these military super-fast craft across the sky, knowing that all the World's media cameras would be focussed on that venue at that time! **What an ideal opportunity to make the other big powers of Russia and China sit up and take notice!**

ANOTHER UFO BEAM REPORT

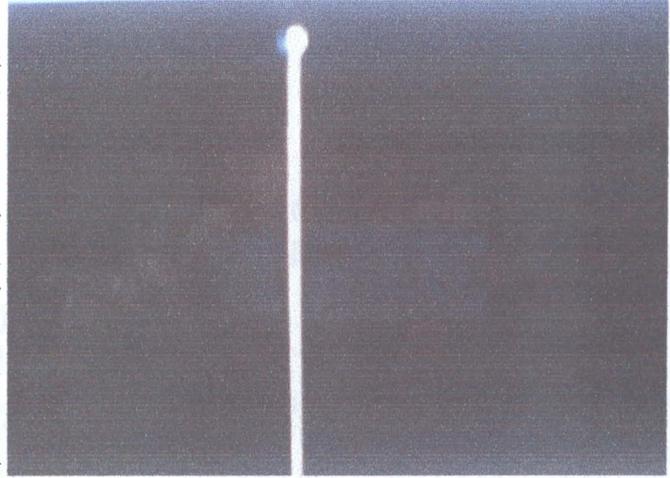

From our colleague Pablo Esteban Mendez in **Argentina**

Once again we have received a report of a UFO craft emitting a beam of light towards the ground, this time not from the UK but from our friend in Argentina. What does it all mean, what is the purpose of the beam, was it an earth probe etc.?

A photograph from the 'Sun' newspaper (6th November 08) taken over Bristol showed a UFO point of light emitting a beam downwards. This was included in the Jan/Feb issue of the OVNI.

An almost identical photo: right, was taken over Rosario, Argentina on 19-12-07. It was also noted that a similar phenomenon had been witnessed near the city of Parana (Argentina) in 1962. It was also mentioned that a similar event had been witnessed in Germany.

We have a report that a similar incident occurred over Borrowash (UK) on the 28th November 08 and this investigation is still ongoing.

UFO Light Over Mansfield, Notts: A Neil Cairns Report.

Wednesday February 11, 2009 at 6.05pm to 6.15pm my friend came over for a chat. We decided to go outside for a fag. As we stood there admiring the stars, he mentioned his previous ufo sightings.

We watched a plane going from the east to the west. Then below it, an orange luminescent ball suddenly appeared, just like switching on a light in the sky! How can I put this, there was nothing there then **bam** there it is.

He looked at me and said "they just look like that, they just come from nowhere." I agreed because I'd seen this myself many times. Rather than fetch the camcorder I decided to stay and watch it, yes you guessed it, it continued to stay in the same spot! We watched this for ten minutes hanging low on the horizon and then it moved slightly further south. Then the object just went out! Just like someone switching off the light! We looked around the horizon, nothing, only the plane twinkling in the distance.

UFO LIGHTS SEEN OVER DAVENTRY, NORTHANTS. 25th JANUARY 09

A family saw a 'strange' light at 8pm on Sunday 25th January, when they stepped out of their car as they arrived at their home in Medway on the Grange, Daventry.

Mrs Potgieter said "We saw this strange light, which was very bright orange, come out of the blue. At first we thought it was a firework but when it came across the sky it looked very strange. It was travelling faster than a plane, but very smoothly and with no sound. Then another one followed and then a third one made an appearance."

"Surprisingly, a fourth one made an appearance as well, we didn't know what to make of it. As they flew over horizontally they seemed to be going higher and higher up. I'm sure they could have been seen from anywhere in Daventry."

PRA member Helen J, Lewis has also experienced a number of sightings of unexplainable red lights in the area. The most recent sighting being on the 17th January 2009 when she described "An object with red and a cluster of lights that were white, with a single red light at the top." Helen at first thought that it may have been a plane, but when a plane appeared shortly afterwards, the lights were no comparison to the lights seen on the earlier object which "flashed twice" as it passed overhead.

© INTENSE 'FT' ACTIVITY OVER LINCOLNSHIRE

A first-hand report from a witness 'GE' near Louth.

I am now 62 years old and expected a quiet retirement with my two dogs, but early September 2008 changed all that!

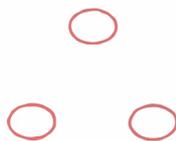

I was walking my dog around 1am, as I was walking I looked up and saw a white ball of light going around in the clouds. I fetched my binoculars and watched the light for about 15 minutes. It was then joined by another ball of light, which came from the coastal direction (East). I carried on watching for several minutes but then lost sight of the lights.

My first UFO sighting was in daylight around 2pm on a Sunday in late November 1999, when I saw a very shiny silver ball at a height of only 150 to 200ft. I noticed what appeared to be gold lines flickering up and down on its surface. Its speed was about 70mph and it made no noise and I watched it until I lost sight of it over some nearby trees. **That sighting was nothing to what I have seen since!**

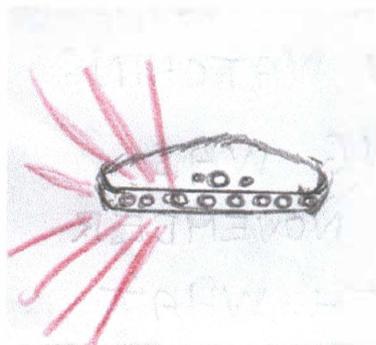

In fact I told the local paper that I must have seen more UFO's and spacecraft than anyone else in the world! I have had four close encounters and have seen some twenty or more UFO's in the air at the same time! How many people can say that!

I watch them at all times, night or morning. They have many lights, the four colours that I have seen are red, orange, yellow and white. Red and white are I believe their navigation lights.

The orange lights that I have seen are like these:

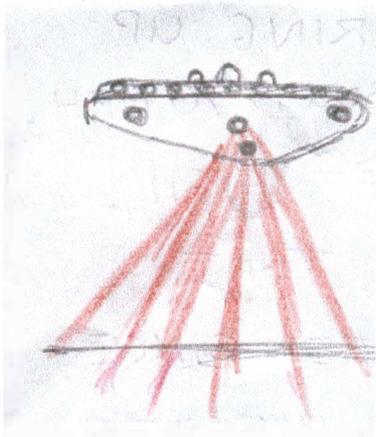

I got within 200 yards from this one, but didn't want to get any closer!

I have seen them flash bright orange lights like this, twice only.

I have seen orange lights four times.

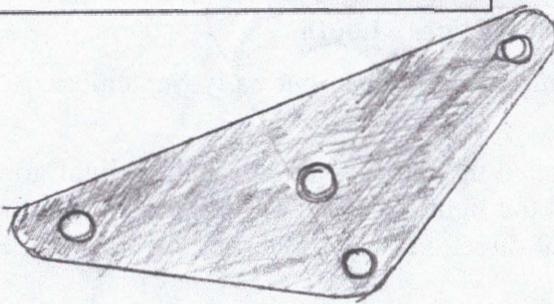

I've seen them flash a bright red light to the ground twice.

I've seen them light up areas of sky and once saw one fly into a cloud and the whole cloud lit up a brilliant white.

Louth FT's continued:

I saw a yellow craft a few nights ago and this really excited me. The yellow was like orange and is not often seen. I watched it floating over a nearby field and then it turned around and came in my direction.

I could see two yellow static lights, then spectacular bright yellow and white flashing lights for about five seconds. It then turned around again and was now going away from me and **I could see its 'searchlight' shining on the trees. I saw it the other night, shining it's 'searchlight' around.** (see the 'searchlight' similarities in a page below from Omar Fowler's booklet 'The Flying Triangle Mystery')*

While driving home from work at 5pm on 3/12/94, Mr Andy' Emmerson, an amateur astronomer noticed a bright light in the sky. He drove to a nearby hill and observed a 'Flying Triangle' approach and hover over the countryside. It then shone a beam of light to the ground. (Obsvd. approx. 1/2 hour: Sutton-in-Ashfield, Notts.)

On the 26th September 1993 at 9.30pm, a huge black 'Flying Triangle' flew low over Bakewell, Derbyshire. It performed several manoeuvres over the town and was seen by numerous witnesses. A van driver travelling in the same direction as the 'Flying Triangle, overtook it while travelling at a speed of 40mph.

© *Louth FT's continued:*

Then while walking around the village a few nights ago, I saw it over the fields with its yellow lights flashing away, it was some sight!

I have seen these ships fully lit up and they look a beautiful sight. One particular night, a 'mega' thing happened. Five of them were very close together and they floated towards and stopped dead in front of me. Were they, I thought, showing me their superb craft?

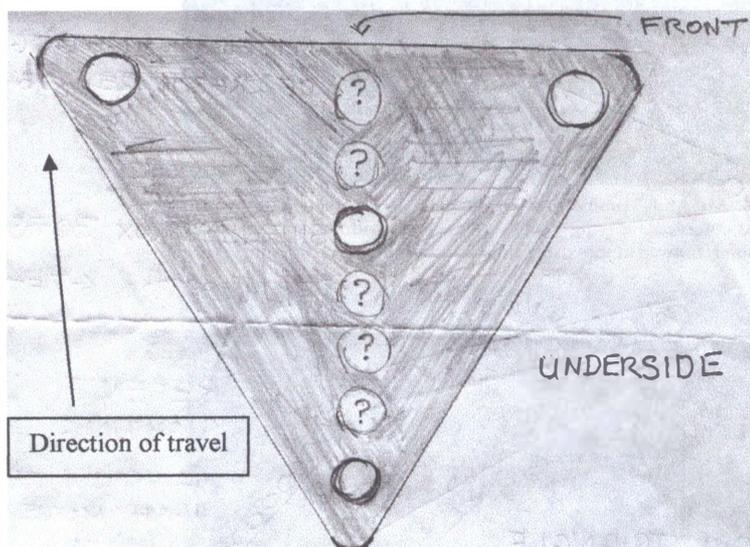

I have to admit that I sometimes get scared out there at night so a lot of what I have seen has been from my windows, which face NW and SE. I have seen many balls of very white light, I used to think this was a different craft, but now I believe it's just got its lights up high and creating this glowing ball effect.

You may have heard about a wind turbine blade which was damaged near Louth. If it was hit by a UFO, then it was done deliberately for some reason. *(A recent BBC news broadcast stated that investigation had shown that the blades had not been hit by any object)*

I once watched a (FT) craft perform aerobatics for three and a half hours one night, from 12 -3.30am on the 25th September 2008. It did a massive loop the loop at speed, it also went way up in the sky then dropped at great speed, then looped upwards again to a great height, it did this many times.

The speed this craft was going, I expected to feel a swish of wind, but I didn't feel anything. I've also seen them go from being stationary to thousands of miles an hour in a fraction of a second, but there was no sonic boom.

I believe that they have mastered the laws of physics, it doesn't seem to apply to them! I really believe that they are here with us all the time, but in daylight hours they are cloaked (with invisibility).

The areas of FT activity are highlighted.

I've seen lights sequence from the back to the front (the lights are white). I have just bought a night-viewer and it is very good at seeing these lights clearly, flashing or blinking.

The only problem is that through the night-time viewer everything appears green.

Just before Christmas (2008) I had my FM radio on and on three occasions I heard very strange sounds, which swamped the station.

Ed: Mr GE's description of the FT's matches our existing knowledge of these craft and he has indicated that he will reveal more details about these incidents shortly.

In view of the intense activity over this area of the East Coast, which has a history of 'Flying Triangle' incidents, it is intended to visit Mr GE in the near future and to visit the area of his FT sightings.

A SIMILAR 'FT' REPORT FROM THE ANDOVER AREA 29th SEPTEMBER 1985

By Omar Fowler

Reports of 'Flying Triangles' shining down a beam of light, as if surveying the local terrain, having been recorded for some years. For your interest, an incident similar to one of those reported by Mr GE has been shown below, together with a sketch of the lights seen at the time.

Report from Miss J.S. (aged 16) and Mr MJO (Aged 18). The incident took place at Charlton, Hants.

Miss JS: I remember looking at my watch at 10pm and thinking we'd better be going soon, then I looked over the field and saw 3 bright orangey/red lights in a sort of triangle shape and one large white light.

I pointed this out to 'Mike' (MJO) and just as he looked over, a tunnel of light from the bright white light 'swished' around from the other side. The tunnel of light was almost like a spotlight, apart from the fact that **no light at all spread out** from this one concentrated tunnel of light.

Whereas everything was foggy and misty, this light seemed to clear the air and make the trees and grass clear and visible!

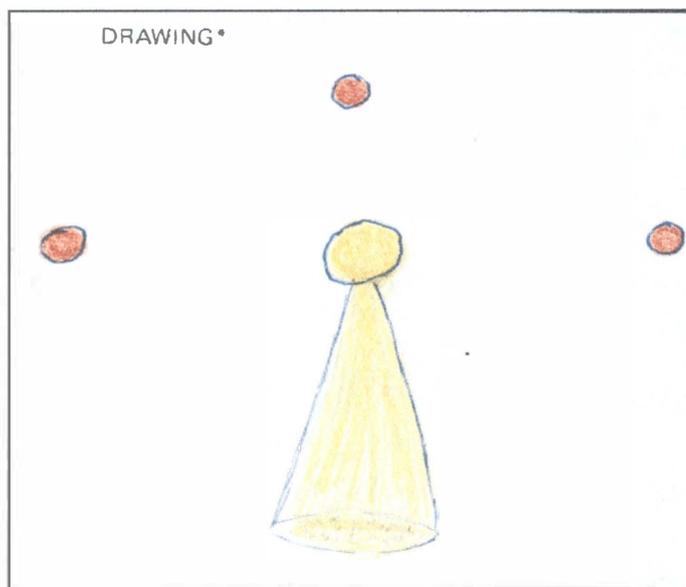

The object (FT) hardly moved the whole time we saw it, although it was slightly hovering (*and moving*) back and forth, making a quiet humming and whirring noise. The tunnel of light was swishing around approximately 7-8 metres in diameter.

Report from Mr MJO:

We were sat down by the Charlton running track when all of a sudden I looked across the field and saw 3 red lights in the shape of a triangle and one bright white spot light in the middle, beaming out and around where it was and it would often beam directly at us both!

We got up and watched it for a few minutes, then it disappeared out of sight behind a tree, although you could still see one of the red lights.

After it went, we ran up to my girlfriends house (Miss J.S.)

Drawing of the lights, made by witness Miss J.S.

Ed.Comment: The reason for the beams of light emitted from below the Flying Triangle craft continue to be something of a mystery, as one would assume that with their advanced technology, a **visual** study of the area below the FT would not be necessary? The case above, reveals for the first time that the 'beam' of light is capable of 'seeing' through fog and could be something more than a visual necessity.

NEW ZEALAND - LATEST UFO NEWS

By Susan Hansen

Date: Saturday 31 January 2009 **Time:** 9.45 pm **Place:** Rototuna North, Hamilton, North Island
Sighting duration: approx. 30 seconds. A very clear night, no wind, moon down on the west/horizon.

The witness was standing in his garden at the rear of his house looking at the night sky. He was facing north east when two bright white lights moving in tandem (formation) caught his attention.

The lights, at this stage, were moving very rapidly on a downward path, and quickly became obscured from his view by a stand of high bushes and a pergola situated at the rear of his section. Still looking in the direction he last saw the lights, and on the point of turning away, he suddenly saw the lights reappear, moving in his direction, above the bushes and pergola. They continued right above him and over the house, heading on a north to south path over the city of Hamilton. The lights now appeared dimmer than their earlier brightness.

As the lights moved towards the witness, and then away from him over the roof of the house, he was able to clearly see that instead of just two lights as initially thought, there were in fact three distinct lights on one large isosceles triangular-shaped object or craft. A light was positioned at the three points of the triangular object. The witness noticed that the underside of the object appeared brown in colour.

He stated, *"The ease of movement with which the craft travelled was quite intriguing. More intriguing however, was the fact that the craft made no noise. No noise emission, of any kind, came from it!"*

"The object exhibited very smooth controlled flight characteristics.

At its lowest point, the object's altitude would have been 300 to 500 ft, however this is purely a guess. It travelled at roughly the speed of a Jumbo jet, when cruising at low altitude. It was finally lost from sight after it passed over the roof of my house."

The witness stated that he has never believed before that UFOs exist, and has had no interest in the subject, however he is now re-thinking these attitudes having witnessed this unconventional object with his own eyes. *"I felt surprise, awe, amazement, and some trepidation."*

UFOCUS NZ comment: Investigation into this sighting is continuing to ascertain approximate height, speed and relative size of the object.

Date: Friday 6 February 2009 **Time:** Approx 10.50 pm **Place:** Observed from Morrinsville, over Mount Te Aroha, North Island

Two witnesses were looking from the township of Morrinsville, in the direction of the township of Te Aroha, which lies at the foot of Mount Te Aroha, at the northern end of the Kaimai Ranges.

They observed two strange lights stationary in the sky over the ranges between the aerial on top of Mount Te Aroha, and the waterfalls to the south of the aerial.

The lights were separated by several kilometers. They described the lights as, *"Extremely big and bright, and pink in colour. They were in the sky slightly above the mountain and were visible for 10-20 seconds,"* after which the lights moved away and downwards behind the ranges (to the Katikati, Bay of Plenty side).

The witnesses stated these lights were not to be confused with the small red light on top of the aerial on Mount Te Aroha.

Continued over page:

NZ UFO's Contd:

Only seconds after this sighting the witnesses looked across the sky and observed 3 small white lights in a **triangular** formation. They described the speed of this formation of lights as similar to the speed of a satellite (quite slow). The lights were heading from the direction of the city of Hamilton, in a northerly direction towards the mountain, where the two bright pink lights were seen.

The witnesses guessed the lights must be 3 aircraft high in the sky travelling close together in formation. They watched the lights for 2-3 minutes until they disappeared from view beyond the ranges where the two pink lights had disappeared.

The witnesses rang the Te Aroha Police Station, and the Operations Manager at Hamilton International Airport, however no explanations were offered. They also rang the Te Aroha Information Centre on Monday, without results.

Having no logical explanation, the witnesses thought the red lights must have been flares, although the lights they observed were much bigger than flares. They also guessed that the triangular formation of white lights must have been military aircraft of some sort, perhaps associated with the two pink 'flares'. However, neither of these explanations seemed adequate. The witnesses stated, "*We would like to know if there is a logical explanation to this bizarre experience. We have never seen anything like it before.*"

UFOCUS NZ comments:

This sighting report was forwarded to UFOCUS NZ from Hamilton International Airport, and we have interviewed the witnesses, although this process is not completed yet.

Hamilton International Airport ATC states that the two pink lights were not aircraft, and nor was the triangular formation of three white lights. The lights were not international, domestic or military aircraft, and it was not a search and rescue operation involving flares and aircraft.

At high altitude, aircraft landing lights would be dim or barely visible, and the lights were headed in the opposite direction from the nearest airport. If the formation of 3 lights had been aircraft landing lights, the lights would no longer be seen by the witnesses as the aircraft passed over and moved away from them.

These lights remained visible until they disappeared from view beyond the mountains, indicating that the lights were likely to have been on the bottom surface of an object, rather than facing forward like aircraft landing lights. Investigation is continuing

Fighter jets scrambled after UFO follows plane over Athens

By Matthew Moore :Telegraph. Last Updated: 9:30AM GMT 10 Feb 2009

With thanks to Peter McCue (PRA)

F-16 fighter jets were scrambled to intercept a UFO seen following a London-bound passenger jet. The object was spotted by the pilot of Olympic Airways flight 266 from Athens, and the sighting was corroborated by staff at Athens Airport and a nearby Greek air force base. Pilots of two other passenger jets also reported seeing the body.

The eyewitnesses described it as looking like a large star, although it was moving erratically and constantly changing shape. Two fighter jets were sent to investigate the sighting over the Greek capital in November 2007 but the object shot up into the sky and vanished before they could get a clear view.

The incident was kept secret by the Greek authorities for more than a year, but is now generating huge interest after official documents and recordings of the conversation between the pilot and control tower were released. An Olympic Airlines spokeswoman said: "I can confirm the incident. It is the first of its kind involving our pilots." Greek officials say that the object, which was not detected on any radar, was probably a mistaken sighting of the planet Venus in the Autumn night sky.

What lies beneath UFOLOGY and the UFO phenomenon?

By Leo Noury (*An Edited article from our PRA Colleague in France*)

The UFO phenomenon has been with us for millennia, but in the last sixty years it has become prominent in the media, the cinema and many different spheres that mould our every day life. After more than fifty years of cover-up by the military, the space agencies, the mainstream press and political circles, the game seems to be changing: at last there seems to be an official consideration of the UFO phenomenon. However, in a system that deliberately lets 10 million people die of hunger every year, that describes the conquest of two sovereign countries as “preventive strikes” and that through the pharmaceutical cartel murders, almost a million people a year in the United States alone, nothing comes without a cost.

This sudden openness in the UFO field is a deliberate attempt by the system to use the UFO phenomenon as a means of control. As I will show in my article, the UFO phenomenon is the best way to control people that are opened minded and that have understood that there is more to life than the five-sense reality. The UFO phenomenon is also an excellent tool to use as the last resort to create a world government if all the other attempts have failed...

To begin with, the controversy over the UFO phenomenon should never have been. It is self evident, given the billions of stars in our galaxy alone and the billions of galaxies in the known Universe that we have been visited and are being visited by many races of extraterrestrial beings. Each of them with their own agenda... Cutting edge science is also acknowledging the existence of a multiple dimension universe. With each dimension or frequency possessing its own inhabitants. Therefore, it is logical to be not only visited by extraterrestrial beings but also by extra dimensional entities. I have spoken through my fifteen years of study of the UFO phenomenon to multiple contactees who confirm that we are being visited by a variety of beings from different origins... Extra dimensional and extraterrestrial.

However, before we go deeper into our subject we must also understand that a lot of UFO's are of terrestrial origin... What we see of our technology is just kids' play to put the masses to sleep. Behind our so-called “democratically elected governments” lies a vast network of secret societies that control both sides of the debate: Right and Left, Democrat and Republican, Socialist and Liberal, Fascist and Communist.

At the top level of these secret societies that are also extremely compartmentalised, the technologies used are in advance of many hundred or even many thousands of years of what is seen. A contactee told me that those secret societies had been mastering for a long time technologies such as human cloning, free energy and even time-travel.

Sounds far fetched... Just study the work of Doctor Judith Wood on the nature of the technology used for the 9/11 attacks.... What is sure is that it was not conventional and extremely in advance for what is even projected by mainstream science.

According to a number of sources, the recent weather and geological tragedies that have occurred around the world are mostly due to exotic weapons used for weather warfare ... The Montauk project that involved time-travel and Alien contact was also the result of those exotic technologies. Behind the secret societies are a number of families that are called the Illuminati, the Serpent Cult.

There is of course a great amount of debunking and false scepticism. There are the closed minded sceptics that even refuse to consider that we are being visited. In France the “Cercle Zététique” and a loud-mouthed astrophysicist represent them.

These people are tools of the Illuminati who want, in order to maintain control, to maintain us prisoner of five-sense reality. Why? Because knowing that the universe is inhabited, is multidimensional and that death is an illusion would make the Illuminati lose part of their grip on the human race. They would stop using cars; petrol and the whole oil industry would collapse.

Humans would also stop fearing death and religion; the strongest control system would fall apart. However, there seems to be a change..... Scepticism is starting to diminish and there is more opened minded attitude towards UFO's. Is this due to the painstaking work of ufologists finally paying or is there something much more sinister beneath? In order to answer this question we must look at the changes happening in Ufology.

: .In 1999, The COMETA report was published in France. A group of senior military officers acknowledged the existence of UFO's and declared that the Extraterrestrial origin was the most likely. However the report stated implicitly that *the Forces of Europe and America should collaborate in case of a UFO threat.*

- In 2001 at Washington DC at the National Press Club was held the disclosure conference. More than 250 military, and black ops personnel spoke out about the existence of UFO's and the fact that the military-industrial complex had been working on the subject for many years. The man behind that project was Steven Greer a physician. We will talk more about his background later on.
- In 1997, the Pocantico conference grouped a number of scientists on the *Rockefeller* domain. They concluded that UFOs where real and deserved study.
- 2005 is held in France, the first European Ufological event in Châlons en Champagne. It receives a fairly important coverage in the mainstream press
- November 2006: a UFO is sighted above the O'Hare Airport in Chicago. Instead of being ridiculed the sighting makes the first page of the Chicago Tribune the most well known paper of the region
- December 2006: The CNES (France's space agency) puts all its archives online.
- November 2007: A conference is held in Washington where military, politicians and pilots officially describe their experiences with UFO's. Among the politicians. Fyfe Symonton Ex -Arizona governor who confessed how he had seen the Phoenix lights in March 1997 and how he had undergone extreme pressure in order to ridicule the mass sighting.
- A NASA official Donna Hare also announced that UFO's are systematically erased from satellite photographs before they are shown to the public.

January 2008: the Japanese Defence Ministers asks parliament how his country will defend itself... In the case of an Alien attack by UFO's

In July 2008, Astronaut Edgar Mitchell announced on FOX News, the Neocon Channel that the American elites were perfectly aware of the presence of aliens and that the whole subject is hidden by the military-industrial cartel.

2008-2009: In France UFO clubs continue to multiply and UFO's are spotted more and more frequently even in the heart of Paris. French national television usually extremely closed minded is preparing a debate on the subject that will be according to a very reliable source rather balanced....The list of changes goes on and on...

So does it mean that the Illuminati and the network of secret societies that control all world "governments" is changing thanks to the work of ufologists and truth seekers... Sadly no. These people are using the UFO phenomenon as a means to advance their agenda... If we look at what lies behind these different UFO events we can see and feel the hand of the Illuminati.

The COMETA staff are according to a prominent researcher, all initiates of a very well known secret society. While this does not mean anything taken in isolation, more than coincidence is involved when this same secret society helped organise and finance the Châlons UFO event.

One must remember that secret societies are tools of the IlluminatiThe Rockefeller family is also considered a major player among the Illuminati.

The COMETA asks for collaboration between European and American armies in order to monitor the UFO phenomenon. When you hear collaboration you have to replace it with fusion and one world army. Fox News and Sky News belong to Rupert Murdoch who is a major tool of the Illuminati. Those two news networks were responsible for the Brainwashing of the British and American public when it was the period of the war in Iraq...

According to a French Ufologist, French Ufology is partly controlled by the defence intelligence agency (USA) and the CIA. Through flattery, division and ego trips, French ufologists are made to abandon their freethinking and follow whatever idea the powers that be want to put forward.

The human race is undergoing a rapid awakening due in part to the fact that we are reaching the end of a 26000 year cosmic cycle. Awakening is what the Illuminati fear the most as it is through our ignorance and our naivety that they have controlled us for millennia. Therefore, the UFO phenomenon, the new age and all those new movements that have been appearing in the last hundred years are tools used by the Illuminati to recapture the people that are awakening.

Man is a divine being of infinite consciousness. We are creative beings that can literally create our own reality. We are everything and nothing, the past, the present, the future. We are all gods of infinite power. The only trouble is... We give our power away to other people: to certain rituals (that are nothing more than knowledge of advanced physics). Hence, the importance of the initiation rituals in secret societies... They literally open a gate between dimensions in order for the people with the correct genetic makeup to become possessed. It sounds outlandish... In my investigations I have come across four reliable people who have witnessed a phenomenon known as shape shifting.

One lady was walking with her baby son to a village library when all of a sudden a strange looking woman with jet-black hair put her hand on the child's stomach. Aghast, the lady looked into the eyes of the strange woman and realised with horror that they were not human!

They had a vertical pupil like that of a snake. The reptile woman then retreated. The lady ran into the library in fear. Inside the building she saw that the librarian was shaking like a leaf. She told the lady she had seen the same snake woman. The whole family of that lady has lived through abductions and sinister contacts with reptilian shaped beings.

Another man (a psychic) reported to me of seeing at a dinner a French diplomat shape-shift into a reptilian form. Nobody else seemed to notice. There are many, many other such cases in the world. It seems that those reptilian aliens have been with us for many thousands of years... They have created through the Illuminati, the system that has entrapped us for centuries. False democracy, fascism, communism, religion that is the world's biggest killer, fake science, barbaric medicine is all the creation of the reptilian entities that control the Illuminati.**

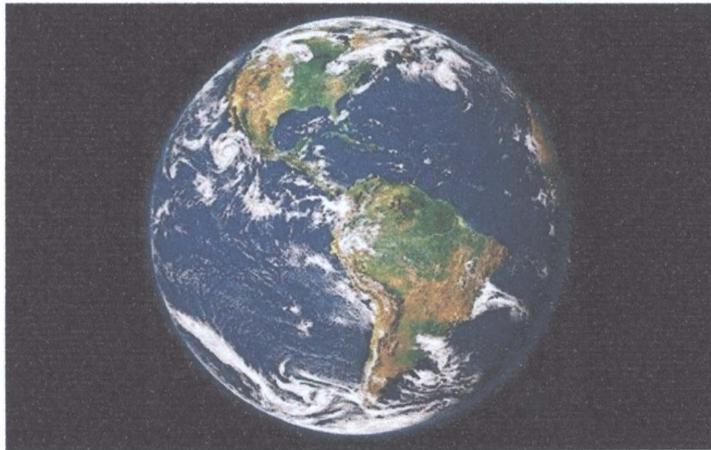

I watch like a hawk all the mass hysteria that is surrounding the so-called "man made global warming" scam. That is why I warn people to be extremely wary about channelled material that says that in the near future aliens will save the earth.

So you see dear reader that there is an extremely sinister side to Ufology and the New Age movement in general. Those two subjects will be used if all other scams to create a one-world government fail (terrorism, global warming...). There is no risk of an alien invasion, as it seems certain that the evil/multidimensional-alien forces have always been amongst us and have created the system that enslaves us. They have created the Illuminati and have always controlled world governments. Yes we are visited by a vast number of extraterrestrial/extra-dimensional races other than the reptilian race most of them more spiritually advanced than we are but they are not gods, just as they are not hostile.

The goal of this article is to show you that Ufology and what looks free is also manipulated by the Illuminati. However we have an extremely powerful weapon: our consciousness that can tell us what is true and what is lies. Therefore everything has to be taken with caution. Our infinite power is at stake.

There could be one hundred billion trillion Earth-like planets in space, making it "inevitable" that extraterrestrial life exists, according to a leading astronomer.

By Richard Alleyne, Science Correspondent in Chicago Last Updated: 12:05PM GMT 15 Feb 2009

Life on Earth used to be thought of as a freak accident that only happened once.

But scientists are now coming to the conclusion that the universe is teeming with living organisms.

The change in thinking has come about because of the new belief there are an abundant number of habitable planets like Earth.

Alan Boss, of the Carnegie Institution in Washington DC, said there could be as many Earths as there are stars in the universe - one hundred billion trillion. Because of this, he believes it is "inevitable" that life must have flourished elsewhere over the billions of years the universe has existed.

"If you have a habitable world and let it evolve for a few billion years then inevitably some sort of life will form on it," said Dr Boss. "It is sort of running an experiment in your refrigerator - turn it off and something will grow in there.

"It would be impossible to stop life growing on these habitable planets."

He believes his views will be proved by NASA's Kepler outer space-based telescope, which takes off in the next three weeks with a mission to track down Earth-like habitable planets.

Within four years Dr Boss, who was speaking at the American Association for the Advancement of Science meeting, believes it will have found one in our galaxy and that will prove his theories about their abundance.

He then would like researchers to build even bigger telescopes and send out an unmanned spacecraft to take photographs of the distant planet that could be up to 30 light years away. It would, however, take at least 2,000 years to report back.

Dr Boss said: "We already know enough now to say that the universe is probably loaded with terrestrial planets similar to the Earth," he says.

"We should expect that there are going to be many planets which are habitable, so probably some are going to be inhabited as well."

Whether the life we find is intelligent is, however, less than inevitable.

"Intelligent life seems to be fleeting," he said. "In terms of the universe it only exists for a fraction of time." He said it would be a massive coincidence for us to find intelligent life that exists at the same time as us. It is more likely to be bacteria or microbes.

"It is unlikely that 'we' will exist for a further 100,000 years," he said.

TAIL ENDERS

SOLAR CYCLE 24 has begun - and it has been predicted by NASA, NOAA and ESA to be up to 50% stronger than its 'record breaking' predecessor Cycle 23 which produced the largest solar flare ever recorded. The Sun will reach its 'apex' (maximum) in late 2011 into 2012.

"I believe it will be the magnetic influence produced by the Sun which will usher in what is described by our ancient ancestors as "the transition" bringing us to a new state-of-being". (Mitch Battros)

WIND TURBINE NEWS: There was a brief mention in a news bulletin last week of the results of tests carried out on the fractured wind turbine blade discovered near Louth, Lincs. (See the last issue of the OVNI). The statement said that tests had shown that the blade had not been hit by any object!

Feb. 6, 1996; Thurso, Quebec At around 7:30 p.m. farmer Louis Boisvert, 19, saw a very large metallic triangular craft with a set of red lights hovering over his barn in Thurso, Quebec while he was ploughing snow with his tractor. This was on the same night that witnesses saw a large triangular vessel hovering over the town of Buckingham, Quebec.

The craft flew very slowly over the barn. The light coming from the triangle did not illuminate the ground or even the roof of the barn. After the craft left Boisvert and his father noticed that their electric water pump was not working. Troubled by recurrent dreams, Boisvert underwent hypnotic regression. He was able to remember, he had hopped off the tractor and ran to the barn where his father was working. He rushed into the barn and saw his father standing there with a blank expression on his face. Besides him stood **two reptilian looking creatures** with long faces, scaly leathery skin, black eyes, clawed hands, and gaunt arms and legs. Both Boisvert and his father were taken onboard the 'FT' by the humanoids and later released. (Source: A.S. Rosales, *Humanoid Contact Database 1996, case #2481 CEIPI*).

****ED.QUESTION:** If the 'Reptilians' apparently already control our world, why are they still carrying out exploration exercises?

ALIEN SPECIES : According to former U.S. Army Sergeant, Clifford Stone, he was at one stage called upon to communicate with a captured Alien being, who was being held in a military facility. The ET had chalk-like grey skin and large black eyes with vertical slits and the two conversed telepathically.

He also stated that 57 different alien species had been catalogued visiting our planet, some of them so bizarre appearing, that you wouldn't recognise them as life forms, while others could pass for humans, he stated. They're able to travel here through wormholes, but arrive outside our atmosphere so as not to cause disturbances such as sonic booms. Source: *Coastzone Newsletter 6th Feb. Wwww.coasttocoast.com*

UFO'S SEEN NEAR SELLAFIELD NPS.

A series of lights that have been spotted flashing over Cumbria have caused a stir with UFO experts. Bright orange flares, which have been described as street lights in the sky, have been seen off the coast of Ravenglass, near Sellafield. In the latest sighting a coastguard said there were two lights together then one veered off. (BBC News 11 February 2009)
