Spiritual Leader Says UFOs Are Astral Phenomena. Paul Twitchell in  
The New Cosmic Star.

The Colorada project is due to fail, for these phenomena, generally believed to be visitors from outer space, are only astral plane entities.

This explains why some persons are able to see flying saucers and other UFOs while others cannot. UFOs consist mainly of astral projections (as explained in my book, "The Tiger's Fang") from that plane, which which resemble physical objects so closely that many who see them call such phenomena visitors from other planets.

People see them, animals are aware of them and while in no sense 'unnatural', they are, of course, being projections, only seemingly real and solid. Flaming engines roar, red and green lights flash and they move with incredible speed...but only in the minds of those who project and receive the images.

Anyone who is a follower of Eckankar is aware of this. They ~~know~~<sup>n</sup> what goes on in these planes beyond the physical universe. Unlike most people, they do not take the UFO experiences at face value, they are acutely aware that 'things are not what they seem.'

Eck travellers are cognizant of the psychic planes above the physical universe, eg the astral, causal, mental, etheric and the soul plane which is the dividing line between the worlds of the heavenly realm and the lower psychic ones.

These lower planes are not actually separated from the physical universe they co-exist with it. The two of them (physical and psychic) exist not alone but relative to one another.

The logical explanation for UFOs is that they are not visitors from outer space, secret developments by any government, nor the result of mass hysteria. They are perfectly natural astral projections of the psychic world.

Ecktravellers who make daily journeys into the other worlds are warned at the start of their training on the inner planes, what to expect from the snares and traps of the psychic powers. UFOs are one of the phenomena objects they will witness, but they are to give them little

attention and process onward to eventually reach the soul or fifth plane, where they will be liberated from all the trials and troubles of the psychic and physical worlds.

The UFO experience is generally a subject one, something like the religious or emotional occurrences.

These two planes often impinge on one another and physical manifestations are also numerous in the astral plane. Many who have never ascended above the physical plane have the intuitive ability to see such manifestations as UFOs. This explains why, when a UFO is sighted, some people in the immediate vicinity will notice it, but not others. There are any number of cases of UFOs appearing over large cities in the daylight hours to be reported by only one or a very few people. In one case, a youth called police to a farm and the two officers saw the UFO rise over the farmland. Horses in a nearby corral were disturbed, but the farmer and his family were unaware of the proceedings. This sort of example could be expanded without limit.

Ezekial saw a 'wheel' not a rocket ship or a flying saucer because in his day the human mind was not able to conceive of such things.

At that period the wheel represented the ultimate in technology. UFOs of the Middle Ages suspiciously resembled air balloons. Those of the late nineteenth century were reported as having gondolas beneath elliptical bodies and their engines went chug-chug, not whoosh.

Those who project the amazingly lifelike UFO images from the astral plane are not actually very spiritually advanced. They can only project what they have heard about, and their imagery is not the best, or they would be aware of and interested in reaching the God plane where total awareness would be found.

Those who do see UFOs generally have a relatively high IQ and possess some clairvoyance which gives them an insight that others do not have. If only they would reach on further it would be found that any Eck spiritual Master would come to their aid and guide them past this phenomenon towards the highest realm of God via the path of Eckankar.

### Spiritism.

The following extract, describing a typical condition of people who seek help from the clergy after having engaged in spiritism, reminds me very much of various UFO cases.

"It was April 9th, 1961 - twelve years ago. I had a big job, a big salary, a big office and a big problem. I had gradually been getting more and more uneasy. I had been searching for God and ignoring Christ. I had found increasing spiritual experiences and I was becoming afraid. I sat at my big desk after lunch and watched my hand pick up a pen and start to write. I didn't want it to - with an effort I could have stopped it for a time. This time it started to write out the name of my "guide" - or was it yet another guide? I was becoming confused. It was a very long name with a lot of letters, and half way through spelling it out I was told we would finish writing it tomorrow. It sounds hilarious now - but it wasn't a bit funny then. I felt that I just couldn't take any more. I had had only snatches of sleep for two months, seemingly continuous "tests" as I lay wide awake in bed whilst whispering voices "prepared" me for the next ordeal to "prove I was worthy of god". I dutifully had submitted myself to all these night after night, and day after day would be told

in a "voice" to go on some meaningless journey or talk to a particular person and "it would be alright".....A force seized my shoulders and thrust me down on to my blotting pad. My chief clerk came in at that moment giving me an even more worried look than ever....."God..." I began weakly. "This isn't God...this is the devil" said the voice inside my mind that I was hearing with increasing disquiet, "and now I'm going to drive you mad.."The chips were down, as Billy Graham says! I could feel the thing inside me moving in for the kill. What an utter fool I had been. I had tried to find God, spurning the beloved Saviour Jesus Christ and had landed myself in the hands of the devil?== like a fly tied up in a spider's web."

Did You Know The Earth Is Putting On Weight? Robert Chapman, Sunday Express. 22.10.72.

Bothered about your waistline? Well even the earth itself is getting fatter. In fact, this planet has been putting on weight ever since the dawn of creation, scientist say.

Every day on its endless journey round the sun the earth sweeps up about 3,000 tons of cosmic dust and debris. This may seem an awful lot, but actually it is infinitesimal compared with earth's basic weight. The amount of new material added to one square mile of our planet's surface is hardly noticeable.

New calculations show, indeed, that over the past 500 million years the earth's mass has increased by less than one-hundredth of one per cent.

But where does the extra "fat" come from? A good deal of it comes from the moon. Indeed, while this planet's girth expands the moon is constantly slimming.

The moon loses hundreds of tons of topsoil a week, according to scientists at America's Cambridge Research Laboratories, Massachusetts. What happens is this. Chunks of rock from outer space constantly bombard the lunar surface. The impact causes "explosions" which hurl clouds of topsoil up high enough to escape from the low lunar gravity and drift earthwards.

For every ton of cosmic material it collects, the moon loses about four tons, but despite this it is not in imminent danger of wasting away. At its present rate of soil loss it would take billions of years for the moon to shrink by as much as one-tenth of its present mass.

#### Space Shots.

Since the first Soviet Sputnik, Russia has made 616 space launchings. The latest to be sent up was reported in the Daily Express, 16.2.73, "Russia launched a high-flying space satellite called Prognoz 3, which will study solar activity."

#### Vitrified Forts.

These are the remains of defensive works, the stones of which have been turned into a hard glass-like material by fire. They are commonest in Scotland, Ireland, France and Germany.
