

TERRESTRIAL ZODIACS NEWSLETTERNo. 1.

This hastily assembled newsletter has been created basically as a giveaway at the Ley Moot of July 2, 1977, and to accompany issue 2 of Ancient Skills & Wisdom Review. In future it is hoped that it will appear as and when sufficient information of interest is available. My hope is that it can be limited to those particularly active in zodiac research. There is no ambition to make it a general publication, but to limit it to those working creatively and consequently its distribution will be minimal. Anyone wishing to contribute articles, comments, or make donations towards the costs of production, the address is: Paul Screeton, 5 Egton Drive, Seaton Carew, Hartlepool, Cleveland, TS25 2AT. To act as a springboard this first issue forms as bibliography, which if not totally complete any other entries which are excluded by default the compiler would gladly like to hear of. This I emphasize is your newsletter as much as mine and its success will depend upon your efforts.

TERRESTRIAL ZODIACS: A BIBLIOGRAPHY.

BOOKS -- either entirely upon the subject or covering aspects:

- Ashe, Geoffrey, "The Finger and the Moon", Panther, 1975. Glastonbury (novel).
 Bord, Janet & Colin, "Mysterious Britain", Paladin, 1974. Glastonbury.

- "Stanley Zodiac Revelation" - Paul Screeton, Journal of Geomancy, Vol. 1, No. 2.
- "The Holderness Zodiac" - Philip Heselton, TLH 25.

In connection with this newsletter I would be pleased if people would be encouraged to seek out the articles mentioned, follow them up, do their own research. This is a highly suspect medium within the earth mysteries and one where expediency is required. Astroarchaeology is won, leys approach respectability, but zodiacs are going to require immenses patience, sensibility, intuition and are going to be a playground for the personalities of all shades. In the future I hope to act as a clearing house for the dissemination of information on the subject. If you wish to utilise this service please remember saes and remember that the quality of future newsletters will be dependent upon your support.
