THE UFOs HAVE LANDED.....

Let it never be said that flying saucers haven't landed. Landings are as easy to find as are sightings. The following are several landing reports picked at random:

*A farmer near Circleville, Ohio found an object resembling a six pointed star on his farm on July 4, 1947. It was 50 inches high, 48 inches in width and weighed about two pounds. The object was said to be similar to those used by the Army Air Force to measure wind velocity.

*On July 11, 1952, Mr. Linke, the mayor of a German City, and his step daughter observed a 50 foot saucer land in the Soviet zone. Two figures in shimmering clothes were close to the craft. When THEY found that they were being observed, the creatures hurriedly entered their craft and dispersed skyward and away.

* Pietro Monguzzi of Italy took a number of photographs of flying saucers and its occupants while in Switzerland. The photos, according to authorities, have been labeled fakes.

* On Sept. 4, 1964, a glowing object was seen over a wooded area near Glassboro, N.J. A possible landing sight was found soon after.

* A UFO landed in a field near Flemington, N.J. on July 30, 1964. The object was described as white and shaped like an egg.

* An industrial worker from Lynchburg, Virginia observed two unlighted UFOs land in a wooded area on Jan. 23, 1965.

* On the night of July 19, 1965 in a suburb of Bahia Blanca, Argentina a small object was seen emerging from a larger UFO and flew towards the earth. The object landed for five minutes then took off and disappeared in the distance.

* On July 30, 1965 a UFO landed in Chanaral, Chile. It remained on a beach for five minutes, then the top shaped object flew away.

CAPRI - THE ROAD TO UFO TECHNOLOGY.....

Many people today are unjustly misled on the belief that a UFO research group nearly is an organization that investigates various sightings and reports as they are turned in. In a very small way this is correct, but there is much more than what meets the eye.

To begin with, an organization such as CAPRI is directed by a very loyal and capable staff of people. Each one of these people have their own special duties to carry out in order to assure the success of the organization.

It is the task of CAPRI to collect and evaluate all UFO reports; To continually correspond with other UFOlogists in order to produce any possible new information; to encourage all our members to submit their own ideas, views and opinions for analysis and/or publication; to speak out and defend ourselves and others like us against those who desire to suppress our work and beliefs; and to publish our work and findings in the form of an OFFICIAL magazine or newsletter in order to release our knowledge to YOU.

This is only the beginning. We must still dig deeper. We must now involve ourselves with the burdening task of an IN-DEPTH study of the sciences. We must study all phases of astrology (study of the universe), geology (study of beneath earth) (uncovering ancient artifacts), chemistry, physics and math in all forms.

We must now consider not only looking beyond our own earth for the UFO solution, but beneath our very feet; in the depths of our oceans; beneath the two poles; and behind the dimension barriers that exist.

There must not be a single stone left unturned in our search for the truth. Any obstacle in our path must be illuminated.

We must investigate into legends and folk lore, ancient civilizations and lost conti-

(cont. next page)

nents, etc. We must study the writings of the bible (which the first "flying wheel" was recorded) in order to DETECT any clues to some of our many unanswered questions as to the origin and purpose of saucers.

Oddly enough, we must investigate and observe politics, racial violence and countries in conflict. We must determine the TRUE reason behind all these decisive movements; who is responsible for the actions of various, so called leaders in these movements?

A short while ago, I received a very interesting letter from Richard S. Shaver, the pioneer for the "hollow earth" theory, explaining some of the possible answers to what I have just stated above.

Many people label Richard Shaver as a kook, or a nut, or a daydreamer because of his outspoken ideas and statements. You should know however, that your editor has the utmost respect for this man. In my estimation through much correspondence with him, I have found that this man is most intelligent and sincere in his work.

If this were a larger magazine, I could fill its pages from cover to cover about this man and his fascinating and vitally important work. Unfortunately this isn't the case, so until our magazine IS bigger I must refrain.

Hopefully, starting with this issue we plan to publish many approaches to the UFO puzzle. We will try and explain our ideas and solutions as best we can. The rest MUST be left up to you. We will merely want to start the wheels and power of the mind in motion. As you know, from all problems came ideas and from ideas came solutions. On the other hand, as the saying goes: "curiosity killed the cat" - we will be most cautious in what must be proven - but rest assured, we WILL prove our final verdict to the secret of the saucers.

Lastly, your editor would appreciate any comments or suggestions you may have. Drop me a line and let me know.....END.....

UFO SIGHTINGS

NOTE: The following two reports were investigated and submitted by Bill Moore, Jr. (Local director of the Mt. Perry, Ohio branch of CAPRI)

OHIO RESIDENTS REPORT UFOs..

Date-March 3, 1968; Sunday evening and all across the state came in reports of UFO sightings. They generally consisted of three objects traveling in a general direction of West to East.

The three objects were flying in a "V" formation. Many people observed these objects, including several Coshocton deputies and two Lickin County deputies.

A report from Akron stated that the lead UFO "appeared" to break up.

A Cincinnati woman said that one UFO "came so low, that I tried to chase it."

Tom McMahon, a resident of Zanesville, had this to say about them: "I SPENT 10 YEARS IN THE AIR FORCE AND KNOW AIRCRAFT WHEN I SEE AIRCRAFT. THIS WAS NO (known) AIRCRAFT."

Another observer said that there were three UFOs, one seemingly leading the others, that had a VERY BRIGHT GLOW.

FOUR POLICEMEN SEE UFO.....

On August 13, 1968 four policemen saw a UFO That left them very much puzzled indeed.

Lt. Robert Williamson, Sgt. Dave Moore, Patrolman Orrin Ross and Ptl. Robert DeBolt were on routine patrol at about 4:30 A.M. when one of them spotted a firey object over the Muskingum County fairgrounds in the Southern skies.

The object was bright red in color, round in shape and seemed to have small streams of fire shooting out from all sides.

Ptl. Ross gave his account of the incident: "We first observed the object and at the time we thought someone had shot up a sky rocket, for it

(cont. next pg.)

(FOUR POLICEMEN..CONT.).....

seemed to be going straight up. We waited, expecting it to explode. Then I noticed that it was not going straight up but it was coming over the horizon and was traveling across the sky, seeming to stay at the same elevation. It was a large ball of fire with a trail of fire following it, and as it came directly over head, it looked as if it was exploding as it traveled, with small balls of fire shooting in all directions. It was very strange to me at the time that there was no noise what so ever. It continued on due north and could be seen until it went into the cloud formation which was due north of us, at the time. Rather than saying that it went INTO a cloud, I should have said that it went ABOVE the clouds.

It seemed to be something that was traveling at a fixed elevation, going in a straight course across the sky.

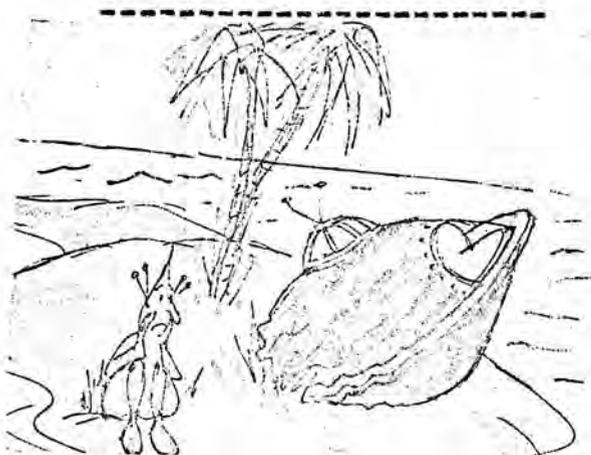

The size of this object was large in comparison with anything I have ever seen in the sky.

The speed at which it traveled was unbelievable when compared with a jet plane.

This object did not come from out of the sky, but rather, traveling down-across the horizon."

The total time elapse of the sighting was only 20 seconds, unfortunately.

All four policemen are employed by the Zanesville, Ohio police department.

It Could Be That UFOs Are Real

WASHINGTON (UPI)—Scientists told Congress Monday there were too many sightings of Unidentified Flying Objects to rule out the possibility that earth might be under surveillance by creatures from outer space. They urged lawmakers to support a thorough investigation.

Dr. Carl Sagan, astronomy professor at Cornell University, said if there are other technical civilizations among the hundreds of billions of stars in the universe, "any random one of them is likely to be vastly ahead of us."

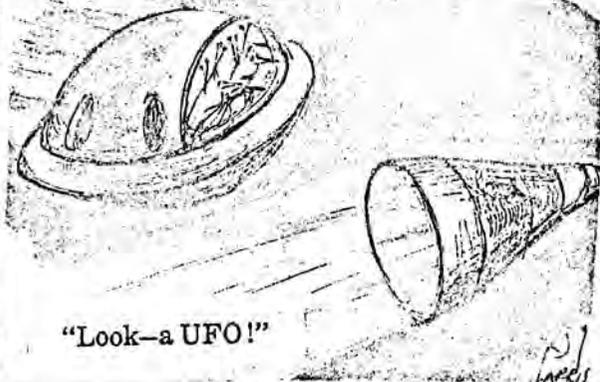

"This is a possibility I take very seriously," said Dr. James E. McDonald, senior physicist with the Institute of Atmospheric Physics at the University of Arizona. "If there is even a chance of surveillance, we should explore it."

Dr. J. Allen Hynek, director of Northwestern University's Dearborn Observatory, said: "My scientific hunch... is that there is scientific pay dirt in the UFO phenomenon."

He urged Congress to establish and support a "UFO board of scientific inquiry" to sponsor a variety of investigations along with an "international clearing house" to correlate reports of UFO sightings from around the world.

The scientists testified at a symposium on UFOs sponsored by the House Committee on Science and Astronautics.

Noting UFO sightings by responsible and skeptical witnesses around the world, McDonald said: "Far too many defy our best analysis."

Military Covers Up UFO Cover-up Story

An Army worker prohibited from publishing an article on unidentified flying objects is protesting in Federal District Court.

Larry Bryant, a civilian, submitted for Defense Department clearance a manuscript entitled "The UFO Cover-up at Langley Air Force Base." The article contends the Base is misinforming the public and Congress. Bryant has no access to military information on UFOs, and he revealed no secrets.

The Defense Department forwarded the article to the Army. The Army refused clearance, saying the article is "critical of a sister service and therefore cannot be cleared on the ground of propriety. . . . In addition, the subject matter as worded in your terms, is highly controversial and the Chief of Staff has recently reiterated his statement . . . that controversial subjects are not to be discussed in public."

On reviewing the decision, the Army's general counsel invited Bryant to resubmit the article through channels. He did. But six months later he was again denied permission to publish on grounds that his statements are "contrary to the authoritative views of the Department of Defense."

Bryant sued. Ten days later the Army notified him the article had been cleared. However, ACLU Attorney Robert H. Kapp does not intend to withdraw the suit until the Army draws up clearance regulations that allow censorship for national security reasons only.

FLYING SAUCERS ARE HOSTILE

By Brad Steiger and Joan Whritenour
(Award Books) Reviewed by Kurt Glemser

This is definitely one of the top books ever written on the specific subject of UFO hostility. It is most startling, as it contains facts showing that some, if not all UFOs are hostile.

The most disturbing case is that of the village of Kirimukuyu being destroyed by saucers. This occurred back only 14 years ago (1954) and to this day there is only one known survivor. According to reports, the city was deliberately attacked and destroyed by a saucer using some sort of RAY.

Other mentioned cases are those of children being burned while observing these saucers; Mysterious and unexplainable plane crashes; Burning of ship crews, etc., etc.

These disturbing facts prove beyond a doubt the existence of saucers and the TRUTH of the title.

The 16 pages of photos are among the best to be found in ANY book. The photos were contributed from the files of August C. Roberts who has one of the best files containing UFO photos.

These photos are not the usual rehash but include the LATEST - UNPUBLISHED PROOF.

The book completely looks at the hostility of saucers from the first chapter, "Patterns of Horror", to the last, "Must we Prepare for a *War of the Worlds*"?

This is one of the most important UFO books ever written and should not be taken lightly nor overlooked by any one.

I recommend this book very highly.

SPECIAL NOTICE AND CHANGE OF POLICY.....

As you, our readers can see, this issue of CAPRI NEWS is quite different and much larger than you are accustomed to seeing. The reason for this is because as of this month (Oct) CAPRI has turned one year old. Therefore, we at headquarters decided to publish this SPECIAL edition.

In the months of August and September we decided NOT to publish our magazine for several reasons: As you see, we moved our Hqts. to a new location in the city; this involved much time and effort. We felt that due to the move, we couldn't bring you an effective magazine as we desired, so we postponed publication in favor of an "accumulated" (3 months) publication which is the one you now hold in your hand. Another reason for postponement was because your editor decided that it was high time we did something about our "routine" publication. The aftermath of that decision is THIS magazine.

(see next pg. for change of policy)

CHANGE OF POLICY -cont. from previous pg.

It is with deepest, sincere regret that your editor wishes to inform you that henceforth we must discontinue our policy of a MONTHLY publication. Temporarily, we will publish CAPRI NEWS on a semi-monthly basis. That is to say, instead of receiving 12 issues per year, you will receive 6 issues instead.

The only reason for this change should be obvious and that is money. There has been a constantly alarming and rising cost in publishing C.N. due to new membership, moving expense, office equipment, postage and mailing services, so on and so forth.

Out of the last 6 issues that were published, your editor was forced to pay for them out of his own pocket in order to keep the CAPRI treasury out of the red. (i.e., correction: 3 issues out of 6 were paid for out of your editors personal funds)

It was the hopes and desire of the staff and management at C.N. that we would remain the ONLY UFO organization in the country publishing a MONTHLY magazine. Unfortunately, we are forced to discontinue this policy due to lack of funds, therefore, as defeated as we may feel we will continue to publish CAPRI NEWS on a semi-monthly basis.

Someday, with a little bit of luck (and money) we may be able to start publishing 12 issues a year again. Until that time, whenever it may be, we will try and bring you the best publication as possible...as usual.

THE CAPRI REPORTS-part I

You are about to read the first of MANY more to come articles that will challenge your mind and expand your trend of thought toward finding a solution to the UFO mysteries. We will attempt to outline and cover subjects that may seem, in some cases, nothing to do with UFOs. But, as you will see, and as we print every new article, more and more each article will seem to tie in to one another. Finally, drawing upon your own conclusions, we may at last know a portion, if not all of the secret of the SAUCERS....ED MINASIAN(pres.-CAPRI)

THE BUMUDA TRIANGLE.....

The Bumuda Triangle is a stretch of water situated between Bumuda, Florida and Puerto Rico, and covers a large area of over 5,000 miles: It is an area in which navigation and radio communications go hay-wire. It is known that radios fade out, and compasses read incorrectly, many ships and planes have vanished in this area without leaving any trace of debris or bodies. During the past 20 years over 1,000 lives have been lost, and not one body has ever been recovered. During August, 1964, two K.C. I35 strato-tanker jets took off from Florida on a refueling exercise over the Atlantic, their crews totaled 11. Their last radioed position was 300 miles WEST of Bumuda, the radio went dead, then they vanished. (note; advise you to get world map and mark all locations I reveal. Mark for clear distinct ion and understanding. For instance, using the "legend" or scales of your map, measure 300 miles west starting from the tip of the Bumuda Islands. Mark this spot with a small flag-stating date, incident(K.C.I35), and number of people lost.) (By doing this, you can see for yourself exactly where this triangle is)

On July 1, 1963, a fishing vessel-"Sno Boy"-with 40 people aboard was reported missing. The area was searched for 10 days by the Navy and Coast Guard before giving up.

1896-FIRST UFO SEEN BY THOUSANDS OVER CALIFORNIA.....

Streetcar driver Shelby Yost was hurrying along his route to make up for lost time when an illuminated "flying saucer" swooped overhead and sped silently toward the horizon. Darkness had just fallen, and the swift object cast a blinding glow over downtown Oakland, California.

As Yost quickly braked his streetcar, the II passengers rushed out to peer into the sky - partly in fright, and partly in wonder.

"I didn't want to admit I'd gone crazy," Yost said, "but for a minute, I thought my senses had deserted me."

It was no wonder Yost questioned his sanity. For the date was November 22, "1896"- 10 YEARS BEFORE THE WRIGHT BROTHERS MADE THEIR FIRST SUCCESSFUL FLIGHT.

What Yost-and thousands of others in Northern California -had seen was one of this country's FIRST reported UFO's.

Five nights before, residents of Sacramento were startled when their city was checkered with bright lights. Many people ran to their windows and saw an "egg-shaped vessel", about 150 feet long with 4 rotor like arms speeding through the sky. A giant light in the crafts belly lit the earth directly below.

Newspapers and officials labeled the sightings as a hoax, illuminated toy balloons, or a flock of birds to which pranksters had attached Chinese lanterns.

Perhaps their doubt was understandable for in 1896, an airplane was yet still a dream.

The majority of witnesses to the sightings were "convinced" that these objects were intelligently controlled.

Now, over 70 years later-the mystery has yet to be solved.

Even in our modern times, the "experts" refuse to believe what they see with their own eyes. I think its time we face reality!!!!

CAN YOU JUST IMAGINE?.....

written by; Sean Wildman
Tres. CAPRI

Project the theory of unified Flying Objects to a hypothetical similar situation in the depths of the oceans.

What do the denizens of the deep think and feel about the deep sea divers, underwater cameras, submarines, diving bells, etc that invade their dark domain?

I can just hear the intelligentsia of the realm saying to one another: "But there CAN'T BE INTELLIGENT LIFE UP THERE! TOO MUCH OXYGEN, NOT ENOUGH WATER, AND ALL THAT SUN LIGHT WOULD PROBABLY KILL THEM. BESIDES, THEY ARE PROBABLY ONLY REFRACTIONS OF LIGHT FROM OUR OWN SYSTEM."

HAVE YOU NOTICED?.....

Have you noticed lately the absence of a star-spangled sky?

Many people are saying "I remember when I was young, that on a clear night, the sky was covered with millions of bright stars."

But where are all these stars today? All you see now are a few scattered stars, and the main well known groups.

IS OUR SOLAR SYSTEM RECEDING FROM THE UNIVERSE?.....think about it....

SCIENTIFIC DISCOVERY(?)

DOMES ON THE MOON.....

On November 22, 1966, the U.S. lunar satellite "Lunar Orbiter 2" took pictures of the moon. When the pictures were relayed back to earth, strange spires which were never seen previously were discovered.

A NASA spokesman said that the 750 by 550 foot area photographed by lunar-2 had six protuberances, estimated at 40 and 75 feet high and about 50 feet wide at their bases.

A scientist at Jet Propulsion Labs in California said that one of the Spires looked like the George Washington Monument.

On Jan. 13, 1967, 33 new pictures from Lunar 2 were released in Washington. One photo which covers an area of "THOUSANDS of SQUARE MILES", shows a remarkable array of "domes" which appear to be 1,000 to 1500 feet high and 2 to ten "miles" in diameter.

Such domes and antenna would seem to indicate the presence of intelligent life at work on the surface of our own moon.
