MORE ABOUT HYPNOSIS

Hypnosis is a very strange thing at times. It carries people forward and backward in time.

As it is with everything, there are two sides to every story. Some say that one who is hypnotized can recall his early life in school, at home, or at most any time or place. They also say that one can recall a former life. This, of course, is still a matter of controversy. None who have recalled a former life can be relied upon very heavily. It has not been proven sufficiently as yet. The story of Bridey Murphy seems unscund. But yet, it could be true that she did have a former life in Ireland. And then on the other hand, some of the doctors say that it wasn't a former life at all, but she was just recalling what she had heard from her family and friends when she was just a little girl. So we can't say that her story is fiction or non fiction.

Another argument, is that one is not able to do anything immoral or indecent while under

hypnosis if they would not do so otherwise. Some magazines I have read have stated this. These magazines state that they have noted doctors to back them up.

ANOTHER VIEW ON TELEPATHY

Telepathy has much to do with flying saucers. In comparison, we are as primitive in this as we are to the people in the saucers. They communicate in this way, where we use our vocal cords. Although these people do have a language, telepathy is a master and better way to communicate. This telepathy business is a seemingly difficult art, and at times, seems almost impossible. But it is not completely impossible to master this art. It requires extreme concentration on the part of the sender and the receiver. I believe that if more people could master this art we would have contacts, not only

physical ones, but mental ones. Many colleges offer a course in mental telepathy.

WE DO POSSESS MENTAL TELEPATHY

Each one of us has already used and still has mental telepathy. Although we hardly use or realize we use it, it is still there. Have you ever received a message that seems to just pop into your mind? And then later you find it really did happen? No doubt, we all have. When I was at the age of six or seven, I remember I was watering the garden. I received a message (I did not know at the time it was telepathy) that we were going to get a phone call. My aunt was to say "come up and see our new colt. It was born while the mother was being slaughtered." About five minutes after receiving this message in my mind, the phone rang and everything went exactly as I received it. Indeed this was telepathy.

SMALL EXPERIMENTS TO TRY WITH TELEPATHY

Go in a somewhat dark room where it is quiet. Have a friend sit about twenty feet from you and concentrate intently on a number from one to ten or on a letter in the alphabet. Tell him to try to picture the figure or letter in his mind. Meanwhile, cover your eyes with your hands try to let the thought of your friend be conveyed to you without distraction. That is do not think of anything yourself. This has worked with many people. Twelve percent of the time, with an average person, you will receive the message. Try your best and drop us a line.

MARS

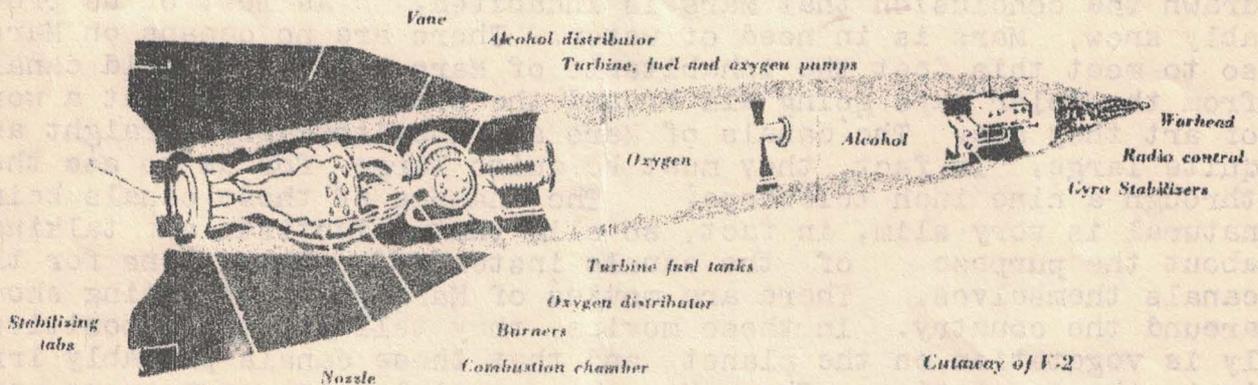

I have read many different books on the subject of Mars. And through reading these books and reports I hear from others. I have drawn the conclusion that Mars is inhabited. As most of us probably know, Mars is in need of water. There are no oceans on Mars, so to meet this feat the inhabitants of Mars had to build canals from the polar caps going all around the planet. And what a work of art they are. The canals of Mars are unbelievably straight and quite large. In fact, they must be quite large for us to see them through a nine inch telescope. The chances of these canals being natural is very slim, in fact, so slim that scientists are talking about the purpose of the canals instead of explanations for the canals themselves. There are movies of Mars which are being shown around the country. In these movies, they tell you there positively is vegetation on the planet and that these canals probably irrigate the vegetation. There have been articles in newspapers many times about Mars. One of these articles is in the last issue of COSMIC NEWS. (Note: The title of the article in the last issue of COSMIC NEWS was "AFRAID TO ADMIT THEY'RE MORE ADVANCED?").

Another fact that helps establish there is intelligent life on Mars is that saucer sightings reach their all-high during the period Mars is situated closest to the Earth. In Cuyahoga Falls, Ohio

This is a Leonard G. Cramp Scout Saucer.

This is a cut-a-way of the German V-2 rocket, which is still, after 15 years, one of the finest rockets in the world. Its fuel consumption is fantastic, 265 pounds per second.

We hear by way of the grape vine, that a U.F.O. was hit by a U.S. army 'Nike' a few weeks ago. Could this account for the sudden decline in sightings in this area of the world?

Attention all amateur astronomers! This Fall Mars will come the closest it has ever come to the Earth. So polish your telescopes for the big season ahead. If you miss out, your grand children's great grand children might regret it.

Barker speaks
in Cleveland

by Roger Pierce

Gray Barker, author of the book, "They Knew Too Much About Flying Saucers", spoke in Cleveland's--WHK Radio Auditorium July 12, 1956.

Mr. Barker spoke mostly about the monster at Flatwoods and the three men who shut up Mr. Bender, head of the International Flying Saucer Bureau which was forced to shut down. He also autographed copies of his book, and the very popular and highly recommended "Saucerian Review". The lecture lasted over an hour, but Mr. Barker was occupied for two hours after his lecture with the audience and the press, in the lobby.

"Your books are selling like hot cakes", said the branch manager of Cleveland's largest book store, to Gray Barker. "We are clean out of 'em, and have ordered more for the middle of the month". This is not only so in Cleveland, but other cities. Barkers book, which came out in May is already in its second printing.

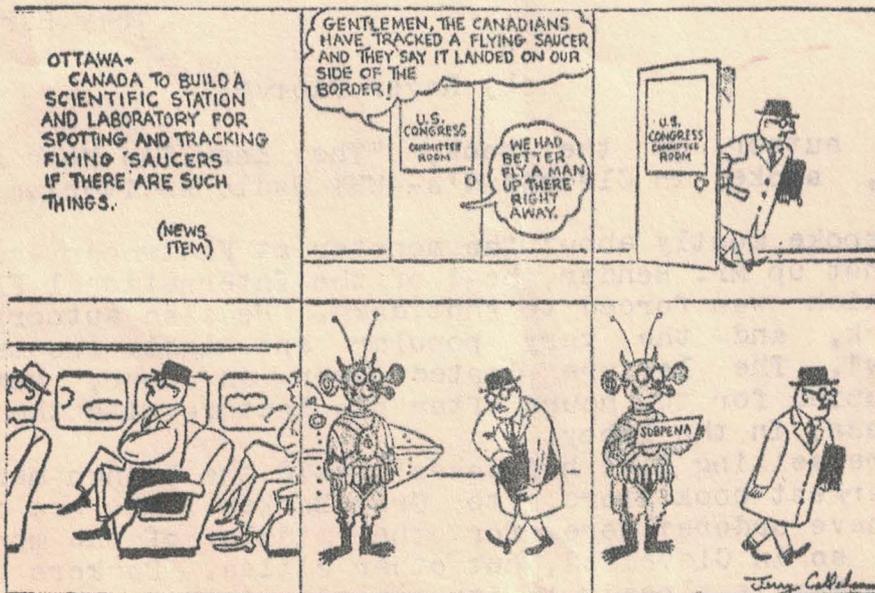

In case you want to write Mr. Barker, his address is--Box 2228, Clarksburg, West Va.

C O S M I T O O N

Theodore M. Telsch

there is a group that watches the skies almost any time they can. During 1954 when Mars was quite close to the Earth, there were uncountable sightings of saucers. In fact, if it were not for Mars being close at that time, COSMIC NEWS may have never existed. Because on September 20, 1954 Mr. Pierce and I had the best sighting of flying saucers that we have had together since then. Mr. Pierce has had a better one alone since that time. Flying saucers have also been seen through telescopes heading towards Mars.

Mount Palomar is supposed to have nice, close pictures of Mars. I have read in magazines where Mount Palomar has discovered four planets around the nearest star to our system Alpha Santory. If they can see planets around Alpha Santory, they can surely see Mars quite close. And if they can see Mars, imagine how close they can see the Moon.

You will be missing something if you don't have a telescope this year. Mars will be closer to the Earth this September than it has been in 15 years. It will be only 32,000,000 miles away. It would be also wise to equip yourself with cameras in case you have a saucer sighting. If you do get a picture of a saucer, develop it yourself, or have a friend do it. If you send the pictures to a film developing company, you may never lay eyes on them again. Also study up on how to take pictures at night, since most of you work during the day and will not have time to observe the skies until dark.

If you do have a saucer sighting, report it immediately to us and we will send you an 8 page questionnaire. These questionnaires might develop a pattern in which we can study UFO's more thoroughly.

In the following I am quoting out of the "Popular Science" magazine from an article entitled, "DOES ANYBODY LIVE ON MARS?" "Their being drawn with absolute geometrical precision, as if the work of rule or compass, has led some to see in them the work of intelligent human beings, inhabitants of the planet." (Ed.--Could natural forces have made the canals with such precision? I am quite sure most of you will agree with me, "NO".) "What Palomar will tell us is anybody's guess, but many scientists believe that the canals are the last remnants of a great civilization that will make ours look puny." (Ed.--To the men who wrote this article, I prescribe a documented study of the UFO. If one will notice when Mars is close, saucers are flying. NO, Mars is a far from dead planet. Astronomers know it, why else would they keep close pictures of Mars a secret?

Roy H. Neuberger

WHY SAUCERS EXIST

ATTENTION: THIS IS NOT A COMPLETE ARTICLE, BUT IT BRINGS UP VITAL POINTS.

If there were no such things as flying saucers, the Airforce would not be chasing saucers with their aircraft, (On July 17, 1956 in Cuyahoga Falls, Ohio is the latest case of a Jet chasing a UFO that we presently know of at C.N. Headquarters. The Airforce probably classifies this top secret, it is no longer a secret.) Movies or plays on TV would not be shown especially with the actors wearing Airforce uniforms, that is, in movies and plays about flying saucers. Because to wear uniforms such as they did, it would have to be cleared by the Airforce.

(Continued on page 10).

(The Kraft Television Playhouse had a very excellent play about saucers. To those of you who saw the play, it would be helpful and encouraging to the people who put on the play if you would write them telling them how much you enjoyed it. Then they will probably put on similar plays in the future. Whether we know it or not, high officials are studying public reaction to these plays and movies about saucers.) Movies like, "Unidentified Flying Objects" would not be showing all over the country if there were not such things as flying saucers. It is an excellent, well documented movie, don't miss it! In the following are some quotes we heard while we attended this movie while playing in the Cleveland area. Please understand, these quotes are from people who never stop to think about flying saucers.

The crowd acted comical toward the movie at first, they had plenty of laughs and jokes. Here are a few quotes, "Film is authentic!" Movie shows to what extent business men went in advertising their products using flying saucers. (Crowd roars.) Film tells where saucers have been seen, they mentioned Ohio, and since this film was showing in Ohio, they thought it was quite funny. Now we're in a more serious part of the film. (Notice how serious the skeptics get.) "Trained", "Huh!", "Holy!". The Airforce's former project Grudge was mentioned, and also the description a pilot gave of a saucer. (Crowd laughs.)

(The crowd now gets serious, we're now at the end of the movie.) "Will they land?", "There not illusions!", "Hmmm."

The crowds reaction was mentioned in this paper because it is interesting to see how real skeptics take something they don't think about every day. That is, those who even bother to go to the movie. Many people purposely do not go to see this movie, you will understand why after this quote while the previews were being shown before this movie came to Cleveland. "I'm scared, I don't want to see something that might be real." The Utah Pictures, and also the famous Montana films are shown in the movie. If you will recall, in the first issue of COSMIC NEWS we mentioned these films would prove saucers exist. It does, people do not realize what they are watching. The Airforce classified these films top secret not too long ago.

DO NOT READ THIS ARTICLE

Did you ever stop to think about these men who claim saucers are Earth-made could well be members of the Silence Group? Would it not be wise for them to claim saucers are Earth-made just so when some body does come along with proof of their real origin, they could silence them. Do not their tactics seem strange who claim saucers are Earth-made? As most of us probably know if there are such things as Earth-made saucers (really just a new jet plane), they would make noise. They would not go over 2000 m.p.h. Saucers from outer space go from 70,000 m.p.h. up into the millions. (See Flying Saucer chart made by Mr. Keziah, 916 S. 21st, Arlington, Va. The chart is an excellent piece of work. \$1.00 per chart.) For those who would like to explain away the Earth-made explanation, please read "THE UFO AND THE BIBLE" by M. K. Jessup, the books of Charles Fort, The Bible and many of the articles in this publication.

Roy H. Neuberger

Does it not seem strange that when you hear the distance of Mars or Venus as told from the Earth, it always seems to be a million miles more or less? What if the top scientists stated the almost precise distances. How would they get to know the exact number of miles? As most of us are probably thinking, they would not dare to do so, because if they did tell the exact number of miles, it would lead people to believe the saucers are real, since the only real way of knowing the exact distances of the planets would be through the saucers.

Roy H. Neuberger

ALIENS IN THE UNITED STATES

According to different sources, there are 12,000 aliens not born on this planet living here among us. Their names are said to be listed on F.B.I. files. Hadn't we better start watching our neighbors?--(NOT MEANT TO BE A JOKE)

SAUCERS FROM THE FOURTH DIMENSION

It is being considered quite seriously now that at least a small percentage of the saucers come from the fourth dimension. It would explain why they suddenly disappear, and why saucers are detected on radar but are not visible to the eye.

The fourth dimension is thought by many to be a different plain of time. Maybe the saucers that we can not see with our eyes, but only by radar are part way in the past, but are still able to be detected in our world.

I HAVE SEEN THE DEVIL IN A SAUCER!

by

William C. Lamb

I have seen the devil in a saucer (Published in the "Saucerian") drop out of a saucer and materialize as a spiritual phantomic being 8 feet high. I have seen 3 other landings by saucer personnel, recognized as spiritual beings.

The devil is very cute in his materialistic operations, and tried to dupe me, but he didn't make it.

Satan has a franchise on this planet and won't let inhabitants of other worlds come here and "mess things up", in his great controversy with Christ, over righteous Christians in this world. He's smart!

EX-PRESIDENT TRUMAN'S PLANE HIT BY U.F.O.

The following news item was heard on Saturday, midnight, July 21, 1956. But for some reason it never hit the papers. Unless there has been government censorship on the affair. Maybe the people who saw the object that hit the transport are by now firm saucer believers. The government doesn't like people that believe in fly-

ing saucers.

EARTHMEN ALLOWED ON THE MOON?

Will the saucer people on the Moon let those of us who are citizens of this planet land and set up scientific laboratories on the Moon? For the most part, they most probably will, if we go their with peaceful intentions. But, if we do not change our way of living, I doubt whether we will be allowed to construct things on the face of the Moon. Take all the plans and long hours put in by our scientists, would it not be a catastrophe if all these plans were in vain like Hitler's plans for Germany?

So those of us who are citizens of this planet should have learned our lesson. That is, those of us who go to the Moon will have to change their every day outlook.

Roy H. Neuberger

SAUCER ENTHUSIASM

When a person does have a saucer sighting they usually are very enthusiastic. But, there is a way for a person who has seen saucers to know whether the people who claim to have seen them really did. And that is, the person who claims to have seen them should be enthusiastic about saucers from then on. If one is not, that is a sign that this person never did really have a sighting.

Roy H. Neuberger

MR. LAMB OF NEWCASTLE, WYOMING CLAIMS HE HAS HAD OVER 100 SAUCER SIGHTINGS.

Mr. Lamb of Newcastle, Wyoming, says he has had about 100 saucer sightings since February 22, 1922. Mr. Lamb says he started contacting saucer phenomena since February 22, 1922 and has had saucer sightings ever since that time. The most interesting of his sightings was when a saucer 30 feet in diameter came down between the house and the barn, it was raining "pitch forks" at the time it came. This saucer stopped for five seconds, and then went right towards the window Mr. Lamb was sitting by at the time. When it came quite close to the window, the flames from under the object came billowing at the glass of the window. "This object was so hot that it scorched leaves off trees 80 feet in distance". And remember, at this time it was raining very heavily. Imagine the great temperature of this object! The total area this object "electrified" was one hundred feet in a circle. (Note: Scout Master in Florida Woods.)

Mr. Lamb noticed no top fixture on the saucer like Adamski's photographs in his book "Flying Saucers Have Landed". But we must remember there are countless shapes and sizes of these craft. Mr. Lamb has seen formations of 2, 5 and 7 saucers seen with 12 other people. He has also seen 3 saucers chasing a U.S. Bomber. The bomber was traveling at 300 miles per hour, the saucers stayed around the bomber and disappeared. What were they? Who were the inhabitants of

(Continued on page 13.)

this object? Mr. Lamb believes that Satan (the devil) was the operator of these craft. Who knows?

We hope Mr. Lamb will make a detailed report of these sightings so that we can present them in a more complete form. Undoubtedly, most of us would like to know more about each individual sighting.

UFO AND THE BIBLE

by

M. K. Jessup

The "UFO AND THE BIBLE" is the long awaited book based on 3000 letters of inquiry from the public. This book basically deals with the thirteenth chapter of Mark. Many of us think that we know so much about the Bible, and yet, we do not. Nobody knows everything there is to know. Many of the interesting things that will be answered in this book are, why did Jesus tell three of his disciples to come in a corner with him away from the others? Could it be Jesus had something that would be utterly fantastic in that day? Was Jesus an informer from outer space?

Mr. Jessup goes through the thirteenth chapter of Mark thoroughly, he covers almost all angles, some of the conclusions a person will come up with will be, all the happenings of the prophecies from the Bible have come true and have happened.

Mr. Jessup's book will not only make you more educated towards the things in the Bible, but will also throw faith and light on the saucers. One will come up with the following conclusion, saucers are nothing new, in fact, they are very old, the name is just new.

In the following I will give the title of the chapter, and will give a quote from each. 'The Age of Belief', "Although philosophers may have discussed the nature of God, of Man, and of Existence with a fervor seldom, if ever, equalled, they did so with a peculiar blindness and a phenomenal lopsidedness". 'The Age of Adventure', "Heads have rolled on blood-spattered blocks, and chains may have rattled weakly in infested dungeons, but the echoes wondered why?" 'The Age of Reason', "The conflict has been between Science and Church, not between Science and Religion". 'The Age of Enlightenment', "Thinkers had more and more knowledge on which to base hypotheses and speculation". 'The Age of Ideology', "The mind of Man was leaving its convalescent stage, after the shock of the great catastrophe which all but wiped out the previous surge of civilization". 'The Age of Analysis', "Our future welfare, and perhaps our very existence depends on a reappraisal. Will it come in time to save us?" 'Something New Must Be Added', "But Science, the organization, is following inexorably in the footsteps of Church". 'The UFO', "Chief and most authoritative source for this information is the Holy Bible of Christianity. This inspired book is a treasure house of UFO data, but it has never been properly interpreted because of a failure of both major schools of thought to visualize the underlying background: The surrounding stratum of the ubiquitous Unidentified Flying Objects". 'A New School of Thought', "There is little room for selfishness in the quest for truth". 'The Hidden Books', "4. Presently... Adam said: 'That light is the author of everlasting light who hath promised to translate (transport) us to everlasting light. (To space, where there is no night?)" 'The Divine Communications of Emanuel Swedenborg', "Many times he was transported to other regions of space, and always

(Continued on page 14.)

in company with being from other planets or other realms of existence".
 'The Ascensions', "The ascension of Christ into the sky (Heaven) is the best known example of such "translation," and is an integral part of the resurrection story, or central miracle of Christianity". 'Hints From The Prophets', "Isaiah 60:8:..,who are these that fly as a cloud?" 'Moses and Charles Fort', "Exodus 13:21 And the Lord went before them by day in a pillar of cloud... and by night in a pillar of fire...(What better description of the intelligently guided UFO?" 'The Bible', "And other sheep have I, which are not of this fold: Them also, I must bring, and they shall hear my voice, and there shall be one fold and one voice". (Ed.C.N.--'sheep--humans?' 'Fold--other planets?') 'The Gospel According To St. Mark: Chapter 13', "But take ye heed: Behold, I have foretold you all things". (Ed.C.N.--'All things', does this mean the secret of the saucers is almost thoroughly foretold in the Bible?") 'Impermanence of Man's Works', "Mark 13:4: Tell us, when shall these things be? And what shall be the sign when all these things shall be fulfilled? Jessup--These are questions which we are still asking today. What are the signs? Are the signs apparent today? Many wise people think so". 'The Portents', "Even the "divers places" would have been incomprehensible to Jesus's listeners, whereas, to us they are obvious: Hiroshima, Nagasaki, Eniwetok, New Mexico, Sibera, Australia...all "divers"; as good a word as any. 'Personal Travails and Admonitions', "Is this, then, a proven link between man and some superior group of entities?" 'Omens, Milestones And Betrayal', "The time is now, and we are the occupants of that niche of time". 'Destruction Overtakes', "But I believe that in our day there are readers who understand; and until our day that there was no reader who could understand". 'Heavenly Intervention', "Or the two possibilities, Christ's prediction, terse though it may be, does, perhaps, slightly indicate the geological or seismic spasm. But what did Daniel say about this abomination? Is his prophesy more specific? It may be. We shall consider it by and by". 'Be Ye Not Deceived', "First of all, in the time of the Apostles, there was no "zero" year, or starting point for designating time. Only the Maya Indians, supposedly a direct colonial offspring of a great Maya race on the continent of Mu, had developed a zero, or starting point for a calendar". 'In The Wake of Disaster', "And the powers that are in Heaven shall be shaken". 'UFO--And the Son of Man', "Coming in the clouds."--'Have you seen a better characterization of UFO?" 'Rescue by UFO', "Almost without doubt Christ had such communication with the Masters in "Heaven". 'You And the Fig Tree--The Time', "We do not know how immediately this is. Jesus says the disaster will be even "at the doors"...It is still unclear to us". (Ed.C.N.--Could the doors be at a time like now, where we are just at the doors of outer space?) 'Knoweth No Man--But the Father', "We may have confused two "Heavens". 'Son of Man--His UFO', "There is much to show that Jesus was speaking literally when he used the term "Son of Man". 'Prophecy Complete', "Mark, chapter 13:36: "For, lest coming suddenly, he find you sleeping".--And Jesus has said that the Master will return to His house when the going becomes toughest, when disaster has struck."

The "UFO AND THE BIBLE" is the best book I have so far read on the history of the Biblical UFO. It would not do much harm for the person who is just interested in the modern UFO to read this book. This book in itself explains away the idea that saucers are made by

THIS YEAR IS REALLY----2056!

Why? Because when Christ was born there was a star known as the star of Bethlehem. This star was not just one star, in fact it was three different stars that come together every two thousand years. The last time this star appeared was in 1855, really 1955 if we schedule the years as they should be scheduled. Astronomers will tell you the same. An astronomer will tell you that there is no other way better than to measure time by the stars. What happened to that uncounted 100 years?

COMMENTS AT A LECTURE

After the speaker had given the lecture and the people were in small groups in the lobby, there was a comment made that their were saucer sightings in World War II in 1943 along the California Coast. Objects which looked like balloons, but were not, began landing inland (One will recall, although it was not widely publicized, the Japanese did bombard the California coast lines, and at times did land on the coast, although they did not get far. Ask any Californian who lived on the coastal area of California during the war. They will tell you what is in this article, and probably plenty more. It is quite evident, the government did not want this known too widely at the time.) These objects which landed way behind lines were no known craft or vehicle of the area. They probably were flying saucers, a new name for an old dog.

Roy H. Neuberger

WHY IS IT SO PEACEFUL AT THE SOUTH POLE?

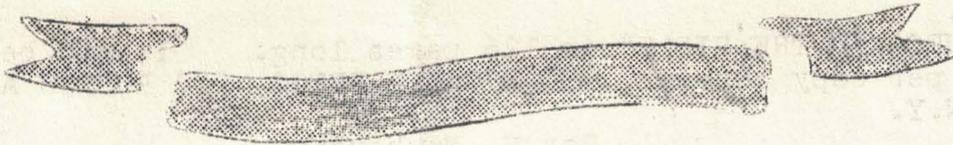

If one will realize, there have not been too many articles about the expedition to the Antarctic in the papers lately. Why is it that the Soviet Union and the United States and other countries get along so peaceful there without any trouble? We never hear of trouble in that area. Could it be that that is where they communicate with the occupants of the saucers?

Roy H. Neuberger

IT IS JUST THE PUBLIC THAT DOES NOT BELIEVE IN FLYING SAUCERS.

Whether we realize it or not, it is not the officials that do not believe in saucers, but it is the large percentage of the public. Would it not be a shock for those who do not believe in them to be told by officials the saucers are here, and are real, and have been here for hundreds of years. WELL, the public had better prepare themselves, because one of these days in the near future, this is just liable to happen!
