National Investigations Committee On Aerial Phenomena
1536 Connecticut Ave.
Washington 6, D.C.

Dear fellow Investigators:

We at Cosmic News have, in the past, done much correspondence with you. Even called you on the phone.

Would it be possible for us to further show our interest in your organization, by inserting a 2" ad in a future issue of Cosmic News for exchange of an associate membership? Your ad will reach 700 interested people.

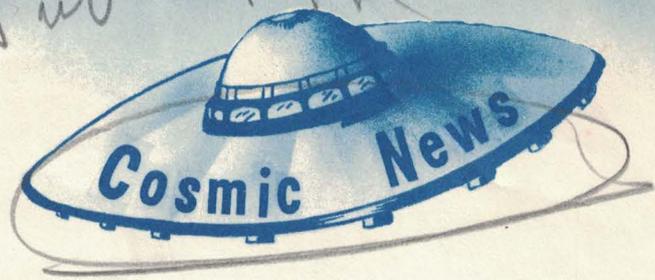

Thankyou for the interesting literature we received a few days ago. We think that you are here to stay.

Thankyou sincerely,
Roger Pierce

TO ALL SUBSCRIBERS -

Dear Subscribers:

The U.F.O. HOTWIRE will take the place of the old Cosmic News. Because of this, there will have to be adjustments as to the number of issues you will have coming. This is due to the fact that the new rate is \$2.00 for six issues.

For some of you renewals will be coming up soon. When they do, you will receive a renewal slip and an addressed envelope for you to enclose your remittance in, if any.

The new U.F.O. HOTWIRE will be un-scheduled, but published often according to the amount of news that is available. We feel that by doing this you won't be paying money for news that is not available because "We had to meet the schedule."

A PROMISE OF GOOD SERVICE IN THE FUTURE.

Sincerely yours,

Roger Pierce
