It has been said by some U.F.O. publications that the case of Bridey Murphy has nothing to do with flying saucers. Ask yourself this question, "Does the case of Bridey Murphy support Adamski and Angelucci's claims?" Most probably you will come up with the answer 'it does' so it is not so far from the field of flying saucers after all. It is rumored that the case of Bridey Murphy is a hoax. I do not believe the people involved in the Bridey Murphy case perpetrated a hoax, but actually presented it to the public in good faith. Some people say the case of Bridey Murphy has no Christian basis to it. Here I shall try to explain why the case of Bridey Murphy is not away from Christianity.

1. When heaven is spoken of in the Bible as when Jesus ascended into heaven, The Acts of the Apostles, Chapter 1, verses 9-12, you will notice Christ ascended on a cloud, one of the uses for the word saucer, and He shall return in the same way. Heaven was pointed out to be in the heavens, where the stars are. This is the place that was made for us. Now, it is believed by most people that they go to heaven after they die which is true. New Jerusalem, Revelation, Chapter 21, is a civilization in outer space with buildings beyond all 'mans' dreams of which Jesus spoke. This is the place where the righteous and the good on Earth will go. The remaining part of people just on our planet Earth, ("Exile Planet") will be reborn into what is said to be Hell. Note: "Lucifer," "Many Mansions." This could well be the symbol of another life on Earth known as the second death, Revelation, Chapter 20, verse 14, or if we commit a bad enough sin we will go some where worse than Earth. The second death shall come to an end on our planet, Earth some day, for there will probably be another place to take the Earths place.

Remember the stars and the planets are spoken of as Heaven. Bridey Murphy could be serving a number of so-called terms on Earth, much the same as a penitentiary. So you see, if you have a wide view to take new opinions of the Bible, you may come up with the answer to the saucers and to all other cases like that of Bridey Murphy.

DOES SOMEONE KNOW THE ANSWER?

As most of us know, there are people who claim to be
(Continued top of next page.)

telepathists who are able to read peoples minds. Many saucer organizations wonder where to get the secrets of the saucers, or would like to know what and whom the Silence Group is. There is a well-known man with the initial D. who has a TV program in which he claims to be able to read a persons mind. Why have not the people interested in saucers asked people like Mr. D. to tell the answer? Maybe this man and all men who possess telepathy are kept quiet on the subject of saucers by a secret committee, perhaps the so-called Silence Group. If there is anyone who knows the answer to the saucers, Mr. D. and all men like him should know the answer. This sort of puts them in a spot. If they do not possess telepathy, people in serious saucer research will be able to tell by his answer if he is a fraud.

Most likely if these men are telepathists, they know almost every secret made in the world in their lifetime. The people who have had their minds read will surely believe what this article says, that is, those who know about saucers. It would be very interesting for someone who has seen or knows a great deal about saucers to ask one of these men about saucers. If you the reader should ever follow the suggestion of this article, will you please drop us a line? It will then be published; we hope it will attempt to answer the question, "Do these men really have telepathical powers?" Best of luck to those who will follow the suggestion of this article.

QUESTIONS & ANSWERS

Q. How do flying saucers know where to locate secret atomic plants?

A. A race bothering to come to our planet in the first place must have a good reason. Maybe the atomic bombs are causing radiation in outer space, or their looking us over thoroughly. They probably are walking among us right now and we are not aware of it. Through this way they could get to know of secret projects our government is working on. The people from outer space may have telepathy and be able to read a persons mind as if a man were shouting at the top of his voice. Most every secret ever made probably has been intersepted by the saucer people. Another good way is to listen to the Earths radio waves and TV broadcasts and through this way they may have-

learned to master our language well. Yes, there are many ways in which they could find out.

"YOU DO TAKE IT WITH YOU"

by

R. DeWitt Miller

This book is one of the most interesting books so far published on, psychical phenomena, flying saucers and the hereafter. As you go down the pages of this book, you will read of many encounters based on, 'is death the final barrier?' The book tells of many interesting cases of people being dead for a few minutes and what they say they saw when they regained their life in this world. Mr. Miller also gives accounts of so-called ghosts, and how people encounter them. The book tells of strange forces unseen by us in this world. A whole chapter is devoted to a ship called the Titanic which sank in the Atlantic Ocean some years back. A Psychic Explosion is the expression given to the sinking of the Titanic by Mr. Miller because it deals with the forces of the unseen. Mr. Miller also gives a theory concerning encounters with the ghosts in our world as another world's insulation becoming very thin between their world and ours, and thus we see the ghosts, but they are very much alive. There have been too many stories of so-called ghosts to disregard them all. No, a ghost does not necessarily have to be dead, in fact, they are very much alive, says Mr. Miller. Here are some of the conclusions Mr. Miller came to and, no doubt, most of us who read this book will too. "We are as dead—in fact much deader—now than we will ever be again, you have sex 'over there', the flying saucers are not of this world but they have to do with angel's hair and landing gear, you have a second body, the dead are not quiet, we know a great deal about what the hereafter will be like and other startling conclusions."

Mr. Miller comes up with a new theory as to what the saucers are, he says they could be caused by seance materializations, at least some of the saucers. (Ed.—This would not explain the canals, and close pictures of intelligent projects on Mars. The people on Mars would have to be far advanced to construct the great canals as they have done. The canals appear of tremendous size to be able to see them through our telescopes. Saucer

(Continued top of next page.)

sightings increase when Mars approaches the Earth, so this would mean some of the saucers come from outer space.) The book also explains what leaves the body when a person dies—one ounce of weight is taken away when one dies and is not due to perspiration. It is ectoplasm that leaves our body when we die. Mr. Miller refers to it as our second body. Every living person possesses ectoplasm, dead people do not. Mr. Miller also says this ectoplasm is visible to the naked eye, if one will hold his arm, or any part of the body up against a dark background. Then shine a dim light and you will see a hazy substance surrounding your body which is the ectoplasm. This ectoplasm has been seen to leave the body when people have died. Mr. Miller says many people will say this hazy substance around ones body is the imagination of ones mind or due to some fault of the eye. This is not due to the mind or the eye, various experiments which have been made with dying people prove this haze really is what is termed as ectoplasm. The ectoplasm is said to be your so-called second body, which is your soul.

Another interesting point in Mr. Millers book is when an experiment was made with sensitive film. One should go in a dark room where there is no light whatsoever, then you put the negative up to your forehead. You focus your mind on a well known object and keep your mind picturing that object. Then, if everything goes well, you will have that exact picture you had in mind on the negative. A certain percentage of the time it will not work. This has been done before.

Mr. Miller also gives a complete account on angels hair, and the landing gear of the saucers. Mr. Miller goes through many theories regarding the hereafter. Mr. Miller also tells how it is in the other world when you are killed suddenly, for some reason you seem to think you are not dead. It will be almost like you were a ghost, and you are a ghost.

"You Do Take It With You" will cause you to think of each page and you will not forget it. At times, if it is a dark lonely night, you will begin to see your own ghosts while reading this book.

Here are a few of the twenty-three exciting chapters in this book. 'The Titanic, A Psychic Explosion', 'The Why and Where of the Subconscious', 'The Dead Are Not Quiet', 'Psychics and Saucers', 'Angel's Hair and Landing Gear', 'Flying Saucers and Basic Thinking',

(Continued top of next page.)

'Bridey Murphy,' 'Patience Worth, Et. Al.', 'This Thing called Dying' and many other interesting chapters all contained in "You Do Take It With You".

THE UFO ANNUAL

by

M. K. Jessup

"The UFO Annual" is the long wanted book by serious saucer researchers who can have all 1955's saucer sightings at their finger tips in one complete volume. The book contains newspaper clippings of many newspapers throughout the country of flying saucer information. This book also contains sightings of green fire balls, strange meteorites, Angels hair and flying saucers. Through Mr. Jessup's significant findings, information has piled up so that he is left with one conclusion, 'space life does exist'. Although readers will draw their own conclusions.

In this book are contained the following: Stories of little green men, letters from many serious saucer researchers, information on the Earth's Satellites, complete accounts of saucer sightings, many interesting articles that appeared in the nations top newspapers, many true photographs of saucers and other strange phenomena including angels hair, interesting reports from flying saucer publications all over the world and other interesting information.

Mr. Jessup is also the author of "The Case For The UFO" and the coming "The Expanding Case For The UFO". Mr. Jessup is an explorer and instructor in Astronomy and Mathematics at the University of Michigan. He worked the largest telescope in the southern hemisphere for the University of Michigan.

"The UFO Annual" is a full 375 pages long and will supply hours of interesting well documented reading. Here are a few of the contents from each month of the year 1955. "AND SO THE STORY GOES"

On June 5th at about 11 PM there was a news item on the temperature of Venus being over 200 degrees. This was taken from a new type of radio device. This radio device can not take the temperature of the surface of the planet because there is a dense band of clouds that covers the entire planet. This dense band of clouds could very well serve as a shield against the direct rays of the sun and also shed off much of the heat. Maybe this clever announcement was put out to discourage people into believing there is no life on Venus. Unidentified flying objects have been seen through telescopes going towards Venus.

ABOUT ASTEROID BELT

A certain newspaper in the Cleveland area hints that there is much ice between Mars and Jupiter. This ice was once a part of a planet which once existed between Mars and Jupiter. A hand print in a meteor has been found, this hand print was made by a man. Where was this handprint made? The Asteroid Belt (since most of our meteors come from there) is the most probable place from which this hand print came. This would mean that at one time the Asteroid Belt was once a planet with intelligent habitation. I wonder what this civilization was like? Could it be while our Earth continued to be so primitive, beings on this other planet passed far ahead of the knowledge of the Earth? If this were so, this would mean they probably at one time visited our Earth. Perhaps Note: Mans hand print in meteor, Jessups "Case For The UFO".

(Continued on next page.)

during the Biblical days. This does not mean that this was the only planet that visits Earth for the inhabitants of other planets in our solar system probably do the same. Perhaps this planet is still visiting our Earth that once existed between Mars and Jupiter. Perhaps some of the saucers come from a different time line (fourth dimension), this would explain why some of the saucers suddenly disappear. There is much proof coming of this if we do not have it already. Do not think this is fantastic, time travel is very possible. Objects or everything in a different time could exist all around us and we would not know it. It would be like putting matter at a different vibration high or lower than our own vibration of matter from that of present day Earth, you would go back in time. Is there really such a thing as time? Can a human exist at different vibrations of matter? How far can one go back in time? How far can one go ahead in time? And yet maybe there is no limit either way, maybe we're not so much alive as we think we are.

These questions will give you plenty food for thought, and if you check through the whole subject of flying saucers thoroughly as far as one can, you will come up with the questions as stated above. You will also come up with the opinion that all of the above are true and real. Your not alone, many of us believe the same.

AFRAID TO ADMIT THEY'RE MORE ADVANCED?

A Cleveland newspaper ran a short article on intelligent life on Mars. The article said the inhabitants of Mars might be up to about the time the Earth was one-hundred years ago. They must be afraid to state Mars is much further advanced than we are. Saucer books also say there is proof of intelligent life on Mars.

ANNOUNCEMENT DURING INTERMISSION ON TV

A TV commentator (while showing fictional movie on Mars) stated that Mars is inhabited, and Mount Palomar has evidence to prove it. He said the pictures Mount Palomar had of Mars closely resembled those of the pictures of Mars in the fictional movie. The pictures of Mars in the movie showed white blotches along the canals of Mars which were large cities.

(A SCEPTICAL APPROACH, top of next page.)

In a certain newspaper in the Cleveland area, there is employed a man who will play the part of a vulture on anything concerning flying saucers in the book section of the paper. It seems every book concerning saucers is given a lousy write-up. That is probably why the general public will not except the existence of the saucers. I wonder how he expects to gain more readers whom are interested in his articles if he continues to do his ponderous best to defunct the whole saucer project. Day by day people are becoming more aware of the existence of flying saucers and will despise such men. Although we can not blame them they can at least have a wider view of things.

THE BILL OF FACTS

The people who believe that saucers are Earth - made will try many ways and means to try to prove it. There are many things about flying saucers they can not explain. If you bring up case after case of flying saucer sightings and contacts ever since Ezeikiel, and even before that, they will say, "you tend to take this too literally." Then if you ask them "what about flying saucers seen in recent years?" They will reply, "All saucers up from ten years ago are Earth-made. Sightings before that time were from another planet or a figment of the imagination." "Why did interplanetary saucers quit coming?" is a good question to ask here. "Perhaps they got saucer sick on the long journey", will probably be the reply.

Flying saucers are not dead birds, rubbish cans, soap suds, figments of the imagination, broom handles, dead jelly fish or mirages. They are solid and real.

Before one considers that saucers are Earth made, one must call a few facts to mind. Bear in mind what they say in the movie, "UFO". Earth men did not build the canals of Mars which have been observed for hundreds of years. The A.F. did not build Ezeikiels saucers. Earthmen did not have projects on the Moon for the past two hundred years. Today's Earthmen did not write the Bible. In the first book of Mr. Jessup's is contained a true diagram of a saucer sighting made by the Egyptians. There are also many other interesting facts that have to be considered before forming an opinion as to where the saucers are made. I am sure you too will see there is but one answer-- the saucers are interplanetary.

If one dismisses the sightings of the past history of
(Continued top of next page.)

the Earth, which run up into the hundreds, you are not considering all the facts. If even one of these sightings is real, (of which most of them are, since the sightings that are not authentic are not included in the books dealing with saucer sightings in the remote history of the Earth), it thoroughly proves that Earthmen did not build the flying saucers. Unless we have been ill informed as to how long our civilization 'today' really existed.

WAS THE GARDEN OF EDEN REALLY ON EARTH?

Most of us probably think this question has already been answered. It is said to be located in the Fertile Crescent. But was it? There have been religious leaders spending a lifetime trying to figure out the true answer. If the Garden of Eden was on Earth, and since we know there are people in outer space, where did they come from? Maybe the Garden of Eden was on Earth but it was only the beginning of some people on Earth. The purpose was probably to give us a primitive type of body maybe for some sin before our life on Earth for which we are being punished. There are many indications that the Garden of Eden was on a different planet. It has been considered by religious leaders. Maybe part of our population came from the planet which once existed between Mars and Jupiter which is now the Asteroid belt. We will call this planet Lucifer, since it has been called that in the past by Orfeo A. Of course, I do not mean all our population came from Lucifer because our planet could have been at one time an exile planet for those opposing laws in outer space. Maybe it still is. But since that time many Earth people are eligible to live among them. They in outer space know the answer to every question so far asked in this article. It is thought by many people that the Indian came across the Bering Straits. Maybe some of them did but not all of them. There was a man discovered in Mexico who's age is fifteen thousand years old. This would mean in 13,000 B.C. there was a civilization in America. There are many indications they were quite far advanced. This supports the explanation made by Mr. Jessup in his book with the Andes Mountain range having been formed two different times. In the last formation of the Andes in South America, there were a mass of ruins of a lost civilization which existed in 13,000 B.C. That is near the time when the end of the latest formation of

(Continued top of next page.)

the Andes occurred. This civilization was wrecked by the new formation as indicated by the ruins. This could well mean the man found in Mexico was one of the citizens of this civilization. If more facts come in, we shall cover this subject further.

RADIO MESSAGES FROM VENUS

Radio signals from Venus have been picked up by the U.S. Navy. The Navy believes these signals might be artificial. What are all these signals adding up to? We have also had radio signals from Mars and Jupiter. No doubt, the high officials know the answers.

SMALL EXPERIMENTS TO TRY WITH TELEPATHY

Go in a somewhat dark room where it is quiet. Have a friend sit about twenty feet from you and concentrate intently on a number from one to ten or on a letter in the alphabet. Tell him to try to picture the figure or letter in his mind. Meanwhile, cover your eyes with your hands try to let the thought of your friend be conveyed to you without distraction. That is do not think of anything yourself. This has worked with many people. Twelve percent of the time, with an average person, you will receive the message. Try your best and drop us a line.
