SPACE AHOY! The best minds are now working on interplanetary flight. NBC Nov. 7, '54 "The Moon Race is on!" -- Paul Harvey, - Commentator.

REPORTS coming through Chicago Rocket Society members predict merging of similar Societies into an American Astronautical Research Federation- with a world conference on Astronautics in the Chicago area. Also, talk of all Saucer Research groups becoming affiliated and holding a world conference soon.

"HOWL" FROM KANSAS CITY TIMES Editorial, 8/26 "We would like to get this thing settled one way or another. If there really are saucers and interplanetary visitors why are they so shy? We wish they would land and tell us what it is all about. This suspense is too prolonged."

CURTAIN -- and/or "CURTAIN"!! -- "Twenty to Forty Billion Dollars for a Radar Curtain around the U. S. ---- Caught on TV, 9/26 ..... Would it work?"

MAJOR CRIMES -- may reach two million a year. May reach all-time high in '54. CBS 9/23

SIMPLE CURE FOR LIVER TROUBLE. If there is anything you especially like - don't eat it!

PSYCHIC RESEARCH GETS RECOGNITION. Report that two chairs for Psychic Research are being endowed for two universities.

CANCER. A new chemical injection seeks out cancer tissue, lodges there and under ultra-violet or "black light" shines with a red light of danger as bright as a woman's lipstick. Wash. Star, 11/16 ... In Canada where cancer is the second killer, scientists have discovered a new type of "bomb", cobalt 60 radiation, for cancer. First used 3 years ago; now saving great numbers of cancer victims, says Canadian Paul Martin, NBC. 11/7

ECTOPLASM. Internal "life substance". Report that certain scientists are learning to make it. They can "create" it but cannot "hang onto it" or preserve it as yet. The same is said of the phenomena of "nylon-like threads" reported falling from the sky in places. In Chicago and elsewhere radio engineers have "captured" some in bottles but it cannot be studied because stuff disintegrates the moment it is touched.

WARN DR. KINSEY. Report in local paper that Beltsville Government Experimental Station near Washington has produced a fatherless turkey (of sorts). Short-lived.

IS SCIENCE EDGING UP ON THE FOURTH DIMENSION? The word "atom" means "indivisible". But-- atoms are undergoing transmutation. Atomic structure is not fixed.... We are in the presence of a whole range of atomic discoveries .... The changing of living things by radiation; speeding up of genetic mutations, etc. NBC Nov. 7, '54.

WASHINGTON'S COSTLY "GOLF BALL" HAIL STORM of May '53, which came 29 hrs. after a new atomic test blast now reported radioactive to American Meteorological Society.

REMOVAL OF MOUNTAINS. Caught over CBS, 10/3. Siberia -- Proposal to blast away whole mountains with atomic energy. ....Could cause a threat to weather of entire Europe -- such as was never before known. ...And from Bible: "Ye shall say unto this mountain - 'remove hence' and it shall remove". -- (No longer a figure of speech!)

A BLASTS COULD AFFECT AIR FOR 5000 YEARS -- Churchill tells House of Commons. AP. Nov. 2.

ROUND THE WORLD IN TWO HOURS is predicted in 9 years by U. S. Naval Research Expert.

WATCH "EDU. TV!" .10 cities now have stations. D.C. & more adding. Excellent outlet. HELP.

GUESTS AT THE LITTLE LISTENING POST -- JOHN CITO, Saucer Researcher and Lecturer from Chicago. Doing research, writing and spadework in Washington. Lectured to 2 very appreciative audiences while here. ----SPIRIT RADIO RESEARCHERS FROM LONDON, Kenneth M. Keller and his wife, Marianne Francis spent a week on their way to locate in Calif. and continue study and research in the field of spirit radio. Aim: To make an instrument for reaching the "next plane" that will cut out need for human medium in the circuit and so avoid "mental Coloration". Also working on an electronic device for diagnosing disease and then healing by superimposing normal frequencies over "sick" or abnormal ones. Results in both of these purely scientific and daring attempts are very encouraging.

SURPRISE VISITORS TO THE LITTLE LISTENING POST. From Miami. A lady and gentleman, representing small group which has carefully guarded its Saucer contact secrets for 3 years. Now preparing to give out the story. Consists of both ESP and objective contacts. Group includes a pilot now readying a landing spot in appropriately remote area. Three spacemen of evolved type described. Claim saucers being conditioned so their "field" can't harm us. "Secret of propulsion forthcoming". Described interior of saucers. Also a strange thought-projection machine operating with colored lights which will either send or "can" your thoughts. Group has much on tape. Watch for further news. (They were told windshield pitting, etc. due to bombs having opened earth's atmospheric envelope to cosmic dust. Suction closed envelope - but - tests very dangerous to our future.

SOMETHING NEW IN MUSIC. Composers experimenting acoustically by interspersing eerie sounds, (made by playing tapes fast, slow, backwards, etc. etc.) Said to effect listeners as something almost "other-dimensional".

SAUCER AUTHOR ORFEO ANGELUCCI WAS ASKED if his Saucer Contacts were mental experiences or objective happenings. He replies: "My experiences were not mental experiences. If others had been present they would have observed the same things. But I do think they would see them differently or interpret them narrowly. Of course there are people who would be as receptive, or more so than I. But many would lack the ultimate essential, which is the understanding of the real structure of matter, and its true potential. This I came upon by my own efforts... and so I was contacted to the degree that such a position warranted. That's all there really is to it".

CAPITAL NEWS NOTES. The Voice of America, with its 100 employees, has moved from N. Y. to Washington -- without a dent in its timing.... Washington death rate now lowest in history.... Forty-two acres of countryside, cowpastures and all, in the heart of the nation's capital and sacred to the old soldiers' home has now been transferred from the Fed. Govt. for the building of great cross-city highways. Time marches on!

WHAT GOES HERE? From Washington Star Personal Column: Hypnotist advertises -- "Hypnotist to the War Department".

TINY RADAR DEVICE Enables AF craft to 'see' 240 miles. Has 5-inch screen. Can 'see' all around one of the great lakes at a single glance. A.P.

ENGINEER FREDERICK C. DURANT was re-elected President of the International Astronautical Fed. at their world congress in Austria. Fed. now has 8,500 members in 17 non-Communist countries. Next meeting scheduled for Copenhagen, Denmark.

WANTED -- CELESTIAL ASH CAN FOR ATOMIC WASTE, says Sat. Eve. Post. "So far, the atomic age has produced no suitable atomic ash can." Blase Prof. Freeman of Rutgers U. suggests rocketing atomic radioactive waste to Mars or Venus, confident it will soon be scientifically and economically feasible. Otherwise, he warns, "we may make this earth uninhabitable for future generations". Apparently the Prof. is not "up" on the thesis of why the saucers are here! -- Meanwhile -- eerie work goes on just outside of Washington, where actual "coffins" or concrete burial vaults for babies are used in which to seal up the fearsome ash, which is then buried 1000 fathoms deep in a "cemetary" in the Atlantic....Something symbolic about this? Well, write your own caption!

WARNING BY V-2's DR. WERNHER VON BRAUN made 2 yrs. ago in Washington vividly recalled in light of following: "Soviet Union rushing plans for an interplanetary space ship. ... West may lose its margin of power. We know they're working hard on it, said Wm. P. Lear, head Lear, Inc. Russians 'recruited' several top German scientists, chiefly from Nazi Missile station at Peenemunde (von Braun's former base) for express purpose of exploring the possibilities of interplanetary warfare. It will be possible to build a space ship within another year." Washington Post Times Herald, Nov. 11. Recent press states Russia is working hard on space study and has schools and institutes for teaching it.

RUMORS (unchecked) Coming. -rejuvenating 'machine' via spacefolk. Ring forming around earth.

SIGHTINGS, TOO NUMEROUS TO REPORT. Samplings are: Saucer seen by two Generals near Pentagon. Good photos caught of Saucer which came directly at sighters at Estes Park, Colo. Flight of Saucers over Austria, UP 8/28. Desmond Leslie airmails, "I spent 2 weeks in Rome, arriving just as the Saucers started there. Seen practically every day and landing right and left over country." Clare Boothe Luce one of sighters...Life Mag. carried 2 pgs. of French sightings. And the intrepid mayor of a tiny French town issued a decree forbidding Saucers to land and ordered his constable to "impound" any that did!

L'AFFAIRE MUROC. The story of a Saucer on the ground at Muroc persists. Prodigious checking brings further verification - yet always of a second-hand nature!?!?!?

BOOKS N' THINGS. Book store in Washington displays 10 Saucer books "Not for Sale". Explains due to demand and scarcity books being held for higher market value ... Big publisher in London soon issuing "very serious" quarterly private News Letter. ... "Vinama", worthy organ of Detroit's active new F.S.Club, address 6432 Cass Ave. Deals with vicinity news. .. Nov. Farm Journal advertises HOME PLANETARIUM (14.95) Watch the farmers. They have long winter evenings...Nov. Real Mag. prints Frank Edwards' "say" on AF & Saucers. Rumored Keyhoe helping supervise a UFO film in Hollywood...Spacehounds von Braun and Willy Ley helping Disney in his new Space productions.. Movie being made "Why Deny the Saucers"?..Just off press "Design of the Universe", blasts infantile concept of Earthians who think they are only intelligent life in Universe. Just off Press in Eng. "Flying Saucer from Mars" (Several clear photos). New text by Dan Fry on purpose of Saucers..Quoting AP-"Whoosh! American novelist John Steinbeck is planning to write a play about Saucers." Group in Chicago is compiling Glossary covering all 4D and ESP frontiers. Badly needed. Arthur Clarke writes, "No time to help with new movie "Time". Sailed for Australia Nov. 23.

MAIL RATES. Rayburn says "We're not going to raise 1st.class mail rate - I'll tell you that." (Exceedingly detrimental to progress if we do, Ed.)

LETTER FROM GEORGE ADAMSKI -co-author Flying Saucers Have Landed. Health improved after vacation. London appearance which was postponed last Sept. now set for Albert Hall Mar. 30. New Leslie-Adamski book expected to be out by then. He refers to increase in sightings (as he had predicted.) "It is only a prelude for another and greater increase until no part of the world will be in ignorance of them. Contacts, too, have increased and will continue to increase" Has been told from "higher up", "If we are going to call the new era into which we are moving an "Age", it will be neither the Golden Age nor the Aquarian Age, but should rightly be known as the Cosmic Reality Age." And "their" reason for this name is because for the first time in this civilization we are becoming alerted to the reality of other inhabited planets and growing into a greater consciousness and understanding of the vast universe in which we are all inhabitants."

RUMBLINGS FROM THE HELL BOMB. There is no defense against the bomb. There will be no defense. Safety lies only in World security... Next war will be one of co-extermination.. The hydrogen bomb is literally unearthly --- probably has no peaceful uses. Must explode violently or not at all... Heaven and hell are within our grasp. Need for social science to make life more worth living. CBS 10/3

NEW SOCIETY OF MIDWIVES. Realizing that (apparently) no "Presentation" today is complete unless it contains something about the "birth of a baby", the Little Listening Post is glad to conform! The biggest "obstetrical" operation of all time is under way. A New WORLD is being born! (Science and evolution are its parents.) Are you helping towards its birth? Join the recruiting group of (spiritual) Midwives! Volunteers badly needed! If you can't help - don't hinder! Reported the Saucers are here overseeing the job.

BEAUTY ----- Is our most constant proof of God.

DETROIT FLYING SAUCER CLUB'S PETITION TO THE PRESIDENT says government's present policy of silence is a reflection on the intelligence and loyalty of the American Citizen.

SPECIAL NOTICE: Write to Thos. O'Neill, Pres. Mutual Broadcasting System, 1440 Broadway, N.Y. for date when indispensable newscaster FRANK EDWARDS will be back on the air.

CLOSE-UP OF RECENT ITALIAN SIGHTINGS

We give you in part a letter snatched from the teletype, but probably kept from you by the Powers that B. It was "daringly" published in the Evansville Press date-lined 11/9/54, because its writer was a former resident of that city and has a brother and sister living there. The letter is from Mrs. James Hogg III now of Florence where she is secretary to Bernard Berensen, art critic and writer. She says:

"The saucers are flying thick and fast around here and many a skeptic is eating his words.... I don't know whether the stories are being published in the States. I think the govt. is still hushing them but the Italian papers can't very well when half the country is not only seeing them but also seeing a shower of white 'glass wool or web'...land on the town and countryside whenever they pass.

"It started about a week ago when formations of them were seen over Livorno. The next day was even more interesting -- boats all along the Adriatic wired in descriptions in the space of half an hour or so, so that the course and speed could be fairly well plotted. Fishermen deserted their boats in terror and the Florentine journalists started writing less facetiously. And the day after that they saw for themselves from the roof of the newspaper offices. ...The same day this white spun glass business was seen, captured and put in a bottle. Most amusing of all, the football game between Florence and Pistoia that was going on in the stadium came to a complete standstill when several flying saucers went over. ...

"A friend who owns a television station in Florence had come up from Rome and said his television company was planning a program on the saucers and he had interviewed Mrs. Luce, (Clare Boothe Luce, U.S. Ambassador), all the foreign attaches and the American Air Force head there. He said they all think they're from outer space, and that Mrs. Luce said that our Government would probably soon open up with some of the information they have....."

...Then were mentioned stories from the papers of landing scenes during which "stones were thrown at the well meaning Martians, but oddly enough, although the stones hit the disc they didn't make any sound doing so, almost as if they had hit something soft.

"The description (which tallies with all previous ones, although there seem to be several varieties -- i.e. cigars and saucers) was of a disc divided in two parts illuminated by a green light 'that rested on the ground on three points'. The superior part was a hemispheric cabin illuminated by a silver light so strong as to annoy the eyes, and on top of the cabin an antenna. When finally they were able to force the gates and approach the figures, they retreated toward the disc -- 'all present followed with beating hearts, none, unfortunately, were armed but they found a box of fruit and threw that.'

"Then 'Il Signor Giacomo Stefanoni tried to sick his big Boxer dog against the Martians, but the beast, intimidated, instead of throwing himself at the Martians bit his master in the jacket. While Stefanoni sought to liberate himself from his dog, the two strangers succeeded in reaching the disc and a few instants later, with a sound similar to a shrill boat whistle, it lifted itself vertically from the ground.

"Many of the witnesses still had red eyes from the intense light, and the journalist ends cautiously: 'The number of persons who swore to having seen and heard this is without precedent, more than 100.'.....

"We are both so completely fascinated and intrigued with the whole business we can't talk about anything else....

"Thousands of people have been seeing such objects in the sky and everyday there are photographs. Will they wait another 200 years to establish contact? If we keep on throwing fruit I suppose they never will. How maddening -- I would give anything to see one, at least it's getting to the point where people don't laugh at us as they did in Evansville."

\*\*\*\*\*

In spite of Mrs. Hogg's expressed ardor to "meet up" with the saucers the Evansville editor chose to caption the piece: "SAUCERS OVER ITALY ALARM U. S. WOMAN".

(Probably we're hopeless. -- L.L.P. Ed.)
