ALL ABOARD FOR 4-D. "Mat and de-Mat". Clue to materialization & de-materialization; Peace-time A-Lab. at Brookhaven, N.Y. plans to build 100 billion volt machine which will convert matter into energy & energy into matter. FOURTH DIMENSION, HERE WE COME! HIGHER EDUCATION studying atomic defense. "Most insistent subject of our times are those of survival". CBS 3/1

"ANGEL HAIR" Report white web stuff falling from sky after saucer sightings has been analyzed in comparison to ectoplasm from seance materializations and "is the same". STAIRWAY TO THE STARS. Tiny moons discovered only 475 miles from earth. Astronomer Bagby describes "procession of more than 50 that continued for 1 1/2 hrs." Verification for what researchers have found in obscure reports back through the years. WATCH! Some less than 100 ft. across. Wash. STAR described them as "flying saucers". Fits Van Tassel's idea...A basket-ball-size satellite will be launched this year. ABC 3/20/55

STRANGE SOUNDS BEING TRAPPED. 4-Station Listening network from Labrador to Fla. sleuthing on unexplained tweeks and swishes - "strange radio waves which murmur in the atmosphere just out of the reach of human ears." They are being taped for fuller analysis. RELIGION AND THE SAUCERS. Unitarian Dr. Homer Jack of Evanston says "Flying Saucers can take the centeredness out of us and out of our petty concerns and prejudices". They pose questions that may topple our old-form religious hierarchy. Think it out.

DELINQUENCY. Senate Committee says it is mounting at a "disgraceful rate". Called for drastic action. Nearly 1/2 million children a yr. now in trouble with the courts. Only 1 in 3 cases reach the court. N.Y. Times. Md. legislature passing bill to outlaw comics. SATELLITE. Andrew G. Haley, head Amer. Rocket Socy. & prominent D.C. rocketeer, states, "Military outpost in space could not survive." Enemy proximity fuses would finish it before it was finished. Must necessarily be for a peaceful purpose only.

D.C. NEWS. Area population now nearly 2 million. 25% above '50....U.S. Weather Bureau 85 yrs. old...10 Millionth book has just come to Library of Cong....Ground broken for new Senate Office Bldg. ...Prominent school here reading aloud Keyhoe's F.S. From Outer Space....U.S. Office of Edu. may be raised to cabinet status... Prominent atty. W. E. Leahy heading D.C.'s "Edu TV" group.... Radio hams plan emergency network. 100 of country's 300 hams located here.

CHURCHILL, "the picture of health" revealed 3/2 that in '53 he had been completely paralyzed. A previous radio report credited his Yogi healing.

SWING LOW, SWEET CHARIOT, COMIN' FOR TO CARRY ME HOME. The familiar title voices a sentiment becoming more apparent among many saucer fans. The close-to-nature Negro caught in his song a preview of the discs that have now come into visibility in our skies and many "modern slaves" in a driven world are echoing his strange cry of "carry me home."

THE LITTLE LISTENING POST at WASHINGTON, D.C. Issued every few weeks from this "news capital of the world" when the new kind of news "boils over." Here, where vibrations beat high and the very air is surcharged we are trying to do a job of listening-in for those faint and high-pitched notes coming from far out on the battleground of Progress-or-else... "I like news and I like it in capsule" says a Colo. reader. "You have a unique publication" says A.B. from Mass. "Just rec'd the LLP and it is so good" says E.E.D. from Calif.

THE LITTLE LISTENING POST is "the NEWS IN CAPSULE". FOUR ISSUES FOR ONE DOLLAR. And please watch your subscriptions. No funds go for self-advertising.

SUPPLEMENT TO THE LITTLE LISTENING POST Vol. 2 No. 2. --- Here in part is an article of "seed thought" type published in Wash. STAR & PETWORTH CITIZEN in Feb. and is now being picked up by Nat. Mag. JOURNAL OF LIVING. ---REQUEST: Please get this pkg. to your newspaper or some person best able to further plan, then report any results to us. This deals with a facet of the in-coming "New Age".

#### THE FIXED- INCOMERS

There are now nearly 14 million people in the United States who are over 65 years of age, and the number is growing! Here in this goodly slice of our population we find most of our fixed-incomers. The Senior Citizen, as those in this group are now being called, has been by-passed. He seems about to flounder unless he does something about it. The strength of all the other groups is that they are organized. The Senior Citizen is not organized. Therein is his clue. He must band with those of his kind. But how?

How can the Fixed-Incomer better his economic condition? One way would be for some system to be worked out whereby people in this group could help each other.

There is need for some kind of "Registry Center" where the Senior Citizen's needs can be "matched up". For instance, a retired man in Alexandria, a high-grade teacher of the building art, now occupies himself with a little beautifying and building for himself. But he must pay a prohibitive wage for any kind of assistant. With the help of such a "Registry" he could locate a young man who would gladly trade some services for firsthand lessons by an expert. Also, instead of an irritable, clock-watching relationship, there might spring up a refreshng "father-son" type of teamwork. This plan would have infinite variations where two-way needs could be met - with wage controls and other complications forgotten. Goods and other values could be exchanged for various services. Give-and-take home nursing could be arranged. A widow left alone in a big house could here locate another congenial woman to share her home on some reasonable basis.

There have recently been a few efforts made in behalf of the Senior Citizen. Small groups have been established in most big cities -- mostly for the purpose of entertaining him. But is entertainment what he wants most? When he retires he is given a farewell party and he then goes home -- to what? We are beginning to realize that he isn't dead yet! He goes home to a fixed and reduced income -- one that is beginning to "shrink". He is at the place where illness and death of loved ones creep closer around him. Perhaps he is not in a mood to play pingpong.

There are two things he needs most: An income not too far out of line with those around him; and a feeling of BEING NEEDED. It is this being needed that gives him a sense of importance (without which no one is happy.)

At the time in life of his most drastic changes the Senior Citizen has been left to find his way alone. Life is spoken of as being divided into three parts: The first for preparation, the middle for work and the latter part (logically) for sharing wisdom born of experience. Instead, with almost no co-operative effort for this part of life, small wonder that disease, decrepitude and demise quickly follow one another. This part of life is in eclipse. What should be glorious and triumphant is most often an ignominious fade-out. Perhaps because of our stupid acquiescence to such a concept! To live people must be happy. Both happiness and unhappiness are contagious. Those who disregard the Senior Citizen will soon walk in his shoes.

Let the Senior Citizen gird for his fight. His former by-passing may be "the making of him." Let him weed out his foibles. He may not go as fast but he can go "in gear." He has paid taxes all his life. Now if our economic system is going to disregard him, let him work out his own salvation. He may devise a system that will have something real human about it. It is conceivable that in concert the Fixed-Incomer could put in a claim, if necessary, for "Medicine at cost", reduced fares, tax favors, etc., etc. Let him, like all the other groups, get together and make his voice heard.

Watch the Senior Citizen. He may be going places!

THE CASE FOR THE UFO - - - - By M. K. Jessup  
Is now ready for presentation to  
THE COURT OF PUBLIC OPINION

Saucer Fans, here is a weapon to use in convincing the Skeptics. It is a Comprehensive publication by an accredited Astronomer, devoted to a sound, sober analysis of data, scientifically establishing the continued relaiety of UNIDENTIFIED FLYING OBJECTS. This is what we have been waiting for. . . .Let's use it.

It is up to you, Saucer Folks, to take this new book, study it, and present THE CASE FOR THE UFO to the COURT OF PUBLIC OPINION: To all of your friends and acquaintences who are doubters. The success of our crusade--Success, if you please, of the "MIDWIVES" who are helping in the Birth of a New World--depends on getting as many people as is possible to read this new approach to a tremendous problem. . . .The LIBRARY RESEARCH GROUP is continuing its work, but it is up to the Saucer Clubs to see that THE CASE FOR THE UFO is presented to everybody---Everywhere. The researchers cannot study and write if they have to personally broadcast the results of their work; and their numbers are too few to contact the people of the entire country. . . .But the Saucer Fans are Legion - - they are a marching Army, and here is ammunition for their Artillery.

So, let's get behind this factual scientific analysis--and push. Let's every last one of us get as many skeptics as possible to buy this book directly from the LIBRARY RESEARCH GROUP, 406-A International Building, Washington 4, D.C. Every buyer will be a convert. Every sale helps the Research to go forward. This group is working for YOU - - - - -So, Let's YOU and I work for them.

We have been informed that the publisher is backing this book to the limit with high quality advertising, because he is convinced of its sound principles and factual Scientific background. There are full page ads in the NY Times (Ap.3) and in the Chicago Tribune; and magazines, including the June FATE. The Agent who sold this book to the Publisher has taken a full page in the March Writer's Digest, just to brag about selling it. Radio and TV are carrying the news to everyone, and the press is doing its share. The Month of April is UFO Month, and the Month of April is the Month to strike.

THE MONTH OF APRIL IS THE MONTH TO PRESENT THE CASE FOR THE UFO TO THE COURT OF PUBLIC OPINION, AND YOU ARE THE PERSON TO PRESENT IT.

YOU can see that your local library has enough copies to take care of all readers.

YOU can see to it that your distant correspondents: friends in remoter parts of the Country know about. . . .THE CASE FOR THE UFO. . . .in APRIL.

YOU can get FREE LEAFLETS describing THE CASE FOR THE UFO by writing to the LIBRARY RESEARCH GROUP. . . .and

YOU can get these leaflets into the hands of alert persons in YOUR community. . . .NOW.

YOU can mail them to your correspondents, and YOU can see to it that THE CASE FOR THE UFO sweeps the Country - - -In APRIL- - -FOR THE UFO.

Let's have a Slogan: EACH ONE TELL TWO

REMEMBER!

APRIL 1955  
is THE Month to  
PRESENT  
THE CASE FOR THE UFO  
to  
THE COURT OF PUBLIC OPINION

THE LITTLE LISTENING POST  
at  
WASHINGTON, D.C.

THE CASE FOR THE UFO \* \* By M. K. Jessup.

THE CASE FOR THE UFO is a new approach to the intriguing problem of the Unidentified Flying Objects, with startling conclusions based on sound, sober, scientific observations, objectively recorded decades before the hysteria set off by Arnold in 1947.

The Author is M.K. Jessup, formerly Professional Astronomer of the University of Michigan, having set up an Observatory in South Africa, and carried out a research program there for several years. Mr. Jessup has also explored the Maya and Inca ruins, and the High Plateau of Central Mexico, where he found numerous craters of space origin.

After putting aside all data of psychic and paranormal nature for others to study, Mr. Jessup assembled a tremendous compilation of material on events related to UFO's, particularly in the Astronomical Field. Astronomical sightings, covering centuries, are of two types: Nebulous and solid, exhibiting characteristics of control by some type of Intelligence. Dozens of Objects seen by Astronomers crossing the Sun are now shown to be navigable structures, close to the Earth--and not distant planets within the orbit of Mercury as thought in the 19th Century. The recent discoveries by Tambaugh and Bagby were merely confirmatory to our predictions in: THE CASE FOR THE UFO.

As part of the supporting data, Mr. Jessup has shown that there was a world-wide civilization prior to the "flood", and its tremendous megalithic stone structures could only have been erected with the aid of a levitating space-ship. Some single stones weighed upward of 8000 tons, and peculiarities of structure are so identical as to indicate one, unified, world-wide skill in handling them.

The falls of objects from the Sky are indicated to be dumpings from space contrivances. The disappearances and teleportations of Ship's crews, and the disappearances of ships without trace, are attributed to space ships and UFO. The cases of the Sea-bird and the Mary Celeste are explained, and likewise the fantastic disappearances of Mr. Lang and Oliver Larch, and a teleportation from The Philippines to Mexico.

A further exhaustive study is in progress showing that the UFO are regular callers on the Moon, and are inhabitants of the Earth-Moon system, have been for a long time, and that science must revise its ideas regarding the space environment of Mankind.

In the volcanic mountains of the high plateau of inner Mexico, Mr. Jessup has found a large number of craters, or cradles, not of volcanic origin, cleverly intermingled with the native mountains. They are just the size of the small Lunar craters which appear and disappear, where UFO seem to be hovering for long periods of time. These Mexican Craters are obviously made by missiles from space. A more complete study of this puzzling area will be published after Mr. Jessup's field trip to Mexico in 1955.

Because he believes whole-heartedly in this book, and in Mr. Jessup's analysis, the Publisher is putting a tremendous push behind it in the Month of April. The LIBRARY RESEARCH GROUP asks you and your group to get behind the Book and to help us to develop a crusade to convince the skeptics. THE CASE FOR THE UFO is the very best weapon so far to be put into your hands. . . . Bring it to the attention of your friends. . . Especially those who doubt. . . Get them to buy Copies as gifts and help spread the Gospel.

THE CASE FOR THE UFO can be purchased by mail from the LIBRARY RESEARCH GROUP, at the regular price of \$3.50 per copy, plus 20¢ for postage and packing -- Check, COD or Moneyorder. All earnings of the Library Research Group go toward further study on a non-profit basis. Books should be ready for mailing by the last week in March.

WE are working for YOU-- --Will YOU help us present THE CASE FOR THE UFO to the COURT OF PUBLIC OPINION?
