4811 Illinois Avenue, N.W.

### THE NEWS IN CAPSULE

From the office in the garden.

JUPITER IS BROADCASTING RADIO "MESSAGES" say 2 Carnegie scientists. UP 4/6 Waves rec'd on huge radio telescope near Seneca, Md. Short random radio bursts. Explanation not known. Watch the new science of radio astronomy. It "reaches further."

MOON METALS & MINERALS INC. is name of Co. that registered in N.Y. State some time ago. "Interested in prospecting for uranium & other deposits on the moon." Founder Touche-Skadding, explorer and lecturer, said for some yrs. Co's activity would be encouraging projects for landing unmanned rockets on the moon. "The rising star of astronautics compels attention" says interplanetarian H.E. Ross. He further sagely adds, "It may indeed be said that the battle for the solar system can be won technically yet prove a barren victory if in mastering nature we fail to master ourselves." "He that controll-eth his spirit is greater than he that taketh a city" - (or perhaps a solar system!!!).

CANCER IS CURABLE thunders Sen. Haluska of Penna. Firsthand report just in from Hoxsey Clinic, Dallas, says "Atmosphere of HOPE there" (based on case histories) is almost like a church. One hundred a day coming!!! New clinic now in Portage, Penna.

NEW MAN-MADE ELEMENT. U. of Calif. announces 101st element of matter, Mendelvium, 9th lab-created basic element. Hottest. Not in nature.

NEWS now reaches entire inhabited world instantaneously due to globe-girdling radio-tele-type circuits recently put into operation by AP.

THE VALUE OF A SPACE STATION for either Military or Refueling purposes now in doubt. Great value will be as an Observatory permitting man to see 5 to 10 times as far and with finer percision. British Interplanetary Journal. Our spectroscope always adds to -- "No life elsewhere." But astronomy now says with St. Paul, "Now we see through a glass darkly"-- So observes Life Magazine.

.....KNEE DEEP IN BUTTERCUPS!--- "A poor world this if filled with care, we have no time to stand and stare."

MARTIAN CANALS - "probably the most mysterious objects in the entire solar system," comments British Interplanetary Journal. Says Mars' two moonlets about five and ten miles across are smallest known satellites and "apart from our moon will probably be the first worlds to be reached by man."

JAPAN OPENS DRIVE ON OBSCENE BOOKS. Welfare Ministry asks publishers for "common sense."

HEADED FOR PEACE. France will concentrate on becoming a great atomic power, but will confine its research to peaceful purposes only!

MIRACLE PLANT. Form of algea, can produce 1000 times its own mass every 2 1/2 hrs. via artificial sunlight. Can solve food problem for space travel. Wash. Star.

ANXIETY IS THE MODERN PLAGUE. --- ABC

WE ARE DESPERATELY IN NEED OF AN INTERDIMENSIONAL & INTERPLANETARY DEPT. OF STATE. Our authorities are hiding from the public some of the most wonderful information since the time of Christ. So says G. N. Hellingway, Ph D., writer, lecturer.

HOW SAUCERS FLY -- AND - WHAT IS "ANGEL HAIR"? Researcher S. H. Fullerton, Tasmania, analyzes: Peripheral, not centrifugal force. Intense light of saucers seen changing to rainbow hues in unison with varying speeds, its particles (products of radio active elements yet unknown to us) encircle saucer at speed of light or greater. The effect of this action is to decimate (destroy) matter in saucer's nearest vicinity, thereby creating a vacuum, the ideal medium for speedy travel. Saucer will travel in direction of its most perfect vacuum which will be made to occur at any desired position on its periphery. A resultant action is saucer waste. (Angel Hair). This fleecy substance often seen falling in saucer's wake was analyzed by an Italian professor and was found to contain boren, silicon, calcium magnesium, etc. etc.

WHAT'S BECOME OF THE WINDSHIELD MYSTERY and what causes operated a yr. ago & not now? HUMANITY IS GROWING UP! Of a sudden it has become seriously conscious of SPACE. Like birds peeping for the first time over the edge of their nest, the human race is peering over the brim of the world and -- wondering! Big Question: Will we become fit to take our place in the Interplanetary Brotherhood?

BUGGY MFGS. OF LA. QUIT. "We're gone! Besides autos, we've got all this stuff about flying saucers, jets & now the atomic - Lord help us & Hydrogen Age!" They dissolved.

RUSSIA ALL OUT FOR SPACE. Astronomic Council there has set up permanent Committee to solve space problems. Plans lab in space "for establishment of radio communication with future space ships" & so solve problem of interplanetary communication. AP 4/17 REPORT that during the spring A. & H tests around 2000 scientists sent a petition to the UN with a view to discovering if there is danger in continuing tests. Made the request a most urgent one by stating it was made "in some desperation". Yet 4/15 AEC head indicated "All is well". Disagreement goes on. AEC accused of holding back info.

NATURE WINS. 2-yr. official testing (cloud seeding, etc.) shows man cannot change the weather on any large scale. NBC 4/17 What might not happen if he could? Ed.

SPACE - OR BUST! Someone writes the British Interplanetary Society: "We have just formed the X X X Interplanetary Society. Can you tell us what to do next?".....

....OR BUST -- "Flying Disc Causes Death" headlines the AP. Angel Lamer was killed when he came to blows in a dispute with a relative over flying saucers." (Manilla.) AND FOR THOSE WATCHING THE PSYCHIC ANGLE: Overall add-up rec'd 4/55 from a source in D.C. "Earth going through cleansing process, hence great upheavals. Angel world guarding Atomic Energy. It will not be used destructively. New cycle being ushered in. Govt. releasing very little of what it knows. Many surprises coming. You are on the threshold of new illumination. Men and angels will again commune.... Physicists and metaphysicians will get together. You are becoming sensitized to finer attunement.... Hierarchy watching Russia, China, Formosa. Internal troubles there will break iron rule... By '56 your 1st plane will fly with A-energy..... Some saucers interplanetary, some created in your atmosphere by spirit scientists, yet can be solid. World not ready for open landing at moment. Must overcome atomic fears else mass hysteria. Natural communication will be established. Space will be conquered..... You may pass from despair to ecstasy & live more abundantly. "Blessed are those who are bound by the law of love and service".

GREAT NEW PROBLEM COMING UP OVER THE HORIZON -- What to do with leisure time. Prepare. SAUCER SITUATION. Fewer sightings at present -- which those who credit Earth-Mars theory expected, but predict by late fall there will be so many saucers they can't be kept from papers. Also through next summer when the 2 planets are very close... Present sightings run more to green fireballs, more of them and over wide areas. Also "darts" and strange "formations", some, miles wide caught on many radars. Have dumb-founded meteorologists, British War Dept. N.Z. Balti. etc. Also psychic or 4-D phase getting stronger writes one wide observer in that field. Many having strange personal experiences. Watch TV Saucer Fiction. Some has high esoteric significance such as "Visit to a Small Planet" 5/8

SAUCER COMMENTS. Harry Messel, Prof. of Physics at Sydney U. says "I do not think any responsible scientist in the world today would say 'There is no such thing as Flying Saucers'". Durban, Natal, S. Afri. saucer club has 100 members. It is their opinion that "sightings are as numerous in the tropics as in the USA" .. The Minister of Air for Australia writes "There is an enormous amount of interest taken in FS phenomena & a great deal of research work done. Research is exchanged with other governments."

PUBLISHING NEWS: Flying Saucer Review, London, calls itself "1st prof. produced mag. dealing with the greatest mystery of our times." Every 2 mos. 32 pgs.... C.R.I.F.O., Cleveland, raised rates... Nexus changed name to Saucer News... S. Aust. Research Socy. now puts out quarterly. 22 pgs. ... Report Maj. Ruppelt, erstwhile AF top saucer sleuth is writing book... Vol 5, Teaching of the Masters of the Far East just out by DiVorss & Co. 516 W. 9th St. L.A. (Foreword says both Steinmetz & Edison said time would come when it would be possible to make recordings of Sermon on Mount, etc. Watch! Actual work going on in this field now.) .... Two new booklets by New Age Pub. Co. 1542 Glendale Blvd. L.A.: "Coming of the Great White Chief", - shows what intuitive Indians think re saucers: "We Come in Peace", story of a landing in Austria. Shows why landings not made openly! ... N.Y. Times and others have printed full pg. ads of Jessup's "Case For The U.F.O's.... Flying Saucers & Common Sense, Girvan, London. This book deals with the sceptics side which is "compounded by prejudice, ignorance and faulty reasoning"; also attitude of governments in this worldwide mystery... Another mag. has discredited itself by printing a hoax (re contra matter.) .. Frank Edwards has made a TV Saucer Interview. His book to "tell all" due in Sept. ... "Practical Mechanics", London's hardboiled tech. monthly says "Saucers are realities existing inside &/or outside our atmosphere"..... Re landings, etc. the fight goes on as to where the subjective leaves off and the objective begins. Plainly the phenomena deals with laws unknown to us. Best guess seems to be -- They're interdimensional.

COMING! More big religious movies... Coming, Atoms for Peace postage stamp. .Coming, Lower cost TV stations.. Coming, 3-day week-ends... Coming A-radiation to combat pests (which now do 4 bill a yr. damage).. Coming, A-radiation for food preservation. ..Coming, "car for every 2 persons"...Coming, New Place to Live-- "Large Antarctic area may be habitable"...Coming, commercial A-reactor now in making at Shippingport, Pa...Coming, To London in 1 hr. (Pressurized cabin) says Amer. Rocket Socy. spokesman. ...Coming, 8 to 16,000 mph robot bombers, only 30 min. from anywhere.... Coming, "Increasing interest in religion everywhere in U.S." Life Mag...Coming, 100 yr. lifetimes..

NEW PEACE MOVES. For yrs. Publisher Frank Gannet has worked for a U.S. Dept. of Peace -- but failed, yet STAR recently said that Stassen in his new White House job is unofficially being called "Secy. of Peace.!".... COMMUNITY UNDERSTANDING is new project wherein a community prepares & sends abroad its own goodwill "ambassador". "Comrad-erie of bi-national groups". Brings international understanding on a personal level. ...Also, INTERNATIONALLY YOURS, 5000 pen pals in 37 countries. Asks women for 15 min. a day to spread friendship & understanding. Has mag. 275 delegates met in Apr. OUR PLANET HAS COMPANY! Quoting Gerald Light, ROUND ROBIN, June-July 1954. "This (predicted) moon and several others in a company of satellites moving at great speed around our globe, too fast to be photographed by present-day cameras, will shortly come closer & prove their existence in an undeniable fashion"..... And in last LLP, our Apr.-May issue, -Quote -- "Tiny moons discovered only 475 miles from earth. Astronomer Bagby describes "procession of more than 50 that continued for 1½ hrs." STAR. JOHN OTTO, CHICAGO SAUCER SLEUTH, flashes "Hold your hat! Striking news forthcoming soon. Be patient." He adds: "Adamski in best of health made fast stop at Chicago Airport on way to Michigan Lecture engagements."

LONZO DOVE, AMATEUR ASTRONOMER and one of the most persistent FS Researchers is evolving some very deep data re Venus-Earth-Mars positions in relation to saucer activity. He writes: "Overwhelmed with work, checking thousands of reports, finishing a thesis on Venus rotation period which is now in the hands of scientists in Washington. Says, - "June 1st marks beginning of usual Mars Rest Period which will deepen the present lull in sightings until fall.

LAST MINUTE NEWS, British sci. & airmen found FS wreckage. Say "from space" NEWS 5/23

THE LITTLE LISTENING POST at WASHINGTON, D.C. "The NEWS IN CAPSULE". Issued from this news capital of the world every few weeks when the new kind of news boils over. Listen in with THE LITTLE LISTENING POST. FOUR ISSUES FOR \$1.00.... Please watch your subscriptions -- no money goes for self-advertising. Watch the New Age get born! Washington, D.C..... June -- July, 1955

SUPPLEMENT TO THE LITTLE LISTENING POST

From The MAIL BAG

Letter just received from a world famous Saucer Author and Researcher who returned one month ago from a foreign country. We give it in part herewith:

"I was in ----- for two weeks and was entertained as never before in my life. I met and visited with all the govt. officials with the exception of the Pres. and would have met him also had he not been away. I must say that these people know more about space visitations than we do in the U.S. The officials keep their people informed weekly as to what is new in the field. They believe that well informed people can more than take care of themselves. I discovered one of the finest contacts to date, interviewed this man and his family, then was asked by the authorities to bring him to an official conference that he might give a personal report. There to the 300 present he told what had taken place. Then one of the Ministers asked him to get it out in book form that the people might know more about the event. As a result, there will be a book coming out of that country later this year.

"I am beginning to believe that perhaps it might be a country like this that will eventually break the ice and bring the truth of the interplanetary travelers to the world for they are indeed liberal. When you find the Air Force writing articles every week on their new findings or reports -- a Federal judge lecturing on space visitors once a week, and also publishing a weekly magazine on the subject, giving the latest information, you can then say that someone is actually doing something about this greatest event in history -- from the standpoint of authority.

"If I were to write a full report of my experiences there I doubt if anyone would believe it.... When a foreigner like myself in a strange country is given a police escort to one of the Minister's homes to chat -- that doesn't happen every day! ... I have the personal cards of many of the top officials and a pass to any government building. One of the groups I sat with I didn't even know was in existence; said to be the oldest technical group in the world, including a Minister of Astronomy. All of them cooperated 100%... I would never have believed it if someone had told me that such high officials of any country would have been so cooperative." Signed.....

MAIL OF A MORE PERSONAL NATURE

Keep up the good work! There is more to this than even you know".FLC,LA...."I got home & found THE LITTLE LISTENING POST and burned my supper reading it". E.R. Wash,D.C. "I rec'd my 1st copy & am delighted with it. In fact am enclosing another \$ and want it sent to a friend". N.M. Ohio.... "Keep up the trailblazing for the masses. We sure need more of the same". S.P.Ohio...."I read the LLP with considerable interest. I plan to circulate it around our office & then file it in permanent binder for future reference".R.K. N.Y....."You have an intriguing publication! I saw 3 saucers in 'V' formation 3 yrs. ago, stop, hover for brief intervals against blue sky, then dash off at right angles, dwindle & disappear in seconds. Size of smallest moons. Left me astonished ever since. Especially when the 'brass' says there ain't no such thing."A.B. Mass.... "I am so happy to find this wonderful little publication. What good news it is to me. I have just been looking for something of this kind. It is truly an answer to prayer. 'LITTLE BIG EARS', that's what our Space Group calls it". G.E.G. Calif. .... "A surprising number of short pungent news items...which in combination have a different aspect or impact on the mind, than when viewed separately. Please send me all back numbers". V.E.P., Va..... "I enjoy your little publication, and it surely does have the latest information to keep one as enthusiastic as I am up to date & posted on what is going on!" A.M., Colo....."Your magazine is to my mind one of the most interesting ones. I wouldn't like to miss a single issue. I enclose another dollar to be sure of no interruption". E.B.W., Wash....."Most powerful capsules yet! Should surely keep all of us on our tip toes!" C.C.,Fla. .... "Bravos for the LLP just rec'd. It not only tops the other FS sheets but it tops all of your own prior issues. I'm enclosing another dollar". R.H.,Balti....."Keep it up. All meat and no waste. Some mental oases like the LLP are few and far between". H.B.W. Ind....."Stimulating! Keep it up!" J.W.R. Ind.

WE EXPRESS OUR GRATITUDE FOR THE ENCOURAGEMENT-----Ed.
