CHRISTIAN ATTITUDE TOWARD VISITORS FROM OTHER PLANETS was theme of Conference recently held at Bonn. A PROFOUND THINKER - a man working close to Govt. sat recently in the Garden of The LITTLE LISTENING POST and expressed the following: "We are now one octave beyond Columbus. As curiosity drew him over the rim of the ocean, so Adventure and Expansion will bring the discovery of Free Energy. Saucers will be built. Men will fare forth from this planet. Higher Intelligences will not deter them. The thing is secular. Spiritual growth will remain a matter of the individual. Evil is traceable to the Survival Urge, even as it shows itself in Nature. The cure for evil is developed awareness that survival, brotherhood, are eternal facts regardless of appearances. This removes fear, always associated with evil."

SOMEONE OBSERVES - WE'LL BE SEEING MORE OF THE AIR FORCE - They're wearing shorts!

We inhale the stuff and there is no way to stop this criminal action.".....We put this up to the Dept. of Agri. "A terrific problem" they told us. "Bumble bees now scarce; wild pollinizers extinct. Farmers want mass crops so use spray; Insecticide mfgs. push their sales. No one to determine Balance. State govts. getting anxious in places." This problem bears on the New Age. THIS MAKES SENSE: Sen. Knowland says "Sell our industrial system to the world. We have the highest standard of living. The world is ready for it!"

All of these things are pieces in the great puzzle....When the time comes we will permit a disc to land, to be seen & measured - where you can walk up to it - when the world is ready....No dishonesty on part of writers claiming contacts. There can be objective truth & subjective vision. One function of discs is to absorb radiation."

MYSTERY OF THE AFTER-GLOW. All over Earth, the upper atmosphere shines with a light of its own - a green & white luminescence. Too faint for eye. Very diffuse. Not like auroras. Detected almost nightly. Greatly enhanced at twilight. Mass study soon to be made. Instruments will make an automatic survey of Earth's entire sky every 1/2 hr.

SAUCER ADD-UP. World-wide correspondents claim saucers thick as ever. One writer points out researchers tend to turn 1st to astronomers, YET, saucers, per se not in their field -- which is far out...Aug. FATE says "Only 5 possible explanations for saucers. 1, Space ships; 2, Space animals; 3, Natural phenomena; 4, Manmade. 5, Hallucinations. OUR GUESS - All five true. OUR OWN ADD-UP: There are saucers from space. BIG BIRTHDAY PARTY The British Interplanetary Socy whose organizers have the distinction of having been labeled "lunatics" recently celebrated its 21st birthday - with fanfare! Such a crowd came that a 2nd meeting had to be set up in another hall. Yet, only 3 yrs ago your Ed. called the IP in Washington one day to share some news about this Socy, adding, "Now isn't that interesting?" The man on the phone didn't say anything for a couple minutes and then he said "No"...This episode later became an AP joke which the organization widely publicized against its own self!.....Saucer Fans, take heart!
