THE NEWS IN CAPSULE

"ANTI-PROTON DISCOVERED! NEGATIVELY CHARGED MATTER! A WHOLE NEW REALM OF DISCOVERY!" blared CBS 10/19. Mostly this stupendous announcement fell on deaf ears. Those few alert believed the U. of Cal.'s heralding to be the first scientific step into another dimension. Long believing it to exist, scientists captured this "nuclear ghost" with world's most powerful atom smasher. The experiment is called "a classic in nuclear physics". This strange force has been known in occult lore as "the night side of nature", which, when understood, could perhaps produce a counter-balancing of the force of gravity. Everything might be opposite to what it appears to be. "Inner circle scientists", sleuthing on the mystery of saucer propulsion, are stepping up their research. Ultrasonic therapy already employed in many VA hospitals ... Nation's present health bill around 12 bill annually. But -- "Creative health for all" says Dr. Sanford of D. C. "will come with freedom from drudgery, from killer diseases & from ignorance" ... Prediction that the next great advance in medical world will be the "discovery of the etheric, or light body, that interpenetrates the physical. "Medical practice, not based on this understanding, is certain to be fumbling & indeterminate". Occultists have long recognized this interpenetrating body.

There's a brilliance and scintillation about mental "war" that can be healthy & exhilarating. SAUCER SURVEY. "How's your pulse since the 10/25 A.F. statement that saucers don't exist" asks one Editor. "Insult to our intelligence" seems to cover response. Next, David Lawrence jumped in with THE GRAND ANSWER! "Now the secret is out" he said, meaning They're OURS), and forgetting the effect on any thinking taxpayer - as tho our govt. would run such wild testings over crowded cities - or shoot its "own craft". How calcified mass thinking toward new concepts! SOME ARE PROMISING ACTION IN BEHALF OF PUBLIC INFO. Some think A.F. squelch eloquent of covered events. Some see connection with "anti-proton" news ... The alert ORBIT, 7017 Britton, Cincinnati, after crediting MacArthur with warning us of coming "interplanetary war", suggests this war is already ON, viz, jets chasing UFO's. But Commela in his hammer-blow add-up in Dec. FATE summarizes: "The great majority of authentic reports involve silent speeding discs that flee to the upper limits of the sky when chased. This is the real flying saucer! It is the controlled machine". ... From this we suggest the "war" looks only like more Earthian fear & meanness cropping out as per usual and that any "Mantell-like episodes" are genuine "accidents".
