THE NEWS IN CAPSULE

**HUMANITY WANTS OUT!** There are many indications that humanity is getting ready to go somewhere! It is getting ready psychologically. It is getting ready scientifically! It is getting ready militarily! It is getting ready Philosophically! It is getting ready ----**LITERALLY!** Some think much of it may go by the process of self-annihilation, (H or cobalt bomb.) Some geologists, also occultists think a lot of it will go by the water route (Flood) due to a "coming shift" in the earth's axis. Some think Inter-planetary travel will be achieved by rocketry. Some say saucers are already visiting our skies in large numbers, that open relations will be established & that man will learn the secret of their power --(and also in the event of a cataclysm saucers may remove many earthians bodily -- say Bible predicts "they shall be 'caught up'.") Dr. Franz Zwicky, noted astrophysicist, says overpopulation could necessitate blasting portions off Jupiter, Saturn, etc. with A-energy to create new planets with orbits comparable to earth's & that shuttle-spaceships for such work could be built in 10 yrs or so. He thinks we could even blast the great planets into orbits to our liking. (Wonder if they might have something to say about it! Ed.).....**THE INTERPLANETARY IDEA IS ACCELERATING!** Many deep observers express the conviction that the sheer need for further "Expansion" will force the human race beyond the confines of Planet Earth. **There is agitation of thought!** Brain cells are popping! Concepts are stretching! There's a groundswell in human hearts! Almost audible is a plaint -- "I am homesick. Homesick for a land I have never seen!" --- Yes, Humanity Wants Out! More and more it begins to look as though Humanity is going to get Out!

Imagine "skywriting from the Pearly Gates telling you what to smoke! **GREAT HEAVENS!** **WHAT'S THIS?** Report a big Harvester Co. called on a farmer & asked to take motor out of his tractor. Installed instead box 1x1x2 ft & put "control" in kitchen. Farmer now "plugs in" & tractor runs over farm all day long. Box sealed. Farmer can't examine it!

WHAT WOMEN WANT is for atomic scientists to get a move on and figure out some dirtless kind of heat, etc. to free them from endless cleaning. Bears on New Age. "Cleanliness is next to Godliness!"

(we're on our way somewhere - WHERE? Ed) One observes "After you pass 65 mph you're not driving your car - you're aiming it". Humans, unequipped with "bat-radar" are not equal. 3 A's man agrees that safety on the road BEGINS with tightening issuing of PERMITS. Now much of this is farce. Should include real character test.

U. of Mich. holds 9th annual Conf. on Aging - July 9 - 11. .. Fla. syndicate quotes LLP -- "What has always been lacking here is vision. When people get thru with their self-propagating (an activity shared by every lowest creature) then they're about 'done'. No lure for further 'creation'. Give them vision! Give them something to follow & seniority would not be the ugly & unholy thing it is today. As we know it, it is a disgrace to the solar system. People who have had 'that much longer to live' should logically be teachers, way-showers, inspirers -- at the same time adding to their own increment the fresh viewpoints of the younger generation which they could well evaluate in the light of their experience". The Syndicate Editor adds -- "Such a Call to Arms puts THE LITTLE LISTENING POST in the Class of militant crusaders in this field."... Watch H.R. 9092 -- Bureau of Older Persons BILL just introduced in Cong. by Cong. Ruess. "Will render help on same principle as Children's Bureau."
