I want to have a part in the "STICKER BARRAGE," saucer stickers for on mail all over the world. I understand this "BARRAGE" is to be a continuous thing with new designs adding from time to time. I understand these stickers are in three-color attractive designs and are being sold at cost (no allowance for those who have had to advance the work and money. ----- I am inclosing

ONE DOLLAR - for a pack of (approximately) 200

and am not forgetting to inclose a stamped, self-addressed envelope to help out. Since the stickers are made in London, if there is any slight delay I'll understand. I'm sure these Stickers are just the "ammunition" I've wanted to help publicize the UFO.
