THE NEWS IN CAPSULE

From the office in the garden

THE SPEED-UP FOR KNOWLEDGE INCREASES! Scientists, investigators of all kinds, are today banging their heads against new hypotheses. Research, per se, has become the Sir Galahad of the modern age. Increasing millions are being spent on it. "Britain plans to double her number of specialists". We are in no ordinary scientific advance. A whole new octave is coming in! Facts must become re-focused. The "fixed" has become the "fusing." Science in addition to adding to itself, must change much of its old emphasis -- just as in music the same notes can be played but the beat changed. Accelerating humanity is on the "dance floor" and the orchestra of incoming knowledge is doing just that - changing the beat - no wonder no one knows what "step" to take next..... In the maze of new concepts people ask, Where are we going? Where is REALITY? They are looking for "pilots" to lead through this uncharted Sea. Many engineers baffled by endless new juxtapositions turn even to metaphysics for answers. "Science fiction but cloaks our ignorance" says N.Y. Times. Every day the "impossible" overtakes us.... Meanwhile the BOMB waits with hot and hungry breath! "Angels hold the four winds!"- "These are times that try men's souls". ...Woe to him whose ideas are "fixed" in anything but the field of Faith - Faith in ultimate GOOD. "Faith is Life's dynamic, as Love is its Motif"..... There is a physics to Faith - The word "enchanted" applies to having been brought forth via chanting, the actual vibrating of the Logos - the Word. - Therefore, "lift up your heads and rejoice"- CHANT!- SING! -- Thus your salvation draweth nigh!

D.C. NEWS More big mystery skyquakes over Washington! ... 2½ mil visitors expected here in July & Aug.... AEC has outgrown new 10 mil \$ bldg before it's finished.... Catholic U. gets 1¼ mil \$\$ from AEC for A-reactor..... Major crime in D.C. lowest since '49 yet up in rest of nation 43%..... TALK OF REVOLUTION IN RELIGION COMING! "What if for 2000 yrs Religion has been sabotaged! Cluttered!" After pattern of Streamlined Age Religion may be stripped of all non-essentials, dogma, isms, to its central essential -The GOLDEN RULE. More articles in print on possibility of Spirit Radio & TV (mechanical instrument to link with 4-D world.)-- Would make isms re Future Life (found in all religions) SUPERFLUOUS! Church bldgs would be high Centers for Rest, Beauty, Music & for direct help in how to get along with others. Direct application of Golden Rule would be studied even as traffic laws are studied today. How to get along with less "bumping". "The very foundations of Christian Theology are being subjected to a serious reassessment" says author Edgar Seivers. WATCH! "I have sat on a log in the forest alone and there I have found God - acts of kindness and understanding all that is needed" STAR. "Spiritual Healing being highlighted" says WOR, N.Y.

RADIATION-LAITY GETTING VOCAL. "Controversy raging over world" said radio 5/30. LLP has reams of clips. Highest authorities in opposition! "As many splits among scientists as among the atoms". Strauss of AEC. pushed for final ans has proposed to Ike that he call a Conf of the Humanities to see if we can cope with the problems science has unleashed. "An obstruse field leaving man to wonder where the ans is if it is anywhere!" Cong. "fermenting!" "Pope concerned!" Japs boiling water! N.London abandoning Civil Defense - says "What's the use?" 25 highest scientists sent petition to 100 top Amer Universities protesting danger. Man has released a geni that is bigger than he is & what it will do NO ONE knows - only guesses! Secy Quarles says "this generation has a unique opportunity to eliminate war - which is now so horrible it can no longer serve the policies of any nation". "The atomic dice are loaded, percentages against us" (NANA). S.Africa starting program. "Fallout hazard to grow" says Sci News Letter. "Fallout Concealed" says Wash Post. "Germans ask suspension of tests". "Dust of H-bomb linked to growth-slowdown of children says Med survey. "Many children born in Japan are freaks". In Cal catches of fish checked with geiger counters. Recent Xmas Island tests rocked boats 35 mi away! "BOMB WASHED OUT THE SUN!".. 2000 Amer scientists signed appeal to end tests, "endangering health of the world." "Top" not getting anywhere," said radio 6/2, "IT IS UP TO THE PEOPLE!".. "WORLD GROUPS" headlines Wash. STAR.

NEW KIND OF CEMETERIES. Peace-Atom radiation called "greater than fallout", a problem of fantastic proportions". Termed "industrial leprosy". "Least publicized but most pressing is what to do with deadly waste." Short-lived gases are released from stacks when wind permits. Solid wastes are buried in ground at five "cemeteries" (or dropped mile deep at sea.) Burial grounds fenced & guarded. Areas monitored for "spreading". Liquid wastes treated, stored in tanks, watched, all at great expense, "while solution is sought". Life of tanks - decades, life of wastes, centuries! Ocean is most tempting "dump" but is primary source of our food supply, -- DEAD END! Some talk of shooting into Space. (But what would "Space" have to say?) When man split Nature's bldg. blocks he began to deal with UNKNOWNNS -- also "UNKNOWNNS" began coming into our skies! .. The picture seems to get clearer! !!! Ed.

Look for more ennui & mental illness, more drinking, more traffic deaths, more general deterioration - UNLESS leaders foresee danger and start Orientation program NOW (One new term is "leisure therapy".)-----GET READY!

DEFINITION - anyway you look at it, the whole cosmos is a great "Refinery"- in action. MANY OUT-OF-TOWN RESEARCHERS have been coming to THE LITTLE LISTENING POST - and many more are expected this summer.

LLP is asked to say - "Please note SUPPLEMENT Re JUNIOR SKYWATCH - Will all saucer clubs please try to start a JSA club in their city? Badly needed NOW!

SKY NEWS. Near-collisions by planes in air is on fast increase. (Past average was 4-a-day)...U.S. & Russia in race to get satellite in air FIRST. Engineers think feasible...HERE, fast camera for photographing auroras over most of sky! (What beauties await - Ed) -----Look up! Look up! the sky is yours, its lure is getting stronger - adventure beckons from above, where clouds and stars and "mystic ships" sail in the endless yonder! Then make your wish upon a star, nor fear it will misguide you - magnetic tides of Space may sway, but you will never lose your way if its your star you're tied to!

NATURE - WILDLIFE "America is on a beautification spree" says Nat Wildlife Fed. "Now has nearly $\frac{1}{2}$ mil garden clubs, 50% increase in sale of flower seeds & plants since '50. New Age, here we come!....L.I. scientists studying migrating birds - have counted as many as 1000 against a full moon in a single night....Hydroelectric work in Africa is changing life for natives & elephants - latter fighting back, apparently "organized" - game rangers hoping to drive herd of 1000 to new location (want to help?)...Hamberg sets up 2 $\frac{1}{2}$ acre park for homeless animals (around 20,000 a yr of them)....Tokyo radio pleased many with program solely of frog calls broadcast from side of cool country pool....Swedish Air Force canceled maneuvers on Baltic Isle in respect for Canadian goose nesting there!

SENIOR CITIZEN Before World War I Seniors were respected for gray hairs, per se - tended toward "let-down"; later emphasis was all on YOUTH. Seniors at age when health broke, loved ones passed, jobs ended, were left to find their way alone. Then came Social Security, -helped funds but doesn't match inflation! Nor provide fresh interests! The Senior's plight is Society's plight! "Boredom, poor diets given as cause for Aging says recent Conf. Next came Super-Sixty Clubs - which entertain but many Seniors not in a mood to play pingpong! (Great galloping go-devils, where's our VISION?- Ed.) --- Age Center in Boston says there are now over 14 mil people in U.S. over 65 & number increasing. Says much of our thinking re this age-group must be scrapped. Advises "Never retire, just say you're changing your occupation". Says time-killing hobbies prove unsatisfying. Does not suggest competing in world but says be a self-starter - helping others in some way is most completely satisfying work. Most unhappy are those who look on later yrs as a prolonged vacation. Says "This age-group is a neglected gold mine."Wash STAR proposes Senior Citizen Service Center where all wants can be processed and matched up.

PSYCHIC ADD-UP. LLP is an objective organ but watches many esoteric groups. Nearly all speak boldly of some big world change due now, as do many CHURCHES. "Christ's invisible kingdom is soon to become visible" is keynote. Opinions re A-war and World Flood differ. Much talk of "rescue by saucer." Says one spokesman "Unless big govts end bomb race - in one yr Humanity will have reached the point of no return!" Fits with AP release of 5/31 that Russia has H-bomb so big they dare not test it - "would send oceans spilling over the world!" Much talk of wealthy people coming into "New Age" efforts. (Money may lose its value later.)..."History hath not yet recorded so great a work as cometh in the next 3 or 4 decades."...."A definite corner has been turned in arresting the forces of evil." (Fits with swelling mass outcry now going forth against radiation. Battle of Opinions waxes great. Much confusion between Extra Sensory and Objective workers. LLP feels much of this could be cleared by more careful terminology. "Science is only a very limited organic perception", yes, & there are worlds beyond the "measurable" which individuals penetrate, but let them label their source and not mix it in as though the source were Objective, as it is with most findings of Science.

A NEWCOMER TO WASHINGTON (often called "World HQ") is Maj Wayne S. Aho from Cal. He is a former Army combat intelligence officer & recently honorably discharged from the Reserves. He has been trained and is on voluntary assignment in Washington to encourage harmony and understanding among all "new age" groups - to find qualified leaders for what is fast being recognized as a spontaneously formed world cosmic order of fellowship, particularly interested in SPACE - and to develop "UFO" understanding in Washington Officialdom.

THE SAUCER AGE is now ten years old! More saucer sightings than ever! Yet SOLUTION still eludes! Fight continues re if phenomena is in 3-D, 4-D or Inter-D. Probably latter (in our poor terminology.) F.S.Bulletins coming to LLP from all over world now average 2 a day instead of 1 a day. One day 4 came. "More & more serious people on the Saucer Front." Batting about of Ideas re Saucer Mystery is mental gymnastics of unprecedented proportions. ESP Groups now very VOCAL. Trend seems toward "SHOWDOWN re where "Objective" and ESP fit together...."New laws in Optics may be discovered." Claim of "observation discs" that can record thought, also "the reduction of Sound into thought-frequencies." Dan Fry's UNDERSTANDING Groups spreading - Iceland, Austria, Hungary -- Cal firm now making boats in shape of saucers, "navigate better, turn on a dime." Report of hoped-for "World Saucer Club of the Airways" (by hams).. F.S.Review, London, now has German edition - Swiss le Courrier Interplanetaire now has Eng. edition. New saucer bulletins now coming to LLP include Japan's UFO RESEARCH REPORT, huge UFO-GITS from Amsterdam, SATELLITE from N.Orleans, 1st big issue of LIGHT from Queensland, etc. Attitude of officialdom shows up in such episodes as recent one in Cal when, following a great "boom" in sky, a big hole appeared in a residential back yard, military moved in for days - dug great 15 ft hole to investigate - found nothing!...Parts of Surrey, Eng are without normal gravity. A ball thrown in air will drop "too slowly". Govt. flabbergasted. Geological Survey seriously concerned, have drilled $\frac{1}{2}$ mi down over 7 mos. No ans!....At this the 10th anniversary of our planet's Saucer Incursion we hear that the first photo of a UFO was taken by an astronomer in Mex in 1883, during total eclipse of the sun. He saw things going across the sun in pairs. During all one day and next forenoon counted 1128 of them. Got photo of one - cigar-shaped.....A "hard-headed" university man (known to LLP) has just stated publically on radio "It seems almost beyond doubt that we are in the latter days."....TV pictures of recent H-bomb at Xmas Island would seem to bear him out -- looked unearthly!- Ed.....Astronomer Jessup head PSI Group at Wash. is readying to study moon-like craters in Mex. - other projects later. Jessup reports that tapes have now been caught on the west coast of ground-to-plane & plane-to-ground conversations of jets scrambled in UFO chases! He expects to have copies of these tapes soon!! Should prove a great opener-upper - Ed.....Chi. Trib. (Reuters) May 16 says British mathematician Cooke told Sci. Socy of Malava he believes saucers are controlled by intelligences from outside earth, "not hostile, might have come to save us from ourselves."....Lengthy AP dispatch from London gives impressive add-up from F.S.Review there - pleads that we apply the Golden Rule in treatment of these "Visitors."....Much press coverage in N.Z. re a bout two farmers had with an 18" disc, cool but changing colors which maneuvered almost within reach but strangely eluded them -(glorification of proximity fuse idea? Ed....Re saucer that crashed in Norway in '52, report says military there is analyzing its material & preparing Report. "Emphatically not built in any country on earth" said Col. Larnbyl - waiting to confer with Eng & U.S. - must avoid panic - think Arctic serving as kind of base - two Lieuts assigned to watch have seen saucers land & take off in snowstorms there!.....NOTICE - Maj Keyhoe, Director NICAP here tells LLP a keen inside story on the Oxnard AFB Case will be released soon; also that a revolutionary plan for cooperation with Air Force will be given out. Egad and Egad! -Ed.....Latest WELTRAUBOTE (German) carries two striking photos of saucers.....Letter from Bournemouth, Eng. tells of new saucer Group there just formed, has 54 members. Tape from San Jose Group says they have 100 members. New Groups forming in Can....N.Z.Mag quotes Melbourne "SUN" article re a U.F.O.-Scope atop a bldg on Collins St. Magnetically controlled, sensitive to saucers. Hopes of eventually having hundreds of such "watching posts". Will later combine radar and cameras with these saucer-spotters. Large Melbourne Group will also go mountain ranging with geiger counters, telescopes, etc. Very active. Have weekly TV program. Address Peter Norris, Box 32 Toorak Near Melbourne, Australia..... Ten years of flying saucers - and still no answer! But often some "opinionatedness." In a mystery as big as this one 'twould seem the smart thing to do would be keep an open mind. But the average human mind seems built more like a bear trap - it wants to snap shut right away instead of remaining open. If governments were honest they would unquestionably say "WE DO NOT KNOW" - then might fear panic. DEAD END! But "turned up noses" tend to get in the way of good sky-watching, Necessary procedure seems education of mass attitude, based on factual happenings covering whole field. It's the WHOLE Front LLP is watching -- the only publication of its kind.

HEALTH FRONT T.B. said to be on the wane...Cancer may be curable with soundwaves which can be focused so accurately it kills intended nerve tissue but does not touch other tissue."....Do you want food put in Aluminum cans??? If not Howl NOW for such are on the way!.....Are we discovering some of the actual mechanics of how man's soul is limited, tested, challenged by its "cloak of matter" as witness the following: "Control of mental illness may be near (now thought to be caused by disorders in body's metabolism...Amino Acid may feed "drink-control-center" in brain and so control alcoholism in addicts. (There are now 4 mil alcoholics in U.S. unable to work.)....Sleep (an artificial kind) may offset old age & other ills" claims a Soviet scientist - (15 yr old senile dog treated 3 mos is now 21 & youthful.)....Current emphasis on tranquilizing drugs is eloquent of tenseness of our times...Cigarettes thoroughly blacklisted in survey, reported 6/4...U. of Wisc digging in on how cells chg food into energy. Rockefeller Inst has new device combining color TV with Microscope to show how cells work....Increasing fear of HARM from DDT...Ex Surgeon Gen says top health peril is now RADIATION. Plan for starting banks of living cells to save human species against total A-war. Ban asked against more chemicals in foods - "industry going to fight tooth and nail."

The JUNIOR SKYWATCH OF THE AMERICAS

In Washington, D. C. on May 24 two seven-year-old boys started a fire which destroyed a \$400,000 lumber yard. When asked why they did it they told police "because we had nothing else to do!".....If their imaginations had been captured by such activities as are inherent in The JUNIOR SKYWATCH OF THE AMERICAS they would have had abundant opportunities to find "something else to do."

The JUNIOR SKYWATCH OF THE AMERICAS is a newly formed organization with Headquarters in Washington. There is a sweeping new interest in the Sky! We are becoming very space conscious. The Sky is our new Frontier! The JSA aims to draw the attention of Youth Skyward! While they are still free from economic pressures and while they are vigorous in viewpoints and unfettered in attitudes they can more easily be pre-conditioned for their place in the New Age -- all things leading Up and Out! With the forming of local Groups or "Posts" all over the Western Hemisphere The JSA will urge its members to offer their services as Satellite Watchers and to cooperate in any way with the needs of those conducting the activities of the Geophysical Year. Particularly their sky-watching will include the mysterious and fascinating subject of the Unidentified Flying Objects, how and where to report any sightings, and they will be directed how to study the background of this whole great subject which, in its potential, seems to forecast an impact on our lives of unprecedented proportions! The JSA will also study meteorology with all its colorful close-to-nature phases, the names and ways of clouds, tornado-alerting and the new scientific program of attempted "weather control". Members will keep a close watch on aerodynamics and all the new and changing forms of vehicles that ride the skyways.....The activities of the ham radio operator will also be a part of The JSA. They will have their own kind of Clubs of the Air. (Such will be very effective in tracking and studying UFOs, etc.) In every way they will feel the lure of the Sky!

Boys growing up on this exhilarating "mental diet" instead of on what the minds of many are left to feed on today will, when they later present themselves for jobs as Meteorologists, Electronic Engineers or for any of the many activities having to do with the great new field of SPACE, come into such lifework with a background that gives them something akin to a "blood relationship" to it!

Henry J. Taylor, well known writer and broadcaster, recently appointed Ambassador to Switzerland, told a Senate hearing not to "laugh off reports of 'flying saucers'". He said "it is difficult to deny that something is happening around us that we just don't quite understand".....Mr. Fernando Hazera of the Organization of American States, Pan American Union, writes us: "We congratulate you on your efforts to unite the youth of the hemisphere by establishing The JUNIOR SKYWATCH OF THE AMERICAS."

The JSA will cooperate with any qualified person or group to form local Posts such as are functioning in Washington, D. C. The JSA membership is \$1 a year. For more details write to -

ARNOLD KRUCKMAN, DIRECTOR, The JUNIOR SKYWATCH OF THE AMERICAS
