### THE NEWS IN CAPSULE

\*PLANET EARTH HAS ENTERED THE PSYCHOZOIC AGE. -The Age of the Unpin-downable!) "We are rushing headlong into an incredible psychic adventure" says Dr. Meade Layne. We are knocking at the doors of all mysteries, the keys to these doors have been known from old, found in Occult studies (tho distasteful to much of the West) an Age of Dissension since we lack even the terminology". For those minus inner sight it is THE AGE OF ANXIETY -"Science has become the handmaiden of annihilation". "The spread of power without wisdom is utterly terrifying" declares Bertrand Russell. ....On the Far-out Front human eyes are straining, human minds are conjuring, human hearts are crying for the answers and for Hope!....Pres. Frondizi of Argentine told Congress "Defense of this hemisphere will be by routing the causes of misery."..."People are tired of the Fear and the Waste of WAR" says Ike - "man can build a world where all can live in dignity." .....The WAYSHOWER came with the gospel of happiness - "Fear not! - "I am come that ye may have LIFE!....Flying Saucer Review, London, states - "The destiny of man remains a mystery; but nothing is more certain than that we are on the threshold of discovering the potential of Man, the dynamic of the Soul. Life beyond! - the question has ever haunted the Human Race. It is possible the UFO may be the culmination of the age-long inquiry" - That we will evolve beyond "the worship of the grave" as Otis T. Carr puts it.....America's Destiny is SPIRITUAL Leadership, -"face-saving" missiles are not the measure of Superiority - but instead, the birthing of "A NEW ORDER OF THE AGES", as bespoken on every dollar bill..... The free world is a ferment with small study groups everywhere, with sky-watchers, with new kinds of "human engineers." All are spurred on by some "pre-knowing" of A WAITING BROTHERHOOD AMONG THE STARS. The big job is to GET READY that we be found not wanting. The work is enchanting because it deals with every conceivable way of bringing more happiness to this poor Planet. The GOSPEL - the good news, is that more happiness is possible! MUCH MORE! It is just that simple!.....It is singularly significant that on an eve just before Christmas (Dec. 19, 1953) all over the world once again was heard from the skies a Voice - "PEACE ON EARTH, GOOD WILL TO MEN", (incidentally an event destined to revolutionize our Communications System.) "The ATLAS gleamed as a brilliant new STAR in the Christmas sky" said Newsweek. The Christmas star itself has never been explained tho astronomers have tried. Almost, Science has now revealed to us its secret. In those pre-science days of 2000 years ago it was, it had to be - a SPACE SHIP!.....Again there are heralds in our skies. And again on Earth the Gospel (the good news) is being preached. Saucer lecturers are on the go, new kinds of books are coming out, New Age Foundations are springing up, and a new kind of POWER, free, lavish and levitating, seems destined to lift from us many of our burdens....Those who have caught the Vision of this BETTER WORLD can never again un-see it. Their souls feed on the eternal flame. SOMETHING TREMENDOUS is just ahead....."THEY CAN'T HOLD BACK THE DAWN!"

\*THE LITTLE LISTENING POST is issued every few weeks, when the News 'boils over' from Washington, 'News Capital of the world.' It is a Conspectus of swift-moving events. What is ahead in the SPACE RACE? Are they on the right track at Canaveral? Watch yesterday's Fiction congeal into Fact. The LLP is your Road Map for these accelerating times! WATCH and LISTEN-IN WITH THE LITTLE LISTENING POST - THE ONLY PUBLICATION OF ITS KIND.....SIX ISSUES FOR THREE DOLLARS

WHAT IS-S-S-S-S-S GOING ON IN BALTIMORE ???

Some kind of BEEHIVE of activity is in full swing & folks much on the wing in & around "O.T.C. ENTERPRISES at 2502 North Calvert Street there! It deals with the subject of ENERGY - a new kind of it, a kind that will be free, no meters, no oil bills! "An ENERGY that can power anything from a hearing aid to a space ship." ENERGY IS, of course, OUR COMMON DEMONINATOR. Sources of energy, fossil fuels, etc., are on the wane. Atomic energy is clumsy and dangerous and its WASTE is a nightmare! Yet, with our Planet's swelling population and expanding culture the demand is for ever more ENERGY. By the year 2000, say the scientists, we'll need the equivalent of two quadrillion barrels of oil a year! The busy staff at "OTC (some of them volunteers) are throwing every erg they've got into getting this new ENERGY "piped", and in plenty of time! It copies SAUCER-ENERGY, and real SAUCERS are promised, as well!

A GREAT EDUCATIONAL PROGRAM IS UNDER WAY to acquaint people the world over - with this revolutionary thing. For it is without precedent! Just as AVIATION was furthered by young experimentors and their toy kits, so "OTC" is including the "small model" phase in its Introductory Work. Such orders come by the thousands according to a Fact Sheet LLP got hold of....On paper the scope of the work looks TERRIFIC!

IN 'FRONTIER CITY', Oklahoma, they're building a 45 foot REPLICA of the OTC-XL, an earthbound Saucer that will simulate a trip to the MOON. Three more like it will "appear" in California and will be mobile for touring State Fairs and Scientific and Educational Expositions all over the United States. Particularly they will go this summer to Michigan State Fair, Canadian National Exposition, Oregon Centennial, Pittsburgh Centennial, plus other State Fairs. (We DARE the Air Force to say "Saucers do not exist! - Ed.

A CANADIAN SYNDICATE IS GETTING READY TO MARKET THE NEW PROPULSION SYSTEMS and serve as an advance unit for other nations with power needs. We see on the Fact Sheet such phrases as --

"Substantial amounts are on deposit to secure options for State Franchises"

"Groups in Penna., Okla, and the New England states have begun the formation of State Corporations"....Procedure will be followed in all 49 states.... and in other areas of the world."

*Do you know Braun?*

"IN THE SPACE RACE supporting research is the field where the United States is falling down" asserts Dr. von Braun, - "Our lack of ability to really plan ahead is costing the tax payer a lot of money". Numerous times LLP has personally heard him give this impassioned and ominous plea. -- Says the AP, Jan 18, "Government science leaders are warning that public disinterest and lack of money for RESEARCH are endangering the United States." -- It is hard for LLP to agree that the public is "disinterested" when we recall von Braun's famous White Oaks lecture some time back, how we squeezed in at the last minute and were thankful for a seat on a coffee table in an ante-room, when the lecture was a half hour late and 3000 cars were turned away and when von Braun himself barely "made it" on account of the traffic jam there! The public not interested in SPACE? - Huuh! - Maybe they're fed up with the failures! And with what the failures are costing them! And now the great scientist Obreth, it seems, is declaring against Rockets for space travel in favor of ELECTRICALLY propelled ships! Where would that leave us? Where but on the doorstep of something NEW! Man is grappling with the greatest challenge of all time - trying to get off the Planet! What if it's not as complicated as it appears at Cape Canaveral! A truism says Great Things Are SIMPLE! What if Otis Carr, strange 'prodigy' of the wizard TESLA - has something!

WE HAVE JUST SEEN A HUGE "OTC" PUBLICITY SPREAD with a big white Saucer pictured hovering a beautiful Research Center and beneath in bold letters - "HELP WANTED", Men of Courage & Vision needed for SPACE AGE ENTERPRISES: Highly Trained Engineers for Electronics, Astronautics, Electricity, Hydrolics, Electro-gravitics, Space-form design, also Architects, Celestial Mechanics, etc. SON OF WORLD FAMOUS SCIENTIST SAYS "MR CARR HAS THE ANS." Occasionally the "OTC" station wagon rolls up in front of the Little Listening Post (where there is a constant qui vive for things on the Far-out Front) & the occupants are aglow with some kind of fire born of the spirit! This may sound like a lot of FANTASIA but -----WHAT-----IF ?-----  
-----WHAT-----IF ?

Special News Bulletin

We expect 1959 to be a year of splendor, a year that will be long remembered for the great development of new understanding in the hearts and minds of man. This will be a fitting follow-up for the great accomplishments of 1958 by those who have labored so hard to hasten the growing up of mankind. Man will come of age. In 1958, we announced that in the United States, the psychological breakthrough was accomplished in the acceptance by the majority of people of the reality of Space-ships, this despite all censorship. The majority of people now accept that "there is something going on in the Flying Saucer business". Now, people will come closer to what is going on. We send greetings to friends throughout the world, wishing you great success in all your enterprises to lift man up in your town, area and nation. Help is waiting for all who will take the necessary steps to do constructive work in their home area to bring man into his heritage. Intelligent direction, guiding constructive, effort, results in progress.

Oh earth, unfurl thy wings  
Lift up from despair, darkness and want  
Know you not, that millions watch---  
Your fledgling efforts to return,  
To that which once you knew!

The Director of Washington Saucer Intelligence, Wayne S. Aho, has been appointed Director of Public Education of OTC Enterprises, 2502 N. Calvert St., Baltimore 18, Md. He will assume these duties in addition to his present work with the Washington scene. Many understand that the new space age will bring to all mankind a new visualization of truths of the universe, unfolding as rapidly as man can absorb this great understanding. Young minds are clamoring for uncluttered learning and many are beginning to realize that a great unfoldment is due -- a breakthrough brought on by such greats as Nikola Tesla followed by Otis T. Carr and others, see: "Prodigal Genius" and "Engineering The New Age" by John J. O'Neil, Ives Washburn, Inc., N.Y.; "Dimensions of Mystery" by Otis T. Carr and "The Law Of Life" by A. D. K. Luk, Millennium Publications, 2502 No. Calvert St., Baltimore 18, Md. Therefore, a new approach to education is all important in this space age. Man has gone as far as he can go in so-called pure science, he has gone far enough to learn that he can blow himself up with wrong application of atomic energy. He has learned by unhappy error that all radioactivity can injure and mutate. NOW a new approach is needed, it has always been available, and is now being introduced. Smog, pollution of air, poisonous fumes and radioactivity can be eliminated by new craft for transportation, new power for factories, new devices and new applications of energy.

Organizations are rapidly forming, incorporated in each State and in various countries to participate in the herculean task of introducing new applications of free energy for public use. Re-education will play a major role. Letters from interested parties with ideas and desire to take part in this program will be welcomed in Baltimore.

---And so man turns to a new chapter in world history.
