THE NEWS IN CAPSULE

*THE GREATEST "POKER GAME" IN HISTORY IS NOW IN PROGRESS ON PLANET EARTH! Hotter grows the fight 'twixt the Good and Nether forces. Small wonder Visitors from Space are zipping through our skies, watching this Drama of the Ages----probably recording it for advanced history lessons in classrooms of far-off stellar reaches.....We have just passed through the most frightening week in history, said the radio late in October. "We rise to ever greater levels of intensity", Stevenson told the U.N. Sage-like Norman Thomas said on TV that he doesn't think the world will last much longer with these recurring crises----ONE of them is bound to get us unless we make a DRASTIC change! In this Russian roulette, all the gun chambers will not prove empty!!..... Whither are we whirling? Watchman, what of the Front?....Put your ear to the ground and listen; faintly, through it all you'll hear the distant hammer blows of the New Age Battlers. They're coming nearer - those with Vision - the ARMY-SPONTANEOUS! They are beginning to make their power felt! They are attacking secrecy in high places; attacking poisons in air, food and water; attacking drug monopolies; attacking profiteering on the sick; attacking ALL EXPLOITATION!! It's no small reach to another whole octave; it means both venture and adventure.....Today's challenge is almost too much for some souls. Many complain of feeling l-o-s-t. But, as in a great Fraternity, pledges don't shun the pain----with them, suffering is forgotten in the glories that are dawning. Enjoy the battle! Throw yourselves in! We're "Volunteers" Eyes are straining from 3-D to 4-D. WE'RE ON OUR WAY HOME! Even Milton wrote of "PARADISE REGAINED"!!

* * * * *

*FLYING SAUCERS WINNING OUT! A regular caller at the LLP, who does much traveling (U.S. & abroad) in his tele-communications work, has just told us there is a noticeable change in public attitude toward UFOs despite our news-wire silence. He says that "professional people now discount Air Force denials & accept the idea that intelligent beings from Space frequent our skies; they are here, minutely studying our Planet, & they will gradually show themselves more widely as public acceptance of them grows." In the Argentine, for instance, where there have recently been many sightings & even landings, there is no attempt by either press or officialdom to dismiss them or to discount the interplanetary hypothesis, confidently put forward. The highly respected "Flying Saucer Review" (London) observes, "It is beginning to look as though events outside the U.S. will sooner or later begin to affect the attitude of the U.S. Air Force. If the peoples of the rest of the world begin to accept the Saucers as fact, the U.S. will simply have to alter its stand, or remain in isolation on a subject which could OUTWEIGH ALL OTHERS IN INTERNATIONAL IMPORTANCE."

*SKY NEWS: LLP has word from a close inside source that Venus & other planets are thought to be emitting CODE MESSAGES. Another close contact tells us a Fed Agency, working with radio-astronomy, is getting signal-like sounds from Outer Space,

believed to be intelligent....Man-made radiation belts, result of U.S. & Russian hi-altitude tests, may persist for many years----are we bottling ourselves in?.... Catholics are doing much speculating about life in Space, asking, "Is there a plan of Redemption elsewhere than on Earth?" Pope says, "God did not intend to set any limits on Man's efforts for conquest".....NASA is testing shapes for "space ferries" between Earth & orbiting vehicles; now working on lenticular or flying saucer shape. X
.....JFK SAYS WE ARE IN THE SPACE RACE TO STAY----"WE WILL BE FIRST!" Personally toured Man-in-Space factories. Our Space program will cost us 50¢ a wk for every man, woman & child.....Here, fearsome talk in English mag that Satellite TV could be used by Gov'ts to invade people's minds with SUBLIMINAL messages----(look out for "cultural exchange" programs from Russia!--Hells Bells!!).....Our 18-mil \$ Venus rocket will pass close to Venus mid-Dec. Watch for something startling! Think of what lies ahead when we ourselves go star-cruising. God has provided no end of mystery & adventure for us in the coming years.....First space-probe dispatched to Mars Nov. 1 by Russians. In Feb. U.S. will take infra-red photos of Mars thru a 36-in telescope floating in the stratosphere...Mars & Venus, we mean business!.....Hayden Planetarium (NY) has on file over 30,000 applications for trips to the Moon, Mars, Jupiter & Saturn---when & if! (That's about one good load for a Mother-ship...)

*WAR: Dr. Leo Szilard, sometimes called "Father of the A-Bomb" - who recently said the world has only a 10% chance of survival - now lives in the DuPont Plaza Hotel in Wash'n & heads new committee of 28 distinguished scientists, pledged to abolish war. Another new group is called Scientists on Survival (SOS!); scientists are beginning to feel the LASH OF CONSCIENCE over what they have unleashed.....A suit for injunction against A-tests was filed in Wash'n & Moscow by 186 people from 22 nations; the defendant here is AEC; pointed up by a touring Hiroshima Exhibit.....A delegate to a big electronic convention in Wash'n told LLP the scientific gadgetry that is coming is BEYOND BELIEF----particularly in miniaturization of WEAPONS (world suicide in a matchbox)!.....Missouri Cave Asso. says 2500 people called recently asking if the caves would be available to them---(hmm-m-m, right back where we started!)..... A European film producer who kept a home in Lapland told newsmen that, tho he loved it, he will never return; he said that due to Russia's Arctic bomb tests, 50% of the Lapps in that area are either dead or dying (leukemia from fallout).....Fifty years ago, Historian Henry Adams predicted world disintegration, which would come about after the "moral collapse of Science"; that collapse is rapidly developing, warns Lewis Mumford, adding: "Scientists are 'kept men', their judgements distorted by pressures from superiors. Scientific secrecy has become a disease. The idea that only experts can decide ultimate issues is an absolute snare & a delusion; the cultivation of this illusion is the mechanism by which the military-industrial-scientific complex gets its power".....What is the hope of changing human nature before it is too late? History doesn't give us any. The LLP mail is flooded with expectancy of a great, final blow-up. Yet, countering this, one school of thought feels that something is raising the Earth's vibrations "due to moving into a new sector of Space"----that there will be "more energy, more life-force---depressed minds will be lightened, the soil will be much more productive - and, with enough for all, war & crime will cease." X
Can recalcitrant Man slide into this "higher level" - or will it take a cataclysm to divide the Sheep from the Goats? "As it was in the days of Noah", apparently SOME-THING big lies ahead."

*DO THEY REALLY WANT TO CURE CANCER? A year ago, world-famed Dr. Andrew C. Ivy of the Univ. of Illinois assembled 4200 heavily-documented case histories showing cancer cures and/or great lessening of pain thru use of Krebiozen (on "terminal" cases, those given up for lost). Complete files were submitted to Nat'l Cancer Institute (large Federal agency in Wash'n) which has been futilely testing 100's of substances--even grasshopper droppings--in their search for an effective anti-cancer agent. After stalling for months (while agonies go on), the Inst. has returned the Krebiozen files to Dr. Ivy, claiming data is insufficient to convince them---!! (How many do they want---42 THOUSAND?) For the background to this shocking affair, see Herbert Bailey's "A Matter of Life & Death" (Putnam's).

*NATIONAL HEALTH FEDERATION--great watchdog on our Health Front--shows in their Nov. Bulletin that hundreds of thousands of letters have now been sent to Wash'n protesting

the "sneak attack" on the Health Food industry, an FDA ruling which would force you to have a Dr's prescription for your supply of vitamins, etc. "Keep up your protests until the FDA drops this absurd & dangerous maneuver"---that is the plea....(Nat'l Health Fed. now has 18,000 paid members; are you one? Write them, & join:- P.O. Box 686, Monrovia, Calif. You'll never regret it...

*FADEOUT FOR CIGARETTES? The war on smoking continues despite ad men's efforts to mesmerize you into buying. Nat'l columnist says evidence against cigarettes is now overwhelming! Mfrs cracking heads as industry searches desperately for new "out". Scientific American gives results of 6-year study of 1 mil U.S. adults; dozens of charts show in sharp detail how the number of smokes per day predetermines a man's life timetable...Signs of the trend: AF is banning cigarettes as gifts to Airmen in hospitals; high schools distributing booklets showing the cancer hazards in smoking... TV documentary on CBS jolted smokers coast-to-coast with warnings of what lies ahead. Not mentioned was this fact: all smokers are getting a double Whammy---the tars & nicotine in the tobacco itself, PLUS the poisonous insecticide fumes (sprayed on the growing leaves) set free with every "satisfying" puff!!!

*PUBLISHING NEWS: Much ado over Rachel Carson's new best-seller "SILENT SPRING"---is biggest attack the 300 mil \$ pesticide industry has ever had to face---shows how the world is being slowly poisoned by a relatively few willful exploiters! Saturday Review says book should be read by "every American who does not want it to be the epitaph of a world not very far beyond us in time." Boston Globe predicts it may turn out to be the "Uncle Tom's Cabin" of this century. Justice Wm. O. Douglas calls book the "most important chronicle of this century for the human race." And N.Y. Times urges everyone to "take an effective part in the (pesticide) battle that may shape the future of all life on Earth." (The hour IS late!).....Just out---"Our Synthetic Environment" by Herber; a broad discussion of our use of pesticides, antibiotics, fallout, our relation to Nature, etc. - a balanced approach....."Washington Cover-up" by Clark Mollenhoff is the hottest thing in its field; Scripps-Howard says, "When Gov't withholds information from the public, the public has the right to stand up & holler ---and should!" (Applies to subject of UFOs, too).....Nov. FATE carries "Doomsdays That Never Cracked"; this type of "expectancy" persists---is it a subconscious preview? Even many youngsters today look forward to a 4-D world (via the Doomsday route?)..... Oct. 13th Sat Eve Post began series titled "Fail Safe" - about "the Great Accident" (which Angelucci said years ago the 3rd World War would be called); this dramatic fiction, loaded with authenticity, includes UFOs in a vital role....."Space World" mag. (newsstand) now carries pro & con column on UFOs.....New volumes coming out by Geoffrey Hodson - some being reprinted, including beautiful "Kingdom of Faerie".....The Hon. Brinsley Trench, former ed. of F.S. Review, London, writes us that his new book, "MEN AMONG MANKIND" is due out in Nov.---a thought-provoking view of "visitors" who are now coming to Earth---promises to be a great book---many advance orders.....Norbert Gariety's excellent Saucer monthly, "S.P.A.C.E." has as subscribers Cape Canaveral Missile Test Center & the Air Force Research Labs, both ostensibly anti-Saucer..... In Nationalist China they are recovering & reprinting 15th-Century Chinese encyclopedia; it contained 11,095 volumes----"all human knowledge"....!!

*THE BENDER BOOK: Seldom has any literature in the UFO field caused as much controversy as Bender's new "Flying Saucers & the 3 Men", re his 9-yr-kept secret. LLP's add-up is that it was 4-D negative "phenomena"---it was eerie sabotage of the big subject & should have been exorcised at once (including throwing out his weird paraphernalia, which probably attracted it.) The book's chief value is as a lesson to others. It poses one of the greatest of all questions---where does 3-D leave off & 4-D begin? The book may well prove a springboard among Esoterics & UFO fans, who need more than anything else to address themselves to this puzzle---a subject heretofore sleazed over in utter disregard of semantics; & this, in turn, has led to bickering & needless division among researchers. (The simplest terminology would be: with 3-D, the BODY ACCOMPANIES an experience, & with 4-D it does not.) The subject is so hot that Gray Barker, the publisher, has assembled the 100's of analytical letters he has rec'd & is making them available in a sequel book. It is an oblique approach to something that needs to be dragged out & faced.

*SAUCER FRONT: UFO Breakthrough in Sweden! Military authorities have turned over their complete Saucer files to the Swedish UFO Research Soc'y; Gov't says UFOs are not hostile; Commander-in-Chief of all Swedish forces announced there is no reason for secrecy; director of civilian soc'y then went on TV, showed Adamski photo, received wide press coverage; much public debate; a top Gov't official stated openly that it is possible people on other planets may have already solved the problems of space travel! (Here is honesty----OTHER GOV'TS PLEASE NOTE!!) There isn't a savage in the jungles, says one authority, that doesn't know about UFOs. And Britain's Flying Saucer Review declares, "One day it will be recognized as a SHAMEFUL EPISODE that a major discovery was frustrated for many years by prejudice & fear".....Our liaison in Sweden reports a flock of sightings above the Arctic Circle. Meanwhile, a number of reports of UFOs have come from official Scientific Stations in the Antarctic. Press carried stories of objects over Cape Hallett on the Ross Sea; color photos taken with special camera. Does activity at both Poles add up to any kind of "polarized pattern"?.....NASA tells LLP they subscribe to 400 periodicals - latest is APRO Bulletin (proof of their interest in Saucers); they get many queries from the public re UFOs, but turn them over to the Air Force.....Recent Dutch Bulletin says Denmark has 75 Saucer clubs; total over 1000 members.....NICAP issued 8-page "Preview for Congress" - outline of its forthcoming 128-page "Five-Year Report on the UFO Evidence"; contains a massive array of documentation showing that Planet Earth is being visited by outer-space intelligences, the Air Force is supressing the facts, & there is a need for immediate Congressional action to end the dangers brought on by unwarranted secrecy.....NICAP has added 2 noteworthy men to its Board of Governors: Dr. Chas. P. Olivier, Pres. American Meteor Soc'y, head of Astronomy Dept., U. of Pa.; & Col J. Bryan III (AF Ret.), former Special Ass't to Sec. of the AF; both men have strong feelings re UFOs, that "the facts should be made public".....Argentine Navy Capt., on Gov't team investigating Saucer sightings, saw one himself; later said Navy had been "constantly concerned about UFOs since 1952".....NICAP reports a steady increase in U.S. sightings this year; many low-altitude approaches, with brief landings in some sections. Near Newark, N.J., a disc-shaped UFO hovered in the evening sky, caused a traffic tie-up as restaurant patrons swarmed into the streets to watch. A witness said, "The top & bottom appeared stationary---the outer rim was spinning..." The craft hovered with a swaying motion, then shot away to the south.....An oval object with a band around it was seen to land "with a great splash" in the reservoir near Hackensack, N.J.; it took off again as 8 stunned young people watched.....A woman in Trenton, N.J., had TV trouble; soon noticed, in her yard, a "very bright object" hovering in a treetop 30 ft away; suddenly it flashed away into the sky.... The same night, a man photographed a mysterious high-flying bright object over Trenton; McGuire AF Base made a detailed, official report on it.....APRO reports an unusual night sighting in Phila. by 10 people - binoculars showed a hovering Saucer with a dome-like cabin & 6 portholes glowing greenish; it played hide-&-seek with 4 pursuing planes for 45 mins., then zoomed straight up & vanished.....Ships were seen over Denver, Chicago & over Minnesota this summer; press took notice.....14 hikers on Sunshine Mtn. in Idaho, late August, witnessed a 35-min. Saucer show in the darkened sky---some of the objects hovered while others swooped in many directions.....The 7 main UFO groups in Britain have formed an Ass'n & held a big convention in London in Sept.; a highlight was the account of 5 UFOs photographed by Alex Birch, age 14, as they hovered near his home in Sheffield; also shown was a movie of a big, domed Saucer (several minutes duration) taken by Walter Revill--- disc was orange hued with "many little lights" on it---viewed for 15 mins. by 4 witnesses. Young Birch's photo & negatives were examined by the Brit. Air Ministry, who pronounced them genuine!.... In Barcelona, Spain, Prof. Hermann Oberth, world's foremost space scientist, addressed the Astronautical Congress; a question was raised re Saucers; Prof. Oberth took 45 mins. to give his scientific audience a full answer---that, in his opinion, the saucers are coming from other stellar systems, such as Tau Ceti & Epsilon Eridani; "they may have been watching us from historical times; this is a subject which should be studied without ridicule." During the entire briefing, the distinguished assemblage sat in absorbed silence.....A Washington man who works in a Gov't Security Agency & has access to another (top-level) agency which deals with hundreds of categories, says he can get info from them ON EVERY SUBJECT EXCEPT ONE-----UFOs!!

*D.C. NEWS: Re Crime-in-the-Streets, LLP had long plugged for husky cops to be dressed up as women, dangling tempting purses, & thus scoop the skulking crooks off the sts. It has now taken form here, in "OPERATION DECOY." NYC has very recently copied this successful "Operation"---other cities please note!.....Here, big fight over tearing down 3 beautiful theaters (TV encroachment blamed).....Coming, 10 mil \$ Nat'l Aquarium.....Sidewalk cafes are springing up all around town (other cities please note this also).....Here, tiny Nazi Party lifting its head, patrolling White House with swastikas (something like insects that resist annihilation).....Fallout in D.C. now twice as high as before recent Russian & U.S. bomb tests.....Here, D.C. is stocking canned food in shelter areas---what does it mean?

*OUR DYNAMIC PICTURE---the Picture without a Name---was designed & executed by an award-winning artist expressly for the LLP; it speaks for itself. It has sold at \$2, & it hangs on the walls of 100's of New Age homes. Many copies have gone abroad...It shows you how to get into the New Age current. Help it to have wide distribution---it is now offered as a Christmas Special at \$1 a copy, or 3 copies for \$2. What better gift can you send a friend?.....Also, many are urging that the LLP have the widest possible coverage---so why not hurry the New Age by sending a subscription for Christmas to some INFLUENTIAL PERSON you know?

*MAILBAG: O.K., Mo., writes: "Have done much original research & turned up many unreported sightings & unreported contactees; there must be thousands of contactees that are saying nothing!".....H.H., New Zealand, warns that high-altitude A-tests will eventually disrupt Earth's magnetic field, with profound consequences.....From K.R., Ohio: "LLP is truly unique & remarkable in what it dares to publish---information that so many people want & could not get otherwise. Thank you for having the courage & integrity to do it!".....The Abbey League, Suite 316-G, 67 Yonge St, Toronto, Can., is offering a free folder on "What prayer can do for you and those you love"Guest at LLP was longtime subscriber J.D.C. from huge organic farm in N.H., rugged & full of nature---authors books there. Expects inflation, also war; calls these the Biblical days of tribulation....Another vis was H. O'D. from L.A. - tells us of prominent people among whom she circulates LLP....H.S., NJ, says, "In the Battle of the New Age, LLP is the Iwo Jima flag!"....We rec'd 4 letters, all on the same day (1 from Eng) stating there is not another publication like the LLP....PLEASE NOTE: If you happen to get a green feather in your LLP, it is a book-mark from Polly, who is on our staff....Letter from Editor of "Uranus" (London) says he is making a deeper-than-ever study of the UFO mystery & giving many lectures....Sec'y of Tyneside UFO Soc'y (Eng) writes he hopes to reprint much from LLP in their "Orbit"....NOTICE: stamped addressed envelopes must accompany your ??'s....Thanks for all the stamps you send! Postage is going up; to hold the line on the price of LLP, we'll need them very much (indeed, the SQUEEZE is on!)

*LLP BACK COPIES: We get so many requests for back copies, there had been hopes of re-printing them in volume form. But - unless the project is subsidized - costs are prohibitive. However, we have a number of almost-complete sets of back copies; these are now very rare & may never be obtainable again. First to order will receive the nearest-complete sets. WE ARE OFFERING THEM AT \$7.50 A SET. The LLP is widely recognized as entirely unique in its panoramic coverage, & this file constitutes in tele-graphic style a running history of the most exciting years on this Planet. ORDER NOW!

*NOTE: There was no October issue of LLP.

*THE LITTLE LISTENING POST is issued every few weeks - when the news "boils over" - from Washington, news Capital of the World. Amid the din of recent weeks & the city's hair-raising CONFUSION, much of this issue was written in "the most idyllic woods in America" (not far from LLP), to which we fled with typewriter & rations---where the brooks & the wind-blown "painted trees" spoke on in their eternal language. God is not moved---but Earth is staging a show that must run thru the 3rd Act; then dawns the Great Morning. Watch the swift unfoldment! The Far-Out Front is ABLAZE WITH ACTION!!!.....Listen in with The Little Listening Post!!

Six Issues for Three Dollars
