WEEKLY R.M.'S LOOK-SEE

VOLUME 3

NUMBER 5

The Weekly Research Magazine's Look-See is the official publication of the UFO Information Exchange Alliance. It is dedicated to creating better understanding between UFO groups. Interested parties may contact this publication at 2875 Sequoyah Drive, Atlanta 5, Georgia.

BULLETIN: I wish to locate a Lee Conway. This man was supposedly a witness to a flying saucer contact early in 1960. Conway was staying at the Hotel Macambo in Hollywood, California. My source told me that he may be a well-known saucer researcher. To the person or persons who give me information that leads to correspondence with Conway, I will give a free membership in the Hawk Research Society. This is absolutely vital to saucer investigations. All UFO publications will receive copies of this story on a timed release date, (that is, those that request it). James Moseley's SAUCER NEWS will get the advantage, though, because it was through Moseley that I came upon this story. Reach me, Harry Siebert, at the Hawk Research Society, 1457 Kenwood Drive, Pomona, California.

SAVE NICAP!! Send contributions to 1536 Connecticut Avenue, Washington 6, D.C. THIS IS URGENT!!

BACTERIA PROVE LIFE CAN SURVIVE ON MARS: Bacteria, the age-old enemy of man, now seems to have established beyond doubt that life, be intelligent or otherwise, can exist on the planet Mars. Under conditions similar to those on Mars, two separate kinds of bacteria survived in a laboratory test.

NIGHTINGALE STATEMENT HOLDS TRUE TO UFOLOGY: One of the most frustrating things a UFOlogist is confronted with is the fact that although plenty of evidence of UFO reality has been accumulated, the vast majority of people completely ignore it. Elmer Nightingale, 40-year-old retired millionaire, recently made a statement that, although it was certainly unrelated to the UFO problem, presented our case perfectly. Speaking on the subject of ignorance, Mr. Nightingale is quoted as saying "I hate ignorance because we are surrounded by knowledge, and if we don't pick it up, it's our own stupid fault." Three cheers from this corner for Mr. Nightingale!
