WEEKLY R.M.'S LOOK-SEE

VOLUME 4

NUMBER 2

The Weekly Research Magazine's Look-See is the official publication of the International UFO Information Exchange Alliance, being the only weekly magazine entirely devoted to the UFO phenomena, serving 6 countries. For information, write c/o UFO Exchange, 2875 Sequoyah Drive, N.W., Atlanta 5, Georgia.

BLAZING OBJECT STREAKS OVER ATLANTA: A fiery object was reported by dozens of witnesses on the ground and pilots in the air as it sped over Atlanta, Georgia, towards Chattanooga, Tennessee. The sighting occurred at about 8:00 P.M. on May 2, 1962. Although the object resembled a meteor, meteorologists could not definitely confirm this. Observers generally agreed the meteor-like object was at about a 45-degree angle to the horizon.

SOVIET SCIENTISTS SAYS EXPLOSION WAS NUCLEAR: F. Zigel, noted Moscow lecturer on scientific subjects, says that the only logical explanation for the Siberian explosion of 1908 is, as fantastic as it seems, that it was nuclear. Zigel, rejecting other hypothesis, concludes that the blast originated from a space ship from another planet, or from an extraordinary, unfamiliar natural heavenly body.

REVEREND GILL CONFIRMS REPORT: Rev. William Gill, who, in 1959 claims to have waved to occupants of a 'saucer', together with several natives, had this to say of his sighting: "I did not believe in flying saucers or unidentified flying objects beforehand. Now I believe in the existence of something out there, according to my own definition. I am still speculative about the origin of it."

BALTIMORE RED LIGHT: Starting with witness Robert Briele on June 3 of last year, a series of sightings of a red light was seen in Baltimore, Maryland skies at various times during the month of June. Mr. Briele of WFBR, Baltimore, described the object as a bright red flashing light of the apparent size of a walnut at arms length. When he saw it, it was at an altitude of 500 feet and descending. Other witnesses noted that the light did not blink on and off, it merely dimmed and brightened. UFO's have been known to work in repetitive patterns. Keep an eye on Baltimore this summer!
