"REAL THING" SAYS AUSTRALIAN FARMER

Melbourne, Australia - February 16th, 1963- (LS) - On Friday, February 15th, an Australian Dairy Farmer reported seeing a "Flying saucer or something" which sent a horse and his herd of cows into panic. The Farmer, Mr. Charlie Brew, said the object was about 25 feet wide and looked like a thick disc. "It was battleship grey in color and appeared to have a band of glass or plastic around the circumference and a number of protrusions which looked like scoops." The incident occurred at about 7:00 A.M. Mr. Brew and his Son were milking their cows. When Brew glanced outside at the sky, he was astonished to see an object coming down at a slow rate of speed to a height of 75 to 100 feet. "I thought it was going to land," he stated, "but it suddenly shot off in a westerly direction....and disappeared into a cloud."

Although Mr. Brew's son did not see the object, he heard the pulsating, whooshing sound the object made as it revolved over them. The whole incident lasted only a matter of seconds, but it was long enough to send Mr. Brew's cows and horse into a panic. After the incident Brew admitted that he had often laughed at people who said they saw such things, but he says that this was the real thing. (SOURCE: "The Sun" --- V.F.S.R.S.)

SPECIAL ANNOUNCEMENTS

Moscow, USSR- 2/18/63- (UPI) - The official Army Newspaper Red Star reported Sunday night that Soviet Engineers have successfully tested a "flying saucer" aircraft which apparently has both powered and glider uses. The report said the aircraft is able to take off vertically, indicating it has its own power source, and also lands on a cushion of air. (ROAP)

Pasadena, California - 2/22/63 - (LS) - Scientists say that they established the first radar contact with the planet Mars by transmitting a 25 billion watt signal at the red planet. The signal return indicates that Mars has both rough and smooth surfaces, like the terrain on Earth. (ROAP)

On January 20th, 1963, an observer who wishes to remain anonymous reported a UFO that hovered over McClellan Air Force Base, California, for about 15 minutes, then shot upwards at great speed. The object was saucer-shaped. (SOURCE: I.N.S. -- Tim Beckley)

Euclid, Ohio - February 8th, 1963 - (LS) - At 8:05 P.M. on February 8th, a science and mathematics teacher of Euclid Junior High School, Euclid, Ohio, sighted a blue-white UFO at about 40-45 thousand feet apparently being pursued by a jet. Both the jet and the UFO were headed E-NE to W-SW. Mr. Thomas Doyle, the Teacher, said that the object was apparently out-distancing the jet, so the plane broke off the pursuit. The UFO disappeared into the haze and was not seen again. (USC of O -- Ricky Hilberg)
