ARIZONA CHAPTER

Volume 4 / Issue 4

The Truth is Out There . . .

MEETING DATE: Monday, April 17, 1995 ♦ MEETING TIME: 7:30 p.m. SHARP
LOCATION: 8227 E. Orange Blossom, Scottsdale, AZ (Clubhouse)
PROGRAM: Lee Elders Video of Mexico Sightings

DIRECTOR'S MESSAGE

The Roswell Incident is in the news again! This latest news is very interesting and almost too hard to believe, but as reported on CNN news, Art Bell's "Coast to Coast" radio program, and even confirmed in a phone conversation with MUFON's own Walt Andrus, film was evidently taken at the time of the crash and during the autopsy (as reported elsewhere in this newsletter). Additional information reported on Art Bell's program Thursday night was that the film was purchased by the BBC. The next month or so should be most interesting, so stay tuned!!

August 12-20 is National UFO Awareness Week. Hopefully, with our many members, someone can come up with a connection or idea of where we can set up an informational display at a mall or other public gathering place to make people aware of MUFON. If any of you can help us in this endeavor, please let me know ASAP.

Doris Barley, Section Director for Yuma County, has been very busy (as usual!). In addition to her help with the Stanton Friedman presentation in Yuma in February (over 700 people attended), she has appeared on a couple of talk programs and given presentations of her own in Yuma area bookstores on MUFON and UFOs. Keep up the good work, Doris. People like you are an incredible asset to MUFON.

I received a phone call from Tom Kuszelewicz, Section Director for Pima County, that a witness to a sighting in Gila Bend, who attends the University of Arizona in Tucson, has come forward. I am not sure if this has any connection to one of the sightings

already reported, or if this is an entirely new report.

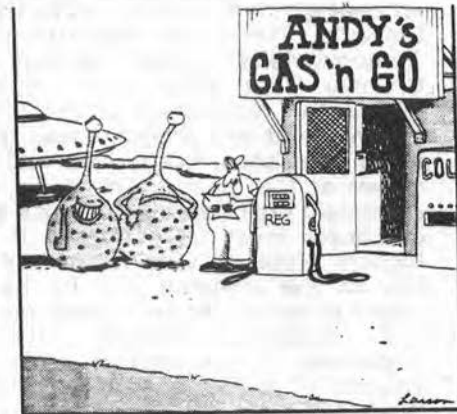

Speaking of Gila Bend, the photographs mentioned in the last newsletter and reported on at the State Meeting are back, and I hope to be able to view them within the next few days. I should have something to report on them at this month's meeting.

I look forward to hearing from you with ideas and comments, and let's make a concentrated effort to do something special in August for UFO Awareness Week.

Tom Taylor
State Director

FIELD INVESTIGATOR TRAINING COURSE

The first MUFON Field Training Course will be held at 7:30 p.m. on Wednesday, April 26, at Richard Motzer's home, 6601 E. Clinton St., in north Scottsdale. Please call 998-3966 ("Computer Buddy") if you are planning to take the 12-month course.

"Shoot! You not only got the wrong planet, you got the wrong solar system. ... I mean, a wrong planet I can understand—but a whole solar system?"

MUFON-AZ T-SHIRTS

Earlene Ford and Mary Hart have come up with an idea for extra revenue for our local chapter -- t-shirts with MUFON-AZ and some sort of identifying logo for our group.

If you have suggestions for a design, write down an explanation or draw your idea and bring it to the meeting or mail it to Tom in time to get to him BEFORE the April 17th meeting date. We will then take a vote of those present at the meeting and begin steps to produce the shirt. Please also have color preferences; we will try to offer two or three colors. The shirts will only be produced in Large and Extra Large for now; children's sizes and other adult sizes may be added later if this "first production run" is a success.

Show your support for our chapter by bringing or mailing your ideas for these shirts -- and when they are produced, *be sure to buy one* to wear to conferences, picnics, exhibitions and non-UFO related activities to generate curiosity and interest.

MEDIA WATCH

by Tom Taylor

In the interest of keeping the UFO topic before the public, the following is a list of programs on the subject recently aired via television, radio and newspaper in recent weeks. We will attempt to list programs ahead of time whenever possible; unfortunately, we are often not notified of programs until it is too late to publish them in the Newsletter in time for members to view, hear or read them. In the case of TV and radio programs, ask at MUFON meetings to see if anyone is aware of someone who may have taped them to share.

Remember to check current TV listings before viewing!

Not a whole lot going on this past month, although Sunday, March 26, without fanfare or extra advertising, Disney's "Alien Encounters from New Tomorrowland" was shown on Channel 3 at 2:00 p.m. Several people had mentioned at the March meeting that this program was going to be aired soon, but no one had any details at that point. The show was extremely well done, and I think a lot of people must have missed it. If Richard Motzer's wife hadn't alerted him to the showing and he hadn't called to let me know it was on, I'd have missed it himself. It was presented in conjunction with the opening of a new feature at Disney World in Florida this summer.

Selma Graves, witness to the 1947 Paradise Valley Crash, will be Bill's guest on "Strauss' Place" with Bill Strauss, KTAR Radio, 620 AM, 9:00 p.m. April 13.

Destiny in Space continues to play at the Imax Theater in Scottsdale (old "Galleria" complex on Scottsdale Road south of Camelback). The feature was filmed by NASA astronauts on various shuttle missions and is well worth attending. Hint: at around 7 and 9 p.m. each night and at some showings on the weekends you are able to buy tickets to see two Imax features instead of just one for about \$2.00 more per ticket. It's well worth it; all the features are excellent. Also, seating is assigned, and the LAST ROWS (J and K) are the best seating in this theater; they are the most even in height with the vertical center of the screen. Call the Imax theater at 945-4629 for details; good tickets need to be purchased ahead of time.

State Meeting Video. Copies of the 4-hour videotape of the proceedings of the February 18th State MUFON meeting will be available for \$15.00 each at the April meeting. They may also be ordered through the mail (First Class) by sending a check or money

order for \$20.00 (shipping & handling) payable to Tom Taylor, 1433 W. Huntington Dr., Tempe, AZ 85282.

Sunday evenings, KFYI Radio, 910 AM - Art Bell's "Dreamland" Radio Program. On Sunday, April 9, Travis Walton was featured.

UFO AZ / UFO TALKS - Phoenix Dimension Cable, Channel 22, Monday and Tuesday at 3:30 p.m.; Scottsdale TCI cable, Channel 22, Monday at 12 p.m. and Wednesday at 6 p.m.; Tucson, Channel 64, Fridays from 9-10 p.m. Ted, Peggy and Jim co-host this continuing series featuring interesting guests and topics related to all aspects of the UFO experience. (This show is personally financially produced by a very few, and donations are gratefully accepted in the interest of getting information to the public. The address is 6261 Saffron Rd., Tucson, AZ 85741.)

This talented group has been asked to do a radio program as well, and now those in the Tucson area can tune into KTUC radio, 1400 AM Sundays at 7-8 p.m. to hear them.

UFO Update AZ - Order copies of this publication by Mike and Roger Bollinger by contacting UFO Update AZ, 12629 N. Tatum Blvd., Suite 109; Phoenix, AZ 85032 or calling (602) 494-9279. Subscription price is \$7.95 for 4 issues per year.

Sightings - Saturdays at 10:30 p.m., Channel 15.

X Files - Fridays at 8:00 p.m., Channel 10.

Unsolved Mysteries - Fridays at 7:00 p.m., Channel 12. Friday, March 31 featured "Alien Beings" as the hour-long program. It consisted mostly of clips from UFO-related stories previously presented, but it was well done nevertheless.

ARIZONA SIGHTINGS LIST

Remember -- our list of Arizona UFO sighting reports (1947-1994), compiled by Dimitri Ossipov, is available for sale for \$5.00 at the meeting or \$6.50 by mail. See Tom Taylor for details.

Classified Ads

Don't forget that we can advertise for you in the newsletter!! Give us your ad text (please limit size; or give us your business card as the ad) and \$5.00 and we will publish your ad in the following month's newsletter (1 month).

CALNDAR

Tucson MUFON Group - Messages can be left for Tom Kuszelewicz, Pima County Section Director, at (520) 881-1252 (Tucson) or (520) 398-2573 (Arivaca).

Yuma MUFON Group - May 7 is the next meeting date. Guest speaker will be the Public Affairs Officer from Yuma Proving Grounds. Contact Doris Barley for information at (520) 726-0570.

June 22-24 - 16th Annual Rocky Mountain Conference on UFO Investigation, University of Wyoming, Laramie, WY. For further info call 1-800-488-7801 or fax (307) 776-3914.

July 7, 8 & 9 - MUFON 1995 International UFO Symposium - Red Lion Hotel Seatac, Seattle, Washington. For further information contact Marilyn Childs, P.O. Box 1012, Bothell, WA 98041-1012.

August 12-20 - National UFO Awareness Week.

THE EARTH CHRONICLES

[The following is a multi-part "book report" by Dimitri "Jim" Ossipov. It will be presented in installments in this Newsletter -- so don't miss an issue!]

Zecharia Sitchin is an eminent scholar and historian who spent more than 30 years studying ancient text, mostly Sumarian and Hebrew in origin. It must have been a formidable task to decipher and interpret thousands of tablets, to find a proper meaning to a word which can signify several things, and to decode words with inverted syllables which indicate an identical proper name or location. All of this has resulted in a series of books under a common name of "The Earth Chronicles." Included in the series are the following titles: The 12th Planet; The Stairway to Heaven; The Wars of Gods and Men; The Lost Realms; Genesis Revisited; and When Time Began.

The main topic of the Earth Chronicles is the arrival of inhabitants of the 12th planet and their activities on earth. In Sumarian text these beings were called Anunnaki; in the Bible their name was Nephilim, which

means "giants" or "those who came down." In the author's opinion, Genesis of the Bible is an abbreviated and somewhat edited version of the Sumarian Records. In the original Hebrew Bible, God is called Elohim, which is plural. This will be cleared up later on as we go.

It appears that all ancient peoples have more or less the same mythology; only the entities' names are changed. For example, soon we will read about Enki, who headed the first expedition to earth. He was also known as Ptah in Egypt and as Hephaestus in Greek mythology. His rambunctious son Marduk was known as Ra in Egypt and as Zeus in Greece. His younger brother, the kind Ningizsida, was called Toth in Egypt, Hermes in Greece, and Quetzalcoatl in Mexico. Another "deity," Addad/Iskur, was known as Viracocha in Peru and as Rimac in the Andes. Finally, charming Innini/Ishtar was Phoenician Astarte or Greek Aphrodite.

The leadership of Anunnaki on earth consisted of a 12-member council, all members of the house of Anu, the ruler of the 12th planet Nibiru. Since he was absent most of the time, his son and heir-apparent, Enlil, chaired the council.

AN OBJECTIVE VIEW

Recently on the television show "Sightings" an episode was aired concerning the influence of the media on people who claim to have had experiences with alien beings. The critics say that the information and impressions are implanted into the minds of the people who claim to have these experiences, and instead of having had actual experiences, they are entering into an imaginative world greatly influenced by the media, other people, and books they have read. As usual, the critics are looking for an easy way out to explain something they do not understand -- something which does not fit into their known world. If the shoe doesn't fit, call it something else.

On the other hand, the people who have had alien experiences take them to be very real occurrences which they have experienced in an objective reality. Most of the stories are similar. They describe small, pale-colored beings with big eyes and slender bodies taking them from their natural environment to some other-worldly location. They undergo

medical examinations, tests, and even genetic engineering. They have the memories, similar descriptions, and even the body scars to prove it.

Yet with all the information we have collected over the years (and that database is getting quite large), we still do not have a good explanation of what is going on. For example, how do people pass through solid matter? Why are there never any witnesses? Why do many people have different descriptions for the aliens? Also, why are there subtle differences in the reports from country to country in the way the aliens behave? In Europe the aliens are nicer and more refined. In South America they appear more violent. There does seem to be a slight cultural bias in the reported incidents.

Well, I have an opinion. We all agree somewhat that there is a strong possibility that we are dealing with an extra-dimensional phenomenon. Exactly what that means, one of us know, but the evidence suggests that is the direction in which we should be looking. And since things usually aren't "black or white" but somewhere in the middle, maybe both groups are partially correct. The media is influencing the experience, and the experience is real. Since we are dealing with another reality, a reality we obviously don't know the rules for, we are making them up as we go along. In other words, the physical appearance of the aliens is being determined by our own outside forces such as the media and our own group consciousness.

Even the description of UFOs has changed with the times, giant airships at the turn of the century, saucer-shaped craft with bolts and rivets in the 1930s and now aerodynamically designed craft that change shape as they are being observed. If you remember, the description that Betty Hill gave for her aliens was different than what is coming out today.

It is my contention that we are dealing with a phenomenon that is so different from our everyday physical world that it would be impossible for us to understand what is going on in their world. We have no basis. So they adjust their world and our world so that there is some common ground. But that common ground has not been completely worked out yet; it is still being determined, and the experience becomes a very subjective occurrence . . . one based on individual belief systems, personal knowledge, outside influences such

as the media, and our own personality.

I think to understand the UFO enigma we have to take a step back, look at all the data, and try not to put this in a box that fits our old pre-conceived notions. Then, and only then, will we be getting closer to the truth.

MUFON-AZ Member

EXCUSE US . . . WE ARE ONLY EARTHLINGS

Imagine for a moment that I have barged, uninvited, into your home, blabbering in my native Serbian, and then proceed to rearrange your furniture and to reschedule your activities. My friendly intentions notwithstanding, that kind of behavior will, no doubt, generate a hostile reaction, and sooner or later I will be kicked out, and for good reason.

But here, in North America, something like this happens all the time -- some little big-eyed fellows may appear in your home at any time, passing through walls if necessary, take you to their craft, and after a thorough "medical" examination, send you home, all with little or no communication.

Sometimes, as a special favor, they will scare us with visions of war and destruction -- perhaps to check our emotional reaction or simply tell you that we are nothing but materialistic cannibals. On rare occasions they announce some prophecies which never materialize or promise to return, and then they forget about it. Years ago, a group of believers dwelt on top of a mountain, waiting for a promised UFO to take them to greener pastures, only to be disappointed. More recently, aliens made fools of the Bulgarian general staff who believed in contact by the way of channelers.

True, they are not hostile -- they could wipe us out countless times if they really wanted to. The mere fact that they are able to come here, while we are barely able to reach our nearest planet, demonstrates that they are superior to us in technology and intelligence. But for smart a**s, they lack understanding. They behave like intruders, then wonder why our reaction is less than friendly. Well -- excuse us; we are only Earthlings!

NEWS AROUND THE NETWORK

A Roswell-related event is taking place in England right now that may blow the entire Roswell crashed-saucer case wide open. Allegedly, a military person assigned to film the retrieval of crash debris, autopsy of the aliens and other related events has sold duplicate reels of these 16 mm films to a person in England.

This person allegedly plans to make a documentary type show to be released some time in August of this year. This all sounds great, but there are some red warning flags up. One such flag is: investigators made several appointments to view the film footage and the meeting was cancelled each time. It is also hard to believe a military person assigned to film a classified event would be able to make duplicate reels without being noticed. Another unsettling point is the person who purchased the film for many tens of thousands of dollars has a reputation of being a bit of a shady showman. One interesting positive point is that allegedly the film media was analyzed and found to be of the type used in the mid 1940s. Supposedly, President Truman is seen in the film, and it is said to show an autopsy in progress with the body covered with a sheet during the examination. This doesn't seem to be normal procedure. As Stanton Friedman said, we must go slow on this one and do a thorough research job before celebrating the validation of the Roswell incident. There are indications this all may be an elaborate hoax designed to embarrass Roswell researchers. As some of you know, Stanton Friedman is one of our main speakers at this year's September conference. He is directly involved in trying to validate the film and evidence. You can be sure we will get a thorough briefing on this very interesting development at our conference. Stay tuned for further developments. If we get any more updates prior to our March state meeting will be sure to pass the information along at that time. To quote Stanton Friedman, "It should be an interesting summer."

Operation Right to Know is having another demonstration in Washington, DC. It will be at noon on March 29, 1995 in front of the US General Accounting Office, 441 G Street NW, at 4th St. For more information call (202) 232-2410. The demonstration is in support of Congressman Schiff and the GAO inquiry, congressman Schiff is trying to get information about the Roswell case released to his office for review. Operation Right to Know is also

Some will say that in order to communicate with them, WE have to prepare ourselves, like chanting mantras, fall into the "theta state," visit "holy" places like pyramids, or even sit on saguaro cacti (ouch!). WE have to understand THEM! But wait a minute -- who is visiting whom? Who is contacting whom? It is, rather, the aliens' turn to understand US. So here we go:

Hey, you ETs up there! Will you please descent from your galactic Mount Olympus and listen? You have observed us enough to know what we are. You know that we are trigger-happy and panicky before the unknown. You know by now that we favor direct communications. Stop your riddles! So, if this is YOUR doing, stop drawing those silly circles in the grass. They only confuse us. There are more than a dozen different types of you. Will you tell us who you are and what your intentions are? Some say you are our Space Brothers, here to save us from ourselves. Others say you are here to enslave us. Yet others say that you pursue your own business and we are only your guinea pigs.

There are rumors that you are in cahoots with various governments and secret services. For smart cookies . . . don't you know any better? There are suspicions that you mutilate poor animals, mostly cattle. Is that really you? Then phooey on you!

Why prolong the confusion? Come out in the open and "en masse." After an initial shock, we may just get used to you. Take any appearance you want, if you think you will scare us. Five hundred years ago the Aztecs thought the invading Spaniards were some sort of divinities. It did not do them any good, though. Today their descendants live side by side. Imagine the amazement of Polynesians or Africans at the sight of the European explorers. I remember the sensation created by the Ethiopian delegation when it came to Belgrade in 1935.

Today our world has shrunk, and we mix easier. The same will happen with you. After an initial surprise, we may sit down, get acquainted, talk, have a beer or two, and then you can pull us by the bootstraps into a fifth spiritual level, or the seventh heaven, or Pleiades.

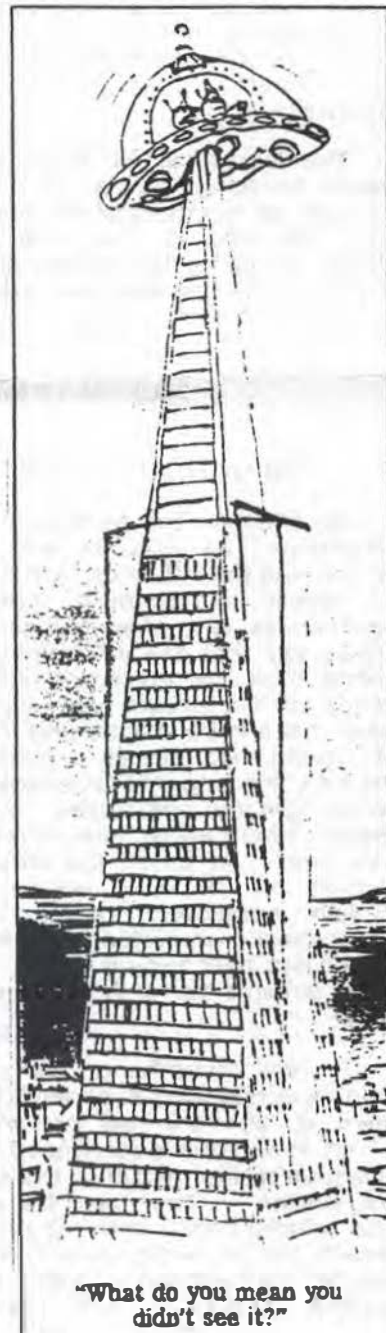

That will work. Excuse us -- we are only Earthlings.

Dimitri "Jim" Ossipov

sponsoring a worldwide petition signing to help eliminate UFO secrecy. These petitions will be presented to the United Nations in early July 1995 at the New York City headquarters. E-Mail contact for information is Brenda Lancaster, PRODIGY HJDX25A. [NOTE: This petition appears elsewhere in this Newsletter; everyone is urged to make a copy of it, get it filled with signatures, and mail it in or bring it to the meeting.]

EASTER/PASSOVER TREATS

If you have any "leftovers" around the house following your Easter or Passover celebration that you think the group might find enjoyable {no rotten eggs!!} please bring them to share at the meeting.

Nashville, TN - Sightings of saucers, glowing cylinders, and bat-like or triangular ships were reported minutes before an "immense" explosion east of Nashville that called out the Tennessee Emergency Management Agency (TEMA). A hotline call from TEMA was taken Jan. 7th at 9:27 p.m. by Peter Davenport of the National UFO Reporting Center in Seattle. TEMA had been referred to the Center by the US Air Force, after the Warren County, TN., Sheriff's Office was swamped with UFO calls.

"One of the objects that was seen

descending to earth in Warren County, TN, was a bright cylinder that was positioned vertically," said Davenport in a radio interview. "The object descended to ground level, after which there was an immense explosion; a white flash, and blue burning fragments of material were seen thrown high into the sky over McMinnville; which is just east of Nashville."

Davenport said that he received a 7-page FAX from TEMA concerning the incident, and that people were launching aircraft to look for the fragments, or

to search for fires or property damage.

"I was told by TEMA that the airport manager of the McMinnville airport, after he saw the explosion, jumped in his own airplane and took off, and searched the area for about six minutes - not believing his eyes that there wasn't some kind of visible damage or fire there. Nobody found fragments," Davenport said. "One thing we do know, with reasonable certainty, is that there have been some federal investigators circulating in that area...telling all of the authorities to say nothing about this event."

A bit of Mars landed on Earth after blast millions of years ago

The Associated Press

WASHINGTON — A massive explosion on Mars millions of years ago blasted rocks into orbit, and some of that material landed on Earth, researchers say.

Kurt Marti, a planetary chemist at the University of California at San Diego, said last week that a 40-pound meteorite that landed in Africa almost 33 years ago has been identified as a bit of Mars.

The meteorite was observed as it crashed to Earth in Nigeria in 1962 and was quickly recovered. It is named Zagami for the region where it hit.

A study of the chemistry of Zagami was published Friday in the journal *Science*.

Marti, the study's lead author, said

that gas trapped in bubbles within glass inside the meteorite has been chemically matched with the atmospheric composition found on Mars by the Viking spacecraft.

Another meteorite, found in Antarctica and analyzed 10 years ago, also had the chemical signature of the Martian atmosphere, Marti said, adding that a third meteorite may have the same characteristics.

Based on an analysis of cosmic-ray absorption, Marti said Zagami was wandering in space for about 3 million years before it landed on Earth.

Marti said it not known where Zagami originated on Mars, but he said there are lots of candidate sites.

"Mars is filled with craters created by collisions," he said. Astronomers are now searching Mars by telescope

to find sites with minerals like those in the Zagami meteorite.

Marti said it is assumed that the explosion that ejected Zagami was caused by a large asteroid or comet slamming into Mars.

"It would require a very major collision," Marti said. "It is a very rare event."

Heat created by the collision melted rock that cooled quickly into glass, he said, and some of the Martian atmosphere was trapped and formed bubbles within the glass. It is this gas that has been analyzed and compared with the chemistry found in the Martian atmosphere by the Viking landers in 1976.

Marti said dozens of meteorites have been identified as originating from the moon.

P R O J E C T 1947

Investigation of the 1947 UFO Wave and the Early UFO Era

Project 1947, a 2½ year intensive research effort into the UFO Wave of 1947, will produce the most comprehensive picture of the 1947 Wave to date. The project will accomplished several important tasks:

- *Screen over 2000 newspapers from all over the world for UFO reports.

- *Search for UFO reports in libraries, historical societies, universities, archives and other institutions in the US and Canada.

- *Gather records of first hand accounts from witnesses and search the files of UFO organizations and individual researchers for 1947 reports.

- *Compile the reports and data into the most comprehensive study of the 1947 UFO Wave yet done. The written report will be available on the 50th anniversary of Kenneth Arnold's momentous sighting.

Project 1947, with its primary focus on the year 1947, will also look forward as far 1957 and back to 1900 for certain selected significant topics in UFO research.

- *The 1900-1946 period will be examined for UFO-like reports.

- *An effort will be made to locate the World War II Aircraft Warning Service records so that a search may be for UFO reports in its files.

- *Ship's logs will be examined for UFO reports.

- *An attempt will be made to find the Ground Observer Corps (1951-1957) filter centers' records in order to search for UFO reports.

You can aid Project 1947 in several ways. Newspapers clippings, scrap books, letters, first hand reports, and official documents are all welcome. Leads, references, hints, etc., for further investigation are solicited. Contributions of copies of early or rare UFO publications and "zines" which contain historical, 1947, or early UFO era reports would be of great help. Especially welcome are UFO publications from abroad. Access to personal collections or the files of active or defunct UFO and Fortean organizations would be of great assistance. An important priority is unearthing 1947 radio and television newscasts and special programs on UFOs. Translations of foreign material urgently needed. Most importantly, research in local libraries, historical societies, newspaper archives is always required. If you can assist in any of these areas please contact: Jan L. Aldrich, Project 1947, P. O. Box 391, Canterbury, CT 06331, USA. Telephone: (203) 546-9135. Voice/Fax mail: 1-800-864-1000 address 9-71241-4776-6245 (after the tone leave your message.)

If you assist Project 1947, you will receive the UFO Reference List, an informal newsletter dedicated to exploring historical and early UFO era reports. Project 1947 is partially funded by the coalition of the Mutual UFO Network, the Center for UFO Studies, and the Fund for UFO Research.

A WORLDWIDE PETITION to the UNITED NATIONS

PRESENTED JULY 1995 BY OPERATION RIGHT TO KNOW ON BEHALF OF THE
CITIZENS OF THE WORLD AGREEING WITH THE CALLS FOR ACTION
IDENTIFIED IN THE TEXT OF THIS PETITION.

We, the undersigned citizens from _____
petition the UNITED NATIONS to publicly address issues
manifesting as a result of five decades of reported and
documented UFO events; additionally, we petition member nations,
who have been active over the years in covertly investigating UFO
events, to disclose the classified information and conclusions
concerning UFO events still secured from exposure to public
awareness.
