HAPPY NEW YEAR! January 2004

## U.S. UFOs Reported in Foreign Newspapers

By John Schuessler, MUFON International Director

UFOs are not just a modern mystery. They have been seen, monitored, recorded and investigated for years and years. Many of the early cases remain unsolved in the same manner current-day cases are unsolved. And the experts of the time were baffled by the reports. Those reports were candidly reported in the newspapers of the world. Especially interesting is the coverage by foreign newspapers. They seem to innocently report more details than the U.S. newspapers. Look what they were saying about the time of the Roswell incident.

### FLYING SAUCERS PUZZLE U.S.

#### Planes to Chase Mystery Discs

From the London Daily Telegraph, July 7, 1947

War Department experts are still puzzled by the mysterious "flying saucers" which have been seen by hundreds of people in 30 states from California to Nova Scotia. No reports have yet been received from intelligence officers.

For more than two weeks these luminous discs have been seen crossing the horizon at estimated speeds of up to three times that of sound. (Speed of sound varies from 680 m.p.h. at sea level to 760 m.p.h. at 30,000 ft.).

A photograph taken by a Seattle coastguard shows a light colored almost round spot. At Muroc, California, a fighter plane is standing by to give chase should a "flying saucer" be sighted. In Oregon six planes are ready, equipped with gun and telescopic cameras.

Capt. Tom Brown, of the United States Army Air force Public Relations staff, said here today that although all reports had been checked for ten days without result it was decided that there was "something to them." "They are too widespread to be without foundation."

"However, we do not believe anyone in this country or outside it has developed a guided missile that will go 1,200 m.p.h., as some reports have indicated. We are not engaged in any tests or experiments that might explain this mystery. We do not know anyone in or outside the Government who is. Our guided missile scientists are as

(Continued on page 4)

## UFO Activity over South Eastern Colorado

By Edward Burke, COMUFON Assistant Director,  
Colorado Springs Section Director

Over the past four months we have had quite a bit of activity down here. All of these sightings are still under investigation. We might have an explanation for one of them.

On Sept 2 at about 11:11 p.m. a man was talking to his fiancée on the phone. This was near Florence, Colorado in Coal Creek. A brilliant light lit up a cloud for about 5 sec. and then moved in an X pattern in the cloud. He said the object was extremely large. He said that it caused several seconds of static in his cell phone line. The object then shot off to the SW towards the San Luis Valley. Afterwards he heard a lot of animals reacting. Dogs were barking, horses were neighing, coyotes were yipping, ect. More than two months later when I interviewed him he said he still has trouble with his eyes while driving at night.

On Sept. 7 at about 9:00 p.m. a large long dark rectangular UFO flew over the house of an Assistant Principal at 500-700 ft. The object was lighted on both ends, but didn't resemble the navigation lights on any plane. It was completely silent.

A Colorado Springs Police Officer thought he saw two military aircraft doing weird maneuvers that night over the Springs. I haven't been able to contact him yet. James Carrion and Clifford Clift investigated this one.

On Oct. 7 at about 11:30 p.m., again in Coal Creek, Colorado, the same man was outside smoking and saw a boomerang shaped object with six "white fuzzy lights", sitting to the west over Canon City. He said he could barely make out a shape in the near full moonlight. After the event, there were again animal reactions.

On Dec 14. we got a report of a UFO landing South of Colorado Springs on Oct 23. Actually the witness felt there were three UFO landings, but he could only point out one landing location. The site was on top of a small hill overlooking I-25. The area was brightly lit by the UFO. There was evidence of some damage to the UFO. Several cars had pulled off of I-25. One vehicle was driving towards the UFO on a frontage road.

## **Wanted: Colorado Field Investigators**

To become a certified Field Investigator, you must pass the Investigator's Exam with a score of 80% or above. The exam, available from MUFON HQ, is a take-home exam. It is an open-book exam, and can be completed at your leisure.

The *MUFON Field Investigators Manual* is available from MUFON HQ for \$25. It is essential for taking the exam, and is an invaluable reference tool in conducting field investigations. COMUFON's ongoing investigator training classes, while not mandatory, are also very useful in preparing for the exam. Check them out!

## **Colorado MUFON General Meeting**

### **Admission:**

*CO MUFON members admitted FREE\**

\$3 non-members

\$5 per family

(kids age 10 & under free)

*(\*An annual CO MUFON membership is only \$20.  
If you attend more than half of our monthly meetings,  
it's cheaper to become a member — so why not join?)*

All CO MUFON meetings are held  
the second Saturday of every month  
at the **Glendale Community Center**  
(999 S. Clermont, Denver CO).

*Before the 1– 4pm Meetings, also at the Glendale Community Center  
(See the schedule on page 3 for General meeting Times and Dates):*

**Board Meeting—9:00AM TO 10:30AM All Welcome!**  
**Investigator Training—11:00AM TO 12:00PM All Welcome!**

*For up-to-date agenda info, visit [www.comufon.org](http://www.comufon.org)*

**The "Men In Black"** Denver cable access program is a fun, 1/2 hour live UFO talk show hosted by Tim Gallegos and Jerry Newcombe. It is a must see if you are in the Denver area. You can watch it on channel 58 in Denver only or watch it on the web at <http://www.dctv.org/>. The program is live every third (3rd) and fourth (4th) Thursday of every month. We are hoping to help Tim and Jerry turn this into an hour long program with a larger audience base. We could use your help. One way to help make this happen is to be a part of the audience during these live shows at the DCTV studios at 29th and Welton. This program could help MUFON raise awareness and build membership, so come on down and help out. Show up a little early, around 6:45pm and join us all for dinner afterwards. If you have questions or would like to help with the program or be in the audience or know how we can expand the show and the audience, contact Tim and Jerry at [meninblacktvshow@go.com](mailto:meninblacktvshow@go.com) or call Lin at 720-353-5972.

## UPCOMING COMUFON MEETINGS: DATES & SPEAKERS

*Thursday, January 8th*  
**Greeley Area Meeting**  
(See article on right for details)

*Saturday, January 10th*  
General Meeting  
**GUEST SPEAKER:**  
**Dr. Maury Albertson**  
**Co-Founder of the Peace Corps**

*Saturday, February 7th*  
**Colorado Springs Area Meeting**  
(See article on right for details)

*Saturday, February 14th*  
General Meeting  
**Ron Russell**  
**Crop Circles: The Secret Art  
and Magic Continues...**

*Dates, times, and locations for  
General Meetings for the rest of the  
year:*

- **March 13th 1-4pm**  
Glendale Community Center
- **April 10th 6:30-9:30pm**  
Glendale Community Center
- **May 8th 1-4pm**  
Glendale Community Center
- **June Date pending**  
Greeley meeting
- **July 15-18**  
2004 Symposium, right here in  
Denver, CO
- **Aug 14th and 15th**  
UFO Watch Tower in Hooper
- **Aug 21st 1-4pm**  
Glendale Community Center
- **Sept Date Pending**  
Western Slope meeting
- **Oct 9th 6:30-9:30pm**  
Glendale Community Center
- **Nov 13th 1-4pm**  
Glendale Community Center
- **Dec 11th 1-4pm**  
Holiday Party

### SPECIAL NOTICE

No general Comufon at  
Glendale for the months of:  
**June**, Greeley Meeting  
**July**, 2004 Symposium  
**Aug**, 14th and 15th UFO  
Awareness at the UFO  
WATCH TOWER  
**Aug, 21st Special Meeting**  
**at Glendale.** 1pm to 4pm.  
**Sept**, West Slope meeting  
Note the special times:  
**April 10th and the Oct 9th**  
meetings will be evening  
meetings, **6:30 to 9:30pm** in  
Glendale Community Center.

### GREELEY COMUFON MEETINGS

Greeley MUFON meeting will be Jan.  
8, 2004 at Trinity Episcopal Church.  
3800 west 20th St.

Go one mile north of 34 By Pass on 35  
Ave to 20th St. turn west and go 1/4  
mile to church on south side of 20th.  
Video will be presented on "Evidence"  
the case for NASA UFOs by David  
Sereda

Call Clifford Clift 970-302-9118 for di-  
rections.

### COLORADO SPRINGS COMUFON MEETINGS

Colorado Springs has its very own, separate series of meetings,  
organized by CO MUFON Assistant State Director Ed Burke.  
CO Springs meetings are held at the **Gold Hill Police Station**  
(705 South Nevada) from 1:00 p.m. till 4:00 p.m. on the first  
Saturday of "even-numbered" months. (Feb 7th, Apr 3rd, June  
5th, Aug 7th, Oct 2nd, Dec 4th)

Meetings are free, and open to the public.

## MEMBERSHIP INFORMATION

If you have not become a member of  
**Colorado MUFON...** now's the time!

*Regular Member:* \$20 per year  
*Student Member:* \$15 per year  
*Family Membership:* \$30 per year

Membership includes the following:

- *Bi-monthly newsletter*
- *Reduced admission to events*
- *Investigator training classes*
- *Special deals on publications*

**Colorado MUFON**  
**P.O. Box 471172**  
**Aurora, CO 80047-1172**

*US UFOs Reported in Foreign Newspapers (Continued from page 1)*  
puzzled as we are.”

Two United Airlines pilots have told how they followed a strange group of circular objects but could not say whether they “simply out-spaced the plane or disintegrated.” The pilot and stewardess of another plane kept a group in sight for 12 minutes. Mr. Lillenthal, Chairman of the Atomic Energy Commission, said today that the discs were not connected with atomic experiments and astronomers said they are unlikely to be of meteorological or astronomical origin.

### FLYING SAUCERS INQUIRY REPORT

#### No U.S. Services Test Responsible

London Daily Telegraph, July 8, 1947

An official statement was issued tonight by the Army Air Force on investigations made into reports from all parts of the United States that unidentified objects, described as “flying saucers,” have been seen flying at high speeds and various altitudes.

It said that intelligence officers had been investigating reports since July 2. The statement added: “No such phenomena can be explained by experiments carried out by the United States Army Air Force. A number of statements are now being compiled and examined.

Military planes patrolling the Pacific Coast, with photographic equipment have reported negative results. Navy and atomic energy officials have also disclaimed any experiments which could be responsible for the appearances.

The number of states in which the elusive “saucers” are stated to have been seen has risen to 39, the latest being New York, New Jersey and Massachusetts.

The phenomenon has also spread to Canada where many people in Western Ontario have reported seeing two large formations of discs moving across the sky in a wide arc. Estimates of size vary from six to eight inches to the proportions of a five-roomed house. Most observers describe the objects as luminous. Some insist that they emit varicolored fire.

### FLYING DISC ON U.S. RANCH

#### Air Force Report

London Daily Telegraph, July 9, 1947

The United States Army Air Force at Roswell, New Mexico, in which area the first atomic bomb was tested and where the Army is testing new rockets, today announced that a “flying saucer” was found last week. It was inspected at the airfield before being sent to “higher quarters.”

The statement said: “Yesterday an intelligence

officer of the 509 Atomic Bomb Group of the Eighth Air Force at Roswell gained possession of a flying disc through cooperation of local ranchers and the sheriff’s office. The object landed on a ranch near Roswell last week. After inspection the disc was loaned to higher authorities.”

Only an intelligence officer, the officer commanding the airfield and the rancher have seen the disc.

Earlier Dr. O. J. Zohn, guided missile expert attached to the Naval Laboratory, said he and two fellow scientists saw a “saucer” on June 29 near White Sands, New Mexico. When he reported it to the Army all he received was “knowing smiles.”

### FLYING SAUCERS NOW SEEN IN CHINA

The Bangkok Post, July 15, 1947

“Flying saucers” that have been puzzling the American public for the past fortnight now appear to have invaded China. A staff member for the Anshan steel factory in Central Mukden said Sunday he saw over eighty flying saucers Thursday night. He said they appeared to be four feet in diameter, round in shape with some light spots. They were shooting through space from northeast to southwest disappearing eventually at one minute intervals.

### UFO Activity over South Eastern Colorado (Continued from page 1)

After I met the witness about two months later, we looked all over the site. I could see no evidence of a landing. There was one area of slightly discolored ground, but I think this had more to do with the demolition of a building on the site than anything to do with a

UFO landing. Nowhere was there any evidence of crushed plants or brush. It had been nearly two months since the “landing”, so weather and wind might have affected the site. This case needs a lot more investigation.

Nov. 4, right outside of Coal Creek about 7:30 p.m. Same witness as before, with two additional witnesses, a mother and her son. First a bright light appeared for a few seconds, then blinked out. Immediately four other identical lights switched on for about 5 seconds.

We may have an explanation for this. Space Station Astronauts have observed bright lights appearing in the Aurora for a few seconds during high solar activity. On Nov. 4 we experienced an X-28 solar flare. The largest ever observed in history. The solar flare occurred 9 hours before the sighting. The brunt of the storm takes about 19 hours to reach earth. (Actually it can take days, but these powerful storms seem to have fast moving particles.) In checking the proton flux, there are indications of a higher count. Since the moon was up, but not quite full, the Aurora would have been washed out, but not the bright lights.

## New Year's Message from the State Director

**By Leslie Varnicle, COMUFON State Director**

As I sit here writing this short article, the old year is near an end and the new is about to begin. MUFON and Colorado MUFON have undergone many changes this past year. MUFON HQ has closed the store front and moved to a virtual store on the Internet. Colorado MUFON has moved our monthly meeting from the old HQ building to the Glendale Community Center.

We've made some changes in the officers of Colorado MUFON. The details are published in this newsletter and all future newsletters. We've had an overwhelming number of sighting cases this year, many have had to go unresearched due to lack of investigators to handle the cases. For 2004, we have an excellent slate of speakers as usual for our monthly meetings. Since meetings are hard to attend for those out of the Denver metro area, and to allow as many members to attend a meeting as possible, meetings will be held in other cities outside of Denver. The officer team has decided to move meetings around this year with meetings to be held in the Greeley area, Montrose area and our now yearly event of a campout at the UFO Watchtower near Alamosa. More details will follow in this newsletter and will be published on the web site. The big event for Colorado MUFON this year is the 2004 International Symposium. Needless to say, help will be needed to make this event happen and the help will need to be supplied by us here in Colorado MUFON. Many volunteer jobs are open and the more who volunteer to help, the easier it will be for all the volunteers. The speaker line up is being solidified and your Director is working on having Whitley Striber do a remote broadcast of his Dreamland program from the Symposium. If you are not aware, rumor has it that Dreamland will be going back on the air like it was years ago. I'm also trying to convince Art Bell to also do a remote broadcast of Coast to Coast from the Symposium. More on this in the newsletter and the websites as the details come together.

We're planning an event at 6-Flags (old Eliches) which will be on UFO Awareness day. This will happen the day before the Symposium and the details will be published and volunteers will be needed.

Investigators, we need investigators. Too many cases are going unresearched due to an extreme overload of the small investigator staff we have in Colorado MUFON. Training is held between 11AM and noon the Saturday of each Monthly meeting so that those who wish to receive additional training to help in passing the exam may attend. This last month an Investigator Trainee came the whole way in from Sterling to attend training and the meeting.

Our monthly Colorado MUFON Board Meetings are held at 9AM at the Community Center where the regular meeting is held. It is a BYOB (Bring Your Own Breakfast) meeting and all are invited to attend.

In closing, I encourage all Colorado MUFON members to check the help needed for the Symposium either on the web sites or published in this newsletter and volunteer to help.

I can guarantee lots of fun along with a little work plus you will get to be "back stage" for the Symposium and we all know that the back stage help gets to meet and greet the speakers and maybe even a couple of famous radio hosts.

In other words, an exciting and fun filled year for us here in Colorado MUFON in 2004 and beyond.

### COLORADO SPRINGS SIGHTING

**By Clifford Clift, COMUFON Investigator, State Section Director**

On September 7, 2003, three family members saw an object drift slowly over the top of their home at about 9:10pm, Sunday evening. They called MUFON and reported the sighting. James Carrion, lead investigator, and myself, Clifford Clift, drove to Colorado Springs to investigate. Ed Burke, local MUFON investigator, was on vacation and not available. We felt immediate attention to this remarkable sighting was required due to the credibility of witnesses and the high strangeness.

James and I drove to Colorado Springs in the evening of September 18 and interviewed the family. The following is the report of our initial investigation.

We arrived at the home of the witnesses about 7:PM. After introductions and formalities, James set up his Camcorder and each of the three witnesses were interviewed separately on tape, Don was first, then Mary, and then Ben. (Names are not real even though they felt it would be okay to release their names.)

All three interviewees reported basically the same information about the sighting. There were small differences, which is to be expected. Their sighting follows:

About 9:10 PM on September 7, 2003, the family was watching TV. Mary was in her recliner next to their bay window on the North side of the home. Mary glanced out the window and saw some lights in the sky, which appeared to be in a very strange configuration. She

*(Continued on page 7)*

## We Are Not Alone!

Martian Military Intelligence Service Press Release for immediate release....

Mars UFO Network now has 23 UFO's in their possession. Martian military leader, Marvin Martian, states that Mars military is currently back engineering these objects and that none of these objects are part of the military's "black projects" Where could they be coming from? The Martian military has no Martian explanation!

[www.mufon.com](http://www.mufon.com)

Well, I just couldn't help myself. You have to wonder what's going on out there albeit from a different perspective.

MARK YOUR CALENDARS and plan to take a week off for the **35<sup>th</sup> Annual MUFON Symposium** which will be held right here in **Denver, July 16-18, 2004** at the Marriott SE (<http://www.stayatmarriott.com/mufon/>), Hampden exit off of I-25. There will also be a pre-symposium kick-off at Six Flags Elitch Gardens (<http://www.sixflags.com/>) in Denver on the 15<sup>th</sup> of July. We promise this will be a great event. Check out Colorado MUFON's website ([www.comufon.org](http://www.comufon.org)) for more details. All the registration info, prices, etc. will be on both websites before the end of January 2004. The first 100 registrations will be placed in a drawing for 2 autographed (*by Dan Aykroyd, MUFON's Hollywood Consultant*) House of Blues t-shirts and Blues Brother's harmonica. All early registrations made before May 15<sup>th</sup>, 2004 will receive 20 tickets to be entered into a drawing for a personal DVD player, leather carrying case and noise-canceling earphones. You must be present to win! Please check the websites often.

That's how some of the advertising for this great event in July will go and we hope all of you will help spread the word! This is a wonderful opportunity for MUFON and CO MUFON. All profits from this symposium will be split between MUFON and CO MUFON, so let's make this a record-breaker for all MUFON symposium attendance. Again, mark those calendars and take a couple extra days off to help us out with all the set-up at the Marriott a couple of days prior to the symposium kick-off. Please let me know if you can help out in any way. You can email me at [mufon@estreet.com](mailto:mufon@estreet.com) or call me at 720-353-5972.

The Pandora Project is coming along. We've discovered another way to make this project move ahead a little more quickly and a little easier for volunteers. MUFON has 750 well-investigated cases already in the WUFOD database on the MUFON website and my husband and I will be scanning those in and hope to have those completed by end of January, if all goes well. Then we'll need volunteers, working with James Carrion, who have computers preferably with high-speed access and MUFON security clearance to do some of the clean-up work from their homes. Bob and I and possibly a couple of volunteers will then start on scanning the largest part of the investigations that could take a good 6 months to a year to just scan in. We will again need volunteers to do clean-up work from their home computers. Once all that is complete, James will do his magic and voila we'll have a great database. Of course all this will also mean new ways to do make sure the completed investigations will go directly into the database. We need to streamline the investigative process getting all states and their investigators on-line and on-board with this project. We have way too many investigators in other states not completing and turning in their investigations to MUFON. If we don't get all the information into the database we can't find the answers.

Also, Pamela and Christopher Cisneros from Prologix ([www.prologix.com](http://www.prologix.com)) will be redesigning the international MUFON website and you'll see the new one very soon. Keep checking [www.mufon.com](http://www.mufon.com) and tell your friends!

So, all in all, 2004 will be a very busy year for CO MUFON and for MUFON. We have a lot to accomplish but I think we are all up to the challenge. Thanks to all of you for your help last year and for your help in 2004. Together we can all make a difference.

Here's to a prosperous and productive new year to all of you and to MUFON!

**Lin Simpson, MUFON Director of Membership**

**COLORADO SPRINGS SIGHTING** (Continued from page 5)

"yelled" to Don and Ben to come and look at these strange lights.

Both went to window and observed the lights. The object appeared to be a dark rectangle with a bar of lights in the front and in the back. The lights looked like "carnival lights", and pulsed. There appeared to be red lights at each corner of the rectangular object.

They watched the object for about five minutes as it traveled to the north and then bank to the east. (Bank is the only word that described the turn.) Mary was very excited about the object and went outside to get a better view of the object. When it turned to the east, Mary decided to follow the object in her car, since it was only traveling at about 5 to 15 mph. Mary followed the object for about 15 min and then lost it due to trees and buildings blocking her view. Mary's main thought while chasing the object was it is a "Flight for Life" helicopter going to the hospital. It didn't stop at the hospital, but continued east.

The object's size was reported to be 30' X 60' by two of the witnesses and the size of a football field by the third, altitude was estimated at 300' above their house, speed of 5 mph, and no noise was heard. The size and altitude was determined by points of reference to the mountains directly west and northwest of their home. Also, they have police helicopters traveling above their home in the past and used them as a reference. No other airplanes or helicopters were seen in the sky. The speed was determined by the length of time it took for the object to travel north to a mountain of known distance from their home. It then turned to the east. Mary was able to follow the object in her car, while in traffic, which was another indicator of its speed. No noise was heard by them or their dog. They stated their dog is frightened of any loud noise and didn't move from the patio deck or even look up.

All three witnesses are very credible. Don worked on a flight line for 20 years and is presently an Assistant Principal at a school in Colorado Springs. Mary presently works for the Post Office, but has a chemical engineering degree and worked for the Atomic Energy Lab. The son is very intelligent and articulate, as the whole family is. Don knows airplanes and their capabilities. He believes the object they saw was not any known airplane, glider, or dirigible.

All three stated they weren't fearful, but just curious and excited about seeing the object. There didn't have physiological affects from their sighting, nor did they have any missing time.

The high credibility of the observers and the strangeness of this case makes for a very significant sighting. As a follow up. There was a sighting of a similar shaped object directly over NORAD later in the month. Ed Burke is doing the follow up.

- Clifford Clift is also an International MUFON Board Member.

## Mysterious Lights Videoed East of Denver

Case No. CO#112103

From: Don Johnson

On November 29th, 2003 Ethan Rich and myself conducted an interview with a witness 40 miles east of Denver in regard to a possible UFO encounter that he had taped on his camcorder, roughly 1-1/2 minutes in duration.

The witness stated that on the night of September 27th, 2003 he woke up around 1:30am while sleeping on the couch, due to his four dogs being restless. As he got up to take the dogs outside, the dogs instead ran into his bedroom and hid in a closet. At this time the witness noticed a pale blue light illuminating outside the house and went outside to investigate the source. Doing so, the witness observed a round object in the sky to his south. The object consisted of four quadrants of lights, each of them displaying a different color of light. Red, green, blue and white along with a bluish/purple halo around the object itself.

After watching the object for a short time, fascinated with the colors, the witness then went inside to get his video recorder. Doing so, he noticed that his dogs were still hiding in the bedroom. Returning outside, the object appeared to have changed its intensity but continued to pulsate. Once the witness started filming the object, the object started erratic motions, angled up and disappeared. The object made no sound.

Returning into the home, the witness stated that he could not coax his dogs out of the bedroom and that his clock showed 2:25am.

### THE BORDERLANDS NETWORK - PRESS RELEASE!!!

Until we launch The Borderlands Network on our own satellite and make it available to our viewers worldwide. We are launching a series of one of a kind "Live" Web cast specials twice a month beginning in January 2004.

Our Live Web casts feature the Top Experts in the fields of ALL Paranormal related subject matter: UFOS, GHOSTS, RODS, LOCH NESS, MOON ANOMALIES, etc., we will be presenting some outstanding "Live" web casts throughout 2004.

So join us in the making of a Network . . . The ALL Paranormal Network GO TO:

<http://www.theborderlandsnetwork.com>

**RODS "Live" with Jose Escamilla**  
**Two Hour Special Webcast**  
**Thursday - January 17, 2004**  
**Pay Per View \$ 9.95**
