Middlesex County.....Mr. Barry Greenwood
Norfolk County.....Mr. Jim Melesciuc
Worcester County.....Mr. Jules Vaillancourt

MEETINGS

Meetings are held bi-monthly at a church in Belmont, MA. These have featured speakers, films, videotapes, etc. During the alternate months, small working meetings are held at the home of Barry Greenwood, and these have dealt with specific objectives, such as compilation of the UFO display for shopping malls, as well as with indexing microfilms and working on a computer listing of our resources. These will also include field investigator-trainee training sessions. One of our regular bi-monthly meetings this year included the visit of a psychology professor from Boston College and his class of students.

NEWSLETTERS

Monthly newsletters are published for the entire membership, and often include news items taken from the National Newsletter. The National Newsletter is made available to members at meetings as well. (copies of Newsletter enclosed).

TELEPHONE HOTLINE

We have maintained a 24-hour telephone hotline for over 3 years now, and it has been highly successful in not only providing an avenue for receiving new cases, but also for providing a communication channel for our officers. We often use the hotline to leave messages for one another when we are unable to reach one another at home or at work. Also, on days of meetings, we play a message relating to the meeting on the hotline machine. That way, if the weather is poor, our members are able to call the hotline and find out if the meeting has been rescheduled or not.

UFO HOTLINE
617-944-0686

PUBLIC INFORMATION ACTIVITIES

Radio and Television Appearances

During August, 1983, Marge Christensen and Barry Greenwood were guests on the Pat Whitley show on WTPP Radio, Natick, MA. Also in August, during a two-hour program, Barry Greenwood, Budd Hopkins, and Marge Christensen were guests on the radio program, "The Thought Process," hosted by psychologist, Dr. Harry Sobel, on WRKO Radio, Boston. Ray Fowler made several radio and television appearances throughout the year as well.

Newspaper Coverage

Various members of the group, including Barry Greenwood, Ray Fowler, Marge Christensen, and Walter Webb were covered in newspaper articles during the year. After a meeting with Larry Fawcett and Dot Street (England- BUFORA), and Bentwaters' witness, "Art Wallace," MUFON was covered in a front-page story in the "Beverly Times," (included).

In conjunction with advance publicity for CLEAR INTENT, Barry Greenwood and Larry Fawcett were covered in a full-page article in the National Enquirer.

Guest Speakers

During the year, Marge Christensen addressed several groups including the following:
PTO groups
an engineers' group from a large Boston engineering firm
The John Greenleaf Whittier Society
school classes

Ray Fowler participates in a gourmet dinner-speech group, and as such, lectures to small groups of people at dinner parties throughout Massachusetts.

MUFON Information Page

A copy of our MUFON Information Page is enclosed. It was compiled in order to use as an introduction for witnesses to sightings as well as for new members. A copy is included in this report.

UFO Display

We have compiled a free-standing UFO display, made up of four display panels, each 3ft. x 4 ft. This display, which is collapsable and easily stored, is intended for use at bookstores when CLEAR INTENT is published, as well as for use in shopping malls, fairs, etc.

UFO group attempts to enlighten public

By ANDREA ATKINS
Times staff

BEVERLY — On Dec. 28, 1980, Art Wallace, an American Air Force security officer, was ordered into the woods near a British air force base where he observed animals running frenzied from the forest's interior.

As he and several colleagues searched the area, they saw light rays coming through the woods, heard helicopter sounds and observed what he described as a "transparent aspirin with a mist in the middle."

That Woodbridge, England, incident was the focus of conversation yesterday at the 2 Cherry Road home of Marge Christensen. Mrs. Christensen, a teacher at Beverly High School, has been involved in UFO investigations since she heard a lecture on UFOs about 10 years ago.

The meeting at her home was a regular session of the regional Mutual UFO Network Inc. About a dozen people attended, some from as far away as New York.

Larry Fawcett, one of the directors of the Mutual UFO Network, told the group that, according to the reports, "over the

pine trees came a red ball which then burst into multi-colors. Where the aspirin was, there was a machine — triangular in shape, with lights on it."

After more than one hour's discussion of that day's events, Fawcett introduced Art Wallace (an assumed name) — the man who witnessed the incident.

Wallace said he has gotten accustomed to skepticism about his incredible story while at the same time he has undergone "unending harassment" from the military. "I know I wasn't crazy. I know it happened. I know it's hard for people to accept," said the 22-year-old New York state native who said he also saw three-foot tall beings that same night.

Fawcett and Mrs. Christensen are part of the Mutual UFO Network, an international scientific organization, which researches UFO sightings and tries to bring the information to the public.

They said yesterday that Wallace's sitting is significant because two days after it occurred, British researchers, none of whom knew the American Wallace, were told the same story about what went on in the woods near Woodbridge.

UFO, page A8

• UFO sitings discussed

Continued from page 1

Dot Street, one of the British researchers, was at yesterday's meeting.

Ms. Street said she has been to the British Defense Ministry, the Forestry Ministry and other national departments with little success in learning the details of that December night.

She did learn, however, that the British Broadcasting Co. was told by the Forestry Department that something did happen in those woods, but "we've been told by the military not to say what."

And a letter obtained from U.S. Air Force Col. Charles I. Halt, confirms the incident.

"Early in the morning of 27 Dec. 1980, two USAF security police patrolmen saw unusual lights outside the back gate at RAF Woodbridge," Halt wrote in a Jan. 1981 memo to the RAF.

"The individuals reported seeing a strange glowing object in the forest. The object was described as being metallic in appearance and triangular in shape, approximately two to three meters across the base and approximately two meters high. It illuminated the entire forest with a white light. The object itself had a pulsing red light on top and a bank(s) of blue lights underneath. The object was hovering or on legs," Halt wrote.

The next day, the colonel reported, depressions were found in the forest floor.

The Mutual UFO Network (MUFON) wants to release more of the information it feels the government is withholding on this and other sightings. According to Ray Fowler of Wenham, the author of five books on the subject, and a member of MUFON, the government has no defenses against alien invaders and also fears the information gleaned from these sightings could be used against this country militarily.

"The United States might want to use this information to apply to its own weapons systems. They don't look at this from a scientific standpoint, but as a military issue," he said.

Wallace said he was ordered by his superiors to "keep quiet" about the incident and discovered a telephone call to his mother had been tapped and disconnected when he began to tell her the story.

He was until recently denied re-enlistment in the military. The incident, he said, has changed his life, made him wary of phone calls and talking with the media. He said his family worries about his safety.

But he is even angrier with people who attempt to dismiss what he claims he saw.

"There were people in England who said it was a lighthouse. It makes me sick. The human race is so derogatory to themselves when they say things like that. I never believed in this before, but when I saw it, I wanted to tell everyone about it," he said.

"The Beverly Times"

11/21/83 pg. 1

The Mutual UFO Network, Inc. is an international scientific organization, comprised of people seriously interested in researching the UFO phenomenon by combining their mutual talents, areas of expertise, and investigative efforts. MUFON's administrative staff is assisted by its International Coordinator and Foreign Liaison Representatives as well as its vast network of State Directors, Provincial Directors, State Section Directors, Consultants, Staff, and Field Investigators. MUFON has volunteered its support and cooperation to the Center for UFO Studies, as a field investigating team. The Center for UFO Studies, under the direction of Dr. J. Allen Hynek, former Consultant to the United States Air Force (on UFO's), is a free association of scientists, engineers, and other professionals.

MUFON's Board of Consultants, most of whom are PhD's or MD's, representing 45 areas of science, technology, medicine, psychology, psychiatry, engineering, communications, political science, photo analysis, etc., are readily available as an advisory group to apply their expertise to UFO cases under study and to conduct advanced research in their respective fields.

MUFON annually sponsors an International UFO Symposium, where internationally known scientists, engineers, and authors lecture on their particular specialization or contributions to resolving this perplexing scientific dilemma. In 1981, Massachusetts hosted the annual MUFON UFO Symposium, which was held at the Massachusetts Institute of Technology.

MUFON Field Investigators investigate sighting reports from police agencies, as well as those received by the Center for UFO Studies hotline, and from the National UFO Reporting Center in Seattle, Washington. Some states have state hotlines as well. In Massachusetts, the MUFON hotline telephone number is 944-0686. Since MUFON is the largest and most extensive network of UFO field investigators, this cooperative effort has been mutually beneficial to all involved.

In order that only qualified, competent, and sincere people may become involved, membership in MUFON is by invitation only. Field investigators are trained, and high standards of professionalism are required by MUFON. As objective, scientific researchers, MUFON field investigators uphold the confidentiality of witnesses and case information. MUFON investigators are volunteers who conduct research at their own expense, and attempt to document sighting information in a thorough, unbiased manner. Access to large data banks in computers aids MUFON investigators in analyzing data derived from cases.

In most sighting investigations, the actual investigative process involves a telephone interview with the witness, followed by an in-depth personal interview during which time forms will be completed, sketches of the object sighted will be requested, and compass readings, or photographs of the location of the sighting may be taken. The investigator will then attempt to document the details of the sighting, and to attempt to identify the object sighted. In approximately 85% of the cases, the object is able to be identified. In the remainder of the cases, the sighting will be listed as an unidentified flying object, and further research will be involved.

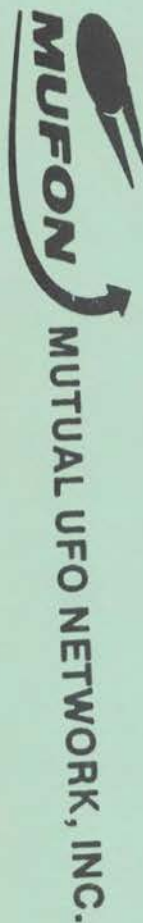

UFO FORUM- AUGUST 12, 1984

On Sunday, August 12, from 9:00 a.m. to 4:00 p.m., Mass. MUFON will host a UFO Forum at a community center in Beverly, MA. The following speakers have been obtained:

Mr. Barry Greenwood
Mr. Lawrence Fawcett
Mr. Budd Hopkins
Dr. David M. Jacobs
Mrs. Cynthia Hind

This forum will be open to
in addition to Mass. MUFON

rea,

PUBLIC EDUCATION ENDEAVORS

Summer, 1983-

North Shore G.A.T.E.

Program for Academically
Gifted and Talented
Children.

(see attached brochure)

Guest speaking in schools:

Marge Christensen spoke to numerous school classes on the subject of UFOs, both at Beverly High School, and at a middle school in Gloucester, MA.

Jules Vaillancourt spoke to students in the Worcester County area on the subject of UFOs. A student who was doing a report on the subject of UFOs interviewed Jules.

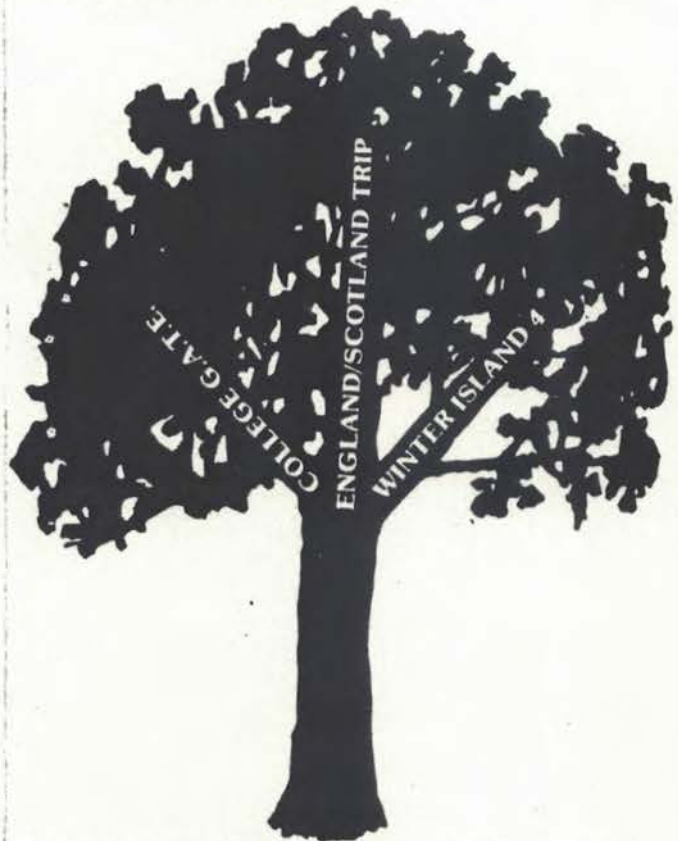

North Shore G.A.T.E. Inc.

Fourth Annual

Summer Session

Enrichment Programs

To provide academically challenging experiences that stimulate creative thinking and problem-solving skills and offer opportunities to interact with children of equal ability.

COLLEGE G.A.T.E. - ENDICOTT COLLEGE grades 4-8
Monday - Friday; 9 a.m. - 2:30 pm, July 6 - 28

WINTER ISLAND 4 - SALEM, MA. grades K - 8
Three 2-week sessions: July 5 - 15, 18 - 29
August 1 - 12

BIKING IN ENGLAND/SCOTLAND ages 14-16
August 1 - 28

COLLEGE G.A.T.E. AT ENDICOTT COLLEGE

July 6 - 28/9:00 - 2:30/Students in grades 4-8

Jim Watras — Director

Three and a half weeks of challenging educational courses to provide exposure to new areas of learning and to develop advanced skills through in-depth study. College G.A.T.E. will be held on the beautiful campus of Endicott College in Prides Crossing. Courses will be taught by Endicott faculty, area professionals and teachers of the gifted. These courses will be limited in number and individualized in nature. Each child will take three classes and there will be free time for recreation.

Monday-Friday
Daily Schedule
9:00-10:30 Period I
10:30-12:00 Period II
12:00-1:00 Lunch and Organized recreation
1:00-2:30 Period III

Tuition is \$235 (\$230 for children of G.A.T.E. Members) and includes all fees except lunch and optional field trip admissions. Parents will provide a bag lunch and transportation to Endicott — carpools can be arranged.

College G.A.T.E. Course Offerings

Puppetry - Glorie Rohnke Period III

Introductory to advanced. Learn all elements of puppetry from making your own puppets to putting on puppet show.

Math Recreation - Herb Schlegel Period I

Ways to have fun with probability, statistics, sets, etc. This class is good as a way to go beyond what is normally done in math classes and to improve your math skills.

Basic Design & Batik -

Pamela Tubridy-Baucom Period I

Exposure to the ancient art of Batik. Explore the elements of design and then apply this knowledge to batiks, using special waxes and dyes rarely used with children. There will also be a chance to make batiked soft sculpture and other creative design projects.

TV Workshop - Dr. Eileen Kneeland Period II or III

A class in visual literacy using the Endicott tv/video studio. Students will learn how to bring a concept to life: scripting, public speaking and acting, camera operations, production and editing. A group project will be produced.

Computers - Kristen Clark Periods I & II

Either an introduction to computer language and programming or a chance to improve your programming skills. Students will work on micro-computers to write their own programs.

Computer Problem-Solving -

Kristen Clark Period II

For students with a knowledge of BASIC language and programming who wish to use the computer in a more advanced way.

Chemistry - Dick Costello Period II

Have fun in the chemistry lab while learning about acids, bases and salts. Experiments and chalk talk will investigate measuring pH, chemical properties and reactions and the world of salt crystals.

Responsive Drawing & Painting From Nature - Lynn Runnels Period II

Learn various techniques to draw in a realistic manner. Students will study fundamental and essential elements to lay the foundation for future artistic development. Basic painting will be introduced.

Advanced Role Playing Games -

John Reeder Period I

For those who have previous experience in at least one type of fantasy/role playing game (e.g. Dungeons and Dragons, Top Secret, Star Frontiers). You will learn the strategies involved in playing these games and either create your own adventure or design a new game system.

Marvels and Mysteries of the North

Shore - David Goss Period III

Research and recreate various historical mysteries of the North Shore (e.g. Salem Witchcraft, the Dogtown mystery, the Joseph White Murder). Students will do independent study on one or more of the "mysteries" and present them to the rest of the class. There will be frequent field trips (some of which may go beyond 2:30) to the actual location of the events.

U.F.O.'s: Space Invaders -

Marge Christensen Period III

Study the U.F.O. phenomenon using problem solving investigation, creative writing and role playing. Basic astronomy will be taught as well as actual U.F.O. cases.

Creative Writing - Elizabeth Kirby Period I

Have fun while experimenting with various forms of creative writing. Emphasis will be on poetry, fiction and expository writing.

Drama - Debby Faust Period III

Students will learn warm-up exercises and acting techniques to develop control of their own minds and bodies. Improvisation, building a character and pantomime will be taught, as well as using a script to perform in a final presentation.

Potpourri of Trivia - Herb Schlegel Period III

A look at the development of science, math, language, sports and entertainment (radio, TV, movies, comics, music) through trivia. Students will look at and listen to examples from each area. There will be a chance to have the fun of testing your knowledge with others.

Photography - James Watras & Chris Smith Period III

An intermediate course for those who have had experience with 35 mm. cameras (each student must have one). Learn techniques of composition and exposure, as well as black and white developing, printing and mounting. The class will exhibit their prints and also produce a slide presentation of the GATE program. LAB FEE \$12.

Introduction to French Language and

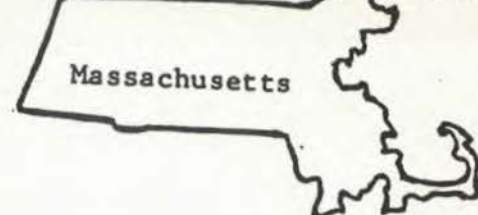

Culture - Brenda Taylor Period I

An introduction to speaking and thinking French. Students should be willing to try new modes of expression and will learn basic conversational French, as well as experience the music, food and way of life of France.

Children's Express - Kate Pulnik & Express Staff Period III

Children's Express is a national newsgathering organization of kids age 9-13, carried by U.P.I. They have interviewed such notables as Kennedy, Ford and Kissinger. Their motto is, "By children, for everyone." Learn how to become an Express reporter. Students can carry on their assignments during the school year. (8th graders can intern as editors.)

Jules Vaillancourt spoke to students in the Worcester County area on the subject of UFOs. A student who was doing a report on the subject of UFOs interviewed Jules.

POLICIES OF MASS. MUFON

MEMBERSHIP APPLICATIONS:

Persons submitting applications for membership in MUFON shall be required to submit in writing a résumé, with references, as well as a letter detailing reasons for desiring to join MUFON. Their applications will be forwarded to their respective State Section Directors, who will interview the applicants, and then make their recommendation to the State Director, who will then notify MUFON Hdqtrs. in Seguin, Texas of our recommendation regarding the particular applications.

ATTENDANCE AT MUFON MEETINGS

Attendance at Mass. MUFON meetings is restricted to members and their guests only. Guests must be accompanied by members.

FIELD INVESTIGATORS:

Field investigators will be properly trained by State Section Directors, and will be accompanied on investigations by experienced investigators until they gain a reasonable amount of experience. Investigators are required to adhere to the guidelines in the Field Investigator's Manual, and to exhibit the highest degree of professionalism at all times. Field investigators are encouraged to draw upon the various backgrounds and variety of areas of expertise of the other members of the group for assistance and advice. In all cases in which thorough investigation results in labeling an object as an "unknown" or in more complex cases, such as abduction cases or trace cases, the investigator or investigative team is required to submit a report on the case, which adheres to the format stated in the manual. Simply completing forms or tapes of interviews is not acceptable.

In the distribution of cases, it is expected that qualified field investigators will accept cases assigned to them unless there are extenuating circumstances which prevent them from doing so. Persons who consistently refuse to accept new cases will be notified that they will be dropped from the ranks of field investigators.

CASE DISCUSSIONS AT MEETINGS:

It is recognized that there is much value in discussing cases during meetings in order to offer a learning experience for all of us. Case discussions at meetings shall preserve the confidentiality of all witnesses, however, and shall not divulge names or addresses or telephone numbers of witnesses. Locations and dates of sightings may be used for identification purposes.

I understand the above policies of Mass. MUFON, and agree to abide by them.

Signature of Member or Applicant,

Date

MASS. MUFON RESOURCES

Dues

Members are charged annual dues in order to help fund the hotline cost and the rental for the meeting hall, newsletters, guest speakers, etc. In addition, this year nearly \$300 was raised as a result of our third year in the National Community Services magazine drive.

Clipping Service

Several members contribute monthly to help defray the cost of the clipping service in order to preserve this valuable asset for our membership.

Equipment

We have now obtained two microfilm readers, a microfiche reader, a copy machine, and also have access to three video-cassette recorders owned by our members, so that we are able to record radio and television segments on the UFO subject. At our historian's UFO office, we now have one file cabinet with only rolls of microfilm. This includes the complete Bluebook files, OSI files, NICAP files, etc. In addition, we have access to numerous journals and magazines and periodicals in several foreign languages as well as English. There is a sizeable collection of films, tapes, slides, movies, documents, clipping files, books, pamphlets, paperbacks, etc., etc., etc. We are hoping that these will all be entered into a computer listing which some of our members are compiling, and planning to make available to other UFologists.

Computer Listing of Resources (see above paragraph)

Indexing of OSI Microfilms

One of our impending projects is to index the OSI microfilms in our historian's library. This will be a time-consuming, but important task for some of our members who have volunteered to work on this.

CASES INVESTIGATED

In 1983, there were cases investigated in the following counties:

Barnstable.....	1
Essex.....	3
Middlesex.....	3
Norfolk.....	4
Plymouth.....	1
Suffolk.....	2
Worcester.....	1

None of these cases amounted to anything particularly interesting, except for an abduction case investigated by Joe Nyman, and a report of that case will be forthcoming soon.

All cases are listed on a computer file and are categorized according to their status... e.g., completed, or open, etc.

SPECIAL ACHIEVEMENTS*

National Newsletter Initiated

In the spring of 1983, Marge Christensen initiated the National Newsletter for MUFON, and has published it and mailed it to all State Directors and other MUFON officers ever since, on a monthly basis. This Newsletter is intended to keep our State Directors up-to-date on important news and information, and also to disseminate news that is not intended for the entire list of Contributing Subscribers. State Directors should share the content of the Newsletter with their respective members.

CLEAR INTENT Published

Although this book is not a project of Mass. MUFON, we are extremely proud that one of the co-authors, Barry Greenwood, is our Historian and State Section Director for Middlesex County. Also, three MUFON members assisted in typing the chapters of the book. We are now awaiting public reaction to this book, which we feel is a milestone in UFO literature. We salute Barry Greenwood and Larry Fawcett for this outstanding achievement.

AUGUST UFO FORUM

Mentioned earlier in the report, this Forum is slated to take place on Aug. 12, and promises to provide a stimulating and informative day for our members and their guests..

Massachusetts

MUTUAL UFO NETWORK, INC.

NEWSLETTER

Issue # 17

FEBRUARY-MARCH----- 1984

SYMPOSIUM UPDATE

Due to unforeseen circumstances, MUFON Metroplex of Dallas will not host the 1984 MUFON UFO Symposium. Instead, MUFON of San Antonio, Texas will host the Symposium on JULY 6, 7, and 8 at the Holiday Inn North- Airport Area, 77 Northeast Loop 410, San Antonio, Texas. 78206. Rooms at the Holiday Inn will cost \$35 for either a single or a double room. The hotel telephone number is: 512-349-9915. Make sure to let them know that you are reserving a room for the MUFON Symposium in order to get this special rate.

Symposium fees are as follows: Pre-registration---\$ **27.50**
Registration at door-----\$ **35.00**

The following speakers have been placed on the program to date: Dr. J. Allen Hynek, Mr. Budd Hopkins, Mr. Barry Greenwood, Mr. John Schuessler, Mrs. Marge Christensen, Mr. Alan Holt, Mr. Tom Adams, Mr. Philip Imbrogno, Mr. Paul Norman (Australia), Mrs. Cynthia Hind (Zimbabwe), Mr. Hilary Evans (England).

Chairman for the Symposium is Mr. Tom Deuley, who has a great many innovative ideas, and also a tremendous amount of energy and enthusiasm. This Symposium promises to be an excellent one, so mark your calendars now and plan to attend. To date, six Mass. MUFON members have made plans to attend.

Inquiries regarding the Symposium, and pre-registration fees should be sent to:

MUFON of San Antonio
P.O. 12434
San Antonio, TX 78212

MEMBERS URGED TO CONTACT PUBLISHER REGARDING CLEAR INTENT

We have been asked to encourage our members to write to Prentice-Hall, Inc., Englewood Cliffs, New Jersey 07632, to indicate their interest in the book, Clear Intent, co-authored by Barry Greenwood and Lawrence Fawcett prior to its publication, which is now slated for June. It is important that the publisher know that the public is anxiously awaiting the release of this book. Your letters to Prentice-Hall in this vein would be much appreciated. Thank you.

ANNOUNCING

★ A SPECIAL PROGRAM ★

WE ARE HAPPY TO ANNOUNCE THAT PLANS ARE UNDERWAY FOR AN EXCITING EVENT, WHICH PROMISES TO OFFER A STIMULATING, INFORMATIVE, AND INTERESTING, AS WELL AS PLEASURABLE DAY FOR OUR MASS. MUFON MEMBERS. THAT EVENT, WHICH WILL TAKE PLACE ON SUNDAY, AUGUST 12, 1984, IN BEVERLY, MA., IS A:

UFO CONFERENCE

THE CONFERENCE WILL BE HELD AT THE CENTERVILLE COMMUNITY CENTER (Just off Rte. 128) AND WILL BE FREE OF CHARGE TO MASS. MUFON MEMBERS. HOWEVER, OUR MEMBERS WILL BE ASKED TO BRING SANDWICHES, COLD DRINKS, OR BAKED GOODS TO BE USED FOR LUNCH. ALL NON MEMBERS AND OUT-OF-STATE MUFON MEMBERS AND CUFOS, APRO, ETC. MEMBERS WILL BE CHARGED A REGISTRATION FEE, TO COVER THE COST OF THE EVENT.

TO DATE THE FOLLOWING SPEAKERS HAVE BEEN OBTAINED FOR THE EVENT:

- ** MR. BUDD HOPKINS-- (AUTHOR, MISSING TIME, AND NOTED AND RESPECTED RESEARCHER OF ABDUCTION CASES).
- ** DR. DAVID M. JACOBS-- (TEMPLE UNIVERSITY PROFESSOR, AND AUTHOR OF THE UFO CONTROVERSY IN AMERICA).
- ** MR. BARRY GREENWOOD-- (CO-AUTHOR, CLEAR INTENT, TO BE PUBLISHED BY PRENTICE-HALL IN JUNE. NOTED RESEARCHER AND SPECIALIST IN GOVT. DOCUMENTS ON UFO SUBJECT).
- ** MR. LAWRENCE FAWCETT-- (CO-AUTHOR, CLEAR INTENT, SPECIALIZING IN GOVT. DOCUMENTS AND GOVT.-RELATED CASES.)

ALSO: MRS. CYNTHIA HIND--MUFON CONTINENTAL COORDINATOR FOR AFRICA, HAS BEEN INVITED, BUT WE HAVE NOT YET RECEIVED A REPLY.

The program will begin at 9:00 a.m. and from 9:00 to 10:00 a.m. there will be registration and coffee. Our UFO Display which is currently being compiled, will be at the conference for people to view at this time. The actual program will run from 10:00 a.m. to 12:00 a.m., at which time we will have a one-hour lunch break. Following the lunch break, the program will resume at 1:00 p.m. and run until 3:00 p.m. Following the final speaker, a panel discussion involving all of the speakers, with questions from the audience, will be held from 3:00 p.m. to 4:00 p.m.

This is a first for our organization, and we would like to ensure its success. Please plan your vacations around this date if at all possible, and plan to attend on Aug. 12. ALSO, WE WOULD LIKE TO ASK EVERY MEMBER TO BRING AT LEAST 2 GUESTS, OR FORWARD THE FLYERS (AVAILABLE AT MAY MEETING) TO AT LEAST 2 PERSONS THAT YOU KNOW ARE INTERESTED IN THE SUBJECT AND MIGHT ATTEND THE CONFERENCE. Your assistance is much appreciated.
