Topics that were discussed were: status of the Fund for UFO Research, his ongoing research at Kirkland Air Force Base, The MJ 12 Project, his past debates with Phil Klass and his upcoming presentation at the Mass. MUFON Forum. The title of his paper is: "Skeptical of the Skeptics", (Menzell's UFO Hoax) It was a very interesting and educational evening.

ANNOUNCEMENT

In memory of Dr. J. Allen Hynek, CUFOS has renamed itself the J. Allen Hynek Center for UFO Studies.

INTERESTING RESEARCH

Diana DeSimone and I assisted Joanne Bruno in her research on abductees who publicize their encounters. As part of this research, we visited Betty Hill on May 24. Betty proved to be a very warm and hospitable person. We learned that Betty is very biased towards the phenomena and thus poses a burden towards research, public information and public education. Diana and Joanne will give their impressions of this visit at the meeting.

The next meeting will be on September 13, 1986. A section director meeting will be held on June 29, 1986 at Barry Greenwood's home, 6 West Hancock Street, Stoneham, MA 02180. at 1:30 p.m.

BEST WISHES

I am sure I speak for everyone when I wish Dave and Marge the very best of wishes on their move to Arizona. They will be sorely missed but knowing them as I do I am sure they will not be strangers to us in MUFON.

Marge has been a giant in the field of ufology. Her number one priority has been the credibility of our organization and she never tired while performing this burdening task. I feel she has left an example for all of us to follow and I hope we all will.

Brazilians investigate UFO reports

By Harold Emert
Special for USA TODAY

RIO DE JANEIRO — The Brazilian air force Thursday named a panel to investigate sightings of 20 UFOs described as red, white and green balls of lights that moved between 160 and 990 mph across the sky.

Six air force jets chased the ping pong ball-sized objects earlier this week but were forced to land when fuel ran low, officials said.

Among the witnesses was Ozires Silva, head of the state-run oil company. Silva, a pilot, was about to land his plane in Sao Jose dos Campos when he spotted 13 of the UFOs and gave chase. His radar screen picked up the objects.

Rio de Janeiro eyewitness Sonia Grumbach said she saw a bright light for 15 minutes that traveled at "incredible ve-

locity" and seemed to jump.

"It is not a question of believing or not," said Air Force Minister Octavio Moreira Lima. "This requires technical information and we have neither replies nor technical explanations for what happened."

AND IN BRAZIL: Still unexplained are the mysterious multicolored UFOs the size of ping-pong balls that were seen in skies over Brazil this week. The government sent fighter jets to chase them, but they had to turn back after three hours when they started to run out of fuel.
