## Missouri News

By Debbie Ziegelmeyer

UFO sightings have been up in Missouri this year despite the ice, snow, and tornados we have experienced state wide. There were seven reports filed in January and nine in February with reports of multi-craft sightings in Calhoun, Moscow Mills, Raytown, Bolivar, St. Joseph, Holts Summit and St. Clair. Several of these cases are on-going with activity still occurring in these areas.

Our February meeting brought several new faces and a discussion on the recent deaths of birds and fish in the Midwest. There were a lot of ideas discussed by attendees as to the cause, but no sound explanation was found and this still remains a mystery.

Our March meeting will be a power point presentation by me on the 2010 UFO sightings reported in Missouri. I gave this presentation in January to a small crowd due to the ice storm we were having and rushed through it so we could make our way home safely. I've had several requests to repeat this presentation which I would like to do taking a little more time and including some "questions and answers" time at the end.

There will be several evening International Space Station (ISS) and shuttle sighting opportunities this

month starting March 6<sup>th</sup>. If you've never taken the time to look, this will be a great time to start. You can check the "NASA" and "Heaven's Above" web-sights for times and locations.

The UFO Paranormal Group of Greater St. Louis will meet on Sunday March 13<sup>th</sup> 1:30pm at Miss Sheri's Cafeteria located at 9967 Manchester road in Warson Woods. Margie Kay, Missouri MUFON Assistant State Director will be the guest speaker.

Just a reminder, the St. Louis area meeting is the 3<sup>rd</sup> Wednesday of every month at Culpepper's Restaurant, Hwy 270 and Olive Blvd. and falls on the 16<sup>th</sup> this month. Our meeting is 6:30pm-9:00PM and free to the public. Culpepper's requests that we buy a meal to cover the cost of u s i n g t h e r o o m .

## Witness Reports

### 1965 Sighting

Taken by Debbie Ziegelmeyer:

A 57-year old witness reported a sighting that occurred in 1965 when he was 12 years old. There were a total of 8 to 9 children aged 12—18 years who witnessed the event.

The duration of the sighting was 5 minutes, then 15 minutes after it left and returned.

The object was a sphere shape, changing to elliptical shape, and measured approximately 30 feet in diameter. It was red in color with the inside of the sphere appearing to be a lighter red color. Then it moved so fast it could not be seen leaving.

The children then walked to the Pick-A-Dilly store, and the object appeared a few minutes later in the same location but quite closer and had changed shape to elliptical. It then flew at high speed over the children and disappeared. Some of the witnesses still talk about this sighting today and they remember the same thing exactly. A drawing will be provided.

# UFOs Reported in Missouri in February

The following are the initial reports made to [www.mufon.com](http://www.mufon.com) by witnesses in Missouri. The witnesses names and locations and investigator's notes are not included. These are unedited.

**Case #27657:** I laid down on one of the couch ,I usually slept in the room .I had a strange feeling that something was levitating me, and then I awakened to a grey being standing in front of me. they had moved me in a setting up position on the other couch. . I could CLEARLY see this (being) in front of me as I came to . It looked just like what you see in books, t.v., internet, etc. large black eyes, whitish grey skin tone, long fingers, slender short build, (about 4-4 1/2" feet tall). I couldn;t speak, or move. it told me (telepathically), that it meant no harm that it was trying to get information .

I told it (telepathically), not to harm my family. it then had the other two bring out my \*\*\*\*\*.they carried her in the living room (one grabbing her under her arms on each side). she was in a deep trance with her eyes and mouth wide open. they then took her back in the room. It took either its fingers or a tool, and applied pressure in between my left eye and the top of my nose, or inserted something in my nose, not sure. it then applied alot of pressure in the same place which caused a considerable amount of pain.immediately during this (procedure), my lifes memories started going back in time.Icould also see the light shade which was above me, reflecting in this things

large, black, left eye. When they got the information they needed, they left. for several minutes after, I tried to call her name and was finally able to do so. she awoke, and sensed that something wasn't right. she said that when she woke up, that her panties were inside out. she also mentioned there were ripples in the bed which looked like she had been dragged back on to it .

Her panties were also halfway off. we were up the rest of that night, the next day, and the following night. we had difficulty getting to sleep because of what happened. since then, she's in denial of this, but I know that she knows the truth.

**Case #27791:** this cigar shaped [i would say as big jet fusealoge] came just south of our home at a very low level[less than a 1000 feet] and at a distance at the closet spot of less than a 1/8 mile.It was silver, no windows, no noise in a north east direction and it flew in a straight line we were very excited when we saw it and we couldn't believe our eyes after it went by and discussed it for a long while afterwards. It didn't seem to be going at a exburant rate of speed as i have been very close to fighter jets and i know what they can do.

My wife seen it first while getting clothes off of the line in back yard and hollered at me while i was in the shop working on something and when i saw it i rushed over to my son's home [which is 200 ft past the shop] and hollered at them to come and look and my

daughter-in-law,granddaughter,and grandson also saw it.My granddaughter run in to get a camera but it was to far away to really get a picture by then. In this area there have been a lot of strange things one night behind our house in the woods there was a bright lite shining down into the woods with no noise moving real slow and just disappeared as well as several other strange things i have seen in my life as we live near the Piedmont, Mo area that was the ufo hotspot of the seventies's .

I have been told stories by my family back two generations of there experencies with ufo's and i don't think they would lie about it as they keep it to there selves for years before they would even talk about it. If you are interested in knowing any of there sighting i would gladly tell you. what i have told is as truthful as i can.

**Case #27881:** I was bow hunting on a private farm in Agency, Missouri ( Buchanan County )October 5th 2005. I list the time of encounter to be that of approx 1 hour but I would estimate that it was actually longer in retrospect. I was sitting in a fixed position behind a downed tree on the north side of 2 large fields and had a clear view or both, as well a corn silo and farm equipment directly across from me on top of a hill which was approx 500 yards from my location.

At approx 4:00 pm I noticed a large thin object approaching the corn silo on the hill. It appeared at that point to be the size of a half

## UFOs Reported in Missouri in February, Continued

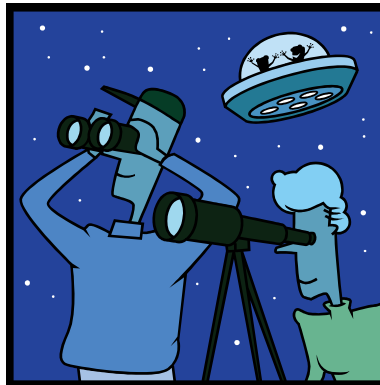

dollar at arms length when held horizontally. At that time to me it appeared to be a large military plane heading north towards my location and my view was that of looking at an airplane heading towards me.

I resumed my hunting looking for any deer in the area, then with some elapsed time I looked back towards the object, and it was still there and at that point made me somewhat curious because it did not appear to have not progressed towards my location at all. It was one of those moments that you just say hmmm and I continued my hunting. I scanned the fields and noticed a farmer combining his field on the adjacent property approximately 600 to 700 yards away.

I then looked back towards the silo and noticed the craft had advanced a little closer though and appeared to me to be now above the silo and larger then a silver dollar at arms length. I became more interested as being use to seeing aircraft fly by out towards Kansas where Roscrans Air Guard is located, I surmised that this was unusual because of the amount of time that had passed and the lack of ground it had covered. It had been approx 15 to 20 minutes at this point and any other aircraft would have flown past sometime ago.

The object had my attention now but being the hunter that I am, I did another scan of the fields. When I returned my view to the location of the silo, the object no appeared to sitting in a 45 degree

angle over the silo, the object now had my full attention and I did not look away from it again. It remained in this position for for about 15 to 20 minutes, it then slowly righted itself and appeared to go back to its original course and position in the air. I noticed now that it slowly moved away from the silo in a northwesterly direction at the speed of a very very slow moving helicopter. This entire time the object appeared to be as twice the size of a silver dollar held horizontally at arms length.

Within approx 8 mins it had worked its way to the top tree line on the southern part of the field I was sitting which was no further then 160 yards, it still appeared as a thick line with no protrusions of any kind on it, as thick as pack of cigarettes held at arms length and very long maybe 100 yards long. It made no noise what so ever no movement of the trees, I took my eyes off it for a second to look over to see if the man on the combine was looking at it but he appeared to be oblivious to it or maybe unable to see it from his location. It continued to move ever

so slowly across the tree line and seemed to me to cover approximately 10 to 12 full grown large oak trees at the tops.

The object worked its way slowly until it passed right in front of me above the tree line, I still had no idea what it was until it reach my 1 o'clock position still less the 160 yards from me and right above the tree tops, it was gigantic. When it hit my 1 o'clock it rolled up with its belly turning flush towards the north, the only way to describe it was like it was riding up a wave and then going down the wave or like a piece of paper turning up and floating down changing its course to the south.

I had an unobstructed up close view of the bottom of this object. it was a perfect long triangle like that of a slice of pizza, dull grey metal not shiny at all. on the bottom it was covered in evenly spaced symmetrical dull white globe lights that appeared to me to look like dull white halves of a globe but much much larger.

I could not get an exact count of the lights because because I was in awe at what i was looking at so to speak. I would say around 9 lights that filled the whole bottom of the craft in uniformity.

After turning its belly up to the north floated ever so slowly to the south and then west following the tops of the trees until it moved away from and appeared to move back behind the trees some ways off. I have never in my life seen anything like this before and have not seen anything like this since.
