Guest Speaker: Larry Jordan, Assistant State Director, Kansas MUFON

Topic:

Larry will be presenting a case he worked in central Kansas. During a rainstorm with a bright lightning strike a witness took a picture of the sky that had what appeared to be a saucer shape UFO in it. The witness contacted the Kansas Mufon Chapter and Larry and his team of investigator's worked the case. Larry will be showing the photograph and explaining what they discovered in the investigation. Don't miss out on the results of this investigation!

LARRY'S BIO: In 1990 Larry began pursuing other interests that were not related to family and his profession. Larry began his own personal quest for knowledge at that time, reading and researching the internet. In 1999, Larry became a regular attendee in the Kansas City MUFON Meetings at the Westport Library. This was the only group in the area at that time.

Larry's participation increased as time passed in the Kansas City Chapter. Larry sought MUFON membership in 2012. Larry joined others becoming a Kansas Field Investigator and Star Team Member. As the group grew in numbers the group split and the Kansas group was formed.
