ISSUE NO. 20

DATE: May, 1993

### State Meeting:

Our next state meeting will be at the **Comfort Inn in Portsmouth**. The date is **Sunday June 27, 1993**. All are encouraged to attend and to bring a friend. The Comfort Inn is located at the Yokens convention and restaurant site just south of the Portsmouth traffic circle. We will **start at 1:00 PM sharp** in the conference room. Many thanks to Kevin MacLeod for making this great facility available to us.

We plan to have discussions on several cases in work including missing time in North Conway, Dual discs in Colebrook, a possible crashed disc in Vermont and photos from a Dover sighting in 1981. Also Dr. Jim Calvin a new NH Mufon member and Consultant in clinical psychology has agreed to answer our questions about communications intelligence. It should be a super meeting so plan to attend.

### State Section Directors:

Please save the enclosed state section director map. It is a quick reference for the section director in your county. If you would like to meet other members in your area, drop a line to your section director. He or she will be happy to help.

### 1993 NH Mufon Conference:

The plans are set, the speakers are confirmed, and we are ready for our third annual UFO Conference. This year we must limit the number of attendees to 450 so we encourage you to register early to insure a seat. The enclosed flyer has all the details. We have already received registrations without the necessary registration form, so interest is high. Sign up as **early as possible** to avoid disappointment. If you plan to stay at an area hotel, get your **reservation now**. We recommend the Comfort Inn located at the convention site.

### Crop Circle Research:

New Hampshire Mufon is working with Colin Andrews this year in scientific research of the 1993 crop circle investigation. Colin departed for England earlier than planned and is now hard at work. His early departure was due to increased activity in his home country. He will keep us informed and will give us a briefing during our September conference. The latest issue of UFO Encounters, Vol. 1 No. 7 has a fascinating story of a German crop marking with the location of allegedly antique metal plates having the exact crop marking. I will have a copy of this story at our state meeting.

## **CLOSE ENCOUNTERS OF THE 5th KIND: CREATING A PEACEFUL RELATIONSHIP WITH EXTRATERRESTRIAL INTELLIGENCE**

*a lecture and workshop with:*

**Steven M. Greer, M.D.**  
**Director of CSETI**

### **LECTURE**

**Friday, June 18, 1993 7:00-9:00 PM ( Admission \$5.00)**  
**LOCATION : The University of New Hampshire - Durham -**  
**The Granite State Room - Memorial Union Bldg.**

### **WORKSHOP**

**Saturday, June 19, 1993 9:00 AM - 5:00 PM**  
**LOCATION - Moose Lodge -Portsmouth (Admission \$40 )**  
***pre-registration advised***

In this lecture and workshop, Dr. Greer will present a new category of Close Encounters which involves human-initiated interactions with UFOs/ETI. He will share case reports of Close Encounters of the 5th kind and describe techniques for using powerful lights and lasers for signalling UFOs, and will play auditory tones recorded from a UFO and from the center of a crop circle. **HE WILL MAKE THE CASE FOR A NEW APPROACH TO UFO RESEARCH WHICH GOES BEYOND PASSIVE OBSERVATION AND EMBRACES THE CONCEPT OF HUMANS INTERACTING WITH UFOs/ETI TO ESTABLISH A SUSTAINABLE, PEACEFUL, DIPLOMATIC RELATIONSHIP.**

In this day long workshop, CSETI will present an in-depth view of CE-5 cases, research results, the techniques of CE-5 research, and the recent spectacular developments using CE-5 techniques.

### **OPTIONAL NIGHT FIELD WORK DEMONSTRATION**

After the workshop, CSETI will conduct a field demonstration using CE-5 techniques for those who want to become part of a CSETI research team (working Group). Those who wish to attend are required to join CSETI (\$40 minimum) and fill out a working group application. Those wishing to continue training and become part of an active working group will be asked to attend a 4-5 day in-depth training retreat. Be prepared for any kind of weather!

The **New Hampshire Mutual UFO Network** cordially invites you to join us and other UFO enthusiasts at our third annual UFO conference. Last years event was attended by over 400 people from all over the North East enjoying the camaraderie and excitement of interfacing with others interested in the UFO phenomenon. This year we are fortunate to have five pioneering ufologists on our program. Each of whom will openly share their opinions and theories with you as well as answer your questions. The best opportunity to meet and interact on a one-on-one basis with the speakers will be at the Saturday night reception. **Please Register Early !**

## MEET THE SPEAKERS

**Colin Andrews** is an Electrical Engineer by profession. Mr. Andrews began the scientific study of the Crop Circle Phenomenon over ten years ago, and is recognized as one of the phenomenon's foremost researchers. He is also a founding member of C.P.R. (Circle Phenomenon Research) and has collaborated with scientists and engineers throughout the world in the on-going investigation of crop circles. Colin is the co-author of two books, the best seller *Circular Evidence* and his most recent work *Crop Circles-The Latest Evidence*. In addition, Colin was instrumental in obtaining the official cooperation of the British Military in the implementation of *Operation Blackbird*, the largest crop circle surveillance project of 1990. Colin also maintains the worlds largest crop circle database and will share with us the latest crop circle activity (Summer of 1993) as well as up to the minute research findings.

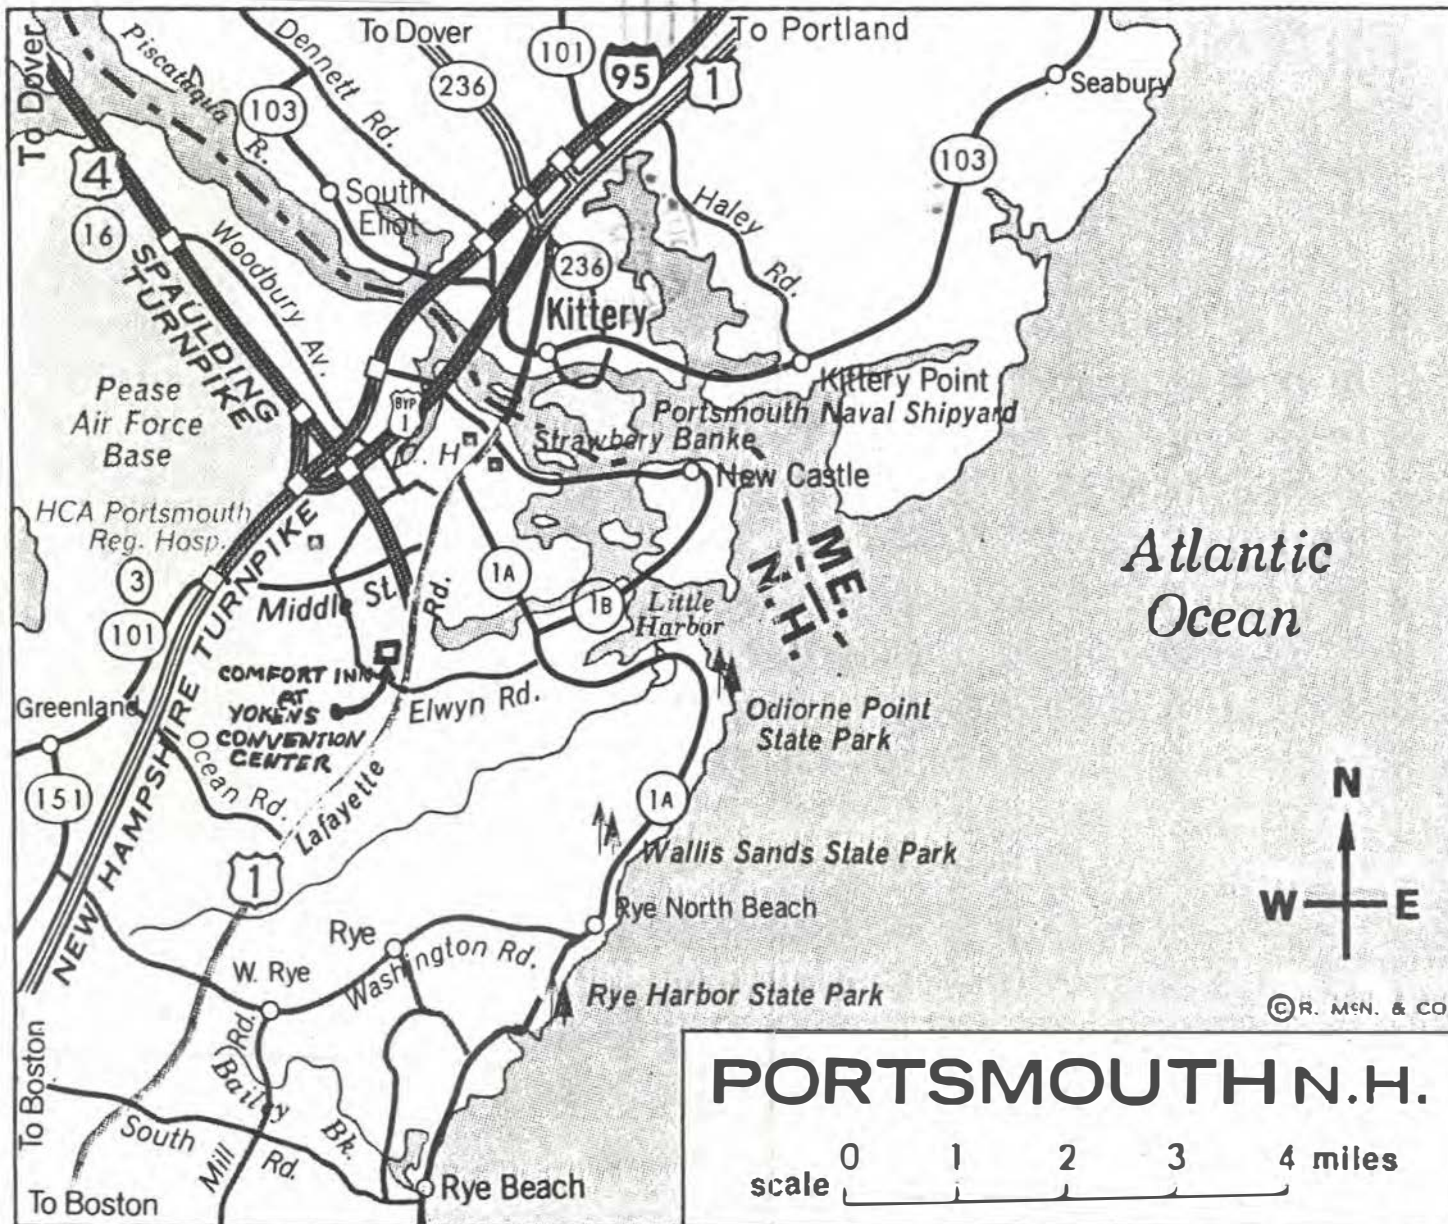

**Richard C. Hoagland** at the age of nineteen became curator of the Springfield Massachusetts Museum of Science. He designed and produced a commemorative event that coincided with NASA's first visit to Mars. One year later he served as consultant for NBC during the 'Surveyor 1' moon landing. He also conducted research for CBS and was an advisor to Walter Cronkite. Mr. Hoagland's most valued contribution to science and history to date, is the co-conception of mankind's first interstellar message and engraved plaque carried on pioneer 10. Richard's many other contributions to science and the American space program are too numerous to list. For the past ten years Mr. Hoagland and the *Mars Mission*, founded by Mr. Hoagland have been researching the monuments of Mars as described in his book, *The Monuments of Mars: A City on the Edge of Forever*. This was chronicled in the video tape, *Hoagland's Mars Vol II (Extended Version)*. Richard will speak to us about the Mars Mission findings and the monuments and face of Mars.

**Linda Moulton Howe** is a three time Emmy Award winning documentary producer and author. She established her own production company, LMH Productions in 1983. Linda's Emmy Award winning film *A Strange Harvest* is about the animal mutilation mystery which has haunted parts of the U.S. and Canada Since the 1960's. In addition to her 32 awards, Linda was the supervising producer and original concept creator for the paramount studio special UFO Report: *Sightings*, which led to the *Sightings* series on the Fox network. Ms. Howe's presentation entitled *Glimpses of Other Realities* (a soon to be released book) explores the 1967-1993 animal mutilation mystery associated with strange lights and helicopters. She will also summarize eyewitness testimonies linking mutilations and human abductions to non-human creation; describe alien taxonomy emerging from the human abduction syndrome and highlight the bio-physical investigation of the crop circle enigma.

**David M Jacobs Ph.D.** associate professor of history at Temple University, is a leading academic authority on UFO's. Dr. Jacobs's Ph.D. dissertation has been published by Indiana University Press as *The UFO Controversy in America* (1975). Dr. Jacobs teaches courses in American political, social and cultural history. He also teaches what is believed to be the only regularly scheduled undergraduate course on UFO's offered at a major university. His most recent book *Secret Life* takes us into the private world of the abductee and reveals what it is like to be abducted. *Secret Life* is a Simon & Schuster book, and is based on over 300 true life accounts of abductions, including hypnosis sessions with 60 individuals. Dr. Jacobs will speak about the results of abduction research.

**John E. Mack M.D.** is Professor of Psychiatry, Harvard Medical School at The Cambridge Hospital. He is also the Founding Director of the Center for Psychological Studies in the Nuclear Age. As a child and adult psychoanalyst, he has applied the insights of depth psychology to the nuclear weapons competition, the global ecological crisis and other collective phenomena that threaten our survival. His publications include *A Prince of Our Disorder*, a Pulitzer Prize winning biography of T. E. Lawrence (Lawrence of Arabia). In the last few years he has been exploring frontiers of human consciousness and the nature and meaning of the UFO abduction phenomenon. In the recent CBS-TV Mini Series "Intruders" actor Richard Crenna played the role of a psychiatrist, based on Dr. Macks experiences. Dr. Mack will address the conference on the spirituality of abductions.
