

PA MUFON NEWSLETTER

January 1 2008 Vol. 1 No. 1

Welcome to the first edition of the Pennsylvania MUFON Newsletter.

Looking back at 2007 saw a number of changes in our group. A new State Director, John Ventre, and a new State Section Director, and new Field Investigators, not to mention approx 6 new investigators in training. We now have our own website www.pamufon.com and are planning public UFO Awareness days throughout Pennsylvania. We initiated opening the cold cases of The Kecksburg and Carbondale Incidents. Field trips to both sites were undertaken and they are only the first of many to come in the future.

Some other key plans are Sky Watches and Mock training on sightings and landing sites. We are in need of Field Investigators in the Northeastern and Central PA areas. Anyone interested in becoming a Field Investigator can contact www.mufon.com or visit the website and contact a field investigator listed.

There were 112 sightings in the skies over Pennsylvania in 2007 and 55 were investigated by PA MUFON with 11 new cases in progress. The NUFORC Database shows Pennsylvania with 1254 reported sightings from 6-47 to 11-07. We are one of the top 11 states reporting the UFO phenomenon. California being the highest reporting 5618 since 1937.

“ KEEP YOUR EYES TO THE SKIES “

NOTE: Our State Director John Ventre has published his first book titled " 12/21/2012 A Prophecy " a combination of The Day After Tomorrow and The Da Vinci Code.....A must read.

John's book is available on Amazon.com

We are looking forward to 2008 with the anticipation of new investigators and educating the public on the importance of reporting UFO activity in the skies over Pennsylvania. PA MUFON members are going to be giving lectures to other PA based groups in 2008 and will be attending as many conferences and forums as possible.

We are also working to get a site for meetings centrally located so attending will not involve a 2 or 3 hour drive. Maybe we can

look at a number of locations. The majority of our membership is in the eastern and western parts of the state with few in the central area. One idea was to have an eastern section meeting and western section meeting....Any feedback would be appreciated.

NOTE: To Investigators.....If you are assigned a case and won't have the time, advise John Ventre and it can be assigned to someone who may have the time. That is not a problem.

If any member has a group they belong to that would like a presentation, contact State Section Director S. Witkowski at butch221@dejazzd.com and arrangements will be made.

An upcoming must attend event for any Ufologist is the X-Conference in Gaithersburg Maryland April 18-20. Lots of the top researchers in the field will be there. Go to www.paradigmresearchgroup.org

MUFON will also have a table at the Flatwoods Festival in West Virginia in Sept. We will post dates as soon as received.

A PA MUFON Investigator will be giving a presentation at the Spirit Society of PA, for their annual Spirit Day May 3 2008.

For info go to www.spiritsocietyofpa.com

And for those with an interest in the Paranormal another must attend event is the 7th Annual Pennsylvania Paranormal Conference on April 12 2008 at Bube's Brewery in Mt Joy PA

For info go to www.paranormalpa.com

Thank you for your time and dedication:

S.Witkowski, PA State Section Director / Field Investigator
