DEWEY CUMMINGS

SCIENTIST - MYSTIC SPEAKER ON PYRAMID ENERGY

Dewey Cummings is one of our nation's most entertaining speakers, and a frequent guest on popular television and radio shows. He possesses the unusual talent of a deceptively easy and informal manner, combined with a dynamic delivery which is altogether impressive!

Mr. Cummings educates as he entertains. When the situation permits, he erects an effective, open-sided pyramid beside him, and invites members of his audience to sit beneath it to demonstrate the effects of Pyramid Energy. The results are not predictable, but always quite amusing. Some become giddy, while others go into a trancelike state of total isolation. Those who fight the relaxing and tranquilizing effects of the energy usually are the most amusing of all!

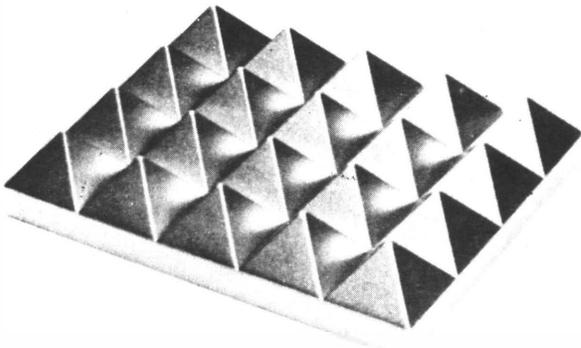

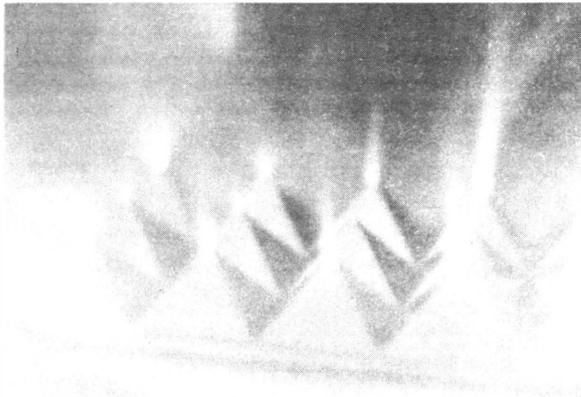

A particularly interesting feature of Mr. Cummings' lectures is his skill at reading the reactions of his audience. He can interject a very funny and true story resulting from his research at the proper moment, or just as easily, become quite serious and drop a bombshell of informed prediction upon his startled audience. He literally holds his audience on the edge of their seats, and he has won the respect and acclaim of expert critics.

One veteran booker of speakers and entertainers for a super-class resort and convention hotel, an expert who has observed the work of thousands, wrote to Mr. Cummings after attending his lecture: "I found you to be most interesting and to be one of the most knowledgeable people speaking from your own experiences that I have met in several years . . . it was a pleasure to meet you and to hear you."

A national award-winning, syndicated columnist wrote: "Refreshingly, Cummings doesn't try to convert anybody . . . no smooth talk, no apparent con. He speaks on the subject with humor, and some of his lectures have produced unforgettable results . . . Dewey is a man who is a West Point graduate, exceedingly well-versed in physics, metaphysics, and generally one most interesting gent."

Dewey Cummings sees a time in the future when Pyramid Energy will revolutionize not just civilization but mankind itself - as it has in the past, many times.

Kirlian photo of Pyramid Energy produced by an inexpensive Pyramid Energy Generator used by Mr. Cummings and distributed by his firm.

Mr. Cummings' background is unique. He was an outstanding scholar, and won his appointment to West Point in competition with hundreds of this country's most brilliant young men. Upon graduating that institution with a Science and Engineering degree, he quickly advanced in private industry to become one of the most respected engineers and creative thinkers in his or any field. Highly versatile, he later purchased secret technical equipment for all three of our major armed services.

During the Sixties, Mr. Cummings became established as a highly paid consultant, specializing in the rapid solution of complex and varied business problems. It was at this time that he fully realized for the first time in his life that he somehow acquired knowledge from unknown sources. He also was able to look back upon some of his earlier feats of physical prowess, such as becoming a champion boxer and an uncannily skilled archer, and realize that he had used psychokinetic powers for many of his achievements. This discovery dramatically changed his life.

He renounced the use of psychic energies for any purpose, convinced that he must learn their origin and proper usage before continuing to employ powers of such potential danger to others. He abandoned his former work and lifestyle, and began serious study of a broad spectrum of scientific, psychological, and metaphysical subjects. Inevitably, he learned of pyramids and their incredible energies, and became totally fascinated. He undertook many experiments with a carefully detached and scientific attitude, made many new and startling discoveries of great value to mankind, and became a man who has found his mission in life.

Today, Mr. Cummings devotes full time to working with pyramid energies, with particular emphasis on their great usefulness to people of every type, age, sex, or faith. He founded Pyramid House, Inc., which is a rapidly growing firm organized to distribute tested and guaranteed, but quite inexpensive, devices which produce Pyramid Energy more effectively than any other devices in the world. He serves as the President and guiding force of this organization, and uses the firm's products in his research. With an ample supply of Pyramid Energy, and with his extensive contacts with other researchers, he continues to be the leader in his field.

Sharing his knowledge with others has led to Mr. Cummings' emergence as an outstanding speaker. His subject, his genuine expertise as a scientist and researcher, his informal and humorous manner, and his naturally dynamic personality - all these qualities combine to make him a man respected and enjoyed by all who see and hear him, whether his audience may be in a college, church, club, coven, or convention. He makes any occasion memorable.

He is A Man For All Reasons!

WEIRD ENCOUNTER

Six members of an army patrol were bedding down for the night when they say two strange objects appeared. Their tale is bizarre . . .

It was 4:15 a.m. in Chile's far north desert and six members of an army patrol were bedded down for the night -- suddenly, two bright objects began descending from the sky. One dropped into the Andes foothills out of sight, but the men in the patrol could see the glow of its light. The second object lowered almost to the ground about 500 yards away from them and it shone with a violet light. The leader ordered his men to take up their weapons and then he set out to investigate. He then simply vanished from sight. Fifteen minutes later he returned to his men and tried to speak, he then passed out. They say he regained consciousness about 7 a.m., but that his watch showed only 4:30 the approximate time he reappeared. They also said that the date on the watch had been advanced five days, and that now he had about a week's worth of beard growth! According to his men, when he was beginning to come awake, he said: "You do not know who we are, nor where we come from. But I tell you that we will soon return." This happened on April 25, 1977, and there were also other UFO reports in the same area and time frame.

What you have in the above report are all the classic symptoms of a mental and a physical contact. Time loss, memory loss, being physically removed and then returned - AND with the mental admonition that 'they will return'. It is again the 'classic' type of message. However, in this case we have interjected a note of newness! The physical growth of the beard. On the surface this would imply than 5 days had been actually and physically 'spent' Somewhere and obviously NOT in our 'time/space/continuum! And ---- this is EXACTLY what 'they' want us to think! How nice of us to oblige!

After 14 years of UFO investigating I have only learned ONE relevant fact about 'them'. And - that fact is that if you take everything that is relevant to a case, the most obvious clues, the most 'evidence', the physical, mental and psychic effects, and then work them up into a recognizable theory - you will come closer to the real TRUTH if you will do one thing - and that is to REVERSE all the logic that you had previously arrived at!

Because in a majority of contact cases they, the contactee, is told one thing, and in actuality it becomes quite another. This is most prevalent in the cases where the contactee has been placed under hypnotic regression - and the most interesting fact that seems to come out in some of these cases, is that they were given ONE 'story' and told to tell this to the investigators, and then a second story was uncovered, which differed totally with the first one!

Let us just imagine for a second that WE were the 'owners' of a terrestrial or Earth Base of 'saucer'. And, WE did not want any UFO investigator finding our base, what could we do to prevent them from finding it? Simple - tell them to go look elsewhere!!! Like "We are from Venus", and then give them reams of useless data that is totally over the head of the usual UFO researcher, and let him spend years chasing down clues that in fact have no reality. Your EarthBase is quite protected! Everyone is looking for it on Venus! Or Mars! Or...? In other words - reverse the logic! Now, this will not hold true in ALL cases, but it might help you in some of them! How do you tell the difference? You won't -- until you try it!

Letters to the Editor

... The drawing on p. 17, March '77 issue was very thought provoking. I believe it may be a map of the telepathic waves and currents, by which Earthlings contactees keep in touch with other contactees, and with other galaxies who communicate by telepathy. These telepathic wave currents emanate from the sun along with other radio, light, and magnetic waves, and come to earth with them, and are picked up in the magnetic fields in the ionosphere, and from there to the earth's magnetic fields, and are used to conduct telepathic messages. This is part of my theory of the scientific basis for telepathy... Mrs. Sylvia Berl, Ca. ... PS I was very impressed by the drawing and layout of the cover of this issue.

Dear Sylvia - The drawing of which you speak was meant to be showing the survival areas of the North American continent, and we did receive many comments, but none of them came as close as yours! The innermost circles were designated as the safest and then in various degrees to the outermost lines...

... Enclosing renewal subscription for 1977. I enjoy reading the Atlantean, which has many interesting subjects - the amazing discovery in the Bahamas, another, the huge "Sphinx" uncovered in Wyoming. Thanks very much for the Atlantean. Ralph Randall, San Jose, Ca.

Hi Ralph - We very much appreciate all your comments on the contents of our Journal, but our thanks to the best authors in the world who actually GO and DO - Not just sit and talk! Mary and TAL Levesque are true explorers, and the new "Sphinx" is just a small part of what they have found!

Dr. Valentine is a true pioneer in the field of Atlantean Re-Discovery! His work will always live on in the minds of those hundreds of people he has helped and encouraged, given of his time and money, and in some cases, been ripped off royally by those who were only interested in either making a buck off his discoveries, or going on a monumental ego trip to be the 'one and only', the first, etc. Dr. Valentine was and IS first, in honesty, loyalty, and devotion to the highest ideals of the Ancient Ones...

... We all know that a percentage of people like to kill Deer, Bear and small game etc, without remorse. Many people in this world like to kill each other. My idea, Pat and Joan, is for us to try and kindle a spark with the leaders of our government to establish a law and keep it enforced. The law would be that no one in our country should bear arms against the BigFoot. I'm convinced that they do exist and I've been reading in the news that they are shooting at them. John Davies, Orland Park, Ill.

John - I am sad to have to tell you that just such a law that you propose was turned down by the Florida legislature. Rep. Jon Nukolls, of the city of Ft. Myers sponsored it after there were many reports. We learned of his efforts, and wrote him that we supported this bill. It was hooted at, and turned down. He did not make a strong enough case for the credibility of the subject. And - as you well know, some people will not believe even if he drug one screaming and snorting into the Senate... Too bad, but we did try. And - if it ever comes up again we will support it again! WE will try to protect our Florida Bigfoot - with love...

One traditional fate for people who steal church relics, such as prayer rugs, is that the "become demented" or the thief's mother or father may die; the thief himself is the last one stricken, so that he is forced to endure his relative's misfortune first; in the Middle East, bands of raiders intent on pillaging a town have always avoided plundering holy places for fear of consequences. SASQUATCH, BIGFOOT, YETI, "EARTH GUARDIANS", ANCIENT AND PRESENT: "THE OLD PEOPLE".

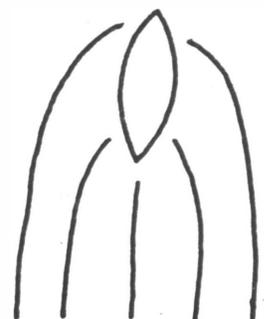

Sooner or later, humans will have to deal with the fact that the Old People have been on the planet Earth longer than humans. All the ancient records show that humans came here from other places in space and time and as such are not native to Earth. The Old people are the most evolved native Earth Beings on the planet. There is no missing link between ape people and human people, simply because there was never any link at all. The Old People evolved from native creatures and they are at a point where they can materialize and dematerialize at will.

Many of the Old People live in the underground installations built by the early Earth colonizers from various places in space, and they protect their homes by putting up a mind force field that prevents unharmonious humans from finding or staying near their ancient underground homes. In order to find and explore most of the ancient places, humans must establish a working relationship with the Old People just as they do with other people. The Old People have little in common with most humans but they do have the tolerance and wisdom not to interfere with most human activities on this planet. Usually, the best that can be hoped for in exploring ancient areas of the U.S., is that the Old People in a given area will sense the inner nature of the humans and approve of them, and then drop the protective force field for that area. This act is as close to cooperation as you can get with beings of this nature, except in rare instances.

One great consolation is that even the present Space Brothers and Sisters who came to Earth in their star ships must also form a workable relationship with the Old People—the Ancient Guardians. The star travellers are more adept at dealing with the Old People than most humans are. The star people usually need to use some of the underground ports when they come to visit this planet. In gaining the approval of the old People, they sometimes do favors for them. One such favor involves diet and nutrition. Since the Old People live underground, come out mostly at night, and are mainly vegetarians, they sometimes suffer a diet deficiency and need blood and certain animal organs as a supplement. The Space Brothers and visitors sometimes extract the blood and some parts of cattle necessary to produce a nutritional supplement to give as a gift to the Old People. When humans use parts of cattle for food and nutrition, it is considered normal food production. When Star people use parts of cattle, extracted by more efficient means, as food and nutrition for the Old People, it is considered some kind of mutilation by humans, who don't understand what is going on. Enough said!

PYRAMID POWER: A SUB-ATOMIC ENERGY TO EXPAND CONSCIOUSNESS by DEAN HARDY

Man for many years has looked with wonderment at the Great Pyramid at Giza and he has no understanding as to why and how it was built. What he has not understood is that the Cheops Pyramid was built to help mankind expand His consciousness. What I have found is that the Pyramid is an antenna that refocuses light into sub-atomic particles; sometimes referred to as cosmic light, orgone energy, etheric light, or by some pyramid researchers as biocosmic or life energies. At the point of achieving Oneness, or attuning ourselves to this energy, matter as we know it passes away, and we can enter the sub-atomic or the etheric world. Time and space no longer exist in this state of consciousness. Past - Present - Future - all merge and are one. The human has entered the world of the Absolute. This is not a simple process; it may take a life time of prayer and meditation to achieve this Oneness with this energy, which is synonymous to being at Oneness with the Heavenly Father.

History tells us that many great people have been connected with the pyramids of Giza. The Great Pyramid is a source of knowledge into the Mysteries of Life, and once served as a temple of knowledge for the Hermetic Mystery School. Some of these attaining this high masters' goal were Moses, Solon, Thales, Pythagoras, and Plato. The builders fully understood more about the science of mathematics and the exact dimensions of the Earth than modern science did up until the International Geophysical Year 1957-58. Curiously, buried within the measurements of this gargantuan edifice is found a key to the structure of the entire solar system. Mysteriously, buried within the sub-atomic energy of the Cheops is the key to mankind's freedom from matter.

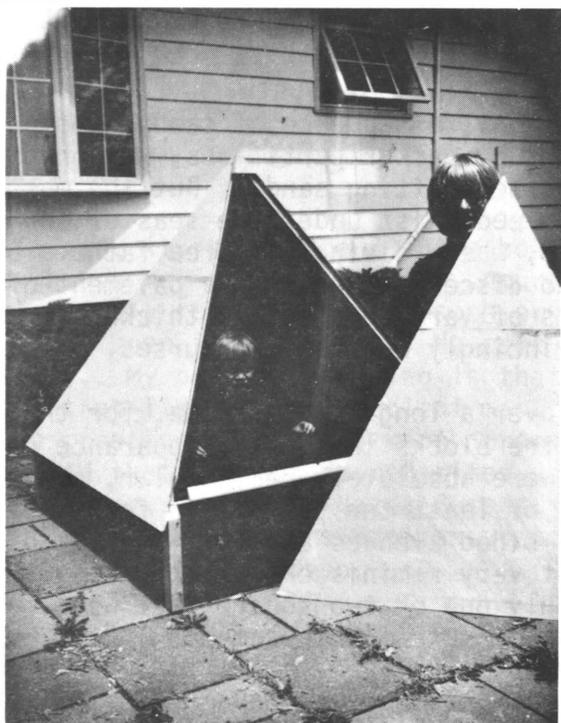

... The velocity of light can be synonymous with consciousness. People can train themselves to see the vortex of light within the Pyramid. It is the same energy as the human aura. If you place yourself in the center of this vortex you can speed up velocity of light within your own aura. In this way you can expand your own consciousness. Last year I built a large pyramid in Allegan, Michigan. I believe this structure is built differently from any other built at this time. In the construction I combined the dimensions of Cheops with a special lamination process for the skin. What I have created is a large antenna, or lens, that will refocus light into sub-atomic light.

Its presence can be detected by a blue haze. This energy can be felt by some people upon entering the pyramid. It takes a few minutes for some to readjust to this energy. A simple explanation for this might be that the nervous system functions on electrical impulses and when you increase the speed of an impulse you get a sensation. By looking directly at the sun you hurt your eyes because you increased the the electrical impulse and you overload the nervous system.

Several friends of mine have visited our pyramid and some have the shocking experience of a complete distortion of time while they are in the pyramid - one hour becomes 20 minutes. Others have stated that they have been contacted by entities from other dimensions. Also, important messages have been received. Clairvoyance in general has been accelerated. Of course, these experiences have been related to me by friends and are not done under scientific observation.

Another sensation that can be experienced is the actual hearing of the Music of the Spheres. During the building of the pyramid I spent many hours inside. Gradually, I learned to hear a low hum. I believe this to be the hum of the electrons rubbing against each other. The more time a person spends in the pyramid the louder one can hear. This indicates that a person slowly becomes adjusted to this energy. I believe a person has to develop this attunement to receive anything at all from this energy source.

My interest in pyramids has spanned a number of years; however, I built this particular style of pyramid to help my son, John, who is a dyslexic. Five years ago I had a dream indicating that it was very necessary for John's development to be placed in a pyramid. After talking with many individuals concerning the various construction techniques, Kenneth Killick of Ottawa, Canada, was finally contacted. On July 18, 1975, he drew up a set of plans, construction of the pyramid begun. In conclusion, the three points I wish to reveal about the pyramid: (1) The pyramid is an antenna. (2) The Cheops was originally built to expand the consciousness. (3) A process revealed to us by Kenneth Killick as to how to make the pyramid antenna more powerful. The pyramids in Giza were built for a different time continuum. Because the light frequencies at that time were much longer the pyramids had to be built in greater mass. At this point in time, the light frequencies are much shorter, and with the proper knowledge you can build a 4 to 8 foot base pyramid model for your own home. This could be placed over your bed, or in a special room to meditate in. You must remember a pyramid is an antenna system to expand your own energy field. Science calls this energy field the human aura. Many scientists now have to believe this aura exists because with Kirlian photography, a process which captures on film radiations not visible to the naked eye, one can take a picture of the human aura. With the aid of Kirlian photography people have been able to photograph this energy emanating from the tip of the Cheops. Kirlian photography does prove that this energy field does exist. Now, Man has to learn how to use it.....

UNDERWATER ARCHEOLOGY IN THE BAHAMAS by Dr. J. Manson Valentine

(Reprinted by the kind permission of the EXPLORERS JOURNAL -
first appeared in the December, 1976 issue)

A certain proposition, that is hard to beat for sheer, unassailable logic, has been going the academic rounds for some time. It has to do with archeology and geology, and states: IF THE GREAT, SUBMERGED PLATEAUS OF THE BAHAMAS WERE DRY LAND IN THE RELATIVELY RECENT PAST, AS SEEMS CERTAIN, THEN THEIR SHALLOW WATERS MIGHT WELL YEILD SIGNS OF OCCUPANCY BY ANCIENT MAN. With this theory in mind, the author, who over a period of nearly twenty years, undertook a series of expeditions into the Banks in an effort to test it out. What follows here is a preliminary report on his observations and those of others as recorded from the air and under the sea.

Various photographic survey flights (begun in 1958) along the western chain of Bahama keys bordering the Gulf Stream from Bimini south to Orange Kay, a distance of some sixty miles, revealed dozens of bottom patterns that strongly suggest human fabrication because of their geometric symmetry. For example: Paralleling the drop-off into deep water, and on the adjacent flats to the east, there are long, straight lines, double-margined tracks, angular or trapezoidal configurations, circular areas and many other enigmatic figures on the bottom. All are potentially of artifactual origin and therefore worthy of closer investigation, though the overburden of sediment may make total revealment a difficult task.

Close to the northwestern shore of North Bimini, a sequence of sandy, rectangular embayments, separated like small city blocks by darker partitions, was photographed in 1958, and was subsequently buried by the shifting sands. But the most exciting piece of evidence that archeology might indeed exist under the seas of our hemisphere came on the second day of September, 1968, when, diving in three fathoms off the northwest coast of North Bimini, I was amazed to discern an extensive pavement of rectangular and occasionally polygonal, flat stones of varying size and thickness, obviously arranged and accurately aligned to form convincingly engineered courses. (fig. 1)

These stones had evidently lain submerged over a long span of time, for the edges of the biggest ones had become rounded, giving the blocks the domed appearance of giant loaves of bread, or pillows (fig. 2). Some were absolutely rectangular, sometimes approaching perfect squares. The larger slabs, at least ten to fifteen feet in either dimension, often ran the full width of parallel-sided avenues and were separated by interstitial pieces on the bias, giving the effect very reminiscent of the megalithic work of the Pre-Incas. The smaller stones of only one or two square feet were confined to the top of a long causeway where they formed a mosaic-like pavement.

My two diving companions on this eventful day were Jacques Mayol (MNR 1975), world champion breath-hold diver, and Harold Climo, another veteran amphibian of the briny. After a day of free-diving on a sixty foot deep ledge far from land, we had requested our native guide, "Bonefish Sam", to find us a shallower in-shore reef for a little "relaxation."

Did Atlantis exist?

What we discovered there, understandably, has had quite the opposite effect on the conservative archeological community for whom such unorthodox news must have been rather upsetting. This was published in my article in the Muse News, June 1969, the publication of the Miami Museum of Science, under the title "Archeoligal Enigmas of Florida and the Western Bahamas.

Since that time, many others have studied the phenomenal complex west of Bimini. It has been explored both by diving on it and flying over it. The famed oceanographer, Dimitri Rebikoff, whose marine photographic techniques are superb, recorded it from his underwater vehicle, the "Pegasus", and composed a most revealing mosaic illustrating hundreds of feet of stone work (fig. 4). He determined the exposed length of the main causeway to be at least three hundred meters and correctly established its orientation as fourteen degrees out of parallel with the line of natural beach rock closer inshore. This and a number of other important observations made by him tend to confirm the artifactual character of the site.

The negative approach, however, has been expressed in no uncertain terms by investigating marine geologists who have visited the site, measured the stones and their road-like arrangements, taken core-borings, compared the "so-called work" with naturally fracturing beach rock (which has a tendency to break up into small squares) and generally came to the expert conclusion that what we have here are just king-sized slabs of the same thing arranged by nature in neat rows to fool gullible archeologists who are not supposed to be conversant with the ways of the sea. This is all very simple and beautiful; but it falls short of explaining: 1) why the stones of the Bimini Complex are of flint-hard micrite (unlike soft beach rock, it rings when struck with a sledge and will NOT cleave under the same treatment); 2) why the three, short courses of closely fitted stone are so straight-sided, mutually parallel and terminate in corner stones (figs. 2 and 5); 3) why the long avenue lies at a slight angle to the others and is composed of a double series of small blocks interrupted by two expansions containing very large, flat stones, propped up at their corners by vertical members (like the dolmens of western Europe); 4) why the southern end of this great, wide track swings into a beautifully curved corner before penetrating the bottom; and, finally, 5) how to account for all the rectangular shapes, right angles, and rectilinear configurations associated with this complicated site as seen from the air (fig. 5)...

Indeed, it is hard to imagine how the phenomenon of the site northwest of Bimini could have come into being in an unpurposeful manner. Surely, unaided nature cannot be held totally responsible for such organization. But, if man-made, what could possibly have been its function? No part of it resembles any structure with which we are familiar... My personal feeling is that this whole fantastic complex represents the intelligent utilization, by ancient man, of materials provided by nature and appropriate for the creation of some sort of ceremonial center. In this connection, it should be remembered that ancient sacred sites, such as the endless geometric designs in pre-historic England, or on the Nazca Desert in Peru, and megalithic work the world over involving pyramids, menhirs, dolmens, etc. have virtually no point of reference with our form of cultural evolution.

Could it be possible?

Such majestic artifacts are incomprehensible to us - unless, of course, we have the temerity to consider extraterrestrial intervention and metaphysically generated energies.

Since 1958, when I made my first photographic surveys over the Bimini chain, an interesting change has been taking place along the entire shelf. The bottom has been rising - or so it would seem, judging by comparisons of the first pictures with those of the last couple of years. Bottom configurations, not previously identifiable, stand out today conspicuously as unnatural features. I do doubt that the increased visibility could be entirely accounted for by shifting bottom sediments. It is especially noticeable along the 30 mile stretch between Beach Kays and South Riding Rocks. Here, in the shallows adjacent to the little rocky islets, one's eye is drawn to several precisely outlined, straight divisions separating white sand from dark, algae-covered bottom and, in some cases, describing a right angle or a triangle (fig 6). Associated with these major features are small, isolated rectangles have appeared on the bare flats. And ten miles to the south, just north of Orange Kay, under a wide expanse of 2 fathom water, there now lies an assemblage of abutting rectangles on a grand scale, dimly by positively delineated (fig.7).

Approaching Bimini from the south, the observer will be impressed by the number of track-like marks, usually in pairs and rectilinear, but sometimes single and curved, always pale and bordered on either side by a dark stripe - tracks that are generally much wider than any shallow-draught boat could make. Also, paired dark lines, running long, straight, north-south courses, are now visible off Bimini's northwest coast. In fact, the biserial design of the long avenue of stones comprising the main site in this same area actually carries out the same general theme. Like its associated complex of geometric forms and lines, standing out in dark contrast against the white sand, the entire megalithic artifact of Bimini appears to be emerging from the bottom. But the clearest evidence of recent emergence comes from the other side of the North Island -- the east and very shallow side. As late as 1968, nothing was visible on these marly, algae-covered flats except a long, wall-like ridge. At the present writing, the wall has become the southeast side of a huge triangle. To the north of this lies a rectangular area devoid of vegetation and the size of a football field. (fig 8)

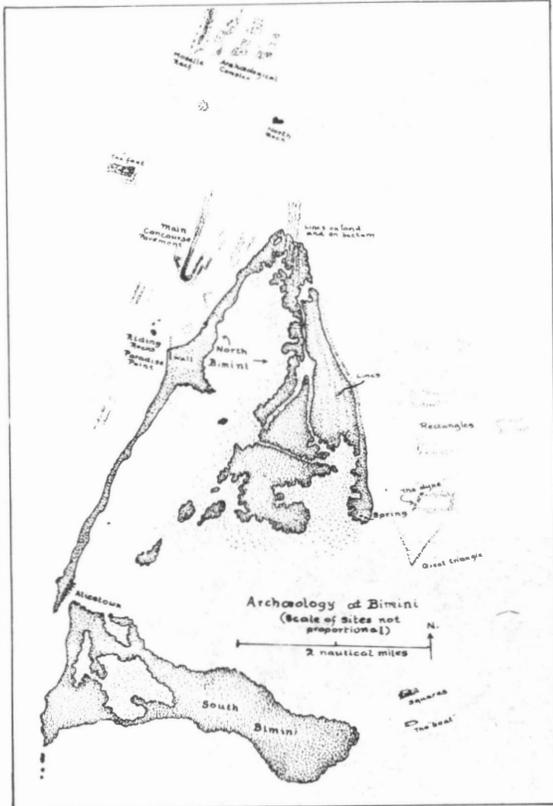

NOTE: We will continue Dr. Valentine's fascinating article, with photographs, in our December issue. Included in these photos will be the "Spur" or "arrow" symbols, found on the ocean floor, the hexagonal "ring", the rectangular forms north west of Bimini, etc.

Check our CenterFold Section of this issue for the photos that are just sensational of the complex just off our Florida coast! Photographs by the author unless otherwise noted... The New Atlantean Research Society is very proud to have Dr. Valentine on our Board of Consultants, and we thank him for his kindness in letting us reproduce his article and photographs.

THE CROSS AND THE 'ENERGY' photo was taken at 9 A M Easter morn by Judy Luckwell, a student minister at the Temple of Divine Living in St. Petersburg, Fla. This was during a sea-side service held at a local beach called Pasagrille Point. She believes it to be a manifestation of energy following a healing and to her it represents the risen Christ, the Living God. To her daughter and her friends it represents a Buddah, one neighbor sees an old fashioned church and another sees an outer-space creature... We would like to thank Rev. Paul Lynch of the above church for his permission to use this amazing photo.

ALPHA #1

This amoeba-like invisible UFO, replete with nucleoli, vacuoles and the general appearance of a unicellular organism from the microscopic world, was photographed by the author on 25 August 1957 on the Mojave desert. The object was initially immediately over the author's head, and not directly tangible to the eye. Five successive photographs were made of the object as it moved from overhead to positions that permitted inclusion of local terrain in the pictures. Infrared film, sensitive beyond the range of human sight, was used in a Leica G 35mm camera, fitted with an 87 filter, Exposure: f3.5 1/30 sec. Development: Microdol, twice normal.

THE AMERICAS HAVE EGYPTIAN ROOTS
by Dr. Ron Anjard

Once upon a time, history appeared to be uncomplicated. We all knew Columbus discovered America at the end of the 15th century. Questions arose when a stone carving in Minnesota was attributed to an early Viking expedition. In the past few years, analyses of findings in North and Central America raised substantial questions as to who really were our first visitors. The famous Ra expedition was intended to demonstrate that early crossing of the Atlantic was possible. There is now substantial evidence that these lands were not only visited but colonized. The evidence is in to show that not only were Jews and Romans visitors, but were preceded by Celts, Iberians, Libyans, Phoenicians and Egyptians. This may sound preposterous to some, based on our present high level of technology and computer science. Here is information recently integrated from a wide variety of expert sources:

NORTH AMERICAN EVIDENCE (selected topics)

Most people are familiar with the famous Rosetta stone which allowed Egyptian hieroglyphics to be translated. There is an American counterpart. In 1874 the Davenport (Iowa) Calendar Stele was found in a burial mound. The inscription is written in three languages: Egyptian hieroglyphs, Iberian-Punic and Libyan. The tablet describes an Egyptian celebration on the morning of the March equinox.

In South White River, Vermont, there is a dedication to a temple of Bel. It consists of a combination of three languages. Its eye hieroglyph of late Ptolemaic Egyptian has the sound value, Bel. Here it gives the name of the sun god, Bel.

On the rocks of the Cimarron River in Oklahoma, Ras left his bilingual autograph to record his exploration. It includes an eye symbol which is the Egyptian word for "watchful". It also includes the Egyptian hieratic letters for "chief". Libyan letters were cut into the eye sign and also meant "watchful". According to epigraphic experts, such as Barry Fell, bilingual Egypto-Libyan inscriptions probably reflect the lasting influence of the Libyan pharaohs upon the Egyptian navy. In later centuries when the Greek Ptolemies ruled Egypt, their Libyan queens continued to promote the interest of the navy.

The Rio Grande Shishong inscription has been translated as Libyan. The presence of Libyan inscriptions in the southwest and the occurrence of Libyan works in painted pottery of the Mimbers Valley, New Mexico, leads to the inference that the ancestors of the Zuni formerly composed one of the ancient Maghrib arabic.

There is an extraordinarily high incidence of ancient Egyptian and arabic in certain Amerindian tongues. For example, the Micmas' language is 60% Egyptian. The Micmac are a tribe of Algonquin Indians in Nova Scotia, Canada. They still use hieratic script which has the same form and the meaning as Egyptian hieroglyphs. The Wabanaki (of Maine) language is 40% Egyptian and the rest Phoenician (60%). The Zuni language of the SW is approx. 50% Libyan. In 1901, ancient Pima chants were collected during a Smithsonian expedition to Arizona. The almost total arabic vocabulary of these chants appears to be a creolized dialect derived from an arabic province. In North America, there is strong evidence to show Egyptian influence in Nova Scotia, New England, Oklahoma, and Iowa. In contrast, the ancient Libyans have been established in the SW and West. We have not treated other visitors, but let me summarize other findings. Ancient Celtic (about 800 BC) in New England and Midwest; Ancient Iberia (Spain), in Nova Scotia, New England, Pa., West Va., Tenn., Okla., Iowa and California; Ancient Israelites in Tenn.; Ancient Phoenicians in New England and Ancient Romans in Texas, Georgia and Alabama.

MAYAN EVIDENCE (selected topics)

The evidence for Egyptian involvement with the Mayans of Meso-America is more circumstantial. The similarity between the various types of pyramids, including step pyramids of both Egyptian and Mayan cultures is the first obvious clue. There are about three times as many pyramids in Central America as in Egypt. The Mayans, Babylonians and Egyptians were all great astronomers. In Mayan codices, ancient astronomers are shown, as in Babylonia and Egypt, observing certain stars from a dark cell through openings in temples. The Mayan calendar starts at 3374 BC. This is their 5351st year accordingly. The Jewish calendar date is approx. 5700. According to ancient historians, the 1st Dynasty of Egypt started approx. 3200 BC. The many stela and elaborately carved buildings throughout Mayaland are heavily carved with hieroglyphs. A colossal head found at La Venta, Mexico, has singularly Egyptian feature -- a speaking tube that ran from a giant ear emerged between two great stone lips. The Mayan and Egyptian alphabets are virtually the same. The Mayan, Hebrew and Egyptian languages had only consonants, no vowels. Consider the timing of their calendars, too. Quipas or knotted cords were used by the Aztecs, pre-Incas, ancient Mayans and Egyptians as mnemonic devices. The Chinese used this system also. In addition to these pieces of the puzzle, there is even far greater proof that the Mayans had extensive contact with the Phoenicians. It is not the purpose of this article to present all this information, there is just not enough room.

Our primary purpose is to show the extensive Egyptian involvement in the new world. Egyptian, Libyan and Celtic and Iberian visitations have been dated earlier than 1000 BC. This is 2500 years before Columbus. These visits led to subsequent colonization by Phoenicians, Libyans, Celts, and Iberians for trade purposes. Our American heritage, therefore, has important Egyptian roots...

STRANGETHINGS!

MONSTER MANIA!

THE "EAR-EATER"? - Jasper County, Miss.- 3/21/77 - There has been a strange animal roaming the SW part of Jasper County and it likes to eat the ears off hogs! Cleanly, like they were taken off with scissors. The culprit was found in one hog pen and was described as "bigger than a German Sheperd" and was said to have jumped further than any dog ever seen. "The ear was pulled out by the roots..."

BIRD ATTACKS! - Anderson and Arroyo Grande, Ca - In an enexplained frenzy, swallows -for the second time in four days- dived down a chimney in Shasta County. "They acted like they wanted to attack you." This happened to two different families, and by May 15,'77, they were still attacking, and spreading these attacks southward, and now the gray swifts were involved. The sixth such attack took place at the San Louis Obispo county jail, hundreds of miles south of the first attack. THEN -- In Riverside, Ca., on May 29th, '77, BEES were doing the same thing, attacking homes, and swarming down chimneys. THEN- Thousands of sharks swarmed Padre Island, Tx. in June!

MYSTERY SHARK CAPTURED! - San Francisco - 11/20/76- Scientists are awaiting shipment of a mysterious 12 foot shark with a mouth that apparently glows in the dark! Navy crewman hauled up the creature from 3,000 feet below the surface near Hawaii. It was dead.

GIANT SQUID TAKING OVER THE OCEAN! - Vancouver - Giant squid may be taking over the Pacific Ocean because sperm whales, their natural hunters, have been virtually wiped out by whaling fleets... The speculation is that they will begin attacking small boats.

OUTBREAK OF WORMS! - Millions of reddish-green worms measuring 1 to 4 inches suddenly surfaced in Venice's Grand Canal, and no one knows why. The worms, usually used as fish bait, appeared in the canal in the evening, May 18, 1977 (check on that date!)

GIANT SKUNKS REPORTED IN JAVA! - May 14, '77 - Giant skunks, probably survivors from prehistoric times, have been discovered in the jungles of north central Java. They are as big as German Sheperd dogs and can climb trees! (Watch out below!)

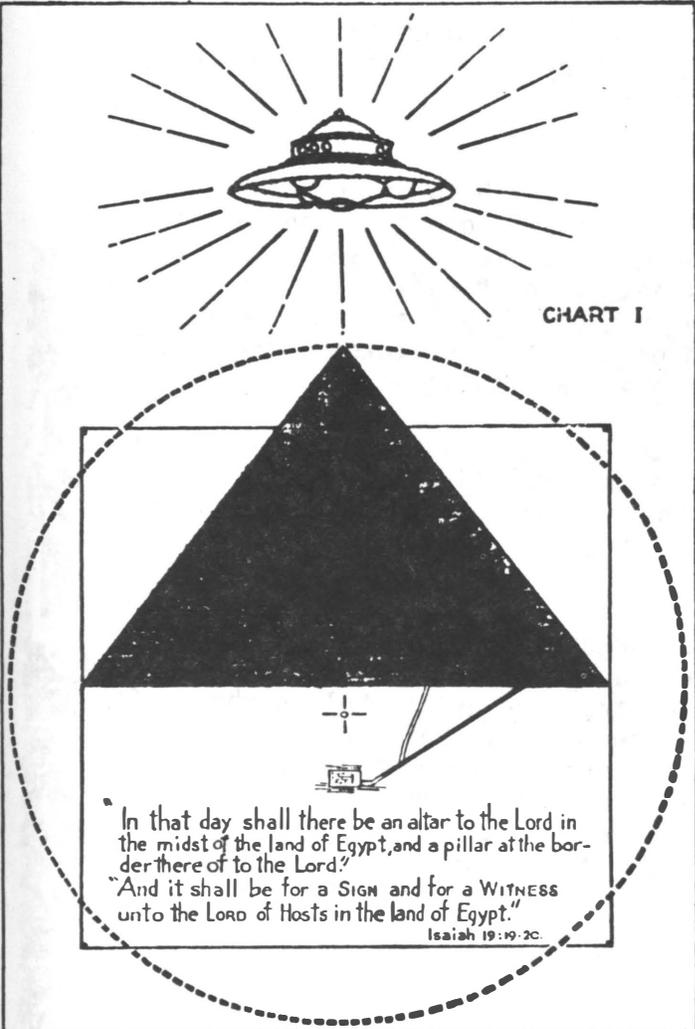

ANOTHER "LOCH NESS MONSTER" - (Ho Hum) - Reports of a mysterious creature dwelling in a remote mountain lake in Soviet Central Asia... "Sepent-like leviathan 50 ft. long". Not to be outdone by this, the "Mysterious, gigantic creature that rivals the Loch Ness monster, lurks in a remote Canadian lake, claimed residents of the area, 300 miles north on Montreal." Russia's checked in on Feb. 15, '77, and the Canadian one on April 5, '77. NEVER to be outdone - the Japanese in Kawayu have a beastie they call "KUSSIE", and it is named for the lake in which "it" lives! Lake Kussharo, a body of water deep in the outback of Japan's northern island of Hokkaido... Seen first in 1973. (Shades of all the Saturday afternoon Creature Features!)

FENCE-LEAPER and DEER DISEMBOWLER - Mill Valley, Ca. - A mystery creature that reportedly walked on its hind legs, screeched horribly in the night, and left behind a disemboweled, badly mangled deer carcass has California's Bigfoot faithful buzzing. It has been seen in the area since 1976. Credit for the above 'StrangeThings' goes to all of these good people, Gene Duplantier, Galia Seeley, Mary and TAL Levesque and Carolyn Redmond!

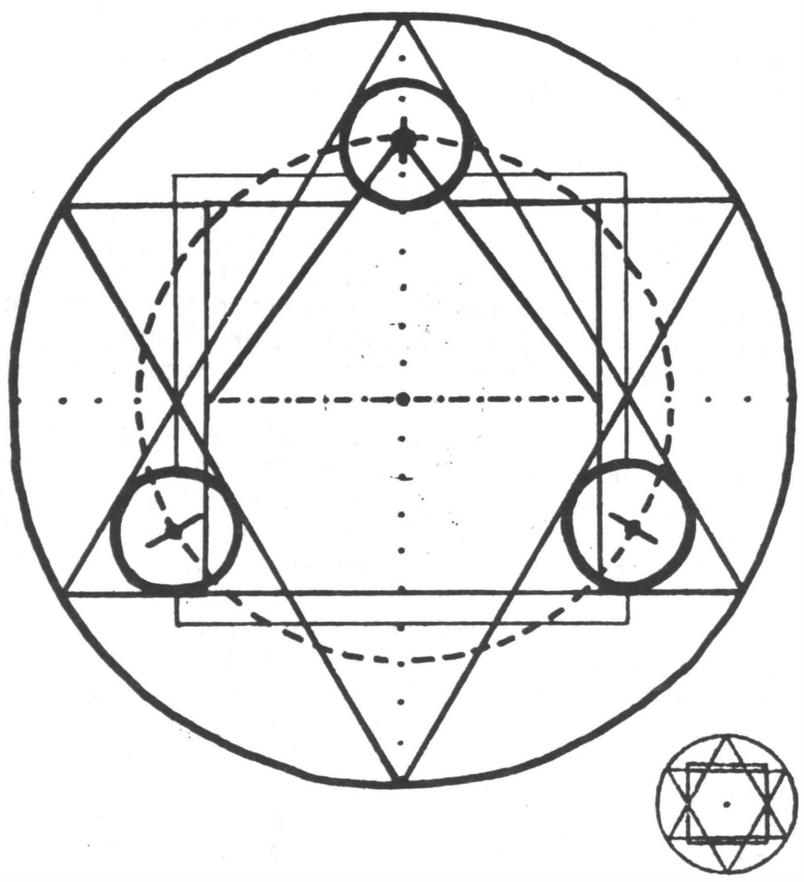

THE PAINTED PYRAMID THEORY by TAL LEVESQUE

Some Arab legends say the Great Pyramid was once painted with dazzling colors, beginning with Red for Mars just below the capstone. What little stone remains has been carefully analyzed and found to indeed be painted with a red ochre paint. Research will reveal the Secrets that have been forgotten by time. So, at this point we suggest the following experiment with the Mysteries and Magic of COLOR. PAINT a pyramid with bands of the color (like a rainbow) in the following order, noting the symbolism...

| <u>PHASE</u> | <u>COLOR</u> | <u>PLANET</u> | <u>SOUND</u> | <u>SMELL</u> |
|--------------|--------------|---------------|--------------|---------------------|
| Physical | Red | Mars | C-Do | Ginger |
| Wisdom | Orange | Sun | D-Re | Citric Fruits |
| Intellect | Yellow | Mercury | E-Mi | Frankinsense |
| Nature | Green | Venus | F-Fa | Pine |
| Spiritual | Blue | Jupiter | G-So | Lilly of the Valley |
| Idealism | Indigo | Saturn | A-La | Musk |
| Pure Spirit | Violet | Moon | B-Ti | Violets |

How the Great Pyramid, as a whole mass, squares the circle in the relation of its altitude (481 ft-5 in.) to the length of one side of its square base (760ft-11 in.)

* Here we have, apparently, a connection between the mathematical design of the Great Pyramid and the type of craft that was seen by George Adamski, George W. Van Tassel, and others...

SUMMARY OF REMAINDER OF PYRAMID "ASTROSONICS" ARTICLE by Michael Heleus

(What follows is a summary of Mr. Heleus' original article which we are not publishing due to space and scope limitations. If the reader wishes to have the complete 5000 word text with it's complete and specific mathematical technicalities and footnotes, please send \$5 to the author, in care of this Journal, to cover xerox and postage costs.)

The pyramid base diagonals yeild evidence that levitation based on earth gravitation may have been used in its construction. After explaining the resonance of sound with objects whose dimensions correspond to the wavelength of sound, it is shown how these dimensions relate to certain cosmic cycles. It was a staggering finding that all the basic major dimensions of the Pyramid, base, height, etc., were simply related to the mutual periods of the planets beyond Mars. In fact, the most important of these cycles, that of Jupiter-Saturn, shows up worked into the measurements several ways, inside and out. This cycle is important since these two orbs act as the flywheels of the solar system, and relate to the business cycle, and in Astrology, to space-time.

With some engineering knowledge, the builders of the Pyramid could have worked out a way to convert the air-resonance values for the planetary cycles into stone-resonance since sound travels a dozen times as fast in limestone, the principal material of the Pyramid, as in air.

Just as a CB radio antenna has to be just the right length to be in resonance with the CB frequency radio waves passing in and out of it, usually one half, one quarter, three quarters, one eighth, or some simple fraction of a wavelength based on octaves or powers of 2 of the basic wavelength, so the dimensions of the Pyramid are simple octave fractions of wavelengths corresponding to the joint planetary cycles. This means the Great Pyramid is a transceiver for planetary energies, and further takes a charge of them which can be manipulated or rebroadcast, making a giant talisman of it as well!

While the following has not been subjected to test yet, it is highly likely that the most powerful model pyramids are those which keep all relative proportions the same and where the dimensions are some octave, even numbered preferably, of the original. That is, divide the base length by 4, 16, 64, etc. (Reich's Kriselwelle-helix wave numbers!) until you get a convenient size for your use.

The builders of the Pyramid had a very keen sense of balance and proportion, as well as numerology. They were able to include such mathematical constants as pi and the Golden Mean (1.618) into the proportions of the structure using whole numbers of great numerological significance. This was done in such a way that the relative proportions reinforced the astrological meaning of the energies stored by astrosonic resonance, or balanced them. This is a very remarkable feat of integration worthy of the efforts of our best computers, programmers and numerologists and systems-theory people. The purpose of such herculean efforts of geometric juggling evidently was to provide a cosmic model of sufficient completeness and power that it could transform people and society for the better when properly activated.

How this could occur by the use of special mathematical constants and astrosonic resonances is brought out in the philosophical and spiritual analysis of these special constants and their relationships.

Of the interior structures that have special significance, the coffer in the King's Chamber is one of the most fascinsting, containing as it does a key to the harmony of the self and the solar system. Touched upon also is the startling finding that the King's Chamber resonates to the flip-flop frequency of Earth's magnetic field - the Schumann resonance so important to altered states of awareness.

This paper shows in no uncertain terms how by incorporating into the proportions and dimensions of the Pyramid the very Cosmic forces, themselves, the wise builders of the Great Pyramid revealed the existence and possibilities of an eternal sacred science of self-transcendance and perfection... ..

DID PRESIDENT JIMMY CARTER ACTUALLY SEE A UFO?

While Governor of Georgia in 1973, President Carter was reported in several news articles as having witnessed an actual UFO sighting in Georgia! While running for the Presidency in 1976, he promised (in an Associated Press Article) that if elected he would have the government release, to the public, all of the information it has on UFO's.

Now Comes This Startling News Items from the April 18, 1977 Issue of "U.S. News & World Report:"

"Before the year is out, the Government — perhaps the President — is expected to make what are described as 'unsettling disclosures' about UFO's — unidentified flying objects. Such revelations, based on information from the CIA, would be a reversal of official policy that in the past has down graded UFO incidents."

At Long Last The American People Are Going To Be Told The Truth About UFO's.

These Three Recordings Will Tell You NOW What The Government Will Later Confirm!

THE UFO MESSAGE

This is the most comprehensive information ever assembled, on UFO's. If you know nothing else but the information contained in this recording, you know as much or more than anyone about UFO's. Many critics consider this the best and strangest material ever assembled on UFO's.

REVELATION 666

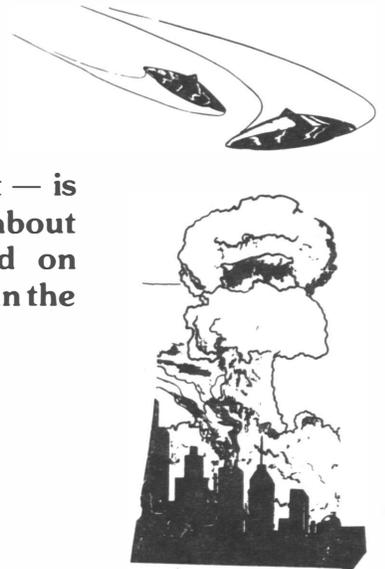

This strange biblical code has been linked with the present time in one of the most fascinating expositions you will hear. The Solomon Code, secrets of Fatima, terrible disasters, etc. are just but a few of the many revelations provided in this strange recording.

SECRET SEA

Now at last a logical explanation for the Bermuda Triangle and Devil's Sea. Answers are given on where the ships, planes, and people have gone. Also you will be amazed at the secrets of the ancient pyramids beneath the sea from the lost continent of Atlantis.

THE MYSTERY OF MEDICINE WHEEL. WYOMING
by Dr. Ron Anjard

In the rolling mountains of North Central Wyoming, you'll find "Indian Medicine Wheel" on the map. It's a huge circle with spokes, formed from large stones. To try to photograph it, people often stand on car hoods because of the circle's size. There has been much speculation as to its age and meaning. According to several legends it was built long ago when non Indians were there. I'd like to share a legend obtained from the Historian of the "Winter Count". Consider the significance of the message.

"Many Moons ago in the times of our ancestors a large wheel came from the sky." "There were bright fires from its sides and stars blinking from its top. The roar of many winds was heard before it sat down upon the earth of Medicine Mountain. Two villages ran away with fear from its sight. And then, as quick as the grouse in the bush, it left and was never seen again. The wise ones in the villages came back to their empty teepees carrying stones and thinking that nothing was disturbed, laid their stones in the pattern of its shape. (Thus the Stone Wheel)

For Many Moons there were legends told by the Shaman of the visit of the "Matatu Wakan" from the sky. For Many Moons hunting and crops were good and it was believed that the gods had looked with favor on the now silent ones." The Souix believed It was sent by the Sun so they made signs upon the earth that could be seen by the Highest Eagle. The Stone Pattern with cairns to show its doors for the gods left from sight there. The silent ones left pointers and other rocks formed as animals upon the earth as a good omen.....

FLORIDA RESEARCH REPORT

THESE HANDS ARE VERY LONG AND THEY HAVE AN EXTRA 'JOINT' IN EACH FINGER. THEY BELONG TO THE ENTITY THAT WAS ABOARD THE CRAFT THAT ABDUCTED A FLORIDA WOMAN SOME YEARS AGO. THIS IS HER OWN DRAWING AND IN OUR NEXT ISSUE WE WILL PRESENT OTHERS DEPICTING HER EXPERIENCES WITH HER VISITORS! NEVER BEFORE HAVE THESE BEEN PUBLISHED!

We were honored to be the guests on the Talk of Tampa Bay radio program in May, and our host, John Eastman, was just fantastic! We then called by phone some of our best friends - Brad Steiger, Ted Owens, and Trevor James. To say the very least, our area was favored by the most advanced thinking in Ufology at this time!

The most predominate discussions centered around the Visible/Invisible aspects of the UFO, and what this means to us, as Earthlings, and to Science in general. We were very happy to have another old friend, Allen Greenfield, call in, and he, as usual, added much important data of his own. The Invisible infrared photos that Trevor James took came in for a great deal of interest by our host. I don't think he ever has seen anything like it! Nor have many others!

We were most grateful to have the time given to us to explain the goals and the aims of our New Atlantean Research Society.

We are continuing to provide the local area with the most up to date UFO data, both by our open public meetings and by our Journal. We are now on the newsstands here, in every local Mall, and in all of this area's better book stores.

Q. - "A few months ago I saw an article on pyramids which gave the measurements to duplicate a scaled-down model of the Cheops pyramid including the height of the pedestal and the angle to set it to sharpen razors..."

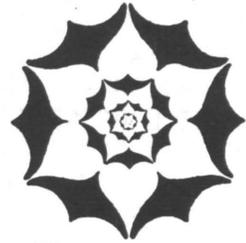

A. Using cardboard, cut four pieces into isosceles triangles. The base should be 15.7 inches, the sides each 14.94 inches. Tape the triangles together to form a pyramid 10 inches high, construct a pedestal 3.3 inches high, align the bases so they face north-south and east-west. Place the blades on the pedestal under the apex -- and wait.

Health Guide for Survival

by Salem Kirban

Heart Attacks can be foreseen from minutes,
to months, to years in advance—and prevented!

Breast Cancer can be avoided!

Leukemia is one of the easiest things to correct!

Hypertension can be corrected quickly without tranquilizers!

High in the mountains of Georgia, down a 2½ mile dirt road, lives an unassuming, humble biophysicist, Dr. Carey Reams. People from all over the world beat a path to his door...although there are no signs to indicate where he lives!

Why? Because Dr. Reams has an impressive track record of saving those who medical doctors have given up all hope on and pronounced "terminally ill." Dr. Reams is NOT a medical doctor, nor does he diagnose or treat disease.

How? Through a simple, ingenious urine/saliva test. Dr. Reams is a mathematical genius. This test gives him the proper information to mathematically analyze the entire body chemistry and detect, with remarkable accuracy, both the location and severity of most physical ailments. With a unique 3-day fast and special lemon-water, distilled water diet, Dr. Reams is able to restore body chemistry to its normal range and suggest a diet for an individual's specific body chemistry.

The author, to report accurately and without bias on this revolutionary method, went through the fasting program and spent 10 days with Dr. Reams. Dr. Reams had a sheet which contained the author's urine and saliva equation analysis. There was no physical examination. Dr. Reams did not ask the author what symptoms he had. Simply by looking at the chart, he indicated to the author the present physical problems he had (to the author's amazement) and what future health problems would develop if a proper diet was not followed! In **HEALTH GUIDE FOR SURVIVAL** you will read what Dr. Reams said was the author's health profile upon his arrival at the retreat, and how this health profile improved after the special fast. It will surprise you!

Truth is stranger than fiction! Cancer, heart trouble, arthritis, diabetes, hypertension, leukemia, hypoglycemia, breast cancer, glaucoma, multiple sclerosis, emphysema and even leprosy—people with all these diseases and many more have passed through Dr. Reams' retreat and responded to an individualized diet!

To your loved ones and friends who are terminally ill or have a serious disease... you owe it to them to at least read **HEALTH GUIDE FOR SURVIVAL**. It may prove the key that will return them to perfect health and a long, full useful life!

Revealing Quotes from Health Guide for Survival

The doctor may pronounce you in perfect health. You can feel well and yet be in imminent danger of a fatal heart attack!

We welcome a challenge... whenever one takes enough time and interest to make the tests, we have never been wrong!

I do not claim to have a cure of any kind. We make no claims of any kind. We make tests and using the mathematics of body and food chemistry, compute a diet that can bring the body back towards the mathematical formula for perfect health. Whatever healing takes place is done by God and the life forces in the body.

In one two-year period alone I tested and designed nutritional programs for over 24,000 people. Over 10,000 of these people were given up to die by their doctors. Yet only 5 people out of those 10,000 terminally ill failed to respond to diet!

There is one single mineral that is of the greatest benefit in the prevention of breast cancer!

Vitamins are only a crutch. They can aggravate your problems.

People have come here bedfast by arthritis and drive away in their own car three weeks later.

I am the advisor now on diet for many, many medical doctors. I am an ordained minister teaching the health message as written in the Bible.

Cobalt cooks the flesh. Chemotherapy destroys the liver. I think the use of these is murder!

Hypertension in children and adults can be corrected quickly without the use of tranquilizers!

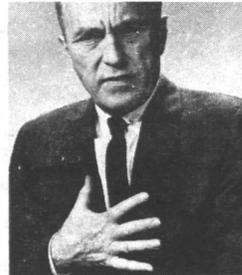

Gall bladder problems in the early stages are very easy to solve.

Dr. _____, a dentist, had leukemia. He was 81. I did not think he would live through the night. He had been hemorrhaging from the lips and mouth for 6 months. The medical doctors had given up on him. In 10 weeks we were able to send him home with the proper diet and he went back to his dental practice.

We have had children come here with leukemia and we have had 100% success! *Leukemia* is one of the easiest things to correct!

If you follow the rules of good health your weight will stay where it is supposed to be. Weight clubs treat every person as though they are obese, and they are not!

DO ANY OF THESE PROBLEMS PLAGUE YOU? URINE/SALIVA Analysis May Provide the Key to a Cure!

MEASURING PYRAMID ENERGY

Through my firm, Pyramid House, Inc., in Miami, I distribute many Pyramid Energy products. I unconditionally guarantee all PE items I handle, so I must be certain that the products are good. I also do speaking engagements and media guest-spots, so I must keep myself well-informed about new uses of PE and the new items on the market which are claimed to produce effective amounts of PE. Most claims of 'new discoveries' are pure hogwash - made by profit-seekers and glory-hounds, or simply by the misguided - and must be checked very carefully. After all, the genuine capabilities of PE are so strange and almost 'godlike' that it takes little imagination to dream up a new claim or a new product. Discrediting these frauds is difficult.

The problem has been that there was no quick and accurate means to check the effectiveness of a new PE product. The sensitivity of even competent aura-readers and 'psychic feelers' who can detect PE fluctuates too much. Controlled tests with plants, razor blades, and mummification are subject to uncontrolled outside interference, and all require time and repetition. Divining rods and 'aurameters' produce inconclusive results. Pendulums of thread and a steel needle or a plastic ball produce small deflection when held, and none when suspended from an independent support.

I tried all these methods, and none produced quick accuracy. My need was great, however, so I kept trying. Finally, while mulling over this need while sitting within the display pyramid in my showroom, an idea came to me. TO MEASURE PYRAMID ENERGY ACCURATELY, WHY NOT USE A PYRAMID?!?! To be frank about it, I felt stupid. All this time, right there among the products I distributed, was a pendulum consisting of a light chain and an accurate little pyramid. I knew it was excellent for map-dowsing, food-testing, and the standard yes-no-maybe so answers from the unconscious mindYET I had never tried it to check for PE!

I tried the Pyramid Pendulum, and it was sensational! When held over the apex of a tried-and-true, properly aligned pyramid, the pendulum took off! First, it was motionless except for the slight jitter I transferred to it. After about ten seconds, it began to circle with an expanding arc. After about thirty seconds, it had reached maximum arc and quickly collapsed the circle into a back-and-forth swing on a north-south axis. Every time!

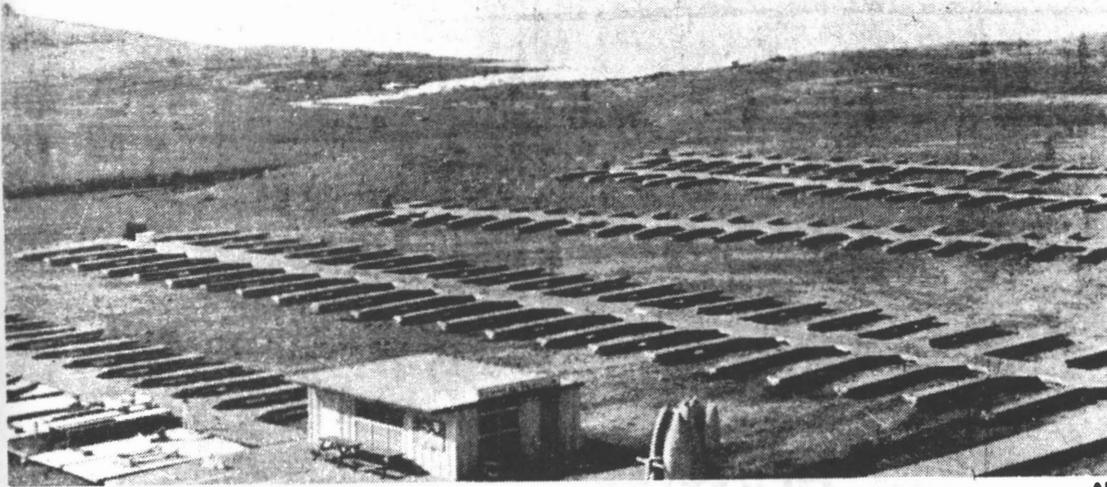

I tested every item in the place, including some new products which had been offered my firm. The pendulum gave very consistent and very strong results time after time, day after day. To increase the measurability, I replaced the rather short chain on the pendulum with a light chain from a pendant, twenty centimeters in length. Then I began to rate the strength of different items, using the diameter of the circle achieved as the rule, and squaring the diameter (a standard in measuring radiant energy) to get a rating in units of PE. I arbitrarily decided to call a one-centimeter circle one 'pyren', a two-centimeter circle four 'pyrens', a three-centimeter circle nine 'pyrens', etc.

There were several surprises. Some items I thought were just fair producers of PE were rather good, and some were almost worthless. Perhaps the biggest surprise was that the Pyramid Pendulum did not function at all if suspended from a support, nor would it work if I 'insulated' the chain from my fingers by substituting a section of thread for a section of chain.

If you care to test this method, please write me your results at Pyramid House, Inc., 4017 S.W. 95 Avenue, Miami, FL 33165. Test results will be in the next issue.

CIA claims weather changes will damage crops, trigger famines

By MIKE WATERS
Associated Press

WASHINGTON — A CIA report warns of global political and economic upheaval almost “beyond comprehension” because of climactic changes that already have occurred.

The report says the world has entered a period of adverse weather that will reduce crop production and trigger widespread famine and starvation.

ADDITIONAL SOLAR radiation penetrating the Earth’s atmosphere is cited as the cause for the weather changes, but the report does not elaborate on this.

The unfavorable weather is likely to last for at least 40 years, and possibly centuries, the report said.

Based on a study by Dr. Reid A. Bryson of the University of Wisconsin, the report states that long-term changes in the weather may cause a major drought in India every four years resulting in the starvation of 150-million persons, a major famine in China every five years and the loss of the Soviet wheat fields in Kazakhstan.

PSYCHIC ENERGY TROUBLING? -

THE SPOOK SPOT!

VIRGINIA - Virginia state police are investigating a very mysterious, violent eruption that swept through a mountain home ... shattering dishes and ripping curtains, toppling the furniture. The disturbance, which Trooper R.M. Pritchett said "moved 200 pound kitchen cabinets like toys" has triggered reports and rumors of the supernatural happenings... But, Dr. J.G. Pratt, a University of Virginia Medical School professor who has looked into the new case, said the real focus is a 9 year old foster child... He said the case is typical of hundreds of documented cases which apparently involved "some sort of discharge of psychic energy" from children under stress".

UNBELIEVABLE!

WHERE TOOOOOOO! - New Guinea -

Ghosts of two taxi drivers seem to appear every night to drive their old taxis, Port Moresby police have been told. The passengers in one taxi, who fled when their driver turned to speak to them, said he had the face of a dead man with his tongue hanging out and with his neck bruised and swollen. The driver of that cab, Frank, was found hanged in a quarry. The other, Jacob, killed in a road accident in July, has been heard calling and rattling the doors and windows inside the locked workshop, other said. They believe he is looking for his old taxi...

JAZZ GROUP CLAIMS A GHOST! -

Shanklin, Isle of Wight - The entertainers in a seaside summer show say a ghost is ruining their acts and they want it exorcised! ... The ghost is supposed to be wearing mutton-chop whiskers, a high necked gray suit, a gray tie and a diamond stickpin. The story goes that in 1898 an actor died on stage after the end of an unsuccessful performance...

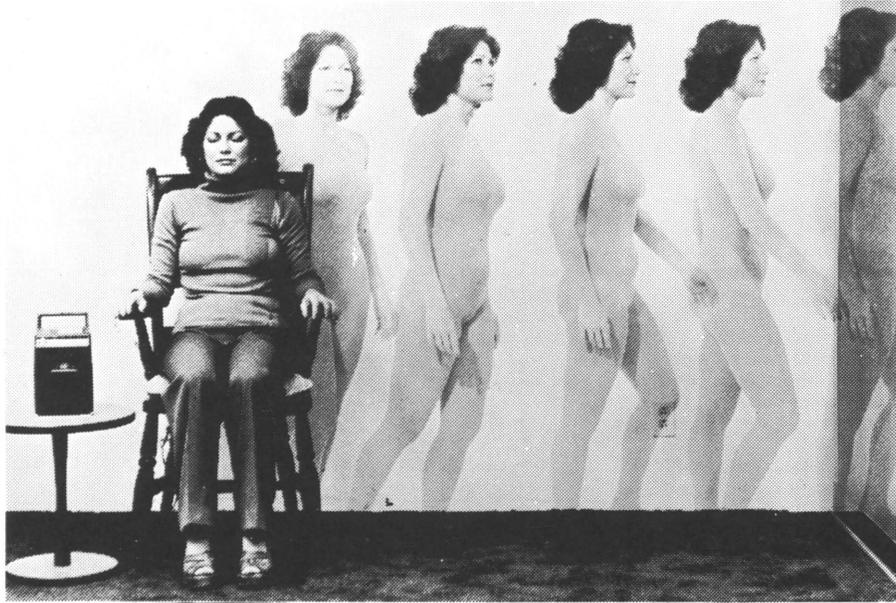

DR. SPOOK? A GHOST HAUNTS BMA!

LONDON - The British Medical Association says its headquarters are haunted! The current edition of the BMA News Review said "One of the Ghosts of BMA House may well have a connection with novelist Charles Dickens whose home once stood where BMA headquarters stands today." ... It is a shimmering and veiled figure which takes its shape at the top of a spiral staircase...
