THE QUEST

by Darold Powers

"Why are the Saucers interested in the earth?" we ask. It is possible that the saucer people used to live here.

Let's go back into time, back 10 billion years. Earth has attained a great civilization. It's scientific achievements are staggering. Unfortunately, its cultural and spiritual achievements are lagging woefully. After a series of progressively worsening world wars, there is an uneasy peace. The earth seems to be dividing itself into two armed camps. The next war may finish practically all life on earth, since terrible weapons of destruction are constantly being improved. Indeed, scientists have released the energy of the atom to be used for good or evil. So far, it appears that only evil can come from atomic energy.

In these troubled times, a handful of scientists, mindful of imminent destruction and horrified at the world that they have helped to create, begin to build space ships. As the rumblings of impending war grow more distinct, they frantically step up their efforts to build a fleet of ships that will carry them completely around the universe in 33 years.

The Einstein of that day theorizes that if a space ship can attain 99.999999999999997 percent the speed of light,

then the time it takes it to circle the entire universe would seem like only 33 years to the crew. The leaders of the exodus finally uncover an age-old secret of propulsion that enables them to hit the speed of light in test runs. They are increasingly certain that the earth's people will destroy themselves, and that it may take 10 billion years to return to the level they were when the scientists left it. The earth itself will have changed little in the intervening years, and the travelers will have an advantage of a knowledge of earth's nature that would not be theirs on an alien planet. Also, they wish to aid the earth's future inhabitants by the knowledge gained on their universe-circling adventure.

Two opposing military leaders learn of their project. Each sees the advantages space-flight knowledge and equipment could give him over the other, and attempts to make the scientists turn the products of their research to war use. Despite such obstacles, the fleet departs on its historic flight

just as the world envelops itself in catastrophic conflict.

Now, let's return to the present, 1954. No one can say what hardships the crews of those spaceships have endured, what dangers they have faced, or what they have learned. Perhaps it was unnecessary for them to stop along the way. On the other hand, they may have had contacts with other intelligences. Ships from other worlds may have been added to the caravan, or the earthlings may have stopped to build more ships as children were born.

Their ships have been straggling home for the last few hundred years. The travelers are arriving a few hours apart, due to natural differences in speed of their vehicles. However, a few hours to them comprises a few centuries for us.

Of course, other planets and galaxies may be sending delegates to observe the big reunion, too.

We must consider what these people can do for us. On a flight around the universe, they observed the obscure laws of nature clarified in the cosmic laboratory. The possibility holding the greatest promise for us is that the travelers will have discovered the secret of the purpose of the universe, they may be able to tell us what nature requires of us.

WE MUST BE SURE THAT WE ARE READY TO LISTEN TO WHAT THESE PEOPLE WILL TELL US. WE CAN PROFIT, NOW, IN A TIME OF DIRE NEED BY THE MISTAKES OF OUR PREDECESSORS.

THE LITTLE LISTENING POST

DUSSELDORT, GERMANY -- 7-12-54 German scientists are forming an official group for the study of space travel following a rash of recent sightings of unidentified objects. Reported govt. of W. Germany will finance project. Maybe this will help to lend "respectability" to the research!!

From a well-known Editor in London a recent airmail states: "Great excitement over here in view of the multiplicity of sightings from very well authenticated sources. The sceptics are quite furious, but their anger avails them little."

SIGHTINGS reported direct THE LITTLE LISTENING POST. 7-11-54, -- not 4 miles away. Gene Peterson of WGAY. He and his wife and several neighbors routed out 2:30 A. M. by hissing noise and overall "roar" - "like many jets." Two gleaming discs in sky. Close! Soon joined by a third. Definitely not conventional objects says this ex-anti-aircraft gunner. As these three discs took off, a fourth appeared on opposite side of sky. Saucer kept changing colors, also positions. From stationary to either side, back to center, then up, then down. Later estimated jumps to be of 5000 ft. Sighting lasted about 40 minutes.

Don Potter, missionary student of Takoma Park, D. C., saw his first UFO. Shaped like cylinder. Reddish neon-like glow. (Wash. News, 7-9-54) Same date, saucer over capital, 8 p.m., making sharp right-angle turns which no plane could do, (Mutual). 7-14 Three white-and-gold discs moving in and

out among the clouds during a storm. Smaller than full moon. Newspapers said they had many calls but could not report it.

JUST REC'D FROM PSYCHIC SOURCE IN WASH. :-
Some very interesting things are ahead. Regarding the discs, there has been a quiet investigation going on. You will be hearing something soon. They want to be sure of their facts. The time is fast approaching when secrets will be given to the world. . . Those of other systems are intermingling. There is a reason why they do not appear more openly. . . We are anticipating some very beautiful experiences for a few people. Others will participate in the joy of it." Regarding general subjects:" The cure of disease will be next in order. And a cure for cancer in particular . . . Atomic discoveries one of the chief 'ingredients' . . . 'Is evil worse?' Well, it is more out in the open now. Desegregation is not going to be too hard. It will take away resentment. No overall war.

GREAT LAKES UFO ASSO. (WAUKEGAN) has just had a "shock." They beamed large searchlight skywards and dit-dashed message of friendliness and a star-like object in sky moved up and down - apparently in response.

AIRCRAFT OF SOME SORT HAVE VISITED EARTH from outer space. "The best scientific minds in the world agree that some planet out there is sending these things to look us over." So says Frank Halstead, head of Observatory of University of Minnesota. (Mutual, 7-20-54)

AN AMAZING PROPHECY

AN OPEN LETTER TO AMERICAN EDITORS:

Gentlemen:

There has come into my hands information of such colossal nature that, if it be accepted as true, it throws the science-fiction stories into eclipse, and cannot but hold the most profound significance for us who dwell on this planet. Since the messages come via extra-sensory perception, this in itself maybe startling to some. Though I may be tagged as being completely psychopathic for considering that these things could have even the faintest semblance of truth, this is of no particular concern to me. It is rather with a great sense of urgency that we are getting this story into the hands of American publishers, that they may do the choosing; to accept or reject, to file in the waste basket or to print. It is presented on a take it or leave it basis.

These words are not mine; the authority behind them is not mine. My commission is to get the story out and help prepare the people for coming events. I have accordingly put the essence of the thing into a story. The excerpts are only a few from a large volume of lessons which have come through and which will be appearing in book form in the near future. The story is presented for publication and

no strings attached, but only with the profound hope that perhaps a few may be moved to act.

The date of the magnetic cataclysm is given as very, very near. A preview of the real show occurred in Assam and Tibet in August, 1950.¹ As a final word, allow me to pass on to you, the publishers, this message of August 27, 1954:

"Sananda: The tale of the morning (the prophecy) is cast to the sibets (students) of the light in The Creator's love. At this time it is well to give this information to as many publishers as possible. Let them choose. They are the ones to choose, as the lesson is for them too. Say, 'This is the word of man, called Sananda, who has taught the world these things. Since the name of Jesus was of the earthly cycle, it is used no more by him. . . It is a little time since the man, Jesus, used the name to the people of Earth. Sananda is strange, yet it is the new name of the same teacher in their midst, yet they know me not by any name.' ---Sananda."

And there you have it, gentlemen. May you be wisely led in your choosing.

Sincerely yours,
Charles A. Laughead M. D.

¹ Sat. Eve. Post, 3-20-51, "The Day the Earth Exploded"

Some 12,000 years ago, according to James Churchward, Ra Mu, high priest of Mu, "Son of the Sun," standing in the Temple of the Sun, prophesied to his people, "You shall all die together with your servants and your riches, and from your ashes new nations shall arise. If they forget they are superior, not because of what they put on, but what they put out, a similar fate will befall them."

Let us look at our world today. Are we immune? Could what happened to Mu happen to us? Are we in this country superior because of what we put out? Down the ages many prophets have spoken. Some of them have been amazingly accurate.

If the prophet of Nazareth were to walk the earth today what would he say? To these questions I submit these answers: First, the Flying Saucer phenomena in our skies dates the prophecy to our time; second, Jesus is a space man and, as Sananda, visits Earth today. In spite of all the balleyhoo and talk of "hoax" a vast amount of evidence has been built up that Flying Saucers are real and, notwithstanding denials, have landed at Muroc air base in California, Desert Center, California, and White Sands, New Mexico, & other places.

In April of this year Mrs. Dorothy Martin of Oak Park, Ill. was doodling at the phone and the next thing she knew the pencil was writing a letter to her mother from her father who had been dead for several years. She took up pencil on

Easter morning and the pencil wrote: "I am always with you. The cares of the day cannot touch you. We will teach them that seek and are ready to follow the light. I will take care of the details. Trust in us. Be patient and learn, for we are preparing the work for you as a connoiter. That is an earthly liaison duty before I come." --The Elder Brother.

A little later the same day the pencil wrote: "Sananda: (from the planet Clarion) It is a beautiful place to live. We have snow and rain. We adjust our bodies to the temperature.....The love one has for his brother on this abased planet is very felonious. The Saucers are over W. Va. taking listings of the world's industrial people that make war material and profit from war assets. They are going to land and make contact with you people of Earth in May."

During the latter part of Aug., as several of the students asked for light on the relationship between Sananda, the Elder Brother, and Jesus, Sananda oblided and wrote:

"It is I, Sananda, who is the sorry Earth's director. The responsibility of this Shore is mine. The direction of her resurrection is as stated; mine to bring to the end of the cycle of darkness and to establish the new order upon Earth. Then I shall be of another order which has yet to do with another world. This one will have another director...The Brother is

SCIENTISTS NOW BELIEVE THAT GRAVITY RESULTS FROM WARPED SPACE IN THE VICINITY OF AN OBJECT IN AN UNFAMILIAR DIMENSION.

the same that was called Jesus. To the age the name is given in their cycle. This reveals that the name matters not; the initiation brings a new name."

This is truly hard to believe that the man whose life has so profoundly affected the life and thought of men for 2000 years is among us again. It was he who appeared to Mr. Adamski of "Flying Saucers Have Landed" and left his "foot-prints in the sands of time," in the desert of California.

The amazing prophecy follows, together with excerpts from communications received the past 5 months. They speak for themselves. It is utterly impossible to convey any idea of the sense of urgency that impel us who have been given this sacred obligation to get them to the people. The time is so very, very short. But who will listen?

EXCERPTS OF ESP WRITINGS RECEIVED BY DOROTHY MARTIN:

We are preparing to come in great numbers in the weeks ahead, as war preparations are being formulated. We are standing by in readiness to lease ones who are of other time bands. They will be gathered up and relieved of the experiences of the holocaust of coming events. These are the ones who were through the time bands of destruction and are ready for Creton activities of Cerus, where war nor hatred is known. --Sara (Rc'd 5-23-54).

THE TIME IS READY, FOR THE DAY IS NEAR--WHICH IS NEARER THAN YOU CARE TO KNOW.

cont.

To the gov't we teach these things, yet they race onward to the danger of the cast. It is as in the water deluge, that which you have been taught was of 40 days. The planet sank beneath the waters of Earth, which you know not of. The Earth is in the womb of the Cosmic Mother; the membrane was punctured; the Earth aborted.

To this we add that the people of Earth are rushing toward the suicide of themselves, the cast of their planet and the Solar System. To this we are answering with many signs and wonders.

The people have been contacted, countries alerted, scientists told in their sense of knowing. It is as the great war of Atlanteans which brought their destruction in the cast of the abortion.

TO TEACHERS OF THE YOUNG WE SAY, KEEP THEM AS FAR FROM HATRED AS THE CAST OF LOVE CASTS, AS THE LAW OF HATE BRINGS DESTRUCTION, EACH TO HIS OWN IN THE SEASON, AS YOU SOW SO SHALL YOU REAP.

No talk of hatred toward one another. Toward all nationalities have the love that passeth understanding. The cast of the Creator is that of LOVE. To the world he has ever cast the love of his own. --Justine 7-30-54

There will be the picking up of the ones who will be prepared. To the ones in panic we will let them be in panic for

a time, for the cast is for ones who are of other time bands and are to be rescued; which is as it will be for all who will listen and drill for the time when trumpets shall sound. It is not in symbology--it is as real as the BRASS that precedes your ROYAL BLOOD; and the day is near. THIS IS A CLOSE DATE. --Sananda 8-15-54

This is not limited to the local area, for the cast of U. S. A. is that it is to break in twain. In the area of the Mississippi, in region of Canada, Great Lakes, and the Mississippi, to the Gulf of Mexico, into Central America will be as changed. The great tilting of the land of U. S. A. to the East, will throw up mountains along Central States, along the Great New Sea, along North and South--to the South. The new mountain range will be called The Argone Range, which will signify the ones who have been there are as gone--the old has gone past---the new is. This will be as a monument to the old races; to the new will be the Altar of the Rockies and the Alleghenies. --Sara 8-25-54

There will be more E. S. P. messages in next issue

(AP) Nuernberg, Germany-Tiny bits of magnetic metal found in hailstones that fell in Bavaria are under investigation. A German weather expert, Dr. Kurt Schreiber, says the particles could be atom bomb dust. The Bavarian Criminal office say the particles resemble bits of ground glass. (A space ship blew up???)
