Photos of dead alien expose UFO cover-up

(Heading as seen in the GLOBE, 9/30/80)

-SAY EXPERTS

On the following page you shall read the complete story behind photos that allegedly depict a "dead alien being from a crashed UFO." Unfortunately for UFOlogy, the photographs indicate that "what you see is not what you get." As a matter of fact the only thing the SBI finds that is "dead", is the hypered promotion to the media relative to these photos.

Page # 5 allows for the FULL REPORT made by computer analytical expert Bill Spaulding, director of Ground Saucer Watch (GSW, Arizona), and sent to the UFO researchers involved prior to a release of the story to the press. Naturally, the SBI performed its own analyzation of the photos that were received to our HQs nearly one month prior to press release. The photos were 8 x 10 black & whites taken from the original negatives. The following are the conclusion of the SBI:

- 1) Photos are approximately 25-30 years old, thereby abolishing any claims of 1948 origin to be true by 2-8 years;
- 2) Photos appear to be not doctored, tampered with or hoaxed; genuine. That is to say, genuine to their specific purpose and then "misinterpreted" incorrectly by the researchers involved.
- 3) Being in photo appears to be dead with its body being well charred;
- 4) Being in photo appears to be between 38-44 inches in length, having an approximate waight of 50-75 pounds, and its body covered by fur;
- 5) Being in photo appears to be wearing a "bubble-like" helmet apparently made of see through glass or heavy duty plexi-glass components;
- 6) One, possibly two, black hoses that are approximately 1/2-1 inch in diameter appears to be attached to back of the helmet worn by the being in photo;
- 7) Being in photo appears to lost alot of hair(fur), severely burnt, and substained dismembered parts of its body as well as broken limbs due to intensified heat & possibly a fall from great heights;
- 8) Military personnel (???) in photo reveal, after enhancement, trousers that are "not bloused" at the point where boots meet end of pants(cuff). Also, subsequent further examination reveals that boots worn by military (???) personnel in photo are in fact "NOT WEARING" military-type issue boots;

'Proof' or not; decide for yourself

Cincinnati man stands behind 1948 photos

CINCINNATI (AP) — Charles Wilhelm, who has devoted most of his free time during the last 20 years to studying unidentified flying objects, said Tuesday that he has proof aliens have visited Earth.

Wilhelm released two previously unpublished pictures which he said show the remains of an alien spaceman who crashed in Mexico, about 30 miles south of Laredo, Texas, in July 1948.

He said the pictures were taken by a Navy photographer who was assigned to document the crash.

"I am more of a skeptic than I am believer. We feel these photographs are authentic," Wilhelm said. The pictures show what appears to be a charred human-like form with a head proportionately larger than the rest of the body.

Wilhelm said the photographer refused to reveal his name because the pictures could be traced. "The man is still in the military, and he's waiting to see how much harassment he gets," Wilhelm said.

Wilhelm also released what he said was a censored memo written by the photographer. "I do feel that it is my duty to warn you that once you begin the dissemination of the photos, you may find yourself the subject of harassment and even abuse, perhaps by an agency of the government that you never even suspected existed," it said.

"I had to cut up one negative because there are recognizable persons still alive gathered around the body that I had to censor out."

Wilhelm said that by using the Freedom of Information Act to gather material, members of the Coalition of Concerned Ufologists of America have documented a government coverup of alien visits.

"There are a lot of documents I FBI, CIA, Army, Air Force, Navy. Anybody

can get them. You just have to know what you're looking for," he said.

"We've compiled 15,000 pages to prove that Uncle Sam is still engaged in UFO research, even though they say they shut down their UFO operation in 1969.

"There have been numerous crashes over the years. Some spacecraft that landed because of malfunctions have been retrieved fully intact."

"The government denies that they have alien bodies in their possession, but we have testimony from former military personnel who saw them. We've talked to a couple of pathologists who did autopsies on the bodies."

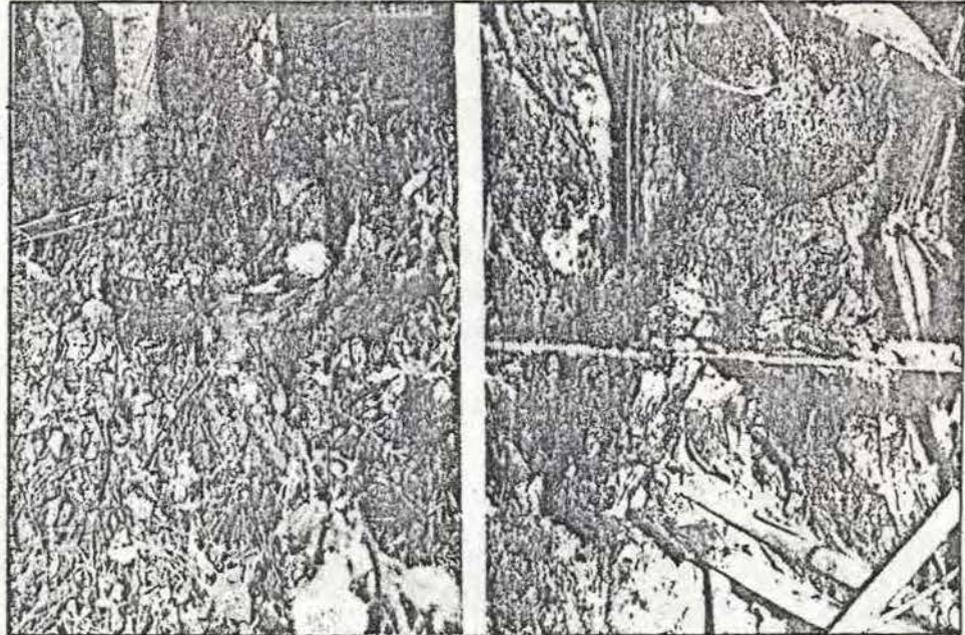

Wilhelm, 37, a machinist who lives in Fairfield, said he saw his first UFO in

Louisville, Ky., when he was six years old.

"I've had quite a few, but nothing really spectacular," he said. "Of all the sightings I've had, the closest one was 200 feet away."

Wilhelm said that occurred in Fairfield in 1974. He and his wife, Geri, observed a cigar-shaped, 200-foot-long alien craft for three to five minutes before it flew away, he said.

Wilhelm said he's never seen an alien, but believes there has been communication between aliens and people on Earth. He thinks the alien encounter portrayed in the movie "Close Encounters of the Third Kind" was unrealistic and only "impressive from a Hollywood standpoint."

These two photographs show what a Fairfield, Ohio couple believes to be the charred body of an alien being in the wreckage of his aircraft after it crashed in Mexico in 1948. They were taken by a Navy photographer. The photo at the right shows the body of one alien in the debris of the crash, and the photo at the left shows an alien body placed on an open bank, with members of the military team standing near.

Tri-County group to stage own review

Two photographs — taken in Mexico over 30 years ago — has caused quite a stir in the Ufological Community.

The photographs, released for the first time this week by a Cincinnati man, shows the remains of an alien spaceman who crashed in Mexico, about 30 miles south of Laredo, Texas, in July 1948. The photos were reportedly taken by a Navy photographer assigned to document the crash.

Now, Dennis Pillich of the UFO Information Network in Rome, Ohio, will be bringing the photos and presentation to the Saturday, Sept. 13 meeting of the Tri-County UFO Study Group.

The meeting will begin at 7:30 p.m. at the Lakeside Pines Restaurant in North Benton (on alternate Route 14 north of Sebring). The meeting is open to the public.

Pillich's organization belongs to the Coalition of Concerned Ufologists of America. It is one of the coalition member groups that have affidavits on file related to the 1948 crash case.

The steering committee of the coalition consists of Pillich, Charles J. Wilhelm of the Ohio UFO Investigators League in Fairfield, Ohio, and Willard McIntyre of the Mutual Anomaly Research Center and Evaluation Network located in Washington D.C.

Pillich said the story as documented so far relate that an object was tracked on radar moving across the Southwest at high speeds — higher than any known aircraft of the day — on July 7, 1948. The

NORTHEAST OHIO REGION

object ran into trouble and crashed to the surface in Mexico.

Military personnel and a professional photographer documented the scene, but the photos were concealed for more than 30 years until the photographer felt compelled to leak them to the Ufological Community.

Pillich said that tests done on the original negatives have shown them to have been processed at least 30 years ago, and more computer enhancement tests are now being conducted to further confirm the validity of the negatives. They have already survived minute examination by microdensitometer techniques.

One of the personal projects of Pillich and his group has been to research and document similar incidents through the Freedom of Information Act, and now has on file in Rome over 10,000 pages of

documents from various governmental departments relating to the UFO phenomena.

One document that will also be on display at the UFO meeting, along with the two photos, relates another possible overflight and crash of a mysterious object in 1949.

In a special memo dated January 31, 1948, to the Chief of Staff USAF Director of Special Investigations, an overflight of an object in New Mexico was seen by at least 30 different people. The object was seen and reported from El Paso, Albuquerque, Alamogordo, Roswell, Socorro, and other locations. All reports appeared to be of the same object at different points in its trajectory.

Pillich — along with Wilhelm and James Rastetter of the Tri-County UFO Study Group in Sebring — have formed the state-wide network known as the UFO Ohio Research Co-Operative. This project is dedicated to organization, documentation and distribution of reliable UFO and related data to members through the UFO Ohio Newsletter Journal. This publication goes out to people in the United States and 16 other countries.

For more information, send communications to Pillich at the UFO Information Network, P.O. Box 5012, Rome, Ohio, 44088. For more information on the UFO meeting in North Benton, call Rastetter at 938-9167.

CONCLUSIONS AND SPECULATION BY GSW ON THEIR ANALYSIS:

It is the consensus of the GSW photographic review staff that the photographs in question represent a misinterpretation of a normal laboratory monkey (either a rhesus or orangutan) that has been badly burned and partially dismembered. If the narrative portion of this purported UFO incident is accurate, there are grave implications to the origin of this crash/accident. If the incident actually did occur as reported, which is a reasonable assumption, then it indicates that the U.S. Government was illegally testing rockets in cross-state firings, i.e., rocket launching in New Mexico (White Sands) and cross-launching into Texas over populous areas.

It is known that the U.S. Government was firing rockets and monkeys (pre-space development) into space for experimentation purposes. We know that the government/military has had numerous failures, especially in the early days of rocket development (after WWII)

The questions now arise about all of the purported crashed saucer incidents. Why, after all these years are "crashed saucer" photographs surfacing?

Why would any trained anthropologist even remotely consider pictures of this calibre to be connected with an alien creature? Are these photographs, and similar ones, being disseminated for mis-information purposes?

If the answers to the above questions are based on a plot to filter misinformation to the body politic and ufo researchers to cover the obvious sinister motives of government wrong-doings, then all of the valid crashed saucer cases make logical sense. The reasons for the security was the location of the crashes, i.e., off of military bases or testing areas, as opposed to the actuality of the incident.

It is of little concern that some monkeys were killed as hundreds of test animals are killed every day for reasons ranging from warfare development to medical research. What is important is the fact the U.S. Government was firing rockets over populous areas and luckily they never killed or injured a high quantity of that same populous.

GSW has copied the negatives onto our computer discs and will contact additional zoologists and quantify our measurements for absolute identification of the creature. However, at this time there is not one data point to even suggest that an alien creature was attributable to the imagery on the analyzed negatives.

End of Report

(CREDIT: SAUCER SPEAR, Vol.28;No.2--editor: JIM MOSELEY)

continued from page 3:

- 9) Area in photos indicate a heavily scorched surface, irregular pieces of wood, and fragments of what appears to be metal;
- 10) Because of statistics relevant to the being, and other factors as indicated in conclusion 1 through 9, it is our considered opinion to agree conclusively with analytical computer findings of Bill Spaulding/GSW.

CONCLUSIONS

*Being in photo most likely represents a species of the ape family, and perhaps used for governmental research project during the early 1950's. As a result of the obtaining of these photos either of two hypotheses are evident: one, the researchers involved were "duped" into believing the photos to be true, initiating story released to the media. It can easily be assumed intelligence gathering agencies of the U.S. used this ploy to continue ridicule of the phenomenon and enhance animosity amongst fellow researchers and organizations. Two, researchers involved perplexed a hoaxed story in respect to the true identity of the photos for the primary reason of either gaining attention or recognition for their organizations or satisfying their own egotistical motives. The SBI seriously hopes the latter hypothesis is not true, since UFOlogy has advanced several steps and needs not return to the bottom of the ladder because of stupidity or impatience from our own peers involved in the research of UFOs. ******

As a new year began and is increasingly moving right along, the SBI's new attitudes on other UFO organizations and UFOlogists moves right along also. Our difference is that we now laugh at other groups or independent researchers who *WILL NOT SUCCUMB TO THE POINT OF EITHER RECOGNIZING THE SBI OR ITS DIRECTORS*. This is still a free and democratic society, so people can say what they want and get away with it. But, the SBI will not fall into the same stereo-typed syndrome as UFO organizations of the past or still in existence; we will not slander or ridicule other peers researching this phenomenon. However, if it warrants, we will speak our mind and express our opinions, conclusions, and theories as brought forth by the Constitution of the United States. If any other UFO organization or independent UFOlogist obtains a copy of this issue of the *SBI REPORT*, let it be known once and for all: "The SBI is not looking to take over the *UFOlogical* kingdom so long held by respected UFOlogists or organizations. There is plenty of room for us and even further organizations. As in every aspect of life or business, there is good and bad points relative to anyone or anything. We feel we are doing an excellent job in UFOlogy, as others are performing similarly. The SBI has learned to accept the ridicule, harassment, and unethical bad manners of many individuals or organizations. Each of us make mistakes, this is a process of learning, the point being to learn from one's mistakes and not duplicate them in the future. However, it seems that many UFOlogists consider themselves above anyone else, perhaps even God. This is a serious mistake and most likely an attribute to why the UFO phenomenon has endured for over three decades. An understanding of priorities must take place prior to accomplishing any further advancement with UFO research. If the UFO world of investigation and documentation is to continue, we must not attempt to cut each others throats at every available point in time. It is high time, I think, we begin to practice what we preach. Each of us wishes for the world a total calm---an end to war, violence, scandals, pollution, prejudice, etc.---yet, we have been unable to accomplish this feat due to man's egotistical selfishness while viewing life and people in general. Maybe we shall never obtain these changes in the world of the future, but it is not a reason why UFOlogists and organizations around the globe cannot compromise in order to begin unraveling the UFO enigma. An excellent analogy of tremendous power in personnel and politically is the labor union known as the A.F.L.C.I.O. This union has become the strongest in the world and we as UFOlogists/organizations can perform a similar miracle of becoming the strongest UFO "union" in the world. Let us think prior to making any rash decisions, can we survive the way we are headed---man against man, organization against organization---on a path leading nowhere? We are defeating our own purpose and shall never make headway unless we merge our minds (not our organizations), merge our investigations/documentations, merge our strategy to overcome the "ENEMY"---governmental world agencies who suppress the truth on UFOs. When will our researchers in UFOlogy begin to take note of the fact we are proceeding exactly the way these opposing forces wish us to proceed, against our own peers thereby enhancing confusion, ridicule and lunacy to a very serious subject and problem? If we don't change our philosophies of one another, if we don't begin to strengthen our priorities and strategies in the everlasting research, all is lost no matter who shall think contrary. NOW IS THE TIME TO GET OUR HEADS TOGETHER. NOW IS THE TIME TO BURY ALL HATCHETS WITH ONE ANOTHER. NOW IS THE TIME TO USE OUR MINDS IN ORDER TO ACCOMPLISH WHAT WE STARTED OUT TO DO. A SYSTEMATIC CROSS-FIRE FROM ORGANIZATION AROUND THE GLOBE IS URGENTLY NEEDED TO PRODUCE GOVERNMENT EVIDENCE OF UFO EXISTENCE. NOW IS THE TIME FOR UFOLOGISTS AROUND THE WORLD, WHETHER OR NOT THEY ARE LIKED OR DISLIKED, TO MEET ON NATURAL GROUNDS AND FINALLY DISCUSS THE FUTURE OF UFOLOGY AND PLAN A STRATEGY THAT WILL NOT FAIL, USING ALL OUR POWERS AS ONE. THINK ABOUT IT, CAN WE AFFORD NOT TO HAVE SUCH A CONVENTION?"

Mr. Peter Mazzola--Editor
The SBI Report
23 MacArthur Avenue.
Staten Island, N.Y. 10312

Dear Pete:

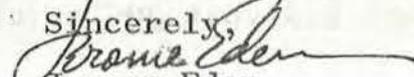

The confidential report I sent you on October 5, 1980, indicating serious alien intentions, plus the enclosed material on the severity of our drought situation indicate that my hostility hypothesis (first advanced 26 years ago by Dr. Wilhelm Reich) is right on target.

Now I realize how frightening and unpopular the UFO-Hostility Hypothesis is. But I never got involved in ufology to win a popularity contest; I am in it to pursue fact & truth, regardless of where they lead. Because of my quarter-century advocacy of Dr. Reich's discoveries and research, I am considered "crazy" by all of mainstream ufology which refuses to touch Reich in a serious and responsible manner. That is their problem, not mine. Because they have consistently refused to face facts, all major UFO organizations to date have degenerated into little more than second-class adolescent mutual-admiration societies which continue to titillate their membership with the latest sightings of "lights in the sky."

The letter you published by Lynn Volpe in the September 1980 S.B.I. Report is symptomatic of the general reluctance of humanity to face the possibility of UFO hostility. I am sure you have received many similar letters critical of me and Dr. Reich; and very critical of the S.B.I. for publishing my material. It took 10,000 cattle mutilations before mainstream UFOlogy condescended to find a "link" between such mutilations and UFO activity--years after I had produced factual evidence which overwhelmingly pointed to that very conclusion (for which I was pronounced "nuts" by many so-called UFO researchers and UFO organizations).

We are living in extremely grave and treacherous times. The true "Leaders" make history because they see in time what others refuse to acknowledge or advocate. Sir Winston Churchill was ridiculed and kicked out of public office for warning his nation of the impending Nazi war-machine. General Douglas MacArthur was scathingly denounced as "crazy" for warning the world of the possibility of an Interplanetary War. In brief, the world does not want to hear bad news (except in science-fiction movies). Now the S.B.I. can give its members what they want to hear, or can exercise responsible leadership (as it has thus far done) and present factual information and hypotheses based on facts--and let them take it or leave it. I have committed myself to the latter course.

There is always the possibility that Reich and I are wrong. When concrete evidence proves us wrong, I will be the first to admit it. May I suggest that in the future, any S.B.I. Member critical of my conclusions send such criticism to me directly, so I may have an opportunity to reply to the writer in the same issue in which the criticism appears.

Sincerely,

Jerome Eden

DROUGHT POSES LONG-LASTING IMPACT ON FARMERS--

"Since the UFOs have been coming here for many thousands of years, why are we flourishing with many vegetables & crops in modern times. There are many contradictions [in Reich's & Eden's UFO-drought hypothesis] that one should recognize."--From a letter critical of WR & Eden by Lynn Volpe, published in The SBI Report, Sep. '80.

Oct. 16, 1980, (AP) Spokane Daily Chronicle, Spokane, WA: The autumn harvest is under way in most parts of the nation's breadbasket, but many Southwestern & Midwestern farmers are reaping little but dread & doubt. The summer's drought--which caused 1,265 deaths & overall damage figured at almost \$20 billion--will have a long-lasting effect on farmers, ranchers & foresters....Individual state estimates total in the billions of dollars.

And in some states, the drought continues, threatening next year's crop & the farmers already being crushed by debt & high operating costs.

Oklahoma's summer brought the worst combination of heat & drought there since the Dust Bowl of 1936. Oklahoma City had only 3.54 inches of rain in June, July & August; temperatures averaged 98.2 degrees, breaking the previous record average of 97.5--set in 1936.

Analysts say it will take farmers 2 to 3 productive years to offset 1980 losses. Jim Plaxico, Oklahoma director of the federal Agricultural Stabilization & Conservation Service, said 1980 losses were the worst in 10 years, with cotton & peanuts hit hardest and next year's grazing wheat "a total loss."

Cattle ranchers will suffer because the killing drought has "put the price of hay out of sight," said Wendell Bowers of the extension service.

In Texas, where 190 of 254 counties were declared drought-disaster areas & crop & livestock losses are estimated at \$1.5 billion, experts say any coming rain will be too late to help the 1980 crop.

"It's real easy to assume the drought's over, but it doesn't end the minute you get your first rain," said Pat Sultenfuss of the Farmers Home Administration. "We're going to need more rain--a lot more rain really--to save the state and break the drought."

Winter crops & forage are dying in the ground or refusing to sprout, but he said Texas could still "make a 1981 crop if we get the right amount of rain."

Crop losses are nearing \$750 million in Kansas, with corn, sorghum & soybeans hardest hit. In mid-August, state officials estimated losses at 85 percent from lack of rain alone, excluding damage from disease or insects.

In neighboring Missouri, where 8,227 farmers had requested aid by the end of August, the drought did an estimated \$1.5 billion damage. "This has always been 'next-year country', but we're running out of 'next years'," said George Stensland, a northeastern Montana farmer whose wheat crop yielded only 4 bushels per acre this year.

The drought battered eastern Montana's wheat belt, damaging the crops of 95 percent of the farmers & wiping many of them out financially. State officials estimate losses around \$200 million.

The drought cut North Dakota grain production by 30%. Then in July & August 30 in. of rain fell(!) destroying another 30%!

CONCERNING RATIONAL & IRRATIONAL OPINIONS IN UFOLOGY--

by Jerome Eden

THE UNFORTUNATE LETTER by Lynn Volpe, of Delval UFO Inc., published in the September 1980 issue of The S.B.I. Report, points out again the absolute necessity for the serious ufologist to distinguish between scientific facts and mere opinions about facts.

It is clear from Volpe's criticism of Dr. Reich that she has never personally read a single volume written by Reich himself; that she has never performed a single experiment given by Reich to verify the existence of orgone energy--thermically, visually, electroscopically, with GM counter, orgone-energy field meter; nor has she ever built an orgone energy accumulator (let alone used one). In brief, she has established no personal credentials in the very field she criticizes. (She alludes to having read one mystical book about orgone energy by Constable.) Yet Volpe has no compunctions about tendering her irrational criticisms of a world-famous scientist who spent more than three decades painstakingly publishing his documented experimentation--experimentation which has been verified by top-notch scientists throughout the world (See The Journal of Orgonomy, Box 565, Ansonia Station, New York, N.Y. 10023.)

In order to render rational criticism, the critic should know at least as much about the subject she criticizes as the advocate himself. As I shall demonstrate, Volpe is not a serious critic--she lumps half-truths, distortions, & complete misconceptions together in a stew of ignorance which she then presents to the reader to be swallowed whole-hog. Let us therefore examine Lynn Volpe's critique of Reich; and let us take her words seriously, and then seriously respond to them.

VOLPE OPINION: "Those who recognize the spaceships use (orgone energy) would not believe they use (electro-magnetic energy)."

REFUTATION: This is nonsense. Reich ran electric motors on the freely available cosmic orgone energy (See Eden's book, Planet in Trouble). All forms of secondary energy, including electro-magnetism, are derived from the primordial, mass-free orgone energy. When Reich proved that UFOs operate on the cosmic-orgone energy of our atmosphere, that did not nullify the probability that they employ electromagnetic power also in their ships. We start our automobiles with electrical energy, then the combustion engine takes over. There is a functional relationship between orgone energy and magnetism--for example, when I was doing experimental work with several orgone-energy accumulators in a small room that became highly overcharged by the orgone, all of my iron & steel tools in that room became magnetized. Furthermore, two compasses in that same room changed polarity--the North pole needles now pointed south! So WHO "would not believe" that UFOs use electro-magnetic energy as well as the orgone? Volpe first erects strawmen arguments and then knocks them over. Let us proceed.

VOLPE OPINION: "Orgone energy is allegedly supposed to deplete the atmosphere of moisture thus eventually creating a barren wasteland. Since they the UFOs have been coming here for many thousands of years, why are we flourishing with many vegetables and crops in modern times.

There are many contradictions that one should recognize."

REFUTATION: Volpe conjured up this factless opinion again from thin air. Orgone energy is The Life Energy of man & his planet, objectively verified in Reich's masterful work, The Cancer Biopathy (which Volpe has never bothered to read) and throughout the volumes of The Journal of Orgonomy (which Volpe has never bothered to read) and in my book, Orgone Energy--the Answer to Atomic Suicide (which Volpe has never bothered to read). When the normally benign orgone energy becomes highly irritated, e.g., via nuclear-energy excitation, it is then a toxic energy, Oranur, which lacks oxygen and moisture. Dead orgone energy (DOR) also lacks oxygen and moisture. These two variants of orgone energy are what produce desert development. Now, had Volpe bothered to read any current study of Earth's desertification, she would realize that Earth's deserts have been steadily growing, and that our planet is indeed slowly but relentlessly drying up (as I write this, New Jersey & Virginia are rationing water, and the past-summer's drought in the West & Southwest was the worst known since dustbowl days! But of course Volpe is as much an "expert" on desert development as she is on orgone energy!)

VOLPE OPINION: "Wilhelm Reich believed that ufos are 'getting even' with him for use of the cloudbuster....He was becoming very paranoid about DOR but how do we know what really caused the deterioration of the environment around ORGONON."

REFUTATION: At the risk of boring the reader, let us go over the historical facts again. Reich went to the Arizona desert in 1954 to clean out the desert atmosphere of DOR--the Deadly ORGone exhaust from the UFO propulsion system. Each time he cleaned out the DOR, the UFOs deliberately poured this toxic "slag" back into the desert atmosphere! A UFO actually paralyzed one of Reich's assistants while the man was using a Cloudbuster. Volpe calls that "paranoia"??? I myself was struck by a UFO "lightbeam" while doing the same in North Idaho. The conclusion is clear--UFOs don't want mankind to fructify deserts! "They" apparently prefer a desert wasteland. (I am not claiming that all UFOs in the universe are "bad guys"--but certainly the ones we have been dealing with up til now are not the "good guys".) Now, the refusal to face incontrovertible facts is an indication of paranoia. Question--Who refuses to face facts? Wilhelm Reich? Jerome Eden? or Lynn Volpe? Court-appointed psychiatrists judged Reich sane. All of the many M.D.-psychiatrists who knew and worked with Wilhelm Reich until his death in a federal prison in 1957, stated Reich was perfectly sane. Who, therefore, is paranoid?

VOLPE OPINION: "However, if our space friends wanted to 'get' Dr. Reich, they would have, and could have, and they wouldn't have to try a second time."

REFUTATION: The fact is, "THEY" did indeed "get" Wilhelm Reich! Who ultimately was "behind" the illegal FDA injunction that resulted in the banning & burning of Reich's scientific works in the USA? Who was behind the "kidnapping" of Reich's mathematical co-worker who suddenly "disappeared" with two cosmic-orgone energy motors? How "paranoid" is it to believe that "they" are right down here on Earth, living and working among us? Apparently we prefer to believe that only the "good guys" can land and live amongst us, but NOT the bad guys! But why should Volpe examine Reich's evidence when she has her own crystal ball?

VOLPE OPINION: "A Man in August 1978 got out of his car and stood under a hovering "silver cigar" which was only 150' above him. According to the theory of orgonomy, he should either have been 'sucked up' into the craft, or more likely become severely dehydrated. Neither occurred."

REFUTATION: The basic law of orgonomic potential is that atmospheric orgone energy flows from the weaker energy system to the higher energy system. Proof of this lawfulness can be found in Reich's book, The Cancer Biopathy (which, as previously noted, Volpe won't touch with a 20-foot pole). Whereas mass-free orgone energy moves from the weaker to the stronger orgonomic system, mass does not. A UFO hovering over someone will certainly affect his energy field, but not necessarily his material (mass) structure which is held to the earth by the far-stronger gravitational attraction of the earth below his feet! If UFOs wanted to exert a strong-enough anti-gravitational "pull" on a human being, a car, or an aircraft, I believe they could. (Recall the Army helicopter, documented by Major VonKeviczky, which was "lifted up" several thousand feet by a UFO; then there was the more recent disappearance of pilot Valentich and his aircraft!) So, although Volpe implies here some "contradiction" to Reich's theory, there is in fact no contradiction whatsoever. As to a contactee being dehydrated--we have many cases wherein contactees have indeed lost considerable weight and body fluid after a UFO contact. Travis Walton, for example, lost ten pounds and was extremely dehydrated. Then there are the thousands of cattle which are totally devoid of blood after a UFO mutilation. (But let us not get "paranoid"!)

VOLPE OPINION: Lynn Volpe (since she has never seriously studied Reich's work) considers it another "contradiction" that the effects of a UFO can be both desiccating to soil & plants as well as fortifying. Experiments with oranur (not the normal orgone, Ms Volpe) prove that small amounts of oranur push growth in plants; large amounts kill growth. Comparing this to rainfall--gentle, prolonged rains are beneficial to crops; massive inundations kill crops dead! Volpe thus cites UFO landing cases where sometimes crops are killed, and sometimes stimulated. And, of course, not understanding orgonomy, she considers this a "contradiction," when it is simply a matter of her own ignorance.

VOLPE OPINION: "Pete...be careful not to get 'wrong consultation' or to lead people into paranoia and suspicion..."

REFUTATION: What is really disturbing Ms Volpe is Reich's and my "Hostility Hypothesis." She wants the S.B.I. to have the "right" consultation--i.e., the kind of "consultation" with which Volpe can agree. Fine. Let us see some tangible, scientific facts, and I'll be the first to agree with the "Brotherhood of Saviors" coming to Earth to "Save Mankind" from its manmade hell. Yes, we could believe Meier & Genesis III Productions; or do you prefer Laura Múndo? Or perhaps Uri Geller? Or Truman Betherum? Or George Van Tassel? Then there's Dr. Leo Sprinkle who believes the Spacemen are "tapping our heads to get our attention"! (Tell that to Capt. Mantell, or Valentich, or scores of other pilots who were killed or 'vanished'--or tell it to the 10,000 cows, horses, sheep, dogs, and chickens who have been horribly mutilated, many while still alive!)

And what about the greatest general America ever had, General Douglas MacArthur? Was he, too, "paranoid," Ms Volpe? Are all the Nations of the world "paranoid" for refusing to reveal to us the facts regarding these godlike "Space Saviors"? At least the S.B.I. has the courage to face facts, for which they should be commended, not condemned.

27 YRS.

AFTER 27 YEARS OF PUBLISHING AND EDITING THE FAMOUS "Zenolog" UFO MAGAZINE, EDITORS FRED & PHYLL DICKESON ARE stopping all other further reproduction. The SBI is truly sorry to hear that ZENOLOG will be no longer. The contribution of the New Zealand magazine, which quickly aspired the country's largest UFO quarterly, was an asset to UFOlogy.

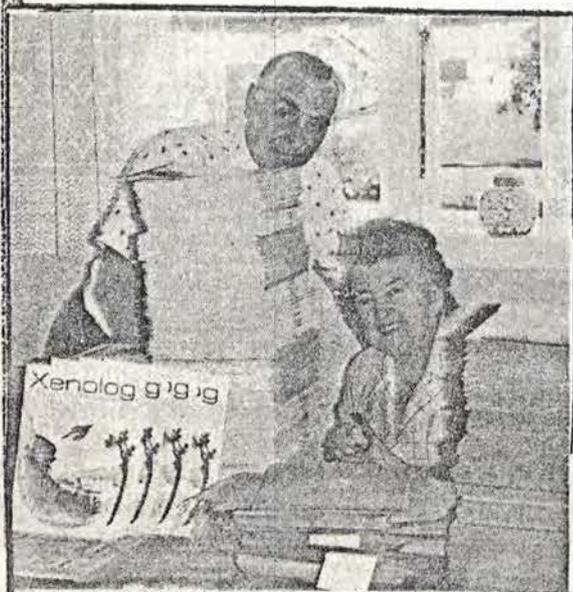

IT DISPLEASES US THAT AN EXCELLENT SOURCE OF UFO INFORMATION WILL NO LONGER BE PRESENT FOR DISSEMINATION AMONGST UFO RESEARCHERS AND MANY WORLD

ORGANIZATIONS. HOWEVER, IT IS UNDERSTOOD THAT FRED & PHYLL DICKESON ARE NOT DEPARTING UFOLOGY ALTOGETHER. THIS SHALL LEAVE MUCH MORE AMPLE TIME FOR THEM TO COMPLETE A BOOK THEY HAVE BEEN WORKING ON AND ALOT OF OTHER ESSENTIAL EFFORTS IN ORDER TO ENLIGHTEN THE PUBLIC ON THE UFO PHENOMENON. All of us at the SBI, and our affiliated organizations around the globe thank the Dickeson's for their successful contribution in attempting to unravel the UFO enigma. We look forward to future correspondence and learning of their future endeavors & reading their book upon completion...

NEW BOOK - Paperback.

"ALIEN HONEYCOMB" by John Pinkney & Leonard Ryzman

PAN BOOKS, Sydney (& London) 1 Castlereagh St. Sydney Australia.

Copies of the book recently arrived from Australia and Auckland - but with no indication of the price, for New Zealand but is \$3-95 Australia. Readers are advised to watch local New Zealand bookshops for its appearance or ask for copies.

See Picture Page in this issue for an insight into some of the contents of this interesting, thought provoking book.

Disclosures in its 167 pages reveal a possible UFO explosion in early 1968 which scattered strange honeycomb-like material (not of this world) over a vast area according to evidence unearthed by the authors.

This interesting book reveals information for the first time in 1980 of the strange finds and events in Greenbank, Queensland Australia.

---"When the richly-colored UFO exploded over a vast, empty property in Queensland, Australia, its component pieces were scattered for more than three kilometres.

Most of the wreckage - strange, intricate, eerily beautiful - is now held by the United States Air Force in maximum security vaults.

But a few pieces of the craft were retrieved by private investigators.

These pieces of the craft contain unknown elements and configurations that will present science with new, fundamental problems.

The nature of those remains now raises disturbing questions for mankind."

EDITOR'S NOTE: Mr. John Pinkney of Australia is cooperating with the SBI via our own Australian Foreign Representative/ Investigator THOMAS VAN ANDEL. Word has been received that each shall share the UFO case load in Australia and at the same time, exchange data and views on the subject.

1981 Could be the year!

"THE WASHINGTON FLAP-FLOP", by: Field Investigator/Artist John LaRocca

ONE NIGHT SOME SAUCERS BUZZED D.C.,
AND LIT THE SKY FOR HOURS,
WHILE AIR FORCE BRASS LOCKED ON THEIR BLIPS,
THE PREZ' HOT-LINED THE POWERS.
THE AIR COMMAND SENT OUT THEIR BEST,
WITH ORDERS TO, "GO GET 'EM!"
BUT SOON FOUND OUT THEY COULDN'T CAUSE,
THE SAUCERS WOULDN'T LET 'EM.
THEY ZIPPED ABOUT THE RADAR SCREENS,
AT SPEEDS THAT WERE UNCANNY,
AND SHOWED OUR ACES, WHAT THEY TOOK
TO BE A SAUCER'S FANNY.
OUR GENERALS RUSHED TO THE SCENE,
ALL SHOUTING FUTILE ORDERS,
AND CALLED UPON OUR SUPER BRAINS,
TO SAY WHAT CROSSED OUR BORDERS.
THE EGGHEADS THEN SCREWED UP THEIR BROWS,
AND TRIED TO LOOK OFFICIAL,
WHILE IN A UNIFIED RELEASE,
GAVE VIEWS QUITE SUPERFICIAL.
BY MORNING ALL THE MEN OF STATE,
HAD GOT THEIR HEADS TOGETHER,
AND ISSUED, THEN A CLASSIC NOTE,
"WE BLAME," THEY SAID, "THE WEATHER."
THEN MATHEMATICIANS SOUGHT TO SOLVE,
THE UFO EQUATION,
WHILE SAUCER MAGS, IN BIG BOLD TYPE,
KEPT BANNERING, "INVASION!"
AND NEWSMEN OF THE SAUCER SCENE,
WERE COMING UP WITH PHOTOS,
A BUNCH OF BLURRY BLIPS ON FILM,
UNFIT TO PRINT IN ROTOS.
THE AIR FORCE, THEN OF BLUEBOOK FAME,
WITH A SINGLE-MINDEDNESS,
CONCLUDED THEY MUST CLEAR THE AIR...
AND "STONEWALLED" THE WHOLE DAMN MESS.
BUT, SAUCER SIGHTINGS DIDN'T STOP,
ENCOUNTERS-LIKE NEW DRUMMERS-
HAVE OPENED UP A "SAUCER GATE",
THAT WON'T BE STILLED BY "PLUMBERS!"

**Lecture for the House of Lords' UFO Study Group
in London on the 15th of July 1980**

Honoured members of the House of Lords' UFO-Committee. I want to express my thanks to His Lordship, the Honoured Earl of Clancarty, for his invitation to me to come and give you my points of view on the controversial UFO-debate.

I am aware that many prominent lecturers have appeared before you already, among those my two friends, Colman VonKeviczky from the United States of America and Mr. Raymond Drake from this country. Mr. VonKeviczky represents so to speak the hawks of UFO experts and Mr. Drake the doves.

Most of the UFO experts around the world have their own points of view as to what some of the many unsolved questions in UFOLOGY might be, although most of them agree that UFO's - Unidentified Flying Objects - and Flying Saucers, which need not necessarily be the same, often are the same.

In a short lecture like the one, I am to give you now, it is not possible to touch the very broad spectrum

of details making up the present picture of the UFO situation, and it does not allow to dive effectively into either technical or cosmic details or viewpoints.

I have therefore chosen to touch the very important question in UFOLOGY to-day: Are the so-called Unidentified Flying Objects physical objects or are they paranormal appearances?

At this point I must tell you, that I have had more than 50 experiences with UFO's on the physical level myself. I have seen, how they have reacted in order to avoid the result of my instructions to intercepting pilots, I have had them holding in the approach lights, I have had a touch-down on the end of the runway, I have had a huge ship holding right in front of my villa, and I have had them pass my car at close quarters, and I have seen one land.

But I have also had paranormal experiences - once, as people were searching for a little boy, I could tell them, where they could

find him - drowned - and they found him, exactly as I told them. I often am aware of things before they happen, and mental telepathy is quite familiar to me. So you see, I have so to speak one leg in both camps.

Now to the question we are going to talk about today, whether the Unidentified Flying Objects are physical or paranormal, my position is very clear, as it has always been during the 23 years I have worked in this field.

I find the whole UFO-business very simple in its origin, but earthly shortsighted, financial, political and other worldwide interests have complicated the whole affair.

Very simply expressed - my personal view is - that UFO's are physical spaceships from other planets and that they and their crews of highly advanced human beings of flesh and blood have visited us from as far back as this planet has been fit to live in.

When the first sightings were re-

ported back in the middle of World War II, the world was unprepared and completely ignorant of what this could be. Very, very few individuals had, at that time, tried to interpret available old writings, including the Bible, to have any relationship with visiting space ships from other worlds.

In 1952, then, we got the first report of a contact with a crewmember of a landed Flying Saucer, and many similar reports followed in the years to come. Of course, many such contactees have been found fakes, but quite a number we have not been able to refuse, and most of them are not publicly known.

Now, soon researchers started to write about the connection between the Angels mentioned in the Bible, the gods mentioned in ancient writings and the Unidentified Flying Objects, and it became very clear that what was going on now was not at all something new, it actually had happened many times before in the history of man. It became obvious that our Bible was a report on an advanced civilization visiting Earth, that the Inca-culture was created by space visitors at the same time as other space visitors established the Middle East cultures and constructed the big pyramids to work as electrical power plants - receiving the solar light, transforming it into electricity and sending this power around the world from pyramid to pyramid by means of a laser-beam system.

And these visitors worked in Europe and in Asia and in North America, South America and so on. And all this discloses one thing - that the visitors were physical human beings and that they worked among mankind as such. They were very advanced - so advanced, in fact, that the people around the world in the areas where they worked called them gods. Through their advanced science they knew nearly everything, so no wonder they were called gods.

So they lived on Earth and established culture after culture, left the Earth and came back to Earth, left the Earth and came back and so on and so forth through thousands of years. If you read one of the newest books dealing with this side of man's history, *THE AKAKOR CHRONICLE* you will understand a lot, which formerly was hidden to your imagination. Please allow me to read some passages from this book:

"From the city of AKAKOR the gods ruled over 362 million peop-

le, who lived in cities connected with each other by means of underground tunnel systems. These tunnels had artificial light coming directly out of the wall and automatic ventilation. The gods had ships that could fly faster than the birds, and they could sail without sail or rudder by day as by night. They possessed magic stones, through which they were able to look over huge distances. They could see cities, rivers, mountains and lakes. Whatever happened in the heavens or on Earth would be reflected.

The gods came to our tribe for the second time in the year 3.111 B.C. The first time they arrived was assumed to have been around 13.000 B.B. when they came with 130 families.

On the second arrival the two gods Lhasa and Samon brought their two families. Lhasa stayed with us, and Samon went towards the east, where he established a tremendous civilization by a big river on the other side of the big waters towards the east.

The construction of the city of Machu Picchu is one of the great events in the history of our people. It is fenced in with secrets, which are for ever hidden in the steep towering Moon-mountain, that protects Machu Picchu.

Lhasa was often seen on his way in his flying disc. He visited his brother Samon - he flew to the immense empire to the east and he used a strange vehicle that could move over waters and mountains.

In AKAKOR we only remember Lhasa's brother Samon and his empire through the gifts he gave to Lhasa and through writings on paper rolls and a green stone which he was given. Our priests keep these things in the holy underground temples in AKAKOR together with Lhasa's flying disc and the strange vehicle that can move over water and mountains. The flying disc has a colour which shines like gold and is of a metal we don't know of.

Its form is like a drum and it is as high as two men on top of each other and ever, as wide. It has no sail and no rudder, but our priests tell us that Lhasa could fly faster than the strongest eagle and manoeuvre as easy in the clouds as a leaf in the wind. And the other vehicle is even as mysterious. It has seven legs carrying a silver bowl. 3 of the legs are pointing ahead and the four others to

the rear. They are movable and at their ends you find rolls the size of a water lily.

Lhasa ruled his empire for 300 years, then he returned to the gods. He called upon the eldest and the high priests and handed over laws and regulations. He ordered the people to follow the laws of the gods. Then he turned towards the east and bowed towards the rising sun. Still before the first beams of light hit the holy city, he climbed the Moon-mountain, high above the Machu-Picchu, and left Earth for good. He came from the stars, he left for the stars.

When the time of trial was over Tatunca Nara, the present chief of our tribe, he was taken to the secret temple apartments in underground AKAKOR very early in the morning. Tatunca Nara speaks:

Dressed in the golden dress of Lhasa, I entered a broad staircase which led me into a room, which I cannot tell whether it was small or big. The ceiling and the wall had a bluish colour making the room appear seemingly without beginning or end. On a formed stone I found bread and water, the signs of life and death, and after instruction from the High Priest I knelt and ate the bread and drank some water.

There was a deep silence in the room, until suddenly a voice was heard coming from all directions ordering me to go to the next room. It looked like the solar temple. Its walls were covered with many strange tools, which were glowing and shining in many colours. Three plates which were built into the floor, glowed like hot iron. For some time I watched these strange tools, then I heard the mysterious voice again. It led me further into a third room. Its sharp light dazzled my eyes to such a degree that it took quite some time, before I then saw, what I shall never forget.

This mysterious light came directly out of the walls, and in the middle of the room I saw 4 transparent blocks of stone. As I moved closer, I saw that 4 mysterious creatures were kept there. 4 living dead. 4 sleeping human beings - three men and one woman. They were lying in a liquid covering them halfway. Nobody knows why these 4 gods are sleeping in the underground apartments of Akakor." End of quoting from the book.

Now, here we receive knowledge of many interesting things.

1. It is evident that there is some kind of electrical light coming out of the walls.
2. A highly advanced ventilation system is in work.
3. Radio and TV is installed.
4. The 4 sleeping beings are probably some kind of power supply.
5. Lhasa worked on Earth for 300 years before he left. The information from George Adamski that space people live between 300 and 1000 years fits very well.

Maj. Ret. H. C. PETERSEN address before the First Intl. UFO Congress in Acapulco, Mexico

Now, one thing is proven through all the many available reports on space activity in our atmosphere from the oldest reports from ancient times to the first reports in our time, and that is that - the visitors were and are human beings able to live among us - without recognition if they prefer. Just to take an example, one can read the following in the Bible: Beware of hospitality, because through that some have, without knowing it - been visited by angels. So angels must look like normal human beings.

This was the situation, as the vi-

sitors came back once more in the middle of World War II. At that time we didn't know what they expected to find or gain, but today it is obvious to me that they have come to watch over the situation and to exercise many special tests as to stop engines, black-out cities and areas, paralyze people, teleport objects, animals and people and so on, all with the purpose of being able to take over control one day, when the world powers push the buttons in an attempt to destroy each other and thereby endangering the whole world and life on this planet. A few movements from their side, and the visitors will have full control over the whole world.

The world does not see the writings on the wall - because the silencing politics executed by certain circles have brainwashed the world to believe that Flying Saucers are something different from, what they really are.

You have all seen, how CIA and KGB and your own Intelligent Services have reacted against positive UFO-information being released to the public. At the beginning they stultified people who reported to have seen an UFO. Later they made regulations and threatened and frightened people to stop reporting sightings, landings and contacts.

Oddly enough, all these efforts failed. Scientists and astronauts from NASA left NASA and told about Flying Saucers on the Moon, in Space, and on Earth. Policemen talked and told about landings and contacts. Pilots and radar operators talked and told about their experiences, and the man in the street read books about Flying Saucers and talked about Flying Saucers.

The silencing groups wanted this stopped, no matter how.

The Condon Commission at the Colorado University was one new effort to try to stop the common interest in the UFO-matter, but the project failed, and when the public learned that prof. Condon so to speak was paid to make up his mind and deny the very existence of UFO's still before the research was launched, the interest grew even bigger.

Then the silencing powers launched their so far most dangerous weapon - another scientist, who had a long and good reputation in scientific circles and in the United States Air Force where he had worked for many years with the task to explain away all UFO-

reports. The man is dr. J. Allen Hynek.

Suddenly he retired, and from being a person, who had been able to explain away all UFO-reports, he now suddenly declared that he now believed that UFO's exist and that he wanted to co-operate with UFO-organisations all over the world.

Together with the French astronomer, Jacques Vallée, he slowly gained foothold in UFO-circles and in the press all over the world, claiming their interest in co-operation and public information, but at the same time convincing these groups, scientific circles and readers of newspapers and magazines that UFO's are a reality we have to live with, but that Flying Saucers are created by science fiction writers. And strangely enough, they succeeded.

So today Flying Saucers, physical space ships from other worlds, which have operated in our atmosphere and on Earth itself through thousands of years, are reduced to the science fiction regions and in existence are now only unidentified flying objects.

As dr. Hynek puts it: "UFO's are real, I believe, but it is a phenomena which must be assumed to belong to the paranormal regions. That they should be objects coming from somewhere outside our planet as some people claim, is pure nonsense."

This special Hynek attitude has created, what it was expected to create, and that is:

1. Confusion and loss of interest in the subject among the ordinary people.
2. Put prominent witnesses, for instance pilots and other experts, to silence, because these people don't want to be ridiculed.
3. Create conflicts among and between UFO organizations and UFO groups - just look upon the situation in England today, where most groups are in opposition to each other. And so it is all over the world. Hynek and Co. have succeeded.

No doubt, that paranormal incidents take place today as they did through the ages, but one thing is for sure - the Angels who visited Abraham before the destruction of Sodom and Gomorrh, the Angels who visited people of Biblical times, the gods in ancient cultures in east, west, south and north, the beings who contacted George Adamski and the beings who are now contacting people all over the world,

are not paranormal - they are physical human beings and they will remain physical, regardless of how many characters as Dr. Hynek are trying to tell people the opposite.

I have the whole time spoken about physical objects and physical space beings, and at the same time we all know that many people experience paranormal sightings, that strange abductions occur, executed by strange creatures and that some 20 cases are known, where space ships have crashed and where dead crewmembers have been found to have a different kind of flesh than the human flesh, and that the fluid in their veins is not blood. What is the explanation for this, because it does not fit into my theories at all.

Well, as far as the paranormal sightings and the strange abductions go, I believe that this is all man made - made here on Earth to create confusion and fear among the people, interested scientists, and UFO groups.

Please note these facts:

Whenever you hear of an abduction case, the general story is the same. The people in question are out for a walk or a drive, when they all the sudden see a bright light appear. They stop to watch and don't remember anything more, before they suddenly find that a certain time has passed, and that they are without memory of that period of time.

Soon they get nervous, and finally they end up with a psychiatrist, who via hypnosis reveals that these people have been abducted, and that they have experienced this and that. Not in one single case have such victims experienced the same thing. The creatures are always some who have never been reported before, and the space ships all appear different. Strange, indeed.

Yes, it is strange, and please remember that this is all new - it did not happen before - say - 1960, which points in the direction of something man made.

What could possibly be the explanation? Look, you all know that certain of our radio frequency bands have been jammed by a terrible noise of Russian origin. Many countries, including England and Denmark, have complained to the Russians, who answered that they were testing a new type of radar, and that the jamming would soon come to an end.

Nevertheless, the noise is still there, and today it is believed that the Russians have constructed and erected two *TESLA* Low Frequency

transmission stations - one near Riga and one on the peninsula of Krim for the purpose of altering the climate in Siberia. It is estimated that the effect so far has been, that western Siberia has a 4° higher temperature than before the stations started working. A side effect is that Canada and the United States have got extraordinary dry summers and wet winters.

Articles have been written, where the two stations are blamed for a wave of suicides taking place in certain areas in the United States, and if all this is true, it shows us, how a power, created by a machine, can effect the human brain and the human environments.

Similar effects on the human brain and actually also on nature can be created without machines. Again we all know that certain people hold and control strong mental powers. Earlier such powers were mostly expected to be found in religious circles, but today such powers are used in circles all over the world.

So today we have machines as well as individuals or groups of humans, who hold and spread powers, which can affect the human brain. Very little imagination is needed to imagine, what could happen.

I believe that the silencing group - whoever they are - when recognizing that their efforts to stop the general interest in the UFO-question had failed, turned to other methods.

I believe that all abductions are man made paranormal incidents. One could imagine that a force field, that can influence certain people or groups of people and charged with certain mental influences, are created by machines or by human beings and placed in certain areas, one time here, one time there. If a person susceptible to influence from this source happens to run into the area with the force field, he, she or they are automatically hypnotized to park their car or to do this or that, which is suitable for the situation. Mentally they are then infected by an idea of abduction, where the final conception depends of the mental condition of the person in question. Later when under hypnosis by a psychiatrist, this special story is revealed. It has only happened in the subconsciousness of the person or persons.

Objects can be moved by mental power, and much more can be caused by the human mental power, so if the results or effects of

all this is called an UFO-activity, the confusion is complete.

And talking about small crewmembers it is my firm belief, that they are robots. In our world today we have created various robot types to different tasks. Our visitors, who are thousands of years ahead of us in evolution, also create robots, but, of course, these robots are advanced to suit the purposes of these people's high state of development. So these robots are created as close to the real humans as possible. They are creature of living substance, but without a brain of their own and without a soul. They are artificially created and are nothing but robots.

It is often reported by contactees that they have seen such small creatures in the bigger spaceships, apparently serving as crew members. That is, of course, the explanation for the many different shapes of robots, and this again is the explanation for many of the reported strange crewmembers of landed spaceships. They are robots executing special tasks.

And then we are once again back, where we left the trail - spaceships are physical objects manned with human beings, the gods or angels or what people all over the world has called them through the ages - or they are manned with robots.

Abductions and many paranormal incidents are artificially created by machines or by man for the purpose of confusing and frightening the common Earth man and of leading astray interested scientists, whose interest could be dangerous.

Therefore, what is needed in the world today are women and men who dare speak up, and who have the courage to fight those circles that try to misinform people into a darkness similar to that of the middle ages.

But this is very difficult. As long as the UFO's were Flying Saucers from other planets, the UFO-groups worked beautifully together, and one day they could have become a powerful group. Hynek spoiled that.

Dr. Gairy, the former president of Grenada, tried to get something started through the United Nations, but U.S.A. delayed him in his endeavours, Hynek came into the picture, and finally Dr. Gairy was dethroned in a coup, and this made an end to his possibilities to fight for the truth to be given to the world.

After this, it is evident that one single person, a group of ordinary people, or a group of scientists,

who are employed and get a salary, can do *NOTHING!* Only governments or groups working close to governments, but who are free and independent can do something.

What should be done, is to claim all secret reports and information, withheld by various countries, armed forces, intelligence forces, or where it is under cover, released and published under control of a group of modern scientists and UFO-experts (not Dr. Hynek, though).

This group should work freely, independently and openly, receiving reports and other information from equally qualified national groups throughout the world.

The purpose for this should be:

1. To try to establish contact with the visitors.
2. To inform the United Nations and all member states of the information gained through these efforts.
3. To get the world to understand that a new way of life is necessary to avoid destruction through wars, starvation, illness, pollution, drugs, and crime.
4. To start a new educational system - a new educational program starting right in the kindergarten to learn people to live for the positive things in life.

It would, of course - if at all possible, take a generation or two to get all this working, but as soon as people get proof that we are visited from space, and that they can see the results of their way of living, we are already halfway. Things will be much easier to handle, because people will start thinking on their own and will be able to see the possibilities of the new theories.

Speaking like this make me almost feel like a preacher, which naturally is not my intention - on the contrary - because, what the world needs, are men and women who can free themselves from the tight strings of religion and politics, from narcotics and from alcohol to be free human beings to claim their freedom and fight to get it.

I agree, this is to go far, but it ought not be. If you look upon the world from 13,000 B.C. when the space people came to Akakor for the first time, we must confess that we have reached nothing. We have managed to fight 2 world wars and numerous other wars in our century so far, and chances for a third world war are bigger than I like to think of. And how many thousands of wars have we had on this planet before our times?

No doubt, our visitors are with us for some reason, and it could be to try to establish contact with the world powers, yet this has not been possible so far, because this time the world has got something new which the visitors must respect. Our world has got something called money.

We live and we die for money - money rules the world, and money is behind 99.9% of all our activities.

Or they could have come to watch our behaviour on our way to another destructive war.

Or maybe they have come for some other reason, although I must confess that I cannot think of any.

If our world had the will and could get the permission from the ruling powers, we could in just a few years have free electric light in all living quarters all over the world - the instructions are to be found in the Egyptian pyramids. And if we search in other parts of the world, we could learn to fly in space, how to stay healthy, which means to live longer and so on. Our planet would be happy.

But we are not allowed to do so, because whatever we do, means money, and that is the only word that counts. So with our ears ringing with still louder cries for money - fewer and fewer really get any money and vast masses have none. They are left to die from hunger and illness.

It could be objected that it is nonsense to bring this into a lecture dealing with unidentified flying objects, which science can prove are nothing but paranormal incidents whose origin is not known so far. I don't agree - I think it should be mentioned.

It is my belief that we could have avoided, what is now awaiting us around the corner, if we had established contact with the visitors as far back as 1950 - 1955. It was possible then, as it is now - if we wish so.

I don't speak of a coming war, because I cannot predict, but I can see, what you can also see, and that is that we and the whole world will very soon be in serious trouble because of the already mentioned problems with pollution, starvation, illness, narcotics, alcohol and crime. This is what you and I can see, but what can our visitors see?

Shall we end this presentation quoting Tatumca Nara once more. If we remember that he is a primitive, uneducated Indian from the high Amazonas, at present chief for his tribe, we may wonder how his mes-

sage can speak to us from the educated part of the world. I normally don't give much of predictions, but in this case, it has touched me - how about you, can you remain untouched?

Tatumca Nara: Our priest has predicted that a terrible catastrophe will happen in the year of 12,462, which is in the year of 1981 after the white man's calendar. The prediction is written in our AKAKOR CHRONICLE like this:

«A terrible destiny is awaiting humanity. A storm will come up and the mountains and the valleys will shake. Blood will rain from the sky and the human flesh will shrink. Darkness will fall upon Earth, and the human beings will be without sense, without strength and without motion. There will be no way back, the bodies will fall apart and the woods will be filled with the shadows of those who bend in pain and are helpless. At that time the gods will return, and a new world will arise where man, animal and plant will live together in a holy treaty.» End quote.

This could be, why the visitors are with us, but let us hope, that they are here to establish contact to help us out of our wrong way of progress. If that is the case, there is still hope that Hynek will lose the battle, and that the visitors will be identified as normal human beings from other worlds with whom the world can co-operate.

This is, what I fight for, and I hope that your group can do something to turn development away from the present wrong direction.

Thank you.

Fund Raising

THERE IS A BETTER WAY

We are not like other UFO organizations, who repeatedly ask their memberships for monthly contributions of anywhere from \$1.00 to \$25.00. INSTEAD, the SBI shall ask its members to help us locate sources, from either corporate or foundation persons, who are able & willing to donate sizeable contributions in order we may carry out proposed projects & research. Our funding is critical & limited and this is the reason we ask everyone to look & ask around. These persons or firms shall receive a tax exemption and is a great idea for them to aid us while receiving a tax shelter from the IRS. THERE IS PLENTY OF MONEY OUT THERE, FROM COMPANIES LOOKING TO GIVE IT AWAY AND WE DESPERATELY NEED SOME. WE URGE YOU TO HELP US LOCATE IT AND INFORM US. Thank you for your co-operation.

REMINDER ★ THE CHOICE IS YOURS

We ask everyone seeing an article in a newspaper or magazine in reference to the UFO phenomena or a related subject, to PLEASE MAIL US A COPY OF THE ARTICLE or THE ORIGINAL. Full copyright credit shall go to the donator. Do your share--participate by helping us inform our readers. Thank you...

The world has already heard plenty of eye-popping stories about meetings with unidentified flying objects (UFOs) and their extraterrestrial crews. What is the cosmonauts' view? What unfamiliar phenomena did they encounter during their flights and is a meeting with beings from other planets actually a probable event?

UFOs Through the Eyes of Cosmonauts

from Accounts of Space Pilots Published in the Magazine *TEKHNIKA-MOLODYOZH*

Drawing by Mikhail SHULMAN

Georgi BEREGOVY

(Pilot of spaceship Soyuz-3 on a four-day flight in October 1968)

Lately we hear far too much UFO talk. Some people claim that they have seen UFOs in various places. But I wonder why no cosmonaut has ever come across this phenomenon, despite fairly long sojourns in outer space.

On the other hand, one cannot assert that man is the sole intelligent being in the boundless universe. This is like imagining that a whole immense forest has only one denizen - one single bear!

What would I do if I chanced upon members of another civilization?

I am deeply convinced that only a peaceful, friendly attitude

can form the basis for real contacts. If I met a being from another planet I would make every effort to obtain his good will.

Georgi GRECHKO

(Performed the first 30-day space flight in 1975. From December 10, 1977 to March 16, 1978 spent another 96 days in outer space)

Before blasting off for outer space the cosmonaut always expects to encounter something unknown. And, not infrequently, the reply he hears from the earth following his reports appears to support his anticipations: "Incredible!" Naturally, no unusual thing observed in outer space has anything in common with nonsense like little green men or

their flying saucers. Such things are above all scientific phenomena.

We heard an "incredible" in response, for instance, to our report that we were watching a second emission layer in the atmosphere. Scientists knew that it exists at a height of 350 kilometres but did not suspect that it could be observed with the naked eye.

The hypothesis of non-earthly civilizations is in the believe-it-or-not series. I for one assume that other civilizations exist and believe in the possibility of coming upon intelligent beings from other worlds. I am inclined to think that it will lead to a revolution in natural science.

Yevgeni KHRUNOV

(On January 15, 1969, as a crew member of spaceship Soyuz-5 made an orbital flight with a subsequent exit into outer space)

I came across only one extraordinary phenomenon: following the blast-off our spacecraft became surrounded by a swarm of luminous particles. True, they had also been observed by many previous cosmonauts. We mentioned this point in our reports but the first public mention of the phenomenon was made by American astronaut John Glenn, which is why it has been dubbed "the Glenn effect". Later, these

particles were "caught" and found to be of earthly origin - dust and various bits of spacecraft material which now circle the earth.

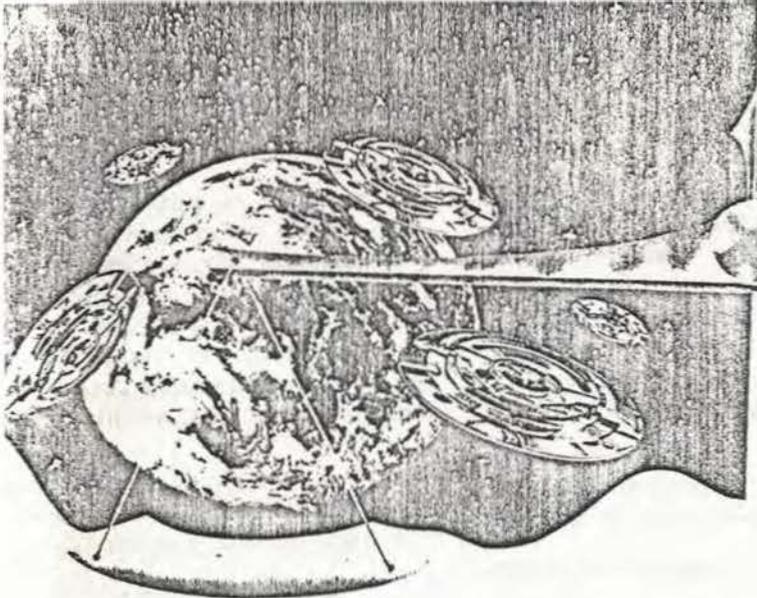

9

Is the presence of extraterrestrial civilizations conceivable? Of course. Before the uniqueness of the earth is demonstrated this assumption should be taken as quite legitimate. As regards UFOs, their presence cannot be denied: thousands of people have seen them. It may be that their source is optical effects but some of their properties, for instance, their ability to change course by 90 degrees at great speed, simply stagger the imagination.

Pyotr KLIMUK

(On three occasions, in 1973, 1975 and 1978, participated in orbital space missions, the longest lasting 63 days)

During one of the flights we noticed that our vehicle was being accompanied by some object. Taking a closer look, we saw that it was made of metal and was of an obviously artificial origin. We asked each other all sorts of questions. However, no "flying saucer" thoughts occurred to us. Subsequently, it was found to be a completely earthly, prosaic object - a waste container which had separated from our own craft. In other words, nothing sensational ensued.

I don't think there are any extraterrestrial probes on or around our planet. This is another way of saying that if some outsider knows about our existence, which I doubt, at least nobody is watching us.

I am by no means suggesting that intelligent beings other than man cannot exist. The laws of matter are uniform and, possibly, somewhere there are planets which are very much like our own.

I have already said that I don't think any outsider is watching our planet. This makes the chance of meeting extraterrestrial beings extremely slight. However, some day in the future it will take place. It will be a first encounter, without any incognito agents. It will represent, first, a meeting of equals and, second, the simplest method of gathering

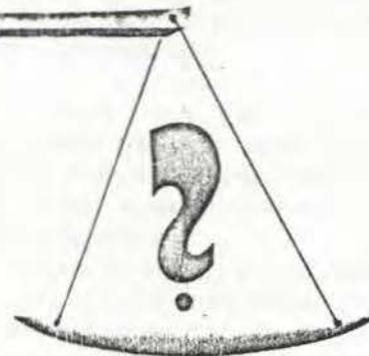

the greatest possible amount of information about each other.

Yuri GLAZKOV

(As a flight engineer worked aboard spaceship Soyuz-24 when it orbited the earth with a subsequent docking with station Saljut-5 in February 1977)

Is a meeting of cosmonauts with non-earthmen a believable event? I don't know. However, I assume that man will hit upon traces of other civilizations. Incidentally, according to an interesting hypothesis, 74 million years ago there was a planet between the orbits of Mars and Jupiter. It was an old planet - one-and-a-half times older than the earth. But, most important, there was organic life on it. Evidence of this is the composi-

tion of the meteorites which fell on the earth. Some scientists believe that in the process of evolution life on that planet reached its

highest forms: there was a civilization there!

Possibly, the explosion was so sudden that no intelligent being could escape and the civilization disappeared forever in the boundless expanses of the universe.

A fragment of the planet reversed the rotation of one of Saturn's satellites, another was smashed into smithereens, which formed the well-known rings of Saturn. Yet another fragment of the lost planet passed so close to Uranus that it lost a considerable chunk which subsequently fell on the surface of Uranus. The impact made Uranus turn. As a result, unlike any other planet in the solar system, Uranus now "lies on its side" and its rotational axis is practically located on its orbital plane.

Finally, the kinetic energy of

the blown up planet was exhausted in the battle with the gravitational forces of other planets and the sun, and its fragment emerged on the orbit on which puzzling Pluto circles to this day.

I am approaching the most fantastic part of the story. Pluto - the ninth planet of the solar system - is precisely the main part of the vanished planet. And everything that has been discovered about Pluto to date tends to support this hypothesis.

The consequences of the catastrophe affected not just the "distant" planets. Our own earth also suffered. The reasons for the previously puzzling extinction of the saurians and other animal species 75 million years ago are now becoming clearer. Apparently, one of the reasons was an abrupt climatic change due to this cosmic catastrophe.

All this helps scientists study the earth's neighbours - the other planets of the solar system - from a new vantage point. It is vital that man visit these planets, in particular, Pluto. What will he see there?

Vance BRAND*

(A citizen of the United States, member of the stand-by crews of Apollo-8 and Apollo-13 and par-

* The statements by Brand and Stafford are retranslated from the Russian. Tr.

participant in the Apollo-Soyuz Test Project)

During the flight I saw interesting and at times even rarely beautiful things. However, I never came across any "unidentified flying objects".

Frankly speaking, I don't know what I would have done if I had met extraterrestrial beings, but presumably I would have displayed a combination of curiosity and caution. It seems to me that in this situation it is vital to report to the earth everything that meets the astronaut's eye so that people could form a definite concept about another civilization.

Some remote recesses of the universe must be concealing civilizations with a higher level of development than ours. That such civilizations exist follows from the probability theory but I doubt that man will encounter them in the near future.

Vladimir REMEK

A citizen of Czechoslovakia and research cosmonaut who made a space flight in 1978)

I suppose that some day man will meet representatives of other civilizations. But then, this idea was advanced by Konstantin Tsiolkovsky, the father of astronautics. He believed that there was a widespread cosmic phenomenon. And he held that an-

imate matter, like all matter, evolves from simpler to more complex forms: "The progress of organisms has been proceeding continually. Therefore man cannot be its conclusion." According to his hypotheses, intelligent beings of other worlds have considerably surpassed man in their development. This led him to make a detailed analysis of the socio-technological implications of possible contacts between man and non-earthmen.

Tsiolkovsky believed that, on reaching a definite level of social and technological development, any civilization would proceed to "spread throughout its own solar system as well as in the neighbouring ones." The scientist maintained that the cosmic spread of society was both possible and, still more important, necessary, and that this necessity manifested itself at a certain stage of evolution of any civilization, including earthly.

Mirosław HERMASZEWSKI

(A citizen of Poland and research cosmonaut who was up in space June 25-July 5, 1978)

I am disappointed. We did not encounter anything hitherto unknown while in space, although as a novice I had prepared myself psychologically for all possible new phenomena.

I must say that evidence of the existence or non-existence of

extraterrestrial probes on round-the-earth orbits is equally scant. I can't imagine that man is the only intelligent being in the universe. If a meeting with extraterrestrial beings does take place it should serve the interests of both sides. But in the case of a situation that would threaten a collision of interests, man would make efforts to avoid a conflict.

Thomas STAFFORD

(A citizen of the United States with four cosmic trips to his credit - second pilot in 1965, crew commander in 1966, Lunar Module commander of Apollo-10 in 1969 and crew member during the International Apollo-Soyuz Test Project)

Outer space gave me plenty of surprises, changing all my concepts about the earth. The sight of our little multicoloured planet with its fragile environment and unique life against the background of black outer space is an extremely emotional and instructive experience.

I cannot even imagine how I would behave if I met someone who came from the recesses of outer space. I only hope that he, or she, or it, would be friendly and communicative.

I do believe that there must be some form of life somewhere in outer space. I cannot believe that the most intelligent form of life

has developed on our planet if one considers what boundless prospects for the evolution of a civilization of a still higher order may have turned up elsewhere. Perhaps the absence of extraterrestrial beings on or around our planet reveals only that the universe is really colossal and that our earth will have to wait for a very long time yet before man discovers evidence of the existence of alternative forms of life.

Georgi IVANOV

(A citizen of Bulgaria, research cosmonaut and member of an orbital flight crew aboard spaceship Soyuz-33 in April 1979)

While aboard Soyuz-33 no unknown phenomena came my way. Most of what we saw while in orbit had been shown to us on earth as part of our pre-flight training - in classrooms, space simulators, the assembly-and-test building and the cosmodrome. Only it was life-size and without any conventions.

Extraterrestrial probes and beings?

In principle, I am positive that non-earthmen exist. Simply they have not yet reached the circum-global and circumsolar space. If I met them I would immediately say: "Welcome!"

We would no doubt find a common language because they

ould also be cosmonauts. And one cosmonaut will understand another both on earth and in space.

Of course, at this stage such topics cannot be discussed seriously. However, it is useful to speculate and exercise one's imagination.

Pavel POPOVICH

(Pilot-cosmonaut of the USSR and participant in space flights in 1962 and 1974).

The problem of meeting intelligent non-earthmen is reasonably topical, philosophically important and recently has even become urgent. I don't think that an interest in other civilizations is accidental. Today these questions preoccupy exponents of many scientific orientations. Naturally, there is no consensus of opinion. Nobody knows whether there is life on other planets. Some strive to demonstrate that it exists, others that it does not. The views and arguments of both sides carry little conviction. Tsiolkovsky believed in the existence of other civilizations and in the possibility of resettling mankind in outer space, thereby making it inhabited. So do I.

Vladimir LYAKHOV

(Pilot-cosmonaut of the USSR, spent 175 days in outer space -

from February 25 to August 19, 1979)

I remember the following episode. Two giant waves appeared to have collided in the Indian Ocean. The water mass buckled, forming a huge mountain, which subsequently acquired a cover of snow-white foam and vanished. What stood behind it still remains anybody's guess.

As regards non-earthmen and their probes, frankly, I am at a loss for anything to say. If they took an interest in the earth we would apparently have discovered some traces of their presence or activity in our 175 days in space. UFOs did not come our way. But then, if one watches through a porthole for a prolonged period expecting to see something specific one is sure to "see" it. Imagination can make anything under the sun look like UFOs. For instance, the space station's outer skin sheds tiny crumbs of its insulations. They dance and sparkle in the shade. Even with slight imagination one can take them for UFOs: after all, you cannot tell the exact distance to them. For example, a crumb is flying 10 metres from the porthole but the observer may think that the distance to the object is 10 kilometres.

However, if we ran into non-earthmen we would certainly try to do everything in our power to establish friendly contacts.

GRAY BARKER AT GIANT ROCK

By GRAY BARKER

GRAY BARKER AT GIANT ROCK By Gray Barker

In the fall of 1970, Jim Moseley, Barbara Hudson and Gray Barker flew to Los Angeles and attended George Van Tassel's Flying Saucer Convention at Giant Rock. Barker gives you a run down on famous "contactees" he met such as Van Tassel, Trevor James, Orfeo Angelucci, etc.

He describes them and their stories of meeting people from outer space. You almost feel you are right there with Barker under the hot sun on the desert. Ten UFO personalities are interviewed and their favorite sighting is described with a dramatic full page treatment by the noted UFO artist, Hal Crawford.

Also lavishly illustrated with photographs and other artwork throughout. A six-page section is devoted to strange writing, objects and faces that turn up in NASA photos of the moon and Mars, including an incredible map of the U.S. on the face of the moon. This book is Barker at his best! He has preserved the atmosphere of this and past conventions he has attended there so that UFO fans of the future can vicariously experience these fabulous meetings as if they were there themselves.

UFO WARNING

By JOHN STUART

UFO WARNING By John Stuart

First published in 1963, the first edition of UFO WARNING sold out quickly. Because of its shocking and terrifying nature, the publisher did not reprint this book. Things have changed, however, and students of the UFO mystery are more knowledgeable and mature. Also, a wave of strange happenings, similar to those described in UFO WARNING has recently developed, and sincere researchers should and must have this information.

So the publisher has decided to make a limited re-printing of what is probably THE MOST FRIGHTENING AND HORRIFYING BOOK ever published on the subject of UFOs. It tells the strange story of John Stuart, head of an Australian group, "Flying Saucer Investigators". He and his pretty co-director, Barbara, discovered what they felt was the secret of the discs, after which they were beset by strange occult forces and terrible warnings. Their failure to stop their work resulted in the appearance of a vile, lecherous monster. "UFO WARNING" will tell you what NOT to do in UFO research and what subjects to avoid, lest you too, be given the WARNING.

The ABC News Magazine

UFOs: An earth-shaking theory.

The answer to the UFO mystery might be found right here on earth. Sandy Hill reports.

THE DAILY NEWS,
02/19/81;

Host-Hugh Downs

DATELINE: USA---On February 19th, ABC-TV devoted nearly ½ of its one hour "20/20" program to the subject of UFOs. It is not important to mention who was on the 23 minute segmentation, nor is it important to summarize all the events. However, it is of the essence to note two very important factors: one, a program of this type, with its enormous notoreity, was finally discussing the controversial media subject of UFOs. Hosted by Hugh Downs (president of the NATIONAL SPACE INSTITUTE, inwhich the SBI is a member), we find point number two. The entire UFO segmentation concluded with these words, "To those of you who should have an occassion to sight a UFO, report it immediately. To those of you who should observe a UFO on the ground, STAY AWAY! UFOs can be and are at times dangerous." This reporter realizes that some UFOs "do not" present a danger. Yet, either intentionally or unintentionally, some UFOs have been documented as causing damage, illness, or injury to persons or property in many incidents. This reporter feels relieved to witness a new trend in UFOlogy and network TV. By the same token, I feel the concluding statement by Hugh Downs was appropriate in the sense that many people do not know or understand anything about UFOs or the background of its enigma; it is best for all concerned if normal layman stay away from any UFO that has landed rather than risk danger to themselves or anyone else.

DATELINE: Queens, New York-ICUFON HQs---Maj.(Ret)Colman Von Keviczky recently initiated, completed, and mailed a spectacular memorandum to President Ronald Reagan.

This PRESIDENTIAL MEMORANDUM will be presented for the first time anywhere in the next issue of the SBI REPORT. This exclusive and totally explosive report shall also be acknowledged and backed 100% by the SBI. A clip-out type petition shall accompany every SBI REPORT for mailing to the White House in order to show our support in the matter.**BE SURE NOT TO MISS OUR NEXT ISSUE...**

DATELINE: Fort Lee, New Jersey---**FOOD FOR THOUGHT...**Is famous UFO researcher Jim Moseley in the mist of preparing another spectacular UFO CONVENTION???We at the SBI certainly hope so, since Moseley has promoted and organized such conventions every year for the past 17 years, why stop now? If he is preparing another, where and when will it be held? If you're out there Jim, drop us a line a let us know...

DATELINE: Washington, D.C.---The article on left is a doozy!!! After reading it, you'll feel as though you just finished viewing the motion picture "METEOR." In retrospect, our government concedes the fact they have the technology to "knock-out" an asteroid in deep space, that is plunging towards Earth, after observing the object on their highly sophisticated radar screens. But, this same government cannot pick-up a UFO on that same radar screen flying/hovering directly over one of their SAC bases. I think someone is trying to pull the wool over someone's eyes. Another point to bring out is whether or not this "asteroid defense system" is being seriously considered to really "blow-up" asteroids or something else. Perhaps, UFOs??? This is not too hard to conceive when one remembers that our military strategy is based upon "SHOOT FIRST, ASK QUESTIONS LATER!"

DATELINE: McGuire AFB, New Jersey---SBI Int'l. Directors Mazzola & Fillow wish me to convey the following appreciation to a military man of 37 years and presently stationed at McGuire AFB, New Jersey where he is a senior Master Sergeant. "The SBI wholeheartedly is thankful for the grateful service and contributions of ARTHUR BLACKWELL, SBI Consultant. In conjunction with our gratitude, the SBI also thanks the Commanding Officer of the 107th ARGFG of the New Jersey Air National Guard. Were it not for their assistance in supplying necessary equipment for the investigation/documentation of our recent South Carolina UFO encounter, the documentation would not have been possible. Art Blackwell is an asset to the SBI in many ways and his friendship and continuing assistance can never be over emphasized. THANK YOU C.O. of the 107th and Art for your help and open-minds on the subject of UFOs."

DATELINE: SBI HQs, New York---This reporter has recently learned of two important items in reference to co-int'l. director JIM FILLow. One, Jim's wife, Margaret "Peggy" Fillow, is going to give birth to their second child sometime in April. We'll keep everyone posted on this event in coming issues. Two, Jim was injured at work and is being admitted to St. Peter's Hospital, New Jersey, on February 26th. There he will be operated on his leg and remain for about a week. He will then return home and remain in braces for several months. We all wish Jim GOOD LUCK with this major surgery and hope for a SPEEDY RECOVERY. (GET WELL cards for Jim can be sent in care of SBI HQs and will be forwarded to him)

Get set for star wars — U.S. is warned

THE POST, 02/17/81; CREDIT: SBI

From Post news services

WASHINGTON --Space program experts have urged the U.S. to be prepared to send nuclear-armed space craft to destroy any big asteroid threatening to collide with Earth.

The Advisory Counsel to NASA said any of 800 major asteroids now whirling through space would probably "wipe out the human race" if they smashed into the Earth with their pulverizing force.

In a newly released — and deadly serious — report, the Council said smaller space bodies, such as meteors, could destroy major cities upon impact or trigger a nuclear war by causing people to believe a surprise attack had just begun.

The report did not estimate the probability of the Earth being struck by a sizable space body.

But it said many scientists now believe such an Earth-asteroid collision caused the extinction of the dinosaurs some 65 million years ago.

The council said an asteroid 75 feet across — more than large enough to cause disastrous havoc — enters the Earth's atmosphere about once a century.

An asteroid colliding with Earth would likely produce a huge dust shroud that would block out the Sun, destroying plant life and ultimately mankind, the council said.

In consequence, the group urged the U.S. government to organize a "Project Spacewatch" to keep track of asteroids and meteors with powerful new telescopes.

Also, if necessary, the U.S. should send spacecraft

Asteroid 'could destroy Earth'

armed with hydrogen bombs to deflect menacing ones.

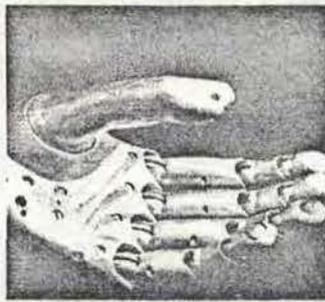

The craft required for such a mission must be able to attach itself to the asteroid, measure its location, then blast it off course by triggering its armament, the council said.

It added that such a mission could be done with existing technology and urged that the U.S. conduct a practice mission on an asteroid expected to approach Earth in 1985.

"Entire cities could be wiped out by smaller (meteors) and the density of cities is rapidly increasing," the report said.

"Of even more immediate concern is the possibility that an asteroid coming undetected, its impact an ensuing shock waves being mistaken for a nuclear explosion by one or more countries, could trigger thermo-nuclear war."

CARL SAGAN TOURS THE COSMOS • THE UNBREAKABLE CODE OF LIFE • A NEUTRON STAR • SHAWNEE TOMPKINS'S DREAM DIVERS FIND THE HALL OF MONSTERS • ROBERT COUSINS'S FUTURE

This holiday season give your special friends something *really* special. Give them the world, the universe, and beyond. Give them Carl Sagan and B.F. Skinner and Alvin Toffler dissecting the mysteries of the universe and the human mind.

Give them Ray Bradbury and Frank Herbert and Robert Heinlein creating imaginary worlds that have a way of becoming real. Give them thinkers like Stephen Hawking...planners like Buckminster Fuller...and doers like Harrison Schmitt.

Give them OMNI. OMNI is the magazine of the future that started a revolution in the way people view the incredible scientific and technological breakthroughs of the 1980s. It's the bold, graphic, plain-language science magazine that has become a forum for discussing scientific questions that both stimulate and trouble us... and a platform for those of us who believe our country must have more realistic policies toward science in general and space in particular.

A full-year gift of OMNI—12 thick, dazzling issues—costs only \$18. That saves you \$6 off the newsstand price and includes a handsome gift card to announce your thoughtfulness.

Next Year in *Omni*...your friends (and you) can look forward to such exciting and informative pieces as:

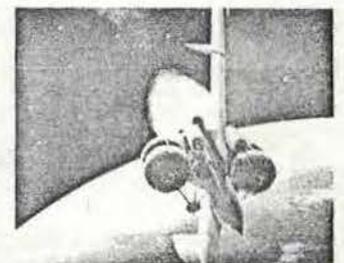

The Energy Puzzle. Year-long emphasis on the exciting new technologies that can end energy shortages starting with a special issue on *fusion*.

Robotics. Machines that move, talk, work on assembly lines and at the bottom of the ocean, make their own decisions, and do jobs that humans cannot perform.

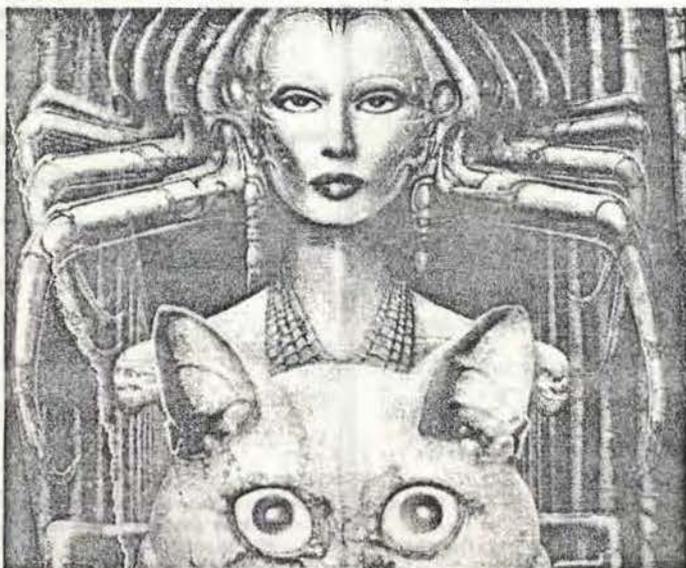

Genetic Engineering. From cloning to test-tube babies, from microbes that gobble up oil spills to new cures for killer diseases, the biological revolution is transforming our lives.

The New Space Program. NASA's space shuttle will reopen the High Frontier, taking men and women into orbit for new advances that will lead to solar-power satellites, lunar mining, and factories in space.

The U.N.'s Moon Treaty. It could be disastrous for Western space operations. We'll show you why, and how you can help to prevent this disaster from happening. Plus...award-winning science

Quantum Theory and SETI*

According to the special theory of relativity, no signal or influence can travel faster than the speed of light. However, Bernard d'Espagnat writing in the November 1979 issue of *Scientific American* described a series of experiments in which this basic tenet of modern science seems to be violated.

D'Espagnat explained that if certain subatomic particles are brought together by well-defined quantum mechanical procedures, they appear to exhibit influences on each other after they are separated again, with the influences occurring at superluminal (faster-than-light) speeds. In fact, five out of seven experiments conducted since 1972 point in the direction of this phenomenon.

Recent insights in the field of quantum physics seem to say that results derived from experiments conducted in a quantum mechanical context are in conflict with what d'Espagnat calls local realistic theories of nature.

In short, d'Espagnat's theories are basically "common-sense" viewpoints that (1) take the existence of an independent external reality for granted. This external reality, although independent of the observer, can be known through human sensory perceptions and (2) logical conclusions regarding its nature can be made through inductive reasoning processes. An essential part of this common-sense world view is (3) the principle of Einstein separability which states that no signal or influence can exceed the speed of light. The experiments in question seem to imply that one of the above three premises of local realistic theories must be false. Einstein separability is considered the most plausible candidate.

The experiments discussed by d'Espagnat are concerned with correlations between distant events and with the causes of those correlations. These unexplained correlations show themselves in several ways involving vari-

ous kinds of subatomic particles. All of these particles have had one thing in common — they have interacted with each other in the past in such a way that their future behavior in terms of the experiments in question is permanently altered. It also makes no difference how far these quantum-correlated particles may ultimately separate as long as no perturbing influences, such as other particles or radiation, are encountered along their paths.

In the preponderance of tests described by d'Espagnat, this past correlation relationship reveals itself in future experimental measurements as an influence which appears to occur instantaneously. In those cases where this "superluminal connection" did not appear, d'Espagnat attributed it to basic systemic flaws in the designs of the experiments themselves.

If future tests prove with certainty that this effect occurs instantaneously, does this mean that the principle of the finite propagation time of signals must be abandoned? According to d'Espagnat and most other physicists, the answer is no. In their view, these influences could not be utilized to transmit any useful information or signals, as can be done with electromagnetic radiation.

It should be noted, however, that this view is not unanimously held by all physicists. Dr. Jack Sarfatti, formerly of San Diego State University, and Dr. Nick Herbert, Director of the C-Life Institute in California, have both been working on theoretical schemes which purportedly could use these quantum correlated effects to transmit information instantaneously to any place in space and time regardless of distance. Although neither Sarfatti nor Herbert has achieved success thus far in these experiments, nor do they have much acceptance from the scientific community for attempting to prove the validity of their schemes, this controversy does show that the issue of superluminal propagation of information is not yet completely resolved.

If Sarfatti and Herbert prove to be correct in their revolutionary ideas, it would have a large impact on the Search for Intelligent Life in the Universe.

U.S. wildlife enters the Space Age

GOVERNMENT scientists are using satellites hundreds of miles into space to keep track of America's wildlife.

The researchers attach transmitters to endangered species, such as polar bears, so that their travels can be followed without disrupting the normal routines.

Every year, the U.S. Fish and Wildlife Research Center in Denver, Colo. makes 500 transmitters for dozens of species ranging from polar bears to pine mice.

To study the effect of oil exploration on the mating habits of polar bears, for example, the animals in Alaska were fitted with transmitters, in specially camouflaged harnesses.

A satellite, whizzing through space 650 miles above the earth, tracked one bear that traveled more than 1,000 miles in a year.

The bear's migration proved to surprised scientists that some polar bears found in Alaska and others found in Siberia are part of the same colony.

Other species that are tracked are grizzly bears, falcons, condors, sturgeon and salmon.

Bull killed by
laser beam

Rancher Bill Heath believes one of his best bulls was shot down by a laser beam -- possibly from a UFO.

"I'd say the bull was killed for research," Heath of Laguna Vista, Tex., said. "A clean, six-inch incision had been made in its side and the heart was missing."

"There were no jagged edges where the tissue had been sliced and no sign of blood. Everything seemed to have been seared."

"That bull was wild, no one could've walked up on him. It would have taken a helicopter to catch him out there, but the only tracks were his."

"It looked like he kicked once with his left hind leg and flopped over on his left side. The hole in his body is at a 45-degree angle, definitely the work of a laser beam."

Heath says buzzards refuse to touch the carcass, and his pet dogs won't get within 10 feet of it.

In the past Heath has lost other bulls, which have been mutilated, then drained of blood.

UFOs & monsters plague the 'Michigan Rectangle'

A mysterious window to the supernatural in mid-America has been the scene of many bizarre, unexplained UFO and Bigfoot events for more than 100 years.

So strange and bewildering are the events in the area of southwest Michigan that before the white man came, the native Indians called one body of water Magician Lake.

"There are too many reports from this small area over a long period of time to simply dismiss them as unrelated incidents -- or the ravings of crackpots," says David Fideler, a scholar who has devoted years to the study of the area he calls "The Michigan Rectangle."

"There's a veritable hotbed of supernatural activity in the rectangle."

Fideler, head of the Michigan Anomaly Research which investigates unexplained events, says the events may be traced to geophysical and electromagnetic disturbances.

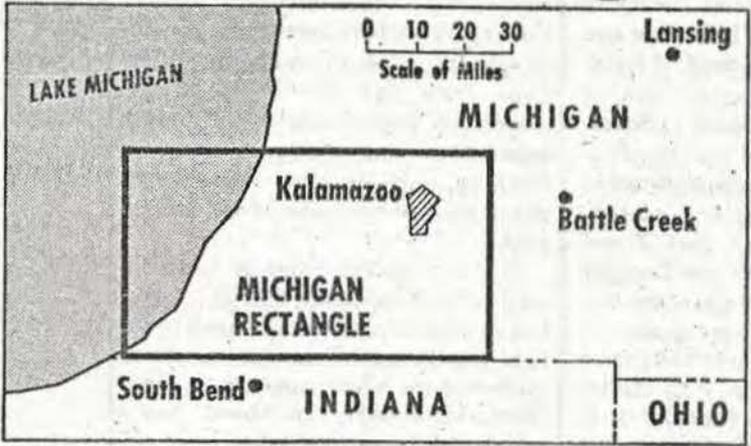

"The rectangle may be a center of 'window phenomena' -- in other words be a gateway from the ordinary world to the supernatural where unreality leaks into the ordinary everyday world," he says.

Among early documented reports of weird activity in the area are a rash of events in 1897 which began with a brilliant white light appearing in the sky.

A woman reported voices from above at the same time.

A panther-like animal which made a terrible noise, was reported and the following day a huge ball of fire was seen in the sky.

During April 1897 there were 10 reports of UFO type activity, a mystery airship was seen and about a dozen people saw a

mysterious light fly over the center of Kalamazoo. In nearby Sailor, Ind., two farmers reported encountering a Bigfoot, whose body looked like that of a man but was covered with hair.

In 1947 a mysterious panther-like animal was seen on several occasions and tracks were discovered.

In 1950 a mysterious ball of fire was seen in the sky and a DC-4 with 58 aboard was destroyed.

In 1959 there was a further Bigfoot sighting, one in 1962, and four in 1964 -- including one where four witnesses saw an apelike creature with brilliantly shining eyes and deputies later found 18-inch footprints in the area.

A motorist was also attacked by something that had red eyes, brown hair, and squealed. His automobile windows were shattered in four places.

In 1966 there were numerous UFO reports in the area, among them, one where witnesses including police saw a UFO so bright, that "you couldn't look straight at it." In another incident a UFO 30 to 40 feet long cruised above a highway and

blinked its lights when drivers blinked theirs.

Next, in 1970 there was a mysterious explosion which broke storm windows and tumbled books from shelves. A 40-foot-wide hole was torn in the ice covering Upper Scott Lake. Chunks of ice were blown 100 feet and the explosion was felt four miles away.

There were further UFO sightings and in 1973 several more Bigfoot reports. In 1974 a UFO with a large white light and colored flashing lights was chased by police cars for 45 minutes before it disappeared. It was 600 feet above the ground, moved at 35-40 miles per hour and occasionally hovered motionless.

In one 1976 incident, witnesses saw a misty glowing figure floating several feet above the ground. In 1977 there were reports of a phantom panther and large cat tracks were found. A large panther-like animal was seen in 1978.

And also in 1978, witnesses saw unusual lights above Cook Nuclear Power Station and saw beams of light shooting towards the ground.

Dartown UFO reported
An unusual light in the sky at Dartown was reported to the Butler County sheriff's office Sunday night. Bill Sams, 4236 East St., Dartown, reported to the sheriff's department about 11:20 p.m. that he had seen an unidentified flying object above Dartown.
Deputy Sheriff Bill Fisher went to the site and reported he "did observe a light in the sky. It was stationary for several minutes and moved off toward the north."
The UFO was described as a red and white light, according to sheriff's reports.

Rat-men' examine 2 humans aboard UFO

A concert pianist and her friend were kidnapped by horrible rat-faced beings who took them aboard a UFO and forced them to undergo terrifying physical examinations.

That's the incredible story the woman and her young male friend told later when questioned under hypnosis. Without the hypnosis, they had been unable to explain two hours that mysteriously were missing from their memories.

The puzzling gap of amnesia happened right after Brazilian musician Luli Oswald, 55, and her friend Fauze Mehlen, 25, spotted a fleet of UFOs pop out of the ocean as they drove along the coast near Rio de Janeiro.

"When they came out of the water, it was like a mushroom with water spilling over it," Luli called. "Then we noticed a big black one ahead of us. It must have been 300 feet across with a dome on top."

Suddenly Fauze, who was driving, was unable to control the car which began weaving back and forth across the road. The doors of the car began opening and shutting on their own. Shaken, they drove to a restaurant for a cup of coffee ... only to find it closed. They

'Their mouths were like slits. Their skin was sticky and gray'

checked the time — and discovered to their astonishment that it was two hours later than they thought.

Luis Franca, the restaurant's night watchman, remembers their arrival.

"The man was panicked and she was trying to calm him down," he said. "They told me what happened. The curve where they had their trouble is where others have had trouble.

"A friend of mine said his car was chased by a UFO there, and his car started shaking."

Luli learned the truth about the two missing hours when she was hypnotized by Dr. Silvio Lago, formerly of Federal University of Fluminense, Brazil.

"I can see the two (small UFOs) above us," she said in the trance. "I'm feeling sick, nauseated. Our car is being grabbed by the top! A light from the small ones is holding us, the light clasps the car!

"We're being held prisoners by this light! It's horrible!"

Luli began crying in terror. "We have entered the black disk from the bottom. The car is

inside the UFO but we are outside the car.

"They put a tube in my ear. There were tubes everywhere ... they pulled my hair! They looked like rats! Oh, how horrible! Their ears were like rats — huge, horrible ears. Their mouths were like slits.

"They touched me all over ... they had very thin arms. There were five of them. Their skin was sticky and gray ... perhaps it wasn't skin. It could have been some covering."

Luli said she saw Fauze lying unconscious on a table, "looking dead." Then the aliens began examining him with a strange ray of light.

"It smells like sulfur and it's bothering me. It troubles me a lot and I don't like it. I can't breathe," he cried.

The "rat-men" somehow communicated without talking to each other, but Luli said one of them spoke with her,

"He said they came from Antarctica, that there is a tunnel which goes under the South Pole. That's why they come from the water. Others are extraterrestrials."

Following the examination she said, she suddenly found herself back in the car with Fauze — and then they were back on Earth.

Simple explanation given for UFO

The oblong-shaped building and the lighting in the station was on during this time. Earlier yesterday Sgt. Bill McDavid and Constable Jim Smith, two of the five officers who saw the UFO, had gone back to the area and were adamant that it was not in line with the hills.

There was no trace of any object on the radar screens at Prestwick Airport and an aircraft sent to check reported negative results.

Crippled UFO crashes with thunderous roar

A crippled UFO left a trail of colored smoke as it struggled across the sky before crashing to Earth with a thunderous explosion.

Government investigators in Argentina say they collected evidence at the crash site and were performing laboratory tests. They would not elaborate on the evidence.

Experts say the object definitely was not an aircraft or meteor — but that it appeared to have been powered by some energy source.

Amanda Ruiz, 76, says the crash lies near Beriloche, Argentina, she frequently visited by mysterious objects. She says her mother told her tales of the objects the natives call "The fanaters."

Scores of residents in the area provided identical descriptions of the recent UFO — including multi-colored smoke trailing from the device before it crashed.

Government closes eyes to amazing UFO evidence cited by 133 nations

Amazingly similar UFO reports have been flooding in from a staggering 133 nations around the globe — yet almost every government is totally ignoring the mounting evidence.

That's the startling disclosure of Dr. J. Allen Hynek, founder and director of the Center for UFO Studies which gathers and studies the worldwide reports.

"There are two mysteries here. One is the UFO itself — and the other is the apathy with which the subject has been regarded by governments, including our own," he said.

Dr. Hynek, the world's foremost UFO authority, noted that the United Nations has 152

member countries — and UFO reports have been filed from 133 of them.

"If you had this mounting evidence on some other subject — cancer, say — there would be an immediate response from every government," declared the expert, an astronomer and former professor of astronomy at Northwestern University.

"Yet France is the only country that has accepted the responsibility for investigating UFOs and is attempting to do a professional job.

Dr. Hynek's center has been getting such an avalanche of letters and reports from foreign countries that it's setting up a

network of translators to deal with them.

"It used to be that most reports came from the English-speaking countries, followed by France, Italy and Japan," he noted. "But there has been a steady buildup recently from all over, even the most remote parts of the world ... Kuwait, Oman, Bolivia, central Africa.

"And interestingly enough, there is no marked difference between the sightings in one country and another.

"There is no longer any question that UFOs exist, and every report strengthens the case."

Whirlwind atmosphere envelops Venus

© New York Times

The dense, cloudy atmosphere of Venus moves as virtually one big westward-blowing wind, with its upper regions circling the entire planet every four days, scientists of the Pioneer Venus mission reported Thursday.

Since it takes Venus 243 Earth days to rotate once on its axis, this means that its atmosphere at the cloud levels is rotating 60 times faster than the planet. If this were the case on Earth, winds in the stratosphere would whip around the planet in half an hour, three times as fast as the swiftest low-orbiting spacecraft.

The scientists said that recent analysis of data from the Pioneer spacecraft, which reached Venus two years ago, indicated that lesser atmospheric currents move from the equator to the poles and back again, distributing heat so efficiently that, unlike Earth and Mars, temperatures differ little by latitude.

Beneath the clouds near the surface, the scientists said, the dense carbon dioxide air of Venus appears to be more stagnant than Los Angeles on a smoggy day.

Dr. Alvin Seiff, a National Aeronautics and Space Administration scientist, said that "the bulk of the lower atmosphere sloshes up and down in waves," but otherwise just lies there, rarely overturning or mixing, in temperatures of 900 degrees Fahrenheit and pressures 90 times sea level on Earth.

This image of the unearthly atmosphere of Venus, once thought of as Earth's twin in the solar system because of comparable size and mass, was described at a news conference at NASA's Ames Research Center in Mountain View, Calif.

The unmanned spacecraft Pioneer Venus 1 is still orbiting the planet and mapping its cloud-shrouded surface with radar. Pioneer Venus 2 deployed five probes into the Venus atmosphere on Dec. 9, 1978.

According to the spacecraft data, three distinct layers of clouds envelop the Venus and create a greenhouse effect, in which more heat from the sun is trapped by clouds than is allowed to escape back into space.

The top layer extends from an altitude of 43 miles down to 35 miles; the middle layer from 35 miles to 31, and the bottom and most opaque layer, from 31 to 30. Besides carbon dioxide and nitrogen, the clouds are composed of water vapor, sulfur dioxide, sulfuric acid and liquid and solid sulfur.

UFO mystery

REPORTS of a large unidentified flying object over the town of Dumfries, Scotland, early today have baffled police. Residents on a council estate in the town and workers at Dumfries Infirmary reported sighting an object, said a spokesman for Dumfries and Galloway police. "It was apparently oblong in shape, well illuminated, but there was no sound with it," the spokesman said. "There have been other reports, but we tracked them down to car lights. This one could definitely not be explained." Some people who sighted the object told police it was a series of clusters of lights which hung just below cloud level for about 20 minutes before vanishing.

Mystery fog strikes terror on beaches of Florida

By NAOMI WADE

HUNDREDS of Daytona Beach, Fla., residents and tourists recently fell ill after a terrifying mystery fog rolled onto local beaches.

The thick mist rose out of the Atlantic Ocean. It has been torturing bathers with itchy throats, coughing and sneezing.

Lifeguards and beach officials say people are forced to wear surgical

masks to protect themselves before venturing out on the beach.

But doctors have calmed fears of some bizarre epidemic by identifying the mist as a product of red tide, which is caused by a form of bacteria living in the seawater.

"It's rare for this part of

Florida to have red tide. Usually it's found on the Gulf Coast and in southern Florida. This is probably a breakoff from the Gulf Stream that just happened to head in towards coastal areas," said local health officer Dr. Hubert King.

He said the red tide is fatal to marine life, but isn't serious when it strikes humans.

The poisons from the red tide are released into the air whenever waves break at the shoreline, causing the mist to rise up from the beach, says Dr. King.

He explained that laboratory tests by the state Department of Natural Resources confirmed that the mist from the red tide was indeed the culprit causing all the trouble.

'Rainbow ball' in the sky baffler

A MYSTERY object over the skies of Pinhoe, Exeter, is baffling one of the residents there.

Mr. Ian Kelway, of Cotmead, Langaton Lane, Pinhoe, was sunbathing with his wife, Barbara, in the garden of their home on Monday when they saw the U.F.O.

"It was a long way up and about the size of a football. It had every colour of the spectrum, and looked like a rainbow ball," he says.

"It had a white tail stretching out to the north west. I have never seen anything like it."

He lost sight of the object when he went indoors to fetch a pair of binoculars.

"It was there for a couple of minutes, and I am wondering if anyone else saw it."

Jack Anderson

WASHINGTON — If you thought "Star Wars" was just an amusing fantasy, you underestimate the futuristic fantasies of those who rub the Pentagon. They're spending millions of real dollars on a dead-serious effort to develop "The Force" as a military weapon.

In a closely guarded basement room, a top-secret "psychic task force" is hard at work trying to perfect psychotechnronic weapons that will work through extrasensory perception — like long-distance telepathic hypnosis to enslave enemy leaders, or transmission of nuclear bombs instantaneously around the world through the power of positive thinking.

Proponents of ESP weaponry say it is as revolutionary as the atomic bomb. Most physicists say it's hogwash.

Supporters of "voodoo warfare" claim that psychic weapons sank the U.S. nuclear submarine Thresher in 1963. They also say the Soviet nuclear disaster in the Urals in 1958 was caused by a bungled ESP explosion.

The justification for the Buck Rogers brigade's secret budget — at least \$6 million last year — is that there's an ESP gap between the United States and the Soviet Union, where intensive research has been going on since the 1930s.

According to the Defense Intelligence Agency, the Russians have already demonstrated the lethal potential of psychotechnronic weapons on flies, and even frogs. In fact, the late Josef Stalin hoped to develop ESP weapons as a stopgap equalizer in the days of American nuclear monopoly.

Stalin's successors in the Kremlin, spiritual skeptics though they are, seriously believe they can develop such thought-provoking, not to say mind-blowing, devices as "hyperspatial howitzers" which can transmit a nuclear explosion in

Siberia to the White House lawn with the speed of thought. Or, to cite another example, Soviet scientists are working on "photonic barrier modulators" which (like Haitian witch doctors) can induce death or illness from miles away.

There is even speculation that the microwave radiation the Soviets beamed at the American Embassy in Moscow from 1959 to 1978 was some kind of an ESP attempt at mind control. U.S. scientists have yet to offer a credible reason for the low-level microwave transmissions, which were apparently harmless.

When my associate Ron McRae queried some respected physicists on ESP weaponry, the response was general hilarity. One scientist, between guffaws, compared the psychic task force's project to a World War II attempt to train seagulls to drop fresh guano on the periscopes of German submarines.

But it's no joke to the ju-ju team in the Pentagon basement. They believe. For inspiration, the psychic warriors have posted a sly quotation on the headquarters wall. It's from the late Admiral William Leahy, chief of naval operations in World War II, and it says: "The A-bomb is the biggest fool thing we have ever done ... The bomb will never go off, and I speak as an expert on explosives."

Spotted A-UFO Near Bosworth

Hinckley Aerial Phenomena Investigations Group are looking into sightings of two similar objects over Market Bosworth and which, for the moment, are being treated as unidentified flying objects.

The latest sighting was made by two Hinckley youths who saw a cigar shaped craft near the town while they were on a night-time fishing trip. They first saw a flashing light over a nearby wood and then saw it turn and come towards them increasing speed but making no noise.

'UFO' was Venus

GRIMSBY police who checked out reports of a UFO early today discovered the "bright star" to be nothing more threatening than the planet Venus. A resident from South Killingholme claimed the object to be six times larger than a normal star when it was watched for 20 minutes from the Newsham Drive area of Grimsby. But after checks with RAF Binbrook and other organisations it was identified as Venus, which at this time of the year is exceptionally bright. Meanwhile, reports of a large UFO over Dumfries, Scotland, left police there baffled today. "It was apparently oblong in shape, well illuminated, but with no sound," said a spokesman. Some reports said it was a series of clusters of lights which hung just below cloud level for about 20 minutes before vanishing.

UFO county, USA

IN MOST rural communities, the appearance of a UFO causes gasps of amazement, but not in Anderson County in western South Carolina.

UFO reports only produce yawns from Anderson's good citizens. There have been so many sightings in the region that the area has been nicknamed "Flying Saucer County" by local folks.

Anderson County has been the target of all sorts of alien craft, according to reports — cigar-shaped, disc-type and even huge glowing balls. The mysterious objects travel slowly, quickly, up, down and even hover overhead!

Here are just a few of the eyewitness reports from Anderson County:

● October 1975, Seneca S.C. Alvin and Brenda Land spot three glowing objects flying in formation in the night sky. The three objects suddenly separate and regroup at lightning speed! The Lands are shaken by the experience. The same three objects are later witnessed flying over Massachusetts by police.

● November 1975, Williamtown, S.C. Janice Mullnax, area resident, spots a glowing UFO which disappears into a nearby forest.

● January, 1976, the junction of Interstate 85 and S.C. Route 24. Three persons spot a zigzagging UFO, flashing with colored lights. It rises straight up in the air.

● January, 1976, Norris, S.C. Two policemen spot a rapidly moving red-colored UFO flying 150 feet above the ground.

● August, 1977, near S.C. route 287. Four residents see a "saucer" brightly lit and traveling across the night sky.

'Death ray' arms race escalates

WASHINGTON (UPI) — Both the United States and the Soviet Union are conducting research on "death ray" arms and the U.S. Air Force hopes to demonstrate shortly a laser-beam weapon mounted on an aircraft, defence officials said yesterday.

The announcement came as the Soviet Union said President Carter's new nuclear war strategy could push the world to a "nuclear disaster" and hinted it may have to respond by aiming more of its own missiles at Western Europe.

While the U.S. is moving ahead methodically in the area of laser and particle-beam weapons, the Soviets are pursuing a significantly bigger program, the U.S. defence officials said.

"I don't believe the Soviets have any operational laser or particle-beam weapons," says William Perry, the Pentagon's top weapons research officer. "I really don't think they are very close to having operational weapons of that kind."

Perry is disputed by some experts, including retired Maj.-Gen. George Keegan, former chief of Air Force intelligence, who has warned for several years about steady Soviet progress in developing these Star Wars-type weapons.

Aliens from other planets are here on earth

ON JERNIGAN has vowed to not rest until he's proved that visitors from other planets exist on earth. In fact, he believes they're already here living among us!

The 37-year-old mathematician and bus driver from Columbus, Ohio, has organized a dedicated group of UFO investigators to track down evidence of extraterrestrial beings. The group, called TEIROCO — The Extraterrestrial Intelligence Researchers of Columbus, Ohio — has about 25 active members. It follows up reports from people who have witnessed all sorts of bizarre phenomena.

"Ohio has more UFO sightings than any other state in the union," Jernigan told the Examiner. "I'm convinced it has to do with being near the Great Lakes. We're investigating that angle."

Witnessed

Jernigan explains that his interest in outer space research grew from an incident he witnessed in Korea while fighting communism in 1952.

"We were up near the main line of resistance," says Jernigan. "About 20 of us were taking some small arms harassing fire from the communist troops. It was about 9 o'clock in the evening."

"Suddenly, this flying object came out of the sky — it came over the top of the hills — it was only about 600 feet up — we could all see it quite clearly."

"The other guys in the platoon were frightened — they thought it was some kind of communist secret weapon. Then I realized that the

communists had stopped firing to look at the object — they were just as interested in it as we were.

"It was a large, glowing disc-shaped object — about 100 feet across. It left a small streak behind it. As I looked at it I had a feeling of exhilaration — I knew even then it had come from an alien world. After about 20 minutes of watching it, the object took off rapidly — straight up," says Jernigan.

Jernigan's group plans to investigate UFOs by giving people who have seen them a detailed questionnaire.

Phenomena

Even so, says Jernigan, most of the UFO reports are caused by natural phenomena.

"Most of them occur at night," he says. "That's a time when the imagination plays tricks on people. It's often difficult to know what to look for when you haven't been trained to observe properly. We plan to offer classes to our members and other interested people so that they'll know the difference between a UFO and a helicopter at night."

Often, says Jernigan, people look right at UFOs without knowing they're seeing them.

"The UFO I saw in Korea looked exactly like a bright star when it got far enough away," he points out. "It made me think that the wise men who followed a star to Christ's manger may have been following a UFO they thought was a star."

"That opens up the possibility that some alien intelli-

• Don Jernigan

gence did have a foreknowledge of the coming of Christ or may have had something to do with it."

Jernigan also says that there are probably more than one group of alien visitors here on earth.

"There are several civilizations coming here — in fact, there's probably been one that's been earthbound for centuries.

How else can we explain the fantastic achievements of the Egyptians and the Mayas.

"If they are on earth," says Jernigan, "I imagine they've set up bases at the bottom of deep lakes or perhaps in the earth's crust."

"In the past there have been countless reports of UFOs flying directly into the Great Lakes.

UFO SCARE FOR WOMAN DRIVER

HOUSEWIFE Lillian Middleton, aged 33, drove the fastest ten miles of her life when she saw an unidentified flying object hovering above the roof of her car.

Police are treating her claims that she was followed at speeds of up to 70mph by the mystery object seriously.

Her husband John said at the family home in Tilmouth Avenue, Seaton Delaval, near Whitley Bay, Tyne and Wear: "This really terrified her. Neither of us has ever had the car go faster than 50mph but she was so shocked that she just wanted to get away."

"I am keeping an open mind but my wife is not the type to invent things."

"She said that the object was as big as her car and at times was almost touching the roof. It had a brilliant white light but every time she stopped the car it zoomed back into the air and hovered above her."

Police said that the object had been spotted by a number of other people on the quiet moorland road between the two villages of Earsdon and Holywell early on Thursday morning.

A police spokesman said: "We are treating this seriously because a number of different people saw the same thing."

"At one time quite a few people at an all-night garage were watching this object."

Mr Middleton said: "Although it hasn't put my wife off driving, I think it will be a long time before she goes on her own at night."

MY JOB

As SBI Office Manager, probably, the only time you ever receive mail from me is when of the following applies:

1. RENEWAL DUES BECOME DUE OR OVERDUE;
2. DURING THE ISSUANCE OF AN ID CARD, BADGE, FORMS, ETC.;
3. DURING THE ISSUANCE OF "Gift Certificates";
4. ISSUANCE OF "Back Issues" of the SBI REPORT;
5. ANY OTHER ORGANIZATIONAL CORRESPONDENCE;
6. DURING THE ABSENCE OF MAZZOLA & FILLow, UNLESS MARKED "Personal".

So, although I have an unpleasant task to ask our membership---YOU---for money, someone has to do it since it is an essential responsibility. If no one performed the difficult function of collecting money for this organization, there would be no organization-----NO SBI!

Therefore, if anyone owes dues, has a question(s) or problem(s), PLEASE relate them to me by letter in care of SBI OFFICE MANAGER. This procedure will enable me to read your mail as soon as possible, speed-up any delivery, or attend to any specific problem. THANK YOU FOR YOUR COOPERATION IN THIS MATTER.

IMPORTANT

The response our recent ads received to back issues of our SBI REPORT are overwhelming to say the least. PLEASE, be patient and allow 3-4 weeks for your back issues to arrive. Those of you who have responded to our very first ads, you should be receiving your back issues within the next 7-10 days, if you have not received them already.

A letter accompanies every back issue order explaining that these issues range from our very first attempts at publishing; to our moderations and improvements, to our very present up-to-date SBI REPORT. We are PROUD OF OUR NOW-A-DAYS ISSUES OF THE SBI REPORT, since our past issues, although well-informative, contain alot of errors in the printing world: grammer, spelling, etc. However, most all other UFO organizations began making the same mistakes. PLEASE DO NOT HOLD US TOTALLY ACCOUNTABLE FOR OUR PAST MISTAKES, even if it is because the SBI began by sometimes attacking other researchers or organizations. These conditions have been rectified & improved. We no longer argue with our peers in UFOlogy, rather, if need be, state our opinions at the time. We have learned we are all working together for a common cause--TO PROVE UFOs EXIST & DETERMINE WHAT THEY ARE, WHERE THEY ORIGINATE, AND WHY THEY ARE HERE?

Basically, this is why our back issues will certainly become classics---Collector's Items---in the future. The whole point is don't write us about these issues unless in the form of a contributing article. These are our past issues, not our present issues or our future issues. THANK YOU ONCE AGAIN...

WALTER RAYMOND DRAKE-----SBI FOREIGN REPRESENTATIVE (ENGLAND)

Raymond Drake is one of the world's most indefatigable UFOlogist and has written many books and articles on UFOs. He is really the best historian on the subject of UFOlogy in the world today. After graduating from the Associate Institute of Linguists and having the knowledge and ability to speak Latin, Greek, French, Spanish, Portuguese, Italian, German, Dutch, Norweigen, Danish, Swedish, Russian and Rumanian we see why he became the head of the Sunderland England Customs & Excise Department. Presently retired, Raymond abides his time in UFOlogy and his membership in the Ancient Astronaut Society and BUFORA. Raymond's works are too lengthy to print here, but he is best know for his nine published books ("Spacemen in the Ancient East", best seller in England & USA, for example), his five novels, his six plays, his two radio-plays, his poetry, and scores of other literary works. It is truly an honor to have the membership of Raymond Drake, especially after recently addressing the House of Lords Committee on UFOs. WE THANK RAYMOND FOR HIS CONCERN AND AID TO US IN UFOLOGY. WE ALSO LOOK FORWARD FROM TIME TO TIME TO READING FEATURE ARTICLES OF EVERY VARIETY FROM THIS SPLENDID RESEARCHER.

NEW MEMBERS

Walter Raymond Drake

Of course there are many new subscribers to the SBI REPORT and we thank you all for your membership. We are positive you will not begin to have second thoughts about your enrollment and support for the SBI in the coming year.

By the same token, thank you one and all, for mailing us all those newspaper clippings, articles for our consideration for publishing, artwork, etc. GOD BLESS YOU ALL! Keep those letters, post cards, newsclippings, articles, sketches, reports and new members coming in. UNTIL NEXT MONTH...GOD SPEED.

Save Water ... Save Energy

With reservoirs low and little relief predicted, it's essential to conserve water. Con Edison, in cooperation with the New York City Department of Environmental Protection, offers these tips to help you conserve water... and energy:

- Report open hydrants. This could save millions of gallons of water a day. In New York City dial 966-7500; in Westchester phone your city, town or village hall.
- Take showers instead of tub baths. About half as much hot water is used for a

shower. If you do take a tub bath, use less than a half-full tub. Take no more than a three-minute shower. Install a water-saving shower head or a water flow restrictor. (See item below.)

- Don't run water—hot or cold—continuously while shaving. Use only partially filled basin.
- Flush only when essential.
- Don't let the tap run when you brush your teeth.
- Keep a container of water in

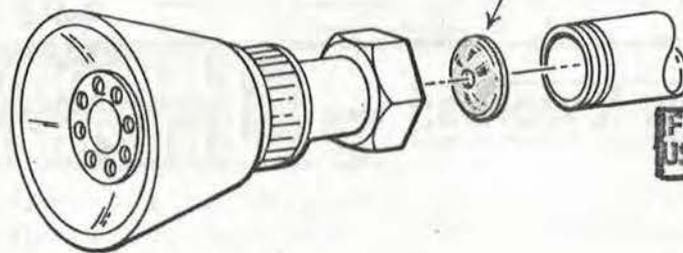

the refrigerator instead of letting the tap run.

- Use your dishwasher or washing machine only when there is a full load. You'll save hot water and the fuel to heat it, as well as electricity.
- When washing or rinsing dishes, first fill the basin with hot water.
- Fix leaky faucets and connections. A one-drip-a-second leak can waste up to 700 gallons of hot water in a year. That's enough hot water to supply a family of four for about a week!

Water Restrictor

To help save water Con Edison is offering—without charge—a water restrictor which you can install easily in a shower head.

This simple device, a stainless steel disc with a small hole in the center, limits the flow of water by up to 60 percent. It can be installed in a few minutes. By reducing the use of hot water, you also decrease the amount of fuel used to heat the water.
