SAUCER SCOOP

RECENT SIGHTINGS

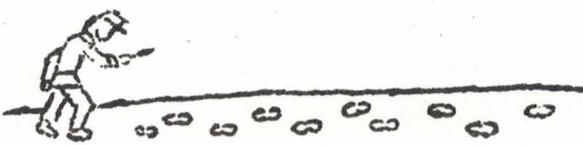

OCTOBER ISSUE

Information courtesy of U.A.P.R.O. International H.Q. 717 "A" street Auburn, Washington. Observations in Washington State of UFO'S over bodies of water: (for 1966 to date: August, 1966.) .....

- March 22, 8PM - Tacoma - "Bright flashing red light hovers, then darts off towards north over Puget Sound.
- March 23, 8PM - Tacoma - "Similar or same object seen, performs same manuevers. Over Puget Sound in same area.
- April 2, 2PM - Forks - "Object, changing from blue to white to red-ish orange, saucer-shaped with portholes, appeared to dart from NE to west and back again over the San Juah Strait.....
- April 4, 10PM - Seattle Tacoma - "Large bright glowing ball of light seen splitting into three lights and then flying in parellel formation. Same formation or similar passed over Victoria, BC about 20 minutes earlier. There it was seen by fifty persons flying SW toward Tacoma. Formation of objects seen to come from NE Direction when seen in Tacoma. Passed over San Juan Strait and Puget Sound.
- April 6, 1AM- Seattle,- "Red steady light flying eastward at about 8,000 ft. and dropped a "partacle" after changing to white and disappearing into SE. Seen over Puget Sound hovering. .....

NOTE: OTHER OBSERVATIONS OF OBJECTS VERY NEAR BODIES OF WATER TOTAL (for 1966) 10. This year in Washington more UFO'S have been seen over water, usually hovering. MANY THANKS TO: GARY LESLEY.....

CHERRYPLAINS, N.Y. MAY 13, 1966. (This sighting took place the exact time as the huge fireball passed over and exploded.) This object was sighted by Mr. Hubert Jandrow, while plowing a field one evening before dusk at 8:16 PM. He was so shocked he stalled his tractor and sat there watching it come toward him. No sound except a slight whoosing noise was heard. Very low (about 1,000 - 1,500 ft. up) it came right up the valley very slowly (about 100 mph or less) and as it got toward the top of a hill (about 1,000 ft.) from him it paused in mid-air and a bluish-white cloud of vapor puffed out of the "thing" and it shot off on a 45 degree angle, out of sight in seconds. The body of the object was a brownish-black color, while moving slowly - yellowish bluish flames spewed from 8" square ports, ( 3 rows around body) nothing coming out of back end at all. It was cigar-shaped, with some sort of slated vents (4-6 of them). He said the yellow-blue flames quickly faded but the blue lighted vapor remained visible for 5 min. Object left a vapor trail behind it like jet, coming up the valley. There were other witnesses to this object unknowingly to Mr. Jandrow. SOURCE: VERNON A. BAUER, BOX # 231, Lanesboro, Mass. 02368.....

The following report courtesy Mr. Gary Pinnell, 616 Antler Drive, San-Antonio, Texas. Director of S I R, and IIOUFO State Director. August 1, 1966 - Mission, Texas. (personal report) "The boys' name was Ciro Ochoa, and he saw the objects (2) one on Monday, Aug. 1, and one on Aug. 2. The one on Monday described as as a small moon, and about the same color as the moon. He said it appeared to be rising. The one Tuesday landed, but he did not go over to the landing sight, because it was too far to walk. The one that landed he said was in sight about five seconds, had a red tail and a red shaft of light going from the object to the ground. The object was described as a "red circle". Ciro said it seemed to explode upon hitting the ground, and he saw fragments. ( Mr. Pinnell is continuing the investigation, and will report futher developements.)

August 1, 1966 - Washington, D.C. Policemen in Alexandria, Virginia, Montgomery and Prince George Counties, (Md.) said they saw strange objects flying overhead. They were described as bright, multi-colored lights. (Note similarity to 1965's July and August UFO'S) A group of Prince George and Maryland police stood on a highway near Beltsville, Md., and watched six or eight objects hovering in the direction of Baltimore. "We thought we were cracking up," said one policeman. He added that the objects had no definite shape, but changed colors "from blue to green to red, then back to blue." One policeman said: "Don't try and tell me it was swamp gas I saw last night." (Last night refers to Sunday, August 1st.) The Federal Aviation Agency said they had none of the objects on radar. Hundreds of civilians as well as policemen saw the strange objects. SOURCE: S I R, 616 Antler Drive, San Antonio, Texas.

August 2, 1966 - Brooksville, Fla. Mrs. Eula Lewis, P O Box, 380, Route 4, reported seeing an object going straight down towards ground level in the vicinity of the John Reeves' landing area site. also reported on the same night: 8:15 PM to 8:30 - 4 unknown, unconventional type of craft in the sky at one time. One object went south to north, and 3 objects were going along together west to East. One object was blinking. 9:00 PM, a reddish-golden colored object, with a flat, straight trajectory, with a tail, shooting sparks, and described as a "whiteish light at head" a few minutes later another "flash" was seen going ne to sw., reddish-orange in color. Mrs. Lewis is a member of IIOUFO, International H.Q., 3929 NW 19th. Oklahoma City, Oklahoma. 66

August 3, 1966. Numerous reports received at East Coast H.Q. IIOUFO 6464 34th. Ave. North, St. Petersburg, Fla. continued to pour in: A long distance phone call from IIOUFO member, Wallace McNeil, of New Port Richey, 8 objects, 2 of them satellite type, others definitely were not. This was aprox. 10:00 PM. On radio station WLCY more reports were coming in as fast as people could call. There were sightings of various descriptions at aprox. 8:30 PM, from many different locations, and seemingly going in several different directions at once.

8:30 PM reports include locations: Redington Shores, Tampa International Airport, areas in and around Tampa and St. Petersburg. Descriptions were as varied as: "object had all colors and a tail," going from S to N. "Bluish-white flash", "lower and brighter than a satellite"; "it broke up into pieces which were brighter still". And at 10:00PM, the same night: Same locations or general vicinity as given before: "Blue, spinning across sky, went out", "West heading southeast, one object, with tail, petered out", quoted as being "no shooting star". "Greenish-yellow lights, W to E, from Clearmead City (east of Tampa)". Also reports of object which came on brightly and suddenly either went out or disappeared, this report tallys with the one received from IIOUFO member in Port Richey, which described the on again, off again, maneuvers. At 11:30 PM the same night, one object, dull, whitish-blue in color, traveling fast, and brighter than a satellite and bigger, going N to S. Other reports came in to confirm this sighting also. 12:00PM, Reports of an extremely bright and large object, "as big as two Echo satellites put together" going from W to NE.

---

August 3, 1966. Brooksville. Mrs. Lewis reported that she and her husband Ralph, payed a visit to John Reeves, near the area of his March 2, 1965 'contact', and they were in his yard talking when they noticed a satellite going SW to NE, then immediately after, they saw a bright, golden, yellow light, very low level, going S to N towards "Saucerland" area. It went out, and then about five min. later came back on, and went towards then to the area in front of Mr. Reeves' home (10:15 PM) and went out again! Then on again! Then off and on- once more! They flashed a green, signal light at the object, and it went out again for the last time! The on again- off again object was seen in exactly the same spot each time. Then another satellite went over, and a few minutes later they saw another "golden flash"; "it shot level and the front disintegrated in two pieces." There wer other witnessed to this by that time.

---

August 4, 1966 - Brooksville. Mrs. ~~Marcille Gandy~~, IIOUFO member reported seeing very low in the sky, one object, reddish-orange in color at first, then changing colors to bluish-green at times. It was "playing around" lazily, "like a spider coming down its' webb," then it suddenly rushed up and away towards Brooksville, (east)" Another "golden flash" was reported on Aug. 5, at 10:00PM going S to N in the direction of "Saucerland".

---

St. Pete. August 4, 1966. Reports from The St. Petersburg Times, Mrs. Ruth G., Lannus, 941 1/2 15th. Ave. So. told police she heard a noise humming about 11 PM then observed an object high in the sky, overhead... "It looked like two ice cream cones placed together, end to big end. There was a red light on one of the points and a white light on the other." They said it was still hovering overhead about 12:45 AM. \*\*\*\*\*

August 4, 1966 - St. Petersburg, Fla. This event was witnessed by my daughter, Janice, and Debbie Stevenson and their friend Karen Partington, all of the same neighborhood. The object was first spotted at aprox. twenty minutes to eight in the evening. It first appeared as a silvery-bluish object, and it was behind a tree when they first saw it. It then appeared to move upwards going in a northerly direction at which time it turned around and circled back and began to follow the girls who were walking. It changed colors to an orangish-redish-golden hue. The girls, becoming frightened, started to run home, (which was about 2 blocks away). Two of the girls, Janice and Debbie, turned to glance back at the object, and it suddenly "blinked out and disappeared". The object seemed to glow or radiate the whole time and cast an orangish-red glow upon the ground. Others in the neighborhood had seen it by this time, including my husband, Ronald Whritenour, and we attempted to run down the source of all the excitement, but the object would come on suddenly and just as suddenly go out. It was last seen heading North, at a low level, alternately going on and off. The same object or a very similar one was spotted a few minutes later in New Port Richey..... SOURCE: Joan Whritenour, Director, East Coast H.Q. IIOUFO\*\*\*\*\*

Aug. 8, 1966 - New Jersey. "AREA HUNDREDS SEE UFO GLOW, EXPLODE." Hundreds of residents of several area towns swamped police switchboards Sunday night with reports of a UFO which appeared in the skies about 10:40 PM apparently in the area of North Haledon. The UFO viewers described a bright red fireball which HOVERED in the skies for a time and then exploded with an intense white flash and a loud boom. SOURCE: Morning Call, Paterson, N.J. 8/8/66\*\*\*\*\*

Aug. 13, 1966 - New Port Richey, Fla. Wallace McNeil, IIOUFO member reported seeing a bright, white object coming at a tremendous speed out of the Northeast, then a jet appeared and apparently did try to give chase to the bright object, which at that time it suddenly stopped dead in it's tracks, and went rapidly back towards the direction that it had first appeared. \*\*\*\*\*

Aug. 16, 1966 - Fort Smith, Arkansas. Several thousand people, including police officers and newsmen saw unusual lights in the sky over Ft. Smith.... Described as "four red lights, stationary but seeming to rotate like a police patrol car warning beacon..... spread out in the sky like points on the corners of a square. One set of red and green lights appeared, then a white blinking light, then a steady white beam of light, all moving separately, in straight lines, from one to another of the red lights....observed for about an hour, but others said the lights were visible for about 3 hours"... Newsman, John Garner of radio station KFSA, Ft. Smith, broadcast his description of the lights while watching them with a crowd of about 1,500. Little Rock Air Force Base reported that it knew of no aircraft in the area. SOURCE: ST. PETE INDEPENDENT \*\*\*\*\*

Aug. 19, 1966 - Dunkirk, N.Y. Three persons, including Patrolman T. Kulig of the Dunkirk police dept. reported seeing a mysterious lighted object falling from the sky south of this city early today.

M

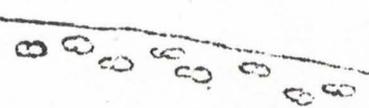

Mrs. Elaine Kaus, 130 Warsaw St. called police at 12:54 AM and reported the object appeared to be flaming. She saw white, red and green colors. A similar report was made a few minutes later by a man who gave his name as Gene Gan. Patrolman Kulig said he also saw the white, red and green lights of the object while patrolling in the vicinity of City Hall. Patrol cars were sent to the south section of the city but found nothing.\*\*\*\*\*

Aug. 22, 1966 - Silver Creek. Late Sunday evening, the police of the Towns of Hanover and Evans investigated a report by three youth who said that they had seen a mysterious light over Cattaraugus Creek. The youths said that at about 9 PM they spotted what resembled a triangle of white, red and green lights as they crossed the bridge in their car. One youth identified himself as Thomas McGlory of Forestville. His companions declined to give names.\*\*\*

New Jersey UFO'S. Towns of Waldwick, Paterson, Wayne, Ridgewood, Franklin Lakes, Haledon, North Haledon have had many reports. On Sunday, August 21, 1966, at 9:00 PM I was on UFO watch duty. I saw a cigar-shaped craft of this nature: No sound was heard as it past 1,000 ft. in front of me. The craft had red and green lights at one end that did not flash, and a series of "red bars" along the side that did flash. SOURCE:UFO Investigations, 218 Mabel, Franklin Lakes, New Jersey. R. Klotkowski, Director. \*\*\*\*\*

Marshalltown, Iowa. Reports just in from IIOUFO member Robert Von Brandt, 7212 South Fransisco, Chicago, Illinois. "A large flying object was reported Wednesday in Marshall town by Mrs. G.L.Gilson who said she was hanging out the wash in her backyard and glanced up. She told a friend of mine and also Mrs. Nancy Halsten, Marshalltown Civil Defense Director, that the object hovered over her neighbors' house, rose very slowly and disappeared in the clouds. Mrs. Gilson said that the object looked like a "washtub", white or silver in color. Also, Mrs. Carl Norman of rural New Providence said she and her son saw an object in the sky over their house around midnight Tuesday. She said the object had bright lights on the top and bottom, also fuzzy greenish lights on the bottom. It approached from the SW, hovered over her house and then moved off to the Northwest." Mr. Von Brandt has also seen objects of this description as have several of his friends and neighbors. \*\*\*\*\*  
DATE: Aprox. the end of August. \*\*\*\*\*

EDITORS NOTE: August has been a long, hard month! There are so many reports STILL coming across my desk that I believe we will be having to print August sightings in November! We give many thanks to those who so rapidly sent the information in, and again, thanks for a job well done. "SAUCER SCOOP" has the very best of people!

A SPECIAL "PLEA" FROM OUR RESEARCH DIRECTOR  
Mr. A. Roy Davis

"WANTED: A FLYING SAUCER"

The help we need from each and every one of you amounts to exactly what I have entitled the "WANTED" heading. I, the Director and owner of the A. Roy Davis Research Laboratory, located at Green Cove Springs, Fla., met and discussed this situation at length with the Editors of "SAUCER SCOOP". We discussed direct and positive steps that YOU, and I, and all of us interested in this new and exciting science of Flying Saucers, can take to really PROVE that we are right in our firm beliefs that there are unknown objects being sighted in the skies over tis and many other countries of the world. We will attempt to further this science, to investigate it, to "Prove it" not Dis-prove it as the varied professional scientists are bent on doing at this date.

We wound up a 5 hour conference on exactly HOW this can be done. The first step in this new program is: A formal request to be made to each reader, member, subscriber, and associate exchange groups, to do as follows. We NEED positive, physical evidences of a landing or sighting. From such a landing on land or in the water, any, small object, burnt sand, a scraping, tree branch, any kind of an object, thing, article, that has come in DIRECT CONTACT with these objects from Outer Space or where-ever. If samples are obtained, they should be sent either to the Editors, or to me, Roy Davis, and a complete clinical investigation will be made on any artifacts, articles, things, etc... The results will then be published, in our paper, for YOU. Your names need not be used if you prefer they not be. We ask that you state in writing, that you & no one else handled these "things", and that you saw, yourself, what took place, if possible, and that you can certify, as a fact, that the evidences you sent are from the: or come from the: the results of a landing or sighting, or as a form of some physical contact with a flying object, or craft, etc.

We assure each of you, NO government agency will be contacted in any way, or manner, nor will these materials be turned over to any unauthorized person. All of our work will remain top security work, until we have enough positive and supporting evidences to PROVE, and be supported by scientists, the EXISTENCE of some positive form of life or objects from "Outer Space". I advise that: one "form" that we must look for is some biological (life), plant life, sperms from some living culture, and this is why it is so important that you collect the smallest, minutest, shred of evidence. Regardless of size AND without touching it with your clothing, feet or hands or fingers. Always use a clean container, or paper bag, or package. Do not handle the item with your fingers, but use a shovel, or stick, clean flyers, a clean spoon etc. Pick these up, place in a clean paper bag, then place the bag in a box and ship at once. This will give the scientists a real means of have some physical proof. FURTHER INSTRUCTIONS TO FOLLOW. IN THE NEXT ISSUE OF "SAUCER SCOOP", "WHAT, EXACTLY, to look for at a fresh 'landing site'.

A. Roy Davis, Director

Mr. A. Roy Davis ... Roy Davis Research Laboratory...Greencove Springs has consented to be the official Research Director for "SAUCER SCOOP" and East Coast H.Q. IIOUFO. Mr. Davis has been active in Civil Defense for many years, and is an expert on magnetics, atomic fallout, survival methods and electronics. He maintains a fully equipt and staffed laboratory, and he stands by to assist us in all matters pertaining to either research or physical analysis.....

Mr. August C. Roberts... World famous and expertly qualified photographer and analyst, has offered the use of his equipment and knowledge, and is available to our affiliates and members for consultation. He has the largest know collection of UFO Photographs in the world today, and should the occasion arise that any of our readers should photograph an 'unknown' he will expertly developpe and analize the film. This eliminates the need for a comercial developer who could destroy, unwittingly, a good UFO Photo. ....  
ADDRESS: 23 Barnsdale Road, Wayne, New Jersey .....

ILLUSTRATORS: Mrs. Jean Chapman, Associate Director, IIOUFO, Editor. Randall Vincent, IIOUFO, 6519 Stockbridge Ave, Orlando Mark Brown, Box 13508 Pinecastle, B, Orlando, Florida...

SPECIAL CLIPPING SERVICE: MILDRED ZIMMERMAN, 2836 Seal Rd. Marcellus New York..... IIOUFO Member.....

Beginning next month we will fearuew "Special Investigator of the Month" giving a thumbnail portrait of "saucer Scoop" people!.....

A new column will be started entitled "Speak your Piece". We invite all our readers and exchange organizations to please forward their opinions on current issues in the UFO Field, and the letters will be printed and answered!

EDITORS: JOAN WHRITENOUR \*\*\* JEAN CHAPMAN \*\*\*

SAUCER SCCOP IS PUT OUT ON A MONTHLY BASIS, 12 ISSUES \$3.00 We invite those who wish to participate, to send in their articles and drawings for publication. All material should be sent ot: 6464 34th. Avenue North, St. Petersburg, Florida .....

Any information appearing in this issue may be used provided proper credit is given to SAUCER SCOOP and to the author.....

The opinions expressed in "SAUCER SCOOP" an# not necessarily those of the EDITORS. We endeavor to be a UFO Information Outlet, and we do not consider this publication to be an Organization, per se. We believe that all sighting data should be made available to the public, and should not be considered as private property only for the benefit of the few.
