SAUCER SCOOP

SCOOP SNOOPS !!!!!

Steven Michalak, the Winipeg, Manitoba mechanic who had an encounter with a UFO in May of 1967 -- returned to the scene -- and uncovered several pieces of metal - RADIOACTIVE -- shaped in the pattern of an elongated "S" - $4\frac{1}{2}$ inches in length... He is NOT the only one to get some 'metal'! A Mr. X. was putting up hay, when he spotted something shiny, not far from his tractor. Closer looks disclosed: a 'splotch' -- 3 inches in diameter -- of tiny hair-like slivers... When touched with a probe - slivers tended to pull together -- as if electrically or magnetically charged! WHERE? Grafton, Ill. WHEN? July 20, 1968! ***** Too dull, you say? Try this! Let us go to CANADA where Scoop has under investigation: A POLTERGEIST CASE -- A LA UFO!!!! Includes "rosy smells" - "alien beings" -- and a UFOLANDING! PLUS - 'normal' (?) "noisy Ghost phenomena"***** (UFONAUGHTIES STRIKE AGAIN!) *** Would you believe??? RIOTS AND UFOs ??? SORRY, it did happen... In Cleveland - and to the man who is believed to be the instigator of the recent riot which took the lives of 10 people... He revealed that he saw a 'Flying Saucer' while out driving with his girl friend... Subsequent studies led him to saucery things and occult things -- which supposedly 'revealed' to him justifiable INjustices -justifiable to the extent that killing took place.... (what books did he read - and what caused him to react this way?) OTHERS DO NOT REACT THIS WAY: EVA GABOR surprised the nationwide TV audience of the "TONIGHT" show by stating that she and others had seen Flying Saucers with various colors at her recent 10 day vacation in HAWAII... NO riots - just justifiable discussion! *** Someone should tell her to get: "AIDS TO IDENTIFICATION OF FLYING OBJECTS" == for only 20¢! Tell her to send to the Govt. Printing Office, Washington, D.C. (they know it all!) *** SCOOP WONDERS THIS MONTH: HOW MANY PRIZES WERE GIVEN OUT BY A UFO ORGANIZATION FOR OBTAINING NEW MEMBERS ???????? (well, we all fall on 'hard times' once in awhile!) (come to think of it - it is NOT such a bad idea at that! SCOOP OFFERS IT'S CRACK-POT FILE TO THE FIRST ONE SENDING US 1,000 new readers!) ***** SNOOPS!!! -- 1957 STYLE ***** "Of great importance are the comments by the Chinese authorities, that Flying Saucers in great numbers are flying over Lhasa, capital of TIBET. In consequence, the Government of Tibet gave orders not to sketch or take photographs of the flying objects and sent this order to it's respective monasteries and religious settlements. IN MARCH 1955 -- came a remarkable report from Tibet -- the Tibetan Lamas claimed to have read important messages - given by CERTAIN FORMATIONS OF THE FLYING SAUCERS. THE LETTERS CORRESPONDED WITH THEIR OLDEST ALPHABET ON RECORD -- AND THE MESSAGE SAID, THAT THEY, THE SPACEMEN, IT WAS THEIR DUTY TO WARN THE PEOPLE OF THIS PLANET." ***** Lousy Weather Reports!!! - "HEAT WAVE SHOWERS SAHARA SANDS OVER ENGLAND" *** "LEAVING MILLIONS OF CARS AND HOUSES COATED IN REDDISH DUST." *** "WHEN THE DUST REACHED ENGLAND IT COMBINED WITH RAIN IN A FREAK TROPIC-LIKE DOWNPOUR TO PRODUCE A 'MUD STORM'"...(UGH!) *** "Europe sizzles in Heat" *** In Brussels, A Belgium traffic policeman leaped clear of an oncoming streetcar, LEAVING HIS SHOES STUCK IN THE MELTING TAR PAVEMENT." (UGH plus GOOEE)Then we have a very well known contactee who has stated that his contacts have told him that "by diving their craft toward earth, then pulling out of the dive and ZOOMING upward again, causing tremendous pressure at the bottom of the dive -- enough pressure to cause a tornado or hurricane".... (could be!) **** Aug. 2nd brought new reports of pulsars - 2 more - brings total up to 7 SCOOP WILL LEAVE YOU WITH THIS QUESTION: What office boy for what national UFO organization has been seen hiding in the bushes outside of a meeting hall -- where some contactees were gathered... Taking down license numbers????????????? SMALL WORLD, ISN'T IT ??? That's the SCOOP POOP for SEPTEMBER ***

SAUCER SCOOP is an information outlet published from 6464 34th. Ave. No. St. Petersburg, Fla. 33710. We print on a MONTHLY basis - 12 issues - \$4.00. OVERSEAS SUBSCRIPTIONS: \$6.00. (This does NOT include Canada or Mexico). Information appearing in this issue may be used by news media - or other sources - providing the proper credit is given to the author - and to SAUCER SCOOP - along with the address of the magazine. SAUCER SCOOP POLICY: To print all pertinent data relating to the UFO FIELD in general, regardless of any organizational affiliations - and - to present BOTH sides of any controversial subject, giving EACH full and equal opportunity to express their viewpoints. To print all names, addresses and additional data of all material used - when feasible.

EDITORIAL COMMENTS -- NO PLACE FOR HOBBYIST'S --

UFO investigation today is NOT a pleasant hobby with which to while away spare time. Nor is it a field for the weak-kneed or the faint of heart. It is a deadly serious 'game' in which we are more apt to be the losers than the winners. It is a full time job - and one for which you must place yourself in the position of being on call 24 hours a day.

A UFO 'investigator' without the proper equipment or the proper training to USE this equipment is useless in the field. Needless to say - THE proper equipment is NOT an armchair or the telephone. Without proper training the most expensive piece of radiation detection equipment is about as much use as a fork when it is raining - and you are thirsty! If you do not know how to read and interpret the dials - how can you expect to give a reading that could SAVE your life? Or take it - if you are wrong?

I have also seen many ufo groups whose sole purpose, it seems, is to get together once a month for the express purpose of lambasting all OTHER ufo groups. WHO really CARES just which one is the best - or which one is the more famous? Is this going to help the local investigator who is called upon to investigate a landing - and who knows nothing about proper investigative methods, who has not been trained in the usage of proper research equipment or who doesn't even know the right type of questions to ask the witnesses?

Obviously -- MORE emphasis must be placed upon equipment and training -- on the local level as well as the national level. But, ALL the equipment in the world will NOT help a group whose members cannot forsake an hour or two of TV time to actually GO outside and watch. APATHY - how many times I have seen groups go into debt to buy the proper equipment - then find out that some of the members just 'can't find the time' to utilize it. In a normal group of 50 -- you will be lucky to find 10 DOERS... and 40 SITTERS. Then we have the researchers who won't research -- IF the subject of 'contactees' even comes up! No, no, -- heavens, NO! that is taboo! WHY? CONTACTEE REPORTS EXIST... shall we just ignore them? That is like saying that we will overlook the MOON in space exploration - but we will try for Mars!

The reason behind such harsh words is this: UFO INVESTIGATION is now a dangerous affair. We must be prepared for all eventualities. The age of pretty little, slightly bluish--white or silver or red flights -- over.... The time has come when we must knuckle down to what we wish to call ourselves ---- Investigators and researchers...

Scoop wishes to welcome those many readers out there who are new this month, and will try to answer some of the questions that have recently come our way. You, oldtimer know the answers! Scoop has NO paid employees of any kind - nor do we pay for articles, covers, etc. We have been most fortunate through the years to be able to count upon our many friends for their most welcome contributions! We all work hard at what we do because we BELIEVE in what we are doing. Some Scoopers contribute their time and physical hard work in getting this out to you each month; others contribute their fine skills as writers and artists. We can never thank any of you adequately or enough times for the assistance given in the past and in the present. And we would like to issue the same invitations to our new friends - come! Join in! The water's fine!!!

VOL.3 NO. 6

SAUCER SCOOP 1968

SEPTEMBER

FLYING SAUCER EPIDEMIC HITS SOUTHERN HEMISPHERE - Buenos Aires (UPI) If there really are flying saucers, they don't restrict themselves to the Northern Hemisphere. From Mexico to the freezing Antarctic, "objetos volantes no identificados" (OVNI) - unidentified flying objects - have been reported, along with eyewitness accounts of strange beings.

Reports of flying saucers and saucer-related events have touched off investigations of all kinds in Bolivia, Peru, Venezuela, Mexico, Chile and Argentina. A mass of sightings has been under way since June. So many sightings have been reported that Argentine Admiral Benigno Varela recently said the Navy would undertake a "statistical study of serious sightings." The Navy has not been immune from the strange visions. Varela said that detachments manning Argentine, English and Chilean Antarctic bases have seen "five lights in the sky moving in the same direction."

In Niteroi, Brazil, across the bay from Rio de Janeiro, an official report (police) this month attributed the mysterious deaths of two television repairmen to "persons or beings from the unknown." One of the two repairmen, Miguel Viana, was reported to have shot down a flying saucer two years ago. The repairman died three months later. A dozen witnesses said they saw a saucer 90 feet above the ground shortly before the repairmen's death. In Argentina, the mysterious intruders at least are friendly. "They're always very amiable," said Catolicio Fernandez, a farmer who resides in Mardel Plata. He claimed that his home was visited briefly last month by two strange-looking, thin fellows in tight-fitting green suits that had a weird glow. "When one of them raided his arm, I became dizzy," Fernandez said, describing the strangers. "But when they lowered their arms I felt all right again." The Bolivian army, troubled enough by encounters with guerrillas, once had to take time out to check out a peasant's story that an intruder space ship and a "strange creature resembling a man" had blinded his sheep while grazing in a high Andean pasture. Soldiers soon found that hunting guerrillas was a lot easier than smoking out extraterrestrial phenomena. CREDIT: TED OWENS - Philladelphia, Pa. SOURCE: MAINESUN TELEGRAM - 8/4/68

BUENOS AIRES - July 13 - (Special to NY TIMES by MALCOLM W. BROWNE) - The luminosity of flying saucers is said to have spread across the skies of the Southern Cross, and table talk throughout Argentina and Chile is glittering with star dust and mystery these days...Scarcely a day has passed in recent weeks without at least one new flying saucer testimonial in the press of Santiago and Buenos Aires.... Dr. Nicanor Costa Mendez (Argentina's Foreign Minister) was interviewed recently on the subject...he said: "If I did not have so much respect for the Chinese, I would say that one is dealing here with a CHINESE fairy tale." The current wave of concern probably began in May after the Buenos Aires daily La Razon published an article about a married couple who told of an experience one night when they were driving home. They said that they had lost consciousness when their car entered a heavy fog. The couple regained consciousness, according to the newspaper account, still in their car but on a road just outside Mexico City - nearly 5,000 miles from their home. The account included such details as a description of peculiar burns over the surface of the car.

CONTINUED

... Then on June 4, two highly experienced pilots of Argentina's national airline saw what they said was a flying saucer over the strait of Magellan. The copilot, Humberto Raul Guardabassi, described the sighting as follows: "It was 9:15 PM, visibility was unlimited and the Patagonian evening was beautiful. Here appeared a gigantic disk about 13 kilometers (about 8 miles) from us, of a bluish white color. Below, in the center of its belly, the color changed to red shading to yellow, such as might be produced by combustion."

The most dramatic encounter with an alien spaceman was reported by a 19 yr. old, Maria Elodia Letzel, the daughter of a Cordoba hotelkeeper. Noticing a strange luminosity coming from the vestibule of the hotel, she said she left the kitchen to investigate. In the vestibule, she said, she met a being more than six feet tall, blond, and enveloped in a scaly suit that emitted a celestial light. The being mumbled at her unintelligibly and as he raised his right hand she felt weak, but when he lowered it she felt restored. The being then left, without causing any trouble, apart from a severe state of nerves for Miss Letzel. CREDIT: Mr. Joseph Moore - 76 Winslow Ave. West Somerville, Mass.

POWER FAILURE --UFO PHENOMENON LINKED - Washington (AP) -- University of Arizona physicist indicated Monday there might be some relationship between unidentified flying objects and power failures, particularly the 1965 blackout of the NE section of the United States. Dr. James E. McDonald...told a House committee - "there are too many instances of sightings of UFOs hovering near power plants." McDonald said during the New York power failure which began Nov. 9, 1965, the Federal Power Commission had hundreds of reports of UFO sightings. "There also were reports in upstate New York of a glowing object at the instant the lights went out," he said. The power failure was believed to have begun in upstate New York. "The source of the pulse which triggered the safety mechanism has not been identified," McDonald said, referring to the power system.

McDonald testified before the HOUSE SCIENCE and ASTRONAUTICS COMMITTEE which held a symposium on unidentified flying objects. He would not say flatly that the power failures were caused by some form of extraterrestrial life but he said "there is a puzzling and quite disturbing coincidence between the sightings and the power blackouts." ... In answer to a question by Rep. William F. Ryan, D-N.Y. McDonald said there should be further investigations by the Federal Power Commission or some other government agency into the relationship of UFOs and power failures. McDonald, in his formal statement, agreed with Dr. J. Allen Hynek, head of the sociology department, University of Illinois at Chicago, that the government should establish some agency to adequately study UFO reports.

"The possibility that the earth might be under surveillance by some high civilization in command of a technology far beyond us must not be overlooked in weighing the UFO problem," McDonald said. "I am one of those who lean strongly towards the extraterrestrial hypothesis." "I am convinced that the recurrent observations by reliable citizens here and abroad over the past 20 years cannot be brushed aside as nonsense, but rather need to be taken extremely seriously as evidence that some phenomenon is going on which we simply do not understand."

UFOs.....1968 STYLE
BY GEORGE D. FAWCETT
PO BOX 298 - Deland, Fla.

Despite the sudden close down of the University of Colorado UFO Probe (see Flying Saucer Fiasco, LOOK magazine, May 14 issue) 1968 has proved to be another "banner year" for UFO encounters, both in the air and on the ground worldwide. Photographs of a bluish-white UFO were taken by Mr. Kazuo Kakizawa on January 1 at 4:45 AM over YOKOHAMA, JAPAN. The round object left an exhaust trail...

On January 3 - an estimated 3,000 eyewitnesses at BELGRADE, YUGOSLAVIA observed three cylindrical objects, about 50-60 feet long and glowing a deep red in color maneuver overhead. The objects gave off a high pitched whine as they hovered over the area for 20 minutes. Photographs taken are presently under investigation by Yugoslavia officials.

January 8 brought a report by Robert LeChance, 29 and his wife who reported a "bowl-shaped, orange red, glowing UFO" behind their home in WHITESVILLE, N.J. A UFO having "what appeared to be a door opening" and changed color from red to red-orange and back to white and appeared to be "pancake-shaped" paced the car of two CARLISLE, PA. nurses... for two miles on January 12. The UFO appeared to be 30 feet in diameter and swerved in front of their car and remained there for another two miles, flying just above the road.

January 23 brought a report of an attempted landing of a UFO near the industrial city of KALUGA, RUSSIA (south of Moscow). The object was sighted by several citizens and was described as making a buzzing noise and glowing a bluish-white. The UFO had a domed-top and witnesses spotted "portholes" at a 20 ft. altitude. Jan. 24 documented a report by 3 eyewitnesses at ISLAND BAY, NEW ZEALAND of a UFO, 40-50 feet in diameter. As it rose in the air it made a "swishing" noise. It left a smell like "something burning" and was a bright silver color and had three "portholes". It gave off a beam of light which struck a tree branch, causing it to fall to the ground.

Five to six motorists reported the sighting of a UFO with four red lights that LANDED near the Spring Hill School in MILLINGTON, MICHIGAN about 5:12 PM on Jan. 27. A UFO was sighted on Feb. 5, at 6:30 PM by five persons from PALM BAY to PATRICK AIR FORCE BASE, one of whom was Jack Geiger, Deputy Public Officer at PATRICK. The elongated UFO left a trail of sparks, reversed its direction and came back south in five minutes in the same path. FLORIDIANS in other areas of the state were reporting similar phenomena. On Feb. 8, at Boulder, Colorado the UFO probe being conducted by the University of Colo. was exposed as a \$500,000 trick by LOOK magazine. UFO researcher John G. Fuller exposed the fraud of the misuse of taxpayers money, which angered many Americans, government agencies and officials.

On Feb. 13, at NEWFIELD, N.Y., two young boys... reported a UFO hovering near their home. As the object tilted both boys claimed they saw a six-foot wide window and two figures which appeared to be "creatures" (little men occupants) standing frozen in place behind the window. Dr. J. Allen Hynek stated, "This is not as wild a report as you might think." Feb. 18 brought another UFO angle near VASHON ISLAND, WASHINGTON STATE, where a UFO with a pale blue light, made of silvery metal, hovered near a pond. Beneath the hovering UFO, the pond was frozen, in warm weather, 3 inches thick in some places... CONTINUED

On Feb. 19 near BENGOUGH, SASKATCHEWAN, CANADA, Mrs. Martha Heggs reported a UFO (clearly outlined) showing "two shallow plates placed lip to lip" having an inverted bowl superstructure. It also had six or seven arch-shaped portholes and riveted seams around the lower part. An antennae was spotted on top of the object, which made a high-pitched whining noise that caused a "tingling sensation throughout her body". Her dog and her cattle either covered their ears and took flight when she first saw the UFO. They did not return to the farm until after the UFO had left the area.

On March 3 200 homes in LONDON, ONTARIO, CANADA reported power failures as 3 brightly lit disc-shaped objects were seen flying in formation near the OAK RIDGE PARK shopping center. The UFOs were described as bright and large and traveling southeast at 8 PM. On March 19 along ROUTE 145 near the community of WILSON, OHIO, Gregory Wells had gone to get a bucket of water, when a UFO appeared and hovered over a tree some 25 to 30 feet off the ground. Suddenly a beam shot from the lower part of the UFO knocking Wells to the ground, setting his jacket on fire and the surrounding grass, as the burning jacket was removed by his mother who rushed to his aid. His arm was burned due to the UFO encounter, but his fright was even worse.

April 9 recorded an object, 500 feet in diameter, flat with a bright blue light around it and a white dome on the top that was reported over the home of Mr. and Mrs. Lee Rowland in WASHINGTON COURTHOUSE, OHIO. It moved at treetop level north to south before it disappeared. On April 24 at Homestead, Florida, five youths reported a flying object to police at 6:45 PM. Watching the UFO through a pair of binoculars it appeared to be circular in shape and had small "portholes" on the bottom side. The UFO was dull silver in color and had a pointed top. 200 reports of UFOs were logged in Florida in Jan. 1968 alone. Other 'Flaps' were reported at HARRISBURG, PA., ITHACA, N.Y., ALAMOSA, COLO. AND WELLINGTON, TEXAS in the U.S.A. THOUSANDS OF UFO ENCOUNTERS WORLDWIDE HAVE BEEN RECEIVED IN 1968!!! (REPORT DATED: June 30, 1968 -- Research Article #47.

UFOs OVER CHILE ? SCIENTIST SAYS YES --SANTIAGO, CHILE (Reuters) Photographs taken by a Chilean professor of a strange lens-shaped object with a convex top have revived theories that flying saucers are cruising the skies over this country. Prof. Gabriel Alvial Caceres, director of the Center for Investigation of Cosmic Radiation at the University of Chile, showed his photos to a fascinated press...He declined to say whether the object his team photographed was controlled by extraterrestrial beings. "But they are phenomena which our science cannot explain..." "The presence of these phenomena in the skies of Chile - 15 times in a year - compelled us to carry out these observations..." ... In Northern Chile, four officials of the Public Health Service were reported in a local newspaper as saying a saucer landed near them and the pilots told them not to say a word about the landing. Two of the men were examined about the incident under hypnosis. One of them said the pilots of the saucer were humanoid beings with very thin legs. They used gestures to warn the men to keep silent. Two UFOs were sighted last month in the tiny town of El Choro, 155 miles south of La Paz, Bolivia, police said....

THE GREAT PYRAMID DESIGN
AND
THE SEVEN LEVELLAND UFOS

by KENNETH LARSON

Dr. James E. McDonald, a senior physicist at the University of Arizona, has spoken out by stating that the problem of the UFOs is the greatest scientific problem of our age. In a talk before the American Society of Newspaper Editors, on April 22, 1967, he said that American scientists are 20 years behind in the study of the phenomena, and that the objects may be extraterrestrial probes. In his talk, he also mentioned the famous UFO "landings" at Levelland, Texas, on November 2 and 3, 1957. These were national headline reports, because ten witnesses made observations within a two-hour period of a large luminous egg-shaped object over fields and roads around Levelland. The objects reportedly stopped ignitions and were about 100 to 200 feet in length. During my research on UFOs, I visited Levelland and talked to people who had seen UFOs around that particular area. In fact, some of America's most-famous ufo photos were taken by Carl Hart at Lubbock, Texas, August, 1951 — and Lubbock is about 32 miles east of Levelland. These are the famous "Lubbock Lights" photos.

During the year 1968, I continued my research on these and related cases and uncovered new evidence. (1) The Levelland UFOs seemed to form a regular and mathematical pattern around that city over a two hour period. UFO 1 was four miles west, Saucer 2 was 4 miles east, Saucer 3 was eight miles north, Saucer 4 was 10 miles north, Saucer 5 was five miles west, Saucer 6 was three miles northwest and Saucer 7 was five miles northwest of Levelland. These Saucers had been seen by law officers and actually landed on the highways.

Therefore, I utilized engineering drawing-paper and located these unusual UFO report-sites on a mathematical pattern, with the center at Levelland. Each unit on this drawing equals one mile. To my great surprise, I discovered that this particular pattern can be superposed over an enlarged drawing of the GREAT PYRAMID in ancient Egypt. That is, the plan view (as seen from space) of the Great Pyramid has the shape of a square. Two 45 degree diagonal lines intersect the corners (or points A-B-C- D on the drawing.) In this case, the side of the base would be eight miles long and the height of the side view would be five units. BOTH OF THESE VIEWS CAN BE COMBINED INTO ONE COMPOSITE DRAWING. Thus, points H to E represent the heighth of the Great Pyramid or five units. Points A to B represent the base-length or eight units. Actually, the Great Pyramid is 481 feet high and 755 feet long at the base-side. It was constructed around 2600 B.C., and it is the only remaining First Wonder of the annient Seven Wonders of the World. The structure has a total of 5 sides and 5 corners (with the base-side). Therefore, the topstone or chief cornerstone is located at the top (or point E). (2) This Great Pyramid can be considered as a mathematical-model or "standard" of measurements set at that location in ancient Egypt. The square can be enlarged or expanded — and when this is done the square conforms to the seven UFO report-sites established at Levelland, Texas, On November 2 and 3, 1957!!! In other words, Saucer 1 is 4 miles west of Levelland — and this point represents point J or 4 units west of the Great Pyramid center (H). Next, Saucer 2 was 4 miles east of Levelland — and this represents point K on the enlarged square of the Pyramid. Therefore, Saucers 3 and 4 are mathematical-points on the extensions of the Great Pyramid Design.

*** CONTINUED ***

The next step involves drawing circles with the center at Levelland (C). These circles pass thru points or Saucers 3,4, and 5 and form the plan-view design of a circular UFO!! Therefore, it seems logical to assume that the Great Pyramid represented a "standard" or mathematical-model constructed at that site in ancient Egypt. In fact, Isaiah 19:19 refers to a monument to the Lord set in the midst or center of the ancient land of Egypt. BUT, the reader may ask: Why did the seven UFOs land at Levelland, rather than at the Great Pyramid? Simply because the mathematical-design could not be utilized on the small size of the Great Pyramid -- but it could be utilized on the 4 mile and 10 mile scale established at Levelland! In addition, my research made clear that the UFO landings at Levelland "pointed to" or concerned the UFO reports on other western American locations: - Mount Rainier (June 24, 1947), Salt Lake, Utah (July 2, 1952), the Salton Sea, Calif. (November 3, 1957 and April 11, 1963), Red Bluff, Calif. (Nov. 22, 1896 and Aug. 13, 1960) and San Francisco, (November 22, 1896 and Jan. 18, 1961). THAT IS, THE LEVELLAND REPORTS WERE GREATLY SIGNIFICANT AND WERE THE CENTER OF A MATHEMATICAL DESIGN. In addition, I am of the opinion that these seven saucers at Levelland were the seven eyes of the Lord spoken of by Zechariah, an ancient prophet in Zechariah 3:9, 4:7 and 4: 10!

On this basis, I drew various lines from the Great Pyramid to the northeast and northwest and at equal 45 degree angles. These new lines formed a precise mathematical-engineering design on the Nile Delta, known as a "quadrant of a circle." Therefore, this design of the Pyramid-Nile Delta complex serves as a mathematical "standard" or model for an expanded design. This enlarged design can be transferred to the Levelland site-- so that Levelland represents the Great Pyramid. When this is done, the mathematical angles extending northwest west-northwest and west of the Levelland site of 1957 intersect the other UFO reports at Mount Rainier, Salt Lake, Utah, Red Bluff, San Francisco, Salton Sea, Phoenix, Arizona and Los Angeles. All of these mathematical designs formed by the UFO report-sites of the past 70 years clearly show the mathematical-engineering designs involving the Nile-Delta-Palestine complex and western America.

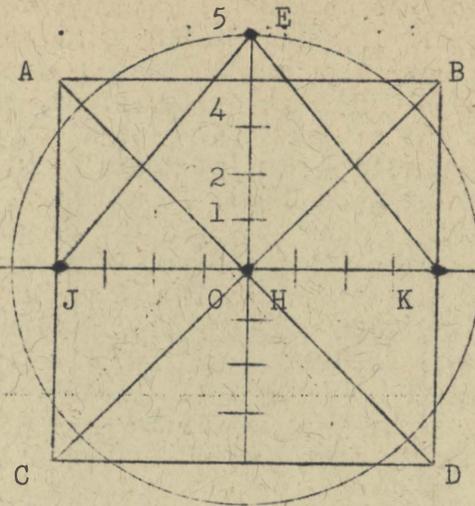

If this is true, then the Levelland UFOs appeared and landed at these various and predetermined sites around the country because they knew about the Great Pyramid-Nile-Delta design complex and the design of the United States!

In fact, the forming and design of the Planet Earth!!! (See Isaiah 40:12 and Psalm 95:5 KJV). The Coming of the American Saucers may have some relationship to the forming and engineering design of the earth and the revealing of such knowledge and methods to the American Nation and to the World....Plus, the possible discovery of ancient records or engraved records or plates that had been buried in the ground during the ancient past and intended for the enlightenment of the Human Race.....

AUTHOR: Mr. Kenneth Larson - Director - SAUCER SCOOP WEST COAST BRANCH
5630 Sawtelle Blvd. Culver City, California.....

EARTH ISN'T 'TERRA FIRMA' ---IT ONLY APPEARS THAT WAY! Washington - (UPI) - Don't panic, but California is sinking -- rapidly. Even Texas is subsiding... So are a lot of other places, including Louisiana, Alaska, Washington State and Arizona! This downward trend and movement of the Earth's surface here and there is due, the Coast and Geodetic Survey reported, to many causes, among them the activities of man... Subsidences discovered by the Survey in the past few decades range from two-fifths of an inch after the 1965 Puget Sound earthquake in Washington to 24 feet near Mendota, Calif. The MENDOTA slump took place over a 23 year period starting in 1943 - Geologically speaking -- this was rapid.....

See Isaiah 19:19.

RONALD CALAIS REPORTS ON ANCIENT HARMONICS

(Re-printed from the SEARCHLIGHT - 3 Courtland St. New Brunswick, N.J.
Mr. Calais is the Director of the LOUISIANA BRANCH - SAUCER SCOOP)

No historical tradition has contributed more to the splendor of archaeological romance than the immortal legend of lost continents. Its orination in the literary world began centuries ago with the writings of two Grecian dialogues, Timaeus and Criuias, but its real origin in folklore stretches into the very core of Man's antiquity ... perhaps beyond the dawn of recorded history.

... In the Carribean, for example, a prevalent myth claims - "people did not walk up and down stairs in the very old days. They hit a plate and made a song and the song said where they wanted to go -- and so they went." On the opposite side of the Atlantic strangely similar legends are told: "In the old days," says the folk of Galway, Ireland, "everybody danced in the air like leaves in the autumn wind ... people made a song to a plate." From St. Vincent Island in the West Indies comes this legend: "The wise people of old could fly quite easily. They had no wings. They slapped on a gold plate, made music on them and flew." Even the ancient Sanskrit records of India recount stories of the application of sound and vibrations thousands of years ago by a science totally familiar with advanced acoustics.

... "LONDON --- Russian archaeologists are puzzling over a remarkable collection of stone discs, thousands of years old, found in the mountains bordering China and Tibet. So hard is it to explain in terms of earthly experience that the archaeologists do not rule out the possibility that the discs may have come from outer space. A total of 716 discs, like stone age 'gramophone records', have been picked up in recent years by men exploring caves in the Bayan-Kara-Ula mountains, reports the Soviet Union's new English magazine - SPUTNIK. "Each disc has a central hole and irregular grooves spiralling out to the edge, but the report says (quite seriously) that the grooves are not sound tracks. Chinese archaeologists estimate that the discs are about 12,000 years old, but made no headway at all in trying to explain their purpose or how they came to be in the caves. The Russians, who have examined them, some of the discs, in a Moscow laboratory, claim to have made two important discoveries. One is that the discs contain traces of metal, particularly cobalt. The second discovery, according to Vvacheslav Zaitsev, author of the SPUTNIK report, is that when the discs are scraped free of rock particles they 'vibrate as if they carried an electric charge.' In some of the Bayan-Kara_Ula caves, he writes, archaeologists and speleologists have found 12,000 year old skeletons. The remains belong to human beings with huge craniums and underdeveloped skeletons."

It seems this story has an earlier counterpart. For among the gifts given to Cortez by the last Aztec Emperor Montezuma, were two large, flat, gold discs about the size of gramophone records. They were intended as emblems of royalty for King Charles V of Spain and his Queen. Oddly enough, one of the discs was much thinner than the other, and it seems Montezuma failed to inform them of their proper use. But it is said they were grooved and cut according to the owner's personal vibrations.... Russians report metal fragments adhering to the discs, and as one well knows, metal bits become attached to stone when a metallic object is struck against the stone. Now, referring to folklore, you will remember that the words "music" and "song" were used, both terms indicating sound vibrations produced by percussion of the "plates"... a word describing a circular, flat object..... And what race would be more suited mentally to produce such things than 'human beings with huge craniums'?????

LETTERS TO THE EDITOR

... "This letter concerns the editorial in the August issue of SAUCER SCOOP. IT would seem to me that if flying saucers are cruising our skies -which I am sure of- they would design their craft to look similar to airplanes. That is what the pilot Rudy Malaspina saw. When he saw the craft fire the four rockets he could have been watching one of their experiments or an aggressors attack on our country. I would like to know what you think of the above." Mr. Mark Bouge - 1911 Main St. Bellevue, Nebraska ...

Dear Mark: I think that the most astounding and confusing thing about the above is the COMPLETE SILENCE which seems to surround the report. Many newspapers carried the story -- but in a very short way - leaving out the details of the 'rocket firing' - but - including the 'balloon' explanation. THEN NOTHING... Personal reports have been heard - but so far as the public is concerned - nill..... WE ARE THE PUBLIC - and - WE DO WANT TO KNOW THE FACTS. However, if any of you out there wish to believe in the idea of Balloons firing rockets -- it's YOUR country too, don't forget!

... "You have a fine publication - much more valuable than better printed zines like ---- and ----"....

Mr. Jim Capots, Jr. 158 N. Middle St. Columbiana, Ohio...

Jim: We thank you! Scoop has always felt that it was imperative to get the news out to you FAST - and this means on a monthly basis. In order to do this - we cannot go the route of the offset printing bills. If we did we would be on a quarterly basis. Many have written us of the same type of remarks -- get it to us - if you have to use old school tablets! And- as to --- and --- they are the best in their mailing slots! I enjoy their slick pages as YOU do! There is a NEED for ALL 'zines' in this field.

The following letter was addressed to Scoop Special Representative: Capt. Robert Loftin. Tulsa, Okla. and reprinted with his kind permission....

" Thank you very much for the telegram from Cleveland advising me of the resolution about our work that was adopted by the Fifth National Congress of Scientific Ufology. This action of the committee was most gracious and is much appreciated.

I had hoped to stop off in Cleveland for the meeting on my way home from Corning but was unable to do so. I hope the meeting was a success. As you may know, we are planning to get our report written by September 30 so we would appreciate knowing about any new material presented at the convention which might be included. SIGNED: E. U. Condon .. (Dr.).....

SCCOP wishes to withhold our opinions on the already too controversial report. When the report has been made public - we will print BOTH sides of the coin... Those wishing to stand in line with their brickbats and roses - get ready!

... "May I offer my approval of your recent publication: THE ALLENDE LETTERS, an AWARD SPECIAL. The articles contained therein were very informative. In the front of the book information was given about yourself and a TV pilot that will be shown shortly. Could you inform me of the time and channel this will appear on. I'd shoot myself if I missed it!" Thank you very much. Mr. Jim Knoblock 416 West Magnolia, Brawley, Calif.

Answer to question one: Yes, we welcome and thank you for your approval.. (2) It should appear sometime in September. (3) Don't shoot!!!!

Scoop says WELCOME to all our new readers and friends who have heard of us through the new magazine and the books. You are quite important to us, and hope that you will enjoy meeting your new ScoopFamily of ufologists. Take advantage of the addresses given and get to know your fellow researchers!

AN OPEN LETTER TO THE PUBLISHER OF 73 MAGAZINE - W2nsd/1:

Dear Sir:

On 31 July, '68, after amateur radio stations checked into the UFO NET, it was the observation of this station (WA4HNY) with WB4GHP at the mike, that the net procedures left a great deal to be desired. It was entirely possible that atmospheric conditions precluded the net control station (NCS) from being able to query the reporting stations concerning whether they had any message traffic to pass. However, it nonetheless appeared that upon all of the concerned stations, having signed into the net, that the NCS made NO ATTEMPT to follow prescribed standard net operating procedures.

For example, after all stations had signed in, the NCS apparently neglected to ascertain whether any station(s) had message traffic to pass. Proper net procedure dictates that the NCS is supposed to at least make a serious and determined effort to attempt to query each station, in its respective turn as to what message traffic it has to pass. NO SUCH ATTEMPT WAS MONITORED BY THIS OPERATOR.

Furthermore, it appeared that the UFO NET frequency of 14.300kHz is NOT suitable nor is it the most appropriate choice, since it is an extremely crowded frequency. It is felt that a better operating frequency would be between 10 and 15 kHz - either above or below the present UFO NET frequency. Moreover, it is felt that the Thursday note frequency of 3950kHz is not suitable for nationwide communication. It is the impression of this writer that the Thursday night frequency and thus the schedule is apparently intended for local traffic in the Peterborough, New Hampshire area.... It would seem to be in the best interests of UFO enthusiasts throughout the United States if the Thursday schedule would reflect a frequency in either the 20 meter band or the 15 meter band.

Finally, the August 1968 issue of "73" contains an article concerning the UFO NET report on page 4. It is REGRETTABLE that this article contained biased and thus highly prejudiced comments directed against the handling of the investigation of the ufo enigma by a certain University. Furthermore, the display of favoritism towards one particular UFO organization was in equally bad taste. Specifically, it is inexcusable that with at least three extensive UFO groups in existence, that one such group should be singled out at the expense of not even giving passing mention to the others. The inherent implication is inescapable: the one organization is thus implied to be better than the others. Equal space and treatment should have been accorded the others (they have extensive membership throughout the world). Moreover, it would seem that a lack of fair play has been demonstrated by the amount of favoritism exhibited towards the one aforementioned UFO group. It cannot be overemphasized, that in the field of UFO research, THERE IS UTTERLY NO ROOM FOR ORGANIZATIONAL FAVORITISM. It is high time that all of us, amateur radio operators, who feel that it is important to maintain an open mind in this field, work together with each other and NOT against each other. Cooperation and a willingness to share in the dissemination of UFO information is certainly more satisfying than playing 'party politics'. Only by working together will the UFO net be a success.

SIGNED: WB4GHP
WA4HNY

INTERNATIONAL DATELINE: BY ROBERT STIFF

DIRECTOR - IUFOB
DIRECTOR - SAUCER SCOOP
OKLAHOMA BRANCH OFFICE

A cigar-shaped object roars inland off the Caspian Sea and the Soviet Government states it was a jet aircraft, all the while neglecting to comment on the object's lack of wings, and the bright glow of the metal construction. A disc-shaped object hovers over a military base in Georgia and civilian workers are told it was a helicopter despite the fact that the object emitted no sound, was perfectly oval, had no rotors and glowed a bright blue-white. A bright object with revolving green and white lights on the outer rim and having what appeared to be portholes around the dome is explained as the planet Venus to the confusion and the anger of the witness, a pilot for the Federal Aviation Authority. An official Air Force release is issued to the news media stating that NO unidentified flying object has ever been tracked on radar, yet scientific sources state unquestionably that such objects have been tracked and recorded hundreds of times.

The above confused mass of fact versus outright lies is yet another example of the tactics of a mis-directed policy in regard to the UFO phenomena. I do realize that this topic is old hat to our many readers, but we are again confronted with the blatant mis-use of power on a governmental level. The fraud of the Condon Report and other Air Force attempts at deception can only lead to stand one to believe that perhaps we are much CLOSER to the truth than even we know. Why do photo negatives of authentic UFO photographs always seem to get lost when sent to the Air Force for analysis - yet never the OBVIOUS and often clumsy attempts made at fraudulent pictures? The latter always seem to make it intact through the Postal Service - but rarely the former. Why are the directives of a few United States Senators stating the UFO'S should be investigated ignored - and the senators hushed? Better yet, why are Air Force officials and their lackeys allowed to lie before a Congressional hearing on UFO'S - by stating half-truths and blatant misinterpretations?

Facts are facts, and lies are lies, and to our sorrow they seem to get mixed when any attempt is made to get to the truth that is hidden behind a false facade of serious investigation by Air Force officials. Who is to blame??? In many ways it is YOU! By your complacency, these deceptions are continued and will go on until YOU decide to DO something about it! The IUFOB, in connection with SAUCER SCOOP and other major UFO organizations, is currently establishing a program that will enable YOU to bring the truth to the general public. If you care, you will respond to this project. If not, you must reap the harvest that deception and lies will force upon us when it may well be too late to DO anything. To list your name among those who CARE -- Send a card or letter with your name and address to: PROJECT 5 - PO BOX 12405 - OKLAHOMA CITY, OKLA. 73112

THE FLYING SAUCER ENIGMA CONTINUETH... BY ARMAND A. LAPRADE
(EDITOR: PHENOMENA - 48 Great Brook Valley Avenue, Worcester, Mass.)

To the thousands of people who have seen flying saucers or other unidentified flying objects of various shapes and sizes; flitting, hovering, maneuvering, etc. they remain a puzzling mystery to them. Where do these colorful aerial voyagers come from? Why do they come? What do they want? Do flying saucers exist at all?

* Twenty-one years have passed since Kenneth Arnold spotted, what he called "flying saucers," while flying in the vicinity of Mt. Rainier; in 1947. People, all over the world, are still seeing them. Some have claimed riding in these objects, visiting the moon; even planets. As the number of reported landings increase, so grows the list of contacts and contactees.

* The Air Force investigation of ufo's only resulted in confusing the public, rather than enlightening them. Some of the AF explanations, of sightings, were "further out" - than the Saucers themselves! During the 1950's the AF denied the existence of ufo's; hoping that they would go away, I guess. They didn't, so the denial changed to: "The Air Force has no evidence that ufos are extra-terrestrial or represent advanced technology of any kind" - Official statement.

* In November of 1966, the public felt that a plausible explanation or solution of the UFO enigma would be coming soon; due to the Colorado Project, headed by a scientist - Dr. Edward U. Condon. At long last, thought the public, a scientific evaluation. Yes, a scientific investigation, sponsored by the Air Force! Well, I will not go into detail relating the much publicised fiasco, which seemingly will result in confusing the public once more; when the final report by the Colorado Project is released.

* During the Colorado UFO Project (Field Study - 1966-68) there were many sightings and landings reported. Very few were investigated by the "Project" it seems, whereas, Dr. J. Allen Hynek managed to get to the "scene" or area where such events had occurred; in various parts of the country. He, even went all the way to Canada, to investigate a UFO sighting which intrigued him; at his own expense! Yes, Dr. Swamp Gas (this nickname was given him, by newswriters a few years ago when he assumed that a UFO sighting he was investigating might have been swamp gas) does get around.

* In February of 1967 a UFO report from Peru, came in to the VFON (Volunteer Flight Officer Network). A bright light appeared near an airliner at about 7,000 feet, then moved to a point directly above the aircraft and hovered there. The passengers got rattled, the lights dimmed, the compass went haywire and all radio reception was lost. But, transmission did not cut out. The pilot who reported the sighting was guaranteed anonymity by the VFON and by Dr. Edward U. Condon!

* It is interesting to note that, between 1962 and 1967, the following was reported by the VFON: 14 re-entering space objects (at least half, were Russian); 721 meteors and fireballs; 4 ballistic missiles in flight; 4 upper atmosphere sounding rockets; 16 on naked-eye-visible satellites in orbit; ONE weather balloon; and --- 20 Unidentified Flying Objects!

*****CONTINUED *****

Dr. Condon expressed a desire, at that time, 1967 - to have the flight crew's close-up eye-witness reports of any UFOS. Could the Flying Saucers (some) possibly be due to "swamp gas" ? Did Dr. Condon possibly see a "swamp gas saucer" ? Let us look at the following report from Washington, D.C.

* Scientists think they may have the answer to the mystery of Flying Saucers, and if their theory is correct, they are a particular kind of freakish physical phenomenon; not space ships from another planet. In the early part of 1967 - they tested this theory by igniting ammonia vapor with a high-voltage spark. The result was a mass of glowing gas which quickly assumed the shape of a disc-like object about one inch in diameter. As more tests ensued, some of these disc-like objects gave the appearance of having tiny windows around the rim, hovered in one spot for some minutes, darted about erratically, then, seemed to soar off or broke up.

* Dr. Robert S. Powell, who heads the small group of scientists working at a privately financed laboratory (at Melpar Incorporated in Falls Church, Va.) said, "the thing" (as they call it) could also be tracked by radar and produces a "charge field" that could affect radio performance nearby. He also said that the gases involved in creating an artificial "saucer" are similar to those sometimes found in nature; often given off from newly fertilized fields or from swamps. The spark needed to touch it off could be produced by lightning, or a power line, he added. (informal consultations were held with scientists of the Colorado Project!)

* Although the Condon-Lowe UFO Project was aimed at investigating people (including contactees) rather than the saucers themselves, it will be interesting to see what they have to say about; Betty and Barney Hill; W.W. Derenberger; Carol Watts; Herbert Schirmer, (contactees). Will the Condon-Lowe Team pick out only the definite crackpot cases, thereby giving the impression that, (public report) all contact-contactees are hoaxers or liars? Also, since science has produced miniature saucers in the laboratory, will that (in their estimation) solve the small percentage-wise unknowns in the Air Force files? Solve all unexplained saucer sightings? TRICK OR TREAT ? That is the (paid for by the public) \$500,000 question!!!

Armand A. Laprade (PHENOMENA MAGAZINE: EDITOR AND PUBLISHER)
48 Great Brook Valley Avenue - Worcester, Mass. 01605 - U. S. A.
(SCOOPNOTE -- Apparently some are NOT waiting!!! See below...)

"UFO PROBE ASKED" - Washington - Scientists told Congress yesterday there were too many sightings of unidentified flying objects to rule out the possibility that earth might be under surveillance by creatures from outer space. They urged lawmakers to support a thorough investigation.

Dr. Carl Sagan, astronomy professor at Cornell University, said if there are other technical civilizations among the hundreds of billions of stars in the Universe, "any random one of them is likely to be vastly ahead of us.".....
Quote: "This is a possibility I take very seriously," -- Dr. James E. McDonald...
Quote: "My scientific hunch ... is that there is scientific pay dirt in the UFO phenomenon." -- Dr. J. Allen Hynek...

Noting UFO sightings by responsible and skeptical witnesses around the world, McDonald said; "Far too many defy our best analysis." (McDonald has spent the last two years studying UFOs under a grant from the U. S. Office of NAVAL RESEARCH. and also said that "if earth was being watched from space, it was being done by a society so advanced that to earthmen its technology "would be indistinguishable from magic." ----) SCOOPSAYS: Where are you, Dr. Condon ?????

MYSTERY AT CHARLESWOOD

(Reprinted from: SS&S - 17 Shetland St. Wilodale, Ontario, Canada.
Editor and Publisher - Gene Duplantier -)

On Sunday night, Oct. 22 and Monday AM, Oct. 23, the RCAF, RCMP and others were trying to determine what more than 17 persons reported over the Westdale area at that time. The UFO was first sighted at about 6:45 PM. A Westdale woman saw it hovering over a house across the street. Another homeowner and his wife saw the lights which were now a red color. They moved at great speed and changed shape and seemed to form a figure 7. Two streets over, a salesman and a saleswoman were readying to close up their office... across from five show homes is a vacant ploughed field. To the west of one of the houses is a triangular field separated from the houses by a street and a drainage ditch. This was the field where their sighting took place.

The salesman...noticed directly ahead in the field about two hundred and fifty yards away, two small purplish-red lights - tilted at an angle of 45 degrees. The distance between them was about 150 feet. The first light was stationary and appeared to be suspended in the air about the height of a telephone pole above the field. The light on the right seemed to be stationary on or slightly above the ground. The man walked closer and then saw a third light, a little brighter, that appeared on the surface of a field between the first two. There was no sound. The saleslady joined him on the front lawn. The lights then blossomed to a diameter of 2 or 3 feet and began to pulsate, brighten and dim at 2 or 3 second intervals, but not in sequence with each other.

The lights started moving again, at times converging on the couple and then retreating to their original positions in the air. The salesman remembered he had binoculars in the car and went to get them when a car approached. He flagged them down and two men, two women and two small girls got out of the car and stood watching the pulsating lights. Just then, a fifth light dropped down through the clouds. It hung under the clouds, straight above, casting a rosy glow on the clouds above it. The other lights started to drift about 100 feet northward. Just then, airplanes were heard over Charleswood. One plane passed overhead. Finally, the lights changed placed into a geometrically perfect triangle being led by the first light, dipping and bobbing over the highway. They reached a hydro line, broke off formation into a single line, the wires lighting up as they sped over them. Later they hovered over a TV broadcasting tower and then took off into the northwest.

The next morning the salesman and a foreman went looking for evidence in the field. A small pile of stones in a circular heap and surrounded by many small footprints leading to and from the pile of stones. A few yards away were 3 areas about 30 to 40 feet apart where the footprints were concentrated in a circle of about 2 yards. It was as though they were all crowding to get into or onto a ladder of their flying machines. From the three trampled areas, sets of footprints in straight lines radiated out for a distance of 60 or 70 yards-- always in pairs. At least 8 creatures were involved. The prints were about 7 inches long and about 2 and three quarters inches wide, but the oddest thing was that they all walked the same. The heels pressed deeper than the toes. It appeared that no ankle movement was present. Where the soil was wetter, the prints came to a point at the toes. The heels left a rounded depression with a cuban heel impression.....

***** CONTINUED *****

The foreman experienced a sudden headache when he first bent over the pile of stones. The estimated weight of the creatures would be about 40 or 50 pounds each.

Before the salesman went to sleep that night his face and hands became hot as if by windburn or sunburn. The next day his legs ached and in the evening his car took a long time to start and remained that way for 3 weeks, the condition eventually disappearing. A hot feeling came into his thighs for about a month, turning into a cool feeling in January. He purchased a compass to check for magnetism and found that everything in the UFO location was highly magnetized, especially the steel flag pole of the show home. His car was also magnetized. The curious thing was that everything was magnetized on the side facing the 5 objects. He found that his non-magnetic watch and a nail file were also affected.

On Dec. 10, the man looked at his tongue in the mirror and was horrified to see it a yellow-greenish color. He dashed to the doctor for tests. The blood showed a significant drop in white cell count. Both he and the saleslady were very dry after the sighting. He lost his sense of taste or so it seemed. Everything he ate tasted the same and there was a taste of copper or metal in his mouth. The doctor said the tongue coating was caused by dehydration. The RCAF tried to say the objects seen were 4 Otter aircraft but this is not logical because the planes would have been over Charleswood and out of sight within minutes. (Sources: Winnipeg Free Press, Oct. 24/67 and CAPRO, Winnipeg)
SCOOPNOTE: It is to be regretted that the proper authorities or a responsible UFO Organization was not notified at the time of the landing. As proper investigative procedures such as a radiation test, casts of the footprints, medical help, etc. could have been started at once. This is one reason why publicity should be given to local groups so that the witnesses do know where to go for help in instances of this kind...

ARE ALL FLYING SAUCERS FROM OUTER SPACE ?

THIS BOOK SAYS: "NO"

"THE GERMAN SAUCER STORY" - This book says YOU have a right to know the facts about secret flyings 'discs' by German scientists!!! This book dares to tell the INCREDIBLE suppressed facts!!! ARE YOU READY FOR THIS "UNADULTERATED TRUTH"??

SECRET DISCLOSURES

During World War 11, German scientists built full-size prototypes of real Flying Saucers in secret underground factories. All work was done under strict Government secrecy. In 1944/45, the German experts actually test-flew these "saucers" at Super-Sonic speeds (1200 mph!) But— when the war ended, those experimental saucers were MISSING and the experts who had built them had dropped out of sight!!! This startling book probes the mystery of their strange disappearance!!!
