SCOOP SNOOPS !!!

! A CLEARING-HOUSE for ghosts is being operated by a 'spirited' organization in Clayton, Mo. HAUNT HUNTERS (!) seeks information on ghost happenings, esp, and ect! \*\*\*\*\* SCOOP Sends the H Her's some local frights such as - "The Thing" which is haunting tough Irish laborers in a 40 yard stretch of tunnel being cut under the Thames River! "It seemed about seven feet tall - the shape of a MAN with his arms outstretched as if to get out of something." Another man known as Knobby came up from the tunnel "as white as a sheet"--- the THING wears a brown overcoat and cap! Tish! This one is MILD - they should investigate the Birdy doings at PETERBOROUGH -- Poor old Derek Reegan was startled out of his beauty sleep by thousands of birds -- they flew in out of the dark - BATTERING at windows with beaks and crashing against doors!!!! (Shades of 'The Birds' ala Hitchcock) \*\*\*\*\* IF THAT ONE ISN'T NOISY enough please blast off to: LAKE ERIE! A MYSTERY BLAST started a "Phantom' BOAT hunt!!! YUK-- dead fish were found floating where a reported explosion touched off a search for a boat and it's crew - Phantom-type! "Whatever burst in the lake a mile off Hamburg Town Park must have disintegrated, the Coast Guard said. NO evidence of wrecks. Several witnesses, including two off-duty policemen claim they saw a 'boat' sink under huge clouds of smoke after a "thunderous" explosion -- and saw the smoke coming out of the water. "There must have been an explosion, but there's no evidence that it was a boat," said Coast Guard Chief Dikes. "You'd have SOME debris left. To disintegrate something, you'd need more than an explosion! YAS - YOU would think so - eh wot? \*\*\*\*\* NOISE you like -- OK -- go to JACKSONVILLE BEACH, FLA! Check out the reported STRANGE SOUNDS coming from TWO CLOUDS!!! One man described the sound as like "someone rattling cellophane" and a woman said it was more like "Someone walking on pebbles" !!! Police Chief James Alford also heard it - and he ordered Capt. Harold Bryan to follow the first cloud -- Bryan did so - to the edge of the Atlantic where the 'CLOUD' (?) dissipated. The listeners started to go back inside their homes, when, they said another 'cloud' (?) repeated the performance! Bryan also followed it -- dissipated - (the cloud - or was it Bryan) anyhooooo --- Official at the May-Port Naval Air Station could offer no explanation -- neither could OTHER officials... .. SECRETSNOOPER # 4 tells us that a revolutionary NEW engine which could stop pollution in the world if used for planes, ships, etc. was SABOTAGED at a public demonstration by an UNIDENTIFIED observer who pulled some wires -- It blew up and killed one person..... ANOTHER MAN - a technician - has stepped forward and verified the "MATTER TRANSPORTER" reported in this column in November - he swears to it's existence..... MIB activity on the rise: Case in point? --- While visiting a farm, a teenager (name withheld) was on his way to a farmhouse, when a MUSICAL ELECTRONIC VOICE was heard coming from BEHIND him ---- He turned around to see a HOVERING OBJECT-SHAPED SOMETHING LIKE A 'WEDGE' OR A 'DELTA WING' -- just above treetop level. 'it' had a DOME ON TOP ..... He returned home to find that his telephone had been ringing all night - the CALLER asking for him - about 10 pm his caller got him and the voice on the other end, in A DULL MONOTONE warned him to be QUIET about the object he had just seen.. The voice identified itself as a 'friend' and said, "just do as I told you and everything will be all right".. After the caller ceased speaking---- a sound "like turning on an old-fashioned radio" replaced the cryptic voice.. Almost immediately after he hung up - an odd - strange light tan car began moving up and down his street..... (The BLACK AND TAN HOUNDS AGAIN !!!) THAT'S SCOOPSNOOPS FOR FEBRUARY !!!!

SAUCER SCOOP is an information outlet - address: 6464 34th. Avenue North, St. Petersburg, Fla. - 33710. We print on a monthly basis - 12 issues - \$4.00.

OVERSEAS SUBSCRIPTIONS: \$6.00. (This does NOT include Canada or Mexico).

SAUCER SCOOP POLICY: To print all data relevant to the UFO Field in general; and to present BOTH sides of any controversial aspect. We have no paid employees, nor do we pay for articles. We do express our thanks to those who send in data even under these conditions..... Editor: Joan Whritenour .....

EDITORIAL COMMENTS

In view of the recent disclosure of so-called 'doubles' appearing of very well-known UFO researchers, SCOOP Director of Specilized Research, Andrew Bache, now presents Theory Number One concerning this problem.

YOU — CAN be duplicated! It is a new scientific fact that it is possible to duplicate, for a starter, frogs. This first sentence should be further clarified to reflect the fantastic fact that the principle has now been incontrovertably established, paving the way for future MASS duplication of human beings, down to the very roots of their hair and the spirals of their toes.

Work in England indicates that this latest scientific innovation (you cannot be duplicated TODAY, at least as far as is known by this author) may not be too far away. If frogs can be duplicated, why not humans? The scientists in England have found that every cell in your body contains the complete blueprint for the physical part of your overall being. According to C. Myers in the MYERS Financial Review, (Jan.21, '69), "Every cell contains a nucleus identical with the original nucleus which was formed as a result of the matching of the genes of your parents." Let's see how this process is undertaken:

First, the skin cells of a frog are removed. Then, the nucleus is removed from the cell. A fertilized frog egg is then taken, which, if left alone, would produce a new individual, and the nucleus is removed from the frog egg. Bear in mind that if the egg were allowed to produce a new individual - a new frog - it would, in point of fact, be a combination of its parents. Nonetheless, after the nucleus is removed from the fertilized egg, the nucleus from the skin of ANOTHER frog is placed into the fertilized egg. The egg grows and produces a frog, which upon even the most casual examination proved to have utterly NONE OF THE PECULIARITIES OF HIS PARENTS. WHAT, do you ask, does this mean? Well, let's say we call a frog "Neal", and if we take ONE THOUSAND skin cells from "Neal", and if the nuclei are removed from a THOUSAND fertilized eggs, and substitute the nuclei from "Neal's" skin cells - THEN - ONE THOUSAND "Neal" frogs will be reproduced, IDENTICAL down to the minutest detail!

Granted - that producing identical human beings may prove a trifle more complicated, but now that the principle and the procedure have been firmly established, we can be almost certain that the human parallel will either materialize before too many years, or possibly already HAS materialized. Now - it should be unalterably and unavoidably clear that there are grisly parallels in this phenomenon - and - increasingly large number of UFO-related events..... To quote a time honored expression of one of my colleagues: "The investigation is continuing."

A quote from C. V. Myers: "I believe it is becoming clear that science is getting too big for its breeches, and that we are getting to know too much. Every new advance raises a 1,000 questions, and 10,000 new problems. Meanwhile, the WISDOM of man is receiving NO boost from science. This leaves him hopelessly inadequate to deal with new tools and powers at his disposal....."

ANDREW BACHE

Air Force report casts more doubt on "Saucers" - (Headline) Tampa Tribune ---  
Two scientists at the University of South Florida said they agreed with the so-called 'Condon Report' which says there is not scientific evidence to indicate the existence of flying saucers. They also called the report the most authoritative yet in that field but they agreed it wouldn't stop the speculation which has gone on more than 20 years.... Meanwhile, in Winter Haven, an unidentified object was spotted over the area, including Auburndale and Bartow, on Monday night. The "fuzzy" light was basically white - with a blue ring around the edges and a glowing red center. Witnesses said the object turned to a complete white and then the blue edge and red center appeared just before it disappeared. The object was visible for about five minutes.

FLORIDA UFO STUDY GROUP - PO Box 1355 - Deland, Fla. - Urges Congress to initiate a NEW UFO investigation - based on the premise that from 20% to 30% of the UFOs investigated by the recent Colorado Condon Committee remained "unexplained" - as compared with 3% such listings by the Air Force during the same period of time... RECENT FLORIDA SIGHTINGS: A shimmering red globe UFO that cast fiery lights on houses in Pompano Beach on October 8 -- a FOOTBALL--shaped object with smaller satellite objects over Miami on October 20th. -- A huge red UFO near a car on October 31st. - a closeup encounter with a UFO by a Brevard Sheriff Deputy on November 6th. - A UFO with "occupants" near Lakeland on November 8 -- A lighted cigar-shaped object at Lake Wales on November 10th. - four orangish UFO's over St. Petersburg and Tampa on Nov. 10th. - Four UFO's that followed Melbourne pilots for 30 miles on Nov. 26th. - A report to the Coastguard at Englewood on Dec. 2nd. and a Dec. 11th. multiple witnessed encounter of a brightly lighted UFO by Florida Institute of Technology students on Dec. 12th...

\*\*\*\*\*

AERIAL PHENOMENA GROUP REJECTS REPORT ON UFO's - Washington - Jan. 10, 1969 - NICAP challenged today a report that discounts the possibility of unidentified flying objects being spaceships from other planets. Donald Keyhoe, told a news conference that the 1,500 page report prepared by the University of Colorado for the Air Force was a "waste of maney". It cost over \$500,000. Mr. Keyhoe, flanked by Dr. James McDonald of the University of Arizona and Dr. David Saunders of the University of Colorado, said the investigation examined only "about 1 per cent" of the "reliable, UFO reports supplied to it.".....

SCIENCE FINALLY GIVES UFOs NOD - (Headline) By PAUL HARVEY - Jan. 3, 1969 ...  
The dreamers always must precede the doers across new horizons. The ethical scientist has opinions, preconceptions, but dares not acknowledge them even to his colleagues. To the professional scientist all new ideas are theoretical until they are supportable with conclusive evidence. There is no evidence about "flying saucers". Most men of science, therefore, have expressed either disdain or disinterest in the subject. The handful of bona fide scientists who did want to speculate on UFO's found themselves in, the uncomfortable company of pseudoscientists, commercial cultists, pulp bookseller and crackpots.

CONTINUED

Last December's issue of the respected Journal of Aeronautics and Astronautics changed all that. In this technical publication the bigwigs of the esteemed AIAA subscribed to this very meaningful conclusion: "UFO phenomena cannot be resolved without quantitative scientific study; this matter merits the attention of scientists and engineers." Suddenly, the pooh-poochers were themselves refuted. Suddenly - officially - all Air Force and other studies conducted heretofore were adjudged inadequate. Suddenly - such men as Dr. James McDonald felt less alone... Dr. J. Allen Hyneck, head of the department of astronomy, Northwestern University now freely confesses his own "conversion"... He says, "I can no longer dismiss the UFO phenomenon with a shrug."

Other respected professional voices join the rising chorus, for Medical Times, Dr. Berthold Eric Schwarz, eminent psychiatrist, examined scores of UFO "observers", decreed that they are not psychotic, not suffering hallucination, not publicity-seekers. "More, on the contrary, fearing ridicule, are embarrassed to testify to what they saw." Notably, Dr. Schwarz, and his colleagues find among mental patients a total absence of any such "observations". So, concludes Dr. Swarz, "These reports are neither conscious nor unconscious fabrication. What they say they saw they think they saw!" .....

'FLYING CIGAR' -- Santa Barbara, Calif. - August 14, 1968 - Two families here reported seeing an unidentified flying object cruise slowly over the city at 5,000 feet last night. Mrs. George Grayson, said she saw "an extremely bright light" over the city at 8:20 PM, moving from south to north... An elder son, Malcom, 17, quickly mounted a 60 power telescope on a tripod. For three minutes the Graysons took turns looking at the aerial object, by then hovering directly overhead. "It was gray in color, cigar-shaped, with myriads of green, red and white lights twinkly like sparklers along its length." A private plane approached the object from the north, whereupon the lights in the UFO went out and it vanished in the night sky. Her husband called Vandenberg Air Force Base to report the sighting. A short time later a jet plane cruised the area...

"ANGEL HAIR" -- Sept. 18, 1968 - Steinbach, Canada - A report out of Canada states that on the 18th. of September at about 4:05 PM a farmer from the district of Steinbach saw a UFO shedding strands of "Angel's Hair." "I was outside on my yard looking up at my hayshed which I was going to paint," the farmer stated, "when I saw three gray, football-shaped objects flying over from north to south." He said that two UFOs appeared to be connected by a "long, white arc or loop" three times the length of the objects themselves. The third object was separate. The arc or loop which connected the two saucers, he said, "was white as steam" and appeared to be fraying near where it was connected to the one object. He called his wife to take a look at this strange sight which lasted about 15 seconds. The objects were estimated to be at an altitude of some two to three thousand feet. After the objects disappeared strange white strands of material began falling on power lines, trees and fences in the area. His 16 year old son collected some of the material, but noticed that most of it had disintegrated the next day. It was reported that scientists at the University of Manitoba are analyzing the floss-like stuff...

UFO LEAVES TRACES! Mrs. Pearl Christianson, of Gleeson, a pioneer Arizona rancher and teacher, reported seeing UFO's to the east of her ranch house on Aug. 26, 1968. At 10 minutes to eight that evening, while driving home, she saw a huge silver circular object seated on the south side of Brown's Peak. She sat in her car five minutes observing the object. As she went through her gate she saw a second object - very shiny and gold. It was stationary and once in awhile both would move simultaneously. With a pair of old field glasses she watched the objects, although the brightness hurt her eyes, until about midnight when they disappeared. She filled out papers for the Army at Ft. Huachuca, but a Fort spokesman said the Army would not investigate. "The Air Force has that responsibility." Mrs. Williard Mayfield, who operates the Gleeson Museum, also saw a bright light on the peak that night. The two women, 48 hours later, traveled up to the "saddle area" between Brown's Peak and Turquoise Mountain. They reported a strange, acid-like odor, and rocks so hot you could not hold them in your hand. An investigation by others noted individual sotol cactus plants badly charred at their bases, but not burned at the top. Others were burned by a fierce heat which left only the blackened base. Also, the peak had burned spots no more than four to eight inches in diameter. There were many dead clumps of grass and dry wood which were not touched at all. None of the fires appeared to have resulted from lightning strikes....

AKRON, OHIO - November 17, 1968 - While on his way to an Army Reserve meeting, Ron Croghan and his friend made this unusual and detailed UFO sighting. They were traveling south on the North leg of the Akron Expressway and were just approaching the bridge over the gorge. Ron, the passenger, was first to sight the object and called his friends attention to it. They slowed down to a crawl as did the auto in front of them containing a fireman and a batallion fire chief who also saw the craft. The UFO was a dull grey color and as large as a blimp. It was east of their position at a distance of no more than three miles. Football shaped at first appearance it seemed to be darting in and out of a very heavy overcast. The ceiling at this time of day was just 800 ft. At one point the object seemed to be disc-shaped and domed (much like a world war one helmet) Afterward, they likened the UFOs flight characteristics to that of a paper plate in a windstorm....

ABBEVILLE, LA. - NOV. 1968 - Residents of Abbeville have been seeing some very strange lights in the skies at night...the lights are aprticularly visible in the Monte-Blanc Subdivision where residents reported that the lights are different colors, move forward, backwards and sideways and on some occasions the lights were directed to the ground.... the dogs, horses and other animals become frightened when the lights approach the area... one man was so concerned he call a member of the Meridional's staff, who verified that the lights were in the skies... A television station was asked to run their radar to screen the area but the station reported no planes in the area at the time the lights were seen....

LATEST WORD ON PREDICTED UFO LANDINGS AND 'INCIDENTS' - "We also tell you, there will be 'MANY LANDINGS', which shall take place on your planet, beginning with the month you call MARCH, your year, 1969. This will continue through the month you call JULY, your year, 1969. These will be 'those' who are here to 'observe' your planet and its inhabitants. There will be many 'unusual occurrences and incidents.' Some of which, also, must be understood in their proper context. Many of these 'incidents' which you read in your 'communications media' are deliberately 'falsified' by 'certain departments and individuals' who are in 'league and cooperation' with other elements 'lying outside your system', who deliberately falsify and suppress information in your communications media.

... SOURCE: A SOLAR SPACE LETTER - SOLAR SPACE FOUNDATION - PO Box 622 - Joshua Tree, California - 92252 -

DATED: DECEMBER 6, 1968 - TIME: 9:30 PM -

SAME SOURCE AS ABOVE - DATED: Jan. 3, 1969 - "There will also be, very soon, in the program of your (NASA), perhaps, by the month you call JUNE or by the month you call SEPTEMBER (1969) An actual landing of manned personnel on your satellite LUNA. They are already aware of 'OUR INSTALLATIONS' on that satellite. You may see the 'pictures' which were taken of these 'installations', if your communications media and the Information Press Attache for the NASA GROUP allows... If you were aware of the information which was previously given to you in the year 1955, by one who called himself, Mr. George Adamski; he spoke of 'unusual lights' by which seemed to pass close inboard (the 'firefly effect') to the 'mother-craft' (which we call 'Klactas') in his 'trip' in the device

... Then - you also took note of those 'unusual lights' which passed close inboard, and then moved away at a differing vector angle from the capsule which you called Apollo 8. And - those who were inside this craft (Apollo 8) know full well 'our presense' and have received communication from us.....

VENICE, FLORIDA - Jan. 1st and 2nd, 1969 - UFO LIKES US ! Makes two visits! - A brightly lighted UFO with a "tail" of sparks like a comet was sighted at the SAME TIME on two successive nights last week over the Gulf of Mexico by at least two families of Venetians.... described as having a pulsating red nucleus surrounded by an orange-yellow corona and shooting out sparks from its right side as it took several minutes to disappear from sight over the water.....

SOURCE: VENICE GONDOLIER - JAN. 6, 1969

CREDIT: Mr. Ed Owens - PO Box 3033, Sarasota, Fla. 33578 -

A complete resume of more Florida reports will appear in the March Issue..... including a large-scale power-blackout which engulfed the entire East Coast and other portions of Florida..... and the appearance of the 'monitor' spy discs - over Florida UFO researchers homes..... and an 'almost roof-top' landing!

## SUMMARY OF CRITICISM OF THE CONDON REPORT - 1969

BY JOHN A. KEEL

1.) One would expect that the report of a scientific project commissioned by the U. S. Air Force and instrumented by a major university (Colorado) at a cost of over \$600,000 to the American taxpayers would reflect total objectivity and would not take sides in any controversies. However, portions of the Colorado University "SCIENTIFIC STUDY OF UNIDENTIFIED FLYING OBJECTS" read like a cheap novel. Many distinguished and dedicated UFO researchers, such as Major Donald Keyhoe, Dr. James McDonald, John Fuller, etc. are repeatedly attacked in the text, often pointlessly, and the head of the Project, Dr. Edward Condon, has permitted the report to serve as a platform for his own peevish and general vindictiveness. A large part of the report is therefore neither scientific nor objective.

2.) Over 50% of the Colorado Report consists of reprints of old Air Force releases and often irrelevant papers and essays on astronomical, meteorological, and other mundane phenomena. These materials were obtained at little or no expense to the project and serve only to "pad" the report. Many of the charts and graphs included date back to the early 1950's. NO effort was made to update these materials.

3.) No effort was made to collect, correlate and present accurate data on the thousands of UFO reports received and allegedly studied by the project during the 1966-68 period. The deletion of even a basic total of the number of reports received is inexcusable.

4.) The individual sections of the report are filled with contradictions. It is obvious that the various contributors were unfamiliar with the research and findings of their own colleagues. The report is very poorly organized and appears to have been thrown together at the last minute by a group who was neither informed nor interested in the subject.

5.) The contents of the report do not justify the great expense involved. The same kind of report could have been assembled by any Madison Avenue publishing house for a few thousand dollars at the most.

6.) Of the project members who worked on the original investigations and studies only a few remained to actually contribute to the final report. The work and efforts of the original staffers seems to have gotten lost in the shuffle. Only 59 reports are examined in depth and 10 of these are from the pre-project period of the 1950's. No overall tables, maps and graphs analysing these 59 cases are included. They are treated as individual anecdotes even though Dr. Condon openly deplures "anecdotal data" in other sections. Obviously, no practical methodology was developed by the project and no attempt was made to deal with the data as a whole.

CONTINUED

7.) Much of the Colorado Report has a tone of embarrassing naivete, and Mr. Samuel Rosenberg is perhaps the most naive of all when he makes a simple-minded attempt to compare the contents and literary style of the "Tulli papyrus" with the biblical account of Ezekiel's wheel. He apparently was unaware that this papyrus was first translated from ancient Egyptian into Italian and then into English. It was translated in the 1930's by men working in the religious atmosphere of the Vatican. Nor did Mr. Rosenberg realize that traditionally the best work is always done by "amateur" Egyptologists; dedicated and scholarly men with a wide background in history, science and linguistics. Several months ago Pentagon informants told me that Mr. Rosenberg was being paid \$10,000 for his essay on "UFOs In History". Dr. David Saunders states in his book, "UFOS? YES!", that Mr. Rosenberg received \$3,200. In either case, he was grossly overpaid for a modest rehash of material from Trench, Thomas, Vallee and Fort. His chief claim to fame is an article on Frankenstein which he wrote for LIFE several years ago.

8.) The Colorado Project clearly represents a conscious effort to satisfy the needs of the Air Force contract, but does not indicate a sincere effort to collect and examine the basic UFO data. It's main theme is the impracticality of the extraterrestrial thesis. A genuinely scientific study would have first collected sufficient data to determine whether or not a phenomena existed at all. Then all the various theories would have been studied and compared with the available data. Sighting factors of time, geography, terrestrial features, the correlative aspects in the witnesses' backgrounds and features in their reports, must all be sifted and weighed before any theory can be considered. This type of systematic study was not undertaken. Instead, the project treated the reports individually. They repeated the common mistake of the civilian UFO groups and tried to prove or disprove the individual events. Doctors seeking a cure for cancer do not study individual cases. This is the routine scientific method and should have been applied to the UFO phenomena from the outset.

9.) We must question the quality, validity and integrity of the Colorado Report. We must ask for a complete accounting of the use of public funds. Instead of giving us a useful analysis of the over UFO situation, Dr. Condon has given us another paperback filled with garbage which he should have reserved for his memoirs. The report does not really answer any intelligent questions. With only a few exceptions, we must also seriously question the qualifications and competence of the man who were directly employed by this study...

John A. Keel  
Box 351 - Murray Hill Station  
New York, N.Y. 10016

---

SCCOOPNOTE: I am sure that Mr. Keel welcomes any and all comments on his article. What he so aptly said goes for all of us here at SCOOPHOUSE..... Round # 2 --- Coming up!

## TENETS OF THE ALTERNATE REALITY THEORY

by

Allen H. Greenfield, Executive Director  
Foundation for Philosophic Advancement

The points herein stated are not to be regarded as a matter of final understanding but rather are points of working theory, suggested by certain trends in the available evidence. These points do not reflect directly upon the opinions of those other than the present writer, nor do they reflect official policy of FPA.

- (1) The universe-framework wherein we reside is in fact only a portion of the totality of reality. True Reality in full perspective is made up of an unknown number of realities, each with their own scientific laws which may or may not coincide with the corresponding laws in other universe-frameworks.
- (2) These realities are quite separate in that they can exist in what appears to be the same point in space and/or time without overt influence of a visual, tactile or other nature upon one another.
- (3) The separating factor between these realities may be partly of a physical nature, but also possibly of a partly psychological nature. This separating factor can be overcome and in fact is overcome both in nature at certain coinciding points or reality warps on a temporary or permanent basis, and through artificial means.
- (4) Artificial transition through this barrier may be affected through the utilization of various forces of either mechanical and/or psychic nature.
- (5) Such reality translations have in fact been affected through the utilization of countless occasions between our own universe-framework and one or more other universe-frameworks.
- (6) While overt contact has not taken place within modern times, the inhabitants of one or more alternate realities have been in touch with human beings throughout the history of mankind.
- (7) Some of this contact has been for purposes generally friendly to mankind while other contact has been for neutral and directly hostile purposes.
- (8) A purpose of the latter seems to be the domination of mankind through covert manipulation at times, overt control at other times.
- (9) Contact is at present so integrally tied to mankind that it is ubiquitous. An unknown number of human beings are in a covert cooperative relationship with these beings.
- (10) Of the forces malevolent to mankind, there is a sub-group which seems virtually purposeless in the action; a degenerate sub-group or a group from another alternate world than those described as being similar to humans. This sub-group seems to constitute the "little man" type as opposed to the more nearly humanoid.

CONTINUED

(11) One group of entities seems to be interested in combating the malevolent forces. These may in fact be wholly or partly a group of humans living in symbiotic relation with mankind as we know it. They may be the descendants of an ancient Earth civilization, possibly destroyed by the outsiders.

(12) Beings from other planets as well as other realities may be involved in this struggle.

The theoretical possibilities of variation on these points are diverse. One variant of a historical revision follows:  
In legendary times a civilization on Earth developed a high degree of technology, advancing into astronautica and beyond. This civilization developed contacts throughout our universe with alternate worlds. Some of these contacts proved friendly, while others led to hostility. The Earth civilization held its own for some time, but was eventually laid waste by its enemies and fell into ruin, plunging Earth into a dark age. The remnants of this civilization, however, aided by those outside forces of a friendly disposition, continued to hold some influence on the Earth and continued to exist as a diffuse group within the new civilization that developed on Earth. These new civilizations were much inferior and constituted the civilizations of, in conventional history, ancient times. The remnant of the old civilization now manifested itself in society in the form of "gods", "Magicians" and "mystery cults".

... The Remnant's plan seems to have been working quite well with setbacks off and on until the first few centuries of the common era. At that time the anti-humans made enormous gains and human civilization fell into disarray... It is beyond the scope of this paper to deal with the details of evidence that could lead one to the above hypothetical reconstruction of history. However, the area to look in would be that of an expanded study scope of human history, incorporating a non-mythic assessment of phenomena previously considered mythic or considered from a supernatural rather than a rational scientific standpoint, e.g., the serious consideration of "little men" myths of history as objective, albeit somewhat distorted fact rather than superstition or subjective psychological phenomena, in light of modern research...  
Including possible association in modern times with the UFO phenomena.

Such historical reconstructions potentially give us, if not a true picture of history, a more realistic set of alternatives than those offered by more conventional concepts of human development. There is another point, too, that might be of help... perhaps the most startling point of all and, in this listing it is

(13) That outside space, outside of time, there exists a malevolent force interested in manipulating human history to its own ends.

Or, in theoretical reconstruction, sometime in the future mankind is destined to triumph. And something, outside of time in the usual sense has for aeons been attempting to manipulate things to form a different conclusion, while something else has been trying to counteract this manipulation. If this is true, we deal with something a good deal more profound than "little green men from Mars". A good deal more.....

Mr. Greenfield welcomes all comments - Write to the below address -

## SAUCER SCOOP

### "Thing From Space" Worth \$1000

Lawrence Holland, a Gastonia, North Carolina salesman, found a black, cone-shaped object near Worthville on September 5th, 1968. He brought the object to Dr. Vanselow, a professor at the University of North Carolina at Greensboro, for examination, and the doctor said he believed the 153 pound object had "passed through the atmosphere." He stated scientists would be interested in further examination. While the value is hard to establish, Dr. Vanselow said "it is intrinsic as a museum piece."

The Tysengers, who now own the object, have been offered a \$1000, and a museum in South Carolina offered to trade two antique muskets of high value for the cone-shaped object.

Meanwhile, hundreds of people are coming every day to Worthville to look at the strange find and guess what it is and how it came.

### WAS DR. JESSUP MURDERED BY THE 'SILENCE GROUP'?

The mystery of Dr. M.K. Jessup is one of the strangest in the history of Ufology. His death, officially labeled "suicide", has been widely questioned by researchers who knew the noted astronomer and UFO investigator well.

There was, for example, the case of the strange annotated books, and the secret edition of one of Dr. Jessup's books titled "The Varo Edition".

These annotations, together with letters from a mysterious Carlos Allende, told of an alleged secret Naval experiment and of disappearing ships and men.

"THE STRANGE CASE OF DR. M.K. JESSUP" is a volume which explores these mysteries, along with other facets of Jessup's strange actions before death. Did Jessup follow up his intention, outlined in letters to close friends, to communicate after death? Dr. Jessup's interest in psychic and occult subjects is explored fully, with verbatim quotations from the famous Mark Robert.

Did Jessup "Know too much"? Did he take his own life rather than to face the terrifying truths he had learned? "THE STRANGE CASE OF DR. M. K. JESSUP".

## SAUCER SCOOP

### "THE END OF THE" INVADERS

the cancellation of "The Invaders" T.V. Show was not due to poor viewer ratings as announced, but that the real reason was due to the impending resignation of Roy Thinnes from the title part. It is said that Thinnes has been threatened on numerous occasions when the show dealt with topics "too hot to handle". When reached for comment, Thinnes would say only that, "I have no comment other than the fact that there is more truth behind the TV plots than most people realize."

### Astronomer Changes His Mind About UFOs

"Hogwash," was Dr. Hynek's reaction to UFOs when he was called as a scientific consultant to Wright Patterson Air Force Base, near Dayton, many years ago.

But he has changed his mind since that time.

"It is now a scientific problem," says Dr. Hynek, chairman of the Astronomy Department at Northwestern University, and consultant on UFOs to the Air Force since 1953.

"I would like to see UFOs put on a par with other scientific problems."

Dr. Hynek classified sightings on a double scale. This scale includes a strangeness index, sightings with no logical or scientific explanations, and a credibility index based on the reliability of people reporting the sightings.

He said that competent research has been held back because scientists, the public and the press pay more attention to hoaxes than to reports which "have remained a mystery for over ten years."

"To say our planet is the only part of the universe to have life is like saying 'my cat is the only one that can have kittens.'"

"Not one sighting," complained Dr. Hynek, "has been given the interest and thorough investigation of a major crime in the U.S. I deplore the lack of scientific talent and equipment to investigate UFOs."

"Unfortunately, I personally have never seen a UFO. I am disappointed and feel left out."

To report a sighting, contact Dr. Hynek at the Department of Astronomy, Northwestern University, Evanston, Illinois.

"If you see an object,"

says Dr. Hynek, "first get witnesses. Try, if possible, to get a photograph. When estimating speed, size, shape and brightness, use the artist's tool of thumbnail and some distant object for comparison."

SIXTY YEARS AGO !!!!

(From the DAILY TIMES (OTAGO, NEW ZEALAND) dated July 23, 1968, comes this extract of "THE GREAT AIRSHIP MYSTERY") ...

The Great Airship mystery of 1909 filled newspaper columns for weeks and gave rise to wild speculations. Was it a fact? Was it a wonderful hoax? Or was it the start of the Flying Saucers from outer space theory?

The first sighting, mid-July, 1909, concerned mysterious lights in the sky, thought to have been attached to an airship, over the Wangalon Hills, near Ka-itangata. However, at the time, airships hardly existed outside the pages of Jules Verne! The story was received with some incredulity but as the witnesses were of unimpeachable integrity the OTAGO DAILY TIMES sent its Kelso correspondent to check eye-witness accounts. He reported: There is not the slightest doubt that the airship was seen at Kelso... It is cigar shaped or boat shaped and is pointed at each end. It did not appear to be very long but was very broad... It flew over and past the school grounds, turned around and went back the way it came. It was flying along very easily and had no trouble in turning. It came from the direction of the BLUE MOUNTAINS and over the wooded area near Kelso. It was seen by at least five persons whose statements are in accord. The following day came reports that "the thing" had been sighted by people on the other side of the BLUE MOUNTAINS and later, by people again on the Kelso side...By the next night the light had been seen further south, near Auckland.

Sighting reports continued even as inventors related their experiments and youths told of practical jokes with balloons. Suggestions to solve the mystery were varied - a spy machine, an Australian smuggler ship, local secret airship, cosmic luminous dust of meteoric or cometary origin. The meteor theory was the most popular though the behavior of the lights, as attested to by reliable citizens did not fit the pattern.

August 6th the airship was seen again near Kelso by 10 hitherto skeptical workman, who described it as a cigar shaped balloon with a carriage suspended below. It had a powerful white headlight and changed altitude steadily several times. Other reports continued for a time until the news was pushed aside "by the wreck of the MAORI off Capetown and the greater mystery surrounding the loss of the liner WARATAH."

Long afterwards came a story that a collection of rusty machine tools had been found deep in the brush of the Blue Mountains. Questions continued: "Where had they come from?" "Were they actually from the mystery ship?" "Was it all a gigantic hoax, if so, why did its perpetrators keep it so secret?" Or was it some sort of mass hallucination, possibly induced by some meteorological phenomena?

There is still no easy answer to these and other questions. Sixty years ago the thought of airships in Otago was a far wilder idea than current speculations that flying saucers are really from other planets. "The Kelso mystery may indeed have been a colonial forerunner of today's UFO's."

Earth's Wobble May Cause Quakes - Climate Changes -

SOURCE: New York Times and the DESERT ENTERPRISE - Nov. 29, 1968)

A WOBBLE in the earth's spin may be responsible for such diverse phenomena as earthquakes, periods of mountain-building and climate changes. This is the conjecture of Dr. James Heirtzer, head of Columbia University's Hudson Laboratories at Dobbs Ferry, N.Y. His proposal is an elaboration of a Canadian report that has created a stir among those who specialize in analyzing the motions of the earth. The Canadians have found a seeming correlation between major earthquakes and changes in the drift of the earth's spin axis.

The Columbia scientist has played a leading role in research that has led to wide acceptance of the concept of sea-floor spreading. This concept is that hot plastic rock flows upward constantly - or intermittently - into mid-ocean ridges, such as the one that bisects the North and South Atlantic. This rock cools and is pushed away from both sides of the ridges by the arrival of new up-flowing material. In this way ocean floors move slowly away from the ridges towards the continental margins. In some places, such as along the coast of Chile or in the Western Pacific, this material bends downward under the activity, and frequent earthquakes, some of them at depths measured in hundreds of miles. What Dr. Heirtzer has found is that this sea-floor spreading tends to be symmetrical around axes that parallel the earth's magnetic axis. BOTH, in turn, seem to be controlled by the earth's spin axis.

In other words, the spin of this planet seems to control the process, deep within the earth, that generates most of its magnetic field. It is this magnetism that causes a compass needle to point towards the North Magnetic pole. The pattern of sea-floor spreading is such, according to Dr. Heirtzer, that it too seems to be governed by the earth's spin, even though it varies from ocean to ocean. Hence he believes the correlation between major earthquakes and wobbles in the Earth's spin can be traced to this same flow of material across the oceans and beneath the continents.

... Every few months, according to his hypotheses, "there are changes in the earth's rotational motion that affect sea-floor spreading and cause the earthquake associated with it. If such a change is large enough, it may even reverse the earth's magnetic field." As for climate, he said, it seems that "rather minor variations" of the earth's rotational axis "can affect to a surprising extent both the climate at the surface of the earth and forces and stresses within the earth/" Heirtzler also noted that some scientists have recently speculated on a relationship between reversals of the earth's magnetic fields and episodes of mountain-building. This would attach even more significance to the wobbles of the earth's spin.

Furthermore, he pointed out, it has been found from fossils in oceanic sediments that the population of the sea has changed coincidentally with reversals of the earth's magnetic field. In such reversals, a compass needle that previously pointed NORTH would swing to the opposite direction.....

QUESTION ??? UFO's are suddenly around when an earthquake occurs - in some cases they have been noted flying over the area if a FORMATION sometimes resembling Greek letters - a few days BEFORE a major earthquake occurred - to many it has seemed to be a warning..... WHY ?

BUBBLE !!!

BUBBLE !!!

(TOIL AND TROUBLE)

(The following two reports are from the DAILY MIRROR, an English newspaper. Both are letters from readers, and the dates of the sightings are unknown. From the Dec. 30, 1965 edition...)

Mrs. A. Metcalf of Mountinroad, Chessington, Surrey, writes: "I was surprised to read the letter from Mrs. Shiela Hadley, of Hampton, Middlesex. I, too, saw the mysterious objects shw wrote about. About 5AM one morning recently, not feeling well, I was up and looked out the window. I saw this object, like a GOLDEN TENNIS BALL, flash through the sky over the rooftops. I haven't told anybody about this, as I thought at the time I was having hallucinations."

LETTER: Mrs. Hadley (Highstreet, Hampton, Middlesex) I have just witnessed a mysterious thing hovering over the road at rooftop level. In a few seconds it whisked away out of sight gaining heighth steadily - not as a bubble would on a gust of wind - but - traveling at tremendous speed for such a small object. It was approximately the size of a tennis ball and closely resembled a bubble when I first glanced out of the window. When in motion it was more like a saucer.

...

DAILY MIRROR: Jan. 3, 1966 - Letter from Mrs. S. Onions of Ash Tree Road - Redditch - "How pleased I was to read the Mampton reader's account of a mysterious flying tennis ball because everyone laughed when I told them about a "bubble" I saw some years ago. We were living in a second story flat. I was looking out at the blizzard, the snow racing across the window, when I saw this tennis ball sized "bubble". It was clear as glass and despite the gale - NOT MOVING AN INCH. It just hung there and I couldn't believe my eyes. Then it moved across the wind and over the housetops at an uncanny speed."

SAME DAILY MIRROR: Letter from C. O'Neill of Meadroad, Egware, Mddx - "I saw an object like a cross between a bubble and a saucer -- at Hendon some four months ago. At first I thought it was a balloon, but then it moved off at tremendous speed."

DAILY MIRROR: Jan. 7, 1966 - Letter from Mrs. C. Colville, Horndon-on-the-Hill - "A few weeks ago I saw a tennis ball sized object speeding at rooftop heighth over the field behind our house. It glowed a beautiful green and then suddenly vanished as if the light had been switched off, or it had entered a waiting larger vehicle. My husband saw the same thing the next day."

SAME MIRROR: Mr. T. Ikin, Newcastle-under-Lyme - Staffs - "Early in the morning of December 14 several workmates and I saw a blue glare in the western sky. As the glare died, a glowing ball shell fell in a short arc. There was no noise."

SAME: Mrs. G. Wheatly, Hornchurch, Essex - "I saw a transparent object, the shape of a large saucer, going up and down in the sky and moving away from me."

Mrs. A. Milnes - Cowley - Middlesex - "On the evening of December 18 my husband and I were badly frightened by a cone-shaped light which flashed past the tree-tops at the end of our garden. We waited for an explosion, but nothing happened."

SS-Says- MORE on these elusive 'Trouble-Bubble's' next issue!

## BAGGED BY A SASQUATCH !!!

by

JOHN W. HOPP

(Reprinted from: UFO SPOTTER - 6419 Alexandria Dr. - Parma Hts., Ohio)

The story you are about to read is true, an affidavit was even signed to insure the authenticity of this story. It happened sometime in 1924, behind Toba Inlet, which is on the coast of British Columbia, Canada. A retired lumberman of Swedish descent, whose name is Albert Ostman, was reportedly kidnapped by a Sasquatch!

Mr. Ostman was planning on taking a quiet vacation in the dense area of Toba Inlet, with a little prospecting on the side. He hired a guide to take him in the woods, but the Indian said he would only go so far because of the giant hairy, "Wild Man of the Forrest".

Mr. Ostman camped on the shoreline, slept in a sleeping bag, and kept his provisions well above the ground. When he woke up in the morning, he noticed that his food was disturbed. Mr. Ostman decided that he would keep watch for the next couple of nights for any intruder. He crawled inside of his sleeping bag with his loaded rifle. All of a sudden he was picked up like somebody would carry a sack of potatoes. Whatever it was, was strong, because it also picked up a fifty pound knapsack of food supplies.

For the next three hours, Mr. Ostman was carried up hills, down valleys, and through streams. All during this time he was unable to get out of the sleeping bag. Suddenly he was dumped on the ground and he started to hear weird voices, but none that he could understand. He tried to crawl out, but it was useless because his legs went numb. He decided to stay in the sleeping bag until morning to see who his abductors were.

When he opened the sleeping bag in the morning twilight, he saw four large creatures that stood on their hind legs like humans. His captors consisted of two big, man-like beasts (male and female) and two younger ones, (also male and female). The two big Sasquatch appeared to be the parents and the smaller ones the children. He noticed that the Sasquatch were a little afraid of him, so he tried to escape. Immediately, the "Old Man" stopped him. When this happened, Mr. Ostman figured that these creatures were intelligent, which meant he would have to plan his escape carefully. With what provisions he had with him, he set up camp and tried to be unafraid of these weird "Wild Men of the Forrests."

After a couple days of having the Sasquatch watch him, he decided to observe them. He described the large male ("Old Man") as about eight feet tall, barrel-chested, powerful shoulders, and a large hump on his back. He had wide sweeping palms with short stubby fingers. His whole body was covered with hair, except his face, and the palms of his hands. His feet had some sort of dog-like pads on the bottom. The "Old Man's" hair was a black-brown color. Mr. Ostman noticed that he had large canine teeth, almost like a "vampire" like appearance.

CONTINUED

The adult female was a little over seven feet tall and appeared to be about sixty years old. She was very ugly by human standards. She had an enourmously wide pelvis and that made her walk like a goose. Mr. Ostman noted that she had long, large breasts.

The young male of the group spent most of him time with Mr. Ostman, so he was able to observe him best. He was about six feet tall, aprox. 300 pounds and anywhere from 11-18 years of age. The young male never tried to harm him (neither did the others) and he gave him a variety of herbs to eat. In return He gave the Sasquatch a box of snuff, the creature ate it, bit by bit.

The young female never came near Mr. Ostman but she would watch him from behind bushes, he said that she was very shy, which meant he wasn't able to watch her as well as the others. The only thing that he could say about her was that she was about 10 years old, and about five and one half feet tall.

Although Mr. Ostman decided he wasn't sure what they were, he said that they appeared to be more human than monkey. Sometimes they would make sounds like "ook" and "sooka-sooka", other times they would just make low grunts. He noticed that they had a terrible smell on them. Mr. Ostman said that they had an incredible climbing ability, all that they needed was a foot hold for their big toe. All during the while that he was a captive, he saw many strange sights that human beings could not possibly duplicate. They acted very primitive.

Mr. Ostman decided that one week was long enough to be a prisoner. He wanted to get out. The next day when the males were out of camp, he devised a plan that he thought would work. He picked up his knapsack and rifle and made a run for it. The "Old Woman" tried to stop him and he fired a shot into the air. She immediately fled in terror. Ostman kept on running until he thought he would collapse. He looked back, not a living thing was in sight. His plan succeeded, but it never would have unless the males were out of camp. Mr. Ostman looked into the distance and saw a lumber mill, he got up and started to run for the camp. He soon reached it and was given food, protection, and clean clothing by the lumberjacks. He knew he was safe now.

\*\*\*\*\*

CAPTURED !!!! ONE MAR'S MOON !!!! Dr. S. Fred Singer, long prominent in space research, says the U.S. soon should adopt a new goal of sending astronauts on flights past planets - with possible siezure of a MARTIAN MOON. These flights, which he says could be achieved within the next 10 to 15 years... would last two to three years each... He's dubious about extensive exploration of the earth's moon.

... Scientists are particularly interested in the two moonlets that orbit Mars. The moons are so small that they probably never experienced volcanic action and thus are reasonably undodified. "They may provide an example of primeval stuff." "They offer us a very unique chance to look at something from the very beginning of the solar system -- at ORIGINAL JUNK.... "Astronauts in orbit around Mars could tie up to one or both these bodies and take samples," says Singer. "They could even bring Deimos back to earth, and thus rearrange the solar system."

SCOOPSAYS: Reckon there just might be SOMEONE up there who would object to being called "original junk" and perhaps they LIKE the solar system UN -rearranged..?.

UFO MAPS !

UFO MAPS !

UFO MAPS !

- MAP (A) Shows the UFO concentration of activity in three different categories in the continental U.S. The three catalogs are graphically shown so as to give the viewer instant tabulation of UFO sightings at a glance. A must for all UFO enthusiasts. ( )
- MAP (B) Shows the most famous 100 UFO sightings from 1947-1967 in the continental U.S. Each sighting gives the viewer instantly the location of UFO sightings in each state, as well as possible straight and/or curve line theories of flight by UFO's. ( )
- MAP (C) Shows the most published 50 UFO landings recorded in UFO-logical history in the continental U.S. Each landing shows immediately the location to the viewer for quick, easy reference. Designed for the UFO researcher. ( )
- MAP (D) Shows where UFO occupants or aliens, monsters, etc. were seen in the continental U.S. This map also indicates if a UFO was near the occupant at the time of the contact or not. An Excellent tool for UFOlogical research. ( )
- MAP (E) Shows the most fantastic UFO landings in the world. This map will help pick out in an instant the 75 world UFO landings. UFO researchers should have this at their fingertips. ( )
- MAP (F) Shows the major and minor UFO organizations of the world. Great for the student UFO researcher who needs, at a moments notice, the number of UFO organizations of any consequence in each country of the world. ( )
- MAP (G) Shows the "Angel Hair Falls" throughout the continental U.S. from 1947-1967. This map indicates the one of many mystery falls. ( )
- MAP (H) Shows the "Angel Hair Falls" throughout the world from 1947 to 1967. This map ideally indicates to the hard-core UFO researcher the Angel Hair Falls at a glance. ( )
- MAP (I) Shows the "Magnetic Effects Cases" in the continental U.S. from 1947 to 1967. This map will be a powerful tool to the hard-core researcher. ( )
- MAP (J) Shows the "Magnetic Effects Cases" throughout the world from 1947 to 1967. This map, along with other world maps in this series, is a must for all UFO researchers. ( )

ROBERT F. KENNEDY  
NEW YORK

United States Se  
WASHINGTON, D.C.

Are U.F.O.'s real.

Dear Readers:

As you may know, I am a card carrying member of the Amalgamated Flying Saucers Association. Therefore, like many other people in our country I am interested in the phenomenon of flying saucers.

It is a fascinating subject that has initiated both scientific fiction fantasies and serious scientific research.

I watch with great interest all reports of unidentified flying objects, and I hope that some day we will know more about this intriguing subject.

Dr. Harlow Shapley, the prominent astronomer, has stated that there is a probability that there is other life in the universe.

I favor more research regarding this matter, and I hope that once and for all we can determine the true facts about flying saucers. Your magazine can stimulate much of the investigation and inquiry into this phenomenon through the publication of news and discussion material. This can be of great help in paving the way to a knowledge of one of the fascinating subjects of our contemporary world.

Sincerely,

*Robert F. Kennedy*
