NON-SCHEDULED NEWSLETTER - Vol. 23, No. 30

This issue is dedicated to Ruth Netherton and Eugene R Steinberg

U.S. Moves on Moon Aliens

By Eugene L. Meyer
Washington Post Staff Writer

The above is a genuine newspaper headline, written for a legitimate newspaper by a staff writer for the Washington Post. We have not ascertained which paper(s) it was published in, and we don't have the text of the article; but it does appear to indicate that there are exciting Ufological things going on which the general public is blissfully unaware of.....

ALMOST VERY IMPORTANT: If a star (*) appears after your name on the envelope in which you received "Saucer Flus," this means that you are about to be thrown off the non-subscriber list, UNLESS you drop us a line of some sort very soon. If there is no star (*) after your name, you are safe at least for the time being.....

Maybe John Keel really hates us by now, as we haven't received a Hate Letter from him in a long time. He is rumored to be in Switzerland at the moment, to undergo the world's first personality transplant. Good luck, John!.....

Among the mail we haven't Space to reprint or comment on in detail: Reams of material from George Fox of Manhattan, a fine gentleman of good will, whose theories puzzle us as much as Laura Mundo's.....Also, Vol. 1, No. 2 of "Crossroads Quarterly," a UFOish New Age sort of zine, published by two well-meaning, sensitive & intelligent young people. 75¢ per copy from Suncat Enterprises, 1471 Second Ave., #19; New York, N.Y. 10021.....Also, "UFO Rundown" by George Holcombe III, alias "Hoppy" (6 issues for \$2; 6905 Eunice Drive, Riverdale, Ga. 30274.)Also, another issue of the newsletter published by our old colleague Jack Robinson, aptly titled "The Robinson Report." We won't give the address, as he wants to keep the mailing list small. (It would stay small even if we did give it!).....

Speaking of old colleagues, August C. Roberts has thrown in the towel on his life in New Jersey, and has headed down to the west coast of Florida. Your "Saucer Flus" editor recently took an overflowing carload of Augie's UFO books and magazines to former UFO personality Gray Barker in Clarksburg, W. Va. It seemed that ole Augie had to either give them away or throw them away - after a lifetime of collecting.....

Hey, gang! Does anyone remember the mysterious "Dr. D" of the early 1950's, later identified as Dr. Leon Davidson, a scientist living in White Plains, N.Y.? He has just brought out the 5th Edition of a book called "Flying Saucers: An Analysis of the Air Force Project Blue Book Special Report No. 14!" This contains all sorts of additional material about the CIA, the Air Force, and other occult groups. Send \$4.50 no later than Jan. 15th to: Blue-Book Publishers, Room 5A, 64 Prospect St., White Plains, N.Y. 10606. A gem!

Finally, two newspaper items that caught our eye: The first is about a new book called "The Twelfth Planet" (Stein & Day, New York), by a Russian businessman and Jewish scholar named Zacharia Sitchin. Following Von Daniken's basic theme, but hopefully with more truth and research, Sitchin contends that god-like beings arrived on Earth from another planet 450,000 years ago, mainly in search of gold for their advanced electronic systems. Our old friend Yonah ibn Aharon contends that much of the material was stolen from his articles in SAUCER NEWS years ago, and who are we to argue.....The other item is about a young woman from Calcutta, India, who can find the cube roots of three-digit numbers with greater speed than a computer, and equal accuracy. She can also tell you the day of the week you were born on, if you tell her the date of your birth. The woman, other than her weird mathematical abilities, is apparently of only average intelligence. Which simply proves that there are indeed powers of the Mind that we do not yet understand at all!

Letters to You-Know-Who:

From Ruth Netherton, a long-time UFO, Bible, & Country Music Fan: "I suggest you drop your juvenile, vulgar terminology, of changing Fort Lee to Fart Lee, etc., etc. It is so juvenile looking! Grow up, for heaven's sake....."

Fart-unately, we have finally outgrown this childish habit. - Editor.

We have recently received the following missive, from one Patricia Barringer of the Universal Life Church, Inc. (The current address appears to be 601 Third St., Modesto, Calif. 95351, in case anyone wants to send in a Donation and become a Minister.) Ms. Barringer writes: "Rev. Hensley has asked me to write and thank you for your letter of Oct. 24th. He is sorry that it has taken so long in answering, but with the publicity and mail that came as a result, he has been terribly busy. I am sending you the Honorary Doctor of Divinity Charter (just for your information), and two issues of Universal Life....."

Bob Schiller writes: "'Saucer Phews' is the first publication to dare to tackle the 'Smellies,' probably the Key to the odors accompanying the appearances of the Sasquatch. It looks like the way to catch the elusive Sasquatch is to patrol bean patches and onion fields. It must be that Sasquatch encounters with humans are so frightening that one or the other, or maybe both, have to pass some gas. Could this be the power behind the UFOs? ".....I think the Universal Life Church is on the right track. A recent issue of the National Enquirer exposes the billions that the Vatican claimed it didn't have, and shows that the established churches are shaking down the public. So why can't the average citizen get a piece of the tax-free action too!....."

Former UFO personality Gray Barker writes: "Have received 'Saucer Pews' and read it religiously, as I do all your issues. I am 100% in agreement with you regarding the Universal Life Church. I am not only a Minister in this church, but two years ago I was awarded a Doctor of Divinity Degree (complete with frame) by this organization.

"In comment upon people comparing themselves to other researchers, please be advised that I am still The Greatest."

Steven Elliott writes: "Thanks for the excellent Nov. 20th ish of 'Saucer Pews.' Your lead article, 'Yes, Virginia, Every Man IS a Minister!', agreed with my own philosophy of such matters in many respects. However, I am wary of the U.L.C., because you do not have to pay Kirby J. Hensley to become your own minister. You may live as you believe without financially supporting Hensley or his U.L.C.

"As you may have noticed in a recent issue of 'Ufology Notebook', I agree with the stand of Hilberg and yourself as regards the National UFO Conference. I believe the NUFOC is a viable, pliable vehicle for Middle Ufological thought, opinion, and action....."

Rev. Janice Croy writes: ".....I am a legally ordained minister of the Church of Gospel Ministry, a missionary church, and all it cost me was \$10. I have a certificate of authority here in the state of Colorado.....that gives me the legal right to perform marriages, etc. Not all people who become ministers without having to go to simenary (sic) school for 7 years are doing it for the money. It is a fact of law that the afore mentioned 7 years are not required.

I have always wanted to be a minister but knew that I could not afford simenary (sic) school, so when I learned of the Church of Gespel Ministry I wrote in & learned what I needed to do. I am a deeply religious person by nature & know the Bible quite well. So Jim, at least I am a minister for the right reasons. Part of my ministry is preaching about UFOs, etc.....I hope you will think about being a true minister, and what the implications are. I had a lot of thinking to do before I sent in the money, and it took me 5 months to decide that it was the right way. So good luck Rev. Moseley, & may God give you great insights to Ufology or whatever."

From William H. Spaulding, Director of the Western Division of Ground Saucer Watch: "In your last newsletter ('Saucer Phewe') I noted Robert Dickhoff's sarcasm on the GSW computer-aided photographic evaluation of the 'flying thumbprint' photo. In objective re-

searching, it is so easy to be critical of a fellow ufologist's work, especially if one does not understand the technical advancement of analyses systems.

"In regard to the Dickhoff photograph, our evaluation was extremely detailed. We utilized our well-established program for footprint enhancement and then reversed it for this picture. Additionally, we sent a copy of the 'thumbprint' to the renowned Dr. Hynek, who upon review of the same, proclaimed it, 'an authentic artifact from a nuts and bolts source.' He further stated it was very similar to the fingerprints observed by Travis Walton, from a non-gloved wearing creature, during his famous Arizona abduction. It is obvious that ufologists are not ready for computer techniques or science.

"We appreciate your newsletter as a refreshing change from the normal UFO ravings of abductions with regressive hypnosis."

Lama Robert Dickhoff writes: "May I jot down my odyssey (sic) in the astral world on 10/26/76. A noiseless, bright Dum-Dum-shaped spacecraft was sighted by the entity Dickhoff possessed astrally, landing on a small hill. Climbing the hill, I was invited to enter the strange craft by one of the white dwarfs demanding that I give the 'password', which I then remembered. The crew consisted of five dwarf Beings, each one manipulating some sort of computer device. The one which welcomed me inside, spoke English, but among themselves they spoke a gibberish I was not able to understand. Later the crew picked up three girls in a region I believed to be India.....

"Laura Mundo is something else again! I believe at a time she was in love with this Lama. Ted Zilch, alias 'The Fart', is a cart, and he smells on ice as far as I am concerned!"

Connie Grzych, a former co-worker of Laura Mundo, writes: "I thoroughly enjoyed your last edition, and am I glad I made it through Halloween!

"Nope, I didn't send Laura my form letter, but she didn't send me her newsletter, either! And I had never overdosed before. Her living with me drove me insane. Maybe it's the mental tricks she is doing to get control that caused me to be so depressed. Come to think about it, I have been depressed all the years I worked with her. Since she left my home, I have never felt better in my life and haven't taken any medication. Since her sons have told me they caught her doing rituals of exorcism, I wonder what else she might be doing. Although debunking the psychics publicly, she seems to dabble a little when no one is looking.

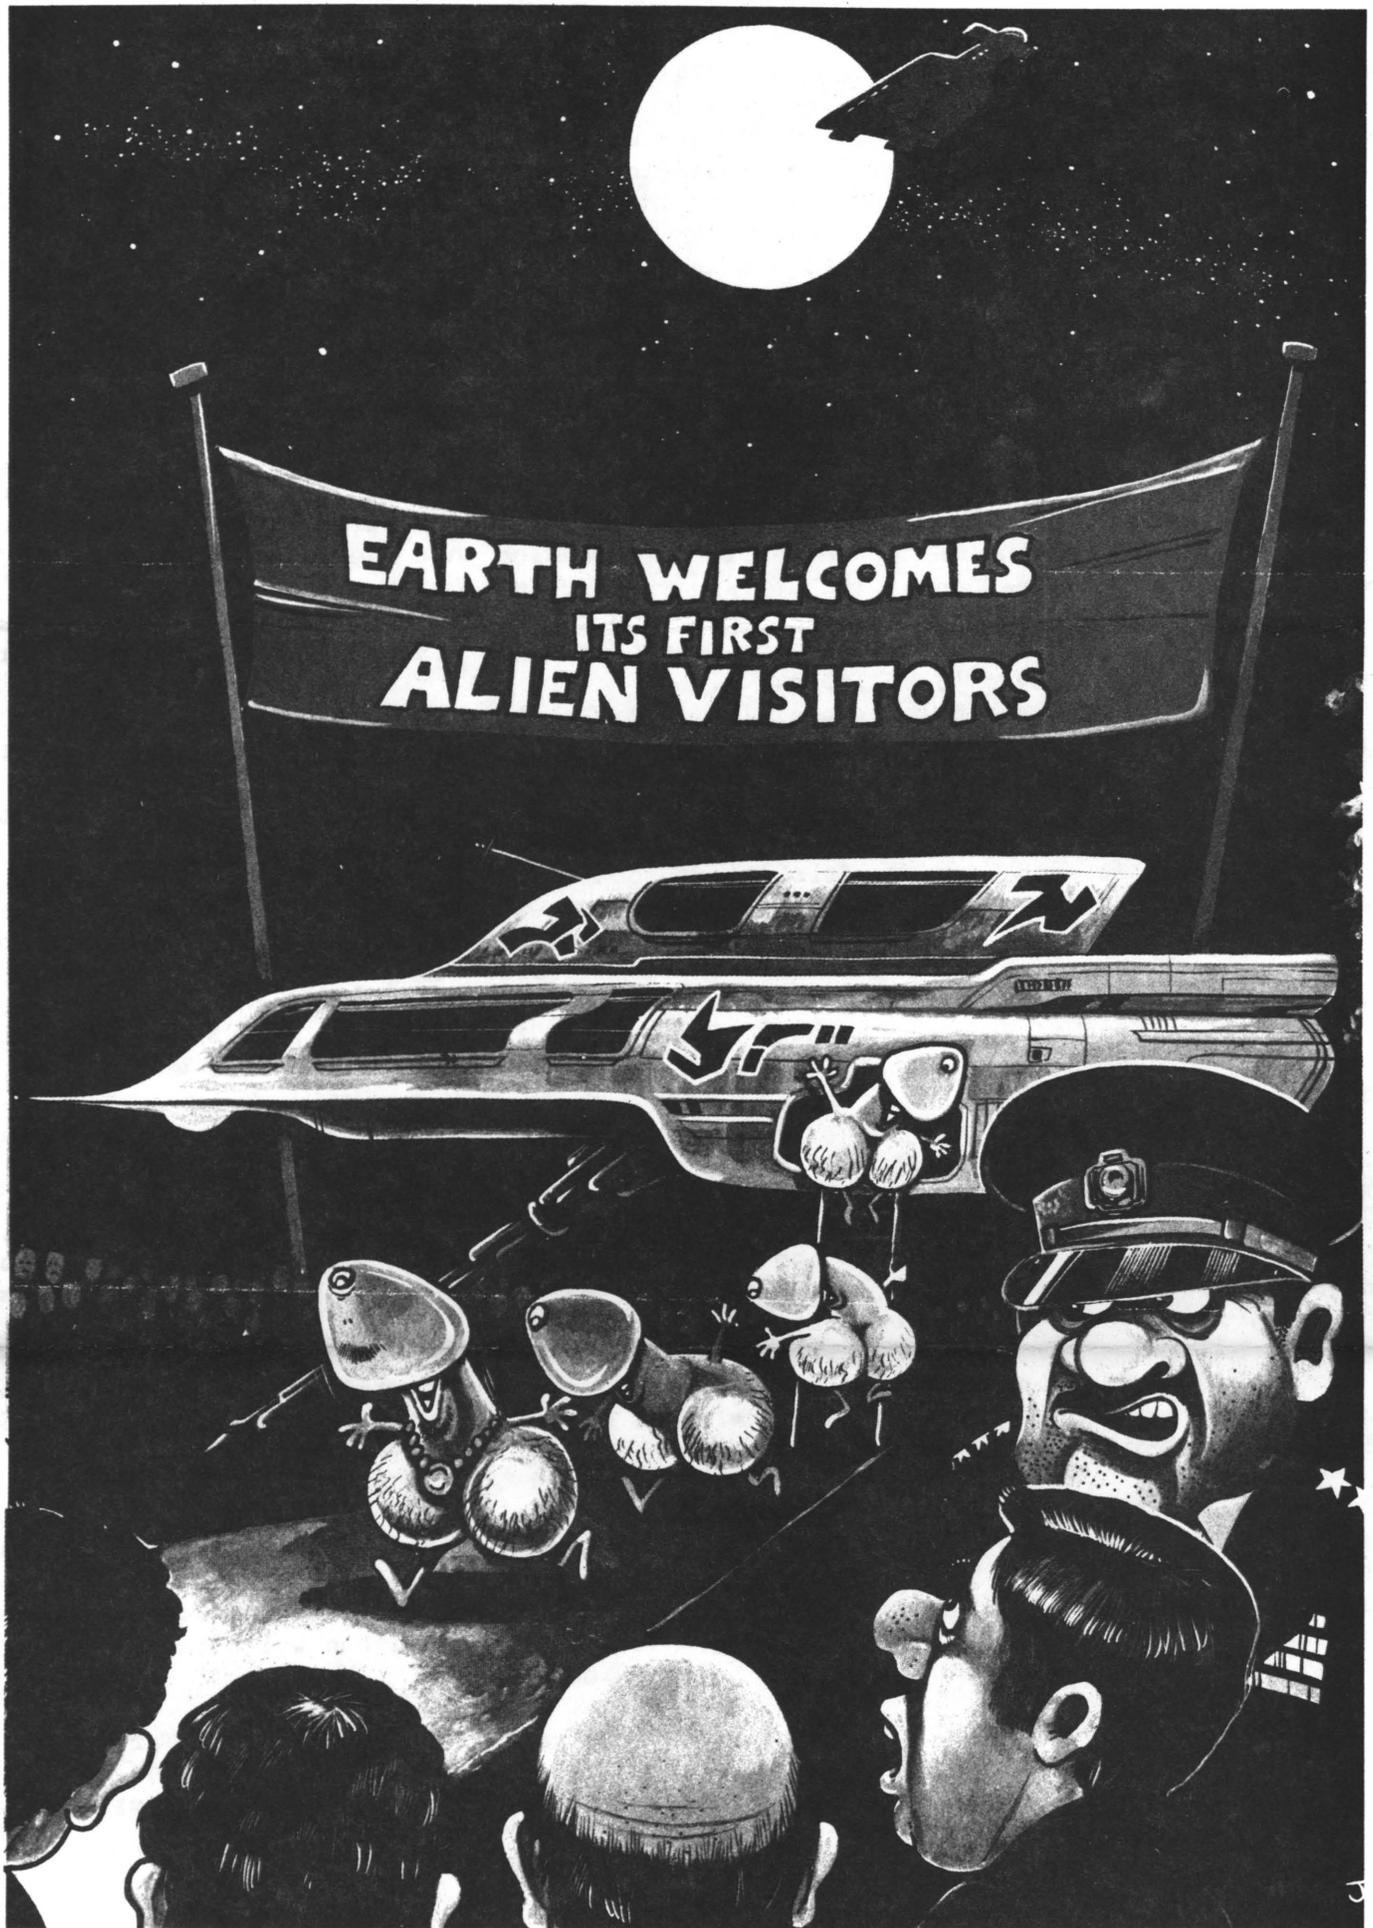

"The best story yet is how 'she was raped because of me.' I like that one, and can hardly wait till it gets out in print.....Laura was asked to leave my home, not the Flying Saucer Information Center, as she equates it and her as being one unit. My research continues. The only difference is that I didn't write a chapter on how a space man saved my life from overdosing, as she did when she put on the big act at the ESP fair, claiming to be possessed, but strangely enough she quieted down when someone mentioned getting the ambulance.....Please continue sending your zine. Love it!"

David Fideler writes: "Just thought that I'd send you congratulations for surviving Halloween. Laura Mundo is, in my opinion, off her rocker. Or rather the whole 'Flying Saucer Information Center' gang is!....."

The Amazing Xerox, alias Curt Sutherly writes: ".....By the way, since the infamous shadowy Keel(haul) is presently nowhere on the scene (meaning he isn't writing you or anyone letters - and of course I know the reason why), I am filling in for him in the Miserable Letter Department. It is an honor that is passed from Ufological mentor to student in the worst possible tradition. Don't get me wrong; I am not saying I can write better material than Keel does - only worse. Which is the general idea....."

George Earley writes: ".....The drawing of the rock-like inhabitant of Mars is a handsome piece of work, (in 'Saucer Doze.') If Betty's artistic talents increase with maturity, she, like Dr. Donald Menzel, may have her Martian pictures hung in the Smithsonian. I hope we will see more of her work in future issues....."

Our sincere thanks to George Earley, and also to all those whose letters Space did not permit us to print this time. Merry Xmas to All, and to All a Good Night. - Editor.

CAPTION (by Ted Zilch): "Call Moseley and tell him his friends have arrived!"
