BE THERE AND BRING ALL YOUR FRIENDS! MR. VAN TASSEL HAS A MESSAGE FOR ALL!

It is with the greatest of pleasure that the UFO Study Club of Kansas City announces George W. Van Tassel of Giant Rock, Calif., as our next speaker. He appears for the purpose of bringing his message to EVERYONE! His subject will be: "The Phenomena of the Times," and will include: Geophysical, Scientific, Economic, Religious and Political Aspects of the Spacecraft Appearing Around and Landing on the Earth.

Mr. Van Tassel has spent the past twelve years of his life in searching out the truths of the Saucer picture. He is the author of three books, "I Rode A Flying Saucer," and "Into This World and Out Again," and "The Council of Seven Lights." He is also the publisher of "Proceedings," a paper that carries much valuable information for all persons interested in the Saucer subject. It is also a branch of the Ministry of Universal Wisdom, Inc., a non-sectarian and non-profit organization.

Mr. Van Tassel is an ardent researcher and relates his many experiences with both space people and their craft. His information is rather unlimited, and he is a capable speaker and has sponsored the Giant Rock Space Convention during the past several years. This man is well worth hearing and is one of the very top men in the field. So come! Tell your friends! Your Club is expecting a turnout of record proportions! You are the one who is directly responsible for it! Talk it up and BE SURE TO COME YOURSELF AND BRING A CAR LOAD OF FRIENDS. Don't forget the date. Make this the most important date of the year up to now.

MORE LECTURES COMING

MR. GEORGE KING OF LONDON, ENGLAND

Thursday Evening

Drexel Hall

April 21 at 8 P.M.

Donations \$1.50 and 50¢ Juniors

Linwood & Baltimore

Mr. George King, leader of the Aetherius Society of London, England, will speak before our Club on Thursday evening, April 21, at 8:00 P.M. at Drexel Hall. As Mr. King describes his experience, he was first contacted by Space People in May 1954. Previous to that contact he had not heard of Flying Saucers except for occasional reports appearing in the English Press. Mr. King founded the Aetherius Society in London to propagate the great wisdom of these highly evolved beings from other planets. Come and hear of his many wonderful experiences. Tell everyone you see about this lecture.

MR. RILEY CRABB OF B.S.R.A. TO GIVE A LECTURE

Mr. Riley Crabb, of Vista, California, will be here for a lecture to our Club on May 4th. He is the new director of Borderland Sciences Research Associates and is on tour, giving lectures in the mid-west. Keep this date in mind and we will be sending out more information about this lecture at a later date. Please keep this bulletin at hand so you can refer to these dates for our coming lectures. Mark these dates on your calendar so you won't forget them. They are important appointments!! These men are here for your pleasure and if you want to hear them you must make arrangements to do so!!!

"COLLEGE OF KNOWLEDGE" NEWS LETTER FROM THE HALSEY'S--Been receiving them since they went back west. They have meetings at their place on Wednesday, Friday and Saturday evenings and Sunday afternoons, 731 So. Serrano, Los Angeles 5, California. Their News Letter is really newsy, anyone interested can write them about it.

From "My Weekly Reader", the Junior newspaper for schools: "MOON RELAY. The Navy has set up a communication system by way of the moon. The system links Maryland and Hawaii. The first message was sent a few weeks ago. It was a radiophotograph spelling out the words, "Moon relay." The moon-relay system has one big advantage over present radio links. It will not be bothered by noise interferences or blackouts. The main disadvantage is that radio contact can be made only when the moon is above the horizon at both Maryland and Hawaii."

"Every thought sent forth is a never ending vibration winging its way across the universe to bring us back just what we sent forth. We CAN control the vibrations that emanate from US--and WE CAN hereby control OUR destinies."

-----  
"INTERSTELLAR LISTENING MAY PROVE LUCRETIVS RIGHT 20 CENTURIES AGO"--In 65 B.C. a Roman named Lucretius shocked his followers with a fantastic thought:"All this visible universe is not unique in nature, and we must believe that there are, in other regions of space, other worlds, other beings and other men."...In 1960 A.D.--sometime next month (March) two Americans, at work in a West Virginia valley, will flick a switch and patiently attempt to prove that Lucretius was right. As casually as a neighbor phoning to ask whether she can borrow a cup of sugar, they'll be inquiring:"Are you there, Tau Ceti?" And saying hopefully: "Come in, Epsilon Eridani!"...They'll be banking on the possibility that these two neighbors, a mere 66,000,000,000,000 miles away, will, at the precise moment W. Virginia is listening, be speaking to us...In what language? Possibly in mathematics. Or chemistry. Fantastic? It certainly is. But this is the SPACE AGE. And more rapidly than anyone had dreamed possible, the world of Buck Rogers and Jules Verne is catching up with reality..From Kansas City Star, Feb.27.

Also from the Kansas City Paper comes these items:--Alamogordo, N.M.,March 12. (AP) An official of an organization dedicated to the study of unidentified flying objects (UFO) said today the group has physical evidence of the existence of such phenomena. And a challenge was issued to the U. S. Air Force to try to refute the evidence. The challenge came in a letter from Mrs. Coral E. Lorenzen of Alamogordo, who is an international director of the Aerial Phenomena Research Organization. Mrs. Lorenzen said today A.P.R.O. has in its possession two pieces of material found after what she termed "an extraterrestrial vehicle...met with disaster in the earth's atmosphere." Mrs. Lorenzen's letter was sent to Major Lawrence J. Tacker of the office of public information in Washington.

Major Keyhoe in the news again..."Hide Facts on Flying Saucer"..March 19,Washington, D.C...Maj. Donald E. Keyhoe, retired, director of N.I.C.A.P. accuses air force of not giving correct story in one instance of a mysterious round flying object sighted at Redmond, Oregon, September 24, 1959. He says, "The Air Force was fully aware that its own and the FAA evidence proved this was some unknown machine under intelligent control. We believe that the public interest is best served by honest official statements disclosing the full details in all U.F.O. cases investigated by the U.S. Air Force, and that concealing the facts will only arouse public suspicion and harm."

After a few items like these in the Kansas City papers we find this editorial: "THE FLYING SAUCERS ARE BACK"-March 25...Anyone who believed (or hoped) that the flying saucer issue had been dropped now may be disappointed. It's popped back into the news. Not only do people keep seeing strange flying things, the Air Force has been charged anew with concealing saucer facts. For years, the air arm has conducted periodic investigations of unidentified flying objects. Repeatedly, the service has concluded that virtually all U.F.O.'s can be attributed to natural phenomena. Air officials say there never has been evidence to confirm ideas that U.F.O.'s may be interplanetary space-ships...But recently Donald Keyhoe, director of a nongovernment committee to investigate saucer-type things in the sky, accused the Air Force of covering up the facts. Keyhoe, a retired Marine officer, has written books and articles to present the view that saucers really are vehicles manned by forces from Venus, Mars, or somewhere else out there....So, here we go again!!

From LLP, Washington, D.C.: EXTRA! HOLD EVERYTHING! WE HAVE SEEN THE REAL McCOY! It is a published document that seems due to change the status of something dear to the heart of many a Researcher. It was published in an obscure place and its coverage very limited. Whether or not someone "Intentionally" 'left the back door open' is not known - since SOME things may best come out gradually. That's why we must delay giving you DETAILS right now. However, you will unquestionably be hearing a lot about it before long. That's all we can tell you at this time. "A WORTHY STATEMENT," say the comments, "BUT ABOUT TEN YEARS LATE!"

MAN REACHES EVER FARTHER OUT!...WHO OWNS THE CLOUDS?--This may soon become a legal question. A N.Y. firm plans to use them as "billboards", A "Skyjector" mounted on a 4-ton truck will cast messages on them readable 10 miles away; will the very clouds then howl to us about what beer to drink! What may this mean, for good or bad? Will commercialism gobble up the beauties of our skies and clouds - against which we love to write the private thoughts of our own inner communing?

THE PASSING SCENE:"Every day 100,000 Human Beings finish their Earthly Span and "pass off" into the Vast BEYOND! "Where are they? Where do they go?... In Singapore is the "strangest street in the world"-the STREET OF THE DYING, niches where Chinese go to die - Temple, Casket Mfgs., Undertakers all nearby, often Holy Men attend the Dying and by SUGGESTION usher them consciously into "liberation" till 'silver cord' is severed...There is more and more talk of BY-PASSING DEATH, that DEATH means DEFEAT!, it is an 'ENEMY' "the LAST ENEMY that SHALL BE OVERCOME"; continued interest in Annalee Skarin, said to have TRANSMUTED yet appears in 3-D at will, then VANISHES! Many feel we may be nearing the time when 'Ye shall be changed in the twinkling of an eye, SOME NEW CONCEPT SEEMS TO BE COMING IN, WATCH! "And there shall be no more death...for the former things are passed away" St. John. The CONCEPT (conception) MUST come first-- WE ARE IN THE AGE OF MARVELS!! "The Law of the Spirit of Life hath made me FREE from the law of sin and DEATH",--one group has out stickers - "IMMORTALITY NOW."

MANY SAUCERS STILL DO "NAME-CALLING" AMONG THEMSELVES - a trait of the spiritually immature -- LET'S BATTLE PRINCIPLES, NOT PERSONALITIES! - Ed.

SOMEONE HAS SAID "ALL THINGS ARE BORN OF LONELINESS."

We certainly appreciate the NEWS received in the LLP. We think it one of the finest publications in the field.

Another one is the Cosmic Digest published and edited by our own member Dwight Bockman under the name of Cosmic Press, Box 316, Independence, Mo. The second edition is just off the press.

From THIS WEEK magazine of March 20 comes another article by Dr. Werner Von Braun... WHY SHOULD AMERICA CONQUER SPACE?...Excerpts from this are: When we speak of the "Conquest of Space" we had better clarify that term right at the outset. For one thing, we do not mean conquest in the sense of beating little green men into submission and staking out a nationalistic claim on the Universe. Also, space is a pretty big place-- they say it is even bigger than Texas and Alaska thrown together. Not even the boldest science fiction writer would ever dream of earth men exploring all the space from here to infinity. When we speak of conquest of space we mean no more than visits to a few of our close celestial neighbors. Nevertheless, some of these neighboring stars may be just as intriguing and just as full of mysteries as our own little planet which until the dawn of the Space Age we called The World...Why must we take up this challenge? Why must we conquer space now that we have the technical ability to do it? Dr. James R. Killian, the President's former Scientific Advisor, gave us the main reason "the compelling urge to explore the unknown."...Just plain curiosity has always been a far more effective mainspring for research and exploration than hope for economic returns. ...Space lies out there like a vast, unexplored ocean--accessible to all nations large or small, a challenge for anyone with sailor's blood in his veins. Now that for the first time in history man is about ready and able to build ships which can penetrate that ocean, there can be no question that some men will take up the challenge. Some of them will make great discoveries out there, and some of these discoveries will greatly affect the course of history on our home planet. Shall we exclude ourselves from this contest because we prefer to "devote our riches to luxury?"...We have just opened the door into the limitless reaches of the Universe and we can see just far enough ahead to know that man is at the threshold of a momentous area. Here is opportunity, challenge, adventure so tremendous as to exceed anything which has gone before

...It is impossible to predict the nature of all these discoveries: their cumulative effect will be tantamount to a scientific revolution. But it will also be a revolution of human perspective, and here may be space flight's most far-reaching pay off. We need not fear that future space explorers on their heaven-storming journeys will lose their humility. The heavens will surround them as an eternal reminder that there is a force greater than the thrust of their rocket ships, a spirit greater than the cold logic of their computers, a power greater than that of their own nation.

"Every man should live because upon his shoulders rests a divine responsibility. It has been said by many: "This old world owes me a living." That is not true. This world owes nothing to any of us. We have plundered her, robbed her, torn her jewels from her brow, bared her nakedness, feasted upon the very life of her, gouged into her very heart and at the same time continually cursed her. No man has the right to live upon this earth who does not contribute something of value in return--buildings--bridges--highways--art--melody or great understanding and kindness, for every man was created to be a messenger of light and crowned with a high destiny." ('Ye Are Gods' by Annalee Skarin)

What you don't know you can always learn...Men who do things that count never stop to count them...Not what you do, but how you do it.

A CHALLENGE TO SPIRITUAL LEADERS!! Excerpts from this pamphlet by George Adamski: "The reality of these ships from other planets BELONG IN THE REALM OF THE COSMOS. Therefore those who could best bring forth the truth to the whole of mankind and establish friendly relations between the visitors and ourselves, would be THE GREAT RELIGIONS OF THE WORLD, united in at least this one purpose. Such union would inevitably lead to further unity in which the hairs of difference in creed and dogma would no longer seem worth splitting. I believe this whole phenomena has reached a point where it should be recognized as a fulfillment of long cherished dreams and hopes, whereby man once again will understand his relationship to the Cosmos itself."

Remember our tape Librarian, if you want to borrow tapes for playing to groups in your home, call or see Ken Priest, 3001 Norton, Independence, Mo.

Mr. A. Neal Pinkerton has a large selection of books in the Club library and they are always on display at our meetings.

Small minds discuss persons---Average minds discuss events---Great minds discuss ideas!! Which class are we in?

Remember these dates: April 14th--Van Tassel. April 21st--George King. May 4th--Riley Crabb.
