

THEY KINGDOM COME

Published by

The Los Angeles Interplanetary Study Groups

Gabriel Green, Chairman

Dedicated to

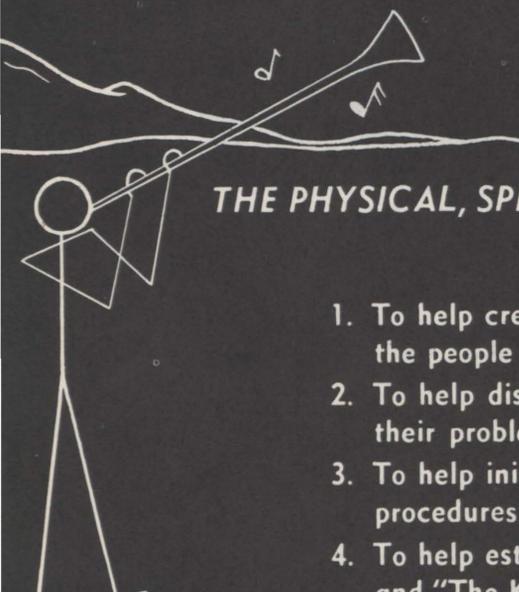

THE PHYSICAL, SPIRITUAL, AND ECONOMIC EMANCIPATION OF MAN

OUR PURPOSE

1. To help create greater understanding and cooperation between the people of earth and the people of space.
2. To help disseminate to the earth's peoples the solutions to their problems.
3. To help initiate, through political and economic action, the procedures for providing abundance for all.
4. To help establish "The Universal Brotherhood of All Mankind" and "The Kingdom of Heaven on Earth."

Issue No. 5

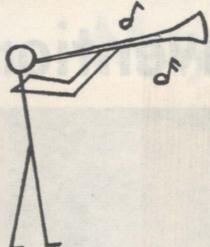

June, 1957

George W. Van Tassel

1. Manager and operator of GIANT ROCK AIRPORT.
2. Author of "I RODE A FLYING SAUCER" and "INTO THIS WORLD AND OUT AGAIN".
3. Editor of "PROCEEDINGS" magazine.
4. Founder of the "COLLEGE OF UNIVERSAL WISDOM".
5. Host of four years of SPACECRAFT CONVENTIONS at GIANT ROCK, CALIFORNIA.
6. Candidate for PRESIDENT OF THE UNITED STATES OF AMERICA in 1960.

VAN TASSEL ANNOUNCES BID FOR PRESIDENCY AT SPACECRAFT CONVENTION.

Even though Life magazine reported a facitious and grossly distorted account of the convention in their May 22nd issue, and what little coverage the newspapers gave, hit a new low in the field of journalism for gross distortion and outright falsification of the facts, the convention was a fine success.

The several new "contact" speakers this year, consisting of Howard Menger, Buck Nelson, Kelvin Rowe, Calvin Girvin, Ray and Rex Stanford, and Hope Troxell held the saucer fans spellbound with accounts of their experiences. The old timers were in their usual fine speaking form.

Speakers were George Van Tassel, convention host; Daniel Fry, Truman Bethurum, Orfeo Angelucci, Howard Menger, Buck Nelson, Carl Anderson, Calvin Girvin, Kelvin Rowe, Ray and Rex Stanford, Dana Howard, Peace Pilgrim, Hope Troxell, Fay Clark, and Harry Mays. New and forthcoming books by the speakers are "They Call At Dawn" by Kelvin Rowe, "Wisdom of the Universe" by Hope Troxell, and "The Night Has A Thousand Saucers" by Calvin Girvin.

The highlight of the convention to your editor was when convention host George Van Tassel, announced his candidacy for President of the United States in 1960 at the unexpected request of the space people.

POLITICAL AND ECONOMIC ACTION NECESSARY TO THE ACCOMPLISHMENT OF GOD'S WORKS.

Since your editor has declared his intention to run for congressman, and now that Van Tassel has thrown his hat into the political arena, it may be necessary to touch on this subject of political action, since it is one about which there seems to be a great deal of confusion and misunderstanding.

While it seems to be quite true that most earthlings can only learn the hard way through suffering and pain, it is now time for graduation and time to end destruction in our lives, or to be self-destroyed because we flunked the course and didn't learn our lessons.

In these latter days during the struggle between the light and dark forces when most people's minds are so confused that rationality escapes them, some poor mis-guided souls believe it is good to continue suffering, take no action to end the suffering, and so perpetuate the present hellish mess of destructive situations that the peoples of the world find themselves experiencing today.

Then too, quite a number of people today take the position of not doing anything to help themselves or others. They quite often justify their actions or mostly lack of action, by their philosophy or religion which provides them with unfaltering faith that God will provide if we just leave everything to Him. They want the Kingdom of Heaven served to them on a silver platter. They are very willing to partake of the fruits of the garden of Paradise if they don't have to help cultivate the garden.

These same people are opposed to engaging in any political or economic action as this would require some effort on their part. It would be easier they feel, to let some supernatural diety change everything on the earth to a heavenly state of existance in the twinkling of an eye. This is the day dreaming type of wishful thinking engaged in by the mis-informed, or the people who are just too lazy too help themselves and others. God Helps those who help themselves as God manifests His work through man.

Trusting in God is a fine thing if it isn't used as an excuse to escape man's responsibility to do God's work. God doesn't want man to suffer. Suffering and destruction are of man's own making because he refuses to live by the law (sin no more), and do the things or works which will end destructive conditions in men's lives.

Some of the 7000 Flying Saucer enthusiasts at the Giant Rock Spacecraft Convention.

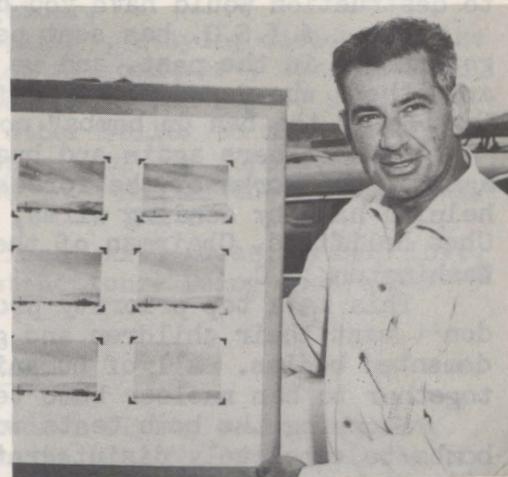

GABRIEL GREEN, L.A.I.S.G.

LONG JOHN of N.Y. radio fame records first hand saucer story.

COL. RON ORMOND, "Flying Saucers" correspondent.

ISRAEL NORKIN, "Saucer Diary" author and his saucer photos.

BOB BECK of "Flying Saucers" magazine interviews HELEN SIBERT of L.A.I.S.G.

HELEN SIBERT adds interest to The Los Angeles Interplanetary Study Groups information booth.

If a man is dying of thirst, some people are so confused and brain washed by misinformation from the deceptive agents of the devil, that their philosophy results in their telling the man dying of thirst to "have faith in God and He will save you", and the man dies because the person who could have saved him was either too confused or too lazy to give the man a drink of water. By their actions and works shall the children of God be known. Faith without works falls short of what is needed.

The Kingdom of Heaven on Earth is not to be set up in a moment for all to enjoy who have been too lazy and lacking in faith to lift a hand to help build it. It will be created and materialized over a period of time as a house is built, by men's actions and labors according to the plan of God, with Christ's instructions and plans, and with the assistance of His Angels (space people). It will be created by the works of men of great enough faith in what their action will bring, to really get into action and bring it.

The political actions now being undertaken by the disciples of today are for the purpose of setting up Christ's Kingdom on Earth. As the disciples of old taught what was to be done in preparing for the Kingdom, so do the disciples of today teach what must be done to materialize a heavenly state of existence now that the time has finally arrived to do so.

Van Tassel's announcement is a step in the right direction.

SPACE PEOPLE, NOT COMMUNISTS BEHIND PROPOSED NUCLEAR TEST BAN.

Three cheers for the 2000 American scientists who finally came out for banning further nuclear bomb tests. This is action. This is standing up for one's beliefs in spite of the efforts of the controlled mammonistic press to smear, belittle, defame, and discredit the men who are smart enough to recognize the handwriting on the wall and courageous enough to tell what they see.

The space people who understand and live by the laws of the universe are behind the proposed bans on future testing of nuclear bombs, and not the Communists, as the present stooges and puppets of the mammonistic forces that would keep you in darkness and lead you to destruction would have you believe.

The L.A.I.S.G. has sent petitions requesting a halt to nuclear testing to our heads of government in the past, and we are going to do it again now, to support the 2000 scientists and others who dared to stand for their convictions and were instrumental in instigating the "battle of the ban on bombs" now raging before congress.

Three cheers again and bravo for these sons of light and liberty who have taken a stand against the works of the forces of darkness. How about all the saucer clubs giving them a helping hand by sending wires, letters, and petitions to your congressman or to Congressman Chet Holifield, Chairman of the Senate-House Atomic Energy Committee, House Office Building, Washington, D.C.

This is a top priority project for all friends of the space people and parents who don't want their children and grand children to come into life with deformed, diseased, and demented bodies. All of humanity will receive the benefit of our efforts if we work together to ban nuclear bomb tests now.

Stopping the bomb tests won't hinder our national defense any. We already have enough bombs to completely disintegrate the earth or kill all life on it from the effects of their radiation. There is no defense in a nuclear war except not starting one in the first place. Mankind will now be forced to live in peace with his brothers or completely destroy itself.

The best defense against war is by learning how to render so much service to your fellowman and your enemy that the reason for war disappears. This is living your religion which says, "Love thy enemies".

Details of "Prior Choice Economics", the unique economic system of such a different nature that people can easily live their religion and by their works now fulfill the glorious non-destructive prophesies and promises of the religions of the earth and live in peace, will be printed in next month's issue of TKC. Be sure not to miss it.

SPACE PEOPLE AGAIN STRESS AMALGAMATION IN NEW MESSAGE.

The following message was recently received by telethought by one of our members who wishes to remain unidentified to the general public for the time being, for personal reasons.

"U256 calling.--Patrol from Cygnus, planet Deneb. (This is now a first magnitude star in the heavens.) This is the "Guardian Patrol" for scientists, those of God's children on earth who are working progressively toward peace, through understanding of God's laws in the destructive and constructive processes which are taking place at the present time. Please notify all space clubs, all interplanetary servants on earth, that YOU MUST AMALGAMATE AND FOCUS OR CENTER IN ONE PLACE NOW. It is time for strength and safety, which will be found in one gathering.

Although your individual work will be different, each one is very important, and there must not be a missing link. Send this message as soon as possible to Gabriel Green so that it may be published in the next issue of "Thy Kingdom Come". (End of message.)

MEMBERSHIP IN "AFSCA" NOW OPEN.

Membership in the Amalgamated Flying Saucer Clubs of America, a non-profit information disseminating and service organization, is now open to all clubs and individuals. Registration and membership fees are \$2.00 for clubs or heads of organizations, and \$1.00 for individuals. Identification cards will be issued to members. Please send all registration and membership fees to AFSCA, 2004 N. Hoover St., Los Angeles 27, California.

Plans for a national convention to be held in Los Angeles, with our international friends invited, are in the making. This is to be a huge affair and will require your support and cooperation to make it a success.

The registration fee is not for a club membership card, but is a contribution for the cause of helping to unify the saucer movement into a powerful force capable of exerting constructive action and better informing the masses of earth's peoples about this very vital subject of flying saucers. It is a way of your showing a sincere expression of interest in this activity. You receive the benefit of whatever accomplishments that AFSCA helps to achieve.

Membership in AFSCA does not infringe on the individuality of any saucer group or make it anything less than it is now. But instead, adds to what it was, through amalgamation with groups of like interest and purpose for greater strength and unity.

AFSCA has no stringent rules or regulations to abide by or to adhere to other than sincerity of interest in helping to bring about a greater understanding of the overall flying saucer program and of the procedures to be employed in correcting present, and preventing future destructive conditions in the lives of earth's peoples. (Further information on AFSCA's purposes can be found on page 12 of TKC #4.)

Some people have advocated that the saucer groups remain dis-united, each one working in their own way separately. That was alright in the past up to now, but now it is time to unite for safety and strength and effectiveness, just as it is now time to unite the races of mankind of earth which have been kept separated for a purpose, into the Universal Brotherhood of All Mankind. Now it is time to amalgamate and work together.

If you never intend to accomplish anything (relatively speaking), staying divided is the way to do it. Everyone knows the truth of the old axiom, "Divide and conquer", likewise "In unity there is strength". Now is the time to stand up and be counted. You may be surprised to see how many are standing with you. But don't wait for the other fellow to make the first move. Now is the time to demonstrate the courage and pioneer spirit of our forefathers. Now is the time to collectively make a stand for what we believe in. Now is the time for us to act in unity of purpose.

We are on the move. God's army on earth is organizing to fight with ideas, truth, love, and construction, instead of with bombs, bullets, hate, and destruction. Doing good works for God, absolutely nothing is impossible.

BIG FLYING SAUCER MEET AT HARMONY GROVE CAMP.

The Long Beach UFO Research Society is sponsoring a big outdoor flying saucer meeting, Saturday, July 13, 1957 at Escondido, California. Starting time is 10 A.M. and continues through the evening. A restaurant, snack bar, and picnic table under the trees are available. Furnished sleeping and housekeeping cabins for two people rent for \$2.00 and \$2.50, for those wishing to stay overnight. \$1.00 fare round trip buses will leave from Long Beach. All saucer enthusiasts and clubs are invited to attend. For further information contact: Robert W. Anderson, Pres., L.B. UFO Research Society, Long Beach 13, Calif. Phone: HE 24326.

AN APPEAL FOR HELP.

We wish to express our thanks and appreciation to those few persons who have so generously contributed their time and money in helping to make this publication possible. This is a case where so few are carrying the load for so many.

If people could only see volumetrically and view the cause and effect results of their inaction today, there wouldn't be a non-contributor to TKC on our mailing list. But much of mankind is blind. They cannot think for themselves, and refuse to act to help themselves, so it will be up to the enlightened ones to carry the load of their brothers who are still in darkness.

This appeal is not directed to other saucer organizations, as they are all doing fine work in their own right and are also deserving of your support, but is made to those persons who are in sympathy with our cause, who enjoy receiving TKC, and who would like to help in some way, but as yet haven't taken the opportunity to do so. A little help from a number of people can go a long way towards reaching the goals set forth on our cover.

With love and thanks,

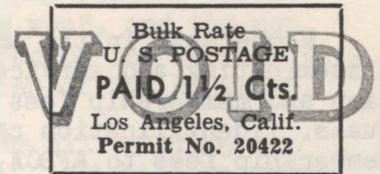

Gabriel
