

A newsletter published by the UFO Study Group of Greater St. Louis, Inc., P.O. Box 6612, St. Louis, Mo. 63125. The UFO Study Group is not affiliated with any national society but is a nonprofit organization dedicated to the research and investigation of unidentified flying objects (UFOs).

THE UFO

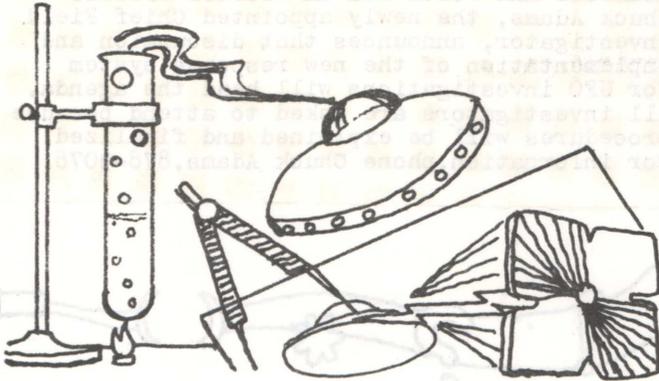

ENIGMA

EDITOR: John E. Schroeder

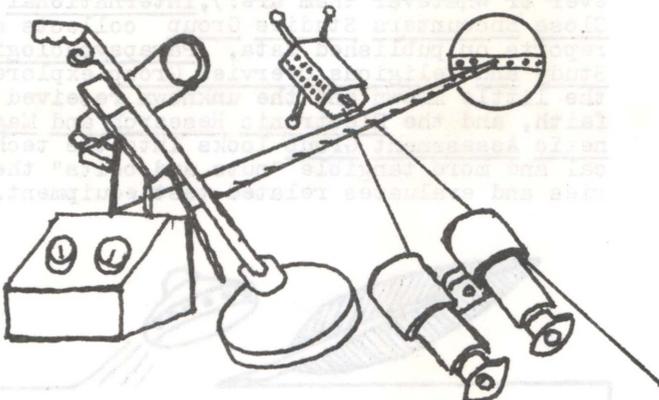

EDITORIAL COMMITTEE: John Roppolo, Mary Hagemeyer and the Secretaries of the three committees of the UFO Study Group, the Investigators Committee, the Parapsychology Committee and the Saint Charles UFO Committee.

VOLUME 2, NO. 3, April 1982

NEW TECHNOLOGY IN UFO RESEARCH

Get your special Easter gift, 2 p.m., Sunday, April 11 at the Farm and Home Savings Building, 110 West Lockwood (Lockwood at Gore), Webster Groves, MO. Marjorie Sherrill, Historian for the UFO Study Group, will head a panel of aeronautical engineers and UFO investigators in a demonstration of and discussion about, "New Technology in UFO Research." Research has been done into Hendry's Handbook for UFO Investigators to ascertain the equipment necessary for analysis of data. Harley B. Rutledges Project Identification is the source of sophisticated new equipment being used in the most advanced field studies.

According to Marjorie Sherrill, "We will not only deal with theory at levels non-experts can understand; but we will explain the functions of new evaluative tools. Best of all, we will actually demonstrate Magnetometers and other equipment in the investigator's kit; and we will break into small groups for maximum discussion of what we have learned."

The second gift for UFO buffs willing to invest their Easter afternoon considering "mind-stretching information" will come from Frank Brown. He has xeroxed several pages of antique and current UFO reports which you will find both intriguing and interesting."

RESERVE A BANQUET TABLE NOW

With this copy of the Enigma, you will receive your invitation to participate in the big Awards Banquet, June 13 at Stegton's Restaurant, Highway 70 and Fifth Street in St. Charles, MO. Dr. J. Allen Hynek, internationally known UFO investigator, astronomer, author and lecturer will be the featured speaker. The St. Louis Astronomical Society will also make a spectacular slide presentation.

A social hour at which refreshments will be served begins at five p.m. The banquet buffet with a choice of entrees, salads and vegetables topped off by delicious desserts will be served promptly at six p.m.

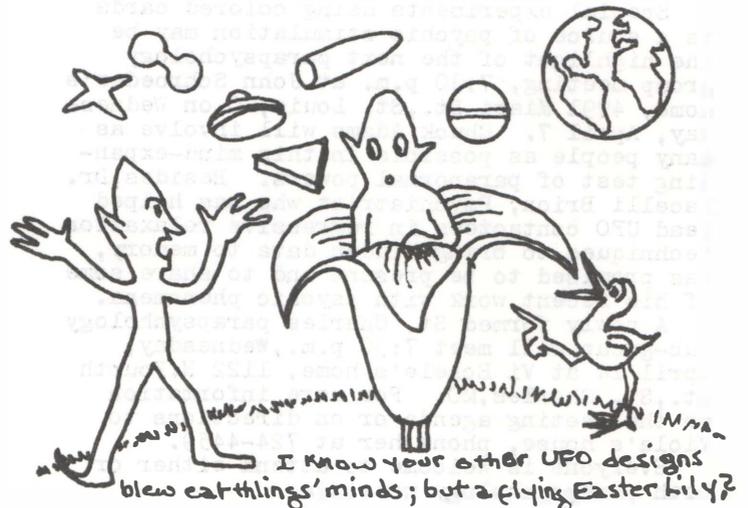

Clifford Palmberg, Chairman of the Awards Banquet Committee, urges everyone to attend. "This is our one fund raising effort this year and everything possible is being done to make it a memorable occasion. Seating is limited to 200 and attendance is by invitation only, so invite your friends personally and send in your reservations with check or money order as soon as you can."

Vice President, Leo Wicklinski adds, "You will want to be involved in this gala event. It will be top-drawer. And you will also want to honor those who have been of service to the UFO Study Group who will be given special awards."

You will be happy to learn that plenty of question and answer time has been set aside for discussion of Dr. J. Allen Hynek's speech and the astronomical slide-show. Besides, during the social hour and after the banquet, you will be able to speak personally with Dr. Hynek and the other presenters.

FAR OUT SPACE

NEW FORMAT AND SCHEDULE FOR THE ENIGMA

Since the UFO Study Group of Greater St. Louis, Inc. has received its non-profit mailing permit, the UFO Enigma will be sent monthly, nine times a year to Study Group members and other subscribers. You will still receive the same number of pages annually, but the news will be fresh.

Powell Adams states one advantage, "Each member will have a monthly reminder of the Study Group meeting, the speaker and the topic prior to the meeting date. Hopefully that will encourage the attendance of those who are interested since newspaper notices have been sharply reduced in frequency or curtailed in some publications.

Frankly, we are trying the type reduction and offset printing technique as a money-saving experiment. After paying for previous set-type publications and for the mailing permit, Study Group funds are low. Let us know your reaction to the new format and your opinion concerning a possible \$1 increase in dues next year to allow for a totally type-set newsletter.

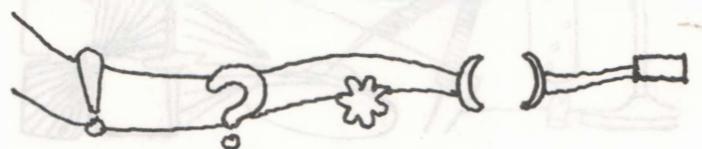

UFO FIELD INVESTIGATORS MEET APRIL 3

The UFO Field Investigators meet the first Saturday of each month, 7:30 p.m. at the Clayton Federal Savings and Loan Association, Lockwood and South Elm in Webster Groves. Chuck Adams, the newly appointed Chief Field Investigator, announces that discussion and implementation of the new response system for UFO investigations will head the agenda. All investigators are asked to attend because procedures will be explained and finalized. For information, phone Chuck Adams, 878-9078.

COMING IN FUTURE ENIGMAS

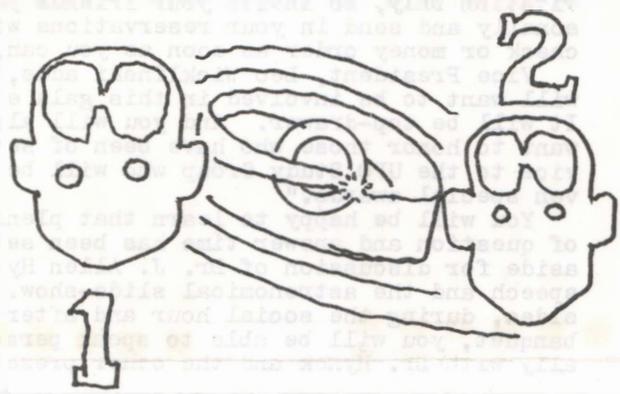

- * More information on the Awards Banquet!
- * An essay on "Piezoelectricity and Mystery Lights" by Chuck Adams.
- * Book reviews by Robert Murphy and by Steve Erdman.

ST. CHARLES STUDY GROUP IS BUSY

The St. Charles Committee will meet Tuesday, April 20, 7:30 p.m. at the Bonanza Sirloin Pit Restaurant Banquet Room, 1215 South Duchesne, St. Charles, MO. Discussion of current UFO and related topics is open to the public. For more information, contact Bruce Widaman, Chairman, 946-1394 or Mike Shannon, Secretary, at 946-1021.

The St. Charles Committee has sub-divided into several working "special interest" groups among which are: Parascientific Theory and Alternate Thinking Group which assesses such hypotheses as alternate realities, parallel universe(s), time travel and THEM (whoever or whatever they are!), International Close Encounters Studies Group collects and reports on published data, Parapsychological Study and Religious Overview Group explores the little known and the unknown received by faith, and the Electronic Research and Magnetic Assessment Group looks into the technical and more tangible "nuts and bolts" theories and evaluates related test equipment.

TWO PARAPSYCHOLOGY COMMITTEES NOW

Special experiments using colored cards as a source of psychic stimulation may be the highlight of the next parapsychology group meeting, 7:30 p.m. at John Schroeder's home, 4991 Miami St., St. Louis, MO on Wednesday, April 7. Chuck Adams will involve as many people as possible in this mind-expanding test of paranormal powers. Besides, Dr. Pacelli Brion, Psychiatrist who has helped lead UFO contactees in regressive relaxation techniques to bring hidden data to memory, has promised to be present and to share some of his recent work with psychic phenomena.

A newly formed St. Charles parapsychology sub-group will meet 7:30 p.m., Wednesday, April 14 at Vi Echele's home, 1122 N. Fourth St., St. Charles, MO. For more information on the meeting agenda or on directions to Viola's house, phone her at 724-4459.

Everyone is welcome to attend either or both parapsychology meetings.

CONTRIBUTORS WANTED

If you have an interesting article, experience, joke or cartoon you would like to share with others, please submit it to the UFO Enigma. We also welcome your letters and ideas.

All information should be typewritten or neatly written with the author's name or source of information included. Cartoons or drawings should be high contrast for the sake of reproduction.
