

The

UFO

Enigma

Volume 9, Number 4 DECEMBER 1988

The Enigma is a newsletter published monthly, except in the summer, by the UFO Study Group of Greater St. Louis, Inc. - P.O. Box 31544 - St. Louis, MO 63131. The UFO Study Group is not affiliated with any national society, but is a nonprofit organization dedicated to the investigation and reporting of unidentified flying objects (UFOs). Membership is \$8.00 per year beginning each September.

DECEMBER MEETING TO FEATURE STEPHEN MIHALIC ON LIFE FORCE FIELDS

The annual Christmas Party of UFO Study Group of Greater St. Louis, Inc. will feature Mr. Stephen Mihalic, who will speak on humanoid, animal and plant life force fields. UFO encounters, especially abductions, disrupt the human life force field which surrounds all living matter. Mr. Mihalic has a device which can detect these life force fields and will demonstrate it's capabilities.

Mr. Mihalic also has a device which he calls the "NOVA Device", which will re-stablize this field which may be disrupted by UFO encounters. In out of body experiences and under hypnosis, the human life force field can be measured and interesting manifestations can take place.

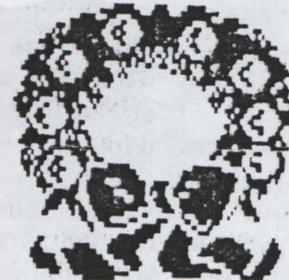

Members of the audience will have the opportunity to use their life force fields to move objects at a distance without physical contact with the object.

Also featured at this meeting is the annual Christmas Party. All members and guests are welcome. As in the past, this will include a cover dish buffet. We hesitate to suggest to members what they should bring because we always seem to have the perfect mix of casseroles, sandwiches, vegetables, cookies and dips. But what ever you do, come join us as we mix the investigation of UFO related

topics with the joy of Christmas together.

For those who wish to exchange gifts, we again ask that the gifts be kept to under \$5.00 in value and that they be clearly marked for a man, a woman or either.

The December meeting of the UFO Study Group of Greater St. Louis, Inc. will be held at 2:00 p.m. on Sunday, December 11, 1988 at the Farm and Home Savings and Loan community room, 110 West Lockwood (corner of Lockwood and Gore) in Webster Groves, Missouri.

SCIENTIFIC METHOD AND THE MASTERS OF SILENCE

By John E. Schroeder

Eight people attended the November 2 Parapsychology Committee meeting. All joined in the discussion of "The Scientific Method, the UFO Enigma and Parapsychology". John Schroeder quoted

Dr. Pierre Guerin, French Institute of Astrophysics and Senior Research Officer in the CNRS, "In science there is no proof of any phenomenon if no scientific model exists. The observation of the facts is not the actual fact! We have the testimonial proof but not the scientific proof. Scientists are not only embarrassed by UFOs; they are furious because they don't understand them. There is no possibility of explaining them in three-dimensional, space-time physics."

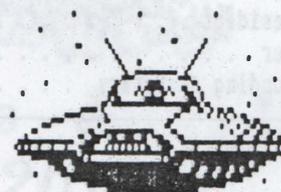

John adduced space-time and fourth dimension anomalies from Above Top Secret: The Worldwide UFO Cover-up by Timothy Good (Wm. Morris and Co, N.Y., N.Y., copyright 1987) a comprehensive international compendium of UFO information and also from film shot by Missouri Physicist, Dr. Harley Rutledge in which the visually observed object showed up only on alternate frames of motion picture stock shot at 24 frames per second. Others shared recollections of similar anomalies, UFOs that faded in and out, those slightly in advance of our technology, some possessing contracting light beams and abductees whose short trips proved to have lasted several days.

Citing various pages in the book, Rev. Schroeder traced sudden reticence on the part of scientists in many countries to discuss UFOs after U.S. Central Intelligence Agency contact. He offered supporting data for one of Timothy Good's theories, that direct U.S. sharing of security agency concerns over UFOs supported universally by military concurrence led to subverting of scientists, silencing of commentary which did not agree with the line that UFOs merit no scientific investigation. Still, this was followed by cooperation with allied nations willing to do extremely low frequency and electromagnetic field tests with funds budgeted to the CIA and the National Security Agency. UFO groups, especially NICAP and APRO, proved victims of CIA infiltration and disinformation; and three instances were cited in which UFO buff, Dr. J. Allen Hynek, seemed to work uninvited in collaboration with the CIA. Dr. Condon's disreputable report seemed another "scientific subversion to discredit UFO research."

In 1961, Gen. Chassin, former Commanding Officer of the French Air Force, wrote, "We must become dedicated

then in our zeal that the conspiracy of silence may not suppress news of the phenomena of the highest importance, with consequences which may be incalculable for the whole human race ... We risk being taken by surprise ... We should begin a great crusade of common sense in order to avoid what could be very dangerous. We invite all earth men to join ... who desire to see truth triumphant."

The next Parapsychology Committee meeting will be held 7:30 p.m. on December 7 at the Schroeder's home, 4991 Miami Street in St. Louis.

EDITORS NOTE: WARNING! Please have tongue firmly in cheek before reading the following. Like many fine wines, some of the puns may take time to foment.

MISSOURI MUFON ON THE GO!

By Bruce Widaman

Hello friends!! Considering all that has happened in the last few weeks, Ken Hanke and I thought a good release of information would be perfect for this issue of The Enigma. First of all, for those of you who do not subscribe to the MUFON Journal, I feel you are missing the best source of current UFOlogical data available at present. Thinking back now to the October issue, I am reminded of just how fortunate we are to have MUFON friends such as William Moore, Jamie Shandera, Stanton T. Friedman, Dr. Bruce Macabee, Dr. David Jacobs, Jennie Ziedman, Leonard Stringfield, Richard Hall, Larry Bryant, Ted Phillips and (Yes - I am coming to a specific thought here) of which has to include the two special names of Budd Hopkins and John Schuessler.

What does this all mean? To use a line from the movie "Dune". I feel inspired to compliment Bill Pitts' official New

Project Blue Book with perhaps the new "MJ-12" (MJ - MUFON Journal) and here in the heart of America - St. Louis - I am offering this list of 1989 New Years Reso-prediction-lutions. And as members of the new "MJ-12", I see Bill Moore, Jamie Shandera and David Jacobs in charge of radio, television and newspapers! I see Stan Friedman and Bruce Macabee covering the scientific end; Jennie Ziedman, the secretary; Richard Hall, the Historian and Larry Bryant can finally come out of the closet and help Len Stringfield finally publish some names with his data. Ted Phillips can finally get rid of all those jars of dirt by donating them to George Fawcett's UFO Museum.

Budd will finally get to talk directly with the aliens and maybe open up the first interplanetary art gallery. John Schuessler will be in position to bridge MUFON, the United Nations, NASA, the scientific community, the U.S. government and the aliens together. So perhaps our future planet can peacefully progress into the future. You can sure tell we all just celebrated Thanksgiving.

I also was most thankful for the November issue of the MUFON Journal's advance information of the two day Mini MUFON Symposium in Houston. (I am saying thank you to Max Washburn, Rick Holt, Vicky, Cliff Palmberg and all you friendly Texans).

The speakers at the Houston event were John Schuessler and Budd Hopkins. The topics included: Abductions and genetic engineering - U.S. Government cover-up, close encounters, recent world wide sightings, some major Texas cases, local research and exopsychology. Several insights were shared about specific abductions. I now think that the abduction cases (as Dr. Hynek used to say) "are the embarrassment of riches."

Many people in the audience stood up and recounted some type of abduction experience. I would say that this excellent program was as successful as the Eurika Springs, Arkansas MUFON Conference which Ken and I attended last spring.

I was fortunate enough to make Vicky Landrum's acquaintance and if you are able to make the next UFO Study Group or St. Charles Research Committee meetings, I will ask that you please sign her petition to Congress to release the UFO cover up

information.

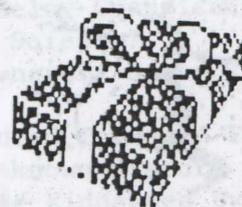

Another matter came up that I wish I had more information on. The John Lear material is still a very unbelievable set of ideas and information but after seeing the new movie "They Live", I am forced to at least think about the possibility. If you are able to go to the 1989 MUFON Symposium in Las Vegas, Nevada, you will be able to ask John Lear personally about this information.

Please help support UFO research and support the UFO Study Group of Greater St. Louis if possible.

Thank you most sincerely,

Bruce Widaman, Missouri MUFON
State Director

P.S.: Currently we have four active cases under investigation.

VIDEO TAPE REVIEW AT NOVEMBER MEETING

By John Roppolo

The UFO Study Group meeting of November 13 featured video tapes of two recently televised programs: the first was of the Hour Magazine specials of the week of November 7 through 11, and the second was an excerpt of the syndicated live special "UFO Cover-Up".

The Hour Magazine segments featured interviews with Budd Hopkins and several abductees. One of the women abductees described a physical examination, leaving her with physical scars that she "could not explain." A male abductee, "Rusty", described an incident where he and three friends saw a light at the back of the room, followed by a period of missing time. Later, after hypnotic regression, he found a scar above the knee that he had overlooked - one that was presumably inflicted during the abduction. Mr. Hopkins stated that a common occurrence

among abductees is to be repeatedly abducted through the years, sometimes initially at as young an age as 2 or 3.

Those present at the meeting also viewed the first part of "UFO Cover-Up". This first part was concerned with the history of UFO sightings (including a 1952 sighting over Washington, D.C.), the sightings of pilots, and sightings from behind the Iron Curtain.

In addition to the video presentations, the group also heard reports from the Library Committee and from Vice President Frank Brown regarding recent tabloid clippings. The Study Group invites all members and non-members to attend the next meeting, the Annual Christmas Party.

CE I AT BAY CITY, OREGON

By Joan H. Laurino

Somewhere in the late 1960's or early 1970's, a leisurely drive south along a woodsy section of Highway 101 in Oregon turned into an unforgettable adventure. Mrs. Wilma Wyman and her husband, Charles were heading toward their home in Bay city, Oregon. Bay City is situated on the northern coast of Oregon overlooking Tillamook Bay which is approximately 65 miles south of Washington State.

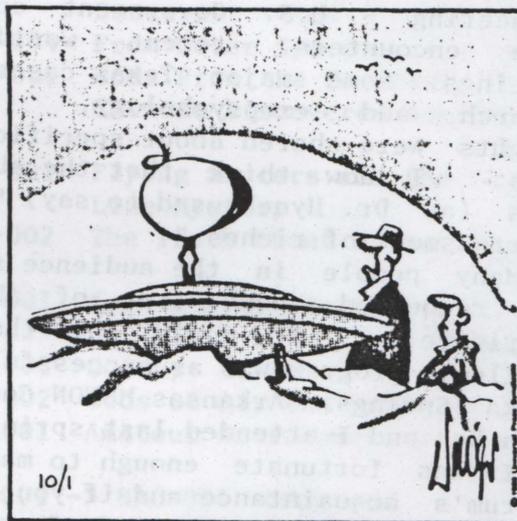

The evening was clear and starry, except for a red light gleaming in the west. This captured their attention when they approached Tillamook Bay. The Wymans rationalized that this was probably an unusually bright star, until the "star" began to speed towards their direction while increasing in size! As they were about to turn left on McCoy street where their home is located, Wilma urged her husband to zoom in on the flying machine for a better identification. The object didn't disappoint them for when they

parked momentarily at the "tide flats", near Warren Avenue, the object turned into a 25-30 foot diameter circular craft! It was shaped like a hat with its high dome and a pulsating red glow engulfing the entire craft. Totally silent, the disk slightly tilted in the couples direction and seemed plastered in the night sky about 150 feet up or near tree top level. In a few seconds, it straightened out and sped off toward the southeast. No physical effects in connection with the craft was noted nor any interaction with the environment.

The couple wasn't frightened, but felt overwhelmed that they personally saw a flying saucer -- something up until now didn't exist! Wilma, in her excitement, suggested reporting the sighting to authorities. Charles, emphatically refused to consider the thought, thus the subject was dropped.

Additional witnesses sprung up everywhere including a short discussion on UFOs on KTEL radio out of Tillamook, Oregon. Wilma did feel comfortable in reporting her sighting, but unfortunately the other witnesses cannot be located at this late time. The credibility of the Wymans is beyond reproach.

Here we have a fine example of the types of quality UFO experiences that get swept under the rug at times. My goal for the future, I hope, will be to fish out hidden UFO reports and to share them with the UFO Study Group of Greater St. Louis.

"Which way do you think it's facing?"

LIBRARY CORNER

By Peggy Roppolo

By lots of hard work, the Library Committee has filled 18 binders with archival material. Unfortunately, we have run out of binders before we ran out of clippings. Therefore, the Library Committee is asking for your help! We need 3-ring binders and notebook paper to continue our work. If you have extra school supplies, please bring them to the December meeting. We would really appreciate the materials.

Due to the fact that that our next Sunday meeting is our Christmas Party, we will only be bringing special requests from the UFO Study Group Library. In order to let our members know what our Library has to offer, we will be printing a catalog in The Enigma beginning with this issue. If you see something you like, give us a call, give us the File Report Code Number and we will bring it to the December meeting, provided (of course) the book is not already on loan. Please call us if we can help.
